

Data Blocks

(eventfilings_L3_v1)

GET https://plus.dnb.com/v1/data/duns/{dunsNumber}

The Data Block API is intended to vend Data Blocks to customers transactionally based on a request for a single DUNS.

Monitoring : Available. Please refer guide for details.

Request Parameters

Query Parameters

Name	Details
blockIDs	<p>[string] Required e.g.: blockID</p> <p>The block ID provided by Dun & Bradstreet that identifies the data block to be returned.</p> <p>Multiple values can be included, separated by commas.</p>
tradeUp	<p>[string] e.g.: hq</p> <p>Indicates if the Headquarters D-U-N-S Number should be returned if a Branch is requested.</p> <p>Valid values:</p> <ul style="list-style-type: none">* hq: If the provided D-U-N-S Number is a Branch, the Headquarter D-U-N-S Number is returned.* domhq: If the provided D-U-N-S Number is a Branch, the Domestic Headquarter D-U-N-S Number is returned. <p>If the requested D-U-N-S Number is not a Branch, that D-U-N-S Number will be returned regardless of the value of this parameter.</p> <p>If the parameter is omitted, the requested D-U-N-S Number is returned even if it is a Branch.</p>
customerReference	<p>[string] e.g.: customer reference text</p> <p>Up to 240 characters for a reference string to be linked to the request in order to support subsequent order reconciliation.</p>

Header Parameters

Name	Details
------	---------

Authorization	[string] Required e.g.: Bearer alphanumerictoken The access token provided by authentication.
---------------	--

Path Parameters

Name	Details
dunsNumber	[string] Required e.g.: 804735132 A 9-character numeric string identifying the entity by its Dun & Bradstreet D-U-N-S number.

Response(s)

Response for HTTP Status Code : 200

Name	Details
transactionDetail	[object] Required The information used to process this request.
transactionDetail.transactionID	[string] Required e.g.: rlh-hi9puyoiyk-jop8u-kd-d-1 A value assigned by the Dun & Bradstreet application to uniquely identify this request.
transactionDetail.transactionTimestamp	[string] Required e.g.: 2017-02-21T17:46:19.839Z The date and time, in ISO 8601 UTC Z standard, when this response was created.
transactionDetail.inLanguage	[string] Required e.g.: en-US An IETF BCP 47 code value that defines the language in which this product was rendered.
inquiryDetail	[object] The criteria used to process this request.
inquiryDetail.duns	[string] e.g.: 804735132 The D-U-N-S number provided in the request.
inquiryDetail.blockIDs	[array (string)] e.g.: blockID The blockIDs provided in the request.
inquiryDetail.tradeUp	[string] e.g.: hq The value of the tradeUp parameter provided in the request.

inquiryDetail.customerReference	[string] e.g.: Some text to describe the request. A reference string provided by the customer for this particular transaction.
blockStatus	[array (object)] Records the status of the data blocks requested by the customer.
blockStatus.blockID	[string] Required e.g.: blockID The unique identifier for the data block.
blockStatus.status	[string] Required e.g.: OK The current status of the data block fulfilled in this response. Possible values: * OK * Unavailable * Insufficient data
blockStatus.reason	[string] e.g.: Data is not available Any specific reason why the data block is not delivered in this response. Possible values: * Data is partially available or not available. * Data is not available for the branch. * Data is not available on the requested country code.
organization	[object] The details of the entity.
organization.duns	[string] e.g.: 804735132 The D-U-N-S® Number, a proprietary organizational identifier owned and managed by Dun & Bradstreet Inc, provides unique identification of a subject organization, in accordance with the Data Universal Numbering System (D-U-N-S®).
organization.countryISOAlpha2Code	[string] e.g.: US The two-letter country code, defined by the International Organization for Standardization (ISO) ISO 3166-1 scheme, identifying the country in which the entity is located. Note: Please refer to Country Code Substitutions Table [/html/resources/CountryCodes.html#country-substitute] for the country code substitutions.
organization.primaryName	[string] e.g.: GORMAN MANUFACTURING COMPANY, INC. Single name by which the organization is primarily known or identified.
organization.hasCompanyMoved	[boolean] e.g.: true When set to "true" it indicates that the company has changed its location at least once to a different

address than what was available in our records.

organization.documentFilings	[array (object)] Records details of documents which are on file at a registry or similar body.
organization.documentFilings.isStopD	[boolean] e.g.: true When true, this indicates that this record is under review by Dun & Bradstreet and should not be treated as final. When false, this indicates that this record is not under review by Dun & Bradstreet.
organization.documentFilings.isPrimary	[boolean] e.g.: true When true, this indicates that this filing should be considered as primary filing for this subject. When false, this indicates that this filing should not be considered as primary filing for this subject.
organization.documentFilings.documentType	[object] Records the type of document which is on file e.g. an annual return or a financial statement.
organization.documentFilings.documentType.description	[string] e.g.: Annual Return Text which describes the type of document which is on file e.g. an annual return or a financial statement.
organization.documentFilings.documentType.dnbCode	[integer] e.g.: 10248 A unique code assigned by Dun & Bradstreet which describes the type of document which is on file e.g. an annual return or a financial statement. Refer to Reference code table "186 [Document Type]" for all possible values.
organization.documentFilings.documentDate	[string] e.g.: 2020-09-30 The date of the document. This is not to be confused with the date that the document was filed or published. E.g. For a financial statement this would be the date of the financial year end to which the statement relates.
organization.documentFilings.filingType	[object] Records the registration that has been filed by a business with a registry body (e.g., "corporation", "partnership", "registered name").
organization.documentFilings.filingType.description	[string] e.g.: Trademark Text that represents the registration that has been filed by a business with a registry body (e.g., "corporation", "partnership", "registered name").
organization.documentFilings.filingType.dnbCode	[integer] e.g.: 27228 A unique code assigned by Dun & Bradstreet that represents the registration that has been filed by a business with a registry body (e.g., "corporation", "partnership", "registered name"). Refer to Reference code table "689 [Business Registration Filing Type]" for all possible values.

organization.documentFilings.filingReferenceDate	[array (object)] Records several different dates relating to a document, e.g., Date Filed, Date Published.
organization.documentFilings.filingReferenceDate.referenceType	[object] Records the relevance of the date recorded in 'Filing Reference Date', e.g., Date Filed, Date Published
organization.documentFilings.filingReferenceDate.referenceType.description	[string] e.g.: Date Published Text which defines the relevance of the date recorded in 'Filing Reference Date', e.g., Date Filed, Date Published
organization.documentFilings.filingReferenceDate.referenceType.dnbCode	[integer] e.g.: 15523 A unique code assigned by Dun & Bradstreet which defines the relevance of the date recorded in 'Filing Reference Date', e.g., Date Filed, Date Published Refer to Reference code table "322 [Filing Reference Date Type]" for all possible values.
organization.documentFilings.filingReferenceDate.referenceDate	[string] e.g.: 2020-09-30 A date relating to a document that has been registered with an official body.
organization.documentFilings.statusTextEntry	[array (object)] Records the textual status, language and nature of the status of the filed document.
organization.documentFilings.statusTextEntry.statusText	[string] e.g.: Cancelled A textual status of the document filed with the registry or a similar body; e.g., Pending, Cancelled, Surrendered.
organization.documentFilings.statusTextEntry.isActive	[boolean] e.g.: true When true, this indicates that the status of the registered filing is active. When false, this indicates that the status of the registered filing is inactive.
organization.documentFilings.statusTextEntry.statusCode	[string] e.g.: 11 A code that identifies the status of the document filed with the registry or a similar body; e.g., 11 for Pending, 04 for Cancelled, 05 for Surrendered.
organization.documentFilings.statusTextEntry.statusDate	[string] e.g.: 2020-09-30 The date on which the status recorded in Filing Status Text became effective.
organization.documentFilings.statusTextEntry.language	[object] Records the language in which the text has been recorded; e.g., English, U.S. English, French, Italian.
organization.documentFilings.statusTextEntry.language.description	[string] e.g.: English Text which describes the language in which the text has been recorded; e.g., English, U.S. English, French, Italian.
organization.documentFilings.statusTextEntry.language.dnbCode	[integer] e.g.: 39 A unique code assigned by Dun & Bradstreet which describes the language in which the text has been

	recorded; e.g., English, U.S. English, French, Italian. Refer to Reference code table "3 [Language]" for all possible values.
organization.documentFilings.registeredNames	[array (object)] Records the names of the subject as quoted in the official registry.
organization.documentFilings.registeredNames.name	[string] e.g.: ABC Corp The name of the subject.
organization.documentFilings.registeredNames.renewalDate	[string] e.g.: 2020-09-30 This date indicates that this name of the subject was re-filed with the registry in order to legally retain the same name; e.g., in the U.S., the renewed date is populated for Trade Names to prevent them from expiring.
organization.documentFilings.registeredNames.language	[object] Records the language in which the name has been recorded; e.g., English, U.S. English, French, Italian.
organization.documentFilings.registeredNames.language.description	[string] e.g.: English Text which describes the language in which the name has been recorded; e.g., English, U.S. English, French, Italian.
organization.documentFilings.registeredNames.language.dnbCode	[integer] e.g.: 39 A unique code assigned by Dun & Bradstreet which describes the language in which the name has been recorded; e.g., English, U.S. English, French, Italian. Refer to Reference code table "3 [Language]" for all possible values.
organization.documentFilings.incorporatedNames	[array (object)] The name which was used to incorporate the business in the territory in which it was incorporated; i.e., in the U.S., it indicates that the name was used to register in the home state.
organization.documentFilings.incorporatedNames.name	[string] e.g.: ABC Corporation The name of the subject.
organization.documentFilings.incorporatedNames.renewalDate	[string] e.g.: 2020-09-30 This date indicates that this name of the subject was re-filed with the registry in order to legally retain the same name; e.g., in the U.S., the renewed date is populated for Trade Names to prevent them from expiring.
organization.documentFilings.incorporatedNames.language	[object] Records the language in which the name has been recorded; e.g., English, U.S. English, French, Italian.
organization.documentFilings.incorporatedNames.language.description	[string] e.g.: English Text which describes the language in which the name has been recorded; e.g., English, U.S. English, French, Italian.

organization.documentFilings.incorporatedNames.language.dnbCode	[integer] e.g.: 39 A unique code assigned by Dun & Bradstreet which describes the language in which the name has been recorded; e.g., English, U.S. English, French, Italian. Refer to Reference code table "3 [Language]" for all possible values.
organization.documentFilings.registeredTradeStyleNames	[array (object)] A name which the business uses and by which it is known other than the formal, official name of the business. For example D&B is a trading style of Dun & Bradstreet. This would not include names by which a business may be generally known but which the business itself does not use or promote.
organization.documentFilings.registeredTradeStyleNames.name	[string] e.g.: ABC Co. The name of the subject.
organization.documentFilings.registeredTradeStyleNames.renewalDate	[string] e.g.: 2020-09-30 This date indicates that this name of the subject was re-filed with the registry in order to legally retain the same name; e.g., in the U.S., the renewed date is populated for Trade Names to prevent them from expiring.
organization.documentFilings.registeredTradeStyleNames.language	[object] Records the language in which the name has been recorded; e.g., English, U.S. English, French, Italian.
organization.documentFilings.registeredTradeStyleNames.language.description	[string] e.g.: English Text which describes the language in which the name has been recorded; e.g., English, U.S. English, French, Italian.
organization.documentFilings.registeredTradeStyleNames.language.dnbCode	[integer] e.g.: 39 A unique code assigned by Dun & Bradstreet which describes the language in which the name has been recorded; e.g., English, U.S. English, French, Italian. Refer to Reference code table "3 [Language]" for all possible values.
organization.documentFilings.formerRegisteredNames	[array (object)] The names of the subject which were quoted previously in the official registry.
organization.documentFilings.formerRegisteredNames.name	[string] e.g.: XYZ Corp The name of the subject.
organization.documentFilings.formerRegisteredNames.renewalDate	[string] e.g.: 2020-09-30 This date indicates that this name of the subject was re-filed with the registry in order to legally retain the same name; e.g., in the U.S., the renewed date is populated for Trade Names to prevent them from expiring.
organization.documentFilings.formerRegisteredNames.language	[object] Records the language in which the name has been recorded; e.g., English, U.S. English, French, Italian.
organization.documentFilings.formerRegisteredNames.language	[string] e.g.: English

ge.description	Text which describes the language in which the name has been recorded; e.g., English, U.S. English, French, Italian.
organization.documentFilings.formerRegisteredNames.language.dnbCode	[integer] e.g.: 39 A unique code assigned by Dun & Bradstreet which describes the language in which the name has been recorded; e.g., English, U.S. English, French, Italian. Refer to Reference code table "3 [Language]" for all possible values.
organization.documentFilings.registeredAddress	[array (object)] The details of the organization's official address as recorded with an external authority.
organization.documentFilings.registeredAddress.addressCountry	[object] The details of the country or region for this address of the organization.
organization.documentFilings.registeredAddress.addressCountry.name	[string] e.g.: United States The country or region for this address of the organization.
organization.documentFilings.registeredAddress.addressCountry.isoAlpha2Code	[string] e.g.: US The 2 letter alpha country code assigned by the International Organization for Standardization (ISO) identifying the Country/Region for this address of the organization. Note: Please refer to Country Code Substitutions Table [/html/resources/CountryCodes.html#country-substitute] for the country code substitutions.
organization.documentFilings.registeredAddress.addressLocality	[object] The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.
organization.documentFilings.registeredAddress.addressLocality.name	[string] e.g.: SAN FRANCISCO The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.
organization.documentFilings.registeredAddress.continentalRegion	[object] The details of the continent for this address of the organization.
organization.documentFilings.registeredAddress.continentalRegion.name	[string] e.g.: North America The name of the continent for this address of the organization. Possible values Africa Asia Pacific Europe Latin America Middle East North America

organization.documentFilings.registeredAddress.addressCountry	<p>[object]</p> <p>The details of the geographical area of a Country or Region for this address of the organization. Countries divide their geography into smaller sub divisions.</p> <p>County is an example of a commonly used subdivision. Often found in UK.</p>
organization.documentFilings.registeredAddress.addressCountry.name	<p>[string] e.g.: SAN MATEO</p> <p>The name of the geographical area of a Country or Region for this address of the organization.</p> <p>Countries subdivide their geography into smaller sub divisions. County is an example of a commonly used subdivision, often found in the UK.</p>
organization.documentFilings.registeredAddress.addressRegion	<p>[object]</p> <p>The name of the geographical area for this address of the organization. For Example New Jersey.</p>
organization.documentFilings.registeredAddress.addressRegion.name	<p>[string] e.g.: California</p> <p>The name of the geographical area for this address of the organization. For Example New Jersey.</p>
organization.documentFilings.registeredAddress.addressRegion.abbreviatedName	<p>[string] e.g.: NJ</p> <p>The shortened name of the geographical area for this address of the organization. For example NJ for the US State New Jersey within Country United States.</p>
organization.documentFilings.registeredAddress.postalCode	<p>[string] e.g.: 941109999</p> <p>The postal code for this address of the organization.</p> <p>Also known locally in various English-speaking countries throughout the world as a postcode, post code, Eircode, PIN or ZIP Code) is a series of letters or digits or both, sometimes including spaces or punctuation, included in a postal address for the purpose of sorting mail. The code is used by the country's postal authority to identify the address where the organization is located or conducts operations .</p>
organization.documentFilings.registeredAddress.streets	<p>[object]</p> <p>The details of the street address for this address of the organization.</p>
organization.documentFilings.registeredAddress.streets.line1	<p>[string] e.g.: 492 KOLLER ST</p> <p>The first line of the address where the entity is located.</p> <p>The first line of this address of the organization. For example The Point in the address</p> <p>The Point 37 North Wharf Road London W2 1AF</p>
organization.documentFilings.registeredAddress.streets	<p>[string] e.g.: Suite 100</p>

s.line2	<p>The second line of this address of the organization. For example 37 North Wharf Road in the address The Point 37 North Wharf Road London W2 1AF</p>
organization.documentFilings.mailingAddress	<p>[array (object)] The details of the address used by the entity for mailing purposes.</p>
organization.documentFilings.mailingAddress.addressCountry	<p>[object] The details of the country or region for this address of the organization.</p>
organization.documentFilings.mailingAddress.addressCountry.name	<p>[string] e.g.: United States The country or region for this address of the organization.</p>
organization.documentFilings.mailingAddress.addressCountry.isoAlpha2Code	<p>[string] e.g.: US The 2 letter alpha country code assigned by the International Organization for Standardization (ISO) identifying the Country/Region for this address of the organization.</p> <p>Note: Please refer to Country Code Substitutions Table [/html/resources/CountryCodes.html#country-substitute] for the country code substitutions.</p>
organization.documentFilings.mailingAddress.addressLocality	<p>[object] The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.</p>
organization.documentFilings.mailingAddress.addressLocality.name	<p>[string] e.g.: SAN FRANCISCO The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.</p>
organization.documentFilings.mailingAddress.continentalRegion	<p>[object] The details of the continent for this address of the organization.</p>
organization.documentFilings.mailingAddress.continentalRegion.name	<p>[string] e.g.: North America The name of the continent for this address of the organization. Possible values Africa Asia Pacific Europe Latin America Middle East North America</p>
organization.documentFilings.mailingAddress.addressCounty	<p>[object]</p>

	<p>The details of the geographical area of a Country or Region for this address of the organization. Countries divide their geography into smaller sub divisions.</p> <p>County is an example of a commonly used subdivision. Often found in UK.</p>
organization.documentFilings.mailingAddress.addressCounty.name	<p>[string] e.g.: SAN MATEO</p> <p>The name of the geographical area of a Country or Region for this address of the organization.</p> <p>Countries subdivide their geography into smaller sub divisions. County is an example of a commonly used subdivision, often found in the UK.</p>
organization.documentFilings.mailingAddress.addressRegion	<p>[object]</p> <p>The name of the geographical area for this address of the organization. For Example New Jersey.</p>
organization.documentFilings.mailingAddress.addressRegion.name	<p>[string] e.g.: California</p> <p>The name of the geographical area for this address of the organization. For Example New Jersey.</p>
organization.documentFilings.mailingAddress.addressRegion.abbreviatedName	<p>[string] e.g.: NJ</p> <p>The shortened name of the geographical area for this address of the organization. For example NJ for the US State New Jersey within Country United States.</p>
organization.documentFilings.mailingAddress.postalCode	<p>[string] e.g.: 941109999</p> <p>The postal code for this address of the organization.</p> <p>Also known locally in various English-speaking countries throughout the world as a postcode, post code, Eircode, PIN or ZIP Code) is a series of letters or digits or both, sometimes including spaces or punctuation, included in a postal address for the purpose of sorting mail. The code is used by the country's postal authority to identify the address where the organization is located or conducts operations .</p>
organization.documentFilings.mailingAddress.streetAddress	<p>[object]</p> <p>The details of the street address for this address of the organization.</p>
organization.documentFilings.mailingAddress.streetAddress.line1	<p>[string] e.g.: 492 KOLLER ST</p> <p>The first line of the address where the entity is located.</p> <p>The first line of this address of the organization. For example The Point in the address</p> <p>The Point 37 North Wharf Road London W2 1AF</p>
organization.documentFilings.mailingAddress.streetAddress.line2	<p>[string] e.g.: Suite 100</p> <p>The second line of this address of the organization.</p>

	<p>For example 37 North Wharf Road in the address The Point 37 North Wharf Road London W2 1AF</p>
organization.documentFilings.officeAddress	<p>[array (object)] The details of the Primary Address at which the organization is located or conducts operations.</p>
organization.documentFilings.officeAddress.addressCountry	<p>[object] The details of the country or region for this address of the organization.</p>
organization.documentFilings.officeAddress.addressCountry.name	<p>[string] e.g.: United States The country or region for this address of the organization.</p>
organization.documentFilings.officeAddress.addressCountry.isoAlpha2Code	<p>[string] e.g.: US The 2 letter alpha country code assigned by the International Organization for Standardization (ISO) identifying the Country/Region for this address of the organization.</p> <p>Note: Please refer to Country Code Substitutions Table [/html/resources/CountryCodes.html#country-substitute] for the country code substitutions.</p>
organization.documentFilings.officeAddress.addressLocality	<p>[object] The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.</p>
organization.documentFilings.officeAddress.addressLocality.name	<p>[string] e.g.: SAN FRANCISCO The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.</p>
organization.documentFilings.officeAddress.continentalRegion	<p>[object] The details of the continent for this address of the organization.</p>
organization.documentFilings.officeAddress.continentalRegion.name	<p>[string] e.g.: North America The name of the continent for this address of the organization. Possible values Africa Asia Pacific Europe Latin America Middle East North America</p>
organization.documentFilings.officeAddress.addressCountry	<p>[object] The details of the geographical area of a Country or Region for this address of the organization. Countries</p>

divide their geography into smaller sub divisions.

County is an example of a commonly used subdivision. Often found in UK.

organization.documentFilings.officeAddress.addressCounty.name

[string] e.g.: SAN MATEO
The name of the geographical area of a Country or Region for this address of the organization.

Countries subdivide their geography into smaller sub divisions. County is an example of a commonly used subdivision, often found in the UK.

organization.documentFilings.officeAddress.addressRegion

[object]
The name of the geographical area for this address of the organization. For Example New Jersey.

organization.documentFilings.officeAddress.addressRegion.name

[string] e.g.: California
The name of the geographical area for this address of the organization. For Example New Jersey.

organization.documentFilings.officeAddress.addressRegion.abbreviatedName

[string] e.g.: NJ
The shortened name of the geographical area for this address of the organization. For example NJ for the US State New Jersey within Country United States.

organization.documentFilings.officeAddress.postalCode

[string] e.g.: 941109999
The postal code for this address of the organization.

Also known locally in various English-speaking countries throughout the world as a postcode, post code, Eircode, PIN or ZIP Code) is a series of letters or digits or both, sometimes including spaces or punctuation, included in a postal address for the purpose of sorting mail. The code is used by the country's postal authority to identify the address where the organization is located or conducts operations .

organization.documentFilings.officeAddress.streetAddress

[object]
The details of the street address for this address of the organization.

organization.documentFilings.officeAddress.streetAddress.line1

[string] e.g.: 492 KOLLER ST
The first line of the address where the entity is located.

The first line of this address of the organization. For example The Point in the address

The Point
37 North Wharf Road
London
W2 1AF

organization.documentFilings.officeAddress.streetAddress.line2

[string] e.g.: Suite 100
The second line of this address of the organization.
For example 37 North Wharf Road in the address

The Point
37 North Wharf Road
London
W2 1AF

organization.documentFilings.rolePlayers	[array (object)] The details of role players involved in a Legal Event as recorded in court papers and identifies the part each one plays.
organization.documentFilings.rolePlayers.fullName	[string] e.g.: Leslie Ann Smith The highest ranking key stakeholder's given and surname in addition to the middle name and name suffix (when available) listed on one field if the key stakeholder is an individual. This will be submitted in the appropriate format for the local country. If the highest ranking key stakeholder is an organization, the name of the organization will be populated in the full name field.
organization.documentFilings.rolePlayers.positions	[array (object)] The details on the job position the principal or manager holds or has held in the entity.
organization.documentFilings.rolePlayers.positions.description	[string] e.g.: Chairman Executive Committee The job position the principal or manager holds or has held in the entity (e.g., Financial Director, Managing Director, Sales Director, Operations Manager).
organization.documentFilings.rolePlayers.positions.dnbCode	[integer] e.g.: 95 A unique code assigned by Dun & Bradstreet to identify the job position the principal or manager holds or has held in the entity. Refer to Reference code table "5 [Position] & 198 [Employee Position]" for all possible values.
organization.documentFilings.rolePlayers.address	[object] The details of the Primary Address at which the organization is located or conducts operations.
organization.documentFilings.rolePlayers.address.addressCountry	[object] The details of the country or region for this address of the organization.
organization.documentFilings.rolePlayers.address.addressCountry.name	[string] e.g.: United States The country or region for this address of the organization.
organization.documentFilings.rolePlayers.address.addressCountry.isoAlpha2Code	[string] e.g.: US The 2 letter alpha country code assigned by the International Organization for Standardization (ISO) identifying the Country/Region for this address of the organization. Note: Please refer to Country Code Substitutions Table [/html/resources/CountryCodes.html#country-substitute] for the country code substitutions.
organization.documentFilings.rolePlayers.address.addressLocality	[object] The name of the locality for this address of the organization. Locality defined as a district population

cluster. City, town, township, village, borough etc.

organization.documentFilings.rolePlayers.address.addressLocality.name	[string] e.g.: SAN FRANCISCO The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.
organization.documentFilings.rolePlayers.address.continentalRegion	[object] The details of the continent for this address of the organization.
organization.documentFilings.rolePlayers.address.continentalRegion.name	[string] e.g.: North America The name of the continent for this address of the organization. Possible values Africa Asia Pacific Europe Latin America Middle East North America
organization.documentFilings.rolePlayers.address.addressCounty	[object] The details of the geographical area of a Country or Region for this address of the organization. Countries divide their geography into smaller sub divisions. County is an example of a commonly used subdivision. Often found in UK.
organization.documentFilings.rolePlayers.address.addressCounty.name	[string] e.g.: SAN MATEO The name of the geographical area of a Country or Region for this address of the organization. Countries subdivide their geography into smaller sub divisions. County is an example of a commonly used subdivision, often found in the UK.
organization.documentFilings.rolePlayers.address.addressRegion	[object] The name of the geographical area for this address of the organization. For Example New Jersey.
organization.documentFilings.rolePlayers.address.addressRegion.name	[string] e.g.: California The name of the geographical area for this address of the organization. For Example New Jersey.
organization.documentFilings.rolePlayers.address.addressRegion.abbreviatedName	[string] e.g.: NJ The shortened name of the geographical area for this address of the organization. For example NJ for the US State New Jersey within Country United States.
organization.documentFilings.rolePlayers.address.postalCode	[string] e.g.: 941109999 The postal code for this address of the organization. Also known locally in various English-speaking countries throughout the world as a postcode, post code,

	Eircode, PIN or ZIP Code) is a series of letters or digits or both, sometimes including spaces or punctuation, included in a postal address for the purpose of sorting mail. The code is used by the country's postal authority to identify the address where the organization is located or conducts operations .
organization.documentFilings.rolePlayers.address.streetAddress	[object] The details of the street address for this address of the organization.
organization.documentFilings.rolePlayers.address.streetAddress.line1	[string] e.g.: 492 KOLLER ST The first line of the address where the entity is located. The first line of this address of the organization. For example The Point in the address The Point 37 North Wharf Road London W2 1AF
organization.documentFilings.rolePlayers.address.streetAddress.line2	[string] e.g.: Suite 100 The second line of this address of the organization. For example 37 North Wharf Road in the address The Point 37 North Wharf Road London W2 1AF
organization.documentFilings.rolePlayers.rolePlayerType	[object] The details of the role player's function in the event.
organization.documentFilings.rolePlayers.rolePlayerType.description	[string] e.g.: Shareholder The function played by this party in the event (e.g., debtor, creditor, liquidator, shareholder, court, plaintiff, defendant).
organization.documentFilings.rolePlayers.rolePlayerType.dnbCode	[integer] e.g.: 302 A unique code assigned by Dun & Bradstreet to identify the function played by this party in the event. Refer to Reference code table "10 [Role Player Type]" for all possible values.
organization.documentFilings.rolePlayers.duns	[string] e.g.: 804735132 The D-U-N-S® Number, a proprietary organizational identifier owned and managed by Dun & Bradstreet Inc, provides unique identification of a subject organization, in accordance with the Data Universal Numbering System (D-U-N-S®).
organization.documentFilings.rolePlayers.startDate	[string] e.g.: 2017-10-30 The date when the role player originally started its business activities.
organization.documentFilings.rolePlayers.isActive	[boolean] e.g.: true

When true, this indicates that the role player is actively engaged in activities regarding the filing as recorded in the document filed with the registry or similar body. When false, this indicates that the role player is no longer engaged in activities regarding the filing as recorded in the document filed with the registry or similar body

organization.documentFilings.filingReportedDate	[string] e.g.: 2020-09-30 The date on which the Filing Details were obtained by D&B.
organization.documentFilings.filingVerifiedDate	[string] e.g.: 2020-09-30 The date on which D&B reviewed the reported content of the Filing Details to ensure accuracy.
organization.documentFilings.filedDate	[string] e.g.: 2020-09-30 The date of the document. This is not to be confused with the date that the document was filed or published. E.g. For a financial statement this would be the date of the financial year end to which the statement relates.
organization.documentFilings.filingApprovedDate	[string] e.g.: 2020-09-30 The date when the Board of Directors approved the financial statement accounts. In most countries, the subject is legally required to file within a certain timeframe; e.g. in Belgium within 1 month.
organization.documentFilings.fiscalPeriodEndDate	[string] e.g.: 2020-09-30 The financial year end date for the subject as specified in the filed document.
organization.documentFilings.accountsLevel	[object] Specifies the account type.
organization.documentFilings.accountsLevel.description	[string] e.g.: Full Accounts Text that specifies the account type.
organization.documentFilings.accountsLevel.dnbCode	[integer] e.g.: 18939 A unique code assigned by Dun & Bradstreet that specifies the account type. Refer to Reference code table "506 [Account Level]" for all possible values.
organization.documentFilings.registrationNumbers	[array (object)] The details of the organization's registration numbers issued by a recognized external authority to uniquely identify subjects. The issuing authority may be a Registration Authority, Government Department or Commercial Enterprise (e.g., Chamber of Commerce numbers, VAT numbers).
organization.documentFilings.registrationNumbers.registrationNumber	[string] e.g.: 12-3456789 The number or alphanumeric value assigned by a recognized external authority that either uniquely identifies or helps to identify the organization.
organization.documentFilings.registrationNumbers.typeDescription	[string] e.g.: Federal Taxpayer Identification Number (US) The official name of the organization identifier assigned by a recognized external authority (e.g.. Australian Company Number, Federal Taxpayer Identification Number, Value Added Tax Number).

organization.documentFilings.registrationNumbers.typeDnBCode	<p>[integer] e.g.: 6863</p> <p>A unique code assigned by Dun & Bradstreet to identify the type of organization registration number. For example, 2541 stands for company number issued by the UK Companies House. Refer to Reference code table "7 [Registration Number Type]" for all possible values.</p>
organization.documentFilings.incorporatedDate	<p>[string] e.g.: 2020-09-30</p> <p>The date on which the Subject is incorporated under the law of a specific jurisdiction, as recorded in the document filed with the registry or a similar body.</p>
organization.documentFilings.incorporatedRegion	<p>[object]</p> <p>Records the locally governed area which forms part of a centrally governed nation in which the Subject is incorporated under the law of a specific jurisdiction, as recorded in the document filed with the registry or a similar body.</p>
organization.documentFilings.incorporatedRegion.name	<p>[string] e.g.: California</p> <p>A locally governed area which forms part of a centrally governed nation in which the Subject is incorporated under the law of a specific jurisdiction, as recorded in the document filed with the registry or a similar body. As a guiding principle this is a geographic area which could theoretically exist as a separate nation. In the U.S. this would be a State in the UK this would be one of the Home Nations.</p>
organization.documentFilings.hasPerpetualOperations	<p>[boolean] e.g.: true</p> <p>When true, this indicates the business is allowed by its registration to conduct operations indefinitely. When false, this indicates the business is not allowed by its registration to conduct operations indefinitely.</p>
organization.documentFilings.capitals	<p>[array (object)]</p> <p>The details of the current share capital information.</p>
organization.documentFilings.capitals.capitalType	<p>[object]</p> <p>The details for the entity's capital type.</p>
organization.documentFilings.capitals.capitalType.description	<p>[string] e.g.: Issued</p> <p>The type of the capital (e.g., Issued, Paid in, Nominal/Authorized).</p>
organization.documentFilings.capitals.capitalType.dnbCode	<p>[integer] e.g.: 1017</p> <p>A unique code assigned by Dun & Bradstreet to identify the type of the capital. Refer to Reference code table "21 [Capital Type]" for all possible values.</p>
organization.documentFilings.capitals.startDate	<p>[string] e.g.: 2010-03-14</p> <p>The date on which the Capital Amount was first registered.</p> <p>Format: YYYY-MM-DD or YYYY-MM</p>
organization.documentFilings.capitals.capitalAmount	<p>[object]</p> <p>The details of the capital amount.</p>

organization.documentFilings.capitals.capitalAmount.value	[number] e.g.: 534378 The amount of the capital.
organization.documentFilings.capitals.capitalAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.documentFilings.capitals.capitalStocks	[array (object)] The details of the composition of each type of stock equity the entity employs, as recorded in the document filed with the registry or a similar body.
organization.documentFilings.capitals.capitalStocks.capitalStockType	[object] Describes a class of shares which form a part of the Capital Type; e.g., Preference, Cumulative Preference, Redeemable, Ordinary.
organization.documentFilings.capitals.capitalStocks.capitalStockType.description	[string] e.g.: Preference Text that describes a class of shares which form a part of the Capital Type; e.g., Preference, Cumulative Preference, Redeemable, Ordinary.
organization.documentFilings.capitals.capitalStocks.capitalStockType.dnbCode	[integer] e.g.: 3759 A unique code assigned by Dun & Bradstreet that describes a class of shares which form a part of the Capital Type; e.g., Preference, Cumulative Preference, Redeemable, Ordinary. Refer to Reference code table "114 [Capital Stock Type]" for all possible values.
organization.documentFilings.capitals.capitalStocks.subTypeText	[string] e.g.: Ordinary A The sub-category of share classification that has been specifically defined by the entity. For example, the ordinary shares of a subject may be broken down into Ordinary A, Ordinary B etc.; where the A and B categories have different rights or characteristics. In this example 2 Capital Stock Detail aggregates will be created. In both aggregates the Capital Stock Type Code will be set to 3761 [Ordinary] but the Capital Stock Sub Type Text will be set to 'A' in the first occurrence and 'B' in the second.
organization.documentFilings.capitals.capitalStocks.stockParValueAmount	[object] The details of the value of each share of this Stock Type upon initial offering. It is also known as face value or stated value.
organization.documentFilings.capitals.capitalStocks.stockParValueAmount.value	[number] e.g.: 5.34 The monetary value of each share of this Stock Type upon initial offering.
organization.documentFilings.capitals.capitalStocks.stockParValueAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.documentFilings.capitals.capitalStocks.stockAmount	[object]

unt	Records the total monetary value of each Capital Stock Type.
organization.documentFilings.capitals.capitalStocks.stockAmount.value	[number] e.g.: 250500.5 The total monetary value of each Capital Stock Type; e.g., if there are 100 preference shares with a par value of 5 euros per share the recorded amount is 500; i.e., 100 times 5.
organization.documentFilings.capitals.capitalStocks.stockAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.documentFilings.capitals.capitalStocks.quantity	[integer] e.g.: 2500 The total number of shares within each Capital Stock Type.
organization.documentFilings.capitals.capitalStocks.hasVotingRights	[boolean] e.g.: true When true, this indicates that the shares of the type specified in Capital Stock Type carry voting rights. When false, this indicates that the shares of the type specified in Capital Stock Type do not carry voting rights.
organization.documentFilings.capitals.capitalStocks.hasNoParValue	[boolean] e.g.: true When true, this indicates that this Capital Stock Type is referring to shares with no face value. When false, this indicates that this Capital Stock Type is referring to shares with face value.
organization.documentFilings.capitals.capitalStocks.isConvertible	[boolean] e.g.: true When true, this indicates that the shares of the type specified in Capital Stock Type can be switched to another Capital Stock Type. When false, this indicates that the shares of the type specified in Capital Stock Type cannot be switched to another Capital Stock Type.
organization.documentFilings.taxes	[array (object)] Records details about various kinds of taxes for which the Subject is responsible as recorded in the document filed with the registry or a similar body.
organization.documentFilings.taxes.taxType	[object] Records the kind of the financial charge or levy imposed by the appropriate jurisdiction on the Subject as recorded in the document filed with registry or a similar body; e.g., Franchise, Corporate.
organization.documentFilings.taxes.taxType.description	[string] e.g.: Corporate Tax Text identifying the kind of the financial charge or levy imposed by the appropriate jurisdiction on the Subject as recorded in the document filed with registry or a similar body; e.g., Franchise, Corporate.
organization.documentFilings.taxes.taxType.dnbCode	[integer] e.g.: 14113 A unique code assigned by Dun & Bradstreet, identifying the kind of the financial charge or levy imposed by the appropriate jurisdiction on the Subject as recorded in the document filed with registry or a similar body; e.g., Franchise, Corporate.

	Refer to Reference code table "435 [Tax Type]" for all possible values.
organization.documentFilings.taxes.taxPercentage	[number] e.g.: 23.5 The rate by which the tax identified by the tax type code is calculated.
organization.documentFilings.taxes.taxItems	[array (object)] Records any financial items in terms of monetary amounts relating to the tax identified by the Tax Type; e.g., Tax Amount, Balance Tax Amount, Taxable Capital Amount, Paid Tax Amount.
organization.documentFilings.taxes.taxItems.value	[number] e.g.: 205500.5 Records the monetary value of the Tax Financial Item.
organization.documentFilings.taxes.taxItems.paidDate	[string] e.g.: 2020-09-30 The date on which the subject met its financial obligation to cover the taxes imposed by the jurisdiction.
organization.documentFilings.taxes.taxItems.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.documentFilings.taxes.taxItems.itemKey	[object] Records the type of monetary amount recorded in 'Item Amount'; e.g., Tax Amount, Balance Tax Amount, Taxable Capital Amount, Paid Tax Amount.
organization.documentFilings.taxes.taxItems.itemKey.description	[string] e.g.: Tax Paid Amount Text that describes the type of monetary amount recorded in 'Item Amount'; e.g., Tax Amount, Balance Tax Amount, Taxable Capital Amount, Paid Tax Amount.
organization.documentFilings.taxes.taxItems.itemKey.dnbCode	[integer] e.g.: 14110 A unique code assigned by Dun & Bradstreet, that describes the type of monetary amount recorded in 'Item Amount'; e.g., Tax Amount, Balance Tax Amount, Taxable Capital Amount, Paid Tax Amount. Refer to Reference code table "436 [Tax Financial Item]" for all possible values.
organization.documentFilings.taxes.paymentAssessmentType	[object] Records the overall evaluation of the subject's compliance in meeting the tax obligation for taxes identified by Tax Type; e.g., Delinquent.
organization.documentFilings.taxes.paymentAssessmentType.description	[string] e.g.: Meets Expectations Text that records the overall evaluation of the subject's compliance in meeting the tax obligation for taxes identified by Tax Type; e.g., Delinquent.
organization.documentFilings.taxes.paymentAssessmentType.dnbCode	[integer] e.g.: 14108 A unique code assigned by Dun & Bradstreet, that records the overall evaluation of the subject's compliance in meeting the tax obligation for taxes identified by Tax Type; e.g., Delinquent. Refer to Reference code table "437 [Tax Payment Assessment]" for all possible values.

organization.documentFilings.taxes.paymentAssessmentDate	[string] e.g.: 2020-09-30 The date on which the evaluation took place of the subject's ability to meet the tax obligations as recorded in the Tax Payment Assessment.
organization.documentFilings.principals	[array (object)] Records information of several different Principals for the subject as recorded in the document filed with the registry or a similar body. In this aggregate, a principal is a person or organization that currently has or previously had a relationship with the subject; e.g., management, employees, service providers.
organization.documentFilings.principals.fullName	[string] e.g.: Leslie Ann Smith The highest ranking key stakeholder's given and surname in addition to the middle name and name suffix (when available) listed on one field if the key stakeholder is an individual. This will be submitted in the appropriate format for the local country. If the highest ranking key stakeholder is an organization, the name of the organization will be populated in the full name field.
organization.documentFilings.principals.priority	[integer] e.g.: 3 The relative display order of this principal compared to other principals of the entity; the lower the number, the earlier it is presented.
organization.documentFilings.principals.positions	[array (object)] The details on the job position the principal or manager holds or has held in the entity.
organization.documentFilings.principals.positions.description	[string] e.g.: Chairman Executive Committee The job position the principal or manager holds or has held in the entity (e.g., Financial Director, Managing Director, Sales Director, Operations Manager).
organization.documentFilings.principals.positions.dnbCode	[integer] e.g.: 95 A unique code assigned by Dun & Bradstreet to identify the job position the principal or manager holds or has held in the entity. Refer to Reference code table "5 [Position] & 198 [Employee Position]" for all possible values.
organization.documentFilings.principals.positions.jobTitles	[array (object)] Text string that denotes a position held by the highest ranking key stakeholder in the organization or recording of the title used by the organization to describe this person's job e.g., Leader Global Communication, Manager National Technical Support Center.
organization.documentFilings.principals.positions.jobTitles.title	[string] e.g.: President Text string that denotes a position held by the highest ranking key stakeholder in the organization or recording of the title used by the organization to describe this person's job e.g., Leader Global Communication, Manager National Technical Support Center.
organization.documentFilings.principals.address	[object] The details of the Primary Address at which the organization is located or conducts operations.
organization.documentFilings.principals.address.addressCoun	[object]

try	The details of the country or region for this address of the organization.
organization.documentFilings.principals.address.addressCountry.name	[string] e.g.: United States The country or region for this address of the organization.
organization.documentFilings.principals.address.addressCountry.isoAlpha2Code	[string] e.g.: US The 2 letter alpha country code assigned by the International Organization for Standardization (ISO) identifying the Country/Region for this address of the organization. Note: Please refer to Country Code Substitutions Table [/html/resources/CountryCodes.html#country-substitute] for the country code substitutions.
organization.documentFilings.principals.address.continentalRegion	[object] The details of the continent for this address of the organization.
organization.documentFilings.principals.address.continentalRegion.name	[string] e.g.: North America The name of the continent for this address of the organization. Possible values Africa Asia Pacific Europe Latin America Middle East North America
organization.documentFilings.principals.address.addressLocality	[object] The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.
organization.documentFilings.principals.address.addressLocality.name	[string] e.g.: SAN FRANCISCO The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.
organization.documentFilings.principals.address.addressRegion	[object] The name of the geographical area for this address of the organization. For Example New Jersey.
organization.documentFilings.principals.address.addressRegion.name	[string] e.g.: California The name of the geographical area for this address of the organization. For Example New Jersey.
organization.documentFilings.principals.address.addressRegion.abbreviatedName	[string] e.g.: NJ The shortened name of the geographical area for this address of the organization. For example NJ for the US State New Jersey within Country United States.
organization.documentFilings.principals.address.postalCode	[string] e.g.: 941109999 The postal code for this address of the organization.

	Also known locally in various English-speaking countries throughout the world as a postcode, post code, Eircode, PIN or ZIP Code) is a series of letters or digits or both, sometimes including spaces or punctuation, included in a postal address for the purpose of sorting mail. The code is used by the country's postal authority to identify the address where the organization is located or conducts operations .
organization.documentFilings.principals.address.streetAddresses	[object] The details of the street address for this address of the organization.
organization.documentFilings.principals.address.streetAddresses.line1	[string] e.g.: 492 KOLLER ST The first line of the address where the entity is located. The first line of this address of the organization. For example The Point in the address The Point 37 North Wharf Road London W2 1AF
organization.documentFilings.principals.address.streetAddresses.line2	[string] e.g.: Suite 100 The second line of this address of the organization. For example 37 North Wharf Road in the address The Point 37 North Wharf Road London W2 1AF
organization.documentFilings.textEntry	[array (object)] Records the freeform text , language and nature of textual data relating to the document filed with the registry or similar body.
organization.documentFilings.textEntry.priority	[integer] e.g.: 1 A number that may be used to define the order in which this text entry should be presented relative to other occurrences of text entries where the lower the number the earlier the data is presented.
organization.documentFilings.textEntry.text	[string] e.g.: Some text obtained from contact Text that has been recorded.
organization.documentFilings.textEntry.typeDescription	[string] e.g.: Legal event Text entry type to qualify the information recorded in the text entries.
organization.documentFilings.textEntry.typeDnBCode	[integer] e.g.: 1170 A unique code assigned by Dun & Bradstreet to identify the text entry type. Refer to Reference code table "27 [Information Description]" for all possible values.

organization.documentFilings.textEntry.language	[object] The details of the language in which this address was recorded.
organization.documentFilings.textEntry.language.description	[string] e.g.: English The name of the language in which this address was recorded.
organization.documentFilings.textEntry.language.dnbCode	[integer] e.g.: 39 A unique code assigned by Dun & Bradstreet to identify the language in which this address was recorded. Refer to Reference code table "3 [Language]" for all possible values.
organization.documentFilings.industryCodes	[array (object)] Records several different Industry Codes for the subject as recorded in the document filed with the registry or a similar body; possibly of different types.
organization.documentFilings.industryCodes.code	[string] e.g.: 323111 An alphanumeric value assigned to an organization categorizing the business activities performed at its location. Business activities are coded using standardized coding schemes. For example, 1611 represents the highway and street construction industry in the U.S. SIC (Standard Industrial Classification) 1987 system.
organization.documentFilings.industryCodes.description	[string] e.g.: Commercial Printing The description of the business activities represented by the Industry Code as defined in the coding scheme identified by the Industry Code Type Description. For example, 'highway and street construction' is the description of industry code 1611 in the U.S. SIC 1987 system.
organization.documentFilings.industryCodes.typeDescription	[string] e.g.: North American Industry Classification System 2012 The details of the standardized coding scheme used to classify the business activities of an organization. This can be an externally recognized coding scheme as for instance North American Industry Classification System (NAICS) or a proprietary scheme like D&B SIC-8.
organization.documentFilings.industryCodes.typeDnBCode	[integer] e.g.: 24664 A unique code assigned by Dun & Bradstreet to identify the industry coding scheme. Industry schemes supported currently: D&B Industry Code (3599) NAICS Code (30832) US 1987 SIC Code (399) NACE Revision 2 (29104) D&B Hoovers Industry Code (25838) Major Industry Category (24657) Local Activity Codes (specific to markets) Refer to Reference code table "30 [Industry Code Type]" for all possible values.
organization.documentFilings.industryCodes.priority	[integer] e.g.: 1 A number identifying the order in which this industry code should be presented relative to other industry

codes of the same type. Priority is based on the importance of the business activity to the organization.

organization.documentFilings.amendments	[array (object)] Records details of amendments to a filing.
organization.documentFilings.amendments.filingDate	[string] e.g.: 2020-09-30 The date on which the amendment became effective.
organization.documentFilings.amendments.reason	[object] Records the underlying factor that contributed to the filing of the document with the registry or a similar body, e.g., Business Name Change, Agent Data Amended.
organization.documentFilings.amendments.reason.description	[string] e.g.: Name Change Text describing an underlying factor that contributed to the filing of the document with the registry or a similar body, e.g., Business Name Change, Agent Data Amended.
organization.documentFilings.amendments.reason.dnbCode	[integer] e.g.: 14827 A unique code assigned by Dun & Bradstreet, describing an underlying factor that contributed to the filing of the document with the registry or a similar body, e.g., Business Name Change, Agent Data Amended. Refer to Reference code table "433 [Filing Reason]" for all possible values.
organization.documentFilings.amendments.text	[string] e.g.: Business name change A textual description that provides additional information on the amendment.
organization.documentFilings.filingOffice	[object] Records details of the office where the documents recording the event details are officially stored. The filing office could be any Government agency, court, registry or a similar body.
organization.documentFilings.filingOffice.filingOfficeName	[string] e.g.: Companies House UK The name of the agency where the filing was registered.
organization.documentFilings.filingOffice.address	[object] The details of the Primary Address at which the organization is located or conducts operations.
organization.documentFilings.filingOffice.address.addressCountry	[object] The details of the country or region for this address of the organization.
organization.documentFilings.filingOffice.address.addressCountry.name	[string] e.g.: United States The country or region for this address of the organization.
organization.documentFilings.filingOffice.address.addressCountry.isoAlpha2Code	[string] e.g.: US The 2 letter alpha country code assigned by the International Organization for Standardization (ISO) identifying the Country/Region for this address of the organization.

Note: Please refer to Country Code Substitutions Table

[/html/resources/CountryCodes.html#country-substitute] for the country code substitutions.

organization.documentFilings.filingOffice.address.addressLocality	<p>[object] The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.</p>
organization.documentFilings.filingOffice.address.addressLocality.name	<p>[string] e.g.: SAN FRANCISCO The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.</p>
organization.documentFilings.filingOffice.address.continentalRegion	<p>[object] The details of the continent for this address of the organization.</p>
organization.documentFilings.filingOffice.address.continentalRegion.name	<p>[string] e.g.: North America The name of the continent for this address of the organization. Possible values Africa Asia Pacific Europe Latin America Middle East North America</p>
organization.documentFilings.filingOffice.address.addressCounty	<p>[object] The details of the geographical area of a Country or Region for this address of the organization. Countries divide their geography into smaller sub divisions. County is an example of a commonly used subdivision. Often found in UK.</p>
organization.documentFilings.filingOffice.address.addressCounty.name	<p>[string] e.g.: SAN MATEO The name of the geographical area of a Country or Region for this address of the organization. Countries subdivide their geography into smaller sub divisions. County is an example of a commonly used subdivision, often found in the UK.</p>
organization.documentFilings.filingOffice.address.addressRegion	<p>[object] The name of the geographical area for this address of the organization. For Example New Jersey.</p>
organization.documentFilings.filingOffice.address.addressRegion.name	<p>[string] e.g.: California The name of the geographical area for this address of the organization. For Example New Jersey.</p>
organization.documentFilings.filingOffice.address.addressRegion.abbreviatedName	<p>[string] e.g.: NJ The shortened name of the geographical area for this address of the organization. For example NJ for the US State New Jersey within Country United States.</p>

organization.documentFilings.filingOffice.address.postalCode	<p>[string] e.g.: 941109999 The postal code for this address of the organization.</p> <p>Also known locally in various English-speaking countries throughout the world as a postcode, post code, Eircode, PIN or ZIP Code) is a series of letters or digits or both, sometimes including spaces or punctuation, included in a postal address for the purpose of sorting mail. The code is used by the country's postal authority to identify the address where the organization is located or conducts operations .</p>
organization.documentFilings.filingOffice.address.streetAddress	<p>[object] The details of the street address for this address of the organization.</p>
organization.documentFilings.filingOffice.address.streetAddress.line1	<p>[string] e.g.: 492 KOLLER ST The first line of the address where the entity is located.</p> <p>The first line of this address of the organization. For example The Point in the address</p> <p>The Point 37 North Wharf Road London W2 1AF</p>
organization.documentFilings.filingOffice.address.streetAddress.line2	<p>[string] e.g.: Suite 100 The second line of this address of the organization. For example 37 North Wharf Road in the address The Point 37 North Wharf Road London W2 1AF</p>
organization.documentFilings.filingOffice.rolePlayerType	<p>[object] The details of the role player's function in the event.</p>
organization.documentFilings.filingOffice.rolePlayerType.description	<p>[string] e.g.: Shareholder The function played by this party in the event (e.g., debtor, creditor, liquidator, shareholder, court, plaintiff, defendant).</p>
organization.documentFilings.filingOffice.rolePlayerType.dnbCode	<p>[integer] e.g.: 302 A unique code assigned by Dun & Bradstreet to identify the function played by this party in the event. Refer to Reference code table "10 [Role Player Type]" for all possible values.</p>
organization.documentFilings.filingOffice.duns	<p>[string] e.g.: 804735132 The D-U-N-S® Number, a proprietary organizational identifier owned and managed by Dun & Bradstreet Inc, provides unique identification of a subject organization, in accordance with the Data Universal Numbering System (D-U-N-S®).</p>

organization.documentFilings.dataProvider	[object] Records the source from which the Filing Detail data was originally obtained by D&B.
organization.documentFilings.dataProvider.description	[string] e.g.: Her Majesty's Revenue and Customs The source from which this data was originally obtained by Dun & Bradstreet.
organization.documentFilings.dataProvider.dnbCode	[integer] e.g.: 32474 A unique code assigned by Dun & Bradstreet to identify the source of the data. Refer to Reference code table "29 [Data Provider]" for all possible values.
organization.legalEvents	[object] The details of legal events associated with an organization. * A legal event is an event of a legal, formal nature that has been registered against an organization by a recognized authority, during the business lifecycle * A legal event must relate to an enacted law that is applicable to the associated organization * A legal event must be formally documented or recorded on an official list or register that is publicly available * A legal event must be sourced from a recognized authority on an official authority authorized by a government * A legal event that occurs during the formation, funding, governance, status change and closure of an organization
organization.legalEvents.hasLegalEvents	[boolean] e.g.: false Indicates that one or more Legal Events are registered against the organization.
organization.legalEvents.hasOpenLegalEvents	[boolean] e.g.: true Indicates that an organization is subject to a legal action for which the specific details are currently unknown. When set to 'True,' D&B has received information to suggest the organization has at least one active or on-going legal event.
organization.legalEvents.hasSuits	[boolean] e.g.: false Indicates a disagreement between organizations that is brought to a court of law for a decision.
organization.legalEvents.hasOpenSuits	[boolean] e.g.: true Indicates a disagreement between organizations that is brought to a court of law for a decision. When set to 'True,' D&B has received information to suggest the organization has at least one active or on-going suit.
organization.legalEvents.hasLiens	[boolean] e.g.: false Indicates that an organization has a charge against or interest in property to secure payment of a debt or performance of an obligation.
organization.legalEvents.hasOpenLiens	[boolean] e.g.: false Indicates that an organization has a charge against or interest in property to secure payment of a debt or performance of an obligation. When set to 'True,' D&B has received information to suggest the organization has at least one on-going lien.

organization.legalEvents.hasBankruptcy	[boolean] e.g.: false Indicates that an organization has officially filed with a legal body that it can no longer pay its outstanding debts or honor its financial obligations.
organization.legalEvents.hasOpenBankruptcy	[boolean] e.g.: false Indicates that an organization has officially filed with a legal body that it can no longer pay its outstanding debts or honor its financial obligations. When set to 'True,' D&B has received information to suggest the organization has at least one active or on-going insolvency/bankruptcy event.
organization.legalEvents.hasJudgments	[boolean] e.g.: false Indicates that a court has ruled or is in the process of making a ruling on a legal proceeding, either in favor of or against an organization.
organization.legalEvents.hasOpenJudgments	[boolean] e.g.: true Indicates that a court has ruled or is in the process of making a ruling on a legal proceeding, either in favor of or against an organization. When set to 'True,' D&B has received information to suggest the organization has at least one active or on-going judgement.
organization.legalEvents.hasFinancialEmbarrassment	[boolean] e.g.: false Indicates that an organization has experienced or is experiencing severe financial difficulties and whose long term survival was/is at risk.
organization.legalEvents.hasOpenFinancialEmbarrassment	[boolean] e.g.: true Indicates that an organization is experiencing severe financial difficulties and whose long term survival is at risk. When set to 'True,' D&B has received information to suggest the organization has at least one active or on-going Legal Event affecting its long term survival.
organization.legalEvents.hasCriminalProceedings	[boolean] e.g.: false Indicates that an organization has been charged with financial crime such as corruption, money laundering, bribery and embezzlement.
organization.legalEvents.hasOpenCriminalProceedings	[boolean] e.g.: false Indicates that an organization has been charged with financial crime such as corruption, money laundering, bribery and embezzlement. When set to 'True,' D&B has received information to suggest the organization has at least one active or on-going criminal proceeding.
organization.legalEvents.hasClaims	[boolean] e.g.: false Indicates that an organization asserts a right to money, property, or a type of legal action.
organization.legalEvents.hasOpenClaims	[boolean] e.g.: true Indicates that an organization asserts a right to money, property, or a type of legal action. When set to 'True,' D&B has received information to suggest the organization has at least one active or on-going claim.
organization.legalEvents.hasDebarments	[boolean] e.g.: true

DO NOT USE: Please use organization.exclusions.hasActiveExclusions and organization.exclusions.hasInactiveExclusions
Indicates that a government agency has taken legal action to prevent an organization from participating in certain activities, including but not limited to contracts and grants.

organization.legalEvents.hasOpenDebarments	[boolean] e.g.: false DO NOT USE: Please use organization.exclusions.hasActiveExclusions Indicates that a government agency has taken legal action to prevent an organization from participating in certain activities, including but not limited to contracts and grants. When set to 'True,' D&B has received information to suggest the organization has at least one active or on-going debarment.
organization.legalEvents.hasInsolvency	[boolean] e.g.: false Indicates that an organization is unable to pay its debts. This includes but is not limited to bankruptcy, receivership and liquidation.
organization.legalEvents.hasLiquidation	[boolean] e.g.: false Indicates that an organization is being wound up with its assets being converted into cash or cash equivalents to pay off its debts.
organization.legalEvents.hasSuspensionOfPayments	[boolean] e.g.: true Indicates that an organization has been authorized to pause its payments to creditors for a given period of time due to current financial difficulties.
organization.legalEvents.hasOtherLegalEvents	[boolean] e.g.: true Indicates whether the entity has legal actions targeting the entity that cannot be recorded in any of the defined categories. - If true, this entity is associated with other legal events. - If false, this entity does not have other legal events. - null; if Dun & Bradstreet is not aware of this fact.
organization.legalEvents.judgments	[object] The details of formal decisions made by a court that involved the entity.
organization.legalEvents.judgments.mostRecentFilingDate	[string] e.g.: 2017-06-30 The date of the most recent event of this event. Format: YYYY-MM-DD or YYYY-MM
organization.legalEvents.judgments.openCount	[integer] e.g.: 12 The number of filings that are in open status.
organization.legalEvents.judgments.openAmount	[object] The details of the monetary value involved in the total open events of this event type.

organization.legalEvents.judgments.openAmount.value	[number] e.g.: 123456789 The monetary value involved in the total open events of this event type.
organization.legalEvents.judgments.openAmount.currency	[string] e.g.: USD The currency of the monetary value involved in the total open events of this event type, expressed in ISO Alpha3 code format.
organization.legalEvents.judgments.periodSummary	[object] Summarized information on several decisions made by a court that involved this entity as recorded in the Dun & Bradstreet database in different time periods.
organization.legalEvents.judgments.periodSummary.12Months	[object] Summarized information on several decisions made by a court that involved this entity as recorded in the Dun & Bradstreet database in last 12 months.
organization.legalEvents.judgments.periodSummary.12Months.totalCount	[integer] e.g.: 1 The number of judgments recorded on this entity in the last 12 months.
organization.legalEvents.judgments.periodSummary.12Months.totalAmount	[object] The details of the monetary value of judgments recorded on this entity in the last 12 months.
organization.legalEvents.judgments.periodSummary.12Months.totalAmount.value	[number] e.g.: 50000 The monetary value of judgments recorded on this entity in the last 12 months.
organization.legalEvents.judgments.periodSummary.12Months.totalAmount.currency	[string] e.g.: USD The currency of the monetary value of judgments recorded on this entity in the last 12 months, expressed in ISO Alpha3 code format.
organization.legalEvents.judgments.filings	[array (object)] The details of each decision made by a court that involved this entity.
organization.legalEvents.judgments.filings.activities	[array (object)] The activities that have taken place in pursuit of the claim.
organization.legalEvents.judgments.filings.activities.activityDate	[string] e.g.: 2016-02-18 The date of an activity that has taken place in pursuit of the claim.
organization.legalEvents.judgments.filings.activities.description	[string] e.g.: Actual The description of the legal process in which an entity declares inability to pay its debts.
organization.legalEvents.judgments.filings.actualLegalHearingDate	[string] e.g.: 2019-10-12 Records the date on which the formal process associated with the Legal Event occurred; e.g., the date on which creditors filed claims, the date on which a bankruptcy petition was read, the date on which a trial hearing took place.

organization.legalEvents.judgments.filings.assetClass	[array (object)] Records details of different groups of assets which are impacted by this Legal Event.
organization.legalEvents.judgments.filings.assetClass.description	[string] e.g.: Property Text that describes the class of asset at a high level, e.g. Vehicles.
organization.legalEvents.judgments.filings.assetClass.dnbCode	[integer] e.g.: 15616 A unique code assigned by Dun & Bradstreet that describes the class of asset at a high level, e.g. Vehicles. Refer to Reference code table "66 [Asset Class]" for all possible values.
organization.legalEvents.judgments.filings.awardedAmount	[object] The details of the amount associated with a decision made by a court.
organization.legalEvents.judgments.filings.awardedAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.judgments.filings.awardedAmount.value	[number] e.g.: 1000000 The monetary value associated with a decision made by a court.
organization.legalEvents.judgments.filings.collaterals	[array (object)] The details of the different types of assets used by the entity as security for this event.
organization.legalEvents.judgments.filings.collaterals.collateralDetails	[array (object)] Records information about an individual item/asset that the subject has used as security for this Financing Event.
organization.legalEvents.judgments.filings.collaterals.collateralDetails.isUsed	[boolean] e.g.: true When set to "true", this identifies that the collateral asset owned by the Subject is no longer considered a brand new item. When set to "false", this identifies that the collateral asset owned by the Subject is considered a brand new item.
organization.legalEvents.judgments.filings.collaterals.collateralDetails.manufacturedYear	[string] e.g.: 2001 The year in which the construction of the item; e.g., a ship, was completed.
organization.legalEvents.judgments.filings.collaterals.collateralDetails.manufactureName	[string] e.g.: Ford Motors The name of the business that built the item being held as collateral in a business transaction.
organization.legalEvents.judgments.filings.collaterals.collateralDetails.modelName	[string] e.g.: Mustang An alphanumeric name assigned by the manufacturer to the asset; e.g., Mustang, RX8, Pavilion, T60, 747.
organization.legalEvents.judgments.filings.collaterals.collateralDetails.modelYear	[string] e.g.: 2002

IDetails.modelYear	The year that the manufacturer assigned to the model based on the expected release of the model to the public.
organization.legalEvents.judgments.filings.collaterals.collateralDetails.serialNumber	[string] e.g.: VX1234 A reference number or text assigned by the manufacturer for uniquely identifying the manufactured item.
organization.legalEvents.judgments.filings.collaterals.collateralDetails.textEntry	[array (object)] Records multiple textual descriptions, language and nature of textual Collateral Details data for this Financing Event that cannot be recorded in the defined fields.
organization.legalEvents.judgments.filings.collaterals.collateralDetails.textEntry.priority	[integer] e.g.: 1 A number which may be used to identify multiple occurrences of Text Entry as belonging together as part of the same block of text. Within a group the Display Sequence may then be used to ensure that the Text Entry occurrences within the group are presented in the correct order.
organization.legalEvents.judgments.filings.collaterals.collateralDetails.textEntry.text	[string] e.g.: Company vehicle A textual description of a collateral associated with the Financing Event which cannot be recorded in any of the defined elements.
organization.legalEvents.judgments.filings.collaterals.collateralDetails.textEntry.typeDescription	[string] e.g.: Financial Statement Additional Note Text Text which describes the type of Text; e.g., the title of the party associated with the Financing Event.
organization.legalEvents.judgments.filings.collaterals.collateralDetails.textEntry.typeDnBCode	[integer] e.g.: 23916 A unique code assigned by Dun & Bradstreet which describes the type of Text; e.g., the title of the party associated with the Financing Event. Refer to Reference code table "27 [Information Description]" for all possible values.
organization.legalEvents.judgments.filings.collaterals.collateralSupplementalItems	[array (object)] Records kinds of supplemental items, (e.g., Products, Proceeds), that are included as security along with the identified collateral for the given Collateral Type.
organization.legalEvents.judgments.filings.collaterals.collateralSupplementalItems.description	[string] e.g.: Proceeds Text that specifies the kind of supplemental items, (e.g., Products, Proceeds), that are included as security along with the identified collateral item for the given Collateral Type. The items in this example are produced as output of the asset (e.g., manufacturing plant) that the subject is using for collateral.
organization.legalEvents.judgments.filings.collaterals.collateralSupplementalItems.dnbCode	[integer] e.g.: 11290 A unique code assigned by Dun & Bradstreet that specifies the kind of supplemental items, (e.g., Products, Proceeds), that are included as security along with the identified collateral item for the given Collateral Type. The items in this example are produced as output of the asset (e.g., manufacturing plant) that the subject is using for collateral. Refer to Reference code table "268 [Collateral Supplemental Item Type]" for all possible values.
organization.legalEvents.judgments.filings.collaterals.itemQuantity	[integer] e.g.: 25 The number of assets that the subject is using as collateral for the particular Collateral Type.

organization.legalEvents.judgments.filings.collaterals.quantity	[integer] e.g.: 15 The number of assets that the subject is using as collateral for the particular collateral type.
organization.legalEvents.judgments.filings.collaterals.scope	[object] Records the scope of the assets used by a debtor as security as recorded in the Financing Event; e.g., All items for the Collateral Type are included, only the items that are leased for the Collateral Type are included
organization.legalEvents.judgments.filings.collaterals.scope.description	[string] e.g.: Leased Text that indicates the scope of the assets used by a debtor as security as recorded in the Financing Event; e.g., All items for the Collateral Type are included, only the items that are leased for the Collateral Type are included
organization.legalEvents.judgments.filings.collaterals.scope.dnbCode	[integer] e.g.: 11288 A unique code assigned by Dun & Bradstreet which indicates the scope of the assets used by a debtor as security as recorded in the Financing Event; e.g., All items for the Collateral Type are included, only the items that are leased for the Collateral Type are included Refer to Reference code table "267 [Collateral Scope]" for all possible values.
organization.legalEvents.judgments.filings.collaterals.supplementalItems	[array (object)] Records the kinds of supplemental items, (e.g., Products, Proceeds), that are included as security along with the identified collateral for the given collateral type.
organization.legalEvents.judgments.filings.collaterals.supplementalItems.description	[string] e.g.: Products Text which describes the kinds of supplemental items, (e.g., Products, Proceeds), that are included as security along with the identified collateral for the given collateral type.
organization.legalEvents.judgments.filings.collaterals.supplementalItems.dnbCode	[integer] e.g.: 11289 A unique code assigned by Dun & Bradstreet which describes the kinds of supplemental items, (e.g., Products, Proceeds), that are included as security along with the identified collateral for the given collateral type. Refer to Reference code table "268 [Collateral Supplemental Item Type]" for all possible values.
organization.legalEvents.judgments.filings.collaterals.textEntry	[array (object)] Records the textual description, language and nature of collateral type information.
organization.legalEvents.judgments.filings.collaterals.textEntry.text	[string] e.g.: Vehicles Free form textual description, language and nature of collateral type information.
organization.legalEvents.judgments.filings.collaterals.textEntry.typeDescription	[string] e.g.: Financial Statement Additional Note Text Text that describes the type of textual description, language and nature of collateral type information.
organization.legalEvents.judgments.filings.collaterals.textEntry.typeDnbCode	[integer] e.g.: 23916 A unique code assigned by Dun & Bradstreet describing the type of textual description, language and nature of collateral type information.

Refer to Reference code table "27 [Information Description]" for all possible values.

organization.legalEvents.judgments.filings.collateralScopeType	[object] Records the scope of the assets used by a debtor as security as recorded in the Financing Event; e.g., All items for the Collateral Type are included, only the items that are leased for the Collateral Type are included
organization.legalEvents.judgments.filings.collateralScopeType.description	[string] e.g.: Leased Text which indicates the scope of the assets used by a debtor as security as recorded in the Financing Event; e.g., All items for the Collateral Type are included, only the items that are leased for the Collateral Type are included
organization.legalEvents.judgments.filings.collateralScopeType.dnbCode	[integer] e.g.: 11288 A unique code assigned by Dun & Bradstreet which indicates the scope of the assets used by a debtor as security as recorded in the Financing Event; e.g., All items for the Collateral Type are included, only the items that are leased for the Collateral Type are included Refer to Reference code table "267 [Collateral Scope]" for all possible values.
organization.legalEvents.judgments.filings.contactEvents	[array (object)] The details on communications Dun & Bradstreet had with persons to get information on this event.
organization.legalEvents.judgments.filings.contactEvents.address	[object] The details of the address used by the entity for mailing purposes.
organization.legalEvents.judgments.filings.contactEvents.address.addressCountry	[object] The details of the country or region for this address of the organization.
organization.legalEvents.judgments.filings.contactEvents.address.addressCountry.isoAlpha2Code	[string] e.g.: US The 2 letter alpha country code assigned by the International Organization for Standardization (ISO) identifying the Country/Region for this address of the organization. Note: Please refer to Country Code Substitutions Table [/html/resources/CountryCodes.html#country-substitute] for the country code substitutions.
organization.legalEvents.judgments.filings.contactEvents.comments	[array (object)] Records notes from the contact providing further information regarding the subject's event.
organization.legalEvents.judgments.filings.contactEvents.comments.description	[string] e.g.: Financing Statement was assigned Text that expresses a note collected from this contact providing further information about this event.
organization.legalEvents.judgments.filings.contactEvents.comments.dnbCode	[integer] e.g.: 14767 A unique code assigned by Dun & Bradstreet that expresses a note collected from this contact providing further information about this event. Refer to Reference code table "429 [Event Comment]" for all possible values.

organization.legalEvents.judgments.filings.contactEvents.contactDate	[string] e.g.: 2017-11-25 The date when the communication took place.
organization.legalEvents.judgments.filings.contactEvents.duns	[string] e.g.: 804735132 The D-U-N-S® Number, a proprietary organizational identifier owned and managed by Dun & Bradstreet Inc, provides unique identification of a subject organization, in accordance with the Data Universal Numbering System (D-U-N-S®).
organization.legalEvents.judgments.filings.contactEvents.name	[string] e.g.: John Smith The name of the contact which may be either an individual or an entity.
organization.legalEvents.judgments.filings.contactEvents.nonSpecificSource	[object] The details, in general terms, about the supplier of the Financial Statement.
organization.legalEvents.judgments.filings.contactEvents.nonSpecificSource.description	[string] e.g.: Trustee Describes the supplier of the Financial Statement (e.g., Official Registry, Accountant, the Subject).
organization.legalEvents.judgments.filings.contactEvents.nonSpecificSource.dnbCode	[integer] e.g.: 15735 A unique code assigned by Dun & Bradstreet to identify, in general terms, the supplier from which this data was originally obtained by Dun & Bradstreet. Refer to Reference code table "35 [Role Player Type Non-Specific]" for all possible values.
organization.legalEvents.judgments.filings.contactEvents.organizationName	[string] e.g.: ABC Corp The name of the contact, when this is a company.
organization.legalEvents.judgments.filings.contactEvents.positions	[array (object)] The details on the job position the principal or manager holds or has held in the entity.
organization.legalEvents.judgments.filings.contactEvents.positions.description	[string] e.g.: Chairman Executive Committee The job position the principal or manager holds or has held in the entity (e.g., Financial Director, Managing Director, Sales Director, Operations Manager).
organization.legalEvents.judgments.filings.contactEvents.positions.dnbCode	[integer] e.g.: 95 A unique code assigned by Dun & Bradstreet to identify the job position the principal or manager holds or has held in the entity. Refer to Reference code table "5 [Position] & 198 [Employee Position]" for all possible values.
organization.legalEvents.judgments.filings.contactEvents.positions.jobTitles	[array (object)] Records several different Vanity Titles for the person with whom D&B had contact to get information on this event.
organization.legalEvents.judgments.filings.contactEvents.positions.jobTitles.title	[string] e.g.: Senior Director of Finance A textual presentation of the position as preferred by the person with whom D&B had contact to get information on this event, e.g., Position Code might equate to Financial Director, however, the Vanity Title might be 'Senior Director of Finance'.

organization.legalEvents.judgments.filings.contactEvents.positions.positionClass	[object] The details that define the class of the position.
organization.legalEvents.judgments.filings.contactEvents.positions.positionClass.description	[string] e.g.: Chairman Executive Committee The job position the principal or manager holds or has held in the entity (e.g., Financial Director, Managing Director, Sales Director, Operations Manager).
organization.legalEvents.judgments.filings.contactEvents.positions.positionClass.dnbCode	[integer] e.g.: 95 A unique code assigned by Dun & Bradstreet to identify the job position the principal or manager holds or has held in the entity. Refer to Reference code table "5 [Position] & 198 [Employee Position]" for all possible values.
organization.legalEvents.judgments.filings.contactEvents.positions.positionStanding	[object] Details of the capacity or standing in which the individual holds this specific position.
organization.legalEvents.judgments.filings.contactEvents.positions.positionStanding.description	[string] e.g.: Acting The capacity or standing in which the individual holds this specific position.
organization.legalEvents.judgments.filings.contactEvents.positions.positionStanding.dnbCode	[integer] e.g.: 336 A unique code assigned by Dun & Bradstreet to identify the capacity in which the position is held. Refer to Reference code table "195 [Position Standing]" for all possible values.
organization.legalEvents.judgments.filings.contactEvents.positions.priority	[integer] e.g.: 1 A number that may be used to define the order in which the Position should be presented relative to any other occurrences of Position where lower the number the earlier the data is presented.
organization.legalEvents.judgments.filings.contactEvents.positions.startDate	[string] e.g.: 2017-08-23 The date when the principal or manager was appointed to this position. This is not necessarily the date when the principal or manager was first employed by the subject; it is the date when they moved to this position.
organization.legalEvents.judgments.filings.contactEvents.results	[array (object)] The details of the outcomes this Legal Event had or is having on the entity.
organization.legalEvents.judgments.filings.contactEvents.results.result	[object] The details of the outcome this event had or is having on the party involved in the event.
organization.legalEvents.judgments.filings.contactEvents.results.result.description	[string] e.g.: Settled The outcome this event had or is having on the party involved in the event (e.g., Petition Dismissed, Liquidator Appointed, Counter claim filed by the defendant in a lawsuit).
organization.legalEvents.judgments.filings.contactEvents.results.result.dnbCode	[integer] e.g.: 11466 A unique code assigned by Dun & Bradstreet that describes the outcome this event had or is having. Refer to Reference code table "86 [Event Result]" for all possible values.

organization.legalEvents.judgments.filings.contactEvents.results.resultDate	[string] e.g.: 2017-10-30 The date the outcome of the event occurred.
organization.legalEvents.judgments.filings.contactEvents.rolePlayers	[array (object)] The details of role players involved in a Legal Event as recorded in court papers and identifies the part each one plays.
organization.legalEvents.judgments.filings.contactEvents.rolePlayers.rolePlayerType	[object] The details of the role player's function in the event.
organization.legalEvents.judgments.filings.contactEvents.rolePlayers.rolePlayerType.description	[string] e.g.: Shareholder The function played by this party in the event (e.g., debtor, creditor, liquidator, shareholder, court, plaintiff, defendant).
organization.legalEvents.judgments.filings.contactEvents.rolePlayers.rolePlayerType.dnbCode	[integer] e.g.: 302 A unique code assigned by Dun & Bradstreet to identify the function played by this party in the event. Refer to Reference code table "10 [Role Player Type]" for all possible values.
organization.legalEvents.judgments.filings.contactEvents.textEntry	[array (object)] The details of data elements regarding the legal event filing which cannot be recorded in the other fields.
organization.legalEvents.judgments.filings.contactEvents.textEntry.priority	[integer] e.g.: 1 A number that may be used to define the order in which this text entry should be presented relative to other occurrences of text entries where the lower the number the earlier the data is presented.
organization.legalEvents.judgments.filings.contactEvents.textEntry.text	[string] e.g.: Some text obtained from contact Text that has been recorded.
organization.legalEvents.judgments.filings.contactEvents.textEntry.typeDescription	[string] e.g.: Legal event Text entry type to qualify the information recorded in the text entries.
organization.legalEvents.judgments.filings.contactEvents.textEntry.typeDnBCode	[integer] e.g.: 1170 A unique code assigned by Dun & Bradstreet to identify the text entry type. Refer to Reference code table "27 [Information Description]" for all possible values.
organization.legalEvents.judgments.filings.courtAddress	[object] The location information of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.judgments.filings.courtAddress.addressCountry	[object] The details of the country of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.judgments.filings.courtAddress.addressCountry.isoAlpha2Code	[string] e.g.: US The two-letter country code, defined by the International Organization for Standardization (ISO) ISO 3166-1 scheme identifying the country of the legal chambers where the hearing has taken place or will take place.

Note: Please refer to Country Code Substitutions Table
[[/html/resources/CountryCodes.html#country-substitute](#)] for the country code substitutions.

organization.legalEvents.judgments.filings.courtAddress.addressCountry.name

[string] e.g.: United States
The name of the country in which the legal chambers are located.

organization.legalEvents.judgments.filings.courtAddress.addressCounty

[object]
The details of the legal chambers where the hearing has taken place or will take place.

organization.legalEvents.judgments.filings.courtAddress.addressCounty.name

[string] e.g.: Morris
The name of a county of the legal chambers where the hearing has taken place or will take place.

organization.legalEvents.judgments.filings.courtAddress.addressLocality

[object]
The details of a city, town, township, village, borough, etc. of the legal chambers where the hearing has taken place or will take place.

organization.legalEvents.judgments.filings.courtAddress.addressLocality.name

[string] e.g.: Short Hills
The name of a city, town, township, village, borough, etc. of the legal chambers where the hearing has taken place or will take place.

organization.legalEvents.judgments.filings.courtAddress.addressRegion

[object]
The details of the locally governed area which forms part of a centrally governed nation to identify the legal chambers where the hearing has taken place or will take place.

organization.legalEvents.judgments.filings.courtAddress.addressRegion.abbreviatedName

[string] e.g.: NJ
The shortened name of the geographical area for this address of the organization. For example NJ for the US State New Jersey within Country United States.

organization.legalEvents.judgments.filings.courtAddress.addressRegion.name

[string] e.g.: New Jersey
The name of a locally governed area which forms part of a centrally governed nation to identify the legal chambers where the hearing has taken place or will take place.

organization.legalEvents.judgments.filings.courtAddress.continentalRegion

[object]
The details of the region as defined by Dun & Bradstreet for this address.

organization.legalEvents.judgments.filings.courtAddress.continentalRegion.name

[string] e.g.: North America
The name of the region as defined by Dun & Bradstreet for this address.

organization.legalEvents.judgments.filings.courtAddress.postalCode

[string] e.g.: 7078
An identifier used by the local country Postal Authority to identify the legal chambers where the hearing has taken place or will take place.

organization.legalEvents.judgments.filings.courtAddress.streetAddress

[object]
The details such as address number, or post office box number and street name of the legal chambers

	where the hearing has taken place or will take place.
organization.legalEvents.judgments.filings.courtAddress.streetAddress.line1	[string] e.g.: 103 JFK Pkwy The first line of the address of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.judgments.filings.courtAddress.streetAddress.line2	[string] e.g.: 101 JFK Pkwy The second line of the address of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.judgments.filings.courtName	[string] e.g.: Superior Court of Some State The name of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.judgments.filings.courtType	[object] Records the nature of the legal body at which the legal event was heard or decreed. This may describe the area of law in which the court specializes (e.g. court of employment) or the legal seniority of the court (e.g. high court, supreme court etc.)
organization.legalEvents.judgments.filings.courtType.description	[string] e.g.: County text that describes the nature of the legal body at which the legal event was heard or decreed. This may describe the area of law in which the court specializes (e.g. court of employment) or the legal seniority of the court (e.g. high court, supreme court etc.)
organization.legalEvents.judgments.filings.courtType.dnbCode	[integer] e.g.: 5337 A unique code assigned by Dun & Bradstreet that describes the nature of the legal body at which the legal event was heard or decreed. This may describe the area of law in which the court specializes (e.g. court of employment) or the legal seniority of the court (e.g. high court, supreme court etc.) Refer to Reference code table "132 [Court Type]" for all possible values.
organization.legalEvents.judgments.filings.creditorCategories	[array (object)] The different classifications of creditors to whom money is owed by the entity. The priority in which the creditors are paid is based on the assigned classification.
organization.legalEvents.judgments.filings.creditorCategories.claimAmount	[object] The details of the amount owed to this category of creditors.
organization.legalEvents.judgments.filings.creditorCategories.claimAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.judgments.filings.creditorCategories.claimAmount.value	[number] e.g.: 43095 The amount owed to this category of creditors.
organization.legalEvents.judgments.filings.creditorCategories.creditorType	[object] The details of the category of the creditor.

organization.legalEvents.judgments.filings.creditorCategories.creditorType.description	[string] e.g.: Federal Government (US) The category of creditors indicating the priority in which they are paid relative to other categories (e.g., preferred, secured).
organization.legalEvents.judgments.filings.creditorCategories.creditorType.dnbCode	[integer] e.g.: 10947 A unique code assigned by Dun & Bradstreet to identify the category of the creditors to whom money is owed by the entity. Refer to Reference code table "226 [Creditor Type]" for all possible values.
organization.legalEvents.judgments.filings.dataProvider	[object] The details of the data provider.
organization.legalEvents.judgments.filings.dataProvider.description	[string] e.g.: US Small Business Administration The source from which this data was originally obtained by Dun & Bradstreet.
organization.legalEvents.judgments.filings.dataProvider.dnbCode	[integer] e.g.: 21238 A unique code assigned by Dun & Bradstreet to identify the source from which this data was originally obtained. Refer to Reference code table "29 [Data Provider]" for all possible values.
organization.legalEvents.judgments.filings.endDate	[string] e.g.: 2017-10-31 The date indicates that the Legal Event procedure ended.
organization.legalEvents.judgments.filings.endIndicator	[boolean] e.g.: false When set to "true" this indicates that the Event has ceased, i.e., this is historical information. When set to "false" this indicates that the Event is still outstanding or ongoing, i.e., this is current information; however as this is the assumed condition there is no requirement to create this tag to represent this fact.
organization.legalEvents.judgments.filings.eventDuration	[string] e.g.: 12 months The amount of time this event lasted.
organization.legalEvents.judgments.filings.filingAmount	[object] The details of the amount of relief sought by all of the plaintiffs in the suit.
organization.legalEvents.judgments.filings.filingAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.judgments.filings.filingAmount.value	[number] e.g.: 1000000 The total amount of relief sought by all of the plaintiffs in the suit.
organization.legalEvents.judgments.filings.filingAmountCompa	[object]

e	The details of the dates relevant to a document (e.g., Date Filed, Date Published). Note: This array of dates should only be used when the user needs to know any additional dates other than the discrete date elements defined.
organization.legalEvents.judgments.filings.filingReferenceDate.e.referenceDate	[string] e.g.: 2018-07-25 A date relating to a document that has been registered with an official body.
organization.legalEvents.judgments.filings.filingReferenceDate.e.referenceType	[object] The details of the relevance of the date recorded.
organization.legalEvents.judgments.filings.filingReferenceDate.e.referenceType.description	[string] e.g.: Date Filed The relevance of the date recorded.
organization.legalEvents.judgments.filings.filingReferenceDate.e.referenceType.dnbCode	[integer] e.g.: 12137 A unique code assigned by Dun & Bradstreet to identify the relevance of the date recorded. Refer to Reference code table "322 [Filing Reference Date Type]" for all possible values.
organization.legalEvents.judgments.filings.filingReferenceDate.e.result	[object] The details of the relevance of the date recorded.
organization.legalEvents.judgments.filings.filingReferenceDate.e.result.description	[string] e.g.: Date Filed The relevance of the date recorded.
organization.legalEvents.judgments.filings.filingReferenceDate.e.result.dnbCode	[integer] e.g.: 12137 A unique code assigned by Dun & Bradstreet to identify the relevance of the date recorded. Refer to Reference code table "322 [Filing Reference Date Type]" for all possible values.
organization.legalEvents.judgments.filings.filingReferenceDate.e.resultDate	[string] e.g.: 2018-07-25 A date relating to a document that has been registered with an official body.
organization.legalEvents.judgments.filings.filingResults	[array (object)] The details of the outcomes this Legal Event had or is having on the entity.
organization.legalEvents.judgments.filings.filingResults.result	[object] The details of the outcome this event had or is having on the party involved in the event.
organization.legalEvents.judgments.filings.filingResults.result.description	[string] e.g.: Settled The outcome this event had or is having on the party involved in the event (e.g., Petition Dismissed, Liquidator Appointed, Counter claim filed by the defendant in a lawsuit).
organization.legalEvents.judgments.filings.filingResults.result.dnbCode	[integer] e.g.: 11466 A unique code assigned by Dun & Bradstreet that describes the outcome this event had or is having. Refer to Reference code table "86 [Event Result]" for all possible values.
organization.legalEvents.judgments.filings.filingResults.result	[string] e.g.: 2017-10-30

Date	The date the outcome of the event occurred.
organization.legalEvents.judgments.filings.filingResults.subsequentEvents	[array (object)] Records several different events that occur throughout the life cycle of an overriding legal event process, e.g., meeting of creditors related to a Bankruptcy process.
organization.legalEvents.judgments.filings.filingResults.subsequentEvents.eventPlanDate	[string] e.g.: 2018-02-25 The date and time when the later event described by Event Result Code is expected to occur as an outcome of this event.
organization.legalEvents.judgments.filings.filingResults.subsequentEvents.locationDescription	[string] e.g.: Attorney Office Text that describes the place where the later event described by filing result is expected to occur as an outcome of this event.
organization.legalEvents.judgments.filings.filingSubType	[object] The details of the lower-level category of the event that has been registered or recorded against the entity.
organization.legalEvents.judgments.filings.filingSubType.description	[string] e.g.: Filing of list of Creditors The lower-level category of the event that has been registered or recorded against the entity.
organization.legalEvents.judgments.filings.filingSubType.dnbCode	[integer] e.g.: 21196 A unique code assigned by Dun & Bradstreet to identify the sub-type. Refer to Reference code table "112 [Legal Event Sub Type]" for all possible values.
organization.legalEvents.judgments.filings.filingType	[object] The details of the type of event that has been registered or recorded against the entity.
organization.legalEvents.judgments.filings.filingType.description	[string] e.g.: County Court Judgement The type of event that has been registered or recorded against the entity.
organization.legalEvents.judgments.filings.filingType.dnbCode	[integer] e.g.: 2515 A unique code assigned by Dun & Bradstreet to identify the type of event that has been registered or recorded against the entity. Refer to Reference code table "24 [Legal Event Type]" for all possible values.
organization.legalEvents.judgments.filings.financials	[object] The details of the standardized summary view of the financial results (actual or estimated) for the organization.
organization.legalEvents.judgments.filings.financials.accountantName	[string] e.g.: Johnson, Jordan & Jones CPAs The name of either an individual or an accounting firm.
organization.legalEvents.judgments.filings.financials.balanceSheet	[object] The details of the Latest Financials' balance sheet statement which summarizes the organization's assets, liabilities, and shareholder's equity at a specific point in time.

organization.legalEvents.judgments.filings.financials.balanceSheet.assets	[object] The details of the assets on the balance sheet.
organization.legalEvents.judgments.filings.financials.balanceSheet.assets.currentAssets	[object] Assets that are held for short term; raw materials that are bought, made up, sold as finished goods and eventually paid for.
organization.legalEvents.judgments.filings.financials.balanceSheet.assets.currentAssets.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.judgments.filings.financials.balanceSheet.assets.currentAssets.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.judgments.filings.financials.balanceSheet.assets.currentAssets.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.judgments.filings.financials.balanceSheet.assets.currentAssets.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.judgments.filings.financials.balanceSheet.assets.currentAssets.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.judgments.filings.financials.balanceSheet.assets.longTermAssets	[object] The details of the long-term asset items within the Latest Financials Balance Sheet i.e., items expected to be realized in more than 12 months.
organization.legalEvents.judgments.filings.financials.balanceSheet.assets.longTermAssets.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.judgments.filings.financials.balanceSheet.assets.longTermAssets.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.judgments.filings.financials.balanceSheet.assets.longTermAssets.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.judgments.filings.financials.balanceSheet.assets.longTermAssets.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.judgments.filings.financials.balanceSheet.assets.longTermAssets.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.

organization.legalEvents.judgments.filings.financials.balanceSheet.assets.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.judgments.filings.financials.balanceSheet.assets.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.judgments.filings.financials.balanceSheet.assets.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.judgments.filings.financials.balanceSheet.assets.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.judgments.filings.financials.balanceSheet.assets.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.judgments.filings.financials.balanceSheet.liabilities	[object] The legal debts or obligations of a company that arise during the course of business operations. Liabilities are settled over time through the transfer of economic benefits including money, goods, or services.
organization.legalEvents.judgments.filings.financials.balanceSheet.liabilities.currentLiabilities	[object] The details of the entity's total value of all obligations to pay out cash at some date in the near future.
organization.legalEvents.judgments.filings.financials.balanceSheet.liabilities.currentLiabilities.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.judgments.filings.financials.balanceSheet.liabilities.currentLiabilities.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.judgments.filings.financials.balanceSheet.liabilities.currentLiabilities.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.judgments.filings.financials.balanceSheet.liabilities.currentLiabilities.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.judgments.filings.financials.balanceSheet.liabilities.currentLiabilities.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.judgments.filings.financials.balanceSheet.liabilities.equity	[object] The details of the share capital/stock originally invested by shareholders/stockholders plus any reserves that have arisen, such as retained profits, that were ploughed back into the firm. Also known as Net Worth.

organization.legalEvents.judgments.filings.financials.balanceSheet.liabilities.equity.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.judgments.filings.financials.balanceSheet.liabilities.equity.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.judgments.filings.financials.balanceSheet.liabilities.equity.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.judgments.filings.financials.balanceSheet.liabilities.equity.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.judgments.filings.financials.balanceSheet.liabilities.equity.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.judgments.filings.financials.balanceSheet.liabilities.longTermLiabilities	[object] The details of the entity's total value of all obligations to pay out cash at some date in the future but not within one year.
organization.legalEvents.judgments.filings.financials.balanceSheet.liabilities.longTermLiabilities.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.judgments.filings.financials.balanceSheet.liabilities.longTermLiabilities.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.judgments.filings.financials.balanceSheet.liabilities.longTermLiabilities.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.judgments.filings.financials.balanceSheet.liabilities.longTermLiabilities.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.judgments.filings.financials.balanceSheet.liabilities.longTermLiabilities.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.judgments.filings.financials.balanceSheet.liabilities.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.judgments.filings.financials.balanceSheet.liabilities.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.

organization.legalEvents.judgments.filings.financials.balanceSheet.liabilities.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.judgments.filings.financials.balanceSheet.liabilities.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.judgments.filings.financials.balanceSheet.liabilities.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.judgments.filings.financials.balanceSheet.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.judgments.filings.financials.balanceSheet.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.judgments.filings.financials.balanceSheet.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.judgments.filings.financials.balanceSheet.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.judgments.filings.financials.balanceSheet.statementItems.parentItemKey	[object] Records the higher level financial figure to which this item belongs to.
organization.legalEvents.judgments.filings.financials.balanceSheet.statementItems.parentItemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.judgments.filings.financials.balanceSheet.statementItems.parentItemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.judgments.filings.financials.balanceSheet.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.judgments.filings.financials.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.judgments.filings.financials.filingDate	[string] e.g.: 2018-02-01

	The date when the company filed its Latest Financials' financial statement with an official registry.
organization.legalEvents.judgments.filings.financials.financialStatementFromDate	[string] e.g.: 2010-03-14 The date on which the accounting period of the Latest Financials' financial statement commenced.
organization.legalEvents.judgments.filings.financials.financialStatementToDate	[string] e.g.: 2016-12-31 The date associated with the financial results. When the values are from a financial statement, it represents the date the accounting period ended. When it is an estimated or modeled value, it is the date on which the data was submitted.
organization.legalEvents.judgments.filings.financials.informationScope	[object] The details of the organizational scope of the Latest Financials' financial statement.
organization.legalEvents.judgments.filings.financials.informationScope.description	[string] e.g.: Consolidated The organizational scope of the values within the Summary Financials section. Individual means it represents a single organization inclusive of any branches. Consolidated means it represents an organization inclusive of any branches and any subsidiaries.
organization.legalEvents.judgments.filings.financials.informationScope.dnbCode	[integer] e.g.: 9067 A unique code assigned by Dun & Bradstreet to identify the organizational scope of the Summary Financials values. Refer to Reference code table "192 [Information Scope]" for all possible values.
organization.legalEvents.judgments.filings.financials.isAudited	[boolean] e.g.: true Indicates if the Latest Financials' accounts have been reviewed by a qualified accountant independent of the organization and the accountant has signed the financial statement certifying it is accurate and complete.
organization.legalEvents.judgments.filings.financials.isFinal	[boolean] e.g.: true Indicates whether the financial figures are for the entity's closing statement. - If true, the financial figures are for the entity's closing statement. - If false, the financial figures are not for the entity's closing statement.
organization.legalEvents.judgments.filings.financials.isFiscal	[boolean] e.g.: true Indicates whether the Latest Financials' financial figures cover a full year accounting period.
organization.legalEvents.judgments.filings.financials.profitAndLossStatement	[object] The details of the Latest Financials' profit and loss (P&L) statement which summarizes the revenues, costs and expenses incurred during a specified accounting period. The P&L statement is synonymous with the income statement.
organization.legalEvents.judgments.filings.financials.profitAndLossStatement.notes	[string] e.g.: Representative's comments Comments made by a representative

organization.legalEvents.judgments.filings.financials.profitAndLossStatement.projectedAnnualSales	[string] e.g.: Some information about projected sales Information about the projected annual sales.
organization.legalEvents.judgments.filings.financials.profitAndLossStatement.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.judgments.filings.financials.profitAndLossStatement.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.judgments.filings.financials.profitAndLossStatement.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.judgments.filings.financials.profitAndLossStatement.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.judgments.filings.financials.profitAndLossStatement.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.judgments.filings.financials.receivedTimestamp	[string] e.g.: 2018-04-06T16:33:21.443Z The date and time, in ISO 8601 UTC Z standard, when Dun & Bradstreet or one of Dun & Bradstreet's strategic partners received this financial statement.
organization.legalEvents.judgments.filings.financials.reliability	[object] The details of the integrity of the figures in the Latest Financials' financial statement.
organization.legalEvents.judgments.filings.financials.reliability.description	[string] e.g.: Actual The integrity of the financial figures present within the Summary Financials section (e.g., actual, estimated, or modeled).
organization.legalEvents.judgments.filings.financials.reliability.dnbCode	[integer] e.g.: 9092 A unique code assigned by Dun & Bradstreet to identify the precision of the financial figures present within the Summary Financials section. Refer to Reference code table "171 [Reliability]" for all possible values.
organization.legalEvents.judgments.filings.financials.units	[string] e.g.: SingleUnits The unit size (e.g., units, thousands, millions) in which the figures in the Latest Financials' financial statement are stated.
organization.legalEvents.judgments.filings.hasHistoricalEvent	[boolean] e.g.: true Indicates whether the entity is associated with a historical event. - If true, the entity has been part of a historical event. - If false, the entity has not been part of a historical event.

organization.legalEvents.judgments.filings.impactAmount	[object] Records the income acquired by the subject as a result of this legal event; e.g. the income acquired as a result of the sale of the subject's assets.
organization.legalEvents.judgments.filings.impactAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.judgments.filings.impactAmount.value	[number] e.g.: 125000.25 The monetary value for the income acquired by the subject as a result of this legal event; e.g. the income acquired as a result of the sale of the subject's assets.
organization.legalEvents.judgments.filings.isStopD	[boolean] e.g.: true When set to "true" this indicates that D&B should not fabricate or supply this Legal Event in products and services. Note: One exception to this business rule is the Public Records report which would disregard this indicator setting. When set to "false" this indicates that D&B can fabricate or supply this Legal Event in products and services; however as this is the assumed condition there is no requirement to create this tag to represent this fact.
organization.legalEvents.judgments.filings.jurisdictionType	[object] Describes the level of government applying the laws applicable to the event, e.g., federal, state.
organization.legalEvents.judgments.filings.jurisdictionType.description	[string] e.g.: County Text that describes the level of government applying the laws applicable to the event, e.g., federal, state.
organization.legalEvents.judgments.filings.jurisdictionType.dnbCode	[integer] e.g.: 14809 A unique code assigned by Dun & Bradstreet that describes the level of government applying the laws applicable to the event, e.g., federal, state. Refer to Reference code table "434 [Jurisdiction Type]" for all possible values.
organization.legalEvents.judgments.filings.legalHearingDate	[string] e.g.: 2019-10-12 Records the date of a formal process associated with the Legal Event e.g. the date by which creditors' claims must be filed, the future date for the reading of a bankruptcy petition.
organization.legalEvents.judgments.filings.originalFilingDate	[string] e.g.: 2017-10-30 The date of the initial filing of the event.
organization.legalEvents.judgments.filings.parentBankruptcy	[object] The details of a bankruptcy filed by the parent entity.
organization.legalEvents.judgments.filings.parentBankruptcy.duns	[string] e.g.: 804735132 The D-U-N-S® Number, a proprietary organizational identifier owned and managed by Dun & Bradstreet Inc, provides unique identification of a subject organization, in accordance with the Data Universal

Numbering System (D-U-N-S®).

organization.legalEvents.judgments.filings.priority	[string] e.g.: 5 A number that may be used to define the order in which the legal event should be presented relative to the other legal events where the lower the number the earlier the data is presented. Events within the same legal process can be identified using the priority group.
organization.legalEvents.judgments.filings.priorityGroup	[string] e.g.: 2 A number that may be used to identify multiple legal events as belonging together as part of the same overall legal process. Within a group the priority may then be used to ensure that the legal events within the group are presented continuously and in the correct order.
organization.legalEvents.judgments.filings.publishedDate	[string] e.g.: 2011-02-14 The date to support the recording of the Publication Date for an official document registered with an Official Body.
organization.legalEvents.judgments.filings.reasons	[array (object)] The details of the underlying factor that contributed to the Legal Event.
organization.legalEvents.judgments.filings.reasons.description	[string] e.g.: Voluntary Petition for Bankruptcy The underlying factor that contributed to the Legal Event (e.g., natural disaster, fraud, strategy, economic conditions, loss to creditors).
organization.legalEvents.judgments.filings.reasons.dnbCode	[integer] e.g.: 12281 A unique code assigned by Dun & Bradstreet to identify the underlying factor that contributed to the Legal Event. Refer to Reference code table "299 [Event Reason]" for all possible values.
organization.legalEvents.judgments.filings.reasons.filingAmount	[object] The details of the amount of relief sought by all of the plaintiffs in the suit.
organization.legalEvents.judgments.filings.reasons.filingAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.judgments.filings.reasons.filingAmount.value	[number] e.g.: 1000000 The total amount of relief sought by all of the plaintiffs in the suit.
organization.legalEvents.judgments.filings.receivedDate	[string] e.g.: 2017-10-30 The date when Dun & Bradstreet or one of its strategic partners received this legal event.
organization.legalEvents.judgments.filings.remedyFiled	[array (object)] The details of different kinds of relief for damages, and the associated amount filed for this legal event.

organization.legalEvents.judgments.filings.remedyFiled.remed yAmount	[object] The details of the amount of the remedy filed for damages for this legal event.
organization.legalEvents.judgments.filings.remedyFiled.remed yAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.judgments.filings.remedyFiled.remed yAmount.value	[number] e.g.: 30000 The monetary value of the remedy filed for damages for this legal event.
organization.legalEvents.judgments.filings.remedyFiled.remed yType	[object] The details of the specific kind of relief for the damage sought or deemed by this legal event (e.g., Actual, Punitive, Injunction, Compensatory).
organization.legalEvents.judgments.filings.remedyFiled.remed yType.description	[string] e.g.: Compensatory damage The specific kind of relief for the damage sought or deemed by this legal event (e.g., Actual, Punitive, Injunction, Compensatory).
organization.legalEvents.judgments.filings.remedyFiled.remed yType.dnbCode	[integer] e.g.: 14073 A unique code assigned by Dun & Bradstreet that describes the specific kind of relief for the damage sought or deemed by this legal event. Refer to Reference code table "430 [Legal Event Remedy Type]" for all possible values.
organization.legalEvents.judgments.filings.rolePlayers	[array (object)] The details of role players involved in a Legal Event as recorded in court papers and identifies the part each one plays.
organization.legalEvents.judgments.filings.rolePlayers.addres s	[object] The details of the Primary Address at which the organization is located or conducts operations.
organization.legalEvents.judgments.filings.rolePlayers.addres s.addressCountry	[object] The details of the country in which the role player is located.
organization.legalEvents.judgments.filings.rolePlayers.addres s.addressCountry.isoAlpha2Code	[string] e.g.: US The two-letter country code, defined by the International Organization for Standardization (ISO) ISO 3166-1 scheme identifying the country of the role player. Note: Please refer to Country Code Substitutions Table [/html/resources/CountryCodes.html#country-substitute] for the country code substitutions.
organization.legalEvents.judgments.filings.rolePlayers.addres s.addressCountry.name	[string] e.g.: Unites States The name of the country in which the role player is located.
organization.legalEvents.judgments.filings.rolePlayers.addres	[object]

s.addressCounty	The details of the county where the business is located.
organization.legalEvents.judgments.filings.rolePlayers.address.s.addressCounty.name	[string] e.g.: Unites States The name of the county where the business is located.
organization.legalEvents.judgments.filings.rolePlayers.address.s.addressLocality	[object] The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.
organization.legalEvents.judgments.filings.rolePlayers.address.s.addressLocality.name	[string] e.g.: SAN FRANCISCO The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.
organization.legalEvents.judgments.filings.rolePlayers.address.s.addressRegion	[object] The name of the geographical area for this address of the organization. For Example New Jersey.
organization.legalEvents.judgments.filings.rolePlayers.address.s.addressRegion.abbreviatedName	[string] e.g.: NJ The shortened name of the geographical area for this address of the organization. For example NJ for the US State New Jersey within Country United States.
organization.legalEvents.judgments.filings.rolePlayers.address.s.addressRegion.name	[string] e.g.: California The name of the geographical area for this address of the organization. For Example New Jersey.
organization.legalEvents.judgments.filings.rolePlayers.address.s.continentalRegion	[object] The details of the region as defined by Dun & Bradstreet for this address.
organization.legalEvents.judgments.filings.rolePlayers.address.s.continentalRegion.name	[string] e.g.: North America The name of the region as defined by Dun & Bradstreet for this address (e.g., Africa, Europe, Middle East).
organization.legalEvents.judgments.filings.rolePlayers.address.s.postalCode	[string] e.g.: 941109999 The postal code for this address of the organization. Also known locally in various English-speaking countries throughout the world as a postcode, post code, Eircode, PIN or ZIP Code) is a series of letters or digits or both, sometimes including spaces or punctuation, included in a postal address for the purpose of sorting mail. The code is used by the country's postal authority to identify the address where the organization is located or conducts operations .
organization.legalEvents.judgments.filings.rolePlayers.address.s.streetAddress	[object] The details of the street address for this address of the organization.
organization.legalEvents.judgments.filings.rolePlayers.address.s.streetAddress.line1	[string] e.g.: 492 KOLLER ST The first line of the address where the entity is located. The first line of this address of the organization. For example The Point in the address

The Point
37 North Wharf Road
London
W2 1AF

organization.legalEvents.judgments.filings.rolePlayers.address.streetAddress.line2

[string] e.g.: Suite 100
The second line of this address of the organization.
For example 37 North Wharf Road in the address
The Point
37 North Wharf Road
London
W2 1AF

organization.legalEvents.judgments.filings.rolePlayers.creditorCategories

[array (object)]
Records several different classifications for this creditor who claims that the subject owes money. The priority in which the claimants are paid is based on the classification to which they belong.

organization.legalEvents.judgments.filings.rolePlayers.creditorCategories.claimAmount

[object]
Details of the monetary value owed to the category of this creditor recorded in Creditor Type.

organization.legalEvents.judgments.filings.rolePlayers.creditorCategories.claimAmount.currency

[string] e.g.: USD
The currency of the monetary value owed to the category of this creditor recorded in Creditor Type.

organization.legalEvents.judgments.filings.rolePlayers.creditorCategories.claimAmount.value

[number] e.g.: 1485795.25
The monetary value owed to the category of this creditor recorded in Creditor Type.

organization.legalEvents.judgments.filings.rolePlayers.creditorCategories.creditorType

[object]
The category of this creditor to which the subject owes money, with respect to their priority of being paid relative to other creditor categories; e.g., preferred, secured, where preferred creditors have priority over secured creditors.

organization.legalEvents.judgments.filings.rolePlayers.creditorCategories.creditorType.description

[string] e.g.: Secured
Text that identifies the category of this creditor to which the subject owes money, with respect to their priority of being paid relative to other creditor categories; e.g., preferred, secured, where preferred creditors have priority over secured creditors.

organization.legalEvents.judgments.filings.rolePlayers.creditorCategories.creditorType.dnbCode

[integer] e.g.: 15573
A unique code assigned by Dun & Bradstreet that specifies the category of this creditor to which the subject owes money, with respect to their priority of being paid relative to other creditor categories; e.g., preferred, secured, where preferred creditors have priority over secured creditors.
Refer to Reference code table "401 [Creditor Type]" for all possible values.

organization.legalEvents.judgments.filings.rolePlayers.duns

[string] e.g.: 804735132
The D-U-N-S® Number, a proprietary organizational identifier owned and managed by Dun & Bradstreet Inc, provides unique identification of a subject organization, in accordance with the Data Universal

	Numbering System (D-U-N-S®).
organization.legalEvents.judgments.filings.rolePlayers.employerName	[string] e.g.: Dun & Bradstreet The name of the subject that employs the party involved in this event.
organization.legalEvents.judgments.filings.rolePlayers.filingAmount	[object] The details of the monetary value associated with a court action for this party involved in the event.
organization.legalEvents.judgments.filings.rolePlayers.filingAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.judgments.filings.rolePlayers.filingAmount.value	[number] e.g.: 100000 The monetary value associated with a court action for this party involved in the event.
organization.legalEvents.judgments.filings.rolePlayers.filingAmountComparisonType	[object] Specifies the operator that may be used as the basis of data comparisons between two values; e.g., greater than, less than, equal to. In some cases only one of two values being compared is recorded, while the other value could be derived or become available at a later date. For example, the value to be awarded must be "Less Than" the value recorded.
organization.legalEvents.judgments.filings.rolePlayers.filingAmountComparisonType.description	[string] e.g.: less than Text that specifies the operator that may be used as the basis of data comparisons between two values; e.g., greater than, less than, equal to. In some cases only one of two values being compared is recorded, while the other value could be derived or become available at a later date. For example, the value to be awarded must be "Less Than" the value recorded.
organization.legalEvents.judgments.filings.rolePlayers.filingAmountComparisonType.dnbCode	[integer] e.g.: 16804 A unique code assigned by Dun & Bradstreet that specifies the operator that may be used as the basis of data comparisons between two values; e.g., greater than, less than, equal to. In some cases only one of two values being compared is recorded, while the other value could be derived or become available at a later date. For example, the value to be awarded must be "Less Than" the value recorded. Refer to Reference code table "410 [Comparison Operator]" for all possible values.
organization.legalEvents.judgments.filings.rolePlayers.filingResults	[array (object)] Describes all outcomes involving this Role Player from this Legal Event; e.g., Counter claim filed by the defendant in a lawsuit.
organization.legalEvents.judgments.filings.rolePlayers.filingResults.filingAmount	[object] The details of the monetary value associated with a court action for this party involved in the event.
organization.legalEvents.judgments.filings.rolePlayers.filingResults.filingAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed

	(e.g., USD, CAD, GBP, EUR).
organization.legalEvents.judgments.filings.rolePlayers.filingResults.filingAmount.value	[number] e.g.: 100000 The monetary value associated with a court action for this party involved in the event.
organization.legalEvents.judgments.filings.rolePlayers.filingResults.result	[object] Describes an outcome involving this Role Player from this Legal Event; e.g., Counter claim filed by the defendant in a lawsuit.
organization.legalEvents.judgments.filings.rolePlayers.filingResults.result.description	[string] e.g.: Closed Text that describes an outcome involving this Role Player from this Legal Event; e.g., Counter claim filed by the defendant in a lawsuit.
organization.legalEvents.judgments.filings.rolePlayers.filingResults.result.dnbCode	[integer] e.g.: 11468 A unique code assigned by Dun & Bradstreet that describes an outcome involving this Role Player from this Legal Event; e.g., Counter claim filed by the defendant in a lawsuit. Refer to Reference code table "86 [Event Result]" for all possible values.
organization.legalEvents.judgments.filings.rolePlayers.filingResults.resultDate	[string] e.g.: 2012-05-30 The date when the outcome recorded in Event Result Code occurred.
organization.legalEvents.judgments.filings.rolePlayers.name	[string] e.g.: Some Vendor The name of the party involved in this event as it was filed.
organization.legalEvents.judgments.filings.rolePlayers.operatingStatus	[object] The details of the high level categorization of the organization's functional state or trading status.
organization.legalEvents.judgments.filings.rolePlayers.operatingStatus.description	[string] e.g.: Active Textual description of the organization's functional state or trading status. Possible values: [9074] Active [403] Out of Business
organization.legalEvents.judgments.filings.rolePlayers.operatingStatus.dnbCode	[integer] e.g.: 9074 A unique code assigned by Dun & Bradstreet to identify the organization's functional state or trading status. Possible values: 9074 [Active] 403 [Out of Business] Refer to Reference code table "166 [Operating Status]" for all possible values.
organization.legalEvents.judgments.filings.rolePlayers.positions	[array (object)] The details of the job positions the role player holds or has held in the entity.
organization.legalEvents.judgments.filings.rolePlayers.position	[string] e.g.: Sales consultant

s.description	The job position the role player holds or has held in the organization (e.g., Financial Director, Sales Director, Operations Manager).
organization.legalEvents.judgments.filings.rolePlayers.position s.dnbCode	[integer] e.g.: 28802 A unique code assigned by Dun & Bradstreet that denotes the job position the role player holds or has held in the entity. Refer to Reference code table "5 [Position] & 198 [Employee Position]" for all possible values.
organization.legalEvents.judgments.filings.rolePlayers.reason s	[array (object)] Records various underlying factors involving this Role Player, that contributed to the Legal Event.
organization.legalEvents.judgments.filings.rolePlayers.reason s.description	[string] e.g.: Goodwill Text describing an underlying factor involving this Role player that contributed to the Legal Event; e.g., fraud, racism, strategy, anti-trust violation.
organization.legalEvents.judgments.filings.rolePlayers.reason s.dnbCode	[integer] e.g.: 15629 A unique code assigned by Dun & Bradstreet describing an underlying factor involving this Role player that contributed to the Legal Event; e.g., fraud, racism, strategy, anti-trust violation. Refer to Reference code table "299 [Event Reason]" for all possible values.
organization.legalEvents.judgments.filings.rolePlayers.registra tionNumbers	[array (object)] The details of the numbers assigned by an external body or by Dun & Bradstreet that either uniquely identifies or helps to identify an entity.
organization.legalEvents.judgments.filings.rolePlayers.registra tionNumbers.registrationNumber	[string] e.g.: 12-3456789 The number or alphanumeric value assigned by a recognized external authority that either uniquely identifies or helps to identify the organization.
organization.legalEvents.judgments.filings.rolePlayers.registra tionNumbers.typeDescription	[string] e.g.: Federal Taxpayer Identification Number (US) The official name of the organization identifier assigned by a recognized external authority (e.g.. Australian Company Number, Federal Taxpayer Identification Number, Value Added Tax Number).
organization.legalEvents.judgments.filings.rolePlayers.registra tionNumbers.typeDnBCode	[integer] e.g.: 6863 A unique code assigned by Dun & Bradstreet to identify the type of organization registration number. For example, 2541 stands for company number issued by the UK Companies House. Refer to Reference code table "7 [Registration Number Type]" for all possible values.
organization.legalEvents.judgments.filings.rolePlayers.remedy Filed	[array (object)] Records details on several different kinds of relief for damages along with the associated amount filed for this legal event; e.g., for U.S. suits - the remedies sought by the plaintiff(s), for U.S. judgments - the remedies deemed by the court.
organization.legalEvents.judgments.filings.rolePlayers.remedy Filed.remedyType	[object] text that describes the specific kind of relief for the damage sought or deemed by this legal event; e.g., Actual, Punitive, Injunction, Compensatory.

organization.legalEvents.judgments.filings.rolePlayers.remedyFiled.remedyType.description	[string] e.g.: Damages A unique code assigned by Dun & Bradstreet that describes the specific kind of relief for the damage sought or deemed by this legal event; e.g., Actual, Punitive, Injunction, Compensatory.
organization.legalEvents.judgments.filings.rolePlayers.remedyFiled.remedyType.dnbCode	[integer] e.g.: 14701 A unique code assigned by Dun & Bradstreet that describes the specific kind of relief for the damage sought or deemed by this legal event; e.g., Actual, Punitive, Injunction, Compensatory. Refer to Reference code table "430 [Legal Event Remedy Type]" for all possible values.
organization.legalEvents.judgments.filings.rolePlayers.rolePlayerType	[object] The details of the role player's function in the event.
organization.legalEvents.judgments.filings.rolePlayers.rolePlayerType.description	[string] e.g.: Shareholder The function played by this party in the event (e.g., debtor, creditor, liquidator, shareholder, court, plaintiff, defendant).
organization.legalEvents.judgments.filings.rolePlayers.rolePlayerType.dnbCode	[integer] e.g.: 302 A unique code assigned by Dun & Bradstreet to identify the function played by this party in the event. Refer to Reference code table "10 [Role Player Type]" for all possible values.
organization.legalEvents.judgments.filings.rolePlayers.standardRating	[object] The most current Standard Dun & Bradstreet Standard Rating assigned to this entity.
organization.legalEvents.judgments.filings.rolePlayers.standardRating.financialStrength	[string] e.g.: 3A The overall size of the entity from a financial perspective. It may be based on the net worth or issued capital of the entity; the higher the amount, the larger the entity is considered to be.
organization.legalEvents.judgments.filings.rolePlayers.standardRating.riskSegment	[string] e.g.: 4 Creditworthiness of the entity in terms of its overall financial condition or risk to creditors.
organization.legalEvents.judgments.filings.rolePlayers.standardRating.scoreDate	[string] e.g.: 2010-03-14 The date when the score was assigned or last changed. Scores are continuously monitored and recalculated as any input variables changes. In the event that the score could not be assigned on the entity, this is the date when the reason was recorded explaining why the score was not assigned. Format: YYYY-MM-DD or YYYY-MM. Note: In some markets, the date is not changed unless there is a score change in order to avoid unnecessary notifications. But in others, the score date changes even though the score does not change after the market recalculates the score.
organization.legalEvents.judgments.filings.rolePlayers.startDate	[string] e.g.: 2017-10-30 The date when the role player originally started its business activities.
organization.legalEvents.judgments.filings.rolePlayers.telephone	[array (object)] The details of the Telephone contact information used for voice communication with the organization.

organization.legalEvents.judgments.filings.rolePlayers.telephone.isdCode	<p>[string] e.g.: 1</p> <p>A series of numbers that must be prefixed before dialing a telephone number in another Country, it is comprised of an International Dialing Prefix followed by the Country Code. These are also referred to as Country Calling Code or Country Dial-In Code.</p>
organization.legalEvents.judgments.filings.rolePlayers.telephone.isUnreachable	<p>[boolean] e.g.: false</p> <p>Indicates whether the telephone number can be connected to successfully.</p> <ul style="list-style-type: none"> - If true, connection to the telephone number is unsuccessful. - If false, connection to the telephone number is successful.
organization.legalEvents.judgments.filings.rolePlayers.telephone.telephoneNumber	<p>[string] e.g.: 65055550000</p> <p>The primary voice telephone number for the business, when dialing domestically. The National Telephone Number is created by combining the Domestic Area Code and the Local Number.</p> <p>A Domestic Area Code is a series of numbers that must be prefixed before dialing a telephone number in another local area. National telecommunication authorities use various formats and dialing rules for area codes. Also known as City Code.</p> <p>A Local Number is a series of numbers that represents a specific telephone line.</p>
organization.legalEvents.judgments.filings.rolePlayers.textEntry	<p>[array (object)]</p> <p>The details of data elements regarding the legal event filing which cannot be recorded in the other fields.</p>
organization.legalEvents.judgments.filings.rolePlayers.textEntry.priority	<p>[integer] e.g.: 1</p> <p>A number that may be used to define the order in which this text entry should be presented relative to other occurrences of text entries where the lower the number the earlier the data is presented.</p>
organization.legalEvents.judgments.filings.rolePlayers.textEntry.text	<p>[string] e.g.: Some text obtained from contact</p> <p>Text that has been recorded.</p>
organization.legalEvents.judgments.filings.rolePlayers.textEntry.typeDescription	<p>[string] e.g.: Legal event</p> <p>Text entry type to qualify the information recorded in the text entries.</p>
organization.legalEvents.judgments.filings.rolePlayers.textEntry.typeDnBCode	<p>[integer] e.g.: 1170</p> <p>A unique code assigned by Dun & Bradstreet to identify the text entry type. Refer to Reference code table "27 [Information Description]" for all possible values.</p>
organization.legalEvents.judgments.filings.startDate	<p>[string] e.g.: 2016-09-30</p> <p>The date on or before which the event took place.</p>
organization.legalEvents.judgments.filings.status	<p>[object]</p> <p>The details of the most recent situation for the legal event.</p>
organization.legalEvents.judgments.filings.status.description	<p>[string] e.g.: Open</p>

	The most recent situation for the legal event (e.g., pending, unsatisfied).
organization.legalEvents.judgments.filings.status.dnbCode	[integer] e.g.: 11477 A unique code assigned by Dun & Bradstreet to identify the most recent situation for the legal event. Refer to Reference code table "82 [Event Status]" for all possible values.
organization.legalEvents.judgments.filings.statusDate	[string] e.g.: 2017-12-15 The date when the situation changed.
organization.legalEvents.judgments.filings.textEntry	[array (object)] The details of data elements regarding the legal event filing which cannot be recorded in the other fields.
organization.legalEvents.judgments.filings.textEntry.priority	[integer] e.g.: 1 A number that may be used to define the order in which this text entry should be presented relative to other occurrences of text entries where the lower the number the earlier the data is presented.
organization.legalEvents.judgments.filings.textEntry.text	[string] e.g.: Some text obtained from contact Text that has been recorded.
organization.legalEvents.judgments.filings.textEntry.typeDescription	[string] e.g.: Legal event Text entry type to qualify the information recorded in the text entries.
organization.legalEvents.judgments.filings.textEntry.typeDnBCode	[integer] e.g.: 1170 A unique code assigned by Dun & Bradstreet to identify the text entry type. Refer to Reference code table "27 [Information Description]" for all possible values.
organization.legalEvents.judgments.filings.textEntry.language	[object] Records the language in which this information is presented.
organization.legalEvents.judgments.filings.textEntry.language.description	[string] e.g.: English Textual value denoting the language in which this information is recorded.
organization.legalEvents.judgments.filings.textEntry.language.dnbCode	[integer] e.g.: 39 A unique code assigned by Dun & Bradstreet that denotes the language in which this information is recorded. Refer to Reference code table "3 [Language]" for all possible values.
organization.legalEvents.judgments.filings.verifiedDate	[string] e.g.: 2017-10-30 The date Dun & Bradstreet reviewed the reported content of the Legal Event to ensure accuracy.
organization.legalEvents.bankruptcy	[object] The details of the legal declarations of the entity's inability to pay its creditors.
organization.legalEvents.bankruptcy.mostRecentFilingDate	[string] e.g.: 2020-10-09 The date of the most recent event of this event type.

organization.legalEvents.bankruptcy.periodSummary	[object] Records summarized information on several decisions made by a court that involved this subject as recorded on the D&B database in different time periods.
organization.legalEvents.bankruptcy.periodSummary.12Months	[object] Records summarized information about the legally declared inability of the subject to pay its creditors.as recorded on the D&B database in the last 12 months.
organization.legalEvents.bankruptcy.periodSummary.12Months.totalCount	[integer] e.g.: 0 The number of bankruptcy events recorded on this subject in the last 12 months.
organization.legalEvents.bankruptcy.periodSummary.12Months.totalAmount	[object] Records details on the monetary value of bankruptcy events recorded on this subject in the last 12 months.
organization.legalEvents.bankruptcy.periodSummary.12Months.totalAmount.value	[number] e.g.: 601 The monetary value of bankruptcy events recorded on this subject in the last 12 months.
organization.legalEvents.bankruptcy.periodSummary.12Months.totalAmount.currency	[string] e.g.: USD The currency of the monetary value of bankruptcy events recorded on this subject in the last 12 months, expressed in ISO Alpha3 code format.
organization.legalEvents.bankruptcy.filings	[array (object)] The details of each legal declaration of the entity's inability to pay its creditors.
organization.legalEvents.bankruptcy.filings.activities	[array (object)] The activities that have taken place in pursuit of the claim.
organization.legalEvents.bankruptcy.filings.activities.activityDate	[string] e.g.: 2016-02-18 The date of an activity that has taken place in pursuit of the claim.
organization.legalEvents.bankruptcy.filings.activities.description	[string] e.g.: Actual The description of the legal process in which an entity declares inability to pay its debts.
organization.legalEvents.bankruptcy.filings.actualLegalHearingDate	[string] e.g.: 2019-10-12 Records the date on which the formal process associated with the Legal Event occurred; e.g., the date on which creditors filed claims, the date on which a bankruptcy petition was read, the date on which a trial hearing took place.
organization.legalEvents.bankruptcy.filings.assetClass	[array (object)] Records details of different groups of assets which are impacted by this Legal Event.
organization.legalEvents.bankruptcy.filings.assetClass.description	[string] e.g.: Property Text that describes the class of asset at a high level, e.g. Vehicles.

organization.legalEvents.bankruptcy.filings.assetClass.dnbCode	[integer] e.g.: 15616 A unique code assigned by Dun & Bradstreet that describes the class of asset at a high level, e.g. Vehicles. Refer to Reference code table "66 [Asset Class]" for all possible values.
organization.legalEvents.bankruptcy.filings.awardedAmount	[object] The details of the amount associated with a decision made by a court.
organization.legalEvents.bankruptcy.filings.awardedAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.bankruptcy.filings.awardedAmount.value	[number] e.g.: 1000000 The monetary value associated with a decision made by a court.
organization.legalEvents.bankruptcy.filings.collaterals	[array (object)] The details of the different types of assets used by the entity as security for this event.
organization.legalEvents.bankruptcy.filings.collaterals.collateralDetails	[array (object)] Records information about an individual item/asset that the subject has used as security for this Financing Event.
organization.legalEvents.bankruptcy.filings.collaterals.collateralDetails.isUsed	[boolean] e.g.: true When set to "true", this identifies that the collateral asset owned by the Subject is no longer considered a brand new item. When set to "false", this identifies that the collateral asset owned by the Subject is considered a brand new item.
organization.legalEvents.bankruptcy.filings.collaterals.collateralDetails.manufacturedYear	[string] e.g.: 2001 The year in which the construction of the item; e.g., a ship, was completed.
organization.legalEvents.bankruptcy.filings.collaterals.collateralDetails.manufactureName	[string] e.g.: Ford Motors The name of the business that built the item being held as collateral in a business transaction.
organization.legalEvents.bankruptcy.filings.collaterals.collateralDetails.modelName	[string] e.g.: Mustang An alphanumeric name assigned by the manufacturer to the asset; e.g., Mustang, RX8, Pavilion, T60, 747.
organization.legalEvents.bankruptcy.filings.collaterals.collateralDetails.modelYear	[string] e.g.: 2002 The year that the manufacturer assigned to the model based on the expected release of the model to the public.
organization.legalEvents.bankruptcy.filings.collaterals.collateralDetails.serialNumber	[string] e.g.: VX1234 A reference number or text assigned by the manufacturer for uniquely identifying the manufactured item.

organization.legalEvents.bankruptcy.filings.collaterals.collateralDetails.textEntry	[array (object)] Records multiple textual descriptions, language and nature of textual Collateral Details data for this Financing Event that cannot be recorded in the defined fields.
organization.legalEvents.bankruptcy.filings.collaterals.collateralDetails.textEntry.priority	[integer] e.g.: 1 A number which may be used to identify multiple occurrences of Text Entry as belonging together as part of the same block of text. Within a group the Display Sequence may then be used to ensure that the Text Entry occurrences within the group are presented in the correct order.
organization.legalEvents.bankruptcy.filings.collaterals.collateralDetails.textEntry.text	[string] e.g.: Company vehicle A textual description of a collateral associated with the Financing Event which cannot be recorded in any of the defined elements.
organization.legalEvents.bankruptcy.filings.collaterals.collateralDetails.textEntry.typeDescription	[string] e.g.: Financial Statement Additional Note Text Text which describes the type of Text; e.g., the title of the party associated with the Financing Event.
organization.legalEvents.bankruptcy.filings.collaterals.collateralDetails.textEntry.typeDnBCode	[integer] e.g.: 23916 A unique code assigned by Dun & Bradstreet which describes the type of Text; e.g., the title of the party associated with the Financing Event. Refer to Reference code table "27 [Information Description]" for all possible values.
organization.legalEvents.bankruptcy.filings.collaterals.collateralSupplementalItems	[array (object)] Records kinds of supplemental items, (e.g., Products, Proceeds), that are included as security along with the identified collateral for the given Collateral Type.
organization.legalEvents.bankruptcy.filings.collaterals.collateralSupplementalItems.description	[string] e.g.: Proceeds Text that specifies the kind of supplemental items, (e.g., Products, Proceeds), that are included as security along with the identified collateral item for the given Collateral Type. The items in this example are produced as output of the asset (e.g., manufacturing plant) that the subject is using for collateral.
organization.legalEvents.bankruptcy.filings.collaterals.collateralSupplementalItems.dnbCode	[integer] e.g.: 11290 A unique code assigned by Dun & Bradstreet that specifies the kind of supplemental items, (e.g., Products, Proceeds), that are included as security along with the identified collateral item for the given Collateral Type. The items in this example are produced as output of the asset (e.g., manufacturing plant) that the subject is using for collateral. Refer to Reference code table "268 [Collateral Supplemental Item Type]" for all possible values.
organization.legalEvents.bankruptcy.filings.collaterals.itemQuantity	[integer] e.g.: 25 The number of assets that the subject is using as collateral for the particular Collateral Type.
organization.legalEvents.bankruptcy.filings.collaterals.quantity	[integer] e.g.: 15 The number of assets that the subject is using as collateral for the particular collateral type.
organization.legalEvents.bankruptcy.filings.collaterals.scope	[object] Records the scope of the assets used by a debtor as security as recorded in the Financing Event; e.g., All

	items for the Collateral Type are included, only the items that are leased for the Collateral Type are included
organization.legalEvents.bankruptcy.filings.collaterals.scope.description	[string] e.g.: Leased Text that indicates the scope of the assets used by a debtor as security as recorded in the Financing Event; e.g., All items for the Collateral Type are included, only the items that are leased for the Collateral Type are included
organization.legalEvents.bankruptcy.filings.collaterals.scope.dnbCode	[integer] e.g.: 11288 A unique code assigned by Dun & Bradstreet which indicates the scope of the assets used by a debtor as security as recorded in the Financing Event; e.g., All items for the Collateral Type are included, only the items that are leased for the Collateral Type are included Refer to Reference code table "267 [Collateral Scope]" for all possible values.
organization.legalEvents.bankruptcy.filings.collaterals.supplementalItems	[array (object)] Records the kinds of supplemental items, (e.g., Products, Proceeds), that are included as security along with the identified collateral for the given collateral type.
organization.legalEvents.bankruptcy.filings.collaterals.supplementalItems.description	[string] e.g.: Products Text which describes the kinds of supplemental items, (e.g., Products, Proceeds), that are included as security along with the identified collateral for the given collateral type.
organization.legalEvents.bankruptcy.filings.collaterals.supplementalItems.dnbCode	[integer] e.g.: 11289 A unique code assigned by Dun & Bradstreet which describes the kinds of supplemental items, (e.g., Products, Proceeds), that are included as security along with the identified collateral for the given collateral type. Refer to Reference code table "268 [Collateral Supplemental Item Type]" for all possible values.
organization.legalEvents.bankruptcy.filings.collaterals.textEntry	[array (object)] Records the textual description, language and nature of collateral type information.
organization.legalEvents.bankruptcy.filings.collaterals.textEntry.text	[string] e.g.: Vehicles Free form textual description, language and nature of collateral type information.
organization.legalEvents.bankruptcy.filings.collaterals.textEntry.typeDescription	[string] e.g.: Financial Statement Additional Note Text Text that describes the type of textual description, language and nature of collateral type information.
organization.legalEvents.bankruptcy.filings.collaterals.textEntry.typeDnbCode	[integer] e.g.: 23916 A unique code assigned by Dun & Bradstreet describing the type of textual description, language and nature of collateral type information. Refer to Reference code table "27 [Information Description]" for all possible values.
organization.legalEvents.bankruptcy.filings.collateralScopeType	[object] Records the scope of the assets used by a debtor as security as recorded in the Financing Event; e.g., All items for the Collateral Type are included, only the items that are leased for the Collateral Type are

	included
organization.legalEvents.bankruptcy.filings.collateralScopeType.e.description	[string] e.g.: Leased Text which indicates the scope of the assets used by a debtor as security as recorded in the Financing Event; e.g., All items for the Collateral Type are included, only the items that are leased for the Collateral Type are included
organization.legalEvents.bankruptcy.filings.collateralScopeType.dnbCode	[integer] e.g.: 11288 A unique code assigned by Dun & Bradstreet which indicates the scope of the assets used by a debtor as security as recorded in the Financing Event; e.g., All items for the Collateral Type are included, only the items that are leased for the Collateral Type are included Refer to Reference code table "267 [Collateral Scope]" for all possible values.
organization.legalEvents.bankruptcy.filings.contactEvents	[array (object)] The details on communications Dun & Bradstreet had with persons to get information on this event.
organization.legalEvents.bankruptcy.filings.contactEvents.address	[object] The details of the address used by the entity for mailing purposes.
organization.legalEvents.bankruptcy.filings.contactEvents.address.addressCountry	[object] The details of the country or region for this address of the organization.
organization.legalEvents.bankruptcy.filings.contactEvents.address.addressCountry.isoAlpha2Code	[string] e.g.: US The 2 letter alpha country code assigned by the International Organization for Standardization (ISO) identifying the Country/Region for this address of the organization. Note: Please refer to Country Code Substitutions Table [/html/resources/CountryCodes.html#country-substitute] for the country code substitutions.
organization.legalEvents.bankruptcy.filings.contactEvents.comments	[array (object)] Records notes from the contact providing further information regarding the subject's event.
organization.legalEvents.bankruptcy.filings.contactEvents.comments.description	[string] e.g.: Financing Statement was assigned Text that expresses a note collected from this contact providing further information about this event.
organization.legalEvents.bankruptcy.filings.contactEvents.comments.dnbCode	[integer] e.g.: 14767 A unique code assigned by Dun & Bradstreet that expresses a note collected from this contact providing further information about this event. Refer to Reference code table "429 [Event Comment]" for all possible values.
organization.legalEvents.bankruptcy.filings.contactEvents.contactDate	[string] e.g.: 2017-11-25 The date when the communication took place.
organization.legalEvents.bankruptcy.filings.contactEvents.duns	[string] e.g.: 804735132 The D-U-N-S® Number, a proprietary organizational identifier owned and managed by Dun & Bradstreet

Inc, provides unique identification of a subject organization, in accordance with the Data Universal Numbering System (D-U-N-S®).

organization.legalEvents.bankruptcy.filings.contactEvents.name	[string] e.g.: John Smith The name of the contact which may be either an individual or an entity.
organization.legalEvents.bankruptcy.filings.contactEvents.nonSpecificSource	[object] The details, in general terms, about the supplier of the Financial Statement.
organization.legalEvents.bankruptcy.filings.contactEvents.nonSpecificSource.description	[string] e.g.: Trustee Describes the supplier of the Financial Statement (e.g., Official Registry, Accountant, the Subject).
organization.legalEvents.bankruptcy.filings.contactEvents.nonSpecificSource.dnbCode	[integer] e.g.: 15735 A unique code assigned by Dun & Bradstreet to identify, in general terms, the supplier from which this data was originally obtained by Dun & Bradstreet. Refer to Reference code table "35 [Role Player Type Non-Specific]" for all possible values.
organization.legalEvents.bankruptcy.filings.contactEvents.organizationName	[string] e.g.: ABC Corp The name of the contact, when this is a company.
organization.legalEvents.bankruptcy.filings.contactEvents.positions	[array (object)] The details on the job position the principal or manager holds or has held in the entity.
organization.legalEvents.bankruptcy.filings.contactEvents.positions.description	[string] e.g.: Chairman Executive Committee The job position the principal or manager holds or has held in the entity (e.g., Financial Director, Managing Director, Sales Director, Operations Manager).
organization.legalEvents.bankruptcy.filings.contactEvents.positions.dnbCode	[integer] e.g.: 95 A unique code assigned by Dun & Bradstreet to identify the job position the principal or manager holds or has held in the entity. Refer to Reference code table "5 [Position] & 198 [Employee Position]" for all possible values.
organization.legalEvents.bankruptcy.filings.contactEvents.positions.jobTitles	[array (object)] Records several different Vanity Titles for the person with whom D&B had contact to get information on this event.
organization.legalEvents.bankruptcy.filings.contactEvents.positions.jobTitles.title	[string] e.g.: Senior Director of Finance A textual presentation of the position as preferred by the person with whom D&B had contact to get information on this event, e.g., Position Code might equate to Financial Director, however, the Vanity Title might be 'Senior Director of Finance'.
organization.legalEvents.bankruptcy.filings.contactEvents.positions.positionClass	[object] The details that define the class of the position.
organization.legalEvents.bankruptcy.filings.contactEvents.positions.jobTitles.description	[string] e.g.: Chairman Executive Committee

tions.positionClass.description	The job position the principal or manager holds or has held in the entity (e.g., Financial Director, Managing Director, Sales Director, Operations Manager).
organization.legalEvents.bankruptcy.filings.contactEvents.positions.positionClass.dnbCode	[integer] e.g.: 95 A unique code assigned by Dun & Bradstreet to identify the job position the principal or manager holds or has held in the entity. Refer to Reference code table "5 [Position] & 198 [Employee Position]" for all possible values.
organization.legalEvents.bankruptcy.filings.contactEvents.positions.positionStanding	[object] Details of the capacity or standing in which the individual holds this specific position.
organization.legalEvents.bankruptcy.filings.contactEvents.positions.positionStanding.description	[string] e.g.: Acting The capacity or standing in which the individual holds this specific position.
organization.legalEvents.bankruptcy.filings.contactEvents.positions.positionStanding.dnbCode	[integer] e.g.: 336 A unique code assigned by Dun & Bradstreet to identify the capacity in which the position is held. Refer to Reference code table "195 [Position Standing]" for all possible values.
organization.legalEvents.bankruptcy.filings.contactEvents.positions.priority	[integer] e.g.: 1 A number that may be used to define the order in which the Position should be presented relative to any other occurrences of Position where lower the number the earlier the data is presented.
organization.legalEvents.bankruptcy.filings.contactEvents.positions.startDate	[string] e.g.: 2017-08-23 The date when the principal or manager was appointed to this position. This is not necessarily the date when the principal or manager was first employed by the subject; it is the date when they moved to this position.
organization.legalEvents.bankruptcy.filings.contactEvents.results	[array (object)] The details of the outcomes this Legal Event had or is having on the entity.
organization.legalEvents.bankruptcy.filings.contactEvents.results.result	[object] The details of the outcome this event had or is having on the party involved in the event.
organization.legalEvents.bankruptcy.filings.contactEvents.results.result.description	[string] e.g.: Settled The outcome this event had or is having on the party involved in the event (e.g., Petition Dismissed, Liquidator Appointed, Counter claim filed by the defendant in a lawsuit).
organization.legalEvents.bankruptcy.filings.contactEvents.results.result.dnbCode	[integer] e.g.: 11466 A unique code assigned by Dun & Bradstreet that describes the outcome this event had or is having. Refer to Reference code table "86 [Event Result]" for all possible values.
organization.legalEvents.bankruptcy.filings.contactEvents.results.resultDate	[string] e.g.: 2017-10-30 The date the outcome of the event occurred.
organization.legalEvents.bankruptcy.filings.contactEvents.role	[array (object)]

Players	The details of role players involved in a Legal Event as recorded in court papers and identifies the part each one plays.
organization.legalEvents.bankruptcy.filings.contactEvents.rolePlayers.rolePlayerType	[object] The details of the role player's function in the event.
organization.legalEvents.bankruptcy.filings.contactEvents.rolePlayers.rolePlayerType.description	[string] e.g.: Shareholder The function played by this party in the event (e.g., debtor, creditor, liquidator, shareholder, court, plaintiff, defendant).
organization.legalEvents.bankruptcy.filings.contactEvents.rolePlayers.rolePlayerType.dnbCode	[integer] e.g.: 302 A unique code assigned by Dun & Bradstreet to identify the function played by this party in the event. Refer to Reference code table "10 [Role Player Type]" for all possible values.
organization.legalEvents.bankruptcy.filings.contactEvents.textEntry	[array (object)] The details of data elements regarding the legal event filing which cannot be recorded in the other fields.
organization.legalEvents.bankruptcy.filings.contactEvents.textEntry.priority	[integer] e.g.: 1 A number that may be used to define the order in which this text entry should be presented relative to other occurrences of text entries where the lower the number the earlier the data is presented.
organization.legalEvents.bankruptcy.filings.contactEvents.textEntry.text	[string] e.g.: Some text obtained from contact Text that has been recorded.
organization.legalEvents.bankruptcy.filings.contactEvents.textEntry.typeDescription	[string] e.g.: Legal event Text entry type to qualify the information recorded in the text entries.
organization.legalEvents.bankruptcy.filings.contactEvents.textEntry.typeDnBCode	[integer] e.g.: 1170 A unique code assigned by Dun & Bradstreet to identify the text entry type. Refer to Reference code table "27 [Information Description]" for all possible values.
organization.legalEvents.bankruptcy.filings.courtAddress	[object] The location information of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.bankruptcy.filings.courtAddress.addressCountry	[object] The details of the country of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.bankruptcy.filings.courtAddress.addressCountry.isoAlpha2Code	[string] e.g.: US The two-letter country code, defined by the International Organization for Standardization (ISO) ISO 3166-1 scheme identifying the country of the legal chambers where the hearing has taken place or will take place. Note: Please refer to Country Code Substitutions Table [/html/resources/CountryCodes.html#country-substitute] for the country code substitutions.

organization.legalEvents.bankruptcy.filings.courtAddress.addressCountry.name	[string] e.g.: United States The name of the country in which the legal chambers are located.
organization.legalEvents.bankruptcy.filings.courtAddress.addressCountry	[object] The details of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.bankruptcy.filings.courtAddress.addressCounty.name	[string] e.g.: Morris The name of a county of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.bankruptcy.filings.courtAddress.addressLocality	[object] The details of a city, town, township, village, borough, etc. of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.bankruptcy.filings.courtAddress.addressLocality.name	[string] e.g.: Short Hills The name of a city, town, township, village, borough, etc. of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.bankruptcy.filings.courtAddress.addressRegion	[object] The details of the locally governed area which forms part of a centrally governed nation to identify the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.bankruptcy.filings.courtAddress.addressRegion.abbreviatedName	[string] e.g.: NJ The shortened name of the geographical area for this address of the organization. For example NJ for the US State New Jersey within Country United States.
organization.legalEvents.bankruptcy.filings.courtAddress.addressRegion.name	[string] e.g.: New Jersey The name of a locally governed area which forms part of a centrally governed nation to identify the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.bankruptcy.filings.courtAddress.continentalRegion	[object] The details of the region as defined by Dun & Bradstreet for this address.
organization.legalEvents.bankruptcy.filings.courtAddress.continentalRegion.name	[string] e.g.: North America The name of the region as defined by Dun & Bradstreet for this address.
organization.legalEvents.bankruptcy.filings.courtAddress.postalCode	[string] e.g.: 7078 An identifier used by the local country Postal Authority to identify the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.bankruptcy.filings.courtAddress.streetAddress	[object] The details such as address number, or post office box number and street name of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.bankruptcy.filings.courtAddress.streetAddress.line1	[string] e.g.: 103 JFK Pkwy The first line of the address of the legal chambers where the hearing has taken place or will take place.

organization.legalEvents.bankruptcy.filings.courtAddress.streetAddress.line2	[string] e.g.: 101 JFK Pkwy The second line of the address of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.bankruptcy.filings.courtName	[string] e.g.: Superior Court of Some State The name of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.bankruptcy.filings.courtType	[object] Records the nature of the legal body at which the legal event was heard or decreed. This may describe the area of law in which the court specializes (e.g. court of employment) or the legal seniority of the court (e.g. high court, supreme court etc.)
organization.legalEvents.bankruptcy.filings.courtType.description	[string] e.g.: County text that describes the nature of the legal body at which the legal event was heard or decreed. This may describe the area of law in which the court specializes (e.g. court of employment) or the legal seniority of the court (e.g. high court, supreme court etc.)
organization.legalEvents.bankruptcy.filings.courtType.dnbCode	[integer] e.g.: 5337 A unique code assigned by Dun & Bradstreet that describes the nature of the legal body at which the legal event was heard or decreed. This may describe the area of law in which the court specializes (e.g. court of employment) or the legal seniority of the court (e.g. high court, supreme court etc.) Refer to Reference code table "132 [Court Type]" for all possible values.
organization.legalEvents.bankruptcy.filings.creditorCategories	[array (object)] The different classifications of creditors to whom money is owed by the entity. The priority in which the creditors are paid is based on the assigned classification.
organization.legalEvents.bankruptcy.filings.creditorCategories.claimAmount	[object] The details of the amount owed to this category of creditors.
organization.legalEvents.bankruptcy.filings.creditorCategories.claimAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.bankruptcy.filings.creditorCategories.claimAmount.value	[number] e.g.: 43095 The amount owed to this category of creditors.
organization.legalEvents.bankruptcy.filings.creditorCategories.creditorType	[object] The details of the category of the creditor.
organization.legalEvents.bankruptcy.filings.creditorCategories.creditorType.description	[string] e.g.: Federal Government (US) The category of creditors indicating the priority in which they are paid relative to other categories (e.g., preferred, secured).
organization.legalEvents.bankruptcy.filings.creditorCategories	[integer] e.g.: 10947

creditorType.dnbCode	A unique code assigned by Dun & Bradstreet to identify the category of the creditors to whom money is owed by the entity. Refer to Reference code table "226 [Creditor Type]" for all possible values.
organization.legalEvents.bankruptcy.filings.dataProvider	[object] The details of the data provider.
organization.legalEvents.bankruptcy.filings.dataProvider.description	[string] e.g.: US Small Business Administration The source from which this data was originally obtained by Dun & Bradstreet.
organization.legalEvents.bankruptcy.filings.dataProvider.dnbCode	[integer] e.g.: 21238 A unique code assigned by Dun & Bradstreet to identify the source from which this data was originally obtained. Refer to Reference code table "29 [Data Provider]" for all possible values.
organization.legalEvents.bankruptcy.filings.endDate	[string] e.g.: 2017-10-31 The date indicates that the Legal Event procedure ended.
organization.legalEvents.bankruptcy.filings.endIndicator	[boolean] e.g.: false When set to "true" this indicates that the Event has ceased, i.e., this is historical information. When set to "false" this indicates that the Event is still outstanding or ongoing, i.e., this is current information; however as this is the assumed condition there is no requirement to create this tag to represent this fact.
organization.legalEvents.bankruptcy.filings.eventDuration	[string] e.g.: 12 months The amount of time this event lasted.
organization.legalEvents.bankruptcy.filings.filingAmount	[object] The details of the amount of relief sought by all of the plaintiffs in the suit.
organization.legalEvents.bankruptcy.filings.filingAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.bankruptcy.filings.filingAmount.value	[number] e.g.: 1000000 The total amount of relief sought by all of the plaintiffs in the suit.
organization.legalEvents.bankruptcy.filings.filingAmountComparisonType	[object] Specifies the operator that may be used as the basis of data comparisons between two values; e.g., greater than, less than, equal to. In some cases only one of two values being compared is recorded, while the other value could be derived or become available at a later date. For example, the value to be awarded must be "Less Than" the value recorded.

organization.legalEvents.bankruptcy.filings.filingAmountComparisonType.description	[string] e.g.: less than Text that specifies the operator that may be used as the basis of data comparisons between two values; e.g., greater than, less than, equal to. In some cases only one of two values being compared is recorded, while the other value could be derived or become available at a later date. For example, the value to be awarded must be "Less Than" the value recorded.
organization.legalEvents.bankruptcy.filings.filingAmountComparisonType.dnbCode	[integer] e.g.: 16804 A unique code assigned by Dun & Bradstreet that specifies the operator that may be used as the basis of data comparisons between two values; e.g., greater than, less than, equal to. In some cases only one of two values being compared is recorded, while the other value could be derived or become available at a later date. For example, the value to be awarded must be "Less Than" the value recorded. Refer to Reference code table "410 [Comparison Operator]" for all possible values.
organization.legalEvents.bankruptcy.filings.filingChapter	[string] e.g.: 11 The chapter that applies to the filing of this event.
organization.legalEvents.bankruptcy.filings.filingClass	[object] The broad class into which the Event is categorized. E.g. Bankruptcy / Insolvency, Administration / Receivership, Liquidation / Dissolution
organization.legalEvents.bankruptcy.filings.filingClass.description	[string] e.g.: Suit/Financial Judgement/Lien Text identifying the broad class into which the Event is categorized. E.g. Bankruptcy / Insolvency, Administration / Receivership, Liquidation / Dissolution
organization.legalEvents.bankruptcy.filings.filingClass.dnbCode	[integer] e.g.: 1886 A unique code assigned by Dun & Bradstreet to identify the broad class into which the Event is categorized. E.g. Bankruptcy / Insolvency, Administration / Receivership, Liquidation / Dissolution Refer to Reference code table "183 [Legal Event Class]" for all possible values.
organization.legalEvents.bankruptcy.filings.filingDate	[string] e.g.: 2017-10-30 The date on which this event took place.
organization.legalEvents.bankruptcy.filings.filingMedium	[string] e.g.: Docket The medium in which the filing is recorded.
organization.legalEvents.bankruptcy.filings.filingReference	[string] e.g.: D5QZ52TC The identifier given by a registry body to the official filed document that contains this legal event information.
organization.legalEvents.bankruptcy.filings.filingReferenceDate	[array (object)] The details of the dates relevant to a document (e.g., Date Filed, Date Published). Note: This array of dates should only be used when the user needs to know any additional dates other than the discrete date elements defined.
organization.legalEvents.bankruptcy.filings.filingReferenceDate	[string] e.g.: 2018-07-25

e.referenceDate	A date relating to a document that has been registered with an official body.
organization.legalEvents.bankruptcy.filings.filingReferenceDate.referenceType	[object] The details of the relevance of the date recorded.
organization.legalEvents.bankruptcy.filings.filingReferenceDate.referenceType.description	[string] e.g.: Date Filed The relevance of the date recorded.
organization.legalEvents.bankruptcy.filings.filingReferenceDate.referenceType.dnbCode	[integer] e.g.: 12137 A unique code assigned by Dun & Bradstreet to identify the relevance of the date recorded. Refer to Reference code table "322 [Filing Reference Date Type]" for all possible values.
organization.legalEvents.bankruptcy.filings.filingReferenceDate.result	[object] The details of the relevance of the date recorded.
organization.legalEvents.bankruptcy.filings.filingReferenceDate.result.description	[string] e.g.: Date Filed The relevance of the date recorded.
organization.legalEvents.bankruptcy.filings.filingReferenceDate.result.dnbCode	[integer] e.g.: 12137 A unique code assigned by Dun & Bradstreet to identify the relevance of the date recorded. Refer to Reference code table "322 [Filing Reference Date Type]" for all possible values.
organization.legalEvents.bankruptcy.filings.filingReferenceDate.resultDate	[string] e.g.: 2018-07-25 A date relating to a document that has been registered with an official body.
organization.legalEvents.bankruptcy.filings.filingResults	[array (object)] The details of the outcomes this Legal Event had or is having on the entity.
organization.legalEvents.bankruptcy.filings.filingResults.result	[object] The details of the outcome this event had or is having on the party involved in the event.
organization.legalEvents.bankruptcy.filings.filingResults.result.description	[string] e.g.: Settled The outcome this event had or is having on the party involved in the event (e.g., Petition Dismissed, Liquidator Appointed, Counter claim filed by the defendant in a lawsuit).
organization.legalEvents.bankruptcy.filings.filingResults.result.dnbCode	[integer] e.g.: 11466 A unique code assigned by Dun & Bradstreet that describes the outcome this event had or is having. Refer to Reference code table "86 [Event Result]" for all possible values.
organization.legalEvents.bankruptcy.filings.filingResults.resultDate	[string] e.g.: 2017-10-30 The date the outcome of the event occurred.
organization.legalEvents.bankruptcy.filings.filingResults.subsequentEvents	[array (object)] Records several different events that occur throughout the life cycle of an overriding legal event process, e.g., meeting of creditors related to a Bankruptcy process.

organization.legalEvents.bankruptcy.filings.filingResults.subsequentEvents.eventPlanDate	[string] e.g.: 2018-02-25 The date and time when the later event described by Event Result Code is expected to occur as an outcome of this event.
organization.legalEvents.bankruptcy.filings.filingResults.subsequentEvents.locationDescription	[string] e.g.: Attorney Office Text that describes the place where the later event described by filing result is expected to occur as an outcome of this event.
organization.legalEvents.bankruptcy.filings.filingSubType	[object] The details of the lower-level category of the event that has been registered or recorded against the entity.
organization.legalEvents.bankruptcy.filings.filingSubType.description	[string] e.g.: Filing of list of Creditors The lower-level category of the event that has been registered or recorded against the entity.
organization.legalEvents.bankruptcy.filings.filingSubType.dnbCode	[integer] e.g.: 21196 A unique code assigned by Dun & Bradstreet to identify the sub-type. Refer to Reference code table "112 [Legal Event Sub Type]" for all possible values.
organization.legalEvents.bankruptcy.filings.filingType	[object] The details of the type of event that has been registered or recorded against the entity.
organization.legalEvents.bankruptcy.filings.filingType.description	[string] e.g.: County Court Judgement The type of event that has been registered or recorded against the entity.
organization.legalEvents.bankruptcy.filings.filingType.dnbCode	[integer] e.g.: 2515 A unique code assigned by Dun & Bradstreet to identify the type of event that has been registered or recorded against the entity. Refer to Reference code table "24 [Legal Event Type]" for all possible values.
organization.legalEvents.bankruptcy.filings.financials	[object] The details of the standardized summary view of the financial results (actual or estimated) for the organization.
organization.legalEvents.bankruptcy.filings.financials.accountantName	[string] e.g.: Johnson, Jordan & Jones CPAs The name of either an individual or an accounting firm.
organization.legalEvents.bankruptcy.filings.financials.balanceSheet	[object] The details of the Latest Financials' balance sheet statement which summarizes the organization's assets, liabilities, and shareholder's equity at a specific point in time.
organization.legalEvents.bankruptcy.filings.financials.balanceSheet.assets	[object] The details of the assets on the balance sheet.
organization.legalEvents.bankruptcy.filings.financials.balanceSheet.assets.currentAssets	[object] Assets that are held for short term; raw materials that are bought, made up, sold as finished goods and

	eventually paid for.
organization.legalEvents.bankruptcy.filings.financials.balanceSheet.assets.currentAssets.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.bankruptcy.filings.financials.balanceSheet.assets.currentAssets.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.bankruptcy.filings.financials.balanceSheet.assets.currentAssets.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.bankruptcy.filings.financials.balanceSheet.assets.currentAssets.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.bankruptcy.filings.financials.balanceSheet.assets.currentAssets.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.bankruptcy.filings.financials.balanceSheet.assets.longTermAssets	[object] The details of the long-term asset items within the Latest Financials Balance Sheet i.e., items expected to be realized in more than 12 months.
organization.legalEvents.bankruptcy.filings.financials.balanceSheet.assets.longTermAssets.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.bankruptcy.filings.financials.balanceSheet.assets.longTermAssets.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.bankruptcy.filings.financials.balanceSheet.assets.longTermAssets.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.bankruptcy.filings.financials.balanceSheet.assets.longTermAssets.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.bankruptcy.filings.financials.balanceSheet.assets.longTermAssets.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.bankruptcy.filings.financials.balanceSheet.assets.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.

organization.legalEvents.bankruptcy.filings.financials.balanceSheet.assets.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.bankruptcy.filings.financials.balanceSheet.assets.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.bankruptcy.filings.financials.balanceSheet.assets.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.bankruptcy.filings.financials.balanceSheet.assets.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.bankruptcy.filings.financials.balanceSheet.liabilities	[object] The legal debts or obligations of a company that arise during the course of business operations. Liabilities are settled over time through the transfer of economic benefits including money, goods, or services.
organization.legalEvents.bankruptcy.filings.financials.balanceSheet.liabilities.currentLiabilities	[object] The details of the entity's total value of all obligations to pay out cash at some date in the near future.
organization.legalEvents.bankruptcy.filings.financials.balanceSheet.liabilities.currentLiabilities.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.bankruptcy.filings.financials.balanceSheet.liabilities.currentLiabilities.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.bankruptcy.filings.financials.balanceSheet.liabilities.currentLiabilities.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.bankruptcy.filings.financials.balanceSheet.liabilities.currentLiabilities.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.bankruptcy.filings.financials.balanceSheet.liabilities.currentLiabilities.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.bankruptcy.filings.financials.balanceSheet.liabilities.equity	[object] The details of the share capital/stock originally invested by shareholders/stockholders plus any reserves that have arisen, such as retained profits, that were ploughed back into the firm. Also known as Net Worth.
organization.legalEvents.bankruptcy.filings.financials.balanceSheet.liabilities.equity.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.

organization.legalEvents.bankruptcy.filings.financials.balanceSheet.liabilities.equity.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.bankruptcy.filings.financials.balanceSheet.liabilities.equity.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.bankruptcy.filings.financials.balanceSheet.liabilities.equity.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.bankruptcy.filings.financials.balanceSheet.liabilities.equity.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.bankruptcy.filings.financials.balanceSheet.liabilities.longTermLiabilities	[object] The details of the entity's total value of all obligations to pay out cash at some date in the future but not within one year.
organization.legalEvents.bankruptcy.filings.financials.balanceSheet.liabilities.longTermLiabilities.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.bankruptcy.filings.financials.balanceSheet.liabilities.longTermLiabilities.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.bankruptcy.filings.financials.balanceSheet.liabilities.longTermLiabilities.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.bankruptcy.filings.financials.balanceSheet.liabilities.longTermLiabilities.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.bankruptcy.filings.financials.balanceSheet.liabilities.longTermLiabilities.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.bankruptcy.filings.financials.balanceSheet.liabilities.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.bankruptcy.filings.financials.balanceSheet.liabilities.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.bankruptcy.filings.financials.balanceSheet.liabilities.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.

organization.legalEvents.bankruptcy.filings.financials.balanceSheet.liabilities.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.bankruptcy.filings.financials.balanceSheet.liabilities.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.bankruptcy.filings.financials.balanceSheet.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.bankruptcy.filings.financials.balanceSheet.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.bankruptcy.filings.financials.balanceSheet.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.bankruptcy.filings.financials.balanceSheet.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.bankruptcy.filings.financials.balanceSheet.statementItems.parentItemKey	[object] Records the higher level financial figure to which this item belongs to.
organization.legalEvents.bankruptcy.filings.financials.balanceSheet.statementItems.parentItemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.bankruptcy.filings.financials.balanceSheet.statementItems.parentItemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.bankruptcy.filings.financials.balanceSheet.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.bankruptcy.filings.financials.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.bankruptcy.filings.financials.filingDate	[string] e.g.: 2018-02-01 The date when the company filed its Latest Financials' financial statement with an official registry.
organization.legalEvents.bankruptcy.filings.financials.financial	[string] e.g.: 2010-03-14

StatementFromDate	The date on which the accounting period of the Latest Financials' financial statement commenced.
organization.legalEvents.bankruptcy.filings.financials.financialStatementToDate	[string] e.g.: 2016-12-31 The date associated with the financial results. When the values are from a financial statement, it represents the date the accounting period ended. When it is an estimated or modeled value, it is the date on which the data was submitted.
organization.legalEvents.bankruptcy.filings.financials.informationScope	[object] The details of the organizational scope of the Latest Financials' financial statement.
organization.legalEvents.bankruptcy.filings.financials.informationScope.description	[string] e.g.: Consolidated The organizational scope of the values within the Summary Financials section. Individual means it represents a single organization inclusive of any branches. Consolidated means it represents an organization inclusive of any branches and any subsidiaries.
organization.legalEvents.bankruptcy.filings.financials.informationScope.dnbCode	[integer] e.g.: 9067 A unique code assigned by Dun & Bradstreet to identify the organizational scope of the Summary Financials values. Refer to Reference code table "192 [Information Scope]" for all possible values.
organization.legalEvents.bankruptcy.filings.financials.isAudited	[boolean] e.g.: true Indicates if the Latest Financials' accounts have been reviewed by a qualified accountant independent of the organization and the accountant has signed the financial statement certifying it is accurate and complete.
organization.legalEvents.bankruptcy.filings.financials.isFinal	[boolean] e.g.: true Indicates whether the financial figures are for the entity's closing statement. - If true, the financial figures are for the entity's closing statement. - If false, the financial figures are not for the entity's closing statement.
organization.legalEvents.bankruptcy.filings.financials.isFiscal	[boolean] e.g.: true Indicates whether the Latest Financials' financial figures cover a full year accounting period.
organization.legalEvents.bankruptcy.filings.financials.profitAndLossStatement	[object] The details of the Latest Financials' profit and loss (P&L) statement which summarizes the revenues, costs and expenses incurred during a specified accounting period. The P&L statement is synonymous with the income statement.
organization.legalEvents.bankruptcy.filings.financials.profitAndLossStatement.notes	[string] e.g.: Representative's comments Comments made by a representative
organization.legalEvents.bankruptcy.filings.financials.profitAndLossStatement.projectedAnnualSales	[string] e.g.: Some information about projected sales Information about the projected annual sales.

organization.legalEvents.bankruptcy.filings.financials.profitAndLossStatement.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.bankruptcy.filings.financials.profitAndLossStatement.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.bankruptcy.filings.financials.profitAndLossStatement.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.bankruptcy.filings.financials.profitAndLossStatement.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.bankruptcy.filings.financials.profitAndLossStatement.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.bankruptcy.filings.financials.receivedTimestamp	[string] e.g.: 2018-04-06T16:33:21.443Z The date and time, in ISO 8601 UTC Z standard, when Dun & Bradstreet or one of Dun & Bradstreet's strategic partners received this financial statement.
organization.legalEvents.bankruptcy.filings.financials.reliability	[object] The details of the integrity of the figures in the Latest Financials' financial statement.
organization.legalEvents.bankruptcy.filings.financials.reliability.description	[string] e.g.: Actual The integrity of the financial figures present within the Summary Financials section (e.g., actual, estimated, or modeled).
organization.legalEvents.bankruptcy.filings.financials.reliability.dnbCode	[integer] e.g.: 9092 A unique code assigned by Dun & Bradstreet to identify the precision of the financial figures present within the Summary Financials section. Refer to Reference code table "171 [Reliability]" for all possible values.
organization.legalEvents.bankruptcy.filings.financials.units	[string] e.g.: SingleUnits The unit size (e.g., units, thousands, millions) in which the figures in the Latest Financials' financial statement are stated.
organization.legalEvents.bankruptcy.filings.hasHistoricalEvent	[boolean] e.g.: true Indicates whether the entity is associated with a historical event. - If true, the entity has been part of a historical event. - If false, the entity has not been part of a historical event.
organization.legalEvents.bankruptcy.filings.impactAmount	[object] Records the income acquired by the subject as a result of this legal event; e.g. the income acquired as a

result of the sale of the subject's assets.

organization.legalEvents.bankruptcy.filings.impactAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.bankruptcy.filings.impactAmount.value	[number] e.g.: 125000.25 The monetary value for the income acquired by the subject as a result of this legal event; e.g. the income acquired as a result of the sale of the subject's assets.
organization.legalEvents.bankruptcy.filings.isStopD	[boolean] e.g.: true When set to "true" this indicates that D&B should not fabricate or supply this Legal Event in products and services. Note: One exception to this business rule is the Public Records report which would disregard this indicator setting. When set to "false" this indicates that D&B can fabricate or supply this Legal Event in products and services; however as this is the assumed condition there is no requirement to create this tag to represent this fact.
organization.legalEvents.bankruptcy.filings.jurisdictionType	[object] Describes the level of government applying the laws applicable to the event, e.g., federal, state.
organization.legalEvents.bankruptcy.filings.jurisdictionType.description	[string] e.g.: County Text that describes the level of government applying the laws applicable to the event, e.g., federal, state.
organization.legalEvents.bankruptcy.filings.jurisdictionType.dnbCode	[integer] e.g.: 14809 A unique code assigned by Dun & Bradstreet that describes the level of government applying the laws applicable to the event, e.g., federal, state. Refer to Reference code table "434 [Jurisdiction Type]" for all possible values.
organization.legalEvents.bankruptcy.filings.legalHearingDate	[string] e.g.: 2019-10-12 Records the date of a formal process associated with the Legal Event e.g. the date by which creditors' claims must be filed, the future date for the reading of a bankruptcy petition.
organization.legalEvents.bankruptcy.filings.originalFilingDate	[string] e.g.: 2017-10-30 The date of the initial filing of the event.
organization.legalEvents.bankruptcy.filings.parentBankruptcy	[object] The details of a bankruptcy filed by the parent entity.
organization.legalEvents.bankruptcy.filings.parentBankruptcy.associationType	[object] The details of the nature of association of this entity with subject entity.
organization.legalEvents.bankruptcy.filings.parentBankruptcy.associationType.description	[string] e.g.: Dealer Alternate Linkage The nature of association of this entity with subject entity (e.g., Franchise, Agent).

organization.legalEvents.bankruptcy.filings.parentBankruptcy.associationType.dnbCode	<p>[integer] e.g.: 30488</p> <p>A unique code assigned by Dun & Bradstreet to identify the nature of association of this entity with subject entity.</p> <p>Refer to Reference code table "511 [Affiliation Type]" for all possible values.</p>
organization.legalEvents.bankruptcy.filings.parentBankruptcy.duns	<p>[string] e.g.: 804735132</p> <p>The D-U-N-S® Number, a proprietary organizational identifier owned and managed by Dun & Bradstreet Inc, provides unique identification of a subject organization, in accordance with the Data Universal Numbering System (D-U-N-S®).</p>
organization.legalEvents.bankruptcy.filings.parentBankruptcy.filingChapter	<p>[string] e.g.: 11</p> <p>The chapter that applies to the filing of this event.</p>
organization.legalEvents.bankruptcy.filings.parentBankruptcy.filingDate	<p>[string] e.g.: 2017-10-30</p> <p>The date on which this event took place.</p>
organization.legalEvents.bankruptcy.filings.parentBankruptcy.filingSubType	<p>[object]</p> <p>The lower level category of event that has been registered against the entity.</p>
organization.legalEvents.bankruptcy.filings.parentBankruptcy.filingSubType.description	<p>[string] e.g.: Bill</p> <p>The type of event registered against the entity.</p>
organization.legalEvents.bankruptcy.filings.parentBankruptcy.filingSubType.dnbCode	<p>[integer] e.g.: 3617</p> <p>A unique code assigned by Dun & Bradstreet to identify the type of event.</p> <p>Refer to Reference code table "112 [Legal Event Sub Type]" for all possible values.</p>
organization.legalEvents.bankruptcy.filings.parentBankruptcy.filingType	<p>[object]</p> <p>The details of the type of event that has been registered or recorded against the entity.</p>
organization.legalEvents.bankruptcy.filings.parentBankruptcy.filingType.description	<p>[string] e.g.: County Court Judgement</p> <p>The type of event that has been registered or recorded against the entity.</p>
organization.legalEvents.bankruptcy.filings.parentBankruptcy.filingType.dnbCode	<p>[integer] e.g.: 2515</p> <p>A unique code assigned by Dun & Bradstreet to identify the type of event that has been registered or recorded against the entity.</p> <p>Refer to Reference code table "24 [Legal Event Type]" for all possible values.</p>
organization.legalEvents.bankruptcy.filings.priority	<p>[string] e.g.: 5</p> <p>A number that may be used to define the order in which the legal event should be presented relative to the other legal events where the lower the number the earlier the data is presented. Events within the same legal process can be identified using the priority group.</p>
organization.legalEvents.bankruptcy.filings.priorityGroup	<p>[string] e.g.: 2</p> <p>A number that may be used to identify multiple legal events as belonging together as part of the same overall legal process. Within a group the priority may then be used to ensure that the legal events within</p>

	the group are presented continuously and in the correct order.
organization.legalEvents.bankruptcy.filings.publishedDate	[string] e.g.: 2011-02-14 The date to support the recording of the Publication Date for an official document registered with an Official Body.
organization.legalEvents.bankruptcy.filings.reasons	[array (object)] The details of the underlying factor that contributed to the Legal Event.
organization.legalEvents.bankruptcy.filings.reasons.description	[string] e.g.: Voluntary Petition for Bankruptcy The underlying factor that contributed to the Legal Event (e.g., natural disaster, fraud, strategy, economic conditions, loss to creditors).
organization.legalEvents.bankruptcy.filings.reasons.dnbCode	[integer] e.g.: 12281 A unique code assigned by Dun & Bradstreet to identify the underlying factor that contributed to the Legal Event. Refer to Reference code table "299 [Event Reason]" for all possible values.
organization.legalEvents.bankruptcy.filings.reasons.filingAmount	[object] The details of the amount of relief sought by all of the plaintiffs in the suit.
organization.legalEvents.bankruptcy.filings.reasons.filingAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.bankruptcy.filings.reasons.filingAmount.value	[number] e.g.: 1000000 The total amount of relief sought by all of the plaintiffs in the suit.
organization.legalEvents.bankruptcy.filings.receivedDate	[string] e.g.: 2017-10-30 The date when Dun & Bradstreet or one of its strategic partners received this legal event.
organization.legalEvents.bankruptcy.filings.remedyFiled	[array (object)] The details of different kinds of relief for damages, and the associated amount filed for this legal event.
organization.legalEvents.bankruptcy.filings.remedyFiled.remedyAmount	[object] The details of the amount of the remedy filed for damages for this legal event.
organization.legalEvents.bankruptcy.filings.remedyFiled.remedyAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.bankruptcy.filings.remedyFiled.remedyAmount.value	[number] e.g.: 30000 The monetary value of the remedy filed for damages for this legal event.

organization.legalEvents.bankruptcy.filings.remedyFiled.remedyType	[object] The details of the specific kind of relief for the damage sought or deemed by this legal event (e.g., Actual, Punitive, Injunction, Compensatory).
organization.legalEvents.bankruptcy.filings.remedyFiled.remedyType.description	[string] e.g.: Compensatory damage The specific kind of relief for the damage sought or deemed by this legal event (e.g., Actual, Punitive, Injunction, Compensatory).
organization.legalEvents.bankruptcy.filings.remedyFiled.remedyType.dnbCode	[integer] e.g.: 14073 A unique code assigned by Dun & Bradstreet that describes the specific kind of relief for the damage sought or deemed by this legal event. Refer to Reference code table "430 [Legal Event Remedy Type]" for all possible values.
organization.legalEvents.bankruptcy.filings.rolePlayers	[array (object)] The details of role players involved in a Legal Event as recorded in court papers and identifies the part each one plays.
organization.legalEvents.bankruptcy.filings.rolePlayers.addresses	[object] The details of the Primary Address at which the organization is located or conducts operations.
organization.legalEvents.bankruptcy.filings.rolePlayers.addresses.addressCountry	[object] The details of the country in which the role player is located.
organization.legalEvents.bankruptcy.filings.rolePlayers.addresses.addressCountry.isoAlpha2Code	[string] e.g.: US The two-letter country code, defined by the International Organization for Standardization (ISO) ISO 3166-1 scheme identifying the country of the role player. Note: Please refer to Country Code Substitutions Table [http://html/resources/CountryCodes.html#country-substitute] for the country code substitutions.
organization.legalEvents.bankruptcy.filings.rolePlayers.addresses.addressCountry.name	[string] e.g.: Unites States The name of the country in which the role player is located.
organization.legalEvents.bankruptcy.filings.rolePlayers.addresses.addressCounty	[object] The details of the county where the business is located.
organization.legalEvents.bankruptcy.filings.rolePlayers.addresses.addressCounty.name	[string] e.g.: Unites States The name of the county where the business is located.
organization.legalEvents.bankruptcy.filings.rolePlayers.addresses.addressLocality	[object] The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.
organization.legalEvents.bankruptcy.filings.rolePlayers.addresses.addressLocality.name	[string] e.g.: SAN FRANCISCO The name of the locality for this address of the organization. Locality defined as a district population

	cluster. City, town, township, village, borough etc.
organization.legalEvents.bankruptcy.filings.rolePlayers.addresses.addressRegion	[object] The name of the geographical area for this address of the organization. For Example New Jersey.
organization.legalEvents.bankruptcy.filings.rolePlayers.addresses.addressRegion.abbreviatedName	[string] e.g.: NJ The shortened name of the geographical area for this address of the organization. For example NJ for the US State New Jersey within Country United States.
organization.legalEvents.bankruptcy.filings.rolePlayers.addresses.addressRegion.name	[string] e.g.: California The name of the geographical area for this address of the organization. For Example New Jersey.
organization.legalEvents.bankruptcy.filings.rolePlayers.addresses.continentalRegion	[object] The details of the region as defined by Dun & Bradstreet for this address.
organization.legalEvents.bankruptcy.filings.rolePlayers.addresses.continentalRegion.name	[string] e.g.: North America The name of the region as defined by Dun & Bradstreet for this address (e.g., Africa, Europe, Middle East).
organization.legalEvents.bankruptcy.filings.rolePlayers.addresses.postalCode	[string] e.g.: 941109999 The postal code for this address of the organization. Also known locally in various English-speaking countries throughout the world as a postcode, post code, Eircode, PIN or ZIP Code) is a series of letters or digits or both, sometimes including spaces or punctuation, included in a postal address for the purpose of sorting mail. The code is used by the country's postal authority to identify the address where the organization is located or conducts operations .
organization.legalEvents.bankruptcy.filings.rolePlayers.addresses.streetAddress	[object] The details of the street address for this address of the organization.
organization.legalEvents.bankruptcy.filings.rolePlayers.addresses.streetAddress.line1	[string] e.g.: 492 KOLLER ST The first line of the address where the entity is located. The first line of this address of the organization. For example The Point in the address The Point 37 North Wharf Road London W2 1AF
organization.legalEvents.bankruptcy.filings.rolePlayers.addresses.streetAddress.line2	[string] e.g.: Suite 100 The second line of this address of the organization. For example 37 North Wharf Road in the address The Point 37 North Wharf Road London

W2 1AF

organization.legalEvents.bankruptcy.filings.rolePlayers.creditorCategories	[array (object)] Records several different classifications for this creditor who claims that the subject owes money. The priority in which the claimants are paid is based on the classification to which they belong.
organization.legalEvents.bankruptcy.filings.rolePlayers.creditorCategories.claimAmount	[object] Details of the monetary value owed to the category of this creditor recorded in Creditor Type.
organization.legalEvents.bankruptcy.filings.rolePlayers.creditorCategories.claimAmount.currency	[string] e.g.: USD The currency of the monetary value owed to the category of this creditor recorded in Creditor Type.
organization.legalEvents.bankruptcy.filings.rolePlayers.creditorCategories.claimAmount.value	[number] e.g.: 1485795.25 The monetary value owed to the category of this creditor recorded in Creditor Type.
organization.legalEvents.bankruptcy.filings.rolePlayers.creditorCategories.creditorType	[object] The category of this creditor to which the subject owes money, with respect to their priority of being paid relative to other creditor categories; e.g., preferred, secured, where preferred creditors have priority over secured creditors.
organization.legalEvents.bankruptcy.filings.rolePlayers.creditorCategories.creditorType.description	[string] e.g.: Secured Text that identifies the category of this creditor to which the subject owes money, with respect to their priority of being paid relative to other creditor categories; e.g., preferred, secured, where preferred creditors have priority over secured creditors.
organization.legalEvents.bankruptcy.filings.rolePlayers.creditorCategories.creditorType.dnbCode	[integer] e.g.: 15573 A unique code assigned by Dun & Bradstreet that specifies the category of this creditor to which the subject owes money, with respect to their priority of being paid relative to other creditor categories; e.g., preferred, secured, where preferred creditors have priority over secured creditors. Refer to Reference code table "401 [Creditor Type]" for all possible values.
organization.legalEvents.bankruptcy.filings.rolePlayers.duns	[string] e.g.: 804735132 The D-U-N-S® Number, a proprietary organizational identifier owned and managed by Dun & Bradstreet Inc, provides unique identification of a subject organization, in accordance with the Data Universal Numbering System (D-U-N-S®).
organization.legalEvents.bankruptcy.filings.rolePlayers.employerName	[string] e.g.: Dun & Bradstreet The name of the subject that employs the party involved in this event.
organization.legalEvents.bankruptcy.filings.rolePlayers.filingAmount	[object] The details of the monetary value associated with a court action for this party involved in the event.
organization.legalEvents.bankruptcy.filings.rolePlayers.filingAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed

	(e.g., USD, CAD, GBP, EUR).
organization.legalEvents.bankruptcy.filings.rolePlayers.filingAmount.value	[number] e.g.: 100000 The monetary value associated with a court action for this party involved in the event.
organization.legalEvents.bankruptcy.filings.rolePlayers.filingAmountComparisonType	[object] Specifies the operator that may be used as the basis of data comparisons between two values; e.g., greater than, less than, equal to. In some cases only one of two values being compared is recorded, while the other value could be derived or become available at a later date. For example, the value to be awarded must be "Less Than" the value recorded.
organization.legalEvents.bankruptcy.filings.rolePlayers.filingAmountComparisonType.description	[string] e.g.: less than Text that specifies the operator that may be used as the basis of data comparisons between two values; e.g., greater than, less than, equal to. In some cases only one of two values being compared is recorded, while the other value could be derived or become available at a later date. For example, the value to be awarded must be "Less Than" the value recorded.
organization.legalEvents.bankruptcy.filings.rolePlayers.filingAmountComparisonType.dnbCode	[integer] e.g.: 16804 A unique code assigned by Dun & Bradstreet that specifies the operator that may be used as the basis of data comparisons between two values; e.g., greater than, less than, equal to. In some cases only one of two values being compared is recorded, while the other value could be derived or become available at a later date. For example, the value to be awarded must be "Less Than" the value recorded. Refer to Reference code table "410 [Comparison Operator]" for all possible values.
organization.legalEvents.bankruptcy.filings.rolePlayers.filingResults	[array (object)] Describes all outcomes involving this Role Player from this Legal Event; e.g., Counter claim filed by the defendant in a lawsuit.
organization.legalEvents.bankruptcy.filings.rolePlayers.filingResults.filingAmount	[object] The details of the monetary value associated with a court action for this party involved in the event.
organization.legalEvents.bankruptcy.filings.rolePlayers.filingResults.filingAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.bankruptcy.filings.rolePlayers.filingResults.filingAmount.value	[number] e.g.: 100000 The monetary value associated with a court action for this party involved in the event.
organization.legalEvents.bankruptcy.filings.rolePlayers.filingResults.result	[object] Describes an outcome involving this Role Player from this Legal Event; e.g., Counter claim filed by the defendant in a lawsuit.
organization.legalEvents.bankruptcy.filings.rolePlayers.filingResults.result.description	[string] e.g.: Closed Text that describes an outcome involving this Role Player from this Legal Event; e.g., Counter claim filed

	by the defendant in a lawsuit.
organization.legalEvents.bankruptcy.filings.rolePlayers.filingResults.result.dnbCode	[integer] e.g.: 11468 A unique code assigned by Dun & Bradstreet that describes an outcome involving this Role Player from this Legal Event; e.g., Counter claim filed by the defendant in a lawsuit. Refer to Reference code table "86 [Event Result]" for all possible values.
organization.legalEvents.bankruptcy.filings.rolePlayers.filingResults.resultDate	[string] e.g.: 2012-05-30 The date when the outcome recorded in Event Result Code occurred.
organization.legalEvents.bankruptcy.filings.rolePlayers.name	[string] e.g.: Some Vendor The name of the party involved in this event as it was filed.
organization.legalEvents.bankruptcy.filings.rolePlayers.operatingStatus	[object] The details of the high level categorization of the organization's functional state or trading status.
organization.legalEvents.bankruptcy.filings.rolePlayers.operatingStatus.description	[string] e.g.: Active Textual description of the organization's functional state or trading status. Possible values: [9074] Active [403] Out of Business
organization.legalEvents.bankruptcy.filings.rolePlayers.operatingStatus.dnbCode	[integer] e.g.: 9074 A unique code assigned by Dun & Bradstreet to identify the organization's functional state or trading status. Possible values: 9074 [Active] 403 [Out of Business] Refer to Reference code table "166 [Operating Status]" for all possible values.
organization.legalEvents.bankruptcy.filings.rolePlayers.positions	[array (object)] The details of the job positions the role player holds or has held in the entity.
organization.legalEvents.bankruptcy.filings.rolePlayers.positions.description	[string] e.g.: Sales consultant The job position the role player holds or has held in the organization (e.g., Financial Director, Sales Director, Operations Manager).
organization.legalEvents.bankruptcy.filings.rolePlayers.positions.dnbCode	[integer] e.g.: 28802 A unique code assigned by Dun & Bradstreet that denotes the job position the role player holds or has held in the entity. Refer to Reference code table "5 [Position] & 198 [Employee Position]" for all possible values.
organization.legalEvents.bankruptcy.filings.rolePlayers.reasons	[array (object)] Records various underlying factors involving this Role Player, that contributed to the Legal Event.

organization.legalEvents.bankruptcy.filings.rolePlayers.reason s.description	[string] e.g.: Goodwill Text describing an underlying factor involving this Role player that contributed to the Legal Event; e.g., fraud, racism, strategy, anti-trust violation.
organization.legalEvents.bankruptcy.filings.rolePlayers.reason s.dnbCode	[integer] e.g.: 15629 A unique code assigned by Dun & Bradstreet describing an underlying factor involving this Role player that contributed to the Legal Event; e.g., fraud, racism, strategy, anti-trust violation. Refer to Reference code table "299 [Event Reason]" for all possible values.
organization.legalEvents.bankruptcy.filings.rolePlayers.registr ationNumbers	[array (object)] The details of the numbers assigned by an external body or by Dun & Bradstreet that either uniquely identifies or helps to identify an entity.
organization.legalEvents.bankruptcy.filings.rolePlayers.registr ationNumbers.registrationNumber	[string] e.g.: 12-3456789 The number or alphanumeric value assigned by a recognized external authority that either uniquely identifies or helps to identify the organization.
organization.legalEvents.bankruptcy.filings.rolePlayers.registr ationNumbers.typeDescription	[string] e.g.: Federal Taxpayer Identification Number (US) The official name of the organization identifier assigned by a recognized external authority (e.g.. Australian Company Number, Federal Taxpayer Identification Number, Value Added Tax Number).
organization.legalEvents.bankruptcy.filings.rolePlayers.registr ationNumbers.typeDnBCode	[integer] e.g.: 6863 A unique code assigned by Dun & Bradstreet to identify the type of organization registration number. For example, 2541 stands for company number issued by the UK Companies House. Refer to Reference code table "7 [Registration Number Type]" for all possible values.
organization.legalEvents.bankruptcy.filings.rolePlayers.remedy Filed	[array (object)] Records details on several different kinds of relief for damages along with the associated amount filed for this legal event; e.g., for U.S. suits - the remedies sought by the plaintiff(s), for U.S. judgments - the remedies deemed by the court.
organization.legalEvents.bankruptcy.filings.rolePlayers.remedy Filed.remedyType	[object] text that describes the specific kind of relief for the damage sought or deemed by this legal event; e.g., Actual, Punitive, Injunction, Compensatory.
organization.legalEvents.bankruptcy.filings.rolePlayers.remedy Filed.remedyType.description	[string] e.g.: Damages A unique code assigned by Dun & Bradstreet that describes the specific kind of relief for the damage sought or deemed by this legal event; e.g., Actual, Punitive, Injunction, Compensatory.
organization.legalEvents.bankruptcy.filings.rolePlayers.remedy Filed.remedyType.dnbCode	[integer] e.g.: 14701 A unique code assigned by Dun & Bradstreet that describes the specific kind of relief for the damage sought or deemed by this legal event; e.g., Actual, Punitive, Injunction, Compensatory. Refer to Reference code table "430 [Legal Event Remedy Type]" for all possible values.
organization.legalEvents.bankruptcy.filings.rolePlayers.rolePla	[object]

yerType	The details of the role player's function in the event.
organization.legalEvents.bankruptcy.filings.rolePlayers.rolePlayerType.description	[string] e.g.: Shareholder The function played by this party in the event (e.g., debtor, creditor, liquidator, shareholder, court, plaintiff, defendant).
organization.legalEvents.bankruptcy.filings.rolePlayers.rolePlayerType.dnbCode	[integer] e.g.: 302 A unique code assigned by Dun & Bradstreet to identify the function played by this party in the event. Refer to Reference code table "10 [Role Player Type]" for all possible values.
organization.legalEvents.bankruptcy.filings.rolePlayers.standardRating	[object] The most current Standard Dun & Bradstreet Standard Rating assigned to this entity.
organization.legalEvents.bankruptcy.filings.rolePlayers.standardRating.financialStrength	[string] e.g.: 3A The overall size of the entity from a financial perspective. It may be based on the net worth or issued capital of the entity; the higher the amount, the larger the entity is considered to be.
organization.legalEvents.bankruptcy.filings.rolePlayers.standardRating.riskSegment	[string] e.g.: 4 Creditworthiness of the entity in terms of its overall financial condition or risk to creditors.
organization.legalEvents.bankruptcy.filings.rolePlayers.standardRating.scoreDate	[string] e.g.: 2010-03-14 The date when the score was assigned or last changed. Scores are continuously monitored and recalculated as any input variables changes. In the event that the score could not be assigned on the entity, this is the date when the reason was recorded explaining why the score was not assigned. Format: YYYY-MM-DD or YYYY-MM. Note: In some markets, the date is not changed unless there is a score change in order to avoid unnecessary notifications. But in others, the score date changes even though the score does not change after the market recalculates the score.
organization.legalEvents.bankruptcy.filings.rolePlayers.startDate	[string] e.g.: 2017-10-30 The date when the role player originally started its business activities.
organization.legalEvents.bankruptcy.filings.rolePlayers.telephone	[array (object)] The details of the Telephone contact information used for voice communication with the organization.
organization.legalEvents.bankruptcy.filings.rolePlayers.telephone.isdCode	[string] e.g.: 1 A series of numbers that must be prefixed before dialing a telephone number in another Country, it is comprised of an International Dialing Prefix followed by the Country Code. These are also referred to as Country Calling Code or Country Dial-In Code.
organization.legalEvents.bankruptcy.filings.rolePlayers.telephone.isUnreachable	[boolean] e.g.: false Indicates whether the telephone number can be connected to successfully. - If true, connection to the telephone number is unsuccessful.

- If false, connection to the telephone number is successful.

organization.legalEvents.bankruptcy.filings.rolePlayers.telephone.telephoneNumber	<p>[string] e.g.: 6505550000</p> <p>The primary voice telephone number for the business, when dialing domestically. The National Telephone Number is created by combining the Domestic Area Code and the Local Number.</p> <p>A Domestic Area Code is a series of numbers that must be prefixed before dialing a telephone number in another local area. National telecommunication authorities use various formats and dialing rules for area codes. Also known as City Code.</p> <p>A Local Number is a series of numbers that represents a specific telephone line.</p>
organization.legalEvents.bankruptcy.filings.rolePlayers.textEntry	<p>[array (object)]</p> <p>The details of data elements regarding the legal event filing which cannot be recorded in the other fields.</p>
organization.legalEvents.bankruptcy.filings.rolePlayers.textEntry.priority	<p>[integer] e.g.: 1</p> <p>A number that may be used to define the order in which this text entry should be presented relative to other occurrences of text entries where the lower the number the earlier the data is presented.</p>
organization.legalEvents.bankruptcy.filings.rolePlayers.textEntry.text	<p>[string] e.g.: Some text obtained from contact</p> <p>Text that has been recorded.</p>
organization.legalEvents.bankruptcy.filings.rolePlayers.textEntry.typeDescription	<p>[string] e.g.: Legal event</p> <p>Text entry type to qualify the information recorded in the text entries.</p>
organization.legalEvents.bankruptcy.filings.rolePlayers.textEntry.typeDnBCode	<p>[integer] e.g.: 1170</p> <p>A unique code assigned by Dun & Bradstreet to identify the text entry type. Refer to Reference code table "27 [Information Description]" for all possible values.</p>
organization.legalEvents.bankruptcy.filings.startDate	<p>[string] e.g.: 2016-09-30</p> <p>The date on or before which the event took place.</p>
organization.legalEvents.bankruptcy.filings.status	<p>[object]</p> <p>The details of the most recent situation for the legal event.</p>
organization.legalEvents.bankruptcy.filings.status.description	<p>[string] e.g.: Open</p> <p>The most recent situation for the legal event (e.g., pending, unsatisfied).</p>
organization.legalEvents.bankruptcy.filings.status.dnbCode	<p>[integer] e.g.: 11477</p> <p>A unique code assigned by Dun & Bradstreet to identify the most recent situation for the legal event. Refer to Reference code table "82 [Event Status]" for all possible values.</p>
organization.legalEvents.bankruptcy.filings.statusDate	<p>[string] e.g.: 2017-12-15</p> <p>The date when the situation changed.</p>

organization.legalEvents.bankruptcy.filings.textEntry	[array (object)] The details of data elements regarding the legal event filing which cannot be recorded in the other fields.
organization.legalEvents.bankruptcy.filings.textEntry.priority	[integer] e.g.: 1 A number that may be used to define the order in which this text entry should be presented relative to other occurrences of text entries where the lower the number the earlier the data is presented.
organization.legalEvents.bankruptcy.filings.textEntry.text	[string] e.g.: Some text obtained from contact Text that has been recorded.
organization.legalEvents.bankruptcy.filings.textEntry.typeDescription	[string] e.g.: Legal event Text entry type to qualify the information recorded in the text entries.
organization.legalEvents.bankruptcy.filings.textEntry.typeDnB Code	[integer] e.g.: 1170 A unique code assigned by Dun & Bradstreet to identify the text entry type. Refer to Reference code table "27 [Information Description]" for all possible values.
organization.legalEvents.bankruptcy.filings.textEntry.language	[object] Records the language in which this information is presented.
organization.legalEvents.bankruptcy.filings.textEntry.language.description	[string] e.g.: English Textual value denoting the language in which this information is recorded.
organization.legalEvents.bankruptcy.filings.textEntry.language.dnbCode	[integer] e.g.: 39 A unique code assigned by Dun & Bradstreet that denotes the language in which this information is recorded. Refer to Reference code table "3 [Language]" for all possible values.
organization.legalEvents.bankruptcy.filings.verifiedDate	[string] e.g.: 2017-10-30 The date Dun & Bradstreet reviewed the reported content of the Legal Event to ensure accuracy.
organization.legalEvents.insolvency	[object] The details about the legally declared inability of the entity to pay its creditors.
organization.legalEvents.insolvency.mostRecentFilingDate	[string] e.g.: 2020-10-09 The date of the most recent occurrence of the legal event covered by this summary.
organization.legalEvents.insolvency.filings	[array (object)] The details on the entity's legal declaration on its inability to pay its creditors.
organization.legalEvents.insolvency.filings.activities	[array (object)] The activities that have taken place in pursuit of the claim.
organization.legalEvents.insolvency.filings.activities.activityDate	[string] e.g.: 2016-02-18 The date of an activity that has taken place in pursuit of the claim.

organization.legalEvents.insolvency.filings.activities.description	[string] e.g.: Actual The description of the legal process in which an entity declares inability to pay its debts.
organization.legalEvents.insolvency.filings.actualLegalHearingDate	[string] e.g.: 2019-10-12 Records the date on which the formal process associated with the Legal Event occurred; e.g., the date on which creditors filed claims, the date on which a bankruptcy petition was read, the date on which a trial hearing took place.
organization.legalEvents.insolvency.filings.assetClass	[array (object)] Records details of different groups of assets which are impacted by this Legal Event.
organization.legalEvents.insolvency.filings.assetClass.description	[string] e.g.: Property Text that describes the class of asset at a high level, e.g. Vehicles.
organization.legalEvents.insolvency.filings.assetClass.dnbCode	[integer] e.g.: 15616 A unique code assigned by Dun & Bradstreet that describes the class of asset at a high level, e.g. Vehicles. Refer to Reference code table "66 [Asset Class]" for all possible values.
organization.legalEvents.insolvency.filings.awardedAmount	[object] The details of the amount associated with a decision made by a court.
organization.legalEvents.insolvency.filings.awardedAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.insolvency.filings.awardedAmount.value	[number] e.g.: 1000000 The monetary value associated with a decision made by a court.
organization.legalEvents.insolvency.filings.collaterals	[array (object)] The details of the different types of assets used by the entity as security for this event.
organization.legalEvents.insolvency.filings.collaterals.collateralDetails	[array (object)] Records information about an individual item/asset that the subject has used as security for this Financing Event.
organization.legalEvents.insolvency.filings.collaterals.collateralDetails.isUsed	[boolean] e.g.: true When set to "true", this identifies that the collateral asset owned by the Subject is no longer considered a brand new item. When set to "false", this identifies that the collateral asset owned by the Subject is considered a brand new item.
organization.legalEvents.insolvency.filings.collaterals.collateralDetails.manufacturedYear	[string] e.g.: 2001 The year in which the construction of the item; e.g., a ship, was completed.

organization.legalEvents.insolvency.filings.collaterals.collateralDetails.manufactureName	[string] e.g.: Ford Motors The name of the business that built the item being held as collateral in a business transaction.
organization.legalEvents.insolvency.filings.collaterals.collateralDetails.modelName	[string] e.g.: Mustang An alphanumeric name assigned by the manufacturer to the asset; e.g., Mustang, RX8, Pavilion, T60, 747.
organization.legalEvents.insolvency.filings.collaterals.collateralDetails.modelYear	[string] e.g.: 2002 The year that the manufacturer assigned to the model based on the expected release of the model to the public.
organization.legalEvents.insolvency.filings.collaterals.collateralDetails.serialNumber	[string] e.g.: VX1234 A reference number or text assigned by the manufacturer for uniquely identifying the manufactured item.
organization.legalEvents.insolvency.filings.collaterals.collateralDetails.textEntry	[array (object)] Records multiple textual descriptions, language and nature of textual Collateral Details data for this Financing Event that cannot be recorded in the defined fields.
organization.legalEvents.insolvency.filings.collaterals.collateralDetails.textEntry.priority	[integer] e.g.: 1 A number which may be used to identify multiple occurrences of Text Entry as belonging together as part of the same block of text. Within a group the Display Sequence may then be used to ensure that the Text Entry occurrences within the group are presented in the correct order.
organization.legalEvents.insolvency.filings.collaterals.collateralDetails.textEntry.text	[string] e.g.: Company vehicle A textual description of a collateral associated with the Financing Event which cannot be recorded in any of the defined elements.
organization.legalEvents.insolvency.filings.collaterals.collateralDetails.textEntry.typeDescription	[string] e.g.: Financial Statement Additional Note Text Text which describes the type of Text; e.g., the title of the party associated with the Financing Event.
organization.legalEvents.insolvency.filings.collaterals.collateralDetails.textEntry.typeDnBCode	[integer] e.g.: 23916 A unique code assigned by Dun & Bradstreet which describes the type of Text; e.g., the title of the party associated with the Financing Event. Refer to Reference code table "27 [Information Description]" for all possible values.
organization.legalEvents.insolvency.filings.collaterals.collateralISupplementalItems	[array (object)] Records kinds of supplemental items, (e.g., Products, Proceeds), that are included as security along with the identified collateral for the given Collateral Type.
organization.legalEvents.insolvency.filings.collaterals.collateralISupplementalItems.description	[string] e.g.: Proceeds Text that specifies the kind of supplemental items, (e.g., Products, Proceeds), that are included as security along with the identified collateral item for the given Collateral Type. The items in this example are produced as output of the asset (e.g., manufacturing plant) that the subject is using for collateral.
organization.legalEvents.insolvency.filings.collaterals.collateralISupplementalItems.dnbCode	[integer] e.g.: 11290 A unique code assigned by Dun & Bradstreet that specifies the kind of supplemental items, (e.g., Products,

	<p>Proceeds), that are included as security along with the identified collateral item for the given Collateral Type. The items in this example are produced as output of the asset (e.g., manufacturing plant) that the subject is using for collateral.</p> <p>Refer to Reference code table "268 [Collateral Supplemental Item Type]" for all possible values.</p>
organization.legalEvents.insolvency.filings.collaterals.itemQuantity	<p>[integer] e.g.: 25</p> <p>The number of assets that the subject is using as collateral for the particular Collateral Type.</p>
organization.legalEvents.insolvency.filings.collaterals.quantity	<p>[integer] e.g.: 15</p> <p>The number of assets that the subject is using as collateral for the particular collateral type.</p>
organization.legalEvents.insolvency.filings.collaterals.scope	<p>[object]</p> <p>Records the scope of the assets used by a debtor as security as recorded in the Financing Event; e.g., All items for the Collateral Type are included, only the items that are leased for the Collateral Type are included</p>
organization.legalEvents.insolvency.filings.collaterals.scope.description	<p>[string] e.g.: Leased</p> <p>Text that indicates the scope of the assets used by a debtor as security as recorded in the Financing Event; e.g., All items for the Collateral Type are included, only the items that are leased for the Collateral Type are included</p>
organization.legalEvents.insolvency.filings.collaterals.scope.dnbCode	<p>[integer] e.g.: 11288</p> <p>A unique code assigned by Dun & Bradstreet which indicates the scope of the assets used by a debtor as security as recorded in the Financing Event; e.g., All items for the Collateral Type are included, only the items that are leased for the Collateral Type are included</p> <p>Refer to Reference code table "267 [Collateral Scope]" for all possible values.</p>
organization.legalEvents.insolvency.filings.collaterals.supplementalItems	<p>[array (object)]</p> <p>Records the kinds of supplemental items, (e.g., Products, Proceeds), that are included as security along with the identified collateral for the given collateral type.</p>
organization.legalEvents.insolvency.filings.collaterals.supplementalItems.description	<p>[string] e.g.: Products</p> <p>Text which describes the kinds of supplemental items, (e.g., Products, Proceeds), that are included as security along with the identified collateral for the given collateral type.</p>
organization.legalEvents.insolvency.filings.collaterals.supplementalItems.dnbCode	<p>[integer] e.g.: 11289</p> <p>A unique code assigned by Dun & Bradstreet which describes the kinds of supplemental items, (e.g., Products, Proceeds), that are included as security along with the identified collateral for the given collateral type.</p> <p>Refer to Reference code table "268 [Collateral Supplemental Item Type]" for all possible values.</p>
organization.legalEvents.insolvency.filings.collaterals.textEntry	<p>[array (object)]</p> <p>Records the textual description, language and nature of collateral type information.</p>
organization.legalEvents.insolvency.filings.collaterals.textEntry	<p>[string] e.g.: Vehicles</p>

.text	Free form textual description, language and nature of collateral type information.
organization.legalEvents.insolvency.filings.collaterals.textEntry.typeDescription	[string] e.g.: Financial Statement Additional Note Text Text that describes the type of textual description, language and nature of collateral type information.
organization.legalEvents.insolvency.filings.collaterals.textEntry.typeDnBCode	[integer] e.g.: 23916 A unique code assigned by Dun & Bradstreet describing the type of textual description, language and nature of collateral type information. Refer to Reference code table "27 [Information Description]" for all possible values.
organization.legalEvents.insolvency.filings.collateralScopeType	[object] Records the scope of the assets used by a debtor as security as recorded in the Financing Event; e.g., All items for the Collateral Type are included, only the items that are leased for the Collateral Type are included
organization.legalEvents.insolvency.filings.collateralScopeType.description	[string] e.g.: Leased Text which indicates the scope of the assets used by a debtor as security as recorded in the Financing Event; e.g., All items for the Collateral Type are included, only the items that are leased for the Collateral Type are included
organization.legalEvents.insolvency.filings.collateralScopeType.dnbCode	[integer] e.g.: 11288 A unique code assigned by Dun & Bradstreet which indicates the scope of the assets used by a debtor as security as recorded in the Financing Event; e.g., All items for the Collateral Type are included, only the items that are leased for the Collateral Type are included Refer to Reference code table "267 [Collateral Scope]" for all possible values.
organization.legalEvents.insolvency.filings.contactEvents	[array (object)] The details on communications Dun & Bradstreet had with persons to get information on this event.
organization.legalEvents.insolvency.filings.contactEvents.address	[object] The details of the address used by the entity for mailing purposes.
organization.legalEvents.insolvency.filings.contactEvents.address.addressCountry	[object] The details of the country or region for this address of the organization.
organization.legalEvents.insolvency.filings.contactEvents.address.addressCountry.isoAlpha2Code	[string] e.g.: US The 2 letter alpha country code assigned by the International Organization for Standardization (ISO) identifying the Country/Region for this address of the organization. Note: Please refer to Country Code Substitutions Table [/html/resources/CountryCodes.html#country-substitute] for the country code substitutions.
organization.legalEvents.insolvency.filings.contactEvents.comments	[array (object)] Records notes from the contact providing further information regarding the subject's event.

organization.legalEvents.insolvency.filings.contactEvents.comments.description	[string] e.g.: Financing Statement was assigned Text that expresses a note collected from this contact providing further information about this event.
organization.legalEvents.insolvency.filings.contactEvents.comments.dnbCode	[integer] e.g.: 14767 A unique code assigned by Dun & Bradstreet that expresses a note collected from this contact providing further information about this event. Refer to Reference code table "429 [Event Comment]" for all possible values.
organization.legalEvents.insolvency.filings.contactEvents.contactDate	[string] e.g.: 2017-11-25 The date when the communication took place.
organization.legalEvents.insolvency.filings.contactEvents.duns	[string] e.g.: 804735132 The D-U-N-S® Number, a proprietary organizational identifier owned and managed by Dun & Bradstreet Inc, provides unique identification of a subject organization, in accordance with the Data Universal Numbering System (D-U-N-S®).
organization.legalEvents.insolvency.filings.contactEvents.name	[string] e.g.: John Smith The name of the contact which may be either an individual or an entity.
organization.legalEvents.insolvency.filings.contactEvents.nonSpecificSource	[object] The details, in general terms, about the supplier of the Financial Statement.
organization.legalEvents.insolvency.filings.contactEvents.nonSpecificSource.description	[string] e.g.: Trustee Describes the supplier of the Financial Statement (e.g., Official Registry, Accountant, the Subject).
organization.legalEvents.insolvency.filings.contactEvents.nonSpecificSource.dnbCode	[integer] e.g.: 15735 A unique code assigned by Dun & Bradstreet to identify, in general terms, the supplier from which this data was originally obtained by Dun & Bradstreet. Refer to Reference code table "35 [Role Player Type Non-Specific]" for all possible values.
organization.legalEvents.insolvency.filings.contactEvents.organizationName	[string] e.g.: ABC Corp The name of the contact, when this is a company.
organization.legalEvents.insolvency.filings.contactEvents.positions	[array (object)] The details on the job position the principal or manager holds or has held in the entity.
organization.legalEvents.insolvency.filings.contactEvents.positions.description	[string] e.g.: Chairman Executive Committee The job position the principal or manager holds or has held in the entity (e.g., Financial Director, Managing Director, Sales Director, Operations Manager).
organization.legalEvents.insolvency.filings.contactEvents.positions.dnbCode	[integer] e.g.: 95 A unique code assigned by Dun & Bradstreet to identify the job position the principal or manager holds or has held in the entity. Refer to Reference code table "5 [Position] & 198 [Employee Position]" for all possible values.

organization.legalEvents.insolvency.filings.contactEvents.positions.jobTitles	[array (object)] Records several different Vanity Titles for the person with whom D&B had contact to get information on this event.
organization.legalEvents.insolvency.filings.contactEvents.positions.jobTitles.title	[string] e.g.: Senior Director of Finance A textual presentation of the position as preferred by the person with whom D&B had contact to get information on this event, e.g., Position Code might equate to Financial Director, however, the Vanity Title might be 'Senior Director of Finance'.
organization.legalEvents.insolvency.filings.contactEvents.positions.positionClass	[object] The details that define the class of the position.
organization.legalEvents.insolvency.filings.contactEvents.positions.positionClass.description	[string] e.g.: Chairman Executive Committee The job position the principal or manager holds or has held in the entity (e.g., Financial Director, Managing Director, Sales Director, Operations Manager).
organization.legalEvents.insolvency.filings.contactEvents.positions.positionClass.dnbCode	[integer] e.g.: 95 A unique code assigned by Dun & Bradstreet to identify the job position the principal or manager holds or has held in the entity. Refer to Reference code table "5 [Position] & 198 [Employee Position]" for all possible values.
organization.legalEvents.insolvency.filings.contactEvents.positions.positionStanding	[object] Details of the capacity or standing in which the individual holds this specific position.
organization.legalEvents.insolvency.filings.contactEvents.positions.positionStanding.description	[string] e.g.: Acting The capacity or standing in which the individual holds this specific position.
organization.legalEvents.insolvency.filings.contactEvents.positions.positionStanding.dnbCode	[integer] e.g.: 336 A unique code assigned by Dun & Bradstreet to identify the capacity in which the position is held. Refer to Reference code table "195 [Position Standing]" for all possible values.
organization.legalEvents.insolvency.filings.contactEvents.positions.priority	[integer] e.g.: 1 A number that may be used to define the order in which the Position should be presented relative to any other occurrences of Position where lower the number the earlier the data is presented.
organization.legalEvents.insolvency.filings.contactEvents.positions.startDate	[string] e.g.: 2017-08-23 The date when the principal or manager was appointed to this position. This is not necessarily the date when the principal or manager was first employed by the subject; it is the date when they moved to this position.
organization.legalEvents.insolvency.filings.contactEvents.results	[array (object)] The details of the outcomes this Legal Event had or is having on the entity.
organization.legalEvents.insolvency.filings.contactEvents.results.result	[object] The details of the outcome this event had or is having on the party involved in the event.

organization.legalEvents.insolvency.filings.contactEvents.results.result.description	[string] e.g.: Settled The outcome this event had or is having on the party involved in the event (e.g., Petition Dismissed, Liquidator Appointed, Counter claim filed by the defendant in a lawsuit).
organization.legalEvents.insolvency.filings.contactEvents.results.result.dnbCode	[integer] e.g.: 11466 A unique code assigned by Dun & Bradstreet that describes the outcome this event had or is having. Refer to Reference code table "86 [Event Result]" for all possible values.
organization.legalEvents.insolvency.filings.contactEvents.results.resultDate	[string] e.g.: 2017-10-30 The date the outcome of the event occurred.
organization.legalEvents.insolvency.filings.contactEvents.rolePlayers	[array (object)] The details of role players involved in a Legal Event as recorded in court papers and identifies the part each one plays.
organization.legalEvents.insolvency.filings.contactEvents.rolePlayers.rolePlayerType	[object] The details of the role player's function in the event.
organization.legalEvents.insolvency.filings.contactEvents.rolePlayers.rolePlayerType.description	[string] e.g.: Shareholder The function played by this party in the event (e.g., debtor, creditor, liquidator, shareholder, court, plaintiff, defendant).
organization.legalEvents.insolvency.filings.contactEvents.rolePlayers.rolePlayerType.dnbCode	[integer] e.g.: 302 A unique code assigned by Dun & Bradstreet to identify the function played by this party in the event. Refer to Reference code table "10 [Role Player Type]" for all possible values.
organization.legalEvents.insolvency.filings.contactEvents.textEntry	[array (object)] The details of data elements regarding the legal event filing which cannot be recorded in the other fields.
organization.legalEvents.insolvency.filings.contactEvents.textEntry.priority	[integer] e.g.: 1 A number that may be used to define the order in which this text entry should be presented relative to other occurrences of text entries where the lower the number the earlier the data is presented.
organization.legalEvents.insolvency.filings.contactEvents.textEntry.text	[string] e.g.: Some text obtained from contact Text that has been recorded.
organization.legalEvents.insolvency.filings.contactEvents.textEntry.typeDescription	[string] e.g.: Legal event Text entry type to qualify the information recorded in the text entries.
organization.legalEvents.insolvency.filings.contactEvents.textEntry.typeDnBCode	[integer] e.g.: 1170 A unique code assigned by Dun & Bradstreet to identify the text entry type. Refer to Reference code table "27 [Information Description]" for all possible values.
organization.legalEvents.insolvency.filings.courtAddress	[object] The location information of the legal chambers where the hearing has taken place or will take place.

organization.legalEvents.insolvency.filings.courtAddress.addressCountry	[object] The details of the country of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.insolvency.filings.courtAddress.addressCountry.isoAlpha2Code	[string] e.g.: US The two-letter country code, defined by the International Organization for Standardization (ISO) ISO 3166-1 scheme identifying the country of the legal chambers where the hearing has taken place or will take place. Note: Please refer to Country Code Substitutions Table [/html/resources/CountryCodes.html#country-substitute] for the country code substitutions.
organization.legalEvents.insolvency.filings.courtAddress.addressCountry.name	[string] e.g.: United States The name of the country in which the legal chambers are located.
organization.legalEvents.insolvency.filings.courtAddress.addressCounty	[object] The details of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.insolvency.filings.courtAddress.addressCounty.name	[string] e.g.: Morris The name of a county of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.insolvency.filings.courtAddress.addressLocality	[object] The details of a city, town, township, village, borough, etc. of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.insolvency.filings.courtAddress.addressLocality.name	[string] e.g.: Short Hills The name of a city, town, township, village, borough, etc. of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.insolvency.filings.courtAddress.addressRegion	[object] The details of the locally governed area which forms part of a centrally governed nation to identify the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.insolvency.filings.courtAddress.addressRegion.abbreviatedName	[string] e.g.: NJ The shortened name of the geographical area for this address of the organization. For example NJ for the US State New Jersey within Country United States.
organization.legalEvents.insolvency.filings.courtAddress.addressRegion.name	[string] e.g.: New Jersey The name of a locally governed area which forms part of a centrally governed nation to identify the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.insolvency.filings.courtAddress.continentalRegion	[object] The details of the region as defined by Dun & Bradstreet for this address.
organization.legalEvents.insolvency.filings.courtAddress.continentalRegion.name	[string] e.g.: North America The name of the region as defined by Dun & Bradstreet for this address.

organization.legalEvents.insolvency.filings.courtAddress.postalCode	[string] e.g.: 7078 An identifier used by the local country Postal Authority to identify the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.insolvency.filings.courtAddress.streetAddress	[object] The details such as address number, or post office box number and street name of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.insolvency.filings.courtAddress.streetAddress.line1	[string] e.g.: 103 JFK Pkwy The first line of the address of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.insolvency.filings.courtAddress.streetAddress.line2	[string] e.g.: 101 JFK Pkwy The second line of the address of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.insolvency.filings.courtName	[string] e.g.: Superior Court of Some State The name of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.insolvency.filings.courtType	[object] Records the nature of the legal body at which the legal event was heard or decreed. This may describe the area of law in which the court specializes (e.g. court of employment) or the legal seniority of the court (e.g. high court, supreme court etc.)
organization.legalEvents.insolvency.filings.courtType.description	[string] e.g.: County text that describes the nature of the legal body at which the legal event was heard or decreed. This may describe the area of law in which the court specializes (e.g. court of employment) or the legal seniority of the court (e.g. high court, supreme court etc.)
organization.legalEvents.insolvency.filings.courtType.dnbCode	[integer] e.g.: 5337 A unique code assigned by Dun & Bradstreet that describes the nature of the legal body at which the legal event was heard or decreed. This may describe the area of law in which the court specializes (e.g. court of employment) or the legal seniority of the court (e.g. high court, supreme court etc.) Refer to Reference code table "132 [Court Type]" for all possible values.
organization.legalEvents.insolvency.filings.creditorCategories	[array (object)] The different classifications of creditors to whom money is owed by the entity. The priority in which the creditors are paid is based on the assigned classification.
organization.legalEvents.insolvency.filings.creditorCategories.claimAmount	[object] The details of the amount owed to this category of creditors.
organization.legalEvents.insolvency.filings.creditorCategories.claimAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).

organization.legalEvents.insolvency.filings.creditorCategories.claimAmount.value	[number] e.g.: 43095 The amount owed to this category of creditors.
organization.legalEvents.insolvency.filings.creditorCategories.creditorType	[object] The details of the category of the creditor.
organization.legalEvents.insolvency.filings.creditorCategories.creditorType.description	[string] e.g.: Federal Government (US) The category of creditors indicating the priority in which they are paid relative to other categories (e.g., preferred, secured).
organization.legalEvents.insolvency.filings.creditorCategories.creditorType.dnbCode	[integer] e.g.: 10947 A unique code assigned by Dun & Bradstreet to identify the category of the creditors to whom money is owed by the entity. Refer to Reference code table "226 [Creditor Type]" for all possible values.
organization.legalEvents.insolvency.filings.dataProvider	[object] The details of the data provider.
organization.legalEvents.insolvency.filings.dataProvider.description	[string] e.g.: US Small Business Administration The source from which this data was originally obtained by Dun & Bradstreet.
organization.legalEvents.insolvency.filings.dataProvider.dnbCode	[integer] e.g.: 21238 A unique code assigned by Dun & Bradstreet to identify the source from which this data was originally obtained. Refer to Reference code table "29 [Data Provider]" for all possible values.
organization.legalEvents.insolvency.filings.endDate	[string] e.g.: 2017-10-31 The date indicates that the Legal Event procedure ended.
organization.legalEvents.insolvency.filings.endIndicator	[boolean] e.g.: false When set to "true" this indicates that the Event has ceased, i.e., this is historical information. When set to "false" this indicates that the Event is still outstanding or ongoing, i.e., this is current information; however as this is the assumed condition there is no requirement to create this tag to represent this fact.
organization.legalEvents.insolvency.filings.eventDuration	[string] e.g.: 12 months The amount of time this event lasted.
organization.legalEvents.insolvency.filings.filingAmount	[object] The details of the amount of relief sought by all of the plaintiffs in the suit.
organization.legalEvents.insolvency.filings.filingAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed

	(e.g., USD, CAD, GBP, EUR).
organization.legalEvents.insolvency.filings.filingAmount.value	[number] e.g.: 1000000 The total amount of relief sought by all of the plaintiffs in the suit.
organization.legalEvents.insolvency.filings.filingAmountComparisonType	[object] Specifies the operator that may be used as the basis of data comparisons between two values; e.g., greater than, less than, equal to. In some cases only one of two values being compared is recorded, while the other value could be derived or become available at a later date. For example, the value to be awarded must be "Less Than" the value recorded.
organization.legalEvents.insolvency.filings.filingAmountComparisonType.description	[string] e.g.: less than Text that specifies the operator that may be used as the basis of data comparisons between two values; e.g., greater than, less than, equal to. In some cases only one of two values being compared is recorded, while the other value could be derived or become available at a later date. For example, the value to be awarded must be "Less Than" the value recorded.
organization.legalEvents.insolvency.filings.filingAmountComparisonType.dnbCode	[integer] e.g.: 16804 A unique code assigned by Dun & Bradstreet that specifies the operator that may be used as the basis of data comparisons between two values; e.g., greater than, less than, equal to. In some cases only one of two values being compared is recorded, while the other value could be derived or become available at a later date. For example, the value to be awarded must be "Less Than" the value recorded. Refer to Reference code table "410 [Comparison Operator]" for all possible values.
organization.legalEvents.insolvency.filings.filingChapter	[string] e.g.: 11 The chapter that applies to the filing of this event.
organization.legalEvents.insolvency.filings.filingClass	[object] The broad class into which the Event is categorized. E.g. Bankruptcy / Insolvency, Administration / Receivership, Liquidation / Dissolution
organization.legalEvents.insolvency.filings.filingClass.description	[string] e.g.: Suit/Financial Judgement/Lien Text identifying the broad class into which the Event is categorized. E.g. Bankruptcy / Insolvency, Administration / Receivership, Liquidation / Dissolution
organization.legalEvents.insolvency.filings.filingClass.dnbCode	[integer] e.g.: 1886 A unique code assigned by Dun & Bradstreet to identify the broad class into which the Event is categorized. E.g. Bankruptcy / Insolvency, Administration / Receivership, Liquidation / Dissolution Refer to Reference code table "183 [Legal Event Class]" for all possible values.
organization.legalEvents.insolvency.filings.filingDate	[string] e.g.: 2017-10-30 The date on which this event took place.
organization.legalEvents.insolvency.filings.filingMedium	[string] e.g.: Docket The medium in which the filing is recorded.

organization.legalEvents.insolvency.filings.filingReference	[string] e.g.: D5QZ52TC The identifier given by a registry body to the official filed document that contains this legal event information.
organization.legalEvents.insolvency.filings.filingReferenceDate	[array (object)] The details of the dates relevant to a document (e.g., Date Filed, Date Published). Note: This array of dates should only be used when the user needs to know any additional dates other than the discrete date elements defined.
organization.legalEvents.insolvency.filings.filingReferenceDate.referenceDate	[string] e.g.: 2018-07-25 A date relating to a document that has been registered with an official body.
organization.legalEvents.insolvency.filings.filingReferenceDate.referenceType	[object] The details of the relevance of the date recorded.
organization.legalEvents.insolvency.filings.filingReferenceDate.referenceType.description	[string] e.g.: Date Filed The relevance of the date recorded.
organization.legalEvents.insolvency.filings.filingReferenceDate.referenceType.dnbCode	[integer] e.g.: 12137 A unique code assigned by Dun & Bradstreet to identify the relevance of the date recorded. Refer to Reference code table "322 [Filing Reference Date Type]" for all possible values.
organization.legalEvents.insolvency.filings.filingReferenceDate.result	[object] The details of the relevance of the date recorded.
organization.legalEvents.insolvency.filings.filingReferenceDate.result.description	[string] e.g.: Date Filed The relevance of the date recorded.
organization.legalEvents.insolvency.filings.filingReferenceDate.result.dnbCode	[integer] e.g.: 12137 A unique code assigned by Dun & Bradstreet to identify the relevance of the date recorded. Refer to Reference code table "322 [Filing Reference Date Type]" for all possible values.
organization.legalEvents.insolvency.filings.filingReferenceDate.resultDate	[string] e.g.: 2018-07-25 A date relating to a document that has been registered with an official body.
organization.legalEvents.insolvency.filings.filingResults	[array (object)] The details of the outcomes this Legal Event had or is having on the entity.
organization.legalEvents.insolvency.filings.filingResults.result	[object] The details of the outcome this event had or is having on the party involved in the event.
organization.legalEvents.insolvency.filings.filingResults.result.description	[string] e.g.: Settled The outcome this event had or is having on the party involved in the event (e.g., Petition Dismissed, Liquidator Appointed, Counter claim filed by the defendant in a lawsuit).

organization.legalEvents.insolvency.filings.filingResults.result.dnbCode	[integer] e.g.: 11466 A unique code assigned by Dun & Bradstreet that describes the outcome this event had or is having. Refer to Reference code table "86 [Event Result]" for all possible values.
organization.legalEvents.insolvency.filings.filingResults.resultDate	[string] e.g.: 2017-10-30 The date the outcome of the event occurred.
organization.legalEvents.insolvency.filings.filingResults.subsequentEvents	[array (object)] Records several different events that occur throughout the life cycle of an overriding legal event process, e.g., meeting of creditors related to a Bankruptcy process.
organization.legalEvents.insolvency.filings.filingResults.subsequentEvents.eventPlanDate	[string] e.g.: 2018-02-25 The date and time when the later event described by Event Result Code is expected to occur as an outcome of this event.
organization.legalEvents.insolvency.filings.filingResults.subsequentEvents.locationDescription	[string] e.g.: Attorney Office Text that describes the place where the later event described by filing result is expected to occur as an outcome of this event.
organization.legalEvents.insolvency.filings.filingSubType	[object] The details of the lower-level category of the event that has been registered or recorded against the entity.
organization.legalEvents.insolvency.filings.filingSubType.description	[string] e.g.: Filing of list of Creditors The lower-level category of the event that has been registered or recorded against the entity.
organization.legalEvents.insolvency.filings.filingSubType.dnbCode	[integer] e.g.: 21196 A unique code assigned by Dun & Bradstreet to identify the sub-type. Refer to Reference code table "112 [Legal Event Sub Type]" for all possible values.
organization.legalEvents.insolvency.filings.filingType	[object] The details of the type of event that has been registered or recorded against the entity.
organization.legalEvents.insolvency.filings.filingType.description	[string] e.g.: County Court Judgement The type of event that has been registered or recorded against the entity.
organization.legalEvents.insolvency.filings.filingType.dnbCode	[integer] e.g.: 2515 A unique code assigned by Dun & Bradstreet to identify the type of event that has been registered or recorded against the entity. Refer to Reference code table "24 [Legal Event Type]" for all possible values.
organization.legalEvents.insolvency.filings.financials	[object] The details of the standardized summary view of the financial results (actual or estimated) for the organization.
organization.legalEvents.insolvency.filings.financials.accountants	[string] e.g.: Johnson, Jordan & Jones CPAs

ntName	The name of either an individual or an accounting firm.
organization.legalEvents.insolvency.filings.financials.balanceSheet	[object] The details of the Latest Financials' balance sheet statement which summarizes the organization's assets, liabilities, and shareholder's equity at a specific point in time.
organization.legalEvents.insolvency.filings.financials.balanceSheet.assets	[object] The details of the assets on the balance sheet.
organization.legalEvents.insolvency.filings.financials.balanceSheet.assets.currentAssets	[object] Assets that are held for short term; raw materials that are bought, made up, sold as finished goods and eventually paid for.
organization.legalEvents.insolvency.filings.financials.balanceSheet.assets.currentAssets.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.insolvency.filings.financials.balanceSheet.assets.currentAssets.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.insolvency.filings.financials.balanceSheet.assets.currentAssets.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.insolvency.filings.financials.balanceSheet.assets.currentAssets.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.insolvency.filings.financials.balanceSheet.assets.currentAssets.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.insolvency.filings.financials.balanceSheet.assets.longTermAssets	[object] The details of the long-term asset items within the Latest Financials Balance Sheet i.e., items expected to be realized in more than 12 months.
organization.legalEvents.insolvency.filings.financials.balanceSheet.assets.longTermAssets.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.insolvency.filings.financials.balanceSheet.assets.longTermAssets.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.insolvency.filings.financials.balanceSheet.assets.longTermAssets.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.insolvency.filings.financials.balanceSheet	[integer] e.g.: 584

heet.assets.longTermAssets.statementItems.itemKey.dnbCode	A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.insolvency.filings.financials.balanceSheet.assets.longTermAssets.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.insolvency.filings.financials.balanceSheet.assets.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.insolvency.filings.financials.balanceSheet.assets.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.insolvency.filings.financials.balanceSheet.assets.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.insolvency.filings.financials.balanceSheet.assets.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.insolvency.filings.financials.balanceSheet.assets.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.insolvency.filings.financials.balanceSheet.liabilities	[object] The legal debts or obligations of a company that arise during the course of business operations. Liabilities are settled over time through the transfer of economic benefits including money, goods, or services.
organization.legalEvents.insolvency.filings.financials.balanceSheet.liabilities.currentLiabilities	[object] The details of the entity's total value of all obligations to pay out cash at some date in the near future.
organization.legalEvents.insolvency.filings.financials.balanceSheet.liabilities.currentLiabilities.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.insolvency.filings.financials.balanceSheet.liabilities.currentLiabilities.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.insolvency.filings.financials.balanceSheet.liabilities.currentLiabilities.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.insolvency.filings.financials.balanceSheet.liabilities.currentLiabilities.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.

organization.legalEvents.insolvency.filings.financials.balanceSheet.liabilities.currentLiabilities.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.insolvency.filings.financials.balanceSheet.liabilities.equity	[object] The details of the share capital/stock originally invested by shareholders/stockholders plus any reserves that have arisen, such as retained profits, that were ploughed back into the firm. Also known as Net Worth.
organization.legalEvents.insolvency.filings.financials.balanceSheet.liabilities.equity.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.insolvency.filings.financials.balanceSheet.liabilities.equity.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.insolvency.filings.financials.balanceSheet.liabilities.equity.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.insolvency.filings.financials.balanceSheet.liabilities.equity.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.insolvency.filings.financials.balanceSheet.liabilities.equity.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.insolvency.filings.financials.balanceSheet.liabilities.longTermLiabilities	[object] The details of the entity's total value of all obligations to pay out cash at some date in the future but not within one year.
organization.legalEvents.insolvency.filings.financials.balanceSheet.liabilities.longTermLiabilities.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.insolvency.filings.financials.balanceSheet.liabilities.longTermLiabilities.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.insolvency.filings.financials.balanceSheet.liabilities.longTermLiabilities.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.insolvency.filings.financials.balanceSheet.liabilities.longTermLiabilities.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.insolvency.filings.financials.balanceSheet.liabilities.longTermLiabilities.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.

organization.legalEvents.insolvency.filings.financials.balanceSheet.liabilities.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.insolvency.filings.financials.balanceSheet.liabilities.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.insolvency.filings.financials.balanceSheet.liabilities.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.insolvency.filings.financials.balanceSheet.liabilities.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.insolvency.filings.financials.balanceSheet.liabilities.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.insolvency.filings.financials.balanceSheet.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.insolvency.filings.financials.balanceSheet.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.insolvency.filings.financials.balanceSheet.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.insolvency.filings.financials.balanceSheet.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.insolvency.filings.financials.balanceSheet.statementItems.parentItemKey	[object] Records the higher level financial figure to which this item belongs to.
organization.legalEvents.insolvency.filings.financials.balanceSheet.statementItems.parentItemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.insolvency.filings.financials.balanceSheet.statementItems.parentItemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.insolvency.filings.financials.balanceSheet.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.

organization.legalEvents.insolvency.filings.financials.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.insolvency.filings.financials.filingDate	[string] e.g.: 2018-02-01 The date when the company filed its Latest Financials' financial statement with an official registry.
organization.legalEvents.insolvency.filings.financials.financialStatementFromDate	[string] e.g.: 2010-03-14 The date on which the accounting period of the Latest Financials' financial statement commenced.
organization.legalEvents.insolvency.filings.financials.financialStatementToDate	[string] e.g.: 2016-12-31 The date associated with the financial results. When the values are from a financial statement, it represents the date the accounting period ended. When it is an estimated or modeled value, it is the date on which the data was submitted.
organization.legalEvents.insolvency.filings.financials.informationScope	[object] The details of the organizational scope of the Latest Financials' financial statement.
organization.legalEvents.insolvency.filings.financials.informationScope.description	[string] e.g.: Consolidated The organizational scope of the values within the Summary Financials section. Individual means it represents a single organization inclusive of any branches. Consolidated means it represents an organization inclusive of any branches and any subsidiaries.
organization.legalEvents.insolvency.filings.financials.informationScope.dnbCode	[integer] e.g.: 9067 A unique code assigned by Dun & Bradstreet to identify the organizational scope of the Summary Financials values. Refer to Reference code table "192 [Information Scope]" for all possible values.
organization.legalEvents.insolvency.filings.financials.isAudited	[boolean] e.g.: true Indicates if the Latest Financials' accounts have been reviewed by a qualified accountant independent of the organization and the accountant has signed the financial statement certifying it is accurate and complete.
organization.legalEvents.insolvency.filings.financials.isFinal	[boolean] e.g.: true Indicates whether the financial figures are for the entity's closing statement. - If true, the financial figures are for the entity's closing statement. - If false, the financial figures are not for the entity's closing statement.
organization.legalEvents.insolvency.filings.financials.isFiscal	[boolean] e.g.: true Indicates whether the Latest Financials' financial figures cover a full year accounting period.
organization.legalEvents.insolvency.filings.financials.profitAndLossStatement	[object] The details of the Latest Financials' profit and loss (P&L) statement which summarizes the revenues, costs

	and expenses incurred during a specified accounting period. The P&L statement is synonymous with the income statement.
organization.legalEvents.insolvency.filings.financials.profitAndLossStatement.notes	[string] e.g.: Representative's comments Comments made by a representative
organization.legalEvents.insolvency.filings.financials.profitAndLossStatement.projectedAnnualSales	[string] e.g.: Some information about projected sales Information about the projected annual sales.
organization.legalEvents.insolvency.filings.financials.profitAndLossStatement.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.insolvency.filings.financials.profitAndLossStatement.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.insolvency.filings.financials.profitAndLossStatement.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.insolvency.filings.financials.profitAndLossStatement.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.insolvency.filings.financials.profitAndLossStatement.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.insolvency.filings.financials.receivedTimestamp	[string] e.g.: 2018-04-06T16:33:21.443Z The date and time, in ISO 8601 UTC Z standard, when Dun & Bradstreet or one of Dun & Bradstreet's strategic partners received this financial statement.
organization.legalEvents.insolvency.filings.financials.reliability	[object] The details of the integrity of the figures in the Latest Financials' financial statement.
organization.legalEvents.insolvency.filings.financials.reliability.description	[string] e.g.: Actual The integrity of the financial figures present within the Summary Financials section (e.g., actual, estimated, or modeled).
organization.legalEvents.insolvency.filings.financials.reliability.dnbCode	[integer] e.g.: 9092 A unique code assigned by Dun & Bradstreet to identify the precision of the financial figures present within the Summary Financials section. Refer to Reference code table "171 [Reliability]" for all possible values.
organization.legalEvents.insolvency.filings.financials.units	[string] e.g.: SingleUnits The unit size (e.g., units, thousands, millions) in which the figures in the Latest Financials' financial statement are stated.

organization.legalEvents.insolvency.filings.hasHistoricalEvent	<p>[boolean] e.g.: true Indicates whether the entity is associated with a historical event.</p> <p>- If true, the entity has been part of a historical event. - If false, the entity has not been part of a historical event.</p>
organization.legalEvents.insolvency.filings.impactAmount	<p>[object] Records the income acquired by the subject as a result of this legal event; e.g. the income acquired as a result of the sale of the subject's assets.</p>
organization.legalEvents.insolvency.filings.impactAmount.currency	<p>[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).</p>
organization.legalEvents.insolvency.filings.impactAmount.value	<p>[number] e.g.: 125000.25 The monetary value for the income acquired by the subject as a result of this legal event; e.g. the income acquired as a result of the sale of the subject's assets.</p>
organization.legalEvents.insolvency.filings.isStopD	<p>[boolean] e.g.: true When set to "true" this indicates that D&B should not fabricate or supply this Legal Event in products and services. Note: One exception to this business rule is the Public Records report which would disregard this indicator setting. When set to "false" this indicates that D&B can fabricate or supply this Legal Event in products and services; however as this is the assumed condition there is no requirement to create this tag to represent this fact.</p>
organization.legalEvents.insolvency.filings.jurisdictionType	<p>[object] Describes the level of government applying the laws applicable to the event, e.g., federal, state.</p>
organization.legalEvents.insolvency.filings.jurisdictionType.description	<p>[string] e.g.: County Text that describes the level of government applying the laws applicable to the event, e.g., federal, state.</p>
organization.legalEvents.insolvency.filings.jurisdictionType.dnbCode	<p>[integer] e.g.: 14809 A unique code assigned by Dun & Bradstreet that describes the level of government applying the laws applicable to the event, e.g., federal, state. Refer to Reference code table "434 [Jurisdiction Type]" for all possible values.</p>
organization.legalEvents.insolvency.filings.legalHearingDate	<p>[string] e.g.: 2019-10-12 Records the date of a formal process associated with the Legal Event e.g. the date by which creditors' claims must be filed, the future date for the reading of a bankruptcy petition.</p>
organization.legalEvents.insolvency.filings.originalFilingDate	<p>[string] e.g.: 2017-10-30 The date of the initial filing of the event.</p>

organization.legalEvents.insolvency.filings.parentBankruptcy	[object] The details of a bankruptcy filed by the parent entity.
organization.legalEvents.insolvency.filings.parentBankruptcy.associationType	[object] The details of the nature of association of this entity with subject entity.
organization.legalEvents.insolvency.filings.parentBankruptcy.associationType.description	[string] e.g.: Dealer Alternate Linkage The nature of association of this entity with subject entity (e.g., Franchise, Agent).
organization.legalEvents.insolvency.filings.parentBankruptcy.associationType.dnbCode	[integer] e.g.: 30488 A unique code assigned by Dun & Bradstreet to identify the nature of association of this entity with subject entity. Refer to Reference code table "511 [Affiliation Type]" for all possible values.
organization.legalEvents.insolvency.filings.parentBankruptcy.duns	[string] e.g.: 804735132 The D-U-N-S® Number, a proprietary organizational identifier owned and managed by Dun & Bradstreet Inc, provides unique identification of a subject organization, in accordance with the Data Universal Numbering System (D-U-N-S®).
organization.legalEvents.insolvency.filings.parentBankruptcy.filingChapter	[string] e.g.: 11 The chapter that applies to the filing of this event.
organization.legalEvents.insolvency.filings.parentBankruptcy.filingDate	[string] e.g.: 2017-10-30 The date on which this event took place.
organization.legalEvents.insolvency.filings.parentBankruptcy.filingSubType	[object] The lower level category of event that has been registered against the entity.
organization.legalEvents.insolvency.filings.parentBankruptcy.filingSubType.description	[string] e.g.: Bill The type of event registered against the entity.
organization.legalEvents.insolvency.filings.parentBankruptcy.filingSubType.dnbCode	[integer] e.g.: 3617 A unique code assigned by Dun & Bradstreet to identify the type of event. Refer to Reference code table "112 [Legal Event Sub Type]" for all possible values.
organization.legalEvents.insolvency.filings.parentBankruptcy.filingType	[object] The details of the type of event that has been registered or recorded against the entity.
organization.legalEvents.insolvency.filings.parentBankruptcy.filingType.description	[string] e.g.: County Court Judgement The type of event that has been registered or recorded against the entity.
organization.legalEvents.insolvency.filings.parentBankruptcy.filingType.dnbCode	[integer] e.g.: 2515 A unique code assigned by Dun & Bradstreet to identify the type of event that has been registered or recorded against the entity. Refer to Reference code table "24 [Legal Event Type]" for all possible values.

organization.legalEvents.insolvency.filings.priority	[string] e.g.: 5 A number that may be used to define the order in which the legal event should be presented relative to the other legal events where the lower the number the earlier the data is presented. Events within the same legal process can be identified using the priority group.
organization.legalEvents.insolvency.filings.priorityGroup	[string] e.g.: 2 A number that may be used to identify multiple legal events as belonging together as part of the same overall legal process. Within a group the priority may then be used to ensure that the legal events within the group are presented continuously and in the correct order.
organization.legalEvents.insolvency.filings.publishedDate	[string] e.g.: 2011-02-14 The date to support the recording of the Publication Date for an official document registered with an Official Body.
organization.legalEvents.insolvency.filings.reasons	[array (object)] The details of the underlying factor that contributed to the Legal Event.
organization.legalEvents.insolvency.filings.reasons.description	[string] e.g.: Voluntary Petition for Bankruptcy The underlying factor that contributed to the Legal Event (e.g., natural disaster, fraud, strategy, economic conditions, loss to creditors).
organization.legalEvents.insolvency.filings.reasons.dnbCode	[integer] e.g.: 12281 A unique code assigned by Dun & Bradstreet to identify the underlying factor that contributed to the Legal Event. Refer to Reference code table "299 [Event Reason]" for all possible values.
organization.legalEvents.insolvency.filings.reasons.filingAmount	[object] The details of the amount of relief sought by all of the plaintiffs in the suit.
organization.legalEvents.insolvency.filings.reasons.filingAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.insolvency.filings.reasons.filingAmount.value	[number] e.g.: 1000000 The total amount of relief sought by all of the plaintiffs in the suit.
organization.legalEvents.insolvency.filings.receivedDate	[string] e.g.: 2017-10-30 The date when Dun & Bradstreet or one of its strategic partners received this legal event.
organization.legalEvents.insolvency.filings.remedyFiled	[array (object)] The details of different kinds of relief for damages, and the associated amount filed for this legal event.
organization.legalEvents.insolvency.filings.remedyFiled.remedyAmount	[object] The details of the amount of the remedy filed for damages for this legal event.

organization.legalEvents.insolvency.filings.remedyFiled.remed yAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.insolvency.filings.remedyFiled.remed yAmount.value	[number] e.g.: 30000 The monetary value of the remedy filed for damages for this legal event.
organization.legalEvents.insolvency.filings.remedyFiled.remed yType	[object] The details of the specific kind of relief for the damage sought or deemed by this legal event (e.g., Actual, Punitive, Injunction, Compensatory).
organization.legalEvents.insolvency.filings.remedyFiled.remed yType.description	[string] e.g.: Compensatory damage The specific kind of relief for the damage sought or deemed by this legal event (e.g., Actual, Punitive, Injunction, Compensatory).
organization.legalEvents.insolvency.filings.remedyFiled.remed yType.dnbCode	[integer] e.g.: 14073 A unique code assigned by Dun & Bradstreet that describes the specific kind of relief for the damage sought or deemed by this legal event. Refer to Reference code table "430 [Legal Event Remedy Type]" for all possible values.
organization.legalEvents.insolvency.filings.rolePlayers	[array (object)] The details of role players involved in a Legal Event as recorded in court papers and identifies the part each one plays.
organization.legalEvents.insolvency.filings.rolePlayers.addres s	[object] The details of the Primary Address at which the organization is located or conducts operations.
organization.legalEvents.insolvency.filings.rolePlayers.addres s.addressCountry	[object] The details of the country in which the role player is located.
organization.legalEvents.insolvency.filings.rolePlayers.addres s.addressCountry.isoAlpha2Code	[string] e.g.: US The two-letter country code, defined by the International Organization for Standardization (ISO) ISO 3166-1 scheme identifying the country of the role player. Note: Please refer to Country Code Substitutions Table [/html/resources/CountryCodes.html#country-substitute] for the country code substitutions.
organization.legalEvents.insolvency.filings.rolePlayers.addres s.addressCountry.name	[string] e.g.: Unites States The name of the country in which the role player is located.
organization.legalEvents.insolvency.filings.rolePlayers.addres s.addressCounty	[object] The details of the county where the business is located.
organization.legalEvents.insolvency.filings.rolePlayers.addres	[string] e.g.: Unites States

s.addressCounty.name	The name of the county where the business is located.
organization.legalEvents.insolvency.filings.rolePlayers.address.s.addressLocality	[object] The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.
organization.legalEvents.insolvency.filings.rolePlayers.address.s.addressLocality.name	[string] e.g.: SAN FRANCISCO The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.
organization.legalEvents.insolvency.filings.rolePlayers.address.s.addressRegion	[object] The name of the geographical area for this address of the organization. For Example New Jersey.
organization.legalEvents.insolvency.filings.rolePlayers.address.s.addressRegion.abbreviatedName	[string] e.g.: NJ The shortened name of the geographical area for this address of the organization. For example NJ for the US State New Jersey within Country United States.
organization.legalEvents.insolvency.filings.rolePlayers.address.s.addressRegion.name	[string] e.g.: California The name of the geographical area for this address of the organization. For Example New Jersey.
organization.legalEvents.insolvency.filings.rolePlayers.address.s.continentalRegion	[object] The details of the region as defined by Dun & Bradstreet for this address.
organization.legalEvents.insolvency.filings.rolePlayers.address.s.continentalRegion.name	[string] e.g.: North America The name of the region as defined by Dun & Bradstreet for this address (e.g., Africa, Europe, Middle East).
organization.legalEvents.insolvency.filings.rolePlayers.address.s.postalCode	[string] e.g.: 941109999 The postal code for this address of the organization. Also known locally in various English-speaking countries throughout the world as a postcode, post code, Eircode, PIN or ZIP Code) is a series of letters or digits or both, sometimes including spaces or punctuation, included in a postal address for the purpose of sorting mail. The code is used by the country's postal authority to identify the address where the organization is located or conducts operations .
organization.legalEvents.insolvency.filings.rolePlayers.address.s.streetAddress	[object] The details of the street address for this address of the organization.
organization.legalEvents.insolvency.filings.rolePlayers.address.s.streetAddress.line1	[string] e.g.: 492 KOLLER ST The first line of the address where the entity is located. The first line of this address of the organization. For example The Point in the address The Point 37 North Wharf Road London

W2 1AF

organization.legalEvents.insolvency.filings.rolePlayers.address.streetAddress.line2	[string] e.g.: Suite 100 The second line of this address of the organization. For example 37 North Wharf Road in the address The Point 37 North Wharf Road London W2 1AF
organization.legalEvents.insolvency.filings.rolePlayers.creditorCategories	[array (object)] Records several different classifications for this creditor who claims that the subject owes money. The priority in which the claimants are paid is based on the classification to which they belong.
organization.legalEvents.insolvency.filings.rolePlayers.creditorCategories.claimAmount	[object] Details of the monetary value owed to the category of this creditor recorded in Creditor Type.
organization.legalEvents.insolvency.filings.rolePlayers.creditorCategories.claimAmount.currency	[string] e.g.: USD The currency of the monetary value owed to the category of this creditor recorded in Creditor Type.
organization.legalEvents.insolvency.filings.rolePlayers.creditorCategories.claimAmount.value	[number] e.g.: 1485795.25 The monetary value owed to the category of this creditor recorded in Creditor Type.
organization.legalEvents.insolvency.filings.rolePlayers.creditorCategories.creditorType	[object] The category of this creditor to which the subject owes money, with respect to their priority of being paid relative to other creditor categories; e.g., preferred, secured, where preferred creditors have priority over secured creditors.
organization.legalEvents.insolvency.filings.rolePlayers.creditorCategories.creditorType.description	[string] e.g.: Secured Text that identifies the category of this creditor to which the subject owes money, with respect to their priority of being paid relative to other creditor categories; e.g., preferred, secured, where preferred creditors have priority over secured creditors.
organization.legalEvents.insolvency.filings.rolePlayers.creditorCategories.creditorType.dnbCode	[integer] e.g.: 15573 A unique code assigned by Dun & Bradstreet that specifies the category of this creditor to which the subject owes money, with respect to their priority of being paid relative to other creditor categories; e.g., preferred, secured, where preferred creditors have priority over secured creditors. Refer to Reference code table "401 [Creditor Type]" for all possible values.
organization.legalEvents.insolvency.filings.rolePlayers.duns	[string] e.g.: 804735132 The D-U-N-S® Number, a proprietary organizational identifier owned and managed by Dun & Bradstreet Inc, provides unique identification of a subject organization, in accordance with the Data Universal Numbering System (D-U-N-S®).
organization.legalEvents.insolvency.filings.rolePlayers.employ	[string] e.g.: Dun & Bradstreet

erName	The name of the subject that employs the party involved in this event.
organization.legalEvents.insolvency.filings.rolePlayers.filingAmount	[object] The details of the monetary value associated with a court action for this party involved in the event.
organization.legalEvents.insolvency.filings.rolePlayers.filingAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.insolvency.filings.rolePlayers.filingAmount.value	[number] e.g.: 100000 The monetary value associated with a court action for this party involved in the event.
organization.legalEvents.insolvency.filings.rolePlayers.filingAmountComparisonType	[object] Specifies the operator that may be used as the basis of data comparisons between two values; e.g., greater than, less than, equal to. In some cases only one of two values being compared is recorded, while the other value could be derived or become available at a later date. For example, the value to be awarded must be "Less Than" the value recorded.
organization.legalEvents.insolvency.filings.rolePlayers.filingAmountComparisonType.description	[string] e.g.: less than Text that specifies the operator that may be used as the basis of data comparisons between two values; e.g., greater than, less than, equal to. In some cases only one of two values being compared is recorded, while the other value could be derived or become available at a later date. For example, the value to be awarded must be "Less Than" the value recorded.
organization.legalEvents.insolvency.filings.rolePlayers.filingAmountComparisonType.dnbCode	[integer] e.g.: 16804 A unique code assigned by Dun & Bradstreet that specifies the operator that may be used as the basis of data comparisons between two values; e.g., greater than, less than, equal to. In some cases only one of two values being compared is recorded, while the other value could be derived or become available at a later date. For example, the value to be awarded must be "Less Than" the value recorded. Refer to Reference code table "410 [Comparison Operator]" for all possible values.
organization.legalEvents.insolvency.filings.rolePlayers.filingResults	[array (object)] Describes all outcomes involving this Role Player from this Legal Event; e.g., Counter claim filed by the defendant in a lawsuit.
organization.legalEvents.insolvency.filings.rolePlayers.filingResults.filingAmount	[object] The details of the monetary value associated with a court action for this party involved in the event.
organization.legalEvents.insolvency.filings.rolePlayers.filingResults.filingAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.insolvency.filings.rolePlayers.filingResults	[number] e.g.: 100000

suits.filingAmount.value	The monetary value associated with a court action for this party involved in the event.
organization.legalEvents.insolvency.filings.rolePlayers.filingResults.result	[object] Describes an outcome involving this Role Player from this Legal Event; e.g., Counter claim filed by the defendant in a lawsuit.
organization.legalEvents.insolvency.filings.rolePlayers.filingResults.result.description	[string] e.g.: Closed Text that describes an outcome involving this Role Player from this Legal Event; e.g., Counter claim filed by the defendant in a lawsuit.
organization.legalEvents.insolvency.filings.rolePlayers.filingResults.result.dnbCode	[integer] e.g.: 11468 A unique code assigned by Dun & Bradstreet that describes an outcome involving this Role Player from this Legal Event; e.g., Counter claim filed by the defendant in a lawsuit. Refer to Reference code table "86 [Event Result]" for all possible values.
organization.legalEvents.insolvency.filings.rolePlayers.filingResults.resultDate	[string] e.g.: 2012-05-30 The date when the outcome recorded in Event Result Code occurred.
organization.legalEvents.insolvency.filings.rolePlayers.name	[string] e.g.: Some Vendor The name of the party involved in this event as it was filed.
organization.legalEvents.insolvency.filings.rolePlayers.operatingStatus	[object] The details of the high level categorization of the organization's functional state or trading status.
organization.legalEvents.insolvency.filings.rolePlayers.operatingStatus.description	[string] e.g.: Active Textual description of the organization's functional state or trading status. Possible values: [9074] Active [403] Out of Business
organization.legalEvents.insolvency.filings.rolePlayers.operatingStatus.dnbCode	[integer] e.g.: 9074 A unique code assigned by Dun & Bradstreet to identify the organization's functional state or trading status. Possible values: 9074 [Active] 403 [Out of Business] Refer to Reference code table "166 [Operating Status]" for all possible values.
organization.legalEvents.insolvency.filings.rolePlayers.positions	[array (object)] The details of the job positions the role player holds or has held in the entity.
organization.legalEvents.insolvency.filings.rolePlayers.positions.description	[string] e.g.: Sales consultant The job position the role player holds or has held in the organization (e.g., Financial Director, Sales Director, Operations Manager).

organization.legalEvents.insolvency.filings.rolePlayers.position s.dnbCode	[integer] e.g.: 28802 A unique code assigned by Dun & Bradstreet that denotes the job position the role player holds or has held in the entity. Refer to Reference code table "5 [Position] & 198 [Employee Position]" for all possible values.
organization.legalEvents.insolvency.filings.rolePlayers.reason s	[array (object)] Records various underlying factors involving this Role Player, that contributed to the Legal Event.
organization.legalEvents.insolvency.filings.rolePlayers.reason s.description	[string] e.g.: Goodwill Text describing an underlying factor involving this Role player that contributed to the Legal Event; e.g., fraud, racism, strategy, anti-trust violation.
organization.legalEvents.insolvency.filings.rolePlayers.reason s.dnbCode	[integer] e.g.: 15629 A unique code assigned by Dun & Bradstreet describing an underlying factor involving this Role player that contributed to the Legal Event; e.g., fraud, racism, strategy, anti-trust violation. Refer to Reference code table "299 [Event Reason]" for all possible values.
organization.legalEvents.insolvency.filings.rolePlayers.registra tionNumbers	[array (object)] The details of the numbers assigned by an external body or by Dun & Bradstreet that either uniquely identifies or helps to identify an entity.
organization.legalEvents.insolvency.filings.rolePlayers.registra tionNumbers.registrationNumber	[string] e.g.: 12-3456789 The number or alphanumeric value assigned by a recognized external authority that either uniquely identifies or helps to identify the organization.
organization.legalEvents.insolvency.filings.rolePlayers.registra tionNumbers.typeDescription	[string] e.g.: Federal Taxpayer Identification Number (US) The official name of the organization identifier assigned by a recognized external authority (e.g.. Australian Company Number, Federal Taxpayer Identification Number, Value Added Tax Number).
organization.legalEvents.insolvency.filings.rolePlayers.registra tionNumbers.typeDnBCode	[integer] e.g.: 6863 A unique code assigned by Dun & Bradstreet to identify the type of organization registration number. For example, 2541 stands for company number issued by the UK Companies House. Refer to Reference code table "7 [Registration Number Type]" for all possible values.
organization.legalEvents.insolvency.filings.rolePlayers.remedy Filed	[array (object)] Records details on several different kinds of relief for damages along with the associated amount filed for this legal event; e.g., for U.S. suits - the remedies sought by the plaintiff(s), for U.S. judgments - the remedies deemed by the court.
organization.legalEvents.insolvency.filings.rolePlayers.remedy Filed.remedyType	[object] text that describes the specific kind of relief for the damage sought or deemed by this legal event; e.g., Actual, Punitive, Injunction, Compensatory.
organization.legalEvents.insolvency.filings.rolePlayers.remedy Filed.remedyType.description	[string] e.g.: Damages A unique code assigned by Dun & Bradstreet that describes the specific kind of relief for the damage

	sought or deemed by this legal event; e.g., Actual, Punitive, Injunction, Compensatory.
organization.legalEvents.insolvency.filings.rolePlayers.remedyFiled.remedyType.dnbCode	[integer] e.g.: 14701 A unique code assigned by Dun & Bradstreet that describes the specific kind of relief for the damage sought or deemed by this legal event; e.g., Actual, Punitive, Injunction, Compensatory. Refer to Reference code table "430 [Legal Event Remedy Type]" for all possible values.
organization.legalEvents.insolvency.filings.rolePlayers.rolePlayerType	[object] The details of the role player's function in the event.
organization.legalEvents.insolvency.filings.rolePlayers.rolePlayerType.description	[string] e.g.: Shareholder The function played by this party in the event (e.g., debtor, creditor, liquidator, shareholder, court, plaintiff, defendant).
organization.legalEvents.insolvency.filings.rolePlayers.rolePlayerType.dnbCode	[integer] e.g.: 302 A unique code assigned by Dun & Bradstreet to identify the function played by this party in the event. Refer to Reference code table "10 [Role Player Type]" for all possible values.
organization.legalEvents.insolvency.filings.rolePlayers.standardRating	[object] The most current Standard Dun & Bradstreet Standard Rating assigned to this entity.
organization.legalEvents.insolvency.filings.rolePlayers.standardRating.financialStrength	[string] e.g.: 3A The overall size of the entity from a financial perspective. It may be based on the net worth or issued capital of the entity; the higher the amount, the larger the entity is considered to be.
organization.legalEvents.insolvency.filings.rolePlayers.standardRating.riskSegment	[string] e.g.: 4 Creditworthiness of the entity in terms of its overall financial condition or risk to creditors.
organization.legalEvents.insolvency.filings.rolePlayers.standardRating.scoreDate	[string] e.g.: 2010-03-14 The date when the score was assigned or last changed. Scores are continuously monitored and recalculated as any input variables changes. In the event that the score could not be assigned on the entity, this is the date when the reason was recorded explaining why the score was not assigned. Format: YYYY-MM-DD or YYYY-MM. Note: In some markets, the date is not changed unless there is a score change in order to avoid unnecessary notifications. But in others, the score date changes even though the score does not change after the market recalculates the score.
organization.legalEvents.insolvency.filings.rolePlayers.startDate	[string] e.g.: 2017-10-30 The date when the role player originally started its business activities.
organization.legalEvents.insolvency.filings.rolePlayers.telephone	[array (object)] The details of the Telephone contact information used for voice communication with the organization.
organization.legalEvents.insolvency.filings.rolePlayers.telephone	[string] e.g.: 1

ne.isdCode	A series of numbers that must be prefixed before dialing a telephone number in another Country, it is comprised of an International Dialing Prefix followed by the Country Code. These are also referred to as Country Calling Code or Country Dial-In Code.
organization.legalEvents.insolvency.filings.rolePlayers.telephone.isUnreachable	<p>[boolean] e.g.: false Indicates whether the telephone number can be connected to successfully.</p> <p>- If true, connection to the telephone number is unsuccessful. - If false, connection to the telephone number is successful.</p>
organization.legalEvents.insolvency.filings.rolePlayers.telephone.telephoneNumber	<p>[string] e.g.: 65055550000 The primary voice telephone number for the business, when dialing domestically. The National Telephone Number is created by combining the Domestic Area Code and the Local Number.</p> <p>A Domestic Area Code is a series of numbers that must be prefixed before dialing a telephone number in another local area. National telecommunication authorities use various formats and dialing rules for area codes. Also known as City Code.</p> <p>A Local Number is a series of numbers that represents a specific telephone line.</p>
organization.legalEvents.insolvency.filings.rolePlayers.textEntry	<p>[array (object)] The details of data elements regarding the legal event filing which cannot be recorded in the other fields.</p>
organization.legalEvents.insolvency.filings.rolePlayers.textEntry.priority	<p>[integer] e.g.: 1 A number that may be used to define the order in which this text entry should be presented relative to other occurrences of text entries where the lower the number the earlier the data is presented.</p>
organization.legalEvents.insolvency.filings.rolePlayers.textEntry.text	<p>[string] e.g.: Some text obtained from contact Text that has been recorded.</p>
organization.legalEvents.insolvency.filings.rolePlayers.textEntry.typeDescription	<p>[string] e.g.: Legal event Text entry type to qualify the information recorded in the text entries.</p>
organization.legalEvents.insolvency.filings.rolePlayers.textEntry.typeDnBCode	<p>[integer] e.g.: 1170 A unique code assigned by Dun & Bradstreet to identify the text entry type. Refer to Reference code table "27 [Information Description]" for all possible values.</p>
organization.legalEvents.insolvency.filings.startDate	<p>[string] e.g.: 2016-09-30 The date on or before which the event took place.</p>
organization.legalEvents.insolvency.filings.status	<p>[object] The details of the most recent situation for the legal event.</p>
organization.legalEvents.insolvency.filings.status.description	<p>[string] e.g.: Open The most recent situation for the legal event (e.g., pending, unsatisfied).</p>

organization.legalEvents.insolvency.filings.status.dnbCode	[integer] e.g.: 11477 A unique code assigned by Dun & Bradstreet to identify the most recent situation for the legal event. Refer to Reference code table "82 [Event Status]" for all possible values.
organization.legalEvents.insolvency.filings.statusDate	[string] e.g.: 2017-12-15 The date when the situation changed.
organization.legalEvents.insolvency.filings.textEntry	[array (object)] The details of data elements regarding the legal event filing which cannot be recorded in the other fields.
organization.legalEvents.insolvency.filings.textEntry.priority	[integer] e.g.: 1 A number that may be used to define the order in which this text entry should be presented relative to other occurrences of text entries where the lower the number the earlier the data is presented.
organization.legalEvents.insolvency.filings.textEntry.text	[string] e.g.: Some text obtained from contact Text that has been recorded.
organization.legalEvents.insolvency.filings.textEntry.typeDescription	[string] e.g.: Legal event Text entry type to qualify the information recorded in the text entries.
organization.legalEvents.insolvency.filings.textEntry.typeDnBCode	[integer] e.g.: 1170 A unique code assigned by Dun & Bradstreet to identify the text entry type. Refer to Reference code table "27 [Information Description]" for all possible values.
organization.legalEvents.insolvency.filings.textEntry.language	[object] Records the language in which this information is presented.
organization.legalEvents.insolvency.filings.textEntry.language.description	[string] e.g.: English Textual value denoting the language in which this information is recorded.
organization.legalEvents.insolvency.filings.textEntry.language.dnbCode	[integer] e.g.: 39 A unique code assigned by Dun & Bradstreet that denotes the language in which this information is recorded. Refer to Reference code table "3 [Language]" for all possible values.
organization.legalEvents.insolvency.filings.verifiedDate	[string] e.g.: 2017-10-30 The date Dun & Bradstreet reviewed the reported content of the Legal Event to ensure accuracy.
organization.legalEvents.liquidation	[object] The details of legal procedures by which one or more liquidators sell an entity's assets, pay the entity's debts, and, if any amount of money remains, divided it between the shareholders according to the law or Articles of Association of the entity.
organization.legalEvents.liquidation.filings	[array (object)] The details of each legal procedure by which one or more liquidators sell an entity's assets, pay the entity's

	debts, and, if any amount of money remains, divided it between the shareholders according to the law or Articles of Association of the entity.
organization.legalEvents.liquidation.filings.activities	[array (object)] The activities that have taken place in pursuit of the claim.
organization.legalEvents.liquidation.filings.activities.activityDate	[string] e.g.: 2016-02-18 The date of an activity that has taken place in pursuit of the claim.
organization.legalEvents.liquidation.filings.activities.description	[string] e.g.: Actual The description of the legal process in which an entity declares inability to pay its debts.
organization.legalEvents.liquidation.filings.actualLegalHearingDate	[string] e.g.: 2019-10-12 Records the date on which the formal process associated with the Legal Event occurred; e.g., the date on which creditors filed claims, the date on which a bankruptcy petition was read, the date on which a trial hearing took place.
organization.legalEvents.liquidation.filings.assetClass	[array (object)] Records details of different groups of assets which are impacted by this Legal Event.
organization.legalEvents.liquidation.filings.assetClass.description	[string] e.g.: Property Text that describes the class of asset at a high level, e.g. Vehicles.
organization.legalEvents.liquidation.filings.assetClass.dnbCode	[integer] e.g.: 15616 A unique code assigned by Dun & Bradstreet that describes the class of asset at a high level, e.g. Vehicles. Refer to Reference code table "66 [Asset Class]" for all possible values.
organization.legalEvents.liquidation.filings.awardedAmount	[object] The details of the amount associated with a decision made by a court.
organization.legalEvents.liquidation.filings.awardedAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.liquidation.filings.awardedAmount.value	[number] e.g.: 1000000 The monetary value associated with a decision made by a court.
organization.legalEvents.liquidation.filings.collaterals	[array (object)] The details of the different types of assets used by the entity as security for this event.
organization.legalEvents.liquidation.filings.collaterals.collateralDetails	[array (object)] Records information about an individual item/asset that the subject has used as security for this Financing Event.

organization.legalEvents.liquidation.filings.collaterals.collateralDetails.isUsed	[boolean] e.g.: true When set to "true", this identifies that the collateral asset owned by the Subject is no longer considered a brand new item. When set to "false", this identifies that the collateral asset owned by the Subject is considered a brand new item.
organization.legalEvents.liquidation.filings.collaterals.collateralDetails.manufacturedYear	[string] e.g.: 2001 The year in which the construction of the item; e.g., a ship, was completed.
organization.legalEvents.liquidation.filings.collaterals.collateralDetails.manufactureName	[string] e.g.: Ford Motors The name of the business that built the item being held as collateral in a business transaction.
organization.legalEvents.liquidation.filings.collaterals.collateralDetails.modelName	[string] e.g.: Mustang An alphanumeric name assigned by the manufacturer to the asset; e.g., Mustang, RX8, Pavilion, T60, 747.
organization.legalEvents.liquidation.filings.collaterals.collateralDetails.modelYear	[string] e.g.: 2002 The year that the manufacturer assigned to the model based on the expected release of the model to the public.
organization.legalEvents.liquidation.filings.collaterals.collateralDetails.serialNumber	[string] e.g.: VX1234 A reference number or text assigned by the manufacturer for uniquely identifying the manufactured item.
organization.legalEvents.liquidation.filings.collaterals.collateralDetails.textEntry	[array (object)] Records multiple textual descriptions, language and nature of textual Collateral Details data for this Financing Event that cannot be recorded in the defined fields.
organization.legalEvents.liquidation.filings.collaterals.collateralDetails.textEntry.priority	[integer] e.g.: 1 A number which may be used to identify multiple occurrences of Text Entry as belonging together as part of the same block of text. Within a group the Display Sequence may then be used to ensure that the Text Entry occurrences within the group are presented in the correct order.
organization.legalEvents.liquidation.filings.collaterals.collateralDetails.textEntry.text	[string] e.g.: Company vehicle A textual description of a collateral associated with the Financing Event which cannot be recorded in any of the defined elements.
organization.legalEvents.liquidation.filings.collaterals.collateralDetails.textEntry.typeDescription	[string] e.g.: Financial Statement Additional Note Text Text which describes the type of Text; e.g., the title of the party associated with the Financing Event.
organization.legalEvents.liquidation.filings.collaterals.collateralDetails.textEntry.typeDnBCode	[integer] e.g.: 23916 A unique code assigned by Dun & Bradstreet which describes the type of Text; e.g., the title of the party associated with the Financing Event. Refer to Reference code table "27 [Information Description]" for all possible values.
organization.legalEvents.liquidation.filings.collaterals.collateralSupplementalItems	[array (object)] Records kinds of supplemental items, (e.g., Products, Proceeds), that are included as security along with

	the identified collateral for the given Collateral Type.
organization.legalEvents.liquidation.filings.collaterals.collateralSupplementalItems.description	[string] e.g.: Proceeds Text that specifies the kind of supplemental items, (e.g., Products, Proceeds), that are included as security along with the identified collateral item for the given Collateral Type. The items in this example are produced as output of the asset (e.g., manufacturing plant) that the subject is using for collateral.
organization.legalEvents.liquidation.filings.collaterals.collateralSupplementalItems.dnbCode	[integer] e.g.: 11290 A unique code assigned by Dun & Bradstreet that specifies the kind of supplemental items, (e.g., Products, Proceeds), that are included as security along with the identified collateral item for the given Collateral Type. The items in this example are produced as output of the asset (e.g., manufacturing plant) that the subject is using for collateral. Refer to Reference code table "268 [Collateral Supplemental Item Type]" for all possible values.
organization.legalEvents.liquidation.filings.collaterals.itemQuantity	[integer] e.g.: 25 The number of assets that the subject is using as collateral for the particular Collateral Type.
organization.legalEvents.liquidation.filings.collaterals.quantity	[integer] e.g.: 15 The number of assets that the subject is using as collateral for the particular collateral type.
organization.legalEvents.liquidation.filings.collaterals.scope	[object] Records the scope of the assets used by a debtor as security as recorded in the Financing Event; e.g., All items for the Collateral Type are included, only the items that are leased for the Collateral Type are included
organization.legalEvents.liquidation.filings.collaterals.scope.description	[string] e.g.: Leased Text that indicates the scope of the assets used by a debtor as security as recorded in the Financing Event; e.g., All items for the Collateral Type are included, only the items that are leased for the Collateral Type are included
organization.legalEvents.liquidation.filings.collaterals.scope.dnbCode	[integer] e.g.: 11288 A unique code assigned by Dun & Bradstreet which indicates the scope of the assets used by a debtor as security as recorded in the Financing Event; e.g., All items for the Collateral Type are included, only the items that are leased for the Collateral Type are included Refer to Reference code table "267 [Collateral Scope]" for all possible values.
organization.legalEvents.liquidation.filings.collaterals.supplementalItems	[array (object)] Records the kinds of supplemental items, (e.g., Products, Proceeds), that are included as security along with the identified collateral for the given collateral type.
organization.legalEvents.liquidation.filings.collaterals.supplementalItems.description	[string] e.g.: Products Text which describes the kinds of supplemental items, (e.g., Products, Proceeds), that are included as security along with the identified collateral for the given collateral type.
organization.legalEvents.liquidation.filings.collaterals.supplementalItems.dnbCode	[integer] e.g.: 11289

entallItems.dnbCode	A unique code assigned by Dun & Bradstreet which describes the kinds of supplemental items, (e.g., Products, Proceeds), that are included as security along with the identified collateral for the given collateral type. Refer to Reference code table "268 [Collateral Supplemental Item Type]" for all possible values.
organization.legalEvents.liquidation.filings.collaterals.textEntry	[array (object)] Records the textual description, language and nature of collateral type information.
organization.legalEvents.liquidation.filings.collaterals.textEntry.text	[string] e.g.: Vehicles Free form textual description, language and nature of collateral type information.
organization.legalEvents.liquidation.filings.collaterals.textEntry.typeDescription	[string] e.g.: Financial Statement Additional Note Text Text that describes the type of textual description, language and nature of collateral type information.
organization.legalEvents.liquidation.filings.collaterals.textEntry.typeDnBCode	[integer] e.g.: 23916 A unique code assigned by Dun & Bradstreet describing the type of textual description, language and nature of collateral type information. Refer to Reference code table "27 [Information Description]" for all possible values.
organization.legalEvents.liquidation.filings.collateralScopeType	[object] Records the scope of the assets used by a debtor as security as recorded in the Financing Event; e.g., All items for the Collateral Type are included, only the items that are leased for the Collateral Type are included
organization.legalEvents.liquidation.filings.collateralScopeType.description	[string] e.g.: Leased Text which indicates the scope of the assets used by a debtor as security as recorded in the Financing Event; e.g., All items for the Collateral Type are included, only the items that are leased for the Collateral Type are included
organization.legalEvents.liquidation.filings.collateralScopeType.dnbCode	[integer] e.g.: 11288 A unique code assigned by Dun & Bradstreet which indicates the scope of the assets used by a debtor as security as recorded in the Financing Event; e.g., All items for the Collateral Type are included, only the items that are leased for the Collateral Type are included Refer to Reference code table "267 [Collateral Scope]" for all possible values.
organization.legalEvents.liquidation.filings.contactEvents	[array (object)] The details on communications Dun & Bradstreet had with persons to get information on this event.
organization.legalEvents.liquidation.filings.contactEvents.address	[object] The details of the address used by the entity for mailing purposes.
organization.legalEvents.liquidation.filings.contactEvents.address.addressCountry	[object] The details of the country or region for this address of the organization.
organization.legalEvents.liquidation.filings.contactEvents.address	[string] e.g.: US

ess.addressCountry.isoAlpha2Code	<p>The 2 letter alpha country code assigned by the International Organization for Standardization (ISO) identifying the Country/Region for this address of the organization.</p> <p>Note: Please refer to Country Code Substitutions Table [/html/resources/CountryCodes.html#country-substitute] for the country code substitutions.</p>
organization.legalEvents.liquidation.filings.contactEvents.comments	<p>[array (object)]</p> <p>Records notes from the contact providing further information regarding the subject's event.</p>
organization.legalEvents.liquidation.filings.contactEvents.comments.description	<p>[string] e.g.: Financing Statement was assigned</p> <p>Text that expresses a note collected from this contact providing further information about this event.</p>
organization.legalEvents.liquidation.filings.contactEvents.comments.dnbCode	<p>[integer] e.g.: 14767</p> <p>A unique code assigned by Dun & Bradstreet that expresses a note collected from this contact providing further information about this event.</p> <p>Refer to Reference code table "429 [Event Comment]" for all possible values.</p>
organization.legalEvents.liquidation.filings.contactEvents.contactDate	<p>[string] e.g.: 2017-11-25</p> <p>The date when the communication took place.</p>
organization.legalEvents.liquidation.filings.contactEvents.duns	<p>[string] e.g.: 804735132</p> <p>The D-U-N-S® Number, a proprietary organizational identifier owned and managed by Dun & Bradstreet Inc, provides unique identification of a subject organization, in accordance with the Data Universal Numbering System (D-U-N-S®).</p>
organization.legalEvents.liquidation.filings.contactEvents.name	<p>[string] e.g.: John Smith</p> <p>The name of the contact which may be either an individual or an entity.</p>
organization.legalEvents.liquidation.filings.contactEvents.nonSpecificSource	<p>[object]</p> <p>The details, in general terms, about the supplier of the Financial Statement.</p>
organization.legalEvents.liquidation.filings.contactEvents.nonSpecificSource.description	<p>[string] e.g.: Trustee</p> <p>Describes the supplier of the Financial Statement (e.g., Official Registry, Accountant, the Subject).</p>
organization.legalEvents.liquidation.filings.contactEvents.nonSpecificSource.dnbCode	<p>[integer] e.g.: 15735</p> <p>A unique code assigned by Dun & Bradstreet to identify, in general terms, the supplier from which this data was originally obtained by Dun & Bradstreet.</p> <p>Refer to Reference code table "35 [Role Player Type Non-Specific]" for all possible values.</p>
organization.legalEvents.liquidation.filings.contactEvents.organizationName	<p>[string] e.g.: ABC Corp</p> <p>The name of the contact, when this is a company.</p>
organization.legalEvents.liquidation.filings.contactEvents.positions	<p>[array (object)]</p> <p>The details on the job position the principal or manager holds or has held in the entity.</p>

organization.legalEvents.liquidation.filings.contactEvents.positions.description	[string] e.g.: Chairman Executive Committee The job position the principal or manager holds or has held in the entity (e.g., Financial Director, Managing Director, Sales Director, Operations Manager).
organization.legalEvents.liquidation.filings.contactEvents.positions.dnbCode	[integer] e.g.: 95 A unique code assigned by Dun & Bradstreet to identify the job position the principal or manager holds or has held in the entity. Refer to Reference code table "5 [Position] & 198 [Employee Position]" for all possible values.
organization.legalEvents.liquidation.filings.contactEvents.positions.jobTitles	[array (object)] Records several different Vanity Titles for the person with whom D&B had contact to get information on this event.
organization.legalEvents.liquidation.filings.contactEvents.positions.jobTitles.title	[string] e.g.: Senior Director of Finance A textual presentation of the position as preferred by the person with whom D&B had contact to get information on this event, e.g., Position Code might equate to Financial Director, however, the Vanity Title might be 'Senior Director of Finance'.
organization.legalEvents.liquidation.filings.contactEvents.positions.positionClass	[object] The details that define the class of the position.
organization.legalEvents.liquidation.filings.contactEvents.positions.positionClass.description	[string] e.g.: Chairman Executive Committee The job position the principal or manager holds or has held in the entity (e.g., Financial Director, Managing Director, Sales Director, Operations Manager).
organization.legalEvents.liquidation.filings.contactEvents.positions.positionClass.dnbCode	[integer] e.g.: 95 A unique code assigned by Dun & Bradstreet to identify the job position the principal or manager holds or has held in the entity. Refer to Reference code table "5 [Position] & 198 [Employee Position]" for all possible values.
organization.legalEvents.liquidation.filings.contactEvents.positions.positionStanding	[object] Details of the capacity or standing in which the individual holds this specific position.
organization.legalEvents.liquidation.filings.contactEvents.positions.positionStanding.description	[string] e.g.: Acting The capacity or standing in which the individual holds this specific position.
organization.legalEvents.liquidation.filings.contactEvents.positions.positionStanding.dnbCode	[integer] e.g.: 336 A unique code assigned by Dun & Bradstreet to identify the capacity in which the position is held. Refer to Reference code table "195 [Position Standing]" for all possible values.
organization.legalEvents.liquidation.filings.contactEvents.positions.priority	[integer] e.g.: 1 A number that may be used to define the order in which the Position should be presented relative to any other occurrences of Position where lower the number the earlier the data is presented.
organization.legalEvents.liquidation.filings.contactEvents.positions.startDate	[string] e.g.: 2017-08-23

ions.startDate	The date when the principal or manager was appointed to this position. This is not necessarily the date when the principal or manager was first employed by the subject; it is the date when they moved to this position.
organization.legalEvents.liquidation.filings.contactEvents.results	[array (object)] The details of the outcomes this Legal Event had or is having on the entity.
organization.legalEvents.liquidation.filings.contactEvents.results.result	[object] The details of the outcome this event had or is having on the party involved in the event.
organization.legalEvents.liquidation.filings.contactEvents.results.result.description	[string] e.g.: Settled The outcome this event had or is having on the party involved in the event (e.g., Petition Dismissed, Liquidator Appointed, Counter claim filed by the defendant in a lawsuit).
organization.legalEvents.liquidation.filings.contactEvents.results.result.dnbCode	[integer] e.g.: 11466 A unique code assigned by Dun & Bradstreet that describes the outcome this event had or is having. Refer to Reference code table "86 [Event Result]" for all possible values.
organization.legalEvents.liquidation.filings.contactEvents.results.resultDate	[string] e.g.: 2017-10-30 The date the outcome of the event occurred.
organization.legalEvents.liquidation.filings.contactEvents.rolePlayers	[array (object)] The details of role players involved in a Legal Event as recorded in court papers and identifies the part each one plays.
organization.legalEvents.liquidation.filings.contactEvents.rolePlayers.rolePlayerType	[object] The details of the role player's function in the event.
organization.legalEvents.liquidation.filings.contactEvents.rolePlayers.rolePlayerType.description	[string] e.g.: Shareholder The function played by this party in the event (e.g., debtor, creditor, liquidator, shareholder, court, plaintiff, defendant).
organization.legalEvents.liquidation.filings.contactEvents.rolePlayers.rolePlayerType.dnbCode	[integer] e.g.: 302 A unique code assigned by Dun & Bradstreet to identify the function played by this party in the event. Refer to Reference code table "10 [Role Player Type]" for all possible values.
organization.legalEvents.liquidation.filings.contactEvents.textEntry	[array (object)] The details of data elements regarding the legal event filing which cannot be recorded in the other fields.
organization.legalEvents.liquidation.filings.contactEvents.textEntry.priority	[integer] e.g.: 1 A number that may be used to define the order in which this text entry should be presented relative to other occurrences of text entries where the lower the number the earlier the data is presented.
organization.legalEvents.liquidation.filings.contactEvents.textEntry.text	[string] e.g.: Some text obtained from contact Text that has been recorded.

organization.legalEvents.liquidation.filings.contactEvents.textEntry.typeDescription	[string] e.g.: Legal event Text entry type to qualify the information recorded in the text entries.
organization.legalEvents.liquidation.filings.contactEvents.textEntry.typeDnBCode	[integer] e.g.: 1170 A unique code assigned by Dun & Bradstreet to identify the text entry type. Refer to Reference code table "27 [Information Description]" for all possible values.
organization.legalEvents.liquidation.filings.courtAddress	[object] The location information of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.liquidation.filings.courtAddress.addressCountry	[object] The details of the country of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.liquidation.filings.courtAddress.addressCountry.isoAlpha2Code	[string] e.g.: US The two-letter country code, defined by the International Organization for Standardization (ISO) ISO 3166-1 scheme identifying the country of the legal chambers where the hearing has taken place or will take place. Note: Please refer to Country Code Substitutions Table [html/resources/CountryCodes.html#country-substitute] for the country code substitutions.
organization.legalEvents.liquidation.filings.courtAddress.addressCountry.name	[string] e.g.: United States The name of the country in which the legal chambers are located.
organization.legalEvents.liquidation.filings.courtAddress.addressCounty	[object] The details of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.liquidation.filings.courtAddress.addressCounty.name	[string] e.g.: Morris The name of a county of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.liquidation.filings.courtAddress.addressLocality	[object] The details of a city, town, township, village, borough, etc. of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.liquidation.filings.courtAddress.addressLocality.name	[string] e.g.: Short Hills The name of a city, town, township, village, borough, etc. of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.liquidation.filings.courtAddress.addressRegion	[object] The details of the locally governed area which forms part of a centrally governed nation to identify the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.liquidation.filings.courtAddress.addressRegion.abbreviatedName	[string] e.g.: NJ The shortened name of the geographical area for this address of the organization. For example NJ for the US State New Jersey within Country United States.

organization.legalEvents.liquidation.filings.courtAddress.addressRegion.name	[string] e.g.: New Jersey The name of a locally governed area which forms part of a centrally governed nation to identify the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.liquidation.filings.courtAddress.continentalRegion	[object] The details of the region as defined by Dun & Bradstreet for this address.
organization.legalEvents.liquidation.filings.courtAddress.continentalRegion.name	[string] e.g.: North America The name of the region as defined by Dun & Bradstreet for this address.
organization.legalEvents.liquidation.filings.courtAddress.postalCode	[string] e.g.: 7078 An identifier used by the local country Postal Authority to identify the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.liquidation.filings.courtAddress.streetAddress	[object] The details such as address number, or post office box number and street name of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.liquidation.filings.courtAddress.streetAddress.line1	[string] e.g.: 103 JFK Pkwy The first line of the address of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.liquidation.filings.courtAddress.streetAddress.line2	[string] e.g.: 101 JFK Pkwy The second line of the address of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.liquidation.filings.courtName	[string] e.g.: Superior Court of Some State The name of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.liquidation.filings.courtType	[object] Records the nature of the legal body at which the legal event was heard or decreed. This may describe the area of law in which the court specializes (e.g. court of employment) or the legal seniority of the court (e.g. high court, supreme court etc.)
organization.legalEvents.liquidation.filings.courtType.description	[string] e.g.: County text that describes the nature of the legal body at which the legal event was heard or decreed. This may describe the area of law in which the court specializes (e.g. court of employment) or the legal seniority of the court (e.g. high court, supreme court etc.)
organization.legalEvents.liquidation.filings.courtType.dnbCode	[integer] e.g.: 5337 A unique code assigned by Dun & Bradstreet that describes the nature of the legal body at which the legal event was heard or decreed. This may describe the area of law in which the court specializes (e.g. court of employment) or the legal seniority of the court (e.g. high court, supreme court etc.) Refer to Reference code table "132 [Court Type]" for all possible values.
organization.legalEvents.liquidation.filings.creditorCategories	[array (object)] The different classifications of creditors to whom money is owed by the entity. The priority in which the

	creditors are paid is based on the assigned classification.
organization.legalEvents.liquidation.filings.creditorCategories.claimAmount	[object] The details of the amount owed to this category of creditors.
organization.legalEvents.liquidation.filings.creditorCategories.claimAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.liquidation.filings.creditorCategories.claimAmount.value	[number] e.g.: 43095 The amount owed to this category of creditors.
organization.legalEvents.liquidation.filings.creditorCategories.creditorType	[object] The details of the category of the creditor.
organization.legalEvents.liquidation.filings.creditorCategories.creditorType.description	[string] e.g.: Federal Government (US) The category of creditors indicating the priority in which they are paid relative to other categories (e.g., preferred, secured).
organization.legalEvents.liquidation.filings.creditorCategories.creditorType.dnbCode	[integer] e.g.: 10947 A unique code assigned by Dun & Bradstreet to identify the category of the creditors to whom money is owed by the entity. Refer to Reference code table "226 [Creditor Type]" for all possible values.
organization.legalEvents.liquidation.filings.dataProvider	[object] The details of the data provider.
organization.legalEvents.liquidation.filings.dataProvider.description	[string] e.g.: US Small Business Administration The source from which this data was originally obtained by Dun & Bradstreet.
organization.legalEvents.liquidation.filings.dataProvider.dnbCode	[integer] e.g.: 21238 A unique code assigned by Dun & Bradstreet to identify the source from which this data was originally obtained. Refer to Reference code table "29 [Data Provider]" for all possible values.
organization.legalEvents.liquidation.filings.endDate	[string] e.g.: 2017-10-31 The date indicates that the Legal Event procedure ended.
organization.legalEvents.liquidation.filings.endIndicator	[boolean] e.g.: false When set to "true" this indicates that the Event has ceased, i.e., this is historical information. When set to "false" this indicates that the Event is still outstanding or ongoing, i.e., this is current information; however as this is the assumed condition there is no requirement to create this tag to represent this fact.

organization.legalEvents.liquidation.filings.eventDuration	[string] e.g.: 12 months The amount of time this event lasted.
organization.legalEvents.liquidation.filings.filingAmount	[object] The details of the amount of relief sought by all of the plaintiffs in the suit.
organization.legalEvents.liquidation.filings.filingAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.liquidation.filings.filingAmount.value	[number] e.g.: 1000000 The total amount of relief sought by all of the plaintiffs in the suit.
organization.legalEvents.liquidation.filings.filingAmountComparisonType	[object] Specifies the operator that may be used as the basis of data comparisons between two values; e.g., greater than, less than, equal to. In some cases only one of two values being compared is recorded, while the other value could be derived or become available at a later date. For example, the value to be awarded must be "Less Than" the value recorded.
organization.legalEvents.liquidation.filings.filingAmountComparisonType.description	[string] e.g.: less than Text that specifies the operator that may be used as the basis of data comparisons between two values; e.g., greater than, less than, equal to. In some cases only one of two values being compared is recorded, while the other value could be derived or become available at a later date. For example, the value to be awarded must be "Less Than" the value recorded.
organization.legalEvents.liquidation.filings.filingAmountComparisonType.dnbCode	[integer] e.g.: 16804 A unique code assigned by Dun & Bradstreet that specifies the operator that may be used as the basis of data comparisons between two values; e.g., greater than, less than, equal to. In some cases only one of two values being compared is recorded, while the other value could be derived or become available at a later date. For example, the value to be awarded must be "Less Than" the value recorded. Refer to Reference code table "410 [Comparison Operator]" for all possible values.
organization.legalEvents.liquidation.filings.filingChapter	[string] e.g.: 11 The chapter that applies to the filing of this event.
organization.legalEvents.liquidation.filings.filingClass	[object] The broad class into which the Event is categorized. E.g. Bankruptcy / Insolvency, Administration / Receivership, Liquidation / Dissolution
organization.legalEvents.liquidation.filings.filingClass.description	[string] e.g.: Suit/Financial Judgement/Lien Text identifying the broad class into which the Event is categorized. E.g. Bankruptcy / Insolvency, Administration / Receivership, Liquidation / Dissolution
organization.legalEvents.liquidation.filings.filingClass.dnbCode	[integer] e.g.: 1886

e	A unique code assigned by Dun & Bradstreet to identify the broad class into which the Event is categorized. E.g. Bankruptcy / Insolvency, Administration / Receivership, Liquidation / Dissolution Refer to Reference code table "183 [Legal Event Class]" for all possible values.
organization.legalEvents.liquidation.filings.filingDate	[string] e.g.: 2017-10-30 The date on which this event took place.
organization.legalEvents.liquidation.filings.filingMedium	[string] e.g.: Docket The medium in which the filing is recorded.
organization.legalEvents.liquidation.filings.filingReference	[string] e.g.: D5QZ52TC The identifier given by a registry body to the official filed document that contains this legal event information.
organization.legalEvents.liquidation.filings.filingReferenceDate	[array (object)] The details of the dates relevant to a document (e.g., Date Filed, Date Published). Note: This array of dates should only be used when the user needs to know any additional dates other than the discrete date elements defined.
organization.legalEvents.liquidation.filings.filingReferenceDate .referenceDate	[string] e.g.: 2018-07-25 A date relating to a document that has been registered with an official body.
organization.legalEvents.liquidation.filings.filingReferenceDate .referenceType	[object] The details of the relevance of the date recorded.
organization.legalEvents.liquidation.filings.filingReferenceDate .referenceType.description	[string] e.g.: Date Filed The relevance of the date recorded.
organization.legalEvents.liquidation.filings.filingReferenceDate .referenceType.dnbCode	[integer] e.g.: 12137 A unique code assigned by Dun & Bradstreet to identify the relevance of the date recorded. Refer to Reference code table "322 [Filing Reference Date Type]" for all possible values.
organization.legalEvents.liquidation.filings.filingReferenceDate .result	[object] The details of the relevance of the date recorded.
organization.legalEvents.liquidation.filings.filingReferenceDate .result.description	[string] e.g.: Date Filed The relevance of the date recorded.
organization.legalEvents.liquidation.filings.filingReferenceDate .result.dnbCode	[integer] e.g.: 12137 A unique code assigned by Dun & Bradstreet to identify the relevance of the date recorded. Refer to Reference code table "322 [Filing Reference Date Type]" for all possible values.
organization.legalEvents.liquidation.filings.filingReferenceDate .resultDate	[string] e.g.: 2018-07-25 A date relating to a document that has been registered with an official body.

organization.legalEvents.liquidation.filings.filingResults	[array (object)] The details of the outcomes this Legal Event had or is having on the entity.
organization.legalEvents.liquidation.filings.filingResults.result	[object] The details of the outcome this event had or is having on the party involved in the event.
organization.legalEvents.liquidation.filings.filingResults.result.description	[string] e.g.: Settled The outcome this event had or is having on the party involved in the event (e.g., Petition Dismissed, Liquidator Appointed, Counter claim filed by the defendant in a lawsuit).
organization.legalEvents.liquidation.filings.filingResults.result.dnbCode	[integer] e.g.: 11466 A unique code assigned by Dun & Bradstreet that describes the outcome this event had or is having. Refer to Reference code table "86 [Event Result]" for all possible values.
organization.legalEvents.liquidation.filings.filingResults.resultDate	[string] e.g.: 2017-10-30 The date the outcome of the event occurred.
organization.legalEvents.liquidation.filings.filingResults.subsequentEvents	[array (object)] Records several different events that occur throughout the life cycle of an overriding legal event process, e.g., meeting of creditors related to a Bankruptcy process.
organization.legalEvents.liquidation.filings.filingResults.subsequentEvents.eventPlanDate	[string] e.g.: 2018-02-25 The date and time when the later event described by Event Result Code is expected to occur as an outcome of this event.
organization.legalEvents.liquidation.filings.filingResults.subsequentEvents.locationDescription	[string] e.g.: Attorney Office Text that describes the place where the later event described by filing result is expected to occur as an outcome of this event.
organization.legalEvents.liquidation.filings.filingSubType	[object] The details of the lower-level category of the event that has been registered or recorded against the entity.
organization.legalEvents.liquidation.filings.filingSubType.description	[string] e.g.: Filing of list of Creditors The lower-level category of the event that has been registered or recorded against the entity.
organization.legalEvents.liquidation.filings.filingSubType.dnbCode	[integer] e.g.: 21196 A unique code assigned by Dun & Bradstreet to identify the sub-type. Refer to Reference code table "112 [Legal Event Sub Type]" for all possible values.
organization.legalEvents.liquidation.filings.filingType	[object] The details of the type of event that has been registered or recorded against the entity.
organization.legalEvents.liquidation.filings.filingType.description	[string] e.g.: County Court Judgement The type of event that has been registered or recorded against the entity.

organization.legalEvents.liquidation.filings.filingType.dnbCode	[integer] e.g.: 2515 A unique code assigned by Dun & Bradstreet to identify the type of event that has been registered or recorded against the entity. Refer to Reference code table "24 [Legal Event Type]" for all possible values.
organization.legalEvents.liquidation.filings.financials	[object] The details of the standardized summary view of the financial results (actual or estimated) for the organization.
organization.legalEvents.liquidation.filings.financials.accountantName	[string] e.g.: Johnson, Jordan & Jones CPAs The name of either an individual or an accounting firm.
organization.legalEvents.liquidation.filings.financials.balanceSheet	[object] The details of the Latest Financials' balance sheet statement which summarizes the organization's assets, liabilities, and shareholder's equity at a specific point in time.
organization.legalEvents.liquidation.filings.financials.balanceSheet.assets	[object] The details of the assets on the balance sheet.
organization.legalEvents.liquidation.filings.financials.balanceSheet.assets.currentAssets	[object] Assets that are held for short term; raw materials that are bought, made up, sold as finished goods and eventually paid for.
organization.legalEvents.liquidation.filings.financials.balanceSheet.assets.currentAssets.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.liquidation.filings.financials.balanceSheet.assets.currentAssets.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.liquidation.filings.financials.balanceSheet.assets.currentAssets.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.liquidation.filings.financials.balanceSheet.assets.currentAssets.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.liquidation.filings.financials.balanceSheet.assets.currentAssets.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.liquidation.filings.financials.balanceSheet.assets.longTermAssets	[object] The details of the long-term asset items within the Latest Financials Balance Sheet i.e., items expected to be realized in more than 12 months.
organization.legalEvents.liquidation.filings.financials.balanceSheet	[array (object)]

heet.assets.longTermAssets.statementItems	Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.liquidation.filings.financials.balanceSheet.assets.longTermAssets.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.liquidation.filings.financials.balanceSheet.assets.longTermAssets.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.liquidation.filings.financials.balanceSheet.assets.longTermAssets.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.liquidation.filings.financials.balanceSheet.assets.longTermAssets.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.liquidation.filings.financials.balanceSheet.assets.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.liquidation.filings.financials.balanceSheet.assets.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.liquidation.filings.financials.balanceSheet.assets.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.liquidation.filings.financials.balanceSheet.assets.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.liquidation.filings.financials.balanceSheet.assets.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.liquidation.filings.financials.balanceSheet.liabilities	[object] The legal debts or obligations of a company that arise during the course of business operations. Liabilities are settled over time through the transfer of economic benefits including money, goods, or services.
organization.legalEvents.liquidation.filings.financials.balanceSheet.liabilities.currentLiabilities	[object] The details of the entity's total value of all obligations to pay out cash at some date in the near future.
organization.legalEvents.liquidation.filings.financials.balanceSheet.liabilities.currentLiabilities.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.liquidation.filings.financials.balanceSheet	[object]

heet.liabilities.currentLiabilities.statementItems.itemKey	Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.liquidation.filings.financials.balanceSheet.liabilities.currentLiabilities.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.liquidation.filings.financials.balanceSheet.liabilities.currentLiabilities.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.liquidation.filings.financials.balanceSheet.liabilities.currentLiabilities.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.liquidation.filings.financials.balanceSheet.liabilities.equity	[object] The details of the share capital/stock originally invested by shareholders/stockholders plus any reserves that have arisen, such as retained profits, that were ploughed back into the firm. Also known as Net Worth.
organization.legalEvents.liquidation.filings.financials.balanceSheet.liabilities.equity.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.liquidation.filings.financials.balanceSheet.liabilities.equity.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.liquidation.filings.financials.balanceSheet.liabilities.equity.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.liquidation.filings.financials.balanceSheet.liabilities.equity.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.liquidation.filings.financials.balanceSheet.liabilities.equity.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.liquidation.filings.financials.balanceSheet.liabilities.longTermLiabilities	[object] The details of the entity's total value of all obligations to pay out cash at some date in the future but not within one year.
organization.legalEvents.liquidation.filings.financials.balanceSheet.liabilities.longTermLiabilities.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.liquidation.filings.financials.balanceSheet.liabilities.longTermLiabilities.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.

organization.legalEvents.liquidation.filings.financials.balanceSheet.liabilities.longTermLiabilities.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.liquidation.filings.financials.balanceSheet.liabilities.longTermLiabilities.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.liquidation.filings.financials.balanceSheet.liabilities.longTermLiabilities.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.liquidation.filings.financials.balanceSheet.liabilities.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.liquidation.filings.financials.balanceSheet.liabilities.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.liquidation.filings.financials.balanceSheet.liabilities.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.liquidation.filings.financials.balanceSheet.liabilities.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.liquidation.filings.financials.balanceSheet.liabilities.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.liquidation.filings.financials.balanceSheet.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.liquidation.filings.financials.balanceSheet.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.liquidation.filings.financials.balanceSheet.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.liquidation.filings.financials.balanceSheet.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.liquidation.filings.financials.balanceSheet.statementItems.parentItemKey	[object] Records the higher level financial figure to which this item belongs to.

organization.legalEvents.liquidation.filings.financials.balanceSheet.statementItems.parentItemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.liquidation.filings.financials.balanceSheet.statementItems.parentItemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.liquidation.filings.financials.balanceSheet.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.liquidation.filings.financials.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.liquidation.filings.financials.filingDate	[string] e.g.: 2018-02-01 The date when the company filed its Latest Financials' financial statement with an official registry.
organization.legalEvents.liquidation.filings.financials.financialStatementFromDate	[string] e.g.: 2010-03-14 The date on which the accounting period of the Latest Financials' financial statement commenced.
organization.legalEvents.liquidation.filings.financials.financialStatementToDate	[string] e.g.: 2016-12-31 The date associated with the financial results. When the values are from a financial statement, it represents the date the accounting period ended. When it is an estimated or modeled value, it is the date on which the data was submitted.
organization.legalEvents.liquidation.filings.financials.informationScope	[object] The details of the organizational scope of the Latest Financials' financial statement.
organization.legalEvents.liquidation.filings.financials.informationScope.description	[string] e.g.: Consolidated The organizational scope of the values within the Summary Financials section. Individual means it represents a single organization inclusive of any branches. Consolidated means it represents an organization inclusive of any branches and any subsidiaries.
organization.legalEvents.liquidation.filings.financials.informationScope.dnbCode	[integer] e.g.: 9067 A unique code assigned by Dun & Bradstreet to identify the organizational scope of the Summary Financials values. Refer to Reference code table "192 [Information Scope]" for all possible values.
organization.legalEvents.liquidation.filings.financials.isAudited	[boolean] e.g.: true Indicates if the Latest Financials' accounts have been reviewed by a qualified accountant independent of the organization and the accountant has signed the financial statement certifying it is accurate and complete.

organization.legalEvents.liquidation.filings.financials.isFinal	<p>[boolean] e.g.: true Indicates whether the financial figures are for the entity's closing statement.</p> <p>- If true, the financial figures are for the entity's closing statement. - If false, the financial figures are not for the entity's closing statement.</p>
organization.legalEvents.liquidation.filings.financials.isFiscal	<p>[boolean] e.g.: true Indicates whether the Latest Financials' financial figures cover a full year accounting period.</p>
organization.legalEvents.liquidation.filings.financials.profitAndLossStatement	<p>[object] The details of the Latest Financials' profit and loss (P&L) statement which summarizes the revenues, costs and expenses incurred during a specified accounting period. The P&L statement is synonymous with the income statement.</p>
organization.legalEvents.liquidation.filings.financials.profitAndLossStatement.notes	<p>[string] e.g.: Representative's comments Comments made by a representative</p>
organization.legalEvents.liquidation.filings.financials.profitAndLossStatement.projectedAnnualSales	<p>[string] e.g.: Some information about projected sales Information about the projected annual sales.</p>
organization.legalEvents.liquidation.filings.financials.profitAndLossStatement.statementItems	<p>[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.</p>
organization.legalEvents.liquidation.filings.financials.profitAndLossStatement.statementItems.itemKey	<p>[object] Details of the account for the monetary amount recorded in Item Amount.</p>
organization.legalEvents.liquidation.filings.financials.profitAndLossStatement.statementItems.itemKey.description	<p>[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.</p>
organization.legalEvents.liquidation.filings.financials.profitAndLossStatement.statementItems.itemKey.dnbCode	<p>[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.</p>
organization.legalEvents.liquidation.filings.financials.profitAndLossStatement.statementItems.value	<p>[number] e.g.: 10584 Monetary value of a Financial Statement Item.</p>
organization.legalEvents.liquidation.filings.financials.receivedTimestamp	<p>[string] e.g.: 2018-04-06T16:33:21.443Z The date and time, in ISO 8601 UTC Z standard, when Dun & Bradstreet or one of Dun & Bradstreet's strategic partners received this financial statement.</p>
organization.legalEvents.liquidation.filings.financials.reliability	<p>[object] The details of the integrity of the figures in the Latest Financials' financial statement.</p>
organization.legalEvents.liquidation.filings.financials.reliability.	<p>[string] e.g.: Actual</p>

description	The integrity of the financial figures present within the Summary Financials section (e.g., actual, estimated, or modeled).
organization.legalEvents.liquidation.filings.financials.reliability.dnbCode	[integer] e.g.: 9092 A unique code assigned by Dun & Bradstreet to identify the precision of the financial figures present within the Summary Financials section. Refer to Reference code table "171 [Reliability]" for all possible values.
organization.legalEvents.liquidation.filings.financials.units	[string] e.g.: SingleUnits The unit size (e.g., units, thousands, millions) in which the figures in the Latest Financials' financial statement are stated.
organization.legalEvents.liquidation.filings.hasHistoricalEvent	[boolean] e.g.: true Indicates whether the entity is associated with a historical event. - If true, the entity has been part of a historical event. - If false, the entity has not been part of a historical event.
organization.legalEvents.liquidation.filings.impactAmount	[object] Records the income acquired by the subject as a result of this legal event; e.g. the income acquired as a result of the sale of the subject's assets.
organization.legalEvents.liquidation.filings.impactAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.liquidation.filings.impactAmount.value	[number] e.g.: 125000.25 The monetary value for the income acquired by the subject as a result of this legal event; e.g. the income acquired as a result of the sale of the subject's assets.
organization.legalEvents.liquidation.filings.isStopD	[boolean] e.g.: true When set to "true" this indicates that D&B should not fabricate or supply this Legal Event in products and services. Note: One exception to this business rule is the Public Records report which would disregard this indicator setting. When set to "false" this indicates that D&B can fabricate or supply this Legal Event in products and services; however as this is the assumed condition there is no requirement to create this tag to represent this fact.
organization.legalEvents.liquidation.filings.jurisdictionType	[object] Describes the level of government applying the laws applicable to the event, e.g., federal, state.
organization.legalEvents.liquidation.filings.jurisdictionType.description	[string] e.g.: County Text that describes the level of government applying the laws applicable to the event, e.g., federal, state.

organization.legalEvents.liquidation.filings.jurisdictionType.dnbCode	[integer] e.g.: 14809 A unique code assigned by Dun & Bradstreet that describes the level of government applying the laws applicable to the event, e.g., federal, state. Refer to Reference code table "434 [Jurisdiction Type]" for all possible values.
organization.legalEvents.liquidation.filings.legalHearingDate	[string] e.g.: 2019-10-12 Records the date of a formal process associated with the Legal Event e.g. the date by which creditors' claims must be filed, the future date for the reading of a bankruptcy petition.
organization.legalEvents.liquidation.filings.originalFilingDate	[string] e.g.: 2017-10-30 The date of the initial filing of the event.
organization.legalEvents.liquidation.filings.parentBankruptcy	[object] The details of a bankruptcy filed by the parent entity.
organization.legalEvents.liquidation.filings.parentBankruptcy.associationType	[object] The details of the nature of association of this entity with subject entity.
organization.legalEvents.liquidation.filings.parentBankruptcy.associationType.description	[string] e.g.: Dealer Alternate Linkage The nature of association of this entity with subject entity (e.g., Franchise, Agent).
organization.legalEvents.liquidation.filings.parentBankruptcy.associationType.dnbCode	[integer] e.g.: 30488 A unique code assigned by Dun & Bradstreet to identify the nature of association of this entity with subject entity. Refer to Reference code table "511 [Affiliation Type]" for all possible values.
organization.legalEvents.liquidation.filings.parentBankruptcy.duns	[string] e.g.: 804735132 The D-U-N-S® Number, a proprietary organizational identifier owned and managed by Dun & Bradstreet Inc, provides unique identification of a subject organization, in accordance with the Data Universal Numbering System (D-U-N-S®).
organization.legalEvents.liquidation.filings.parentBankruptcy.filingChapter	[string] e.g.: 11 The chapter that applies to the filing of this event.
organization.legalEvents.liquidation.filings.parentBankruptcy.filingDate	[string] e.g.: 2017-10-30 The date on which this event took place.
organization.legalEvents.liquidation.filings.parentBankruptcy.filingSubType	[object] The lower level category of event that has been registered against the entity.
organization.legalEvents.liquidation.filings.parentBankruptcy.filingSubType.description	[string] e.g.: Bill The type of event registered against the entity.
organization.legalEvents.liquidation.filings.parentBankruptcy.filingSubType.dnbCode	[integer] e.g.: 3617 A unique code assigned by Dun & Bradstreet to identify the type of event.

	Refer to Reference code table "112 [Legal Event Sub Type]" for all possible values.
organization.legalEvents.liquidation.filings.parentBankruptcy.filingType	[object] The details of the type of event that has been registered or recorded against the entity.
organization.legalEvents.liquidation.filings.parentBankruptcy.filingType.description	[string] e.g.: County Court Judgement The type of event that has been registered or recorded against the entity.
organization.legalEvents.liquidation.filings.parentBankruptcy.filingType.dnbCode	[integer] e.g.: 2515 A unique code assigned by Dun & Bradstreet to identify the type of event that has been registered or recorded against the entity. Refer to Reference code table "24 [Legal Event Type]" for all possible values.
organization.legalEvents.liquidation.filings.priority	[string] e.g.: 5 A number that may be used to define the order in which the legal event should be presented relative to the other legal events where the lower the number the earlier the data is presented. Events within the same legal process can be identified using the priority group.
organization.legalEvents.liquidation.filings.priorityGroup	[string] e.g.: 2 A number that may be used to identify multiple legal events as belonging together as part of the same overall legal process. Within a group the priority may then be used to ensure that the legal events within the group are presented continuously and in the correct order.
organization.legalEvents.liquidation.filings.publishedDate	[string] e.g.: 2011-02-14 The date to support the recording of the Publication Date for an official document registered with an Official Body.
organization.legalEvents.liquidation.filings.reasons	[array (object)] The details of the underlying factor that contributed to the Legal Event.
organization.legalEvents.liquidation.filings.reasons.description	[string] e.g.: Voluntary Petition for Bankruptcy The underlying factor that contributed to the Legal Event (e.g., natural disaster, fraud, strategy, economic conditions, loss to creditors).
organization.legalEvents.liquidation.filings.reasons.dnbCode	[integer] e.g.: 12281 A unique code assigned by Dun & Bradstreet to identify the underlying factor that contributed to the Legal Event. Refer to Reference code table "299 [Event Reason]" for all possible values.
organization.legalEvents.liquidation.filings.reasons.filingAmount	[object] The details of the amount of relief sought by all of the plaintiffs in the suit.
organization.legalEvents.liquidation.filings.reasons.filingAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed

(e.g., USD, CAD, GBP, EUR).

organization.legalEvents.liquidation.filings.reasons.filingAmount.value	[number] e.g.: 1000000 The total amount of relief sought by all of the plaintiffs in the suit.
organization.legalEvents.liquidation.filings.receivedDate	[string] e.g.: 2017-10-30 The date when Dun & Bradstreet or one of its strategic partners received this legal event.
organization.legalEvents.liquidation.filings.remedyFiled	[array (object)] The details of different kinds of relief for damages, and the associated amount filed for this legal event.
organization.legalEvents.liquidation.filings.remedyFiled.remedyAmount	[object] The details of the amount of the remedy filed for damages for this legal event.
organization.legalEvents.liquidation.filings.remedyFiled.remedyAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.liquidation.filings.remedyFiled.remedyAmount.value	[number] e.g.: 30000 The monetary value of the remedy filed for damages for this legal event.
organization.legalEvents.liquidation.filings.remedyFiled.remedyType	[object] The details of the specific kind of relief for the damage sought or deemed by this legal event (e.g., Actual, Punitive, Injunction, Compensatory).
organization.legalEvents.liquidation.filings.remedyFiled.remedyType.description	[string] e.g.: Compensatory damage The specific kind of relief for the damage sought or deemed by this legal event (e.g., Actual, Punitive, Injunction, Compensatory).
organization.legalEvents.liquidation.filings.remedyFiled.remedyType.dnbCode	[integer] e.g.: 14073 A unique code assigned by Dun & Bradstreet that describes the specific kind of relief for the damage sought or deemed by this legal event. Refer to Reference code table "430 [Legal Event Remedy Type]" for all possible values.
organization.legalEvents.liquidation.filings.rolePlayers	[array (object)] The details of role players involved in a Legal Event as recorded in court papers and identifies the part each one plays.
organization.legalEvents.liquidation.filings.rolePlayers.address	[object] The details of the Primary Address at which the organization is located or conducts operations.
organization.legalEvents.liquidation.filings.rolePlayers.address.addressCountry	[object] The details of the country in which the role player is located.

organization.legalEvents.liquidation.filings.rolePlayers.address .addressCountry.isoAlpha2Code	<p>[string] e.g.: US The two-letter country code, defined by the International Organization for Standardization (ISO) ISO 3166-1 scheme identifying the country of the role player.</p> <p>Note: Please refer to Country Code Substitutions Table [html/resources/CountryCodes.html#country-substitute] for the country code substitutions.</p>
organization.legalEvents.liquidation.filings.rolePlayers.address .addressCountry.name	<p>[string] e.g.: Unites States The name of the country in which the role player is located.</p>
organization.legalEvents.liquidation.filings.rolePlayers.address .addressCounty	<p>[object] The details of the county where the business is located.</p>
organization.legalEvents.liquidation.filings.rolePlayers.address .addressCounty.name	<p>[string] e.g.: Unites States The name of the county where the business is located.</p>
organization.legalEvents.liquidation.filings.rolePlayers.address .addressLocality	<p>[object] The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.</p>
organization.legalEvents.liquidation.filings.rolePlayers.address .addressLocality.name	<p>[string] e.g.: SAN FRANCISCO The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.</p>
organization.legalEvents.liquidation.filings.rolePlayers.address .addressRegion	<p>[object] The name of the geographical area for this address of the organization. For Example New Jersey.</p>
organization.legalEvents.liquidation.filings.rolePlayers.address .addressRegion.abbreviatedName	<p>[string] e.g.: NJ The shortened name of the geographical area for this address of the organization. For example NJ for the US State New Jersey within Country United States.</p>
organization.legalEvents.liquidation.filings.rolePlayers.address .addressRegion.name	<p>[string] e.g.: California The name of the geographical area for this address of the organization. For Example New Jersey.</p>
organization.legalEvents.liquidation.filings.rolePlayers.address .continentalRegion	<p>[object] The details of the region as defined by Dun & Bradstreet for this address.</p>
organization.legalEvents.liquidation.filings.rolePlayers.address .continentalRegion.name	<p>[string] e.g.: North America The name of the region as defined by Dun & Bradstreet for this address (e.g., Africa, Europe, Middle East).</p>
organization.legalEvents.liquidation.filings.rolePlayers.address .postalCode	<p>[string] e.g.: 941109999 The postal code for this address of the organization.</p> <p>Also known locally in various English-speaking countries throughout the world as a postcode, post code, Eircode, PIN or ZIP Code) is a series of letters or digits or both, sometimes including spaces or</p>

punctuation, included in a postal address for the purpose of sorting mail. The code is used by the country's postal authority to identify the address where the organization is located or conducts operations .

organization.legalEvents.liquidation.filings.rolePlayers.address.streetAddress	[object] The details of the street address for this address of the organization.
organization.legalEvents.liquidation.filings.rolePlayers.address.streetAddress.line1	[string] e.g.: 492 KOLLER ST The first line of the address where the entity is located. The first line of this address of the organization. For example The Point in the address The Point 37 North Wharf Road London W2 1AF
organization.legalEvents.liquidation.filings.rolePlayers.address.streetAddress.line2	[string] e.g.: Suite 100 The second line of this address of the organization. For example 37 North Wharf Road in the address The Point 37 North Wharf Road London W2 1AF
organization.legalEvents.liquidation.filings.rolePlayers.creditorCategories	[array (object)] Records several different classifications for this creditor who claims that the subject owes money. The priority in which the claimants are paid is based on the classification to which they belong.
organization.legalEvents.liquidation.filings.rolePlayers.creditorCategories.claimAmount	[object] Details of the monetary value owed to the category of this creditor recorded in Creditor Type.
organization.legalEvents.liquidation.filings.rolePlayers.creditorCategories.claimAmount.currency	[string] e.g.: USD The currency of the monetary value owed to the category of this creditor recorded in Creditor Type.
organization.legalEvents.liquidation.filings.rolePlayers.creditorCategories.claimAmount.value	[number] e.g.: 1485795.25 The monetary value owed to the category of this creditor recorded in Creditor Type.
organization.legalEvents.liquidation.filings.rolePlayers.creditorCategories.creditorType	[object] The category of this creditor to which the subject owes money, with respect to their priority of being paid relative to other creditor categories; e.g., preferred, secured, where preferred creditors have priority over secured creditors.
organization.legalEvents.liquidation.filings.rolePlayers.creditorCategories.creditorType.description	[string] e.g.: Secured Text that identifies the category of this creditor to which the subject owes money, with respect to their priority of being paid relative to other creditor categories; e.g., preferred, secured, where preferred

	creditors have priority over secured creditors.
organization.legalEvents.liquidation.filings.rolePlayers.creditorCategories.creditorType.dnbCode	[integer] e.g.: 15573 A unique code assigned by Dun & Bradstreet that specifies the category of this creditor to which the subject owes money, with respect to their priority of being paid relative to other creditor categories; e.g., preferred, secured, where preferred creditors have priority over secured creditors. Refer to Reference code table "401 [Creditor Type]" for all possible values.
organization.legalEvents.liquidation.filings.rolePlayers.duns	[string] e.g.: 804735132 The D-U-N-S® Number, a proprietary organizational identifier owned and managed by Dun & Bradstreet Inc, provides unique identification of a subject organization, in accordance with the Data Universal Numbering System (D-U-N-S®).
organization.legalEvents.liquidation.filings.rolePlayers.employerName	[string] e.g.: Dun & Bradstreet The name of the subject that employs the party involved in this event.
organization.legalEvents.liquidation.filings.rolePlayers.filingAmount	[object] The details of the monetary value associated with a court action for this party involved in the event.
organization.legalEvents.liquidation.filings.rolePlayers.filingAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.liquidation.filings.rolePlayers.filingAmount.value	[number] e.g.: 100000 The monetary value associated with a court action for this party involved in the event.
organization.legalEvents.liquidation.filings.rolePlayers.filingAmountComparisonType	[object] Specifies the operator that may be used as the basis of data comparisons between two values; e.g., greater than, less than, equal to. In some cases only one of two values being compared is recorded, while the other value could be derived or become available at a later date. For example, the value to be awarded must be "Less Than" the value recorded.
organization.legalEvents.liquidation.filings.rolePlayers.filingAmountComparisonType.description	[string] e.g.: less than Text that specifies the operator that may be used as the basis of data comparisons between two values; e.g., greater than, less than, equal to. In some cases only one of two values being compared is recorded, while the other value could be derived or become available at a later date. For example, the value to be awarded must be "Less Than" the value recorded.
organization.legalEvents.liquidation.filings.rolePlayers.filingAmountComparisonType.dnbCode	[integer] e.g.: 16804 A unique code assigned by Dun & Bradstreet that specifies the operator that may be used as the basis of data comparisons between two values; e.g., greater than, less than, equal to. In some cases only one of two values being compared is recorded, while the other value could be derived or become available at a later date. For example, the value to be awarded must be "Less Than" the value recorded. Refer to Reference code table "410 [Comparison Operator]" for all possible values.

organization.legalEvents.liquidation.filings.rolePlayers.filingResults	[array (object)] Describes all outcomes involving this Role Player from this Legal Event; e.g., Counter claim filed by the defendant in a lawsuit.
organization.legalEvents.liquidation.filings.rolePlayers.filingResults.filingAmount	[object] The details of the monetary value associated with a court action for this party involved in the event.
organization.legalEvents.liquidation.filings.rolePlayers.filingResults.filingAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.liquidation.filings.rolePlayers.filingResults.filingAmount.value	[number] e.g.: 100000 The monetary value associated with a court action for this party involved in the event.
organization.legalEvents.liquidation.filings.rolePlayers.filingResults.result	[object] Describes an outcome involving this Role Player from this Legal Event; e.g., Counter claim filed by the defendant in a lawsuit.
organization.legalEvents.liquidation.filings.rolePlayers.filingResults.result.description	[string] e.g.: Closed Text that describes an outcome involving this Role Player from this Legal Event; e.g., Counter claim filed by the defendant in a lawsuit.
organization.legalEvents.liquidation.filings.rolePlayers.filingResults.result.dnbCode	[integer] e.g.: 11468 A unique code assigned by Dun & Bradstreet that describes an outcome involving this Role Player from this Legal Event; e.g., Counter claim filed by the defendant in a lawsuit. Refer to Reference code table "86 [Event Result]" for all possible values.
organization.legalEvents.liquidation.filings.rolePlayers.filingResults.resultDate	[string] e.g.: 2012-05-30 The date when the outcome recorded in Event Result Code occurred.
organization.legalEvents.liquidation.filings.rolePlayers.name	[string] e.g.: Some Vendor The name of the party involved in this event as it was filed.
organization.legalEvents.liquidation.filings.rolePlayers.operatingStatus	[object] The details of the high level categorization of the organization's functional state or trading status.
organization.legalEvents.liquidation.filings.rolePlayers.operatingStatus.description	[string] e.g.: Active Textual description of the organization's functional state or trading status. Possible values: [9074] Active [403] Out of Business
organization.legalEvents.liquidation.filings.rolePlayers.operatingStatus.dnbCode	[integer] e.g.: 9074 A unique code assigned by Dun & Bradstreet to identify the organization's functional state or trading

	<p>status.</p> <p>Possible values:</p> <p>9074 [Active]</p> <p>403 [Out of Business]</p> <p>Refer to Reference code table "166 [Operating Status]" for all possible values.</p>
organization.legalEvents.liquidation.filings.rolePlayers.positions	<p>[array (object)]</p> <p>The details of the job positions the role player holds or has held in the entity.</p>
organization.legalEvents.liquidation.filings.rolePlayers.position.s.description	<p>[string] e.g.: Sales consultant</p> <p>The job position the role player holds or has held in the organization (e.g., Financial Director, Sales Director, Operations Manager).</p>
organization.legalEvents.liquidation.filings.rolePlayers.position.s.dnbCode	<p>[integer] e.g.: 28802</p> <p>A unique code assigned by Dun & Bradstreet that denotes the job position the role player holds or has held in the entity.</p> <p>Refer to Reference code table "5 [Position] & 198 [Employee Position]" for all possible values.</p>
organization.legalEvents.liquidation.filings.rolePlayers.reasons	<p>[array (object)]</p> <p>Records various underlying factors involving this Role Player, that contributed to the Legal Event.</p>
organization.legalEvents.liquidation.filings.rolePlayers.reasons.description	<p>[string] e.g.: Goodwill</p> <p>Text describing an underlying factor involving this Role player that contributed to the Legal Event; e.g., fraud, racism, strategy, anti-trust violation.</p>
organization.legalEvents.liquidation.filings.rolePlayers.reasons.dnbCode	<p>[integer] e.g.: 15629</p> <p>A unique code assigned by Dun & Bradstreet describing an underlying factor involving this Role player that contributed to the Legal Event; e.g., fraud, racism, strategy, anti-trust violation.</p> <p>Refer to Reference code table "299 [Event Reason]" for all possible values.</p>
organization.legalEvents.liquidation.filings.rolePlayers.registrationNumbers	<p>[array (object)]</p> <p>The details of the numbers assigned by an external body or by Dun & Bradstreet that either uniquely identifies or helps to identify an entity.</p>
organization.legalEvents.liquidation.filings.rolePlayers.registrationNumbers.registrationNumber	<p>[string] e.g.: 12-3456789</p> <p>The number or alphanumeric value assigned by a recognized external authority that either uniquely identifies or helps to identify the organization.</p>
organization.legalEvents.liquidation.filings.rolePlayers.registrationNumbers.typeDescription	<p>[string] e.g.: Federal Taxpayer Identification Number (US)</p> <p>The official name of the organization identifier assigned by a recognized external authority (e.g.. Australian Company Number, Federal Taxpayer Identification Number, Value Added Tax Number).</p>
organization.legalEvents.liquidation.filings.rolePlayers.registrationNumbers.typeDnBCode	<p>[integer] e.g.: 6863</p> <p>A unique code assigned by Dun & Bradstreet to identify the type of organization registration number. For example, 2541 stands for company number issued by the UK Companies House.</p>

Refer to Reference code table "7 [Registration Number Type]" for all possible values.

organization.legalEvents.liquidation.filings.rolePlayers.remedyFiled	[array (object)] Records details on several different kinds of relief for damages along with the associated amount filed for this legal event; e.g., for U.S. suits - the remedies sought by the plaintiff(s), for U.S. judgments - the remedies deemed by the court.
organization.legalEvents.liquidation.filings.rolePlayers.remedyFiled.remedyType	[object] text that describes the specific kind of relief for the damage sought or deemed by this legal event; e.g., Actual, Punitive, Injunction, Compensatory.
organization.legalEvents.liquidation.filings.rolePlayers.remedyFiled.remedyType.description	[string] e.g.: Damages A unique code assigned by Dun & Bradstreet that describes the specific kind of relief for the damage sought or deemed by this legal event; e.g., Actual, Punitive, Injunction, Compensatory.
organization.legalEvents.liquidation.filings.rolePlayers.remedyFiled.remedyType.dnbCode	[integer] e.g.: 14701 A unique code assigned by Dun & Bradstreet that describes the specific kind of relief for the damage sought or deemed by this legal event; e.g., Actual, Punitive, Injunction, Compensatory. Refer to Reference code table "430 [Legal Event Remedy Type]" for all possible values.
organization.legalEvents.liquidation.filings.rolePlayers.rolePlayerType	[object] The details of the role player's function in the event.
organization.legalEvents.liquidation.filings.rolePlayers.rolePlayerType.description	[string] e.g.: Shareholder The function played by this party in the event (e.g., debtor, creditor, liquidator, shareholder, court, plaintiff, defendant).
organization.legalEvents.liquidation.filings.rolePlayers.rolePlayerType.dnbCode	[integer] e.g.: 302 A unique code assigned by Dun & Bradstreet to identify the function played by this party in the event. Refer to Reference code table "10 [Role Player Type]" for all possible values.
organization.legalEvents.liquidation.filings.rolePlayers.standardRating	[object] The most current Standard Dun & Bradstreet Standard Rating assigned to this entity.
organization.legalEvents.liquidation.filings.rolePlayers.standardRating.financialStrength	[string] e.g.: 3A The overall size of the entity from a financial perspective. It may be based on the net worth or issued capital of the entity; the higher the amount, the larger the entity is considered to be.
organization.legalEvents.liquidation.filings.rolePlayers.standardRating.riskSegment	[string] e.g.: 4 Creditworthiness of the entity in terms of its overall financial condition or risk to creditors.
organization.legalEvents.liquidation.filings.rolePlayers.standardRating.scoreDate	[string] e.g.: 2010-03-14 The date when the score was assigned or last changed. Scores are continuously monitored and recalculated as any input variables changes. In the event that the score could not be assigned on the entity, this is the date when the reason was recorded explaining why the score was not assigned. Format:

	<p>YYYY-MM-DD or YYYY-MM.</p> <p>Note: In some markets, the date is not changed unless there is a score change in order to avoid unnecessary notifications. But in others, the score date changes even though the score does not change after the market recalculates the score.</p>
organization.legalEvents.liquidation.filings.rolePlayers.startDate	<p>[string] e.g.: 2017-10-30</p> <p>The date when the role player originally started its business activities.</p>
organization.legalEvents.liquidation.filings.rolePlayers.telephone	<p>[array (object)]</p> <p>The details of the Telephone contact information used for voice communication with the organization.</p>
organization.legalEvents.liquidation.filings.rolePlayers.telephone.isdCode	<p>[string] e.g.: 1</p> <p>A series of numbers that must be prefixed before dialing a telephone number in another Country, it is comprised of an International Dialing Prefix followed by the Country Code. These are also referred to as Country Calling Code or Country Dial-In Code.</p>
organization.legalEvents.liquidation.filings.rolePlayers.telephone.isUnreachable	<p>[boolean] e.g.: false</p> <p>Indicates whether the telephone number can be connected to successfully.</p> <ul style="list-style-type: none"> - If true, connection to the telephone number is unsuccessful. - If false, connection to the telephone number is successful.
organization.legalEvents.liquidation.filings.rolePlayers.telephone.telephoneNumber	<p>[string] e.g.: 6505550000</p> <p>The primary voice telephone number for the business, when dialing domestically. The National Telephone Number is created by combining the Domestic Area Code and the Local Number.</p> <p>A Domestic Area Code is a series of numbers that must be prefixed before dialing a telephone number in another local area. National telecommunication authorities use various formats and dialing rules for area codes. Also known as City Code.</p> <p>A Local Number is a series of numbers that represents a specific telephone line.</p>
organization.legalEvents.liquidation.filings.rolePlayers.textEntry	<p>[array (object)]</p> <p>The details of data elements regarding the legal event filing which cannot be recorded in the other fields.</p>
organization.legalEvents.liquidation.filings.rolePlayers.textEntry.priority	<p>[integer] e.g.: 1</p> <p>A number that may be used to define the order in which this text entry should be presented relative to other occurrences of text entries where the lower the number the earlier the data is presented.</p>
organization.legalEvents.liquidation.filings.rolePlayers.textEntry.text	<p>[string] e.g.: Some text obtained from contact</p> <p>Text that has been recorded.</p>
organization.legalEvents.liquidation.filings.rolePlayers.textEntry.typeDescription	<p>[string] e.g.: Legal event</p> <p>Text entry type to qualify the information recorded in the text entries.</p>

organization.legalEvents.liquidation.filings.rolePlayers.textEntry.typeDnBCode	[integer] e.g.: 1170 A unique code assigned by Dun & Bradstreet to identify the text entry type. Refer to Reference code table "27 [Information Description]" for all possible values.
organization.legalEvents.liquidation.filings.startDate	[string] e.g.: 2016-09-30 The date on or before which the event took place.
organization.legalEvents.liquidation.filings.status	[object] The details of the most recent situation for the legal event.
organization.legalEvents.liquidation.filings.status.description	[string] e.g.: Open The most recent situation for the legal event (e.g., pending, unsatisfied).
organization.legalEvents.liquidation.filings.status.dnbCode	[integer] e.g.: 11477 A unique code assigned by Dun & Bradstreet to identify the most recent situation for the legal event. Refer to Reference code table "82 [Event Status]" for all possible values.
organization.legalEvents.liquidation.filings.statusDate	[string] e.g.: 2017-12-15 The date when the situation changed.
organization.legalEvents.liquidation.filings.textEntry	[array (object)] The details of data elements regarding the legal event filing which cannot be recorded in the other fields.
organization.legalEvents.liquidation.filings.textEntry.priority	[integer] e.g.: 1 A number that may be used to define the order in which this text entry should be presented relative to other occurrences of text entries where the lower the number the earlier the data is presented.
organization.legalEvents.liquidation.filings.textEntry.text	[string] e.g.: Some text obtained from contact Text that has been recorded.
organization.legalEvents.liquidation.filings.textEntry.typeDescription	[string] e.g.: Legal event Text entry type to qualify the information recorded in the text entries.
organization.legalEvents.liquidation.filings.textEntry.typeDnBCode	[integer] e.g.: 1170 A unique code assigned by Dun & Bradstreet to identify the text entry type. Refer to Reference code table "27 [Information Description]" for all possible values.
organization.legalEvents.liquidation.filings.textEntry.language	[object] Records the language in which this information is presented.
organization.legalEvents.liquidation.filings.textEntry.language.description	[string] e.g.: English Textual value denoting the language in which this information is recorded.
organization.legalEvents.liquidation.filings.textEntry.language.dnbCode	[integer] e.g.: 39 A unique code assigned by Dun & Bradstreet that denotes the language in which this information is

recorded.
Refer to Reference code table "3 [Language]" for all possible values.

organization.legalEvents.liquidation.filings.verifiedDate	[string] e.g.: 2017-10-30 The date Dun & Bradstreet reviewed the reported content of the Legal Event to ensure accuracy.
organization.legalEvents.suits	[object] The details about the legal proceedings under which a plaintiff attempts to recover satisfaction or remedy from the defendant for damages.
organization.legalEvents.suits.mostRecentFilingDate	[string] e.g.: 2020-10-09 The date of the most recent event of this event type.
organization.legalEvents.suits.openCount	[integer] e.g.: 12 The number of filings that are in open status.
organization.legalEvents.suits.openAmount	[object] The details of the monetary value involved in the total open events of this event type.
organization.legalEvents.suits.openAmount.value	[number] e.g.: 123456789 The monetary value involved in the total open events of this event type.
organization.legalEvents.suits.openAmount.currency	[string] e.g.: USD The currency of the monetary value involved in the total open events of this event type, expressed in ISO Alpha3 code format.
organization.legalEvents.suits.periodSummary	[object] Records summarized information on several decisions made by a court that involved this subject as recorded on the D&B database in different time periods.
organization.legalEvents.suits.periodSummary.12Months	[object] Records summarized information on several decisions made by a court that involved this subject as recorded on the D&B database in last 12 months.
organization.legalEvents.suits.periodSummary.12Months.total Count	[integer] e.g.: 0 The number of suits recorded on this subject in the last 12 months.
organization.legalEvents.suits.periodSummary.12Months.total Amount	[object] Records details on the monetary value of suits recorded on this subject in the last 12 months.
organization.legalEvents.suits.periodSummary.12Months.total Amount.value	[number] e.g.: 601 The monetary value of suits recorded on this subject in the last 12 months.
organization.legalEvents.suits.periodSummary.12Months.total Amount.currency	[string] e.g.: USD The currency of the monetary value of suits recorded on this subject in the last 12 months, expressed in

	ISO Alpha3 code format.
organization.legalEvents.suits.filings	[array (object)] The details about each legal proceeding under which a plaintiff attempts to recover satisfaction or remedy from the defendant for damages.
organization.legalEvents.suits.filings.activities	[array (object)] The activities that have taken place in pursuit of the claim.
organization.legalEvents.suits.filings.activities.activityDate	[string] e.g.: 2016-02-18 The date of an activity that has taken place in pursuit of the claim.
organization.legalEvents.suits.filings.activities.description	[string] e.g.: Actual The description of the legal process in which an entity declares inability to pay its debts.
organization.legalEvents.suits.filings.actualLegalHearingDate	[string] e.g.: 2019-10-12 Records the date on which the formal process associated with the Legal Event occurred; e.g., the date on which creditors filed claims, the date on which a bankruptcy petition was read, the date on which a trial hearing took place.
organization.legalEvents.suits.filings.assetClass	[array (object)] Records details of different groups of assets which are impacted by this Legal Event.
organization.legalEvents.suits.filings.assetClass.description	[string] e.g.: Property Text that describes the class of asset at a high level, e.g. Vehicles.
organization.legalEvents.suits.filings.assetClass.dnbCode	[integer] e.g.: 15616 A unique code assigned by Dun & Bradstreet that describes the class of asset at a high level, e.g. Vehicles. Refer to Reference code table "66 [Asset Class]" for all possible values.
organization.legalEvents.suits.filings.awardedAmount	[object] The details of the amount associated with a decision made by a court.
organization.legalEvents.suits.filings.awardedAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.suits.filings.awardedAmount.value	[number] e.g.: 1000000 The monetary value associated with a decision made by a court.
organization.legalEvents.suits.filings.collaterals	[array (object)] The details of the different types of assets used by the entity as security for this event.

organization.legalEvents.suits.filings.collaterals.collateralDetails	[array (object)] Records information about an individual item/asset that the subject has used as security for this Financing Event.
organization.legalEvents.suits.filings.collaterals.collateralDetails.isUsed	[boolean] e.g.: true When set to "true", this identifies that the collateral asset owned by the Subject is no longer considered a brand new item. When set to "false", this identifies that the collateral asset owned by the Subject is considered a brand new item.
organization.legalEvents.suits.filings.collaterals.collateralDetails.manufacturedYear	[string] e.g.: 2001 The year in which the construction of the item; e.g., a ship, was completed.
organization.legalEvents.suits.filings.collaterals.collateralDetails.manufactureName	[string] e.g.: Ford Motors The name of the business that built the item being held as collateral in a business transaction.
organization.legalEvents.suits.filings.collaterals.collateralDetails.modelName	[string] e.g.: Mustang An alphanumeric name assigned by the manufacturer to the asset; e.g., Mustang, RX8, Pavilion, T60, 747.
organization.legalEvents.suits.filings.collaterals.collateralDetails.modelYear	[string] e.g.: 2002 The year that the manufacturer assigned to the model based on the expected release of the model to the public.
organization.legalEvents.suits.filings.collaterals.collateralDetails.serialNumber	[string] e.g.: VX1234 A reference number or text assigned by the manufacturer for uniquely identifying the manufactured item.
organization.legalEvents.suits.filings.collaterals.collateralDetails.textEntry	[array (object)] Records multiple textual descriptions, language and nature of textual Collateral Details data for this Financing Event that cannot be recorded in the defined fields.
organization.legalEvents.suits.filings.collaterals.collateralDetails.textEntry.priority	[integer] e.g.: 1 A number which may be used to identify multiple occurrences of Text Entry as belonging together as part of the same block of text. Within a group the Display Sequence may then be used to ensure that the Text Entry occurrences within the group are presented in the correct order.
organization.legalEvents.suits.filings.collaterals.collateralDetails.textEntry.text	[string] e.g.: Company vehicle A textual description of a collateral associated with the Financing Event which cannot be recorded in any of the defined elements.
organization.legalEvents.suits.filings.collaterals.collateralDetails.textEntry.typeDescription	[string] e.g.: Financial Statement Additional Note Text Text which describes the type of Text; e.g., the title of the party associated with the Financing Event.
organization.legalEvents.suits.filings.collaterals.collateralDetails.textEntry.typeDnBCode	[integer] e.g.: 23916 A unique code assigned by Dun & Bradstreet which describes the type of Text; e.g., the title of the party associated with the Financing Event.

	Refer to Reference code table "27 [Information Description]" for all possible values.
organization.legalEvents.suits.filings.collaterals.collateralSupplementalItems	[array (object)] Records kinds of supplemental items, (e.g., Products, Proceeds), that are included as security along with the identified collateral for the given Collateral Type.
organization.legalEvents.suits.filings.collaterals.collateralSupplementalItems.description	[string] e.g.: Proceeds Text that specifies the kind of supplemental items, (e.g., Products, Proceeds), that are included as security along with the identified collateral item for the given Collateral Type. The items in this example are produced as output of the asset (e.g., manufacturing plant) that the subject is using for collateral.
organization.legalEvents.suits.filings.collaterals.collateralSupplementalItems.dnbCode	[integer] e.g.: 11290 A unique code assigned by Dun & Bradstreet that specifies the kind of supplemental items, (e.g., Products, Proceeds), that are included as security along with the identified collateral item for the given Collateral Type. The items in this example are produced as output of the asset (e.g., manufacturing plant) that the subject is using for collateral. Refer to Reference code table "268 [Collateral Supplemental Item Type]" for all possible values.
organization.legalEvents.suits.filings.collaterals.itemQuantity	[integer] e.g.: 25 The number of assets that the subject is using as collateral for the particular Collateral Type.
organization.legalEvents.suits.filings.collaterals.quantity	[integer] e.g.: 15 The number of assets that the subject is using as collateral for the particular collateral type.
organization.legalEvents.suits.filings.collaterals.scope	[object] Records the scope of the assets used by a debtor as security as recorded in the Financing Event; e.g., All items for the Collateral Type are included, only the items that are leased for the Collateral Type are included
organization.legalEvents.suits.filings.collaterals.scope.description	[string] e.g.: Leased Text that indicates the scope of the assets used by a debtor as security as recorded in the Financing Event; e.g., All items for the Collateral Type are included, only the items that are leased for the Collateral Type are included
organization.legalEvents.suits.filings.collaterals.scope.dnbCode	[integer] e.g.: 11288 A unique code assigned by Dun & Bradstreet which indicates the scope of the assets used by a debtor as security as recorded in the Financing Event; e.g., All items for the Collateral Type are included, only the items that are leased for the Collateral Type are included Refer to Reference code table "267 [Collateral Scope]" for all possible values.
organization.legalEvents.suits.filings.collaterals.supplementalItems	[array (object)] Records the kinds of supplemental items, (e.g., Products, Proceeds), that are included as security along with the identified collateral for the given collateral type.
organization.legalEvents.suits.filings.collaterals.supplemental	[string] e.g.: Products

tems.description	Text which describes the kinds of supplemental items, (e.g., Products, Proceeds), that are included as security along with the identified collateral for the given collateral type.
organization.legalEvents.suits.filings.collaterals.supplementalItems.dnbCode	[integer] e.g.: 11289 A unique code assigned by Dun & Bradstreet which describes the kinds of supplemental items, (e.g., Products, Proceeds), that are included as security along with the identified collateral for the given collateral type. Refer to Reference code table "268 [Collateral Supplemental Item Type]" for all possible values.
organization.legalEvents.suits.filings.collaterals.textEntry	[array (object)] Records the textual description, language and nature of collateral type information.
organization.legalEvents.suits.filings.collaterals.textEntry.text	[string] e.g.: Vehicles Free form textual description, language and nature of collateral type information.
organization.legalEvents.suits.filings.collaterals.textEntry.typeDescription	[string] e.g.: Financial Statement Additional Note Text Text that describes the type of textual description, language and nature of collateral type information.
organization.legalEvents.suits.filings.collaterals.textEntry.typeDnBCode	[integer] e.g.: 23916 A unique code assigned by Dun & Bradstreet describing the type of textual description, language and nature of collateral type information. Refer to Reference code table "27 [Information Description]" for all possible values.
organization.legalEvents.suits.filings.collateralScopeType	[object] Records the scope of the assets used by a debtor as security as recorded in the Financing Event; e.g., All items for the Collateral Type are included, only the items that are leased for the Collateral Type are included
organization.legalEvents.suits.filings.collateralScopeType.description	[string] e.g.: Leased Text which indicates the scope of the assets used by a debtor as security as recorded in the Financing Event; e.g., All items for the Collateral Type are included, only the items that are leased for the Collateral Type are included
organization.legalEvents.suits.filings.collateralScopeType.dnbCode	[integer] e.g.: 11288 A unique code assigned by Dun & Bradstreet which indicates the scope of the assets used by a debtor as security as recorded in the Financing Event; e.g., All items for the Collateral Type are included, only the items that are leased for the Collateral Type are included Refer to Reference code table "267 [Collateral Scope]" for all possible values.
organization.legalEvents.suits.filings.contactEvents	[array (object)] The details on communications Dun & Bradstreet had with persons to get information on this event.
organization.legalEvents.suits.filings.contactEvents.address	[object] The details of the address used by the entity for mailing purposes.

organization.legalEvents.suits.filings.contactEvents.address.addressCountry	[object] The details of the country or region for this address of the organization.
organization.legalEvents.suits.filings.contactEvents.address.addressCountry.isoAlpha2Code	[string] e.g.: US The 2 letter alpha country code assigned by the International Organization for Standardization (ISO) identifying the Country/Region for this address of the organization. Note: Please refer to Country Code Substitutions Table [/html/resources/CountryCodes.html#country-substitute] for the country code substitutions.
organization.legalEvents.suits.filings.contactEvents.comments	[array (object)] Records notes from the contact providing further information regarding the subject's event.
organization.legalEvents.suits.filings.contactEvents.comments.description	[string] e.g.: Financing Statement was assigned Text that expresses a note collected from this contact providing further information about this event.
organization.legalEvents.suits.filings.contactEvents.comments.dnbCode	[integer] e.g.: 14767 A unique code assigned by Dun & Bradstreet that expresses a note collected from this contact providing further information about this event. Refer to Reference code table "429 [Event Comment]" for all possible values.
organization.legalEvents.suits.filings.contactEvents.contactDate	[string] e.g.: 2017-11-25 The date when the communication took place.
organization.legalEvents.suits.filings.contactEvents.duns	[string] e.g.: 804735132 The D-U-N-S® Number, a proprietary organizational identifier owned and managed by Dun & Bradstreet Inc, provides unique identification of a subject organization, in accordance with the Data Universal Numbering System (D-U-N-S®).
organization.legalEvents.suits.filings.contactEvents.name	[string] e.g.: John Smith The name of the contact which may be either an individual or an entity.
organization.legalEvents.suits.filings.contactEvents.nonSpecificSource	[object] The details, in general terms, about the supplier of the Financial Statement.
organization.legalEvents.suits.filings.contactEvents.nonSpecificSource.description	[string] e.g.: Trustee Describes the supplier of the Financial Statement (e.g., Official Registry, Accountant, the Subject).
organization.legalEvents.suits.filings.contactEvents.nonSpecificSource.dnbCode	[integer] e.g.: 15735 A unique code assigned by Dun & Bradstreet to identify, in general terms, the supplier from which this data was originally obtained by Dun & Bradstreet. Refer to Reference code table "35 [Role Player Type Non-Specific]" for all possible values.
organization.legalEvents.suits.filings.contactEvents.organizationName	[string] e.g.: ABC Corp The name of the contact, when this is a company.

organization.legalEvents.suits.filings.contactEvents.positions	[array (object)] The details on the job position the principal or manager holds or has held in the entity.
organization.legalEvents.suits.filings.contactEvents.positions.description	[string] e.g.: Chairman Executive Committee The job position the principal or manager holds or has held in the entity (e.g., Financial Director, Managing Director, Sales Director, Operations Manager).
organization.legalEvents.suits.filings.contactEvents.positions.dnbCode	[integer] e.g.: 95 A unique code assigned by Dun & Bradstreet to identify the job position the principal or manager holds or has held in the entity. Refer to Reference code table "5 [Position] & 198 [Employee Position]" for all possible values.
organization.legalEvents.suits.filings.contactEvents.positions.jobTitles	[array (object)] Records several different Vanity Titles for the person with whom D&B had contact to get information on this event.
organization.legalEvents.suits.filings.contactEvents.positions.jobTitles.title	[string] e.g.: Senior Director of Finance A textual presentation of the position as preferred by the person with whom D&B had contact to get information on this event, e.g., Position Code might equate to Financial Director, however, the Vanity Title might be 'Senior Director of Finance'.
organization.legalEvents.suits.filings.contactEvents.positions.positionClass	[object] The details that define the class of the position.
organization.legalEvents.suits.filings.contactEvents.positions.positionClass.description	[string] e.g.: Chairman Executive Committee The job position the principal or manager holds or has held in the entity (e.g., Financial Director, Managing Director, Sales Director, Operations Manager).
organization.legalEvents.suits.filings.contactEvents.positions.positionClass.dnbCode	[integer] e.g.: 95 A unique code assigned by Dun & Bradstreet to identify the job position the principal or manager holds or has held in the entity. Refer to Reference code table "5 [Position] & 198 [Employee Position]" for all possible values.
organization.legalEvents.suits.filings.contactEvents.positions.positionStanding	[object] Details of the capacity or standing in which the individual holds this specific position.
organization.legalEvents.suits.filings.contactEvents.positions.positionStanding.description	[string] e.g.: Acting The capacity or standing in which the individual holds this specific position.
organization.legalEvents.suits.filings.contactEvents.positions.positionStanding.dnbCode	[integer] e.g.: 336 A unique code assigned by Dun & Bradstreet to identify the capacity in which the position is held. Refer to Reference code table "195 [Position Standing]" for all possible values.
organization.legalEvents.suits.filings.contactEvents.positions.priority	[integer] e.g.: 1 A number that may be used to define the order in which the Position should be presented relative to any

	other occurrences of Position where lower the number the earlier the data is presented.
organization.legalEvents.suits.filings.contactEvents.positions.startDate	[string] e.g.: 2017-08-23 The date when the principal or manager was appointed to this position. This is not necessarily the date when the principal or manager was first employed by the subject; it is the date when they moved to this position.
organization.legalEvents.suits.filings.contactEvents.results	[array (object)] The details of the outcomes this Legal Event had or is having on the entity.
organization.legalEvents.suits.filings.contactEvents.results.result	[object] The details of the outcome this event had or is having on the party involved in the event.
organization.legalEvents.suits.filings.contactEvents.results.result.description	[string] e.g.: Settled The outcome this event had or is having on the party involved in the event (e.g., Petition Dismissed, Liquidator Appointed, Counter claim filed by the defendant in a lawsuit).
organization.legalEvents.suits.filings.contactEvents.results.result.dnbCode	[integer] e.g.: 11466 A unique code assigned by Dun & Bradstreet that describes the outcome this event had or is having. Refer to Reference code table "86 [Event Result]" for all possible values.
organization.legalEvents.suits.filings.contactEvents.results.resultDate	[string] e.g.: 2017-10-30 The date the outcome of the event occurred.
organization.legalEvents.suits.filings.contactEvents.rolePlayers	[array (object)] The details of role players involved in a Legal Event as recorded in court papers and identifies the part each one plays.
organization.legalEvents.suits.filings.contactEvents.rolePlayers.rolePlayerType	[object] The details of the role player's function in the event.
organization.legalEvents.suits.filings.contactEvents.rolePlayers.rolePlayerType.description	[string] e.g.: Shareholder The function played by this party in the event (e.g., debtor, creditor, liquidator, shareholder, court, plaintiff, defendant).
organization.legalEvents.suits.filings.contactEvents.rolePlayers.rolePlayerType.dnbCode	[integer] e.g.: 302 A unique code assigned by Dun & Bradstreet to identify the function played by this party in the event. Refer to Reference code table "10 [Role Player Type]" for all possible values.
organization.legalEvents.suits.filings.contactEvents.textEntry	[array (object)] The details of data elements regarding the legal event filing which cannot be recorded in the other fields.
organization.legalEvents.suits.filings.contactEvents.textEntry.priority	[integer] e.g.: 1 A number that may be used to define the order in which this text entry should be presented relative to other occurrences of text entries where the lower the number the earlier the data is presented.

organization.legalEvents.suits.filings.contactEvents.textEntry.text	[string] e.g.: Some text obtained from contact Text that has been recorded.
organization.legalEvents.suits.filings.contactEvents.textEntry.typeDescription	[string] e.g.: Legal event Text entry type to qualify the information recorded in the text entries.
organization.legalEvents.suits.filings.contactEvents.textEntry.typeDnBCode	[integer] e.g.: 1170 A unique code assigned by Dun & Bradstreet to identify the text entry type. Refer to Reference code table "27 [Information Description]" for all possible values.
organization.legalEvents.suits.filings.courtAddress	[object] The location information of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.suits.filings.courtAddress.addressCountry	[object] The details of the country of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.suits.filings.courtAddress.addressCountry.isoAlpha2Code	[string] e.g.: US The two-letter country code, defined by the International Organization for Standardization (ISO) ISO 3166-1 scheme identifying the country of the legal chambers where the hearing has taken place or will take place. Note: Please refer to Country Code Substitutions Table [/html/resources/CountryCodes.html#country-substitute] for the country code substitutions.
organization.legalEvents.suits.filings.courtAddress.addressCountry.name	[string] e.g.: United States The name of the country in which the legal chambers are located.
organization.legalEvents.suits.filings.courtAddress.addressCounty	[object] The details of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.suits.filings.courtAddress.addressCounty.name	[string] e.g.: Morris The name of a county of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.suits.filings.courtAddress.addressLocality	[object] The details of a city, town, township, village, borough, etc. of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.suits.filings.courtAddress.addressLocality.name	[string] e.g.: Short Hills The name of a city, town, township, village, borough, etc. of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.suits.filings.courtAddress.addressRegion	[object] The details of the locally governed area which forms part of a centrally governed nation to identify the legal chambers where the hearing has taken place or will take place.

organization.legalEvents.suits.filings.courtAddress.addressRegion.abbreviatedName	[string] e.g.: NJ The shortened name of the geographical area for this address of the organization. For example NJ for the US State New Jersey within Country United States.
organization.legalEvents.suits.filings.courtAddress.addressRegion.name	[string] e.g.: New Jersey The name of a locally governed area which forms part of a centrally governed nation to identify the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.suits.filings.courtAddress.continentalRegion	[object] The details of the region as defined by Dun & Bradstreet for this address.
organization.legalEvents.suits.filings.courtAddress.continentalRegion.name	[string] e.g.: North America The name of the region as defined by Dun & Bradstreet for this address.
organization.legalEvents.suits.filings.courtAddress.postalCode	[string] e.g.: 7078 An identifier used by the local country Postal Authority to identify the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.suits.filings.courtAddress.streetAddress	[object] The details such as address number, or post office box number and street name of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.suits.filings.courtAddress.streetAddress.line1	[string] e.g.: 103 JFK Pkwy The first line of the address of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.suits.filings.courtAddress.streetAddress.line2	[string] e.g.: 101 JFK Pkwy The second line of the address of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.suits.filings.courtName	[string] e.g.: Superior Court of Some State The name of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.suits.filings.courtType	[object] Records the nature of the legal body at which the legal event was heard or decreed. This may describe the area of law in which the court specializes (e.g. court of employment) or the legal seniority of the court (e.g. high court, supreme court etc.)
organization.legalEvents.suits.filings.courtType.description	[string] e.g.: County text that describes the nature of the legal body at which the legal event was heard or decreed. This may describe the area of law in which the court specializes (e.g. court of employment) or the legal seniority of the court (e.g. high court, supreme court etc.)
organization.legalEvents.suits.filings.courtType.dnbCode	[integer] e.g.: 5337 A unique code assigned by Dun & Bradstreet that describes the nature of the legal body at which the legal event was heard or decreed. This may describe the area of law in which the court specializes (e.g. court of employment) or the legal seniority of the court (e.g. high court, supreme court etc.)

	Refer to Reference code table "132 [Court Type]" for all possible values.
organization.legalEvents.suits.filings.creditorCategories	[array (object)] The different classifications of creditors to whom money is owed by the entity. The priority in which the creditors are paid is based on the assigned classification.
organization.legalEvents.suits.filings.creditorCategories.claim Amount	[object] The details of the amount owed to this category of creditors.
organization.legalEvents.suits.filings.creditorCategories.claim Amount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.suits.filings.creditorCategories.claim Amount.value	[number] e.g.: 43095 The amount owed to this category of creditors.
organization.legalEvents.suits.filings.creditorCategories.creditorType	[object] The details of the category of the creditor.
organization.legalEvents.suits.filings.creditorCategories.creditorType.description	[string] e.g.: Federal Government (US) The category of creditors indicating the priority in which they are paid relative to other categories (e.g., preferred, secured).
organization.legalEvents.suits.filings.creditorCategories.creditorType.dnbCode	[integer] e.g.: 10947 A unique code assigned by Dun & Bradstreet to identify the category of the creditors to whom money is owed by the entity. Refer to Reference code table "226 [Creditor Type]" for all possible values.
organization.legalEvents.suits.filings.dataProvider	[object] The details of the data provider.
organization.legalEvents.suits.filings.dataProvider.description	[string] e.g.: US Small Business Administration The source from which this data was originally obtained by Dun & Bradstreet.
organization.legalEvents.suits.filings.dataProvider.dnbCode	[integer] e.g.: 21238 A unique code assigned by Dun & Bradstreet to identify the source from which this data was originally obtained. Refer to Reference code table "29 [Data Provider]" for all possible values.
organization.legalEvents.suits.filings.endDate	[string] e.g.: 2017-10-31 The date indicates that the Legal Event procedure ended.
organization.legalEvents.suits.filings.endIndicator	[boolean] e.g.: false When set to "true" this indicates that the Event has ceased, i.e., this is historical information.

	When set to "false" this indicates that the Event is still outstanding or ongoing, i.e., this is current information; however as this is the assumed condition there is no requirement to create this tag to represent this fact.
organization.legalEvents.suits.filings.eventDuration	[string] e.g.: 12 months The amount of time this event lasted.
organization.legalEvents.suits.filings.filingAmount	[object] The details of the amount of relief sought by all of the plaintiffs in the suit.
organization.legalEvents.suits.filings.filingAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.suits.filings.filingAmount.value	[number] e.g.: 1000000 The total amount of relief sought by all of the plaintiffs in the suit.
organization.legalEvents.suits.filings.filingAmountComparisonType	[object] Specifies the operator that may be used as the basis of data comparisons between two values; e.g., greater than, less than, equal to. In some cases only one of two values being compared is recorded, while the other value could be derived or become available at a later date. For example, the value to be awarded must be "Less Than" the value recorded.
organization.legalEvents.suits.filings.filingAmountComparisonType.description	[string] e.g.: less than Text that specifies the operator that may be used as the basis of data comparisons between two values; e.g., greater than, less than, equal to. In some cases only one of two values being compared is recorded, while the other value could be derived or become available at a later date. For example, the value to be awarded must be "Less Than" the value recorded.
organization.legalEvents.suits.filings.filingAmountComparisonType.dnbCode	[integer] e.g.: 16804 A unique code assigned by Dun & Bradstreet that specifies the operator that may be used as the basis of data comparisons between two values; e.g., greater than, less than, equal to. In some cases only one of two values being compared is recorded, while the other value could be derived or become available at a later date. For example, the value to be awarded must be "Less Than" the value recorded. Refer to Reference code table "410 [Comparison Operator]" for all possible values.
organization.legalEvents.suits.filings.filingChapter	[string] e.g.: 11 The chapter that applies to the filing of this event.
organization.legalEvents.suits.filings.filingClass	[object] The broad class into which the Event is categorized. E.g. Bankruptcy / Insolvency, Administration / Receivership, Liquidation / Dissolution

organization.legalEvents.suits.filings.filingClass.description	[string] e.g.: Suit/Financial Judgement/Lien Text identifying the broad class into which the Event is categorized. E.g. Bankruptcy / Insolvency, Administration / Receivership, Liquidation / Dissolution
organization.legalEvents.suits.filings.filingClass.dnbCode	[integer] e.g.: 1886 A unique code assigned by Dun & Bradstreet to identify the broad class into which the Event is categorized. E.g. Bankruptcy / Insolvency, Administration / Receivership, Liquidation / Dissolution Refer to Reference code table "183 [Legal Event Class]" for all possible values.
organization.legalEvents.suits.filings.filingDate	[string] e.g.: 2017-10-30 The date on which this event took place.
organization.legalEvents.suits.filings.filingMedium	[string] e.g.: Docket The medium in which the filing is recorded.
organization.legalEvents.suits.filings.filingReference	[string] e.g.: D5QZ52TC The identifier given by a registry body to the official filed document that contains this legal event information.
organization.legalEvents.suits.filings.filingReferenceDate	[array (object)] The details of the dates relevant to a document (e.g., Date Filed, Date Published). Note: This array of dates should only be used when the user needs to know any additional dates other than the discrete date elements defined.
organization.legalEvents.suits.filings.filingReferenceDate.referenceDate	[string] e.g.: 2018-07-25 A date relating to a document that has been registered with an official body.
organization.legalEvents.suits.filings.filingReferenceDate.referenceType	[object] The details of the relevance of the date recorded.
organization.legalEvents.suits.filings.filingReferenceDate.referenceType.description	[string] e.g.: Date Filed The relevance of the date recorded.
organization.legalEvents.suits.filings.filingReferenceDate.referenceType.dnbCode	[integer] e.g.: 12137 A unique code assigned by Dun & Bradstreet to identify the relevance of the date recorded. Refer to Reference code table "322 [Filing Reference Date Type]" for all possible values.
organization.legalEvents.suits.filings.filingReferenceDate.result	[object] The details of the relevance of the date recorded.
organization.legalEvents.suits.filings.filingReferenceDate.result.description	[string] e.g.: Date Filed The relevance of the date recorded.
organization.legalEvents.suits.filings.filingReferenceDate.result.dnbCode	[integer] e.g.: 12137 A unique code assigned by Dun & Bradstreet to identify the relevance of the date recorded.

	Refer to Reference code table "322 [Filing Reference Date Type]" for all possible values.
organization.legalEvents.suits.filings.filingReferenceDate.resultDate	[string] e.g.: 2018-07-25 A date relating to a document that has been registered with an official body.
organization.legalEvents.suits.filings.filingResults	[array (object)] The details of the outcomes this Legal Event had or is having on the entity.
organization.legalEvents.suits.filings.filingResults.result	[object] The details of the outcome this event had or is having on the party involved in the event.
organization.legalEvents.suits.filings.filingResults.result.description	[string] e.g.: Settled The outcome this event had or is having on the party involved in the event (e.g., Petition Dismissed, Liquidator Appointed, Counter claim filed by the defendant in a lawsuit).
organization.legalEvents.suits.filings.filingResults.result.dnbCode	[integer] e.g.: 11466 A unique code assigned by Dun & Bradstreet that describes the outcome this event had or is having. Refer to Reference code table "86 [Event Result]" for all possible values.
organization.legalEvents.suits.filings.filingResults.resultDate	[string] e.g.: 2017-10-30 The date the outcome of the event occurred.
organization.legalEvents.suits.filings.filingResults.subsequentEvents	[array (object)] Records several different events that occur throughout the life cycle of an overriding legal event process, e.g., meeting of creditors related to a Bankruptcy process.
organization.legalEvents.suits.filings.filingResults.subsequentEvents.eventPlanDate	[string] e.g.: 2018-02-25 The date and time when the later event described by Event Result Code is expected to occur as an outcome of this event.
organization.legalEvents.suits.filings.filingResults.subsequentEvents.locationDescription	[string] e.g.: Attorney Office Text that describes the place where the later event described by filing result is expected to occur as an outcome of this event.
organization.legalEvents.suits.filings.filingSubType	[object] The details of the lower-level category of the event that has been registered or recorded against the entity.
organization.legalEvents.suits.filings.filingSubType.description	[string] e.g.: Filing of list of Creditors The lower-level category of the event that has been registered or recorded against the entity.
organization.legalEvents.suits.filings.filingSubType.dnbCode	[integer] e.g.: 21196 A unique code assigned by Dun & Bradstreet to identify the sub-type. Refer to Reference code table "112 [Legal Event Sub Type]" for all possible values.
organization.legalEvents.suits.filings.filingType	[object]

	The details of the type of event that has been registered or recorded against the entity.
organization.legalEvents.suits.filings.filingType.description	[string] e.g.: County Court Judgement The type of event that has been registered or recorded against the entity.
organization.legalEvents.suits.filings.filingType.dnbCode	[integer] e.g.: 2515 A unique code assigned by Dun & Bradstreet to identify the type of event that has been registered or recorded against the entity. Refer to Reference code table "24 [Legal Event Type]" for all possible values.
organization.legalEvents.suits.filings.financials	[object] The details of the standardized summary view of the financial results (actual or estimated) for the organization.
organization.legalEvents.suits.filings.financials.accountantName	[string] e.g.: Johnson, Jordan & Jones CPAs The name of either an individual or an accounting firm.
organization.legalEvents.suits.filings.financials.balanceSheet	[object] The details of the Latest Financials' balance sheet statement which summarizes the organization's assets, liabilities, and shareholder's equity at a specific point in time.
organization.legalEvents.suits.filings.financials.balanceSheet.assets	[object] The details of the assets on the balance sheet.
organization.legalEvents.suits.filings.financials.balanceSheet.assets.currentAssets	[object] Assets that are held for short term; raw materials that are bought, made up, sold as finished goods and eventually paid for.
organization.legalEvents.suits.filings.financials.balanceSheet.assets.currentAssets.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.suits.filings.financials.balanceSheet.assets.currentAssets.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.suits.filings.financials.balanceSheet.assets.currentAssets.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.suits.filings.financials.balanceSheet.assets.currentAssets.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.suits.filings.financials.balanceSheet.assets.currentAssets.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.

organization.legalEvents.suits.filings.financials.balanceSheet.assets.longTermAssets	[object] The details of the long-term asset items within the Latest Financials Balance Sheet i.e., items expected to be realized in more than 12 months.
organization.legalEvents.suits.filings.financials.balanceSheet.assets.longTermAssets.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.suits.filings.financials.balanceSheet.assets.longTermAssets.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.suits.filings.financials.balanceSheet.assets.longTermAssets.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.suits.filings.financials.balanceSheet.assets.longTermAssets.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.suits.filings.financials.balanceSheet.assets.longTermAssets.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.suits.filings.financials.balanceSheet.assets.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.suits.filings.financials.balanceSheet.assets.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.suits.filings.financials.balanceSheet.assets.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.suits.filings.financials.balanceSheet.assets.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.suits.filings.financials.balanceSheet.assets.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.suits.filings.financials.balanceSheet.liabilities	[object] The legal debts or obligations of a company that arise during the course of business operations. Liabilities are settled over time through the transfer of economic benefits including money, goods, or services.
organization.legalEvents.suits.filings.financials.balanceSheet.liabilities.currentLiabilities	[object] The details of the entity's total value of all obligations to pay out cash at some date in the near future.

organization.legalEvents.suits.filings.financials.balanceSheet.liabilities.currentLiabilities.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.suits.filings.financials.balanceSheet.liabilities.currentLiabilities.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.suits.filings.financials.balanceSheet.liabilities.currentLiabilities.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.suits.filings.financials.balanceSheet.liabilities.currentLiabilities.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.suits.filings.financials.balanceSheet.liabilities.currentLiabilities.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.suits.filings.financials.balanceSheet.liabilities.equity	[object] The details of the share capital/stock originally invested by shareholders/stockholders plus any reserves that have arisen, such as retained profits, that were ploughed back into the firm. Also known as Net Worth.
organization.legalEvents.suits.filings.financials.balanceSheet.liabilities.equity.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.suits.filings.financials.balanceSheet.liabilities.equity.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.suits.filings.financials.balanceSheet.liabilities.equity.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.suits.filings.financials.balanceSheet.liabilities.equity.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.suits.filings.financials.balanceSheet.liabilities.equity.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.suits.filings.financials.balanceSheet.liabilities.longTermLiabilities	[object] The details of the entity's total value of all obligations to pay out cash at some date in the future but not within one year.
organization.legalEvents.suits.filings.financials.balanceSheet.liabilities.longTermLiabilities.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.

organization.legalEvents.suits.filings.financials.balanceSheet.liabilities.longTermLiabilities.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.suits.filings.financials.balanceSheet.liabilities.longTermLiabilities.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.suits.filings.financials.balanceSheet.liabilities.longTermLiabilities.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.suits.filings.financials.balanceSheet.liabilities.longTermLiabilities.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.suits.filings.financials.balanceSheet.liabilities.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.suits.filings.financials.balanceSheet.liabilities.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.suits.filings.financials.balanceSheet.liabilities.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.suits.filings.financials.balanceSheet.liabilities.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.suits.filings.financials.balanceSheet.liabilities.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.suits.filings.financials.balanceSheet.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.suits.filings.financials.balanceSheet.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.suits.filings.financials.balanceSheet.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.suits.filings.financials.balanceSheet.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.

organization.legalEvents.suits.filings.financials.balanceSheet. statementItems.parentItemKey	[object] Records the higher level financial figure to which this item belongs to.
organization.legalEvents.suits.filings.financials.balanceSheet. statementItems.parentItemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.suits.filings.financials.balanceSheet. statementItems.parentItemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.suits.filings.financials.balanceSheet. statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.suits.filings.financials.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.suits.filings.financials.filingDate	[string] e.g.: 2018-02-01 The date when the company filed its Latest Financials' financial statement with an official registry.
organization.legalEvents.suits.filings.financials.financialState mentFromDate	[string] e.g.: 2010-03-14 The date on which the accounting period of the Latest Financials' financial statement commenced.
organization.legalEvents.suits.filings.financials.financialState mentToDate	[string] e.g.: 2016-12-31 The date associated with the financial results. When the values are from a financial statement, it represents the date the accounting period ended. When it is an estimated or modeled value, it is the date on which the data was submitted.
organization.legalEvents.suits.filings.financials.informationSco pe	[object] The details of the organizational scope of the Latest Financials' financial statement.
organization.legalEvents.suits.filings.financials.informationSco pe.description	[string] e.g.: Consolidated The organizational scope of the values within the Summary Financials section. Individual means it represents a single organization inclusive of any branches. Consolidated means it represents an organization inclusive of any branches and any subsidiaries.
organization.legalEvents.suits.filings.financials.informationSco pe.dnbCode	[integer] e.g.: 9067 A unique code assigned by Dun & Bradstreet to identify the organizational scope of the Summary Financials values. Refer to Reference code table "192 [Information Scope]" for all possible values.
organization.legalEvents.suits.filings.financials.isAudited	[boolean] e.g.: true Indicates if the Latest Financials' accounts have been reviewed by a qualified accountant independent of

	the organization and the accountant has signed the financial statement certifying it is accurate and complete.
organization.legalEvents.suits.filings.financials.isFinal	[boolean] e.g.: true Indicates whether the financial figures are for the entity's closing statement. - If true, the financial figures are for the entity's closing statement. - If false, the financial figures are not for the entity's closing statement.
organization.legalEvents.suits.filings.financials.isFiscal	[boolean] e.g.: true Indicates whether the Latest Financials' financial figures cover a full year accounting period.
organization.legalEvents.suits.filings.financials.profitAndLossStatement	[object] The details of the Latest Financials' profit and loss (P&L) statement which summarizes the revenues, costs and expenses incurred during a specified accounting period. The P&L statement is synonymous with the income statement.
organization.legalEvents.suits.filings.financials.profitAndLossStatement.notes	[string] e.g.: Representative's comments Comments made by a representative
organization.legalEvents.suits.filings.financials.profitAndLossStatement.projectedAnnualSales	[string] e.g.: Some information about projected sales Information about the projected annual sales.
organization.legalEvents.suits.filings.financials.profitAndLossStatement.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.suits.filings.financials.profitAndLossStatement.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.suits.filings.financials.profitAndLossStatement.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.suits.filings.financials.profitAndLossStatement.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.suits.filings.financials.profitAndLossStatement.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.suits.filings.financials.receivedTimestamp	[string] e.g.: 2018-04-06T16:33:21.443Z The date and time, in ISO 8601 UTC Z standard, when Dun & Bradstreet or one of Dun & Bradstreet's strategic partners received this financial statement.
organization.legalEvents.suits.filings.financials.reliability	[object]

	The details of the integrity of the figures in the Latest Financials' financial statement.
organization.legalEvents.suits.filings.financials.reliability.description	[string] e.g.: Actual The integrity of the financial figures present within the Summary Financials section (e.g., actual, estimated, or modeled).
organization.legalEvents.suits.filings.financials.reliability.dnbCode	[integer] e.g.: 9092 A unique code assigned by Dun & Bradstreet to identify the precision of the financial figures present within the Summary Financials section. Refer to Reference code table "171 [Reliability]" for all possible values.
organization.legalEvents.suits.filings.financials.units	[string] e.g.: SingleUnits The unit size (e.g., units, thousands, millions) in which the figures in the Latest Financials' financial statement are stated.
organization.legalEvents.suits.filings.hasHistoricalEvent	[boolean] e.g.: true Indicates whether the entity is associated with a historical event. - If true, the entity has been part of a historical event. - If false, the entity has not been part of a historical event.
organization.legalEvents.suits.filings.impactAmount	[object] Records the income acquired by the subject as a result of this legal event; e.g. the income acquired as a result of the sale of the subject's assets.
organization.legalEvents.suits.filings.impactAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.suits.filings.impactAmount.value	[number] e.g.: 125000.25 The monetary value for the income acquired by the subject as a result of this legal event; e.g. the income acquired as a result of the sale of the subject's assets.
organization.legalEvents.suits.filings.isStopD	[boolean] e.g.: true When set to "true" this indicates that D&B should not fabricate or supply this Legal Event in products and services. Note: One exception to this business rule is the Public Records report which would disregard this indicator setting. When set to "false" this indicates that D&B can fabricate or supply this Legal Event in products and services; however as this is the assumed condition there is no requirement to create this tag to represent this fact.
organization.legalEvents.suits.filings.jurisdictionType	[object] Describes the level of government applying the laws applicable to the event, e.g., federal, state.

organization.legalEvents.suits.filings.jurisdictionType.description	[string] e.g.: County Text that describes the level of government applying the laws applicable to the event, e.g., federal, state.
organization.legalEvents.suits.filings.jurisdictionType.dnbCode	[integer] e.g.: 14809 A unique code assigned by Dun & Bradstreet that describes the level of government applying the laws applicable to the event, e.g., federal, state. Refer to Reference code table "434 [Jurisdiction Type]" for all possible values.
organization.legalEvents.suits.filings.legalHearingDate	[string] e.g.: 2019-10-12 Records the date of a formal process associated with the Legal Event e.g. the date by which creditors' claims must be filed, the future date for the reading of a bankruptcy petition.
organization.legalEvents.suits.filings.originalFilingDate	[string] e.g.: 2017-10-30 The date of the initial filing of the event.
organization.legalEvents.suits.filings.parentBankruptcy	[object] The details of a bankruptcy filed by the parent entity.
organization.legalEvents.suits.filings.parentBankruptcy.duns	[string] e.g.: 804735132 The D-U-N-S® Number, a proprietary organizational identifier owned and managed by Dun & Bradstreet Inc, provides unique identification of a subject organization, in accordance with the Data Universal Numbering System (D-U-N-S®).
organization.legalEvents.suits.filings.priority	[string] e.g.: 5 A number that may be used to define the order in which the legal event should be presented relative to the other legal events where the lower the number the earlier the data is presented. Events within the same legal process can be identified using the priority group.
organization.legalEvents.suits.filings.priorityGroup	[string] e.g.: 2 A number that may be used to identify multiple legal events as belonging together as part of the same overall legal process. Within a group the priority may then be used to ensure that the legal events within the group are presented continuously and in the correct order.
organization.legalEvents.suits.filings.publishedDate	[string] e.g.: 2011-02-14 The date to support the recording of the Publication Date for an official document registered with an Official Body.
organization.legalEvents.suits.filings.reasons	[array (object)] The details of the underlying factor that contributed to the Legal Event.
organization.legalEvents.suits.filings.reasons.description	[string] e.g.: Voluntary Petition for Bankruptcy The underlying factor that contributed to the Legal Event (e.g., natural disaster, fraud, strategy, economic conditions, loss to creditors).
organization.legalEvents.suits.filings.reasons.dnbCode	[integer] e.g.: 12281

A unique code assigned by Dun & Bradstreet to identify the underlying factor that contributed to the Legal Event.
Refer to Reference code table "299 [Event Reason]" for all possible values.

organization.legalEvents.suits.filings.reasons.filingAmount	[object] The details of the amount of relief sought by all of the plaintiffs in the suit.
organization.legalEvents.suits.filings.reasons.filingAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.suits.filings.reasons.filingAmount.value	[number] e.g.: 1000000 The total amount of relief sought by all of the plaintiffs in the suit.
organization.legalEvents.suits.filings.receivedDate	[string] e.g.: 2017-10-30 The date when Dun & Bradstreet or one of its strategic partners received this legal event.
organization.legalEvents.suits.filings.remedyFiled	[array (object)] The details of different kinds of relief for damages, and the associated amount filed for this legal event.
organization.legalEvents.suits.filings.remedyFiled.remedyAmount	[object] The details of the amount of the remedy filed for damages for this legal event.
organization.legalEvents.suits.filings.remedyFiled.remedyAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.suits.filings.remedyFiled.remedyAmount.value	[number] e.g.: 30000 The monetary value of the remedy filed for damages for this legal event.
organization.legalEvents.suits.filings.remedyFiled.remedyType	[object] The details of the specific kind of relief for the damage sought or deemed by this legal event (e.g., Actual, Punitive, Injunction, Compensatory).
organization.legalEvents.suits.filings.remedyFiled.remedyType.description	[string] e.g.: Compensatory damage The specific kind of relief for the damage sought or deemed by this legal event (e.g., Actual, Punitive, Injunction, Compensatory).
organization.legalEvents.suits.filings.remedyFiled.remedyType.dnbCode	[integer] e.g.: 14073 A unique code assigned by Dun & Bradstreet that describes the specific kind of relief for the damage sought or deemed by this legal event. Refer to Reference code table "430 [Legal Event Remedy Type]" for all possible values.

organization.legalEvents.suits.filings.rolePlayers	[array (object)] The details of role players involved in a Legal Event as recorded in court papers and identifies the part each one plays.
organization.legalEvents.suits.filings.rolePlayers.address	[object] The details of the Primary Address at which the organization is located or conducts operations.
organization.legalEvents.suits.filings.rolePlayers.address.addressCountry	[object] The details of the country in which the role player is located.
organization.legalEvents.suits.filings.rolePlayers.address.addressCountry.isoAlpha2Code	[string] e.g.: US The two-letter country code, defined by the International Organization for Standardization (ISO) ISO 3166-1 scheme identifying the country of the role player. Note: Please refer to Country Code Substitutions Table [/html/resources/CountryCodes.html#country-substitute] for the country code substitutions.
organization.legalEvents.suits.filings.rolePlayers.address.addressCountry.name	[string] e.g.: Unites States The name of the country in which the role player is located.
organization.legalEvents.suits.filings.rolePlayers.address.addressCounty	[object] The details of the county where the business is located.
organization.legalEvents.suits.filings.rolePlayers.address.addressCounty.name	[string] e.g.: Unites States The name of the county where the business is located.
organization.legalEvents.suits.filings.rolePlayers.address.addressLocality	[object] The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.
organization.legalEvents.suits.filings.rolePlayers.address.addressLocality.name	[string] e.g.: SAN FRANCISCO The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.
organization.legalEvents.suits.filings.rolePlayers.address.addressRegion	[object] The name of the geographical area for this address of the organization. For Example New Jersey.
organization.legalEvents.suits.filings.rolePlayers.address.addressRegion.abbreviatedName	[string] e.g.: NJ The shortened name of the geographical area for this address of the organization. For example NJ for the US State New Jersey within Country United States.
organization.legalEvents.suits.filings.rolePlayers.address.addressRegion.name	[string] e.g.: California The name of the geographical area for this address of the organization. For Example New Jersey.
organization.legalEvents.suits.filings.rolePlayers.address.conti	[object]

mentalRegion	The details of the region as defined by Dun & Bradstreet for this address.
organization.legalEvents.suits.filings.rolePlayers.address.continentalRegion.name	[string] e.g.: North America The name of the region as defined by Dun & Bradstreet for this address (e.g., Africa, Europe, Middle East).
organization.legalEvents.suits.filings.rolePlayers.address.postalCode	[string] e.g.: 941109999 The postal code for this address of the organization. Also known locally in various English-speaking countries throughout the world as a postcode, post code, Eircode, PIN or ZIP Code) is a series of letters or digits or both, sometimes including spaces or punctuation, included in a postal address for the purpose of sorting mail. The code is used by the country's postal authority to identify the address where the organization is located or conducts operations .
organization.legalEvents.suits.filings.rolePlayers.address.streetAddress	[object] The details of the street address for this address of the organization.
organization.legalEvents.suits.filings.rolePlayers.address.streetAddress.line1	[string] e.g.: 492 KOLLER ST The first line of the address where the entity is located. The first line of this address of the organization. For example The Point in the address The Point 37 North Wharf Road London W2 1AF
organization.legalEvents.suits.filings.rolePlayers.address.streetAddress.line2	[string] e.g.: Suite 100 The second line of this address of the organization. For example 37 North Wharf Road in the address The Point 37 North Wharf Road London W2 1AF
organization.legalEvents.suits.filings.rolePlayers.creditorCategories	[array (object)] Records several different classifications for this creditor who claims that the subject owes money. The priority in which the claimants are paid is based on the classification to which they belong.
organization.legalEvents.suits.filings.rolePlayers.creditorCategories.claimAmount	[object] Details of the monetary value owed to the category of this creditor recorded in Creditor Type.
organization.legalEvents.suits.filings.rolePlayers.creditorCategories.claimAmount.currency	[string] e.g.: USD The currency of the monetary value owed to the category of this creditor recorded in Creditor Type.
organization.legalEvents.suits.filings.rolePlayers.creditorCategories.claimAmount.value	[number] e.g.: 1485795.25

ories.claimAmount.value	The monetary value owed to the category of this creditor recorded in Creditor Type.
organization.legalEvents.suits.filings.rolePlayers.creditorCategories.creditorType	[object] The category of this creditor to which the subject owes money, with respect to their priority of being paid relative to other creditor categories; e.g., preferred, secured, where preferred creditors have priority over secured creditors.
organization.legalEvents.suits.filings.rolePlayers.creditorCategories.creditorType.description	[string] e.g.: Secured Text that identifies the category of this creditor to which the subject owes money, with respect to their priority of being paid relative to other creditor categories; e.g., preferred, secured, where preferred creditors have priority over secured creditors.
organization.legalEvents.suits.filings.rolePlayers.creditorCategories.creditorType.dnbCode	[integer] e.g.: 15573 A unique code assigned by Dun & Bradstreet that specifies the category of this creditor to which the subject owes money, with respect to their priority of being paid relative to other creditor categories; e.g., preferred, secured, where preferred creditors have priority over secured creditors. Refer to Reference code table "401 [Creditor Type]" for all possible values.
organization.legalEvents.suits.filings.rolePlayers.duns	[string] e.g.: 804735132 The D-U-N-S® Number, a proprietary organizational identifier owned and managed by Dun & Bradstreet Inc, provides unique identification of a subject organization, in accordance with the Data Universal Numbering System (D-U-N-S®).
organization.legalEvents.suits.filings.rolePlayers.employerName	[string] e.g.: Dun & Bradstreet The name of the subject that employs the party involved in this event.
organization.legalEvents.suits.filings.rolePlayers.filingAmount	[object] The details of the monetary value associated with a court action for this party involved in the event.
organization.legalEvents.suits.filings.rolePlayers.filingAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.suits.filings.rolePlayers.filingAmount.value	[number] e.g.: 100000 The monetary value associated with a court action for this party involved in the event.
organization.legalEvents.suits.filings.rolePlayers.filingAmount.ComparisonType	[object] Specifies the operator that may be used as the basis of data comparisons between two values; e.g., greater than, less than, equal to. In some cases only one of two values being compared is recorded, while the other value could be derived or become available at a later date. For example, the value to be awarded must be "Less Than" the value recorded.
organization.legalEvents.suits.filings.rolePlayers.filingAmount.ComparisonType.description	[string] e.g.: less than Text that specifies the operator that may be used as the basis of data comparisons between two values;

	e.g., greater than, less than, equal to. In some cases only one of two values being compared is recorded, while the other value could be derived or become available at a later date. For example, the value to be awarded must be "Less Than" the value recorded.
organization.legalEvents.suits.filings.rolePlayers.filingAmount ComparisonType.dnbCode	[integer] e.g.: 16804 A unique code assigned by Dun & Bradstreet that specifies the operator that may be used as the basis of data comparisons between two values; e.g., greater than, less than, equal to. In some cases only one of two values being compared is recorded, while the other value could be derived or become available at a later date. For example, the value to be awarded must be "Less Than" the value recorded. Refer to Reference code table "410 [Comparison Operator]" for all possible values.
organization.legalEvents.suits.filings.rolePlayers.filingResults	[array (object)] Describes all outcomes involving this Role Player from this Legal Event; e.g., Counter claim filed by the defendant in a lawsuit.
organization.legalEvents.suits.filings.rolePlayers.filingResults.filingAmount	[object] The details of the monetary value associated with a court action for this party involved in the event.
organization.legalEvents.suits.filings.rolePlayers.filingResults.filingAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.suits.filings.rolePlayers.filingResults.filingAmount.value	[number] e.g.: 100000 The monetary value associated with a court action for this party involved in the event.
organization.legalEvents.suits.filings.rolePlayers.filingResults.result	[object] Describes an outcome involving this Role Player from this Legal Event; e.g., Counter claim filed by the defendant in a lawsuit.
organization.legalEvents.suits.filings.rolePlayers.filingResults.result.description	[string] e.g.: Closed Text that describes an outcome involving this Role Player from this Legal Event; e.g., Counter claim filed by the defendant in a lawsuit.
organization.legalEvents.suits.filings.rolePlayers.filingResults.result.dnbCode	[integer] e.g.: 11468 A unique code assigned by Dun & Bradstreet that describes an outcome involving this Role Player from this Legal Event; e.g., Counter claim filed by the defendant in a lawsuit. Refer to Reference code table "86 [Event Result]" for all possible values.
organization.legalEvents.suits.filings.rolePlayers.filingResults.resultDate	[string] e.g.: 2012-05-30 The date when the outcome recorded in Event Result Code occurred.
organization.legalEvents.suits.filings.rolePlayers.name	[string] e.g.: Some Vendor The name of the party involved in this event as it was filed.

organization.legalEvents.suits.filings.rolePlayers.operatingStatus	[object] The details of the high level categorization of the organization's functional state or trading status.
organization.legalEvents.suits.filings.rolePlayers.operatingStatus.description	[string] e.g.: Active Textual description of the organization's functional state or trading status. Possible values: [9074] Active [403] Out of Business
organization.legalEvents.suits.filings.rolePlayers.operatingStatus.dnbCode	[integer] e.g.: 9074 A unique code assigned by Dun & Bradstreet to identify the organization's functional state or trading status. Possible values: 9074 [Active] 403 [Out of Business] Refer to Reference code table "166 [Operating Status]" for all possible values.
organization.legalEvents.suits.filings.rolePlayers.positions	[array (object)] The details of the job positions the role player holds or has held in the entity.
organization.legalEvents.suits.filings.rolePlayers.positions.description	[string] e.g.: Sales consultant The job position the role player holds or has held in the organization (e.g., Financial Director, Sales Director, Operations Manager).
organization.legalEvents.suits.filings.rolePlayers.positions.dnbCode	[integer] e.g.: 28802 A unique code assigned by Dun & Bradstreet that denotes the job position the role player holds or has held in the entity. Refer to Reference code table "5 [Position] & 198 [Employee Position]" for all possible values.
organization.legalEvents.suits.filings.rolePlayers.reasons	[array (object)] Records various underlying factors involving this Role Player, that contributed to the Legal Event.
organization.legalEvents.suits.filings.rolePlayers.reasons.description	[string] e.g.: Goodwill Text describing an underlying factor involving this Role player that contributed to the Legal Event; e.g., fraud, racism, strategy, anti-trust violation.
organization.legalEvents.suits.filings.rolePlayers.reasons.dnbCode	[integer] e.g.: 15629 A unique code assigned by Dun & Bradstreet describing an underlying factor involving this Role player that contributed to the Legal Event; e.g., fraud, racism, strategy, anti-trust violation. Refer to Reference code table "299 [Event Reason]" for all possible values.
organization.legalEvents.suits.filings.rolePlayers.registrationNumbers	[array (object)] The details of the numbers assigned by an external body or by Dun & Bradstreet that either uniquely identifies or helps to identify an entity.

organization.legalEvents.suits.filings.rolePlayers.registrationNumbers.registrationNumber	[string] e.g.: 12-3456789 The number or alphanumeric value assigned by a recognized external authority that either uniquely identifies or helps to identify the organization.
organization.legalEvents.suits.filings.rolePlayers.registrationNumbers.typeDescription	[string] e.g.: Federal Taxpayer Identification Number (US) The official name of the organization identifier assigned by a recognized external authority (e.g.. Australian Company Number, Federal Taxpayer Identification Number, Value Added Tax Number).
organization.legalEvents.suits.filings.rolePlayers.registrationNumbers.typeDnBCode	[integer] e.g.: 6863 A unique code assigned by Dun & Bradstreet to identify the type of organization registration number. For example, 2541 stands for company number issued by the UK Companies House. Refer to Reference code table "7 [Registration Number Type]" for all possible values.
organization.legalEvents.suits.filings.rolePlayers.remedyFiled	[array (object)] Records details on several different kinds of relief for damages along with the associated amount filed for this legal event; e.g., for U.S. suits - the remedies sought by the plaintiff(s), for U.S. judgments - the remedies deemed by the court.
organization.legalEvents.suits.filings.rolePlayers.remedyFiled.remedyType	[object] text that describes the specific kind of relief for the damage sought or deemed by this legal event; e.g., Actual, Punitive, Injunction, Compensatory.
organization.legalEvents.suits.filings.rolePlayers.remedyFiled.remedyType.description	[string] e.g.: Damages A unique code assigned by Dun & Bradstreet that describes the specific kind of relief for the damage sought or deemed by this legal event; e.g., Actual, Punitive, Injunction, Compensatory.
organization.legalEvents.suits.filings.rolePlayers.remedyFiled.remedyType.dnbCode	[integer] e.g.: 14701 A unique code assigned by Dun & Bradstreet that describes the specific kind of relief for the damage sought or deemed by this legal event; e.g., Actual, Punitive, Injunction, Compensatory. Refer to Reference code table "430 [Legal Event Remedy Type]" for all possible values.
organization.legalEvents.suits.filings.rolePlayers.rolePlayerType	[object] The details of the role player's function in the event.
organization.legalEvents.suits.filings.rolePlayers.rolePlayerType.description	[string] e.g.: Shareholder The function played by this party in the event (e.g., debtor, creditor, liquidator, shareholder, court, plaintiff, defendant).
organization.legalEvents.suits.filings.rolePlayers.rolePlayerType.dnbCode	[integer] e.g.: 302 A unique code assigned by Dun & Bradstreet to identify the function played by this party in the event. Refer to Reference code table "10 [Role Player Type]" for all possible values.
organization.legalEvents.suits.filings.rolePlayers.standardRating	[object] The most current Standard Dun & Bradstreet Standard Rating assigned to this entity.

organization.legalEvents.suits.filings.rolePlayers.standardRating.financialStrength	<p>[string] e.g.: 3A</p> <p>The overall size of the entity from a financial perspective. It may be based on the net worth or issued capital of the entity; the higher the amount, the larger the entity is considered to be.</p>
organization.legalEvents.suits.filings.rolePlayers.standardRating.riskSegment	<p>[string] e.g.: 4</p> <p>Creditworthiness of the entity in terms of its overall financial condition or risk to creditors.</p>
organization.legalEvents.suits.filings.rolePlayers.standardRating.scoreDate	<p>[string] e.g.: 2010-03-14</p> <p>The date when the score was assigned or last changed. Scores are continuously monitored and recalculated as any input variables changes. In the event that the score could not be assigned on the entity, this is the date when the reason was recorded explaining why the score was not assigned. Format: YYYY-MM-DD or YYYY-MM.</p> <p>Note: In some markets, the date is not changed unless there is a score change in order to avoid unnecessary notifications. But in others, the score date changes even though the score does not change after the market recalculates the score.</p>
organization.legalEvents.suits.filings.rolePlayers.startDate	<p>[string] e.g.: 2017-10-30</p> <p>The date when the role player originally started its business activities.</p>
organization.legalEvents.suits.filings.rolePlayers.telephone	<p>[array (object)]</p> <p>The details of the Telephone contact information used for voice communication with the organization.</p>
organization.legalEvents.suits.filings.rolePlayers.telephone.isdCode	<p>[string] e.g.: 1</p> <p>A series of numbers that must be prefixed before dialing a telephone number in another Country, it is comprised of an International Dialing Prefix followed by the Country Code. These are also referred to as Country Calling Code or Country Dial-In Code.</p>
organization.legalEvents.suits.filings.rolePlayers.telephone.isUnreachable	<p>[boolean] e.g.: false</p> <p>Indicates whether the telephone number can be connected to successfully.</p> <ul style="list-style-type: none"> - If true, connection to the telephone number is unsuccessful. - If false, connection to the telephone number is successful.
organization.legalEvents.suits.filings.rolePlayers.telephone.telephoneNumber	<p>[string] e.g.: 6505550000</p> <p>The primary voice telephone number for the business, when dialing domestically. The National Telephone Number is created by combining the Domestic Area Code and the Local Number.</p> <p>A Domestic Area Code is a series of numbers that must be prefixed before dialing a telephone number in another local area. National telecommunication authorities use various formats and dialing rules for area codes. Also known as City Code.</p> <p>A Local Number is a series of numbers that represents a specific telephone line.</p>

organization.legalEvents.suits.filings.rolePlayers.textEntry	[array (object)] The details of data elements regarding the legal event filing which cannot be recorded in the other fields.
organization.legalEvents.suits.filings.rolePlayers.textEntry.priority	[integer] e.g.: 1 A number that may be used to define the order in which this text entry should be presented relative to other occurrences of text entries where the lower the number the earlier the data is presented.
organization.legalEvents.suits.filings.rolePlayers.textEntry.text	[string] e.g.: Some text obtained from contact Text that has been recorded.
organization.legalEvents.suits.filings.rolePlayers.textEntry.typeDescription	[string] e.g.: Legal event Text entry type to qualify the information recorded in the text entries.
organization.legalEvents.suits.filings.rolePlayers.textEntry.typeDnBCode	[integer] e.g.: 1170 A unique code assigned by Dun & Bradstreet to identify the text entry type. Refer to Reference code table "27 [Information Description]" for all possible values.
organization.legalEvents.suits.filings.startDate	[string] e.g.: 2016-09-30 The date on or before which the event took place.
organization.legalEvents.suits.filings.status	[object] The details of the most recent situation for the legal event.
organization.legalEvents.suits.filings.status.description	[string] e.g.: Open The most recent situation for the legal event (e.g., pending, unsatisfied).
organization.legalEvents.suits.filings.status.dnbCode	[integer] e.g.: 11477 A unique code assigned by Dun & Bradstreet to identify the most recent situation for the legal event. Refer to Reference code table "82 [Event Status]" for all possible values.
organization.legalEvents.suits.filings.statusDate	[string] e.g.: 2017-12-15 The date when the situation changed.
organization.legalEvents.suits.filings.textEntry	[array (object)] The details of data elements regarding the legal event filing which cannot be recorded in the other fields.
organization.legalEvents.suits.filings.textEntry.priority	[integer] e.g.: 1 A number that may be used to define the order in which this text entry should be presented relative to other occurrences of text entries where the lower the number the earlier the data is presented.
organization.legalEvents.suits.filings.textEntry.text	[string] e.g.: Some text obtained from contact Text that has been recorded.
organization.legalEvents.suits.filings.textEntry.typeDescription	[string] e.g.: Legal event Text entry type to qualify the information recorded in the text entries.

organization.legalEvents.suits.filings.textEntry.typeDnBCode	[integer] e.g.: 1170 A unique code assigned by Dun & Bradstreet to identify the text entry type. Refer to Reference code table "27 [Information Description]" for all possible values.
organization.legalEvents.suits.filings.textEntry.language	[object] Records the language in which this information is presented.
organization.legalEvents.suits.filings.textEntry.language.description	[string] e.g.: English Textual value denoting the language in which this information is recorded.
organization.legalEvents.suits.filings.textEntry.language.dnbCode	[integer] e.g.: 39 A unique code assigned by Dun & Bradstreet that denotes the language in which this information is recorded. Refer to Reference code table "3 [Language]" for all possible values.
organization.legalEvents.suits.filings.verifiedDate	[string] e.g.: 2017-10-30 The date Dun & Bradstreet reviewed the reported content of the Legal Event to ensure accuracy.
organization.legalEvents.liens	[object] The details about the legal right of a creditor to retain possession of a property from its owner pending payment of a debt or performance of some agreed-upon obligation.
organization.legalEvents.liens.mostRecentFilingDate	[string] e.g.: 2017-10-31 The date of the most recent event of this event type.
organization.legalEvents.liens.openCount	[integer] e.g.: 12 The number of filings that are in open status.
organization.legalEvents.liens.openAmount	[object] The details of the monetary value involved in the total open events of this event type.
organization.legalEvents.liens.openAmount.value	[number] e.g.: 123456789 The monetary value involved in the total open events of this event type.
organization.legalEvents.liens.openAmount.currency	[string] e.g.: USD The currency of the monetary value involved in the total open events of this event type, expressed in ISO Alpha3 code format.
organization.legalEvents.liens.periodSummary	[object] Records summarized information on several decisions made by a court that involved this subject as recorded on the D&B database in different time periods.
organization.legalEvents.liens.periodSummary.12Months	[object] Records summarized information on several decisions made by a court that involved this subject as recorded on the D&B database in last 12 months.

organization.legalEvents.liens.periodSummary.12Months.total Count	[integer] e.g.: 0 The number of liens recorded on this subject in the last 12 months.
organization.legalEvents.liens.periodSummary.12Months.total Amount	[object] Records details on the monetary value of liens recorded on this subject in the last 12 months.
organization.legalEvents.liens.periodSummary.12Months.total Amount.value	[number] e.g.: 601 The monetary value of liens recorded on this subject in the last 12 months.
organization.legalEvents.liens.periodSummary.12Months.total Amount.currency	[string] e.g.: USD The currency of the monetary value of liens recorded on this subject in the last 12 months, expressed in ISO Alpha3 code format.
organization.legalEvents.liens.filings	[array (object)] The details of the information on the legal right of a creditor to retain possession of a property from its owner pending payment of a debt or performance of some agreed-upon obligation.
organization.legalEvents.liens.filings.activities	[array (object)] The activities that have taken place in pursuit of the claim.
organization.legalEvents.liens.filings.activities.activityDate	[string] e.g.: 2016-02-18 The date of an activity that has taken place in pursuit of the claim.
organization.legalEvents.liens.filings.activities.description	[string] e.g.: Actual The description of the legal process in which an entity declares inability to pay its debts.
organization.legalEvents.liens.filings.actualLegalHearingDate	[string] e.g.: 2019-10-12 Records the date on which the formal process associated with the Legal Event occurred; e.g., the date on which creditors filed claims, the date on which a bankruptcy petition was read, the date on which a trial hearing took place.
organization.legalEvents.liens.filings.assetClass	[array (object)] Records details of different groups of assets which are impacted by this Legal Event.
organization.legalEvents.liens.filings.assetClass.description	[string] e.g.: Property Text that describes the class of asset at a high level, e.g. Vehicles.
organization.legalEvents.liens.filings.assetClass.dnbCode	[integer] e.g.: 15616 A unique code assigned by Dun & Bradstreet that describes the class of asset at a high level, e.g. Vehicles. Refer to Reference code table "66 [Asset Class]" for all possible values.
organization.legalEvents.liens.filings.awardedAmount	[object] The details of the amount associated with a decision made by a court.

organization.legalEvents.liens.filings.awardedAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.liens.filings.awardedAmount.value	[number] e.g.: 1000000 The monetary value associated with a decision made by a court.
organization.legalEvents.liens.filings.collaterals	[array (object)] The details of the different types of assets used by the entity as security for this event.
organization.legalEvents.liens.filings.collaterals.collateralDetails	[array (object)] Records information about an individual item/asset that the subject has used as security for this Financing Event.
organization.legalEvents.liens.filings.collaterals.collateralDetails.isUsed	[boolean] e.g.: true When set to "true", this identifies that the collateral asset owned by the Subject is no longer considered a brand new item. When set to "false", this identifies that the collateral asset owned by the Subject is considered a brand new item.
organization.legalEvents.liens.filings.collaterals.collateralDetails.manufacturedYear	[string] e.g.: 2001 The year in which the construction of the item; e.g., a ship, was completed.
organization.legalEvents.liens.filings.collaterals.collateralDetails.manufactureName	[string] e.g.: Ford Motors The name of the business that built the item being held as collateral in a business transaction.
organization.legalEvents.liens.filings.collaterals.collateralDetails.modelName	[string] e.g.: Mustang An alphanumeric name assigned by the manufacturer to the asset; e.g., Mustang, RX8, Pavilion, T60, 747.
organization.legalEvents.liens.filings.collaterals.collateralDetails.modelYear	[string] e.g.: 2002 The year that the manufacturer assigned to the model based on the expected release of the model to the public.
organization.legalEvents.liens.filings.collaterals.collateralDetails.serialNumber	[string] e.g.: VX1234 A reference number or text assigned by the manufacturer for uniquely identifying the manufactured item.
organization.legalEvents.liens.filings.collaterals.collateralDetails.textEntry	[array (object)] Records multiple textual descriptions, language and nature of textual Collateral Details data for this Financing Event that cannot be recorded in the defined fields.
organization.legalEvents.liens.filings.collaterals.collateralDetails.textEntry.priority	[integer] e.g.: 1 A number which may be used to identify multiple occurrences of Text Entry as belonging together as part of the same block of text. Within a group the Display Sequence may then be used to ensure that the Text Entry occurrences within the group are presented in the correct order.

organization.legalEvents.liens.filings.collaterals.collateralDetails.textEntry.text	[string] e.g.: Company vehicle A textual description of a collateral associated with the Financing Event which cannot be recorded in any of the defined elements.
organization.legalEvents.liens.filings.collaterals.collateralDetails.textEntry.typeDescription	[string] e.g.: Financial Statement Additional Note Text Text which describes the type of Text; e.g., the title of the party associated with the Financing Event.
organization.legalEvents.liens.filings.collaterals.collateralDetails.textEntry.typeDnBCode	[integer] e.g.: 23916 A unique code assigned by Dun & Bradstreet which describes the type of Text; e.g., the title of the party associated with the Financing Event. Refer to Reference code table "27 [Information Description]" for all possible values.
organization.legalEvents.liens.filings.collaterals.collateralSupplementalItems	[array (object)] Records kinds of supplemental items, (e.g., Products, Proceeds), that are included as security along with the identified collateral for the given Collateral Type.
organization.legalEvents.liens.filings.collaterals.collateralSupplementalItems.description	[string] e.g.: Proceeds Text that specifies the kind of supplemental items, (e.g., Products, Proceeds), that are included as security along with the identified collateral item for the given Collateral Type. The items in this example are produced as output of the asset (e.g., manufacturing plant) that the subject is using for collateral.
organization.legalEvents.liens.filings.collaterals.collateralSupplementalItems.dnbCode	[integer] e.g.: 11290 A unique code assigned by Dun & Bradstreet that specifies the kind of supplemental items, (e.g., Products, Proceeds), that are included as security along with the identified collateral item for the given Collateral Type. The items in this example are produced as output of the asset (e.g., manufacturing plant) that the subject is using for collateral. Refer to Reference code table "268 [Collateral Supplemental Item Type]" for all possible values.
organization.legalEvents.liens.filings.collaterals.itemQuantity	[integer] e.g.: 25 The number of assets that the subject is using as collateral for the particular Collateral Type.
organization.legalEvents.liens.filings.collaterals.quantity	[integer] e.g.: 15 The number of assets that the subject is using as collateral for the particular collateral type.
organization.legalEvents.liens.filings.collaterals.scope	[object] Records the scope of the assets used by a debtor as security as recorded in the Financing Event; e.g., All items for the Collateral Type are included, only the items that are leased for the Collateral Type are included
organization.legalEvents.liens.filings.collaterals.scope.description	[string] e.g.: Leased Text that indicates the scope of the assets used by a debtor as security as recorded in the Financing Event; e.g., All items for the Collateral Type are included, only the items that are leased for the Collateral Type are included
organization.legalEvents.liens.filings.collaterals.scope.dnbCode	[integer] e.g.: 11288

e	A unique code assigned by Dun & Bradstreet which indicates the scope of the assets used by a debtor as security as recorded in the Financing Event; e.g., All items for the Collateral Type are included, only the items that are leased for the Collateral Type are included Refer to Reference code table "267 [Collateral Scope]" for all possible values.
organization.legalEvents.liens.filings.collaterals.supplementalItems	[array (object)] Records the kinds of supplemental items, (e.g., Products, Proceeds), that are included as security along with the identified collateral for the given collateral type.
organization.legalEvents.liens.filings.collaterals.supplementalItems.description	[string] e.g.: Products Text which describes the kinds of supplemental items, (e.g., Products, Proceeds), that are included as security along with the identified collateral for the given collateral type.
organization.legalEvents.liens.filings.collaterals.supplementalItems.dnbCode	[integer] e.g.: 11289 A unique code assigned by Dun & Bradstreet which describes the kinds of supplemental items, (e.g., Products, Proceeds), that are included as security along with the identified collateral for the given collateral type. Refer to Reference code table "268 [Collateral Supplemental Item Type]" for all possible values.
organization.legalEvents.liens.filings.collaterals.textEntry	[array (object)] Records the textual description, language and nature of collateral type information.
organization.legalEvents.liens.filings.collaterals.textEntry.text	[string] e.g.: Vehicles Free form textual description, language and nature of collateral type information.
organization.legalEvents.liens.filings.collaterals.textEntry.typeDescription	[string] e.g.: Financial Statement Additional Note Text Text that describes the type of textual description, language and nature of collateral type information.
organization.legalEvents.liens.filings.collaterals.textEntry.typeDnbCode	[integer] e.g.: 23916 A unique code assigned by Dun & Bradstreet describing the type of textual description, language and nature of collateral type information. Refer to Reference code table "27 [Information Description]" for all possible values.
organization.legalEvents.liens.filings.collateralScopeType	[object] Records the scope of the assets used by a debtor as security as recorded in the Financing Event; e.g., All items for the Collateral Type are included, only the items that are leased for the Collateral Type are included
organization.legalEvents.liens.filings.collateralScopeType.description	[string] e.g.: Leased Text which indicates the scope of the assets used by a debtor as security as recorded in the Financing Event; e.g., All items for the Collateral Type are included, only the items that are leased for the Collateral Type are included
organization.legalEvents.liens.filings.collateralScopeType.dnbCode	[integer] e.g.: 11288 A unique code assigned by Dun & Bradstreet which indicates the scope of the assets used by a debtor as

	security as recorded in the Financing Event; e.g., All items for the Collateral Type are included, only the items that are leased for the Collateral Type are included Refer to Reference code table "267 [Collateral Scope]" for all possible values.
organization.legalEvents.liens.filings.contactEvents	[array (object)] The details on communications Dun & Bradstreet had with persons to get information on this event.
organization.legalEvents.liens.filings.contactEvents.address	[object] The details of the address used by the entity for mailing purposes.
organization.legalEvents.liens.filings.contactEvents.address.addressCountry	[object] The details of the country or region for this address of the organization.
organization.legalEvents.liens.filings.contactEvents.address.addressCountry.isoAlpha2Code	[string] e.g.: US The 2 letter alpha country code assigned by the International Organization for Standardization (ISO) identifying the Country/Region for this address of the organization. Note: Please refer to Country Code Substitutions Table [/html/resources/CountryCodes.html#country-substitute] for the country code substitutions.
organization.legalEvents.liens.filings.contactEvents.comments	[array (object)] Records notes from the contact providing further information regarding the subject's event.
organization.legalEvents.liens.filings.contactEvents.comments.description	[string] e.g.: Financing Statement was assigned Text that expresses a note collected from this contact providing further information about this event.
organization.legalEvents.liens.filings.contactEvents.comments.dnbCode	[integer] e.g.: 14767 A unique code assigned by Dun & Bradstreet that expresses a note collected from this contact providing further information about this event. Refer to Reference code table "429 [Event Comment]" for all possible values.
organization.legalEvents.liens.filings.contactEvents.contactDate	[string] e.g.: 2017-11-25 The date when the communication took place.
organization.legalEvents.liens.filings.contactEvents.duns	[string] e.g.: 804735132 The D-U-N-S® Number, a proprietary organizational identifier owned and managed by Dun & Bradstreet Inc, provides unique identification of a subject organization, in accordance with the Data Universal Numbering System (D-U-N-S®).
organization.legalEvents.liens.filings.contactEvents.name	[string] e.g.: John Smith The name of the contact which may be either an individual or an entity.
organization.legalEvents.liens.filings.contactEvents.nonSpecificSource	[object] The details, in general terms, about the supplier of the Financial Statement.

organization.legalEvents.liens.filings.contactEvents.nonSpecificSource.description	[string] e.g.: Trustee Describes the supplier of the Financial Statement (e.g., Official Registry, Accountant, the Subject).
organization.legalEvents.liens.filings.contactEvents.nonSpecificSource.dnbCode	[integer] e.g.: 15735 A unique code assigned by Dun & Bradstreet to identify, in general terms, the supplier from which this data was originally obtained by Dun & Bradstreet. Refer to Reference code table "35 [Role Player Type Non-Specific]" for all possible values.
organization.legalEvents.liens.filings.contactEvents.organizationName	[string] e.g.: ABC Corp The name of the contact, when this is a company.
organization.legalEvents.liens.filings.contactEvents.positions	[array (object)] The details on the job position the principal or manager holds or has held in the entity.
organization.legalEvents.liens.filings.contactEvents.positions.description	[string] e.g.: Chairman Executive Committee The job position the principal or manager holds or has held in the entity (e.g., Financial Director, Managing Director, Sales Director, Operations Manager).
organization.legalEvents.liens.filings.contactEvents.positions.dnbCode	[integer] e.g.: 95 A unique code assigned by Dun & Bradstreet to identify the job position the principal or manager holds or has held in the entity. Refer to Reference code table "5 [Position] & 198 [Employee Position]" for all possible values.
organization.legalEvents.liens.filings.contactEvents.positions.jobTitles	[array (object)] Records several different Vanity Titles for the person with whom D&B had contact to get information on this event.
organization.legalEvents.liens.filings.contactEvents.positions.jobTitles.title	[string] e.g.: Senior Director of Finance A textual presentation of the position as preferred by the person with whom D&B had contact to get information on this event, e.g., Position Code might equate to Financial Director, however, the Vanity Title might be 'Senior Director of Finance'.
organization.legalEvents.liens.filings.contactEvents.positions.positionClass	[object] The details that define the class of the position.
organization.legalEvents.liens.filings.contactEvents.positions.positionClass.description	[string] e.g.: Chairman Executive Committee The job position the principal or manager holds or has held in the entity (e.g., Financial Director, Managing Director, Sales Director, Operations Manager).
organization.legalEvents.liens.filings.contactEvents.positions.positionClass.dnbCode	[integer] e.g.: 95 A unique code assigned by Dun & Bradstreet to identify the job position the principal or manager holds or has held in the entity. Refer to Reference code table "5 [Position] & 198 [Employee Position]" for all possible values.
organization.legalEvents.liens.filings.contactEvents.positions	[object]

positionStanding	Details of the capacity or standing in which the individual holds this specific position.
organization.legalEvents.liens.filings.contactEvents.positions.positionStanding.description	[string] e.g.: Acting The capacity or standing in which the individual holds this specific position.
organization.legalEvents.liens.filings.contactEvents.positions.positionStanding.dnbCode	[integer] e.g.: 336 A unique code assigned by Dun & Bradstreet to identify the capacity in which the position is held. Refer to Reference code table "195 [Position Standing]" for all possible values.
organization.legalEvents.liens.filings.contactEvents.positions.priority	[integer] e.g.: 1 A number that may be used to define the order in which the Position should be presented relative to any other occurrences of Position where lower the number the earlier the data is presented.
organization.legalEvents.liens.filings.contactEvents.positions.startDate	[string] e.g.: 2017-08-23 The date when the principal or manager was appointed to this position. This is not necessarily the date when the principal or manager was first employed by the subject; it is the date when they moved to this position.
organization.legalEvents.liens.filings.contactEvents.results	[array (object)] The details of the outcomes this Legal Event had or is having on the entity.
organization.legalEvents.liens.filings.contactEvents.results.result	[object] The details of the outcome this event had or is having on the party involved in the event.
organization.legalEvents.liens.filings.contactEvents.results.result.description	[string] e.g.: Settled The outcome this event had or is having on the party involved in the event (e.g., Petition Dismissed, Liquidator Appointed, Counter claim filed by the defendant in a lawsuit).
organization.legalEvents.liens.filings.contactEvents.results.result.dnbCode	[integer] e.g.: 11466 A unique code assigned by Dun & Bradstreet that describes the outcome this event had or is having. Refer to Reference code table "86 [Event Result]" for all possible values.
organization.legalEvents.liens.filings.contactEvents.results.resultDate	[string] e.g.: 2017-10-30 The date the outcome of the event occurred.
organization.legalEvents.liens.filings.contactEvents.rolePlayers	[array (object)] The details of role players involved in a Legal Event as recorded in court papers and identifies the part each one plays.
organization.legalEvents.liens.filings.contactEvents.rolePlayers.rolePlayerType	[object] The details of the role player's function in the event.
organization.legalEvents.liens.filings.contactEvents.rolePlayers.rolePlayerType.description	[string] e.g.: Shareholder The function played by this party in the event (e.g., debtor, creditor, liquidator, shareholder, court, plaintiff, defendant).

organization.legalEvents.liens.filings.contactEvents.rolePlayerType.dnbCode	[integer] e.g.: 302 A unique code assigned by Dun & Bradstreet to identify the function played by this party in the event. Refer to Reference code table "10 [Role Player Type]" for all possible values.
organization.legalEvents.liens.filings.contactEvents.textEntry	[array (object)] The details of data elements regarding the legal event filing which cannot be recorded in the other fields.
organization.legalEvents.liens.filings.contactEvents.textEntry.priority	[integer] e.g.: 1 A number that may be used to define the order in which this text entry should be presented relative to other occurrences of text entries where the lower the number the earlier the data is presented.
organization.legalEvents.liens.filings.contactEvents.textEntry.text	[string] e.g.: Some text obtained from contact Text that has been recorded.
organization.legalEvents.liens.filings.contactEvents.textEntry.typeDescription	[string] e.g.: Legal event Text entry type to qualify the information recorded in the text entries.
organization.legalEvents.liens.filings.contactEvents.textEntry.typeDnbCode	[integer] e.g.: 1170 A unique code assigned by Dun & Bradstreet to identify the text entry type. Refer to Reference code table "27 [Information Description]" for all possible values.
organization.legalEvents.liens.filings.courtAddress	[object] The location information of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.liens.filings.courtAddress.addressCountry	[object] The details of the country of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.liens.filings.courtAddress.addressCountry.isoAlpha2Code	[string] e.g.: US The two-letter country code, defined by the International Organization for Standardization (ISO) ISO 3166-1 scheme identifying the country of the legal chambers where the hearing has taken place or will take place. Note: Please refer to Country Code Substitutions Table [/html/resources/CountryCodes.html#country-substitute] for the country code substitutions.
organization.legalEvents.liens.filings.courtAddress.addressCountry.name	[string] e.g.: United States The name of the country in which the legal chambers are located.
organization.legalEvents.liens.filings.courtAddress.addressCounty	[object] The details of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.liens.filings.courtAddress.addressCounty.name	[string] e.g.: Morris The name of a county of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.liens.filings.courtAddress.addressLocality	[object]

cality	The details of a city, town, township, village, borough, etc. of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.liens.filings.courtAddress.addressLocality.name	[string] e.g.: Short Hills The name of a city, town, township, village, borough, etc. of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.liens.filings.courtAddress.addressRegion	[object] The details of the locally governed area which forms part of a centrally governed nation to identify the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.liens.filings.courtAddress.addressRegion.abbreviatedName	[string] e.g.: NJ The shortened name of the geographical area for this address of the organization. For example NJ for the US State New Jersey within Country United States.
organization.legalEvents.liens.filings.courtAddress.addressRegion.name	[string] e.g.: New Jersey The name of a locally governed area which forms part of a centrally governed nation to identify the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.liens.filings.courtAddress.continentalRegion	[object] The details of the region as defined by Dun & Bradstreet for this address.
organization.legalEvents.liens.filings.courtAddress.continentalRegion.name	[string] e.g.: North America The name of the region as defined by Dun & Bradstreet for this address.
organization.legalEvents.liens.filings.courtAddress.postalCode	[string] e.g.: 7078 An identifier used by the local country Postal Authority to identify the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.liens.filings.courtAddress.streetAddress	[object] The details such as address number, or post office box number and street name of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.liens.filings.courtAddress.streetAddress.line1	[string] e.g.: 103 JFK Pkwy The first line of the address of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.liens.filings.courtAddress.streetAddress.line2	[string] e.g.: 101 JFK Pkwy The second line of the address of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.liens.filings.courtName	[string] e.g.: Superior Court of Some State The name of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.liens.filings.courtType	[object] Records the nature of the legal body at which the legal event was heard or decreed. This may describe the area of law in which the court specializes (e.g. court of employment) or the legal seniority of the court (e.g.

	high court, supreme court etc.)
organization.legalEvents.liens.filings.courtType.description	[string] e.g.: County text that describes the nature of the legal body at which the legal event was heard or decreed. This may describe the area of law in which the court specializes (e.g. court of employment) or the legal seniority of the court (e.g. high court, supreme court etc.)
organization.legalEvents.liens.filings.courtType.dnbCode	[integer] e.g.: 5337 A unique code assigned by Dun & Bradstreet that describes the nature of the legal body at which the legal event was heard or decreed. This may describe the area of law in which the court specializes (e.g. court of employment) or the legal seniority of the court (e.g. high court, supreme court etc.) Refer to Reference code table "132 [Court Type]" for all possible values.
organization.legalEvents.liens.filings.creditorCategories	[array (object)] The different classifications of creditors to whom money is owed by the entity. The priority in which the creditors are paid is based on the assigned classification.
organization.legalEvents.liens.filings.creditorCategories.claim Amount	[object] The details of the amount owed to this category of creditors.
organization.legalEvents.liens.filings.creditorCategories.claim Amount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.liens.filings.creditorCategories.claim Amount.value	[number] e.g.: 43095 The amount owed to this category of creditors.
organization.legalEvents.liens.filings.creditorCategories.creditorType	[object] The details of the category of the creditor.
organization.legalEvents.liens.filings.creditorCategories.creditorType.description	[string] e.g.: Federal Government (US) The category of creditors indicating the priority in which they are paid relative to other categories (e.g., preferred, secured).
organization.legalEvents.liens.filings.creditorCategories.creditorType.dnbCode	[integer] e.g.: 10947 A unique code assigned by Dun & Bradstreet to identify the category of the creditors to whom money is owed by the entity. Refer to Reference code table "226 [Creditor Type]" for all possible values.
organization.legalEvents.liens.filings.dataProvider	[object] The details of the data provider.
organization.legalEvents.liens.filings.dataProvider.description	[string] e.g.: US Small Business Administration The source from which this data was originally obtained by Dun & Bradstreet.

organization.legalEvents.liens.filings.dataProvider.dnbCode	<p>[integer] e.g.: 21238</p> <p>A unique code assigned by Dun & Bradstreet to identify the source from which this data was originally obtained.</p> <p>Refer to Reference code table "29 [Data Provider]" for all possible values.</p>
organization.legalEvents.liens.filings.endDate	<p>[string] e.g.: 2017-10-31</p> <p>The date indicates that the Legal Event procedure ended.</p>
organization.legalEvents.liens.filings.endIndicator	<p>[boolean] e.g.: false</p> <p>When set to "true" this indicates that the Event has ceased, i.e., this is historical information.</p> <p>When set to "false" this indicates that the Event is still outstanding or ongoing, i.e., this is current information; however as this is the assumed condition there is no requirement to create this tag to represent this fact.</p>
organization.legalEvents.liens.filings.eventDuration	<p>[string] e.g.: 12 months</p> <p>The amount of time this event lasted.</p>
organization.legalEvents.liens.filings.filingAmount	<p>[object]</p> <p>The details of the amount of relief sought by all of the plaintiffs in the suit.</p>
organization.legalEvents.liens.filings.filingAmount.currency	<p>[string] e.g.: USD</p> <p>The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).</p>
organization.legalEvents.liens.filings.filingAmount.value	<p>[number] e.g.: 1000000</p> <p>The total amount of relief sought by all of the plaintiffs in the suit.</p>
organization.legalEvents.liens.filings.filingAmountComparisonType	<p>[object]</p> <p>Specifies the operator that may be used as the basis of data comparisons between two values; e.g., greater than, less than, equal to. In some cases only one of two values being compared is recorded, while the other value could be derived or become available at a later date. For example, the value to be awarded must be "Less Than" the value recorded.</p>
organization.legalEvents.liens.filings.filingAmountComparisonType.description	<p>[string] e.g.: less than</p> <p>Text that specifies the operator that may be used as the basis of data comparisons between two values; e.g., greater than, less than, equal to. In some cases only one of two values being compared is recorded, while the other value could be derived or become available at a later date. For example, the value to be awarded must be "Less Than" the value recorded.</p>
organization.legalEvents.liens.filings.filingAmountComparisonType.dnbCode	<p>[integer] e.g.: 16804</p> <p>A unique code assigned by Dun & Bradstreet that specifies the operator that may be used as the basis of data comparisons between two values; e.g., greater than, less than, equal to. In some cases only one of two values being compared is recorded, while the other value could be derived or become available at a</p>

later date. For example, the value to be awarded must be "Less Than" the value recorded. Refer to Reference code table "410 [Comparison Operator]" for all possible values.

organization.legalEvents.liens.filings.filingChapter	[string] e.g.: 11 The chapter that applies to the filing of this event.
organization.legalEvents.liens.filings.filingClass	[object] The broad class into which the Event is categorized. E.g. Bankruptcy / Insolvency, Administration / Receivership, Liquidation / Dissolution
organization.legalEvents.liens.filings.filingClass.description	[string] e.g.: Suit/Financial Judgement/Lien Text identifying the broad class into which the Event is categorized. E.g. Bankruptcy / Insolvency, Administration / Receivership, Liquidation / Dissolution
organization.legalEvents.liens.filings.filingClass.dnbCode	[integer] e.g.: 1886 A unique code assigned by Dun & Bradstreet to identify the broad class into which the Event is categorized. E.g. Bankruptcy / Insolvency, Administration / Receivership, Liquidation / Dissolution Refer to Reference code table "183 [Legal Event Class]" for all possible values.
organization.legalEvents.liens.filings.filingDate	[string] e.g.: 2017-10-30 The date on which this event took place.
organization.legalEvents.liens.filings.filingMedium	[string] e.g.: Docket The medium in which the filing is recorded.
organization.legalEvents.liens.filings.filingReference	[string] e.g.: D5QZ52TC The identifier given by a registry body to the official filed document that contains this legal event information.
organization.legalEvents.liens.filings.filingReferenceDate	[array (object)] The details of the dates relevant to a document (e.g., Date Filed, Date Published). Note: This array of dates should only be used when the user needs to know any additional dates other than the discrete date elements defined.
organization.legalEvents.liens.filings.filingReferenceDate.referenceDate	[string] e.g.: 2018-07-25 A date relating to a document that has been registered with an official body.
organization.legalEvents.liens.filings.filingReferenceDate.referenceType	[object] The details of the relevance of the date recorded.
organization.legalEvents.liens.filings.filingReferenceDate.referenceType.description	[string] e.g.: Date Filed The relevance of the date recorded.
organization.legalEvents.liens.filings.filingReferenceDate.referenceType.dnbCode	[integer] e.g.: 12137 A unique code assigned by Dun & Bradstreet to identify the relevance of the date recorded.

Refer to Reference code table "322 [Filing Reference Date Type]" for all possible values.

organization.legalEvents.liens.filings.filingReferenceDate.result	[object] The details of the relevance of the date recorded.
organization.legalEvents.liens.filings.filingReferenceDate.result.description	[string] e.g.: Date Filed The relevance of the date recorded.
organization.legalEvents.liens.filings.filingReferenceDate.result.dnbCode	[integer] e.g.: 12137 A unique code assigned by Dun & Bradstreet to identify the relevance of the date recorded. Refer to Reference code table "322 [Filing Reference Date Type]" for all possible values.
organization.legalEvents.liens.filings.filingReferenceDate.resultDate	[string] e.g.: 2018-07-25 A date relating to a document that has been registered with an official body.
organization.legalEvents.liens.filings.filingResults	[array (object)] The details of the outcomes this Legal Event had or is having on the entity.
organization.legalEvents.liens.filings.filingResults.result	[object] The details of the outcome this event had or is having on the party involved in the event.
organization.legalEvents.liens.filings.filingResults.result.description	[string] e.g.: Settled The outcome this event had or is having on the party involved in the event (e.g., Petition Dismissed, Liquidator Appointed, Counter claim filed by the defendant in a lawsuit).
organization.legalEvents.liens.filings.filingResults.result.dnbCode	[integer] e.g.: 11466 A unique code assigned by Dun & Bradstreet that describes the outcome this event had or is having. Refer to Reference code table "86 [Event Result]" for all possible values.
organization.legalEvents.liens.filings.filingResults.resultDate	[string] e.g.: 2017-10-30 The date the outcome of the event occurred.
organization.legalEvents.liens.filings.filingResults.subsequentEvents	[array (object)] Records several different events that occur throughout the life cycle of an overriding legal event process, e.g., meeting of creditors related to a Bankruptcy process.
organization.legalEvents.liens.filings.filingResults.subsequentEvents.eventPlanDate	[string] e.g.: 2018-02-25 The date and time when the later event described by Event Result Code is expected to occur as an outcome of this event.
organization.legalEvents.liens.filings.filingResults.subsequentEvents.locationDescription	[string] e.g.: Attorney Office Text that describes the place where the later event described by filing result is expected to occur as an outcome of this event.
organization.legalEvents.liens.filings.filingSubType	[object]

	The details of the lower-level category of the event that has been registered or recorded against the entity.
organization.legalEvents.liens.filings.filingSubType.description	[string] e.g.: Filing of list of Creditors The lower-level category of the event that has been registered or recorded against the entity.
organization.legalEvents.liens.filings.filingSubType.dnbCode	[integer] e.g.: 21196 A unique code assigned by Dun & Bradstreet to identify the sub-type. Refer to Reference code table "112 [Legal Event Sub Type]" for all possible values.
organization.legalEvents.liens.filings.filingType	[object] The details of the type of event that has been registered or recorded against the entity.
organization.legalEvents.liens.filings.filingType.description	[string] e.g.: County Court Judgement The type of event that has been registered or recorded against the entity.
organization.legalEvents.liens.filings.filingType.dnbCode	[integer] e.g.: 2515 A unique code assigned by Dun & Bradstreet to identify the type of event that has been registered or recorded against the entity. Refer to Reference code table "24 [Legal Event Type]" for all possible values.
organization.legalEvents.liens.filings.financials	[object] The details of the standardized summary view of the financial results (actual or estimated) for the organization.
organization.legalEvents.liens.filings.financials.accountantName	[string] e.g.: Johnson, Jordan & Jones CPAs The name of either an individual or an accounting firm.
organization.legalEvents.liens.filings.financials.balanceSheet	[object] The details of the Latest Financials' balance sheet statement which summarizes the organization's assets, liabilities, and shareholder's equity at a specific point in time.
organization.legalEvents.liens.filings.financials.balanceSheet.assets	[object] The details of the assets on the balance sheet.
organization.legalEvents.liens.filings.financials.balanceSheet.assets.currentAssets	[object] Assets that are held for short term; raw materials that are bought, made up, sold as finished goods and eventually paid for.
organization.legalEvents.liens.filings.financials.balanceSheet.assets.currentAssets.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.liens.filings.financials.balanceSheet.assets.currentAssets.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.liens.filings.financials.balanceSheet.	[string] e.g.: Equity Interests In Associated Companies

assets.currentAssets.statementItems.itemKey.description	Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.liens.filings.financials.balanceSheet.assets.currentAssets.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.liens.filings.financials.balanceSheet.assets.currentAssets.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.liens.filings.financials.balanceSheet.assets.longTermAssets	[object] The details of the long-term asset items within the Latest Financials Balance Sheet i.e., items expected to be realized in more than 12 months.
organization.legalEvents.liens.filings.financials.balanceSheet.assets.longTermAssets.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.liens.filings.financials.balanceSheet.assets.longTermAssets.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.liens.filings.financials.balanceSheet.assets.longTermAssets.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.liens.filings.financials.balanceSheet.assets.longTermAssets.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.liens.filings.financials.balanceSheet.assets.longTermAssets.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.liens.filings.financials.balanceSheet.assets.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.liens.filings.financials.balanceSheet.assets.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.liens.filings.financials.balanceSheet.assets.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.liens.filings.financials.balanceSheet.assets.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.

organization.legalEvents.liens.filings.financials.balanceSheet.assets.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.liens.filings.financials.balanceSheet.liabilities	[object] The legal debts or obligations of a company that arise during the course of business operations. Liabilities are settled over time through the transfer of economic benefits including money, goods, or services.
organization.legalEvents.liens.filings.financials.balanceSheet.liabilities.currentLiabilities	[object] The details of the entity's total value of all obligations to pay out cash at some date in the near future.
organization.legalEvents.liens.filings.financials.balanceSheet.liabilities.currentLiabilities.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.liens.filings.financials.balanceSheet.liabilities.currentLiabilities.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.liens.filings.financials.balanceSheet.liabilities.currentLiabilities.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.liens.filings.financials.balanceSheet.liabilities.currentLiabilities.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.liens.filings.financials.balanceSheet.liabilities.currentLiabilities.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.liens.filings.financials.balanceSheet.liabilities.equity	[object] The details of the share capital/stock originally invested by shareholders/stockholders plus any reserves that have arisen, such as retained profits, that were ploughed back into the firm. Also known as Net Worth.
organization.legalEvents.liens.filings.financials.balanceSheet.liabilities.equity.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.liens.filings.financials.balanceSheet.liabilities.equity.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.liens.filings.financials.balanceSheet.liabilities.equity.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.liens.filings.financials.balanceSheet.liabilities.equity.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.

organization.legalEvents.liens.filings.financials.balanceSheet.liabilities.equity.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.liens.filings.financials.balanceSheet.liabilities.longTermLiabilities	[object] The details of the entity's total value of all obligations to pay out cash at some date in the future but not within one year.
organization.legalEvents.liens.filings.financials.balanceSheet.liabilities.longTermLiabilities.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.liens.filings.financials.balanceSheet.liabilities.longTermLiabilities.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.liens.filings.financials.balanceSheet.liabilities.longTermLiabilities.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.liens.filings.financials.balanceSheet.liabilities.longTermLiabilities.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.liens.filings.financials.balanceSheet.liabilities.longTermLiabilities.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.liens.filings.financials.balanceSheet.liabilities.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.liens.filings.financials.balanceSheet.liabilities.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.liens.filings.financials.balanceSheet.liabilities.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.liens.filings.financials.balanceSheet.liabilities.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.liens.filings.financials.balanceSheet.liabilities.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.liens.filings.financials.balanceSheet.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.

organization.legalEvents.liens.filings.financials.balanceSheet. statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.liens.filings.financials.balanceSheet. statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.liens.filings.financials.balanceSheet. statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.liens.filings.financials.balanceSheet. statementItems.parentItemKey	[object] Records the higher level financial figure to which this item belongs to.
organization.legalEvents.liens.filings.financials.balanceSheet. statementItems.parentItemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.liens.filings.financials.balanceSheet. statementItems.parentItemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.liens.filings.financials.balanceSheet. statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.liens.filings.financials.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.liens.filings.financials.filingDate	[string] e.g.: 2018-02-01 The date when the company filed its Latest Financials' financial statement with an official registry.
organization.legalEvents.liens.filings.financials.financialStatementFromDate	[string] e.g.: 2010-03-14 The date on which the accounting period of the Latest Financials' financial statement commenced.
organization.legalEvents.liens.filings.financials.financialStatementToDate	[string] e.g.: 2016-12-31 The date associated with the financial results. When the values are from a financial statement, it represents the date the accounting period ended. When it is an estimated or modeled value, it is the date on which the data was submitted.
organization.legalEvents.liens.filings.financials.informationScope	[object] The details of the organizational scope of the Latest Financials' financial statement.
organization.legalEvents.liens.filings.financials.informationScope	[string] e.g.: Consolidated

pe.description	The organizational scope of the values within the Summary Financials section. Individual means it represents a single organization inclusive of any branches. Consolidated means it represents an organization inclusive of any branches and any subsidiaries.
organization.legalEvents.liens.filings.financials.informationScope.dnbCode	[integer] e.g.: 9067 A unique code assigned by Dun & Bradstreet to identify the organizational scope of the Summary Financials values. Refer to Reference code table "192 [Information Scope]" for all possible values.
organization.legalEvents.liens.filings.financials.isAudited	[boolean] e.g.: true Indicates if the Latest Financials' accounts have been reviewed by a qualified accountant independent of the organization and the accountant has signed the financial statement certifying it is accurate and complete.
organization.legalEvents.liens.filings.financials.isFinal	[boolean] e.g.: true Indicates whether the financial figures are for the entity's closing statement. - If true, the financial figures are for the entity's closing statement. - If false, the financial figures are not for the entity's closing statement.
organization.legalEvents.liens.filings.financials.isFiscal	[boolean] e.g.: true Indicates whether the Latest Financials' financial figures cover a full year accounting period.
organization.legalEvents.liens.filings.financials.profitAndLossStatement	[object] The details of the Latest Financials' profit and loss (P&L) statement which summarizes the revenues, costs and expenses incurred during a specified accounting period. The P&L statement is synonymous with the income statement.
organization.legalEvents.liens.filings.financials.profitAndLossStatement.notes	[string] e.g.: Representative's comments Comments made by a representative
organization.legalEvents.liens.filings.financials.profitAndLossStatement.projectedAnnualSales	[string] e.g.: Some information about projected sales Information about the projected annual sales.
organization.legalEvents.liens.filings.financials.profitAndLossStatement.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.liens.filings.financials.profitAndLossStatement.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.liens.filings.financials.profitAndLossStatement.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.liens.filings.financials.profitAndLossStatement.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in

Item Amount.
Refer to Reference code table "33 [Financial Statement Item]" for all possible values.

organization.legalEvents.liens.filings.financials.profitAndLossStatement.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.liens.filings.financials.receivedTimestamp	[string] e.g.: 2018-04-06T16:33:21.443Z The date and time, in ISO 8601 UTC Z standard, when Dun & Bradstreet or one of Dun & Bradstreet's strategic partners received this financial statement.
organization.legalEvents.liens.filings.financials.reliability	[object] The details of the integrity of the figures in the Latest Financials' financial statement.
organization.legalEvents.liens.filings.financials.reliability.description	[string] e.g.: Actual The integrity of the financial figures present within the Summary Financials section (e.g., actual, estimated, or modeled).
organization.legalEvents.liens.filings.financials.reliability.dnbCode	[integer] e.g.: 9092 A unique code assigned by Dun & Bradstreet to identify the precision of the financial figures present within the Summary Financials section. Refer to Reference code table "171 [Reliability]" for all possible values.
organization.legalEvents.liens.filings.financials.units	[string] e.g.: SingleUnits The unit size (e.g., units, thousands, millions) in which the figures in the Latest Financials' financial statement are stated.
organization.legalEvents.liens.filings.hasHistoricalEvent	[boolean] e.g.: true Indicates whether the entity is associated with a historical event. - If true, the entity has been part of a historical event. - If false, the entity has not been part of a historical event.
organization.legalEvents.liens.filings.impactAmount	[object] Records the income acquired by the subject as a result of this legal event; e.g. the income acquired as a result of the sale of the subject's assets.
organization.legalEvents.liens.filings.impactAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.liens.filings.impactAmount.value	[number] e.g.: 125000.25 The monetary value for the income acquired by the subject as a result of this legal event; e.g. the income acquired as a result of the sale of the subject's assets.

organization.legalEvents.liens.filings.isStopD	<p>[boolean] e.g.: true</p> <p>When set to "true" this indicates that D&B should not fabricate or supply this Legal Event in products and services. Note: One exception to this business rule is the Public Records report which would disregard this indicator setting.</p> <p>When set to "false" this indicates that D&B can fabricate or supply this Legal Event in products and services; however as this is the assumed condition there is no requirement to create this tag to represent this fact.</p>
organization.legalEvents.liens.filings.jurisdictionType	<p>[object]</p> <p>Describes the level of government applying the laws applicable to the event, e.g., federal, state.</p>
organization.legalEvents.liens.filings.jurisdictionType.description	<p>[string] e.g.: County</p> <p>Text that describes the level of government applying the laws applicable to the event, e.g., federal, state.</p>
organization.legalEvents.liens.filings.jurisdictionType.dnbCode	<p>[integer] e.g.: 14809</p> <p>A unique code assigned by Dun & Bradstreet that describes the level of government applying the laws applicable to the event, e.g., federal, state.</p> <p>Refer to Reference code table "434 [Jurisdiction Type]" for all possible values.</p>
organization.legalEvents.liens.filings.legalHearingDate	<p>[string] e.g.: 2019-10-12</p> <p>Records the date of a formal process associated with the Legal Event e.g. the date by which creditors' claims must be filed, the future date for the reading of a bankruptcy petition.</p>
organization.legalEvents.liens.filings.originalFilingDate	<p>[string] e.g.: 2017-10-30</p> <p>The date of the initial filing of the event.</p>
organization.legalEvents.liens.filings.parentBankruptcy	<p>[object]</p> <p>The details of a bankruptcy filed by the parent entity.</p>
organization.legalEvents.liens.filings.parentBankruptcy.duns	<p>[string] e.g.: 804735132</p> <p>The D-U-N-S® Number, a proprietary organizational identifier owned and managed by Dun & Bradstreet Inc, provides unique identification of a subject organization, in accordance with the Data Universal Numbering System (D-U-N-S®).</p>
organization.legalEvents.liens.filings.priority	<p>[string] e.g.: 5</p> <p>A number that may be used to define the order in which the legal event should be presented relative to the other legal events where the lower the number the earlier the data is presented. Events within the same legal process can be identified using the priority group.</p>
organization.legalEvents.liens.filings.priorityGroup	<p>[string] e.g.: 2</p> <p>A number that may be used to identify multiple legal events as belonging together as part of the same overall legal process. Within a group the priority may then be used to ensure that the legal events within the group are presented continuously and in the correct order.</p>
organization.legalEvents.liens.filings.publishedDate	<p>[string] e.g.: 2011-02-14</p>

	The date to support the recording of the Publication Date for an official document registered with an Official Body.
organization.legalEvents.liens.filings.reasons	[array (object)] The details of the underlying factor that contributed to the Legal Event.
organization.legalEvents.liens.filings.reasons.description	[string] e.g.: Voluntary Petition for Bankruptcy The underlying factor that contributed to the Legal Event (e.g., natural disaster, fraud, strategy, economic conditions, loss to creditors).
organization.legalEvents.liens.filings.reasons.dnbCode	[integer] e.g.: 12281 A unique code assigned by Dun & Bradstreet to identify the underlying factor that contributed to the Legal Event. Refer to Reference code table "299 [Event Reason]" for all possible values.
organization.legalEvents.liens.filings.reasons.filingAmount	[object] The details of the amount of relief sought by all of the plaintiffs in the suit.
organization.legalEvents.liens.filings.reasons.filingAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.liens.filings.reasons.filingAmount.value	[number] e.g.: 1000000 The total amount of relief sought by all of the plaintiffs in the suit.
organization.legalEvents.liens.filings.receivedDate	[string] e.g.: 2017-10-30 The date when Dun & Bradstreet or one of its strategic partners received this legal event.
organization.legalEvents.liens.filings.remedyFiled	[array (object)] The details of different kinds of relief for damages, and the associated amount filed for this legal event.
organization.legalEvents.liens.filings.remedyFiled.remedyAmount	[object] The details of the amount of the remedy filed for damages for this legal event.
organization.legalEvents.liens.filings.remedyFiled.remedyAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.liens.filings.remedyFiled.remedyAmount.value	[number] e.g.: 30000 The monetary value of the remedy filed for damages for this legal event.
organization.legalEvents.liens.filings.remedyFiled.remedyType	[object] The details of the specific kind of relief for the damage sought or deemed by this legal event (e.g., Actual,

	Punitive, Injunction, Compensatory).
organization.legalEvents.liens.filings.remedyFiled.remedyType.description	[string] e.g.: Compensatory damage The specific kind of relief for the damage sought or deemed by this legal event (e.g., Actual, Punitive, Injunction, Compensatory).
organization.legalEvents.liens.filings.remedyFiled.remedyType.dnbCode	[integer] e.g.: 14073 A unique code assigned by Dun & Bradstreet that describes the specific kind of relief for the damage sought or deemed by this legal event. Refer to Reference code table "430 [Legal Event Remedy Type]" for all possible values.
organization.legalEvents.liens.filings.rolePlayers	[array (object)] The details of role players involved in a Legal Event as recorded in court papers and identifies the part each one plays.
organization.legalEvents.liens.filings.rolePlayers.address	[object] The details of the Primary Address at which the organization is located or conducts operations.
organization.legalEvents.liens.filings.rolePlayers.address.addressCountry	[object] The details of the country in which the role player is located.
organization.legalEvents.liens.filings.rolePlayers.address.addressCountry.isoAlpha2Code	[string] e.g.: US The two-letter country code, defined by the International Organization for Standardization (ISO) ISO 3166-1 scheme identifying the country of the role player. Note: Please refer to Country Code Substitutions Table [/html/resources/CountryCodes.html#country-substitute] for the country code substitutions.
organization.legalEvents.liens.filings.rolePlayers.address.addressCountry.name	[string] e.g.: Unites States The name of the country in which the role player is located.
organization.legalEvents.liens.filings.rolePlayers.address.addressCounty	[object] The details of the county where the business is located.
organization.legalEvents.liens.filings.rolePlayers.address.addressCounty.name	[string] e.g.: Unites States The name of the county where the business is located.
organization.legalEvents.liens.filings.rolePlayers.address.addressLocality	[object] The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.
organization.legalEvents.liens.filings.rolePlayers.address.addressLocality.name	[string] e.g.: SAN FRANCISCO The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.

organization.legalEvents.liens.filings.rolePlayers.address.addressRegion	[object] The name of the geographical area for this address of the organization. For Example New Jersey.
organization.legalEvents.liens.filings.rolePlayers.address.addressRegion.abbreviatedName	[string] e.g.: NJ The shortened name of the geographical area for this address of the organization. For example NJ for the US State New Jersey within Country United States.
organization.legalEvents.liens.filings.rolePlayers.address.addressRegion.name	[string] e.g.: California The name of the geographical area for this address of the organization. For Example New Jersey.
organization.legalEvents.liens.filings.rolePlayers.address.continentalRegion	[object] The details of the region as defined by Dun & Bradstreet for this address.
organization.legalEvents.liens.filings.rolePlayers.address.continentalRegion.name	[string] e.g.: North America The name of the region as defined by Dun & Bradstreet for this address (e.g., Africa, Europe, Middle East).
organization.legalEvents.liens.filings.rolePlayers.address.postalCode	[string] e.g.: 941109999 The postal code for this address of the organization. Also known locally in various English-speaking countries throughout the world as a postcode, post code, Eircode, PIN or ZIP Code) is a series of letters or digits or both, sometimes including spaces or punctuation, included in a postal address for the purpose of sorting mail. The code is used by the country's postal authority to identify the address where the organization is located or conducts operations .
organization.legalEvents.liens.filings.rolePlayers.address.streetAddress	[object] The details of the street address for this address of the organization.
organization.legalEvents.liens.filings.rolePlayers.address.streetAddress.line1	[string] e.g.: 492 KOLLER ST The first line of the address where the entity is located. The first line of this address of the organization. For example The Point in the address The Point 37 North Wharf Road London W2 1AF
organization.legalEvents.liens.filings.rolePlayers.address.streetAddress.line2	[string] e.g.: Suite 100 The second line of this address of the organization. For example 37 North Wharf Road in the address The Point 37 North Wharf Road London W2 1AF

organization.legalEvents.liens.filings.rolePlayers.creditorCategories	[array (object)] Records several different classifications for this creditor who claims that the subject owes money. The priority in which the claimants are paid is based on the classification to which they belong.
organization.legalEvents.liens.filings.rolePlayers.creditorCategories.claimAmount	[object] Details of the monetary value owed to the category of this creditor recorded in Creditor Type.
organization.legalEvents.liens.filings.rolePlayers.creditorCategories.claimAmount.currency	[string] e.g.: USD The currency of the monetary value owed to the category of this creditor recorded in Creditor Type.
organization.legalEvents.liens.filings.rolePlayers.creditorCategories.claimAmount.value	[number] e.g.: 1485795.25 The monetary value owed to the category of this creditor recorded in Creditor Type.
organization.legalEvents.liens.filings.rolePlayers.creditorCategories.creditorType	[object] The category of this creditor to which the subject owes money, with respect to their priority of being paid relative to other creditor categories; e.g., preferred, secured, where preferred creditors have priority over secured creditors.
organization.legalEvents.liens.filings.rolePlayers.creditorCategories.creditorType.description	[string] e.g.: Secured Text that identifies the category of this creditor to which the subject owes money, with respect to their priority of being paid relative to other creditor categories; e.g., preferred, secured, where preferred creditors have priority over secured creditors.
organization.legalEvents.liens.filings.rolePlayers.creditorCategories.creditorType.dnbCode	[integer] e.g.: 15573 A unique code assigned by Dun & Bradstreet that specifies the category of this creditor to which the subject owes money, with respect to their priority of being paid relative to other creditor categories; e.g., preferred, secured, where preferred creditors have priority over secured creditors. Refer to Reference code table "401 [Creditor Type]" for all possible values.
organization.legalEvents.liens.filings.rolePlayers.duns	[string] e.g.: 804735132 The D-U-N-S® Number, a proprietary organizational identifier owned and managed by Dun & Bradstreet Inc, provides unique identification of a subject organization, in accordance with the Data Universal Numbering System (D-U-N-S®).
organization.legalEvents.liens.filings.rolePlayers.employerName	[string] e.g.: Dun & Bradstreet The name of the subject that employs the party involved in this event.
organization.legalEvents.liens.filings.rolePlayers.filingAmount	[object] The details of the monetary value associated with a court action for this party involved in the event.
organization.legalEvents.liens.filings.rolePlayers.filingAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).

organization.legalEvents.liens.filings.rolePlayers.filingAmount.value	[number] e.g.: 100000 The monetary value associated with a court action for this party involved in the event.
organization.legalEvents.liens.filings.rolePlayers.filingAmountComparisonType	[object] Specifies the operator that may be used as the basis of data comparisons between two values; e.g., greater than, less than, equal to. In some cases only one of two values being compared is recorded, while the other value could be derived or become available at a later date. For example, the value to be awarded must be "Less Than" the value recorded.
organization.legalEvents.liens.filings.rolePlayers.filingAmountComparisonType.description	[string] e.g.: less than Text that specifies the operator that may be used as the basis of data comparisons between two values; e.g., greater than, less than, equal to. In some cases only one of two values being compared is recorded, while the other value could be derived or become available at a later date. For example, the value to be awarded must be "Less Than" the value recorded.
organization.legalEvents.liens.filings.rolePlayers.filingAmountComparisonType.dnbCode	[integer] e.g.: 16804 A unique code assigned by Dun & Bradstreet that specifies the operator that may be used as the basis of data comparisons between two values; e.g., greater than, less than, equal to. In some cases only one of two values being compared is recorded, while the other value could be derived or become available at a later date. For example, the value to be awarded must be "Less Than" the value recorded. Refer to Reference code table "410 [Comparison Operator]" for all possible values.
organization.legalEvents.liens.filings.rolePlayers.filingResults	[array (object)] Describes all outcomes involving this Role Player from this Legal Event; e.g., Counter claim filed by the defendant in a lawsuit.
organization.legalEvents.liens.filings.rolePlayers.filingResults.filingAmount	[object] The details of the monetary value associated with a court action for this party involved in the event.
organization.legalEvents.liens.filings.rolePlayers.filingResults.filingAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.liens.filings.rolePlayers.filingResults.filingAmount.value	[number] e.g.: 100000 The monetary value associated with a court action for this party involved in the event.
organization.legalEvents.liens.filings.rolePlayers.filingResults.result	[object] Describes an outcome involving this Role Player from this Legal Event; e.g., Counter claim filed by the defendant in a lawsuit.
organization.legalEvents.liens.filings.rolePlayers.filingResults.result.description	[string] e.g.: Closed Text that describes an outcome involving this Role Player from this Legal Event; e.g., Counter claim filed by the defendant in a lawsuit.

organization.legalEvents.liens.filings.rolePlayers.filingResults.result.dnbCode	[integer] e.g.: 11468 A unique code assigned by Dun & Bradstreet that describes an outcome involving this Role Player from this Legal Event; e.g., Counter claim filed by the defendant in a lawsuit. Refer to Reference code table "86 [Event Result]" for all possible values.
organization.legalEvents.liens.filings.rolePlayers.filingResults.resultDate	[string] e.g.: 2012-05-30 The date when the outcome recorded in Event Result Code occurred.
organization.legalEvents.liens.filings.rolePlayers.name	[string] e.g.: Some Vendor The name of the party involved in this event as it was filed.
organization.legalEvents.liens.filings.rolePlayers.operatingStatus	[object] The details of the high level categorization of the organization's functional state or trading status.
organization.legalEvents.liens.filings.rolePlayers.operatingStatus.description	[string] e.g.: Active Textual description of the organization's functional state or trading status. Possible values: [9074] Active [403] Out of Business
organization.legalEvents.liens.filings.rolePlayers.operatingStatus.dnbCode	[integer] e.g.: 9074 A unique code assigned by Dun & Bradstreet to identify the organization's functional state or trading status. Possible values: 9074 [Active] 403 [Out of Business] Refer to Reference code table "166 [Operating Status]" for all possible values.
organization.legalEvents.liens.filings.rolePlayers.positions	[array (object)] The details of the job positions the role player holds or has held in the entity.
organization.legalEvents.liens.filings.rolePlayers.positions.description	[string] e.g.: Sales consultant The job position the role player holds or has held in the organization (e.g., Financial Director, Sales Director, Operations Manager).
organization.legalEvents.liens.filings.rolePlayers.positions.dnbCode	[integer] e.g.: 28802 A unique code assigned by Dun & Bradstreet that denotes the job position the role player holds or has held in the entity. Refer to Reference code table "5 [Position] & 198 [Employee Position]" for all possible values.
organization.legalEvents.liens.filings.rolePlayers.reasons	[array (object)] Records various underlying factors involving this Role Player, that contributed to the Legal Event.
organization.legalEvents.liens.filings.rolePlayers.reasons.description	[string] e.g.: Goodwill Text describing an underlying factor involving this Role player that contributed to the Legal Event; e.g.,

	fraud, racism, strategy, anti-trust violation.
organization.legalEvents.liens.filings.rolePlayers.reasons.dnbCode	[integer] e.g.: 15629 A unique code assigned by Dun & Bradstreet describing an underlying factor involving this Role player that contributed to the Legal Event; e.g., fraud, racism, strategy, anti-trust violation. Refer to Reference code table "299 [Event Reason]" for all possible values.
organization.legalEvents.liens.filings.rolePlayers.registrationNumbers	[array (object)] The details of the numbers assigned by an external body or by Dun & Bradstreet that either uniquely identifies or helps to identify an entity.
organization.legalEvents.liens.filings.rolePlayers.registrationNumbers.registrationNumber	[string] e.g.: 12-3456789 The number or alphanumeric value assigned by a recognized external authority that either uniquely identifies or helps to identify the organization.
organization.legalEvents.liens.filings.rolePlayers.registrationNumbers.typeDescription	[string] e.g.: Federal Taxpayer Identification Number (US) The official name of the organization identifier assigned by a recognized external authority (e.g., Australian Company Number, Federal Taxpayer Identification Number, Value Added Tax Number).
organization.legalEvents.liens.filings.rolePlayers.registrationNumbers.typeDnBCode	[integer] e.g.: 6863 A unique code assigned by Dun & Bradstreet to identify the type of organization registration number. For example, 2541 stands for company number issued by the UK Companies House. Refer to Reference code table "7 [Registration Number Type]" for all possible values.
organization.legalEvents.liens.filings.rolePlayers.remedyFiled	[array (object)] Records details on several different kinds of relief for damages along with the associated amount filed for this legal event; e.g., for U.S. suits - the remedies sought by the plaintiff(s), for U.S. judgments - the remedies deemed by the court.
organization.legalEvents.liens.filings.rolePlayers.remedyFiled.remedyType	[object] text that describes the specific kind of relief for the damage sought or deemed by this legal event; e.g., Actual, Punitive, Injunction, Compensatory.
organization.legalEvents.liens.filings.rolePlayers.remedyFiled.remedyType.description	[string] e.g.: Damages A unique code assigned by Dun & Bradstreet that describes the specific kind of relief for the damage sought or deemed by this legal event; e.g., Actual, Punitive, Injunction, Compensatory.
organization.legalEvents.liens.filings.rolePlayers.remedyFiled.remedyType.dnbCode	[integer] e.g.: 14701 A unique code assigned by Dun & Bradstreet that describes the specific kind of relief for the damage sought or deemed by this legal event; e.g., Actual, Punitive, Injunction, Compensatory. Refer to Reference code table "430 [Legal Event Remedy Type]" for all possible values.
organization.legalEvents.liens.filings.rolePlayers.rolePlayerType	[object] The details of the role player's function in the event.

organization.legalEvents.liens.filings.rolePlayers.rolePlayerType.description	[string] e.g.: Shareholder The function played by this party in the event (e.g., debtor, creditor, liquidator, shareholder, court, plaintiff, defendant).
organization.legalEvents.liens.filings.rolePlayers.rolePlayerType.dnbCode	[integer] e.g.: 302 A unique code assigned by Dun & Bradstreet to identify the function played by this party in the event. Refer to Reference code table "10 [Role Player Type]" for all possible values.
organization.legalEvents.liens.filings.rolePlayers.standardRating	[object] The most current Standard Dun & Bradstreet Standard Rating assigned to this entity.
organization.legalEvents.liens.filings.rolePlayers.standardRating.financialStrength	[string] e.g.: 3A The overall size of the entity from a financial perspective. It may be based on the net worth or issued capital of the entity; the higher the amount, the larger the entity is considered to be.
organization.legalEvents.liens.filings.rolePlayers.standardRating.riskSegment	[string] e.g.: 4 Creditworthiness of the entity in terms of its overall financial condition or risk to creditors.
organization.legalEvents.liens.filings.rolePlayers.standardRating.scoreDate	[string] e.g.: 2010-03-14 The date when the score was assigned or last changed. Scores are continuously monitored and recalculated as any input variables changes. In the event that the score could not be assigned on the entity, this is the date when the reason was recorded explaining why the score was not assigned. Format: YYYY-MM-DD or YYYY-MM. Note: In some markets, the date is not changed unless there is a score change in order to avoid unnecessary notifications. But in others, the score date changes even though the score does not change after the market recalculates the score.
organization.legalEvents.liens.filings.rolePlayers.startDate	[string] e.g.: 2017-10-30 The date when the role player originally started its business activities.
organization.legalEvents.liens.filings.rolePlayers.telephone	[array (object)] The details of the Telephone contact information used for voice communication with the organization.
organization.legalEvents.liens.filings.rolePlayers.telephone.isdCode	[string] e.g.: 1 A series of numbers that must be prefixed before dialing a telephone number in another Country, it is comprised of an International Dialing Prefix followed by the Country Code. These are also referred to as Country Calling Code or Country Dial-In Code.
organization.legalEvents.liens.filings.rolePlayers.telephone.isUnreachable	[boolean] e.g.: false Indicates whether the telephone number can be connected to successfully. - If true, connection to the telephone number is unsuccessful. - If false, connection to the telephone number is successful.

organization.legalEvents.liens.filings.rolePlayers.telephone.telephoneNumber	<p>[string] e.g.: 6505550000</p> <p>The primary voice telephone number for the business, when dialing domestically. The National Telephone Number is created by combining the Domestic Area Code and the Local Number.</p> <p>A Domestic Area Code is a series of numbers that must be prefixed before dialing a telephone number in another local area. National telecommunication authorities use various formats and dialing rules for area codes. Also known as City Code.</p> <p>A Local Number is a series of numbers that represents a specific telephone line.</p>
organization.legalEvents.liens.filings.rolePlayers.textEntry	<p>[array (object)]</p> <p>The details of data elements regarding the legal event filing which cannot be recorded in the other fields.</p>
organization.legalEvents.liens.filings.rolePlayers.textEntry.priority	<p>[integer] e.g.: 1</p> <p>A number that may be used to define the order in which this text entry should be presented relative to other occurrences of text entries where the lower the number the earlier the data is presented.</p>
organization.legalEvents.liens.filings.rolePlayers.textEntry.text	<p>[string] e.g.: Some text obtained from contact</p> <p>Text that has been recorded.</p>
organization.legalEvents.liens.filings.rolePlayers.textEntry.typeDescription	<p>[string] e.g.: Legal event</p> <p>Text entry type to qualify the information recorded in the text entries.</p>
organization.legalEvents.liens.filings.rolePlayers.textEntry.typeDnBCode	<p>[integer] e.g.: 1170</p> <p>A unique code assigned by Dun & Bradstreet to identify the text entry type. Refer to Reference code table "27 [Information Description]" for all possible values.</p>
organization.legalEvents.liens.filings.startDate	<p>[string] e.g.: 2016-09-30</p> <p>The date on or before which the event took place.</p>
organization.legalEvents.liens.filings.status	<p>[object]</p> <p>The details of the most recent situation for the legal event.</p>
organization.legalEvents.liens.filings.status.description	<p>[string] e.g.: Open</p> <p>The most recent situation for the legal event (e.g., pending, unsatisfied).</p>
organization.legalEvents.liens.filings.status.dnbCode	<p>[integer] e.g.: 11477</p> <p>A unique code assigned by Dun & Bradstreet to identify the most recent situation for the legal event. Refer to Reference code table "82 [Event Status]" for all possible values.</p>
organization.legalEvents.liens.filings.statusDate	<p>[string] e.g.: 2017-12-15</p> <p>The date when the situation changed.</p>
organization.legalEvents.liens.filings.textEntry	<p>[array (object)]</p> <p>The details of data elements regarding the legal event filing which cannot be recorded in the other fields.</p>

organization.legalEvents.liens.filings.textEntry.priority	[integer] e.g.: 1 A number that may be used to define the order in which this text entry should be presented relative to other occurrences of text entries where the lower the number the earlier the data is presented.
organization.legalEvents.liens.filings.textEntry.text	[string] e.g.: Some text obtained from contact Text that has been recorded.
organization.legalEvents.liens.filings.textEntry.typeDescription	[string] e.g.: Legal event Text entry type to qualify the information recorded in the text entries.
organization.legalEvents.liens.filings.textEntry.typeDnBCode	[integer] e.g.: 1170 A unique code assigned by Dun & Bradstreet to identify the text entry type. Refer to Reference code table "27 [Information Description]" for all possible values.
organization.legalEvents.liens.filings.textEntry.language	[object] Records the language in which this information is presented.
organization.legalEvents.liens.filings.textEntry.language.description	[string] e.g.: English Textual value denoting the language in which this information is recorded.
organization.legalEvents.liens.filings.textEntry.language.dnbCode	[integer] e.g.: 39 A unique code assigned by Dun & Bradstreet that denotes the language in which this information is recorded. Refer to Reference code table "3 [Language]" for all possible values.
organization.legalEvents.liens.filings.verifiedDate	[string] e.g.: 2017-10-30 The date Dun & Bradstreet reviewed the reported content of the Legal Event to ensure accuracy.
organization.legalEvents.debarments	[object] DO NOT USE. Please use organization.exclusions The details and the summarized views about the exclusion of the subject from participating in a procurement activity for an extended period of time as specified by law, because of previous illegal or irresponsible action.
organization.legalEvents.debarments.mostRecentFilingDate	[string] e.g.: 2016-09-26 DO NOT USE. Please use organization.exclusions.mostRecentActiveExclusionDate and organization.exclusions.mostRecentInactiveExclusionDate The date on which the latest filing covered by this summary has been received.
organization.legalEvents.debarments.mostRecentOpenFilingDate	[string] e.g.: 2020-10-09 DO NOT USE. Please use organization.exclusions.mostRecentActiveExclusionDate The date on which the latest filing covered by this summary with a status of Open has been received.
organization.legalEvents.debarments.totalCount	[string] e.g.: 15 DO NOT USE. Please use organization.exclusions.activeExclusionsCount AND

	organization.exclusions.inactiveExclusionsCount The total number of all legal events of the type covered by this summary.
organization.legalEvents.debarments.openCount	[string] e.g.: 3 DO NOT USE. Please use organization.exclusions.activeExclusionsCount The total number of all legal events of the type covered by this summary that has a status of Open.
organization.legalEvents.claims	[object] Records the legal action to obtain money, property, or the enforcement of a right against another party.
organization.legalEvents.claims.openCount	[integer] e.g.: 12 The number of filings that are in open status.
organization.legalEvents.claims.openAmount	[object] The details of the monetary value involved in the total open events of this event type.
organization.legalEvents.claims.openAmount.value	[number] e.g.: 123456789 The monetary value involved in the total open events of this event type.
organization.legalEvents.claims.openAmount.currency	[string] e.g.: USD The currency of the monetary value involved in the total open events of this event type, expressed in ISO Alpha3 code format.
organization.legalEvents.claims.filings	[array (object)] Records details about multiple legal action to obtain money, property, or the enforcement of a right against another party.
organization.legalEvents.claims.filings.activities	[array (object)] The activities that have taken place in pursuit of the claim.
organization.legalEvents.claims.filings.activities.activityDate	[string] e.g.: 2016-02-18 The date of an activity that has taken place in pursuit of the claim.
organization.legalEvents.claims.filings.activities.description	[string] e.g.: Actual The description of the legal process in which an entity declares inability to pay its debts.
organization.legalEvents.claims.filings.actualLegalHearingDate	[string] e.g.: 2019-10-12 Records the date on which the formal process associated with the Legal Event occurred; e.g., the date on which creditors filed claims, the date on which a bankruptcy petition was read, the date on which a trial hearing took place.
organization.legalEvents.claims.filings.assetClass	[array (object)] Records details of different groups of assets which are impacted by this Legal Event.
organization.legalEvents.claims.filings.assetClass.description	[string] e.g.: Property

	Text that describes the class of asset at a high level, e.g. Vehicles.
organization.legalEvents.claims.filings.assetClass.dnbCode	[integer] e.g.: 15616 A unique code assigned by Dun & Bradstreet that describes the class of asset at a high level, e.g. Vehicles. Refer to Reference code table "66 [Asset Class]" for all possible values.
organization.legalEvents.claims.filings.awardedAmount	[object] The details of the amount associated with a decision made by a court.
organization.legalEvents.claims.filings.awardedAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.claims.filings.awardedAmount.value	[number] e.g.: 1000000 The monetary value associated with a decision made by a court.
organization.legalEvents.claims.filings.collaterals	[array (object)] The details of the different types of assets used by the entity as security for this event.
organization.legalEvents.claims.filings.collaterals.collateralDetails	[array (object)] Records information about an individual item/asset that the subject has used as security for this Financing Event.
organization.legalEvents.claims.filings.collaterals.collateralDetails.isUsed	[boolean] e.g.: true When set to "true", this identifies that the collateral asset owned by the Subject is no longer considered a brand new item. When set to "false", this identifies that the collateral asset owned by the Subject is considered a brand new item.
organization.legalEvents.claims.filings.collaterals.collateralDetails.manufacturedYear	[string] e.g.: 2001 The year in which the construction of the item; e.g., a ship, was completed.
organization.legalEvents.claims.filings.collaterals.collateralDetails.manufactureName	[string] e.g.: Ford Motors The name of the business that built the item being held as collateral in a business transaction.
organization.legalEvents.claims.filings.collaterals.collateralDetails.modelName	[string] e.g.: Mustang An alphanumeric name assigned by the manufacturer to the asset; e.g., Mustang, RX8, Pavilion, T60, 747.
organization.legalEvents.claims.filings.collaterals.collateralDetails.modelYear	[string] e.g.: 2002 The year that the manufacturer assigned to the model based on the expected release of the model to the public.
organization.legalEvents.claims.filings.collaterals.collateralDet	[string] e.g.: VX1234

ails.serialNumber	A reference number or text assigned by the manufacturer for uniquely identifying the manufactured item.
organization.legalEvents.claims.filings.collaterals.collateralDetails.textEntry	[array (object)] Records multiple textual descriptions, language and nature of textual Collateral Details data for this Financing Event that cannot be recorded in the defined fields.
organization.legalEvents.claims.filings.collaterals.collateralDetails.textEntry.priority	[integer] e.g.: 1 A number which may be used to identify multiple occurrences of Text Entry as belonging together as part of the same block of text. Within a group the Display Sequence may then be used to ensure that the Text Entry occurrences within the group are presented in the correct order.
organization.legalEvents.claims.filings.collaterals.collateralDetails.textEntry.text	[string] e.g.: Company vehicle A textual description of a collateral associated with the Financing Event which cannot be recorded in any of the defined elements.
organization.legalEvents.claims.filings.collaterals.collateralDetails.textEntry.typeDescription	[string] e.g.: Financial Statement Additional Note Text Text which describes the type of Text; e.g., the title of the party associated with the Financing Event.
organization.legalEvents.claims.filings.collaterals.collateralDetails.textEntry.typeDnBCode	[integer] e.g.: 23916 A unique code assigned by Dun & Bradstreet which describes the type of Text; e.g., the title of the party associated with the Financing Event. Refer to Reference code table "27 [Information Description]" for all possible values.
organization.legalEvents.claims.filings.collaterals.collateralSupplementalItems	[array (object)] Records kinds of supplemental items, (e.g., Products, Proceeds), that are included as security along with the identified collateral for the given Collateral Type.
organization.legalEvents.claims.filings.collaterals.collateralSupplementalItems.description	[string] e.g.: Proceeds Text that specifies the kind of supplemental items, (e.g., Products, Proceeds), that are included as security along with the identified collateral item for the given Collateral Type. The items in this example are produced as output of the asset (e.g., manufacturing plant) that the subject is using for collateral.
organization.legalEvents.claims.filings.collaterals.collateralSupplementalItems.dnbCode	[integer] e.g.: 11290 A unique code assigned by Dun & Bradstreet that specifies the kind of supplemental items, (e.g., Products, Proceeds), that are included as security along with the identified collateral item for the given Collateral Type. The items in this example are produced as output of the asset (e.g., manufacturing plant) that the subject is using for collateral. Refer to Reference code table "268 [Collateral Supplemental Item Type]" for all possible values.
organization.legalEvents.claims.filings.collaterals.itemQuantity	[integer] e.g.: 25 The number of assets that the subject is using as collateral for the particular Collateral Type.
organization.legalEvents.claims.filings.collaterals.quantity	[integer] e.g.: 15 The number of assets that the subject is using as collateral for the particular collateral type.

organization.legalEvents.claims.filings.collaterals.scope	[object] Records the scope of the assets used by a debtor as security as recorded in the Financing Event; e.g., All items for the Collateral Type are included, only the items that are leased for the Collateral Type are included
organization.legalEvents.claims.filings.collaterals.scope.description	[string] e.g.: Leased Text that indicates the scope of the assets used by a debtor as security as recorded in the Financing Event; e.g., All items for the Collateral Type are included, only the items that are leased for the Collateral Type are included
organization.legalEvents.claims.filings.collaterals.scope.dnbCode	[integer] e.g.: 11288 A unique code assigned by Dun & Bradstreet which indicates the scope of the assets used by a debtor as security as recorded in the Financing Event; e.g., All items for the Collateral Type are included, only the items that are leased for the Collateral Type are included Refer to Reference code table "267 [Collateral Scope]" for all possible values.
organization.legalEvents.claims.filings.collaterals.supplementalItems	[array (object)] Records the kinds of supplemental items, (e.g., Products, Proceeds), that are included as security along with the identified collateral for the given collateral type.
organization.legalEvents.claims.filings.collaterals.supplementalItems.description	[string] e.g.: Products Text which describes the kinds of supplemental items, (e.g., Products, Proceeds), that are included as security along with the identified collateral for the given collateral type.
organization.legalEvents.claims.filings.collaterals.supplementalItems.dnbCode	[integer] e.g.: 11289 A unique code assigned by Dun & Bradstreet which describes the kinds of supplemental items, (e.g., Products, Proceeds), that are included as security along with the identified collateral for the given collateral type. Refer to Reference code table "268 [Collateral Supplemental Item Type]" for all possible values.
organization.legalEvents.claims.filings.collaterals.textEntry	[array (object)] Records the textual description, language and nature of collateral type information.
organization.legalEvents.claims.filings.collaterals.textEntry.text	[string] e.g.: Vehicles Free form textual description, language and nature of collateral type information.
organization.legalEvents.claims.filings.collaterals.textEntry.typeDescription	[string] e.g.: Financial Statement Additional Note Text Text that describes the type of textual description, language and nature of collateral type information.
organization.legalEvents.claims.filings.collaterals.textEntry.typeDnbCode	[integer] e.g.: 23916 A unique code assigned by Dun & Bradstreet describing the type of textual description, language and nature of collateral type information. Refer to Reference code table "27 [Information Description]" for all possible values.
organization.legalEvents.claims.filings.collateralScopeType	[object]

	Records the scope of the assets used by a debtor as security as recorded in the Financing Event; e.g., All items for the Collateral Type are included, only the items that are leased for the Collateral Type are included
organization.legalEvents.claims.filings.collateralScopeType.description	[string] e.g.: Leased Text which indicates the scope of the assets used by a debtor as security as recorded in the Financing Event; e.g., All items for the Collateral Type are included, only the items that are leased for the Collateral Type are included
organization.legalEvents.claims.filings.collateralScopeType.dnbCode	[integer] e.g.: 11288 A unique code assigned by Dun & Bradstreet which indicates the scope of the assets used by a debtor as security as recorded in the Financing Event; e.g., All items for the Collateral Type are included, only the items that are leased for the Collateral Type are included Refer to Reference code table "267 [Collateral Scope]" for all possible values.
organization.legalEvents.claims.filings.contactEvents	[array (object)] The details on communications Dun & Bradstreet had with persons to get information on this event.
organization.legalEvents.claims.filings.contactEvents.address	[object] The details of the address used by the entity for mailing purposes.
organization.legalEvents.claims.filings.contactEvents.address.addressCountry	[object] The details of the country or region for this address of the organization.
organization.legalEvents.claims.filings.contactEvents.address.addressCountry.isoAlpha2Code	[string] e.g.: US The 2 letter alpha country code assigned by the International Organization for Standardization (ISO) identifying the Country/Region for this address of the organization. Note: Please refer to Country Code Substitutions Table [/html/resources/CountryCodes.html#country-substitute] for the country code substitutions.
organization.legalEvents.claims.filings.contactEvents.comments	[array (object)] Records notes from the contact providing further information regarding the subject's event.
organization.legalEvents.claims.filings.contactEvents.comments.description	[string] e.g.: Financing Statement was assigned Text that expresses a note collected from this contact providing further information about this event.
organization.legalEvents.claims.filings.contactEvents.comments.dnbCode	[integer] e.g.: 14767 A unique code assigned by Dun & Bradstreet that expresses a note collected from this contact providing further information about this event. Refer to Reference code table "429 [Event Comment]" for all possible values.
organization.legalEvents.claims.filings.contactEvents.contactDate	[string] e.g.: 2017-11-25 The date when the communication took place.

organization.legalEvents.claims.filings.contactEvents.duns	[string] e.g.: 804735132 The D-U-N-S® Number, a proprietary organizational identifier owned and managed by Dun & Bradstreet Inc, provides unique identification of a subject organization, in accordance with the Data Universal Numbering System (D-U-N-S®).
organization.legalEvents.claims.filings.contactEvents.name	[string] e.g.: John Smith The name of the contact which may be either an individual or an entity.
organization.legalEvents.claims.filings.contactEvents.nonSpecificSource	[object] The details, in general terms, about the supplier of the Financial Statement.
organization.legalEvents.claims.filings.contactEvents.nonSpecificSource.description	[string] e.g.: Trustee Describes the supplier of the Financial Statement (e.g., Official Registry, Accountant, the Subject).
organization.legalEvents.claims.filings.contactEvents.nonSpecificSource.dnbCode	[integer] e.g.: 15735 A unique code assigned by Dun & Bradstreet to identify, in general terms, the supplier from which this data was originally obtained by Dun & Bradstreet. Refer to Reference code table "35 [Role Player Type Non-Specific]" for all possible values.
organization.legalEvents.claims.filings.contactEvents.organizationName	[string] e.g.: ABC Corp The name of the contact, when this is a company.
organization.legalEvents.claims.filings.contactEvents.positions	[array (object)] The details on the job position the principal or manager holds or has held in the entity.
organization.legalEvents.claims.filings.contactEvents.positions.description	[string] e.g.: Chairman Executive Committee The job position the principal or manager holds or has held in the entity (e.g., Financial Director, Managing Director, Sales Director, Operations Manager).
organization.legalEvents.claims.filings.contactEvents.positions.dnbCode	[integer] e.g.: 95 A unique code assigned by Dun & Bradstreet to identify the job position the principal or manager holds or has held in the entity. Refer to Reference code table "5 [Position] & 198 [Employee Position]" for all possible values.
organization.legalEvents.claims.filings.contactEvents.positions.jobTitles	[array (object)] Records several different Vanity Titles for the person with whom D&B had contact to get information on this event.
organization.legalEvents.claims.filings.contactEvents.positions.jobTitles.title	[string] e.g.: Senior Director of Finance A textual presentation of the position as preferred by the person with whom D&B had contact to get information on this event, e.g., Position Code might equate to Financial Director, however, the Vanity Title might be 'Senior Director of Finance'.
organization.legalEvents.claims.filings.contactEvents.positions.positionClass	[object] The details that define the class of the position.

organization.legalEvents.claims.filings.contactEvents.position s.positionStanding	[object] Details of the capacity or standing in which the individual holds this specific position.
organization.legalEvents.claims.filings.contactEvents.position s.positionStanding.description	[string] e.g.: Acting The capacity or standing in which the individual holds this specific position.
organization.legalEvents.claims.filings.contactEvents.position s.positionStanding.dnbCode	[integer] e.g.: 336 A unique code assigned by Dun & Bradstreet to identify the capacity in which the position is held. Refer to Reference code table "195 [Position Standing]" for all possible values.
organization.legalEvents.claims.filings.contactEvents.position s.priority	[integer] e.g.: 1 A number that may be used to define the order in which the Position should be presented relative to any other occurrences of Position where lower the number the earlier the data is presented.
organization.legalEvents.claims.filings.contactEvents.position s.startDate	[string] e.g.: 2017-08-23 The date when the principal or manager was appointed to this position. This is not necessarily the date when the principal or manager was first employed by the subject; it is the date when they moved to this position.
organization.legalEvents.claims.filings.contactEvents.results	[array (object)] The details of the outcomes this Legal Event had or is having on the entity.
organization.legalEvents.claims.filings.contactEvents.results.r esult	[object] The details of the outcome this event had or is having on the party involved in the event.
organization.legalEvents.claims.filings.contactEvents.results.r esult.description	[string] e.g.: Settled The outcome this event had or is having on the party involved in the event (e.g., Petition Dismissed, Liquidator Appointed, Counter claim filed by the defendant in a lawsuit).
organization.legalEvents.claims.filings.contactEvents.results.r esult.dnbCode	[integer] e.g.: 11466 A unique code assigned by Dun & Bradstreet that describes the outcome this event had or is having. Refer to Reference code table "86 [Event Result]" for all possible values.
organization.legalEvents.claims.filings.contactEvents.results.r esultDate	[string] e.g.: 2017-10-30 The date the outcome of the event occurred.
organization.legalEvents.claims.filings.contactEvents.rolePlay ers	[array (object)] The details of role players involved in a Legal Event as recorded in court papers and identifies the part each one plays.
organization.legalEvents.claims.filings.contactEvents.rolePlay ers.rolePlayerType	[object] The details of the role player's function in the event.
organization.legalEvents.claims.filings.contactEvents.rolePlay ers.rolePlayerType.description	[string] e.g.: Shareholder The function played by this party in the event (e.g., debtor, creditor, liquidator, shareholder, court, plaintiff,

defendant).

organization.legalEvents.claims.filings.contactEvents.rolePlayers.rolePlayerType.dnbCode	[integer] e.g.: 302 A unique code assigned by Dun & Bradstreet to identify the function played by this party in the event. Refer to Reference code table "10 [Role Player Type]" for all possible values.
organization.legalEvents.claims.filings.contactEvents.textEntry	[array (object)] The details of data elements regarding the legal event filing which cannot be recorded in the other fields.
organization.legalEvents.claims.filings.contactEvents.textEntry.priority	[integer] e.g.: 1 A number that may be used to define the order in which this text entry should be presented relative to other occurrences of text entries where the lower the number the earlier the data is presented.
organization.legalEvents.claims.filings.contactEvents.textEntry.text	[string] e.g.: Some text obtained from contact Text that has been recorded.
organization.legalEvents.claims.filings.contactEvents.textEntry.typeDescription	[string] e.g.: Legal event Text entry type to qualify the information recorded in the text entries.
organization.legalEvents.claims.filings.contactEvents.textEntry.typeDnBCode	[integer] e.g.: 1170 A unique code assigned by Dun & Bradstreet to identify the text entry type. Refer to Reference code table "27 [Information Description]" for all possible values.
organization.legalEvents.claims.filings.courtAddress	[object] The details of the Primary Address at which the organization is located or conducts operations.
organization.legalEvents.claims.filings.courtAddress.addressCountry	[object] The details of the country of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.claims.filings.courtAddress.addressCountry.isoAlpha2Code	[string] e.g.: US The two-letter country code, defined by the International Organization for Standardization (ISO) ISO 3166-1 scheme identifying the country of the legal chambers where the hearing has taken place or will take place. Note: Please refer to Country Code Substitutions Table [/html/resources/CountryCodes.html#country-substitute] for the country code substitutions.
organization.legalEvents.claims.filings.courtAddress.addressCountry.name	[string] e.g.: United States The name of the country in which the legal chambers are located.
organization.legalEvents.claims.filings.courtAddress.addressCounty	[object] The details of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.claims.filings.courtAddress.addressCounty.name	[string] e.g.: Morris The name of a county of the legal chambers where the hearing has taken place or will take place.

organization.legalEvents.claims.filings.courtAddress.addressLocality	[object] The details of a city, town, township, village, borough, etc. of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.claims.filings.courtAddress.addressLocality.name	[string] e.g.: Short Hills The name of a city, town, township, village, borough, etc. of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.claims.filings.courtAddress.addressRegion	[object] The name of the geographical area for this address of the organization. For Example New Jersey.
organization.legalEvents.claims.filings.courtAddress.addressRegion.abbreviatedName	[string] e.g.: NJ The shortened name of the geographical area for this address of the organization. For example NJ for the US State New Jersey within Country United States.
organization.legalEvents.claims.filings.courtAddress.addressRegion.name	[string] e.g.: New Jersey The name of a locally governed area which forms part of a centrally governed nation to identify the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.claims.filings.courtAddress.continentalRegion	[object] The details of the region as defined by Dun & Bradstreet for this address.
organization.legalEvents.claims.filings.courtAddress.continentalRegion.name	[string] e.g.: North America The name of the region as defined by Dun & Bradstreet for this address.
organization.legalEvents.claims.filings.courtAddress.postalCode	[string] e.g.: 7078 An identifier used by the local country Postal Authority to identify the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.claims.filings.courtAddress.streetAddress	[object] The details such as address number, or post office box number and street name of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.claims.filings.courtAddress.streetAddress.line1	[string] e.g.: 103 JFK Pkwy The first line of the address of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.claims.filings.courtAddress.streetAddress.line2	[string] e.g.: 101 JFK Pkwy The second line of the address of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.claims.filings.courtName	[string] e.g.: Superior Court of Some State The name of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.claims.filings.courtType	[object] Records the nature of the legal body at which the legal event was heard or decreed. This may describe the area of law in which the court specializes (e.g. court of employment) or the legal seniority of the court (e.g.

	high court, supreme court etc.)
organization.legalEvents.claims.filings.courtType.description	[string] e.g.: County text that describes the nature of the legal body at which the legal event was heard or decreed. This may describe the area of law in which the court specializes (e.g. court of employment) or the legal seniority of the court (e.g. high court, supreme court etc.)
organization.legalEvents.claims.filings.courtType.dnbCode	[integer] e.g.: 5337 A unique code assigned by Dun & Bradstreet that describes the nature of the legal body at which the legal event was heard or decreed. This may describe the area of law in which the court specializes (e.g. court of employment) or the legal seniority of the court (e.g. high court, supreme court etc.) Refer to Reference code table "132 [Court Type]" for all possible values.
organization.legalEvents.claims.filings.creditorCategories	[array (object)] The different classifications of creditors to whom money is owed by the entity. The priority in which the creditors are paid is based on the assigned classification.
organization.legalEvents.claims.filings.creditorCategories.claimAmount	[object] The details of the amount owed to this category of creditors.
organization.legalEvents.claims.filings.creditorCategories.claimAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.claims.filings.creditorCategories.claimAmount.value	[number] e.g.: 43095 The amount owed to this category of creditors.
organization.legalEvents.claims.filings.creditorCategories.creditorType	[object] The details of the category of the creditor.
organization.legalEvents.claims.filings.creditorCategories.creditorType.description	[string] e.g.: Federal Government (US) The category of creditors indicating the priority in which they are paid relative to other categories (e.g., preferred, secured).
organization.legalEvents.claims.filings.creditorCategories.creditorType.dnbCode	[integer] e.g.: 10947 A unique code assigned by Dun & Bradstreet to identify the category of the creditors to whom money is owed by the entity. Refer to Reference code table "226 [Creditor Type]" for all possible values.
organization.legalEvents.claims.filings.dataProvider	[object] The details of the data provider.
organization.legalEvents.claims.filings.dataProvider.description	[string] e.g.: US Small Business Administration The source from which this data was originally obtained by Dun & Bradstreet.

organization.legalEvents.claims.filings.dataProvider.dnbCode	<p>[integer] e.g.: 21238</p> <p>A unique code assigned by Dun & Bradstreet to identify the source from which this data was originally obtained.</p> <p>Refer to Reference code table "29 [Data Provider]" for all possible values.</p>
organization.legalEvents.claims.filings.endDate	<p>[string] e.g.: 2017-10-31</p> <p>The date indicates that the Legal Event procedure ended.</p>
organization.legalEvents.claims.filings.endIndicator	<p>[boolean] e.g.: false</p> <p>When set to "true" this indicates that the Event has ceased, i.e., this is historical information.</p> <p>When set to "false" this indicates that the Event is still outstanding or ongoing, i.e., this is current information; however as this is the assumed condition there is no requirement to create this tag to represent this fact.</p>
organization.legalEvents.claims.filings.eventDuration	<p>[string] e.g.: 12 months</p> <p>The amount of time this event lasted.</p>
organization.legalEvents.claims.filings.filingAmount	<p>[object]</p> <p>The details of the amount of relief sought by all of the plaintiffs in the suit.</p>
organization.legalEvents.claims.filings.filingAmount.currency	<p>[string] e.g.: USD</p> <p>The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).</p>
organization.legalEvents.claims.filings.filingAmount.value	<p>[number] e.g.: 1000000</p> <p>The total amount of relief sought by all of the plaintiffs in the suit.</p>
organization.legalEvents.claims.filings.filingAmountComparisonType	<p>[object]</p> <p>Specifies the operator that may be used as the basis of data comparisons between two values; e.g., greater than, less than, equal to. In some cases only one of two values being compared is recorded, while the other value could be derived or become available at a later date. For example, the value to be awarded must be "Less Than" the value recorded.</p>
organization.legalEvents.claims.filings.filingAmountComparisonType.description	<p>[string] e.g.: less than</p> <p>Text that specifies the operator that may be used as the basis of data comparisons between two values; e.g., greater than, less than, equal to. In some cases only one of two values being compared is recorded, while the other value could be derived or become available at a later date. For example, the value to be awarded must be "Less Than" the value recorded.</p>
organization.legalEvents.claims.filings.filingAmountComparisonType.dnbCode	<p>[integer] e.g.: 16804</p> <p>A unique code assigned by Dun & Bradstreet that specifies the operator that may be used as the basis of data comparisons between two values; e.g., greater than, less than, equal to. In some cases only one of two values being compared is recorded, while the other value could be derived or become available at a</p>

	<p>later date. For example, the value to be awarded must be "Less Than" the value recorded. Refer to Reference code table "410 [Comparison Operator]" for all possible values.</p>
organization.legalEvents.claims.filings.filingChapter	<p>[string] e.g.: 11 The chapter that applies to the filing of this event.</p>
organization.legalEvents.claims.filings.filingClass	<p>[object] The broad class into which the Event is categorized. E.g. Bankruptcy / Insolvency, Administration / Receivership, Liquidation / Dissolution</p>
organization.legalEvents.claims.filings.filingClass.description	<p>[string] e.g.: Suit/Financial Judgement/Lien Text identifying the broad class into which the Event is categorized. E.g. Bankruptcy / Insolvency, Administration / Receivership, Liquidation / Dissolution</p>
organization.legalEvents.claims.filings.filingClass.dnbCode	<p>[integer] e.g.: 1886 A unique code assigned by Dun & Bradstreet to identify the broad class into which the Event is categorized. E.g. Bankruptcy / Insolvency, Administration / Receivership, Liquidation / Dissolution Refer to Reference code table "183 [Legal Event Class]" for all possible values.</p>
organization.legalEvents.claims.filings.filingDate	<p>[string] e.g.: 2017-10-30 The date on which this event took place.</p>
organization.legalEvents.claims.filings.filingMedium	<p>[string] e.g.: Docket The medium in which the filing is recorded.</p>
organization.legalEvents.claims.filings.filingReference	<p>[string] e.g.: D5QZ52TC The identifier given by a registry body to the official filed document that contains this legal event information.</p>
organization.legalEvents.claims.filings.filingReferenceDate	<p>[array (object)] The details of the dates relevant to a document (e.g., Date Filed, Date Published). Note: This array of dates should only be used when the user needs to know any additional dates other than the discrete date elements defined.</p>
organization.legalEvents.claims.filings.filingReferenceDate.referenceDate	<p>[string] e.g.: 2018-07-25 A date relating to a document that has been registered with an official body.</p>
organization.legalEvents.claims.filings.filingReferenceDate.referenceType	<p>[object] The details of the relevance of the date recorded.</p>
organization.legalEvents.claims.filings.filingReferenceDate.referenceType.description	<p>[string] e.g.: Date Filed The relevance of the date recorded.</p>
organization.legalEvents.claims.filings.filingReferenceDate.referenceType.dnbCode	<p>[integer] e.g.: 12137 A unique code assigned by Dun & Bradstreet to identify the relevance of the date recorded.</p>

Refer to Reference code table "322 [Filing Reference Date Type]" for all possible values.

organization.legalEvents.claims.filings.filingReferenceDate.result	[object] The details of the relevance of the date recorded.
organization.legalEvents.claims.filings.filingReferenceDate.result.description	[string] e.g.: Date Filed The relevance of the date recorded.
organization.legalEvents.claims.filings.filingReferenceDate.result.dnbCode	[integer] e.g.: 12137 A unique code assigned by Dun & Bradstreet to identify the relevance of the date recorded. Refer to Reference code table "322 [Filing Reference Date Type]" for all possible values.
organization.legalEvents.claims.filings.filingReferenceDate.resultDate	[string] e.g.: 2018-07-25 A date relating to a document that has been registered with an official body.
organization.legalEvents.claims.filings.filingResults	[array (object)] The details of the outcomes this Legal Event had or is having on the entity.
organization.legalEvents.claims.filings.filingResults.result	[object] The details of the outcome this event had or is having on the party involved in the event.
organization.legalEvents.claims.filings.filingResults.result.description	[string] e.g.: Settled The outcome this event had or is having on the party involved in the event (e.g., Petition Dismissed, Liquidator Appointed, Counter claim filed by the defendant in a lawsuit).
organization.legalEvents.claims.filings.filingResults.result.dnbCode	[integer] e.g.: 11466 A unique code assigned by Dun & Bradstreet that describes the outcome this event had or is having. Refer to Reference code table "86 [Event Result]" for all possible values.
organization.legalEvents.claims.filings.filingResults.resultDate	[string] e.g.: 2017-10-30 The date the outcome of the event occurred.
organization.legalEvents.claims.filings.filingResults.subsequentEvents	[array (object)] Records several different events that occur throughout the life cycle of an overriding legal event process, e.g., meeting of creditors related to a Bankruptcy process.
organization.legalEvents.claims.filings.filingResults.subsequentEvents.eventPlanDate	[string] e.g.: 2018-02-25 The date and time when the later event described by Event Result Code is expected to occur as an outcome of this event.
organization.legalEvents.claims.filings.filingResults.subsequentEvents.locationDescription	[string] e.g.: Attorney Office Text that describes the place where the later event described by filing result is expected to occur as an outcome of this event.
organization.legalEvents.claims.filings.filingSubType	[object]

	The details of the lower-level category of the event that has been registered or recorded against the entity.
organization.legalEvents.claims.filings.filingSubType.description	[string] e.g.: Filing of list of Creditors The lower-level category of the event that has been registered or recorded against the entity.
organization.legalEvents.claims.filings.filingSubType.dnbCode	[integer] e.g.: 21196 A unique code assigned by Dun & Bradstreet to identify the sub-type. Refer to Reference code table "112 [Legal Event Sub Type]" for all possible values.
organization.legalEvents.claims.filings.filingType	[object] The details of the type of event that has been registered or recorded against the entity.
organization.legalEvents.claims.filings.filingType.description	[string] e.g.: County Court Judgement The type of event that has been registered or recorded against the entity.
organization.legalEvents.claims.filings.filingType.dnbCode	[integer] e.g.: 2515 A unique code assigned by Dun & Bradstreet to identify the type of event that has been registered or recorded against the entity. Refer to Reference code table "24 [Legal Event Type]" for all possible values.
organization.legalEvents.claims.filings.financials	[object] The details of the standardized summary view of the financial results (actual or estimated) for the organization.
organization.legalEvents.claims.filings.financials.accountantName	[string] e.g.: Johnson, Jordan & Jones CPAs The name of either an individual or an accounting firm.
organization.legalEvents.claims.filings.financials.balanceSheet	[object] The details of the Latest Financials' balance sheet statement which summarizes the organization's assets, liabilities, and shareholder's equity at a specific point in time.
organization.legalEvents.claims.filings.financials.balanceSheet.assets	[object] The details of the assets on the balance sheet.
organization.legalEvents.claims.filings.financials.balanceSheet.assets.currentAssets	[object] Assets that are held for short term; raw materials that are bought, made up, sold as finished goods and eventually paid for.
organization.legalEvents.claims.filings.financials.balanceSheet.assets.currentAssets.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.claims.filings.financials.balanceSheet.assets.currentAssets.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.claims.filings.financials.balanceSheet	[string] e.g.: Equity Interests In Associated Companies

t.assets.currentAssets.statementItems.itemKey.description	Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.claims.filings.financials.balanceSheet.assets.currentAssets.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.claims.filings.financials.balanceSheet.assets.currentAssets.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.claims.filings.financials.balanceSheet.assets.longTermAssets	[object] The details of the long-term asset items within the Latest Financials Balance Sheet i.e., items expected to be realized in more than 12 months.
organization.legalEvents.claims.filings.financials.balanceSheet.assets.longTermAssets.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.claims.filings.financials.balanceSheet.assets.longTermAssets.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.claims.filings.financials.balanceSheet.assets.longTermAssets.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.claims.filings.financials.balanceSheet.assets.longTermAssets.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.claims.filings.financials.balanceSheet.assets.longTermAssets.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.claims.filings.financials.balanceSheet.assets.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.claims.filings.financials.balanceSheet.assets.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.claims.filings.financials.balanceSheet.assets.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.claims.filings.financials.balanceSheet.assets.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.

organization.legalEvents.claims.filings.financials.balanceSheet.assets.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.claims.filings.financials.balanceSheet.liabilities	[object] The legal debts or obligations of a company that arise during the course of business operations. Liabilities are settled over time through the transfer of economic benefits including money, goods, or services.
organization.legalEvents.claims.filings.financials.balanceSheet.liabilities.currentLiabilities	[object] The details of the entity's total value of all obligations to pay out cash at some date in the near future.
organization.legalEvents.claims.filings.financials.balanceSheet.liabilities.currentLiabilities.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.claims.filings.financials.balanceSheet.liabilities.currentLiabilities.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.claims.filings.financials.balanceSheet.liabilities.currentLiabilities.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.claims.filings.financials.balanceSheet.liabilities.currentLiabilities.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.claims.filings.financials.balanceSheet.liabilities.currentLiabilities.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.claims.filings.financials.balanceSheet.liabilities.equity	[object] The details of the share capital/stock originally invested by shareholders/stockholders plus any reserves that have arisen, such as retained profits, that were ploughed back into the firm. Also known as Net Worth.
organization.legalEvents.claims.filings.financials.balanceSheet.liabilities.equity.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.claims.filings.financials.balanceSheet.liabilities.equity.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.claims.filings.financials.balanceSheet.liabilities.equity.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.claims.filings.financials.balanceSheet.liabilities.equity.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.

organization.legalEvents.claims.filings.financials.balanceSheet.liabilities.equity.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.claims.filings.financials.balanceSheet.liabilities.longTermLiabilities	[object] The details of the entity's total value of all obligations to pay out cash at some date in the future but not within one year.
organization.legalEvents.claims.filings.financials.balanceSheet.liabilities.longTermLiabilities.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.claims.filings.financials.balanceSheet.liabilities.longTermLiabilities.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.claims.filings.financials.balanceSheet.liabilities.longTermLiabilities.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.claims.filings.financials.balanceSheet.liabilities.longTermLiabilities.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.claims.filings.financials.balanceSheet.liabilities.longTermLiabilities.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.claims.filings.financials.balanceSheet.liabilities.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.claims.filings.financials.balanceSheet.liabilities.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.claims.filings.financials.balanceSheet.liabilities.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.claims.filings.financials.balanceSheet.liabilities.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.claims.filings.financials.balanceSheet.liabilities.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.claims.filings.financials.balanceSheet.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.

organization.legalEvents.claims.filings.financials.balanceSheet.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.claims.filings.financials.balanceSheet.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.claims.filings.financials.balanceSheet.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.claims.filings.financials.balanceSheet.statementItems.parentItemKey	[object] Records the higher level financial figure to which this item belongs to.
organization.legalEvents.claims.filings.financials.balanceSheet.statementItems.parentItemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.claims.filings.financials.balanceSheet.statementItems.parentItemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.claims.filings.financials.balanceSheet.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.claims.filings.financials.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.claims.filings.financials.filingDate	[string] e.g.: 2018-02-01 The date when the company filed its Latest Financials' financial statement with an official registry.
organization.legalEvents.claims.filings.financials.financialStatementFromDate	[string] e.g.: 2010-03-14 The date on which the accounting period of the Latest Financials' financial statement commenced.
organization.legalEvents.claims.filings.financials.financialStatementToDate	[string] e.g.: 2016-12-31 The date associated with the financial results. When the values are from a financial statement, it represents the date the accounting period ended. When it is an estimated or modeled value, it is the date on which the data was submitted.
organization.legalEvents.claims.filings.financials.informationScope	[object] The details of the organizational scope of the Latest Financials' financial statement.
organization.legalEvents.claims.filings.financials.informationScope	[string] e.g.: Consolidated

cope.description	The organizational scope of the values within the Summary Financials section. Individual means it represents a single organization inclusive of any branches. Consolidated means it represents an organization inclusive of any branches and any subsidiaries.
organization.legalEvents.claims.filings.financials.informationScope.dnbCode	[integer] e.g.: 9067 A unique code assigned by Dun & Bradstreet to identify the organizational scope of the Summary Financials values. Refer to Reference code table "192 [Information Scope]" for all possible values.
organization.legalEvents.claims.filings.financials.isAudited	[boolean] e.g.: true Indicates if the Latest Financials' accounts have been reviewed by a qualified accountant independent of the organization and the accountant has signed the financial statement certifying it is accurate and complete.
organization.legalEvents.claims.filings.financials.isFinal	[boolean] e.g.: true Indicates whether the financial figures are for the entity's closing statement. - If true, the financial figures are for the entity's closing statement. - If false, the financial figures are not for the entity's closing statement.
organization.legalEvents.claims.filings.financials.isFiscal	[boolean] e.g.: true Indicates whether the Latest Financials' financial figures cover a full year accounting period.
organization.legalEvents.claims.filings.financials.profitAndLossStatement	[object] The details of the Latest Financials' profit and loss (P&L) statement which summarizes the revenues, costs and expenses incurred during a specified accounting period. The P&L statement is synonymous with the income statement.
organization.legalEvents.claims.filings.financials.profitAndLossStatement.notes	[string] e.g.: Representative's comments Comments made by a representative
organization.legalEvents.claims.filings.financials.profitAndLossStatement.projectedAnnualSales	[string] e.g.: Some information about projected sales Information about the projected annual sales.
organization.legalEvents.claims.filings.financials.profitAndLossStatement.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.claims.filings.financials.profitAndLossStatement.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.claims.filings.financials.profitAndLossStatement.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.claims.filings.financials.profitAndLossStatement.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in

	<p>Item Amount.</p> <p>Refer to Reference code table "33 [Financial Statement Item]" for all possible values.</p>
organization.legalEvents.claims.filings.financials.profitAndLossStatement.statementItems.value	<p>[number] e.g.: 10584</p> <p>Monetary value of a Financial Statement Item.</p>
organization.legalEvents.claims.filings.financials.receivedTimeStamp	<p>[string] e.g.: 2018-04-06T16:33:21.443Z</p> <p>The date and time, in ISO 8601 UTC Z standard, when Dun & Bradstreet or one of Dun & Bradstreet's strategic partners received this financial statement.</p>
organization.legalEvents.claims.filings.financials.reliability	<p>[object]</p> <p>The details of the integrity of the figures in the Latest Financials' financial statement.</p>
organization.legalEvents.claims.filings.financials.reliability.description	<p>[string] e.g.: Actual</p> <p>The integrity of the financial figures present within the Summary Financials section (e.g., actual, estimated, or modeled).</p>
organization.legalEvents.claims.filings.financials.reliability.dnbCode	<p>[integer] e.g.: 9092</p> <p>A unique code assigned by Dun & Bradstreet to identify the precision of the financial figures present within the Summary Financials section.</p> <p>Refer to Reference code table "171 [Reliability]" for all possible values.</p>
organization.legalEvents.claims.filings.financials.units	<p>[string] e.g.: SingleUnits</p> <p>The unit size (e.g., units, thousands, millions) in which the figures in the Latest Financials' financial statement are stated.</p>
organization.legalEvents.claims.filings.hasHistoricalEvent	<p>[boolean] e.g.: true</p> <p>Indicates whether the entity is associated with a historical event.</p> <ul style="list-style-type: none"> - If true, the entity has been part of a historical event. - If false, the entity has not been part of a historical event.
organization.legalEvents.claims.filings.impactAmount	<p>[object]</p> <p>Records the income acquired by the subject as a result of this legal event; e.g. the income acquired as a result of the sale of the subject's assets.</p>
organization.legalEvents.claims.filings.impactAmount.currency	<p>[string] e.g.: USD</p> <p>The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).</p>
organization.legalEvents.claims.filings.impactAmount.value	<p>[number] e.g.: 125000.25</p> <p>The monetary value for the income acquired by the subject as a result of this legal event; e.g. the income acquired as a result of the sale of the subject's assets.</p>

organization.legalEvents.claims.filings.isStopD	<p>[boolean] e.g.: true</p> <p>When set to "true" this indicates that D&B should not fabricate or supply this Legal Event in products and services. Note: One exception to this business rule is the Public Records report which would disregard this indicator setting.</p> <p>When set to "false" this indicates that D&B can fabricate or supply this Legal Event in products and services; however as this is the assumed condition there is no requirement to create this tag to represent this fact.</p>
organization.legalEvents.claims.filings.jurisdictionType	<p>[object]</p> <p>Describes the level of government applying the laws applicable to the event, e.g., federal, state.</p>
organization.legalEvents.claims.filings.jurisdictionType.description	<p>[string] e.g.: County</p> <p>Text that describes the level of government applying the laws applicable to the event, e.g., federal, state.</p>
organization.legalEvents.claims.filings.jurisdictionType.dnbCode	<p>[integer] e.g.: 14809</p> <p>A unique code assigned by Dun & Bradstreet that describes the level of government applying the laws applicable to the event, e.g., federal, state.</p> <p>Refer to Reference code table "434 [Jurisdiction Type]" for all possible values.</p>
organization.legalEvents.claims.filings.legalHearingDate	<p>[string] e.g.: 2019-10-12</p> <p>Records the date of a formal process associated with the Legal Event e.g. the date by which creditors' claims must be filed, the future date for the reading of a bankruptcy petition.</p>
organization.legalEvents.claims.filings.originalFilingDate	<p>[string] e.g.: 2017-10-30</p> <p>The date of the initial filing of the event.</p>
organization.legalEvents.claims.filings.parentBankruptcy	<p>[object]</p> <p>The details of a bankruptcy filed by the parent entity.</p>
organization.legalEvents.claims.filings.parentBankruptcy.duns	<p>[string] e.g.: 804735132</p> <p>The D-U-N-S® Number, a proprietary organizational identifier owned and managed by Dun & Bradstreet Inc, provides unique identification of a subject organization, in accordance with the Data Universal Numbering System (D-U-N-S®).</p>
organization.legalEvents.claims.filings.priority	<p>[string] e.g.: 5</p> <p>A number that may be used to define the order in which the legal event should be presented relative to the other legal events where the lower the number the earlier the data is presented. Events within the same legal process can be identified using the priority group.</p>
organization.legalEvents.claims.filings.priorityGroup	<p>[string] e.g.: 2</p> <p>A number that may be used to identify multiple legal events as belonging together as part of the same overall legal process. Within a group the priority may then be used to ensure that the legal events within the group are presented continuously and in the correct order.</p>
organization.legalEvents.claims.filings.publishedDate	<p>[string] e.g.: 2011-02-14</p>

	The date to support the recording of the Publication Date for an official document registered with an Official Body.
organization.legalEvents.claims.filings.reasons	[array (object)] The details of the underlying factor that contributed to the Legal Event.
organization.legalEvents.claims.filings.reasons.description	[string] e.g.: Voluntary Petition for Bankruptcy The underlying factor that contributed to the Legal Event (e.g., natural disaster, fraud, strategy, economic conditions, loss to creditors).
organization.legalEvents.claims.filings.reasons.dnbCode	[integer] e.g.: 12281 A unique code assigned by Dun & Bradstreet to identify the underlying factor that contributed to the Legal Event. Refer to Reference code table "299 [Event Reason]" for all possible values.
organization.legalEvents.claims.filings.reasons.filingAmount	[object] The details of the amount of relief sought by all of the plaintiffs in the suit.
organization.legalEvents.claims.filings.reasons.filingAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.claims.filings.reasons.filingAmount.value	[number] e.g.: 1000000 The total amount of relief sought by all of the plaintiffs in the suit.
organization.legalEvents.claims.filings.receivedDate	[string] e.g.: 2017-10-30 The date when Dun & Bradstreet or one of its strategic partners received this legal event.
organization.legalEvents.claims.filings.remedyFiled	[array (object)] The details of different kinds of relief for damages, and the associated amount filed for this legal event.
organization.legalEvents.claims.filings.remedyFiled.remedyAmount	[object] The details of the amount of the remedy filed for damages for this legal event.
organization.legalEvents.claims.filings.remedyFiled.remedyAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.claims.filings.remedyFiled.remedyAmount.value	[number] e.g.: 30000 The monetary value of the remedy filed for damages for this legal event.
organization.legalEvents.claims.filings.remedyFiled.remedyType	[object] The details of the specific kind of relief for the damage sought or deemed by this legal event (e.g., Actual,

	Punitive, Injunction, Compensatory).
organization.legalEvents.claims.filings.remedyFiled.remedyType.description	[string] e.g.: Compensatory damage The specific kind of relief for the damage sought or deemed by this legal event (e.g., Actual, Punitive, Injunction, Compensatory).
organization.legalEvents.claims.filings.remedyFiled.remedyType.dnbCode	[integer] e.g.: 14073 A unique code assigned by Dun & Bradstreet that describes the specific kind of relief for the damage sought or deemed by this legal event. Refer to Reference code table "430 [Legal Event Remedy Type]" for all possible values.
organization.legalEvents.claims.filings.rolePlayers	[array (object)] The details of role players involved in a Legal Event as recorded in court papers and identifies the part each one plays.
organization.legalEvents.claims.filings.rolePlayers.address	[object] The details of the Primary Address at which the organization is located or conducts operations.
organization.legalEvents.claims.filings.rolePlayers.address.addressCountry	[object] The details of the country in which the role player is located.
organization.legalEvents.claims.filings.rolePlayers.address.addressCountry.isoAlpha2Code	[string] e.g.: US The two-letter country code, defined by the International Organization for Standardization (ISO) ISO 3166-1 scheme identifying the country of the role player. Note: Please refer to Country Code Substitutions Table [/html/resources/CountryCodes.html#country-substitute] for the country code substitutions.
organization.legalEvents.claims.filings.rolePlayers.address.addressCountry.name	[string] e.g.: Unites States The name of the country in which the role player is located.
organization.legalEvents.claims.filings.rolePlayers.address.addressCounty	[object] The details of the county where the business is located.
organization.legalEvents.claims.filings.rolePlayers.address.addressCounty.name	[string] e.g.: Unites States The name of the county where the business is located.
organization.legalEvents.claims.filings.rolePlayers.address.addressLocality	[object] The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.
organization.legalEvents.claims.filings.rolePlayers.address.addressLocality.name	[string] e.g.: SAN FRANCISCO The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.

organization.legalEvents.claims.filings.rolePlayers.address.addressRegion	[object] The name of the geographical area for this address of the organization. For Example New Jersey.
organization.legalEvents.claims.filings.rolePlayers.address.addressRegion.abbreviatedName	[string] e.g.: NJ The shortened name of the geographical area for this address of the organization. For example NJ for the US State New Jersey within Country United States.
organization.legalEvents.claims.filings.rolePlayers.address.addressRegion.name	[string] e.g.: California The name of the geographical area for this address of the organization. For Example New Jersey.
organization.legalEvents.claims.filings.rolePlayers.address.continentalRegion	[object] The details of the region as defined by Dun & Bradstreet for this address.
organization.legalEvents.claims.filings.rolePlayers.address.continentalRegion.name	[string] e.g.: North America The name of the region as defined by Dun & Bradstreet for this address (e.g., Africa, Europe, Middle East).
organization.legalEvents.claims.filings.rolePlayers.address.postalCode	[string] e.g.: 941109999 The postal code for this address of the organization. Also known locally in various English-speaking countries throughout the world as a postcode, post code, Eircode, PIN or ZIP Code) is a series of letters or digits or both, sometimes including spaces or punctuation, included in a postal address for the purpose of sorting mail. The code is used by the country's postal authority to identify the address where the organization is located or conducts operations .
organization.legalEvents.claims.filings.rolePlayers.address.streetAddress	[object] The details of the street address for this address of the organization.
organization.legalEvents.claims.filings.rolePlayers.address.streetAddress.line1	[string] e.g.: 492 KOLLER ST The first line of the address where the entity is located. The first line of this address of the organization. For example The Point in the address The Point 37 North Wharf Road London W2 1AF
organization.legalEvents.claims.filings.rolePlayers.address.streetAddress.line2	[string] e.g.: Suite 100 The second line of this address of the organization. For example 37 North Wharf Road in the address The Point 37 North Wharf Road London W2 1AF

organization.legalEvents.claims.filings.rolePlayers.creditorCategories	[array (object)] Records several different classifications for this creditor who claims that the subject owes money. The priority in which the claimants are paid is based on the classification to which they belong.
organization.legalEvents.claims.filings.rolePlayers.creditorCategories.claimAmount	[object] Details of the monetary value owed to the category of this creditor recorded in Creditor Type.
organization.legalEvents.claims.filings.rolePlayers.creditorCategories.claimAmount.currency	[string] e.g.: USD The currency of the monetary value owed to the category of this creditor recorded in Creditor Type.
organization.legalEvents.claims.filings.rolePlayers.creditorCategories.claimAmount.value	[number] e.g.: 1485795.25 The monetary value owed to the category of this creditor recorded in Creditor Type.
organization.legalEvents.claims.filings.rolePlayers.creditorCategories.creditorType	[object] The category of this creditor to which the subject owes money, with respect to their priority of being paid relative to other creditor categories; e.g., preferred, secured, where preferred creditors have priority over secured creditors.
organization.legalEvents.claims.filings.rolePlayers.creditorCategories.creditorType.description	[string] e.g.: Secured Text that identifies the category of this creditor to which the subject owes money, with respect to their priority of being paid relative to other creditor categories; e.g., preferred, secured, where preferred creditors have priority over secured creditors.
organization.legalEvents.claims.filings.rolePlayers.creditorCategories.creditorType.dnbCode	[integer] e.g.: 15573 A unique code assigned by Dun & Bradstreet that specifies the category of this creditor to which the subject owes money, with respect to their priority of being paid relative to other creditor categories; e.g., preferred, secured, where preferred creditors have priority over secured creditors. Refer to Reference code table "401 [Creditor Type]" for all possible values.
organization.legalEvents.claims.filings.rolePlayers.duns	[string] e.g.: 804735132 The D-U-N-S® Number, a proprietary organizational identifier owned and managed by Dun & Bradstreet Inc, provides unique identification of a subject organization, in accordance with the Data Universal Numbering System (D-U-N-S®).
organization.legalEvents.claims.filings.rolePlayers.employerName	[string] e.g.: Dun & Bradstreet The name of the subject that employs the party involved in this event.
organization.legalEvents.claims.filings.rolePlayers.filingAmount	[object] The details of the monetary value associated with a court action for this party involved in the event.
organization.legalEvents.claims.filings.rolePlayers.filingAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).

organization.legalEvents.claims.filings.rolePlayers.filingAmount.value	[number] e.g.: 100000 The monetary value associated with a court action for this party involved in the event.
organization.legalEvents.claims.filings.rolePlayers.filingAmountComparisonType	[object] Specifies the operator that may be used as the basis of data comparisons between two values; e.g., greater than, less than, equal to. In some cases only one of two values being compared is recorded, while the other value could be derived or become available at a later date. For example, the value to be awarded must be "Less Than" the value recorded.
organization.legalEvents.claims.filings.rolePlayers.filingAmountComparisonType.description	[string] e.g.: less than Text that specifies the operator that may be used as the basis of data comparisons between two values; e.g., greater than, less than, equal to. In some cases only one of two values being compared is recorded, while the other value could be derived or become available at a later date. For example, the value to be awarded must be "Less Than" the value recorded.
organization.legalEvents.claims.filings.rolePlayers.filingAmountComparisonType.dnbCode	[integer] e.g.: 16804 A unique code assigned by Dun & Bradstreet that specifies the operator that may be used as the basis of data comparisons between two values; e.g., greater than, less than, equal to. In some cases only one of two values being compared is recorded, while the other value could be derived or become available at a later date. For example, the value to be awarded must be "Less Than" the value recorded. Refer to Reference code table "410 [Comparison Operator]" for all possible values.
organization.legalEvents.claims.filings.rolePlayers.filingResults	[array (object)] Describes all outcomes involving this Role Player from this Legal Event; e.g., Counter claim filed by the defendant in a lawsuit.
organization.legalEvents.claims.filings.rolePlayers.filingResults.filingAmount	[object] The details of the monetary value associated with a court action for this party involved in the event.
organization.legalEvents.claims.filings.rolePlayers.filingResults.filingAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.claims.filings.rolePlayers.filingResults.filingAmount.value	[number] e.g.: 100000 The monetary value associated with a court action for this party involved in the event.
organization.legalEvents.claims.filings.rolePlayers.filingResults.result	[object] Describes an outcome involving this Role Player from this Legal Event; e.g., Counter claim filed by the defendant in a lawsuit.
organization.legalEvents.claims.filings.rolePlayers.filingResults.result.description	[string] e.g.: Closed Text that describes an outcome involving this Role Player from this Legal Event; e.g., Counter claim filed by the defendant in a lawsuit.

organization.legalEvents.claims.filings.rolePlayers.filingResult s.result.dnbCode	[integer] e.g.: 11468 A unique code assigned by Dun & Bradstreet that describes an outcome involving this Role Player from this Legal Event; e.g., Counter claim filed by the defendant in a lawsuit. Refer to Reference code table "86 [Event Result]" for all possible values.
organization.legalEvents.claims.filings.rolePlayers.filingResult s.resultDate	[string] e.g.: 2012-05-30 The date when the outcome recorded in Event Result Code occurred.
organization.legalEvents.claims.filings.rolePlayers.name	[string] e.g.: Some Vendor The name of the party involved in this event as it was filed.
organization.legalEvents.claims.filings.rolePlayers.operatingSt atus	[object] The details of the high level categorization of the organization's functional state or trading status.
organization.legalEvents.claims.filings.rolePlayers.operatingSt atus.description	[string] e.g.: Active Textual description of the organization's functional state or trading status. Possible values: [9074] Active [403] Out of Business
organization.legalEvents.claims.filings.rolePlayers.operatingSt atus.dnbCode	[integer] e.g.: 9074 A unique code assigned by Dun & Bradstreet to identify the organization's functional state or trading status. Possible values: 9074 [Active] 403 [Out of Business] Refer to Reference code table "166 [Operating Status]" for all possible values.
organization.legalEvents.claims.filings.rolePlayers.positions	[array (object)] The details of the job positions the role player holds or has held in the entity.
organization.legalEvents.claims.filings.rolePlayers.positions.d escription	[string] e.g.: Sales consultant The job position the role player holds or has held in the organization (e.g., Financial Director, Sales Director, Operations Manager).
organization.legalEvents.claims.filings.rolePlayers.positions.d nbCode	[integer] e.g.: 28802 A unique code assigned by Dun & Bradstreet that denotes the job position the role player holds or has held in the entity. Refer to Reference code table "5 [Position] & 198 [Employee Position]" for all possible values.
organization.legalEvents.claims.filings.rolePlayers.reasons	[array (object)] Records various underlying factors involving this Role Player, that contributed to the Legal Event.
organization.legalEvents.claims.filings.rolePlayers.reasons.de scription	[string] e.g.: Goodwill Text describing an underlying factor involving this Role player that contributed to the Legal Event; e.g.,

	fraud, racism, strategy, anti-trust violation.
organization.legalEvents.claims.filings.rolePlayers.reasons.dnbCode	[integer] e.g.: 15629 A unique code assigned by Dun & Bradstreet describing an underlying factor involving this Role player that contributed to the Legal Event; e.g., fraud, racism, strategy, anti-trust violation. Refer to Reference code table "299 [Event Reason]" for all possible values.
organization.legalEvents.claims.filings.rolePlayers.registrationNumbers	[array (object)] The details of the organization's registration numbers issued by a recognized external authority to uniquely identify subjects. The issuing authority may be a Registration Authority, Government Department or Commercial Enterprise (e.g., Chamber of Commerce numbers, VAT numbers).
organization.legalEvents.claims.filings.rolePlayers.registrationNumbers.registrationNumber	[string] e.g.: 12-3456789 The number or alphanumeric value assigned by a recognized external authority that either uniquely identifies or helps to identify the organization.
organization.legalEvents.claims.filings.rolePlayers.registrationNumbers.typeDescription	[string] e.g.: Federal Taxpayer Identification Number (US) The official name of the organization identifier assigned by a recognized external authority (e.g., Australian Company Number, Federal Taxpayer Identification Number, Value Added Tax Number).
organization.legalEvents.claims.filings.rolePlayers.registrationNumbers.typeDnbCode	[integer] e.g.: 6863 A unique code assigned by Dun & Bradstreet to identify the type of organization registration number. For example, 2541 stands for company number issued by the UK Companies House. Refer to Reference code table "7 [Registration Number Type]" for all possible values.
organization.legalEvents.claims.filings.rolePlayers.remedyFiled	[array (object)] Records details on several different kinds of relief for damages along with the associated amount filed for this legal event; e.g., for U.S. suits - the remedies sought by the plaintiff(s), for U.S. judgments - the remedies deemed by the court.
organization.legalEvents.claims.filings.rolePlayers.remedyFiled.remedyType	[object] text that describes the specific kind of relief for the damage sought or deemed by this legal event; e.g., Actual, Punitive, Injunction, Compensatory.
organization.legalEvents.claims.filings.rolePlayers.remedyFiled.remedyType.description	[string] e.g.: Damages A unique code assigned by Dun & Bradstreet that describes the specific kind of relief for the damage sought or deemed by this legal event; e.g., Actual, Punitive, Injunction, Compensatory.
organization.legalEvents.claims.filings.rolePlayers.remedyFiled.remedyType.dnbCode	[integer] e.g.: 14701 A unique code assigned by Dun & Bradstreet that describes the specific kind of relief for the damage sought or deemed by this legal event; e.g., Actual, Punitive, Injunction, Compensatory. Refer to Reference code table "430 [Legal Event Remedy Type]" for all possible values.
organization.legalEvents.claims.filings.rolePlayers.rolePlayerType	[object] The details of the role player's function in the event.

organization.legalEvents.claims.filings.rolePlayers.rolePlayerType.description	[string] e.g.: Shareholder The function played by this party in the event (e.g., debtor, creditor, liquidator, shareholder, court, plaintiff, defendant).
organization.legalEvents.claims.filings.rolePlayers.rolePlayerType.dnbCode	[integer] e.g.: 302 A unique code assigned by Dun & Bradstreet to identify the function played by this party in the event. Refer to Reference code table "10 [Role Player Type]" for all possible values.
organization.legalEvents.claims.filings.rolePlayers.standardRating	[object] The most current Standard Dun & Bradstreet Standard Rating assigned to this entity.
organization.legalEvents.claims.filings.rolePlayers.standardRating.financialStrength	[string] e.g.: 3A The overall size of the entity from a financial perspective. It may be based on the net worth or issued capital of the entity; the higher the amount, the larger the entity is considered to be.
organization.legalEvents.claims.filings.rolePlayers.standardRating.riskSegment	[string] e.g.: 4 Creditworthiness of the entity in terms of its overall financial condition or risk to creditors.
organization.legalEvents.claims.filings.rolePlayers.standardRating.scoreDate	[string] e.g.: 2010-03-14 The date when the score was assigned or last changed. Scores are continuously monitored and recalculated as any input variables changes. In the event that the score could not be assigned on the entity, this is the date when the reason was recorded explaining why the score was not assigned. Format: YYYY-MM-DD or YYYY-MM. Note: In some markets, the date is not changed unless there is a score change in order to avoid unnecessary notifications. But in others, the score date changes even though the score does not change after the market recalculates the score.
organization.legalEvents.claims.filings.rolePlayers.startDate	[string] e.g.: 2017-10-30 The date when the role player originally started its business activities.
organization.legalEvents.claims.filings.rolePlayers.telephone	[array (object)] The details of the Telephone contact information used for voice communication with the organization.
organization.legalEvents.claims.filings.rolePlayers.telephone.isdCode	[string] e.g.: 1 A series of numbers that must be prefixed before dialing a telephone number in another Country, it is comprised of an International Dialing Prefix followed by the Country Code. These are also referred to as Country Calling Code or Country Dial-In Code.
organization.legalEvents.claims.filings.rolePlayers.telephone.isUnreachable	[boolean] e.g.: false Indicates whether the telephone number can be connected to successfully. - If true, connection to the telephone number is unsuccessful. - If false, connection to the telephone number is successful.

organization.legalEvents.claims.filings.rolePlayers.telephone.telephoneNumber	<p>[string] e.g.: 6505550000</p> <p>The primary voice telephone number for the business, when dialing domestically. The National Telephone Number is created by combining the Domestic Area Code and the Local Number.</p> <p>A Domestic Area Code is a series of numbers that must be prefixed before dialing a telephone number in another local area. National telecommunication authorities use various formats and dialing rules for area codes. Also known as City Code.</p> <p>A Local Number is a series of numbers that represents a specific telephone line.</p>
organization.legalEvents.claims.filings.rolePlayers.textEntry	<p>[array (object)]</p> <p>The details of data elements regarding the legal event filing which cannot be recorded in the other fields.</p>
organization.legalEvents.claims.filings.rolePlayers.textEntry.priority	<p>[integer] e.g.: 1</p> <p>A number that may be used to define the order in which this text entry should be presented relative to other occurrences of text entries where the lower the number the earlier the data is presented.</p>
organization.legalEvents.claims.filings.rolePlayers.textEntry.text	<p>[string] e.g.: Some text obtained from contact</p> <p>Text that has been recorded.</p>
organization.legalEvents.claims.filings.rolePlayers.textEntry.typeDescription	<p>[string] e.g.: Legal event</p> <p>Text entry type to qualify the information recorded in the text entries.</p>
organization.legalEvents.claims.filings.rolePlayers.textEntry.typeDnBCode	<p>[integer] e.g.: 1170</p> <p>A unique code assigned by Dun & Bradstreet to identify the text entry type. Refer to Reference code table "27 [Information Description]" for all possible values.</p>
organization.legalEvents.claims.filings.startDate	<p>[string] e.g.: 2016-09-30</p> <p>The date on or before which the event took place.</p>
organization.legalEvents.claims.filings.status	<p>[object]</p> <p>The details of the most recent situation for the legal event.</p>
organization.legalEvents.claims.filings.status.description	<p>[string] e.g.: Open</p> <p>The most recent situation for the legal event (e.g., pending, unsatisfied).</p>
organization.legalEvents.claims.filings.status.dnbCode	<p>[integer] e.g.: 11477</p> <p>A unique code assigned by Dun & Bradstreet to identify the most recent situation for the legal event. Refer to Reference code table "82 [Event Status]" for all possible values.</p>
organization.legalEvents.claims.filings.statusDate	<p>[string] e.g.: 2017-12-15</p> <p>The date when the situation changed.</p>
organization.legalEvents.claims.filings.textEntry	<p>[array (object)]</p> <p>The details of data elements regarding the legal event filing which cannot be recorded in the other fields.</p>

organization.legalEvents.claims.filings.textEntry.priority	[integer] e.g.: 1 A number that may be used to define the order in which this text entry should be presented relative to other occurrences of text entries where the lower the number the earlier the data is presented.
organization.legalEvents.claims.filings.textEntry.text	[string] e.g.: Some text obtained from contact Text that has been recorded.
organization.legalEvents.claims.filings.textEntry.typeDescription	[string] e.g.: Legal event Text entry type to qualify the information recorded in the text entries.
organization.legalEvents.claims.filings.textEntry.typeDnBCode	[integer] e.g.: 1170 A unique code assigned by Dun & Bradstreet to identify the text entry type. Refer to Reference code table "27 [Information Description]" for all possible values.
organization.legalEvents.claims.filings.textEntry.language	[object] Records the language in which this information is presented.
organization.legalEvents.claims.filings.textEntry.language.description	[string] e.g.: English Textual value denoting the language in which this information is recorded.
organization.legalEvents.claims.filings.textEntry.language.dnbCode	[integer] e.g.: 39 A unique code assigned by Dun & Bradstreet that denotes the language in which this information is recorded. Refer to Reference code table "3 [Language]" for all possible values.
organization.legalEvents.claims.filings.verifiedDate	[string] e.g.: 2017-10-30 The date Dun & Bradstreet reviewed the reported content of the Legal Event to ensure accuracy.
organization.legalEvents.otherLegalEvents	[object] The details of one or more Legal Events that are registered against the organization that do not meet the definition of any of the other available categories.
organization.legalEvents.otherLegalEvents.filings	[array (object)] The details of each legal action targeting the entity that cannot be recorded in any of the defined categories.
organization.legalEvents.otherLegalEvents.filings.activities	[array (object)] The activities that have taken place in pursuit of the claim.
organization.legalEvents.otherLegalEvents.filings.activities.activityDate	[string] e.g.: 2016-02-18 The date of an activity that has taken place in pursuit of the claim.
organization.legalEvents.otherLegalEvents.filings.activities.description	[string] e.g.: Actual The description of the legal process in which an entity declares inability to pay its debts.

organization.legalEvents.otherLegalEvents.filings.actualLegalHearingDate	[string] e.g.: 2019-10-12 Records the date on which the formal process associated with the Legal Event occurred; e.g., the date on which creditors filed claims, the date on which a bankruptcy petition was read, the date on which a trial hearing took place.
organization.legalEvents.otherLegalEvents.filings.assetClass	[array (object)] The details of the asset group.
organization.legalEvents.otherLegalEvents.filings.assetClass.description	[string] e.g.: land The asset group.
organization.legalEvents.otherLegalEvents.filings.assetClass.dnbCode	[integer] e.g.: 3316 A unique code assigned by Dun & Bradstreet to identify the asset group. Refer to Reference code table "66 [Asset Class]" for all possible values.
organization.legalEvents.otherLegalEvents.filings.awardedAmount	[object] The details of the amount associated with a decision made by a court.
organization.legalEvents.otherLegalEvents.filings.awardedAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.otherLegalEvents.filings.awardedAmount.value	[number] e.g.: 1000000 The monetary value associated with a decision made by a court.
organization.legalEvents.otherLegalEvents.filings.collaterals	[array (object)] The details of the different types of assets used by the entity as security for this event.
organization.legalEvents.otherLegalEvents.filings.collaterals.collateralDetails	[array (object)] Records information about an individual item/asset that the subject has used as security for this Financing Event.
organization.legalEvents.otherLegalEvents.filings.collaterals.collateralDetails.isUsed	[boolean] e.g.: true When set to "true", this identifies that the collateral asset owned by the Subject is no longer considered a brand new item. When set to "false", this identifies that the collateral asset owned by the Subject is considered a brand new item.
organization.legalEvents.otherLegalEvents.filings.collaterals.collateralDetails.manufacturedYear	[string] e.g.: 2001 The year in which the construction of the item; e.g., a ship, was completed.
organization.legalEvents.otherLegalEvents.filings.collaterals.collateralDetails.manufactureName	[string] e.g.: Ford Motors The name of the business that built the item being held as collateral in a business transaction.

organization.legalEvents.otherLegalEvents.filings.collaterals.collateralDetails.modelName	[string] e.g.: Mustang An alphanumeric name assigned by the manufacturer to the asset; e.g., Mustang, RX8, Pavilion, T60, 747.
organization.legalEvents.otherLegalEvents.filings.collaterals.collateralDetails.modelYear	[string] e.g.: 2002 The year that the manufacturer assigned to the model based on the expected release of the model to the public.
organization.legalEvents.otherLegalEvents.filings.collaterals.collateralDetails.serialNumber	[string] e.g.: VX1234 A reference number or text assigned by the manufacturer for uniquely identifying the manufactured item.
organization.legalEvents.otherLegalEvents.filings.collaterals.collateralDetails.textEntry	[array (object)] Records multiple textual descriptions, language and nature of textual Collateral Details data for this Financing Event that cannot be recorded in the defined fields.
organization.legalEvents.otherLegalEvents.filings.collaterals.collateralDetails.textEntry.priority	[integer] e.g.: 1 A number which may be used to identify multiple occurrences of Text Entry as belonging together as part of the same block of text. Within a group the Display Sequence may then be used to ensure that the Text Entry occurrences within the group are presented in the correct order.
organization.legalEvents.otherLegalEvents.filings.collaterals.collateralDetails.textEntry.text	[string] e.g.: Company vehicle A textual description of a collateral associated with the Financing Event which cannot be recorded in any of the defined elements.
organization.legalEvents.otherLegalEvents.filings.collaterals.collateralDetails.textEntry.typeDescription	[string] e.g.: Financial Statement Additional Note Text Text which describes the type of Text; e.g., the title of the party associated with the Financing Event.
organization.legalEvents.otherLegalEvents.filings.collaterals.collateralDetails.textEntry.typeDnBCode	[integer] e.g.: 23916 A unique code assigned by Dun & Bradstreet which describes the type of Text; e.g., the title of the party associated with the Financing Event. Refer to Reference code table "27 [Information Description]" for all possible values.
organization.legalEvents.otherLegalEvents.filings.collaterals.collateralSupplementalItems	[array (object)] Records kinds of supplemental items, (e.g., Products, Proceeds), that are included as security along with the identified collateral for the given Collateral Type.
organization.legalEvents.otherLegalEvents.filings.collaterals.collateralSupplementalItems.description	[string] e.g.: Proceeds Text that specifies the kind of supplemental items, (e.g., Products, Proceeds), that are included as security along with the identified collateral item for the given Collateral Type. The items in this example are produced as output of the asset (e.g., manufacturing plant) that the subject is using for collateral.
organization.legalEvents.otherLegalEvents.filings.collaterals.collateralSupplementalItems.dnbCode	[integer] e.g.: 11290 A unique code assigned by Dun & Bradstreet that specifies the kind of supplemental items, (e.g., Products, Proceeds), that are included as security along with the identified collateral item for the given Collateral Type. The items in this example are produced as output of the asset (e.g., manufacturing plant) that the subject is using for collateral.

	Refer to Reference code table "268 [Collateral Supplemental Item Type]" for all possible values.
organization.legalEvents.otherLegalEvents.filings.collaterals.itemQuantity	[integer] e.g.: 25 The number of assets that the subject is using as collateral for the particular Collateral Type.
organization.legalEvents.otherLegalEvents.filings.collaterals.quantity	[integer] e.g.: 15 The number of assets that the subject is using as collateral for the particular collateral type.
organization.legalEvents.otherLegalEvents.filings.collaterals.scope	[object] Records the scope of the assets used by a debtor as security as recorded in the Financing Event; e.g., All items for the Collateral Type are included, only the items that are leased for the Collateral Type are included
organization.legalEvents.otherLegalEvents.filings.collaterals.scope.description	[string] e.g.: Leased Text that indicates the scope of the assets used by a debtor as security as recorded in the Financing Event; e.g., All items for the Collateral Type are included, only the items that are leased for the Collateral Type are included
organization.legalEvents.otherLegalEvents.filings.collaterals.scope.dnbCode	[integer] e.g.: 11288 A unique code assigned by Dun & Bradstreet which indicates the scope of the assets used by a debtor as security as recorded in the Financing Event; e.g., All items for the Collateral Type are included, only the items that are leased for the Collateral Type are included Refer to Reference code table "267 [Collateral Scope]" for all possible values.
organization.legalEvents.otherLegalEvents.filings.collaterals.supplementalItems	[array (object)] Records the kinds of supplemental items, (e.g., Products, Proceeds), that are included as security along with the identified collateral for the given collateral type.
organization.legalEvents.otherLegalEvents.filings.collaterals.supplementalItems.description	[string] e.g.: Products Text which describes the kinds of supplemental items, (e.g., Products, Proceeds), that are included as security along with the identified collateral for the given collateral type.
organization.legalEvents.otherLegalEvents.filings.collaterals.supplementalItems.dnbCode	[integer] e.g.: 11289 A unique code assigned by Dun & Bradstreet which describes the kinds of supplemental items, (e.g., Products, Proceeds), that are included as security along with the identified collateral for the given collateral type. Refer to Reference code table "268 [Collateral Supplemental Item Type]" for all possible values.
organization.legalEvents.otherLegalEvents.filings.collaterals.textEntry	[array (object)] Records the textual description, language and nature of collateral type information.
organization.legalEvents.otherLegalEvents.filings.collaterals.textEntry.text	[string] e.g.: Vehicles Free form textual description, language and nature of collateral type information.
organization.legalEvents.otherLegalEvents.filings.collaterals.textEntry.additionalText	[string] e.g.: Financial Statement Additional Note Text

extEntry.typeDescription	Text that describes the type of textual description, language and nature of collateral type information.
organization.legalEvents.otherLegalEvents.filings.collaterals.t extEntry.typeDnBCode	[integer] e.g.: 23916 A unique code assigned by Dun & Bradstreet describing the type of textual description, language and nature of collateral type information. Refer to Reference code table "27 [Information Description]" for all possible values.
organization.legalEvents.otherLegalEvents.filings.collateralSc opeType	[object] Records the scope of the assets used by a debtor as security as recorded in the Financing Event; e.g., All items for the Collateral Type are included, only the items that are leased for the Collateral Type are included
organization.legalEvents.otherLegalEvents.filings.collateralSc opeType.description	[string] e.g.: Leased Text which indicates the scope of the assets used by a debtor as security as recorded in the Financing Event; e.g., All items for the Collateral Type are included, only the items that are leased for the Collateral Type are included
organization.legalEvents.otherLegalEvents.filings.collateralSc opeType.dnbCode	[integer] e.g.: 11288 A unique code assigned by Dun & Bradstreet which indicates the scope of the assets used by a debtor as security as recorded in the Financing Event; e.g., All items for the Collateral Type are included, only the items that are leased for the Collateral Type are included Refer to Reference code table "267 [Collateral Scope]" for all possible values.
organization.legalEvents.otherLegalEvents.filings.contactEven ts	[array (object)] The details on communications Dun & Bradstreet had with persons to get information on this event.
organization.legalEvents.otherLegalEvents.filings.contactEven ts.address	[object] The details of the address used by the entity for mailing purposes.
organization.legalEvents.otherLegalEvents.filings.contactEven ts.address.addressCountry	[object] The details of the country or region for this address of the organization.
organization.legalEvents.otherLegalEvents.filings.contactEven ts.address.addressCountry.isoAlpha2Code	[string] e.g.: US The 2 letter alpha country code assigned by the International Organization for Standardization (ISO) identifying the Country/Region for this address of the organization. Note: Please refer to Country Code Substitutions Table [/html/resources/CountryCodes.html#country-substitute] for the country code substitutions.
organization.legalEvents.otherLegalEvents.filings.contactEven ts.comments	[array (object)] Records notes from the contact providing further information regarding the subject's event.
organization.legalEvents.otherLegalEvents.filings.contactEven ts.comments.description	[string] e.g.: Financing Statement was assigned Text that expresses a note collected from this contact providing further information about this event.

organization.legalEvents.otherLegalEvents.filings.contactEvents.comments.dnbCode	[integer] e.g.: 14767 A unique code assigned by Dun & Bradstreet that expresses a note collected from this contact providing further information about this event. Refer to Reference code table "429 [Event Comment]" for all possible values.
organization.legalEvents.otherLegalEvents.filings.contactEvents.contactDate	[string] e.g.: 2017-11-25 The date when the communication took place.
organization.legalEvents.otherLegalEvents.filings.contactEvents.duns	[string] e.g.: 804735132 The D-U-N-S® Number, a proprietary organizational identifier owned and managed by Dun & Bradstreet Inc, provides unique identification of a subject organization, in accordance with the Data Universal Numbering System (D-U-N-S®).
organization.legalEvents.otherLegalEvents.filings.contactEvents.name	[string] e.g.: John Smith The name of the contact which may be either an individual or an entity.
organization.legalEvents.otherLegalEvents.filings.contactEvents.nonSpecificSource	[object] The details, in general terms, about the supplier of the Financial Statement.
organization.legalEvents.otherLegalEvents.filings.contactEvents.nonSpecificSource.description	[string] e.g.: Trustee Describes the supplier of the Financial Statement (e.g., Official Registry, Accountant, the Subject).
organization.legalEvents.otherLegalEvents.filings.contactEvents.nonSpecificSource.dnbCode	[integer] e.g.: 15735 A unique code assigned by Dun & Bradstreet to identify, in general terms, the supplier from which this data was originally obtained by Dun & Bradstreet. Refer to Reference code table "35 [Role Player Type Non-Specific]" for all possible values.
organization.legalEvents.otherLegalEvents.filings.contactEvents.organizationName	[string] e.g.: ABC Corp The name of the contact, when this is a company.
organization.legalEvents.otherLegalEvents.filings.contactEvents.positions	[array (object)] The details on the job position the principal or manager holds or has held in the entity.
organization.legalEvents.otherLegalEvents.filings.contactEvents.positions.description	[string] e.g.: Chairman Executive Committee The job position the principal or manager holds or has held in the entity (e.g., Financial Director, Managing Director, Sales Director, Operations Manager).
organization.legalEvents.otherLegalEvents.filings.contactEvents.positions.dnbCode	[integer] e.g.: 95 A unique code assigned by Dun & Bradstreet to identify the job position the principal or manager holds or has held in the entity. Refer to Reference code table "5 [Position] & 198 [Employee Position]" for all possible values.
organization.legalEvents.otherLegalEvents.filings.contactEvents.positions.jobTitles	[array (object)] Records several different Vanity Titles for the person with whom D&B had contact to get information on this event.

organization.legalEvents.otherLegalEvents.filings.contactEvents.positions.jobTitles.title	[string] e.g.: Senior Director of Finance A textual presentation of the position as preferred by the person with whom D&B had contact to get information on this event, e.g., Position Code might equate to Financial Director, however, the Vanity Title might be 'Senior Director of Finance'.
organization.legalEvents.otherLegalEvents.filings.contactEvents.positions.positionClass	[object] The details that define the class of the position.
organization.legalEvents.otherLegalEvents.filings.contactEvents.positions.positionClass.description	[string] e.g.: Chairman Executive Committee The job position the principal or manager holds or has held in the entity (e.g., Financial Director, Managing Director, Sales Director, Operations Manager).
organization.legalEvents.otherLegalEvents.filings.contactEvents.positions.positionClass.dnbCode	[integer] e.g.: 95 A unique code assigned by Dun & Bradstreet to identify the job position the principal or manager holds or has held in the entity. Refer to Reference code table "5 [Position] & 198 [Employee Position]" for all possible values.
organization.legalEvents.otherLegalEvents.filings.contactEvents.positions.positionStanding	[object] Details of the capacity or standing in which the individual holds this specific position.
organization.legalEvents.otherLegalEvents.filings.contactEvents.positions.positionStanding.description	[string] e.g.: Acting The capacity or standing in which the individual holds this specific position.
organization.legalEvents.otherLegalEvents.filings.contactEvents.positions.positionStanding.dnbCode	[integer] e.g.: 336 A unique code assigned by Dun & Bradstreet to identify the capacity in which the position is held. Refer to Reference code table "195 [Position Standing]" for all possible values.
organization.legalEvents.otherLegalEvents.filings.contactEvents.positions.priority	[integer] e.g.: 1 A number that may be used to define the order in which the Position should be presented relative to any other occurrences of Position where lower the number the earlier the data is presented.
organization.legalEvents.otherLegalEvents.filings.contactEvents.positions.startDate	[string] e.g.: 2017-08-23 The date when the principal or manager was appointed to this position. This is not necessarily the date when the principal or manager was first employed by the subject; it is the date when they moved to this position.
organization.legalEvents.otherLegalEvents.filings.contactEvents.results	[array (object)] The details of the outcomes this Legal Event had or is having on the entity.
organization.legalEvents.otherLegalEvents.filings.contactEvents.results.result	[object] The details of the outcome this event had or is having on the party involved in the event.
organization.legalEvents.otherLegalEvents.filings.contactEvents.results.result.description	[string] e.g.: Settled The outcome this event had or is having on the party involved in the event (e.g., Petition Dismissed, Liquidator Appointed, Counter claim filed by the defendant in a lawsuit).

organization.legalEvents.otherLegalEvents.filings.contactEvents.results.result.dnbCode	[integer] e.g.: 11466 A unique code assigned by Dun & Bradstreet that describes the outcome this event had or is having. Refer to Reference code table "86 [Event Result]" for all possible values.
organization.legalEvents.otherLegalEvents.filings.contactEvents.results.resultDate	[string] e.g.: 2017-10-30 The date the outcome of the event occurred.
organization.legalEvents.otherLegalEvents.filings.contactEvents.rolePlayers	[array (object)] The details of role players involved in a Legal Event as recorded in court papers and identifies the part each one plays.
organization.legalEvents.otherLegalEvents.filings.contactEvents.rolePlayers.rolePlayerType	[object] The details of the role player's function in the event.
organization.legalEvents.otherLegalEvents.filings.contactEvents.rolePlayers.rolePlayerType.description	[string] e.g.: Shareholder The function played by this party in the event (e.g., debtor, creditor, liquidator, shareholder, court, plaintiff, defendant).
organization.legalEvents.otherLegalEvents.filings.contactEvents.rolePlayers.rolePlayerType.dnbCode	[integer] e.g.: 302 A unique code assigned by Dun & Bradstreet to identify the function played by this party in the event. Refer to Reference code table "10 [Role Player Type]" for all possible values.
organization.legalEvents.otherLegalEvents.filings.contactEvents.textEntry	[array (object)] The details of data elements regarding the legal event filing which cannot be recorded in the other fields.
organization.legalEvents.otherLegalEvents.filings.contactEvents.textEntry.priority	[integer] e.g.: 1 A number that may be used to define the order in which this text entry should be presented relative to other occurrences of text entries where the lower the number the earlier the data is presented.
organization.legalEvents.otherLegalEvents.filings.contactEvents.textEntry.text	[string] e.g.: Some text obtained from contact Text that has been recorded.
organization.legalEvents.otherLegalEvents.filings.contactEvents.textEntry.typeDescription	[string] e.g.: Legal event Text entry type to qualify the information recorded in the text entries.
organization.legalEvents.otherLegalEvents.filings.contactEvents.textEntry.typeDnBCode	[integer] e.g.: 1170 A unique code assigned by Dun & Bradstreet to identify the text entry type. Refer to Reference code table "27 [Information Description]" for all possible values.
organization.legalEvents.otherLegalEvents.filings.courtAddresses	[object] The location information of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.otherLegalEvents.filings.courtAddresses.addressCountry	[object] The details of the country of the legal chambers where the hearing has taken place or will take place.

organization.legalEvents.otherLegalEvents.filings.courtAddress.addressCountry.isoAlpha2Code	<p>[string] e.g.: US</p> <p>The two-letter country code, defined by the International Organization for Standardization (ISO) ISO 3166-1 scheme identifying the country of the legal chambers where the hearing has taken place or will take place.</p> <p>Note: Please refer to Country Code Substitutions Table [/html/resources/CountryCodes.html#country-substitute] for the country code substitutions.</p>
organization.legalEvents.otherLegalEvents.filings.courtAddress.addressCountry.name	<p>[string] e.g.: United States</p> <p>The name of the country in which the legal chambers are located.</p>
organization.legalEvents.otherLegalEvents.filings.courtAddress.addressCounty	<p>[object]</p> <p>The details of the legal chambers where the hearing has taken place or will take place.</p>
organization.legalEvents.otherLegalEvents.filings.courtAddress.addressCounty.name	<p>[string] e.g.: Morris</p> <p>The name of a county of the legal chambers where the hearing has taken place or will take place.</p>
organization.legalEvents.otherLegalEvents.filings.courtAddress.addressLocality	<p>[object]</p> <p>The details of a city, town, township, village, borough, etc. of the legal chambers where the hearing has taken place or will take place.</p>
organization.legalEvents.otherLegalEvents.filings.courtAddress.addressLocality.name	<p>[string] e.g.: Short Hills</p> <p>The name of a city, town, township, village, borough, etc. of the legal chambers where the hearing has taken place or will take place.</p>
organization.legalEvents.otherLegalEvents.filings.courtAddress.addressRegion	<p>[object]</p> <p>The details of the locally governed area which forms part of a centrally governed nation to identify the legal chambers where the hearing has taken place or will take place.</p>
organization.legalEvents.otherLegalEvents.filings.courtAddress.addressRegion.abbreviatedName	<p>[string] e.g.: NJ</p> <p>The shortened name of the geographical area for this address of the organization. For example NJ for the US State New Jersey within Country United States.</p>
organization.legalEvents.otherLegalEvents.filings.courtAddress.addressRegion.name	<p>[string] e.g.: New Jersey</p> <p>The name of a locally governed area which forms part of a centrally governed nation to identify the legal chambers where the hearing has taken place or will take place.</p>
organization.legalEvents.otherLegalEvents.filings.courtAddress.continentalRegion	<p>[object]</p> <p>The details of the region as defined by Dun & Bradstreet for this address.</p>
organization.legalEvents.otherLegalEvents.filings.courtAddress.continentalRegion.name	<p>[string] e.g.: North America</p> <p>The name of the region as defined by Dun & Bradstreet for this address.</p>
organization.legalEvents.otherLegalEvents.filings.courtAddress.postalCode	<p>[string] e.g.: 7078</p> <p>An identifier used by the local country Postal Authority to identify the legal chambers where the hearing</p>

	has taken place or will take place.
organization.legalEvents.otherLegalEvents.filings.courtAddresses.streetAddress	[object] The details such as address number, or post office box number and street name of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.otherLegalEvents.filings.courtAddresses.streetAddress.line1	[string] e.g.: 103 JFK Pkwy The first line of the address of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.otherLegalEvents.filings.courtAddresses.streetAddress.line2	[string] e.g.: 101 JFK Pkwy The second line of the address of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.otherLegalEvents.filings.courtName	[string] e.g.: Superior Court of Some State The name of the legal chambers where the hearing has taken place or will take place.
organization.legalEvents.otherLegalEvents.filings.courtType	[object] Records the nature of the legal body at which the legal event was heard or decreed. This may describe the area of law in which the court specializes (e.g. court of employment) or the legal seniority of the court (e.g. high court, supreme court etc.)
organization.legalEvents.otherLegalEvents.filings.courtType.description	[string] e.g.: County text that describes the nature of the legal body at which the legal event was heard or decreed. This may describe the area of law in which the court specializes (e.g. court of employment) or the legal seniority of the court (e.g. high court, supreme court etc.)
organization.legalEvents.otherLegalEvents.filings.courtType.dnbCode	[integer] e.g.: 5337 A unique code assigned by Dun & Bradstreet that describes the nature of the legal body at which the legal event was heard or decreed. This may describe the area of law in which the court specializes (e.g. court of employment) or the legal seniority of the court (e.g. high court, supreme court etc.) Refer to Reference code table "132 [Court Type]" for all possible values.
organization.legalEvents.otherLegalEvents.filings.creditorCategories	[array (object)] The different classifications of creditors to whom money is owed by the entity. The priority in which the creditors are paid is based on the assigned classification.
organization.legalEvents.otherLegalEvents.filings.creditorCategories.claimAmount	[object] The details of the amount owed to this category of creditors.
organization.legalEvents.otherLegalEvents.filings.creditorCategories.claimAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.otherLegalEvents.filings.creditorCategories.claimAmount.value	[number] e.g.: 43095 The amount owed to this category of creditors.

organization.legalEvents.otherLegalEvents.filings.creditorCategories.creditorType	[object] The details of the category of the creditor.
organization.legalEvents.otherLegalEvents.filings.creditorCategories.creditorType.description	[string] e.g.: Federal Government (US) The category of creditors indicating the priority in which they are paid relative to other categories (e.g., preferred, secured).
organization.legalEvents.otherLegalEvents.filings.creditorCategories.creditorType.dnbCode	[integer] e.g.: 10947 A unique code assigned by Dun & Bradstreet to identify the category of the creditors to whom money is owed by the entity. Refer to Reference code table "226 [Creditor Type]" for all possible values.
organization.legalEvents.otherLegalEvents.filings.dataProvider	[object] The details of the data provider.
organization.legalEvents.otherLegalEvents.filings.dataProvider.description	[string] e.g.: US Small Business Administration The source from which this data was originally obtained by Dun & Bradstreet.
organization.legalEvents.otherLegalEvents.filings.dataProvider.dnbCode	[integer] e.g.: 21238 A unique code assigned by Dun & Bradstreet to identify the source from which this data was originally obtained. Refer to Reference code table "29 [Data Provider]" for all possible values.
organization.legalEvents.otherLegalEvents.filings.endDate	[string] e.g.: 2017-10-31 The date indicates that the Legal Event procedure ended.
organization.legalEvents.otherLegalEvents.filings.endIndicator	[boolean] e.g.: false When set to "true" this indicates that the Event has ceased, i.e., this is historical information. When set to "false" this indicates that the Event is still outstanding or ongoing, i.e., this is current information; however as this is the assumed condition there is no requirement to create this tag to represent this fact.
organization.legalEvents.otherLegalEvents.filings.filingAmount	[object] The details of the amount of relief sought by all of the plaintiffs in the suit.
organization.legalEvents.otherLegalEvents.filings.filingAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.otherLegalEvents.filings.filingAmount.value	[number] e.g.: 1000000 The total amount of relief sought by all of the plaintiffs in the suit.
organization.legalEvents.otherLegalEvents.filings.filingAmount	[object]

ComparisonType	Specifies the operator that may be used as the basis of data comparisons between two values; e.g., greater than, less than, equal to. In some cases only one of two values being compared is recorded, while the other value could be derived or become available at a later date. For example, the value to be awarded must be "Less Than" the value recorded.
organization.legalEvents.otherLegalEvents.filings.filingAmount ComparisonType.description	[string] e.g.: less than Text that specifies the operator that may be used as the basis of data comparisons between two values; e.g., greater than, less than, equal to. In some cases only one of two values being compared is recorded, while the other value could be derived or become available at a later date. For example, the value to be awarded must be "Less Than" the value recorded.
organization.legalEvents.otherLegalEvents.filings.filingAmount ComparisonType.dnbCode	[integer] e.g.: 16804 A unique code assigned by Dun & Bradstreet that specifies the operator that may be used as the basis of data comparisons between two values; e.g., greater than, less than, equal to. In some cases only one of two values being compared is recorded, while the other value could be derived or become available at a later date. For example, the value to be awarded must be "Less Than" the value recorded. Refer to Reference code table "410 [Comparison Operator]" for all possible values.
organization.legalEvents.otherLegalEvents.filings.filingChapter	[string] e.g.: 11 The chapter that applies to the filing of this event.
organization.legalEvents.otherLegalEvents.filings.filingClass	[object] The details of the class into which the Legal Event is categorized.
organization.legalEvents.otherLegalEvents.filings.filingClass.description	[string] e.g.: Public Filings The broad class into which the Legal Event is categorized.
organization.legalEvents.otherLegalEvents.filings.filingClass.dnbCode	[integer] e.g.: 13952 A unique Code assigned by Dun & Bradstreet to identify the broad class into which the Legal Event is categorized. Refer to Reference code table "183 [Legal Event Class]" for all possible values.
organization.legalEvents.otherLegalEvents.filings.filingDate	[string] e.g.: 2017-10-30 The date on which this event took place.
organization.legalEvents.otherLegalEvents.filings.filingMedium	[string] e.g.: Docket The medium in which the filing is recorded.
organization.legalEvents.otherLegalEvents.filings.filingReference	[string] e.g.: D5QZ52TC The identifier given by a registry body to the official filed document that contains this legal event information.
organization.legalEvents.otherLegalEvents.filings.filingReferenceDate	[array (object)] The details of the dates related to the filing of a document. Note: This array of dates should only be used when the user needs to know any additional dates other

than the discrete date elements defined.

organization.legalEvents.otherLegalEvents.filings.filingReferenceDate.referenceDate	[string] e.g.: Date Published A date indicating that the document has been registered with an official body.
organization.legalEvents.otherLegalEvents.filings.filingReferenceDate.referenceType	[object] The details of the recorded date.
organization.legalEvents.otherLegalEvents.filings.filingReferenceDate.referenceType.description	[string] e.g.: Date Filed The description of the recorded date (e.g., Date Filed, Date Published).
organization.legalEvents.otherLegalEvents.filings.filingReferenceDate.referenceType.dnbCode	[integer] e.g.: 26889 A unique code assigned by Dun & Bradstreet to identify the relevance of the date recorded. Refer to Reference code table "322 [Filing Reference Date Type]" for all possible values.
organization.legalEvents.otherLegalEvents.filings.filingReferenceDate.result	[object] The details of the relevance of the date recorded.
organization.legalEvents.otherLegalEvents.filings.filingReferenceDate.result.description	[string] e.g.: Date Filed The relevance of the date recorded.
organization.legalEvents.otherLegalEvents.filings.filingReferenceDate.result.dnbCode	[integer] e.g.: 12137 A unique code assigned by Dun & Bradstreet to identify the relevance of the date recorded. Refer to Reference code table "322 [Filing Reference Date Type]" for all possible values.
organization.legalEvents.otherLegalEvents.filings.filingReferenceDate.resultDate	[string] e.g.: 2018-07-25 A date relating to a document that has been registered with an official body.
organization.legalEvents.otherLegalEvents.filings.filingResults	[array (object)] The details of the outcomes this Legal Event had or is having on the entity.
organization.legalEvents.otherLegalEvents.filings.filingResults.result	[object] The details of the outcome this event had or is having on the party involved in the event.
organization.legalEvents.otherLegalEvents.filings.filingResults.result.description	[string] e.g.: Settled The outcome this event had or is having on the party involved in the event (e.g., Petition Dismissed, Liquidator Appointed, Counter claim filed by the defendant in a lawsuit).
organization.legalEvents.otherLegalEvents.filings.filingResults.result.dnbCode	[integer] e.g.: 11466 A unique code assigned by Dun & Bradstreet that describes the outcome this event had or is having. Refer to Reference code table "86 [Event Result]" for all possible values.
organization.legalEvents.otherLegalEvents.filings.filingResults.resultDate	[string] e.g.: 2017-10-30 The date the outcome of the event occurred.

organization.legalEvents.otherLegalEvents.filings.filingResults.subsequentEvents	[array (object)] Records several different events that occur throughout the life cycle of an overriding legal event process, e.g., meeting of creditors related to a Bankruptcy process.
organization.legalEvents.otherLegalEvents.filings.filingResults.subsequentEvents.eventPlanDate	[string] e.g.: 2018-02-25 The date and time when the later event described by Event Result Code is expected to occur as an outcome of this event.
organization.legalEvents.otherLegalEvents.filings.filingResults.subsequentEvents.locationDescription	[string] e.g.: Attorney Office Text that describes the place where the later event described by filing result is expected to occur as an outcome of this event.
organization.legalEvents.otherLegalEvents.filings.filingSubType	[object] The details of the lower level category of the event that has been registered against the entity.
organization.legalEvents.otherLegalEvents.filings.filingSubType.description	[string] e.g.: Bill The type of event.
organization.legalEvents.otherLegalEvents.filings.filingSubType.dnbCode	[integer] e.g.: 3617 A unique code assigned by Dun & Bradstreet to identify the type of event. Refer to Reference code table "112 [Legal Event Sub Type]" for all possible values.
organization.legalEvents.otherLegalEvents.filings.filingType	[object] The details of the type of event that has been registered or recorded against the entity.
organization.legalEvents.otherLegalEvents.filings.filingType.description	[string] e.g.: County Court Judgement The type of event that has been registered or recorded against the entity.
organization.legalEvents.otherLegalEvents.filings.filingType.dnbCode	[integer] e.g.: 2515 A unique code assigned by Dun & Bradstreet to identify the type of event that has been registered or recorded against the entity. Refer to Reference code table "24 [Legal Event Type]" for all possible values.
organization.legalEvents.otherLegalEvents.filings.financials	[object] The details of the standardized summary view of the financial results (actual or estimated) for the organization.
organization.legalEvents.otherLegalEvents.filings.financials.accountantName	[string] e.g.: Johnson, Jordan & Jones CPAs The name of either an individual or an accounting firm.
organization.legalEvents.otherLegalEvents.filings.financials.balanceSheet	[object] The details of the Latest Financials' balance sheet statement which summarizes the organization's assets, liabilities, and shareholder's equity at a specific point in time.
organization.legalEvents.otherLegalEvents.filings.financials.balanceSheet	[object]

balanceSheet.assets	The details of the assets on the balance sheet.
organization.legalEvents.otherLegalEvents.filings.financials.balanceSheet.assets.currentAssets	[object] Assets that are held for short term; raw materials that are bought, made up, sold as finished goods and eventually paid for.
organization.legalEvents.otherLegalEvents.filings.financials.balanceSheet.assets.currentAssets.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.otherLegalEvents.filings.financials.balanceSheet.assets.currentAssets.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.otherLegalEvents.filings.financials.balanceSheet.assets.currentAssets.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.otherLegalEvents.filings.financials.balanceSheet.assets.currentAssets.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.otherLegalEvents.filings.financials.balanceSheet.assets.currentAssets.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.otherLegalEvents.filings.financials.balanceSheet.assets.longTermAssets	[object] The details of the long-term asset items within the Latest Financials Balance Sheet i.e., items expected to be realized in more than 12 months.
organization.legalEvents.otherLegalEvents.filings.financials.balanceSheet.assets.longTermAssets.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.otherLegalEvents.filings.financials.balanceSheet.assets.longTermAssets.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.otherLegalEvents.filings.financials.balanceSheet.assets.longTermAssets.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.otherLegalEvents.filings.financials.balanceSheet.assets.longTermAssets.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.otherLegalEvents.filings.financials.balanceSheet.assets.longTermAssets.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.

organization.legalEvents.otherLegalEvents.filings.financials.balanceSheet.assets.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.otherLegalEvents.filings.financials.balanceSheet.assets.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.otherLegalEvents.filings.financials.balanceSheet.assets.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.otherLegalEvents.filings.financials.balanceSheet.assets.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.otherLegalEvents.filings.financials.balanceSheet.assets.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.otherLegalEvents.filings.financials.balanceSheet.liabilities	[object] The legal debts or obligations of a company that arise during the course of business operations. Liabilities are settled over time through the transfer of economic benefits including money, goods, or services.
organization.legalEvents.otherLegalEvents.filings.financials.balanceSheet.liabilities.currentLiabilities	[object] The details of the entity's total value of all obligations to pay out cash at some date in the near future.
organization.legalEvents.otherLegalEvents.filings.financials.balanceSheet.liabilities.currentLiabilities.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.otherLegalEvents.filings.financials.balanceSheet.liabilities.currentLiabilities.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.otherLegalEvents.filings.financials.balanceSheet.liabilities.currentLiabilities.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.otherLegalEvents.filings.financials.balanceSheet.liabilities.currentLiabilities.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.otherLegalEvents.filings.financials.balanceSheet.liabilities.currentLiabilities.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.otherLegalEvents.filings.financials.balanceSheet.liabilities.equity	[object] The details of the share capital/stock originally invested by shareholders/stockholders plus any reserves that have arisen, such as retained profits, that were ploughed back into the firm. Also known as Net Worth.

organization.legalEvents.otherLegalEvents.filings.financials.balanceSheet.liabilities.equity.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.otherLegalEvents.filings.financials.balanceSheet.liabilities.equity.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.otherLegalEvents.filings.financials.balanceSheet.liabilities.equity.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.otherLegalEvents.filings.financials.balanceSheet.liabilities.equity.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.otherLegalEvents.filings.financials.balanceSheet.liabilities.equity.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.otherLegalEvents.filings.financials.balanceSheet.liabilities.longTermLiabilities	[object] The details of the entity's total value of all obligations to pay out cash at some date in the future but not within one year.
organization.legalEvents.otherLegalEvents.filings.financials.balanceSheet.liabilities.longTermLiabilities.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.otherLegalEvents.filings.financials.balanceSheet.liabilities.longTermLiabilities.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.otherLegalEvents.filings.financials.balanceSheet.liabilities.longTermLiabilities.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.otherLegalEvents.filings.financials.balanceSheet.liabilities.longTermLiabilities.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.otherLegalEvents.filings.financials.balanceSheet.liabilities.longTermLiabilities.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.otherLegalEvents.filings.financials.balanceSheet.liabilities.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.otherLegalEvents.filings.financials.balanceSheet.liabilities	[object]

lanceSheet.liabilities.statementItems.itemKey	Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.otherLegalEvents.filings.financials.balanceSheet.liabilities.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.otherLegalEvents.filings.financials.balanceSheet.liabilities.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.otherLegalEvents.filings.financials.balanceSheet.liabilities.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.otherLegalEvents.filings.financials.balanceSheet.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.otherLegalEvents.filings.financials.balanceSheet.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.otherLegalEvents.filings.financials.balanceSheet.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.otherLegalEvents.filings.financials.balanceSheet.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.otherLegalEvents.filings.financials.balanceSheet.statementItems.parentItemKey	[object] Records the higher level financial figure to which this item belongs to.
organization.legalEvents.otherLegalEvents.filings.financials.balanceSheet.statementItems.parentItemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.otherLegalEvents.filings.financials.balanceSheet.statementItems.parentItemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.otherLegalEvents.filings.financials.balanceSheet.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.otherLegalEvents.filings.financials.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).

organization.legalEvents.otherLegalEvents.filings.financials.filingDate	[string] e.g.: 2017-10-30 The date on which this event took place.
organization.legalEvents.otherLegalEvents.filings.financials.financialStatementFromDate	[string] e.g.: 2010-03-14 The date on which the accounting period of the Latest Financials' financial statement commenced.
organization.legalEvents.otherLegalEvents.filings.financials.financialStatementToDate	[string] e.g.: 2016-12-31 The date associated with the financial results. When the values are from a financial statement, it represents the date the accounting period ended. When it is an estimated or modeled value, it is the date on which the data was submitted.
organization.legalEvents.otherLegalEvents.filings.financials.informationScope	[object] The details of the organizational scope of the Latest Financials' financial statement.
organization.legalEvents.otherLegalEvents.filings.financials.informationScope.description	[string] e.g.: Consolidated The organizational scope of the values within the Summary Financials section. Individual means it represents a single organization inclusive of any branches. Consolidated means it represents an organization inclusive of any branches and any subsidiaries.
organization.legalEvents.otherLegalEvents.filings.financials.informationScope.dnbCode	[integer] e.g.: 9067 A unique code assigned by Dun & Bradstreet to identify the organizational scope of the Summary Financials values. Refer to Reference code table "192 [Information Scope]" for all possible values.
organization.legalEvents.otherLegalEvents.filings.financials.isAudited	[boolean] e.g.: true Indicates if the Latest Financials' accounts have been reviewed by a qualified accountant independent of the organization and the accountant has signed the financial statement certifying it is accurate and complete.
organization.legalEvents.otherLegalEvents.filings.financials.isFinal	[boolean] e.g.: true Indicates whether the financial figures are for the entity's closing statement. - If true, the financial figures are for the entity's closing statement. - If false, the financial figures are not for the entity's closing statement.
organization.legalEvents.otherLegalEvents.filings.financials.isFiscal	[boolean] e.g.: true Indicates whether the Latest Financials' financial figures cover a full year accounting period.
organization.legalEvents.otherLegalEvents.filings.financials.profitAndLossStatement	[object] The details of the Latest Financials' profit and loss (P&L) statement which summarizes the revenues, costs and expenses incurred during a specified accounting period. The P&L statement is synonymous with the income statement.
organization.legalEvents.otherLegalEvents.filings.financials.profitAndLossStatement.notes	[string] e.g.: Representative's comments Comments made by a representative

organization.legalEvents.otherLegalEvents.filings.financials.profitAndLossStatement.projectedAnnualSales	[string] e.g.: Some information about projected sales Information about the projected annual sales.
organization.legalEvents.otherLegalEvents.filings.financials.profitAndLossStatement.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.legalEvents.otherLegalEvents.filings.financials.profitAndLossStatement.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.otherLegalEvents.filings.financials.profitAndLossStatement.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.legalEvents.otherLegalEvents.filings.financials.profitAndLossStatement.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.legalEvents.otherLegalEvents.filings.financials.profitAndLossStatement.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.legalEvents.otherLegalEvents.filings.financials.receivedTimestamp	[string] e.g.: 2018-04-06T16:33:21.443Z The date and time, in ISO 8601 UTC Z standard, when Dun & Bradstreet or one of Dun & Bradstreet's strategic partners received this financial statement.
organization.legalEvents.otherLegalEvents.filings.financials.reliability	[object] The details of the integrity of the figures in the Latest Financials' financial statement.
organization.legalEvents.otherLegalEvents.filings.financials.reliability.description	[string] e.g.: Actual The integrity of the financial figures present within the Summary Financials section (e.g., actual, estimated, or modeled).
organization.legalEvents.otherLegalEvents.filings.financials.reliability.dnbCode	[integer] e.g.: 9092 A unique code assigned by Dun & Bradstreet to identify the precision of the financial figures present within the Summary Financials section. Refer to Reference code table "171 [Reliability]" for all possible values.
organization.legalEvents.otherLegalEvents.filings.financials.units	[string] e.g.: SingleUnits The unit size (e.g., units, thousands, millions) in which the figures in the Latest Financials' financial statement are stated.
organization.legalEvents.otherLegalEvents.filings.hasEnded	[boolean] e.g.: true Indicates whether the event is no longer active. - If true, the event is no longer active. - If false, the event is active.

organization.legalEvents.otherLegalEvents.filings.hasHistoricalEvent	<p>[boolean] e.g.: true Indicates whether the entity is associated with a historical event.</p> <p>- If true, the entity has been part of a historical event. - If false, the entity has not been part of a historical event.</p>
organization.legalEvents.otherLegalEvents.filings.impactAmount	<p>[object] The details of the cost of the effect of an event.</p>
organization.legalEvents.otherLegalEvents.filings.impactAmount.currency	<p>[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).</p>
organization.legalEvents.otherLegalEvents.filings.impactAmount.value	<p>[number] e.g.: 543000 The cost of the event.</p>
organization.legalEvents.otherLegalEvents.filings.isStopD	<p>[boolean] e.g.: true When set to "true" this indicates that D&B should not fabricate or supply this Legal Event in products and services. Note: One exception to this business rule is the Public Records report which would disregard this indicator setting. When set to "false" this indicates that D&B can fabricate or supply this Legal Event in products and services; however as this is the assumed condition there is no requirement to create this tag to represent this fact.</p>
organization.legalEvents.otherLegalEvents.filings.jurisdictionType	<p>[object] Describes the level of government applying the laws applicable to the event, e.g., federal, state.</p>
organization.legalEvents.otherLegalEvents.filings.jurisdictionType.description	<p>[string] e.g.: County Text that describes the level of government applying the laws applicable to the event, e.g., federal, state.</p>
organization.legalEvents.otherLegalEvents.filings.jurisdictionType.dnbCode	<p>[integer] e.g.: 14809 A unique code assigned by Dun & Bradstreet that describes the level of government applying the laws applicable to the event, e.g., federal, state. Refer to Reference code table "434 [Jurisdiction Type]" for all possible values.</p>
organization.legalEvents.otherLegalEvents.filings.legalHearingDate	<p>[string] e.g.: 2019-10-12 Records the date of a formal process associated with the Legal Event e.g. the date by which creditors' claims must be filed, the future date for the reading of a bankruptcy petition.</p>
organization.legalEvents.otherLegalEvents.filings.originalFilingDate	<p>[string] e.g.: 2017-10-30 The date of the initial filing of the event.</p>
organization.legalEvents.otherLegalEvents.filings.parentBankruptcy	<p>[object] The details of a bankruptcy filed by the parent entity.</p>

organization.legalEvents.otherLegalEvents.filings.parentBankruptcy.associationType	[object] The details of the nature of association of this entity with subject entity.
organization.legalEvents.otherLegalEvents.filings.parentBankruptcy.associationType.description	[string] e.g.: Dealer Alternate Linkage The nature of association of this entity with subject entity (e.g., Franchise, Agent).
organization.legalEvents.otherLegalEvents.filings.parentBankruptcy.associationType.dnbCode	[integer] e.g.: 30488 A unique code assigned by Dun & Bradstreet to identify the nature of association of this entity with subject entity. Refer to Reference code table "511 [Affiliation Type]" for all possible values.
organization.legalEvents.otherLegalEvents.filings.parentBankruptcy.duns	[string] e.g.: 804735132 The D-U-N-S® Number, a proprietary organizational identifier owned and managed by Dun & Bradstreet Inc, provides unique identification of a subject organization, in accordance with the Data Universal Numbering System (D-U-N-S®).
organization.legalEvents.otherLegalEvents.filings.parentBankruptcy.filingChapter	[string] e.g.: 11 The chapter that applies to the filing of this event.
organization.legalEvents.otherLegalEvents.filings.parentBankruptcy.filingDate	[string] e.g.: 2017-10-30 The date on which this event took place.
organization.legalEvents.otherLegalEvents.filings.parentBankruptcy.filingSubType	[object] The lower level category of event that has been registered against the entity.
organization.legalEvents.otherLegalEvents.filings.parentBankruptcy.filingSubType.description	[string] e.g.: Bill The type of event registered against the entity.
organization.legalEvents.otherLegalEvents.filings.parentBankruptcy.filingSubType.dnbCode	[integer] e.g.: 3617 A unique code assigned by Dun & Bradstreet to identify the type of event. Refer to Reference code table "112 [Legal Event Sub Type]" for all possible values.
organization.legalEvents.otherLegalEvents.filings.parentBankruptcy.filingType	[object] The details of the type of event that has been registered or recorded against the entity.
organization.legalEvents.otherLegalEvents.filings.parentBankruptcy.filingType.description	[string] e.g.: County Court Judgement The type of event that has been registered or recorded against the entity.
organization.legalEvents.otherLegalEvents.filings.parentBankruptcy.filingType.dnbCode	[integer] e.g.: 2515 A unique code assigned by Dun & Bradstreet to identify the type of event that has been registered or recorded against the entity. Refer to Reference code table "24 [Legal Event Type]" for all possible values.
organization.legalEvents.otherLegalEvents.filings.priority	[string] e.g.: 3 A number that may be used to define the order in which the legal event should be presented relative to the

	other legal events. The lower the number the earlier the data is presented. Events within the same legal process can be identified using the priority group.
organization.legalEvents.otherLegalEvents.filings.priorityGroup	[string] e.g.: 3 A number used to identify multiple legal events that belong together as part of the same overall legal process. The priority may be used to ensure that the events within the group are presented continuously and in the correct order.
organization.legalEvents.otherLegalEvents.filings.publishedDate	[string] e.g.: 2011-02-14 The date to support the recording of the Publication Date for an official document registered with an Official Body.
organization.legalEvents.otherLegalEvents.filings.reasons	[array (object)] The details of the underlying factor that contributed to the Legal Event.
organization.legalEvents.otherLegalEvents.filings.reasons.description	[string] e.g.: Voluntary Petition for Bankruptcy The underlying factor that contributed to the Legal Event (e.g., natural disaster, fraud, strategy, economic conditions, loss to creditors).
organization.legalEvents.otherLegalEvents.filings.reasons.dnbCode	[integer] e.g.: 12281 A unique code assigned by Dun & Bradstreet to identify the underlying factor that contributed to the Legal Event. Refer to Reference code table "299 [Event Reason]" for all possible values.
organization.legalEvents.otherLegalEvents.filings.reasons.filingAmount	[object] The details of the amount of relief sought by all of the plaintiffs in the suit.
organization.legalEvents.otherLegalEvents.filings.reasons.filingAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.otherLegalEvents.filings.reasons.filingAmount.value	[number] e.g.: 1000000 The total amount of relief sought by all of the plaintiffs in the suit.
organization.legalEvents.otherLegalEvents.filings.receivedDate	[string] e.g.: 2017-10-30 The date when Dun & Bradstreet or one of its strategic partners received this legal event.
organization.legalEvents.otherLegalEvents.filings.remedyFiled	[array (object)] The details of different kinds of relief for damages, and the associated amount filed for this legal event.
organization.legalEvents.otherLegalEvents.filings.remedyFiled.remedyAmount	[object] The details of the amount of the remedy filed for damages for this legal event.
organization.legalEvents.otherLegalEvents.filings.remedyFiled	[string] e.g.: USD

.remedyAmount.currency	The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.otherLegalEvents.filings.remedyFiled .remedyAmount.value	[number] e.g.: 30000 The monetary value of the remedy filed for damages for this legal event.
organization.legalEvents.otherLegalEvents.filings.remedyFiled .remedyType	[object] The details of the specific kind of relief for the damage sought or deemed by this legal event (e.g., Actual, Punitive, Injunction, Compensatory).
organization.legalEvents.otherLegalEvents.filings.remedyFiled .remedyType.description	[string] e.g.: Compensatory damage The specific kind of relief for the damage sought or deemed by this legal event (e.g., Actual, Punitive, Injunction, Compensatory).
organization.legalEvents.otherLegalEvents.filings.remedyFiled .remedyType.dnbCode	[integer] e.g.: 14073 A unique code assigned by Dun & Bradstreet that describes the specific kind of relief for the damage sought or deemed by this legal event. Refer to Reference code table "430 [Legal Event Remedy Type]" for all possible values.
organization.legalEvents.otherLegalEvents.filings.rolePlayers	[array (object)] The details of role players involved in a Legal Event as recorded in court papers and identifies the part each one plays.
organization.legalEvents.otherLegalEvents.filings.rolePlayers. address	[object] The details of the Primary Address at which the organization is located or conducts operations.
organization.legalEvents.otherLegalEvents.filings.rolePlayers. address.addressCountry	[object] The details of the country in which the role player is located.
organization.legalEvents.otherLegalEvents.filings.rolePlayers. address.addressCountry.isoAlpha2Code	[string] e.g.: US The two-letter country code, defined by the International Organization for Standardization (ISO) ISO 3166-1 scheme identifying the country of the role player. Note: Please refer to Country Code Substitutions Table [/html/resources/CountryCodes.html#country-substitute] for the country code substitutions.
organization.legalEvents.otherLegalEvents.filings.rolePlayers. address.addressCountry.name	[string] e.g.: Unites States The name of the country in which the role player is located.
organization.legalEvents.otherLegalEvents.filings.rolePlayers. address.addressCounty	[object] The details of the county where the business is located.
organization.legalEvents.otherLegalEvents.filings.rolePlayers. address.addressCounty.name	[string] e.g.: Unites States The name of the county where the business is located.

organization.legalEvents.otherLegalEvents.filings.rolePlayers. address.addressLocality	[object] The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.
organization.legalEvents.otherLegalEvents.filings.rolePlayers. address.addressLocality.name	[string] e.g.: SAN FRANCISCO The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.
organization.legalEvents.otherLegalEvents.filings.rolePlayers. address.addressRegion	[object] The name of the geographical area for this address of the organization. For Example New Jersey.
organization.legalEvents.otherLegalEvents.filings.rolePlayers. address.addressRegion.abbreviatedName	[string] e.g.: NJ The shortened name of the geographical area for this address of the organization. For example NJ for the US State New Jersey within Country United States.
organization.legalEvents.otherLegalEvents.filings.rolePlayers. address.addressRegion.name	[string] e.g.: California The name of the geographical area for this address of the organization. For Example New Jersey.
organization.legalEvents.otherLegalEvents.filings.rolePlayers. address.continentalRegion	[object] The details of the region as defined by Dun & Bradstreet for this address.
organization.legalEvents.otherLegalEvents.filings.rolePlayers. address.continentalRegion.name	[string] e.g.: North America The name of the region as defined by Dun & Bradstreet for this address (e.g., Africa, Europe, Middle East).
organization.legalEvents.otherLegalEvents.filings.rolePlayers. address.postalCode	[string] e.g.: 941109999 The postal code for this address of the organization. Also known locally in various English-speaking countries throughout the world as a postcode, post code, Eircode, PIN or ZIP Code) is a series of letters or digits or both, sometimes including spaces or punctuation, included in a postal address for the purpose of sorting mail. The code is used by the country's postal authority to identify the address where the organization is located or conducts operations .
organization.legalEvents.otherLegalEvents.filings.rolePlayers. address.streetAddress	[object] The details of the street address for this address of the organization.
organization.legalEvents.otherLegalEvents.filings.rolePlayers. address.streetAddress.line1	[string] e.g.: 492 KOLLER ST The first line of the address where the entity is located. The first line of this address of the organization. For example The Point in the address The Point 37 North Wharf Road London W2 1AF

organization.legalEvents.otherLegalEvents.filings.rolePlayers.address.streetAddress.line2	[string] e.g.: Suite 100 The second line of this address of the organization. For example 37 North Wharf Road in the address The Point 37 North Wharf Road London W2 1AF
organization.legalEvents.otherLegalEvents.filings.rolePlayers.creditorCategories	[array (object)] Records several different classifications for this creditor who claims that the subject owes money. The priority in which the claimants are paid is based on the classification to which they belong.
organization.legalEvents.otherLegalEvents.filings.rolePlayers.creditorCategories.claimAmount	[object] Details of the monetary value owed to the category of this creditor recorded in Creditor Type.
organization.legalEvents.otherLegalEvents.filings.rolePlayers.creditorCategories.claimAmount.currency	[string] e.g.: USD The currency of the monetary value owed to the category of this creditor recorded in Creditor Type.
organization.legalEvents.otherLegalEvents.filings.rolePlayers.creditorCategories.claimAmount.value	[number] e.g.: 1485795.25 The monetary value owed to the category of this creditor recorded in Creditor Type.
organization.legalEvents.otherLegalEvents.filings.rolePlayers.creditorCategories.creditorType	[object] The category of this creditor to which the subject owes money, with respect to their priority of being paid relative to other creditor categories; e.g., preferred, secured, where preferred creditors have priority over secured creditors.
organization.legalEvents.otherLegalEvents.filings.rolePlayers.creditorCategories.creditorType.description	[string] e.g.: Secured Text that identifies the category of this creditor to which the subject owes money, with respect to their priority of being paid relative to other creditor categories; e.g., preferred, secured, where preferred creditors have priority over secured creditors.
organization.legalEvents.otherLegalEvents.filings.rolePlayers.creditorCategories.creditorType.dnbCode	[integer] e.g.: 15573 A unique code assigned by Dun & Bradstreet that specifies the category of this creditor to which the subject owes money, with respect to their priority of being paid relative to other creditor categories; e.g., preferred, secured, where preferred creditors have priority over secured creditors. Refer to Reference code table "401 [Creditor Type]" for all possible values.
organization.legalEvents.otherLegalEvents.filings.rolePlayers.duns	[string] e.g.: 804735132 The D-U-N-S® Number, a proprietary organizational identifier owned and managed by Dun & Bradstreet Inc, provides unique identification of a subject organization, in accordance with the Data Universal Numbering System (D-U-N-S®).
organization.legalEvents.otherLegalEvents.filings.rolePlayers.employerName	[string] e.g.: Dun & Bradstreet The name of the subject that employs the party involved in this event.

organization.legalEvents.otherLegalEvents.filings.rolePlayers.filingAmount	[object] The details of the monetary value associated with a court action for this party involved in the event.
organization.legalEvents.otherLegalEvents.filings.rolePlayers.filingAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.legalEvents.otherLegalEvents.filings.rolePlayers.filingAmount.value	[number] e.g.: 100000 The monetary value associated with a court action for this party involved in the event.
organization.legalEvents.otherLegalEvents.filings.rolePlayers.filingAmountComparisonType	[object] Specifies the operator that may be used as the basis of data comparisons between two values; e.g., greater than, less than, equal to. In some cases only one of two values being compared is recorded, while the other value could be derived or become available at a later date. For example, the value to be awarded must be "Less Than" the value recorded.
organization.legalEvents.otherLegalEvents.filings.rolePlayers.filingAmountComparisonType.description	[string] e.g.: less than Text that specifies the operator that may be used as the basis of data comparisons between two values; e.g., greater than, less than, equal to. In some cases only one of two values being compared is recorded, while the other value could be derived or become available at a later date. For example, the value to be awarded must be "Less Than" the value recorded.
organization.legalEvents.otherLegalEvents.filings.rolePlayers.filingAmountComparisonType.dnbCode	[integer] e.g.: 16804 A unique code assigned by Dun & Bradstreet that specifies the operator that may be used as the basis of data comparisons between two values; e.g., greater than, less than, equal to. In some cases only one of two values being compared is recorded, while the other value could be derived or become available at a later date. For example, the value to be awarded must be "Less Than" the value recorded. Refer to Reference code table "410 [Comparison Operator]" for all possible values.
organization.legalEvents.otherLegalEvents.filings.rolePlayers.filingResults	[array (object)] Describes all outcomes involving this Role Player from this Legal Event; e.g., Counter claim filed by the defendant in a lawsuit.
organization.legalEvents.otherLegalEvents.filings.rolePlayers.filingResults.result	[object] Describes an outcome involving this Role Player from this Legal Event; e.g., Counter claim filed by the defendant in a lawsuit.
organization.legalEvents.otherLegalEvents.filings.rolePlayers.filingResults.result.description	[string] e.g.: Closed Text that describes an outcome involving this Role Player from this Legal Event; e.g., Counter claim filed by the defendant in a lawsuit.
organization.legalEvents.otherLegalEvents.filings.rolePlayers.filingResults.result.dnbCode	[integer] e.g.: 11468 A unique code assigned by Dun & Bradstreet that describes an outcome involving this Role Player from this Legal Event; e.g., Counter claim filed by the defendant in a lawsuit.

Refer to Reference code table "86 [Event Result]" for all possible values.

organization.legalEvents.otherLegalEvents.filings.rolePlayers.filingResults.resultDate

[string] e.g.: 2012-05-30
The date when the outcome recorded in Event Result Code occurred.

organization.legalEvents.otherLegalEvents.filings.rolePlayers.name

[string] e.g.: Some Vendor
The name of the party involved in this event as it was filed.

organization.legalEvents.otherLegalEvents.filings.rolePlayers.operatingStatus

[object]
The details of the high level categorization of the organization's functional state or trading status.

organization.legalEvents.otherLegalEvents.filings.rolePlayers.operatingStatus.description

[string] e.g.: Active
Textual description of the organization's functional state or trading status.
Possible values:
[9074] Active
[403] Out of Business

organization.legalEvents.otherLegalEvents.filings.rolePlayers.operatingStatus.dnbCode

[integer] e.g.: 9074
A unique code assigned by Dun & Bradstreet to identify the organization's functional state or trading status.
Possible values:
9074 [Active]
403 [Out of Business]
Refer to Reference code table "166 [Operating Status]" for all possible values.

organization.legalEvents.otherLegalEvents.filings.rolePlayers.positions

[array (object)]
The details of the job positions the role player holds or has held in the entity.

organization.legalEvents.otherLegalEvents.filings.rolePlayers.positions.description

[string] e.g.: Sales consultant
The job position the role player holds or has held in the organization (e.g., Financial Director, Sales Director, Operations Manager).

organization.legalEvents.otherLegalEvents.filings.rolePlayers.positions.dnbCode

[integer] e.g.: 28802
A unique code assigned by Dun & Bradstreet that denotes the job position the role player holds or has held in the entity.
Refer to Reference code table "5 [Position] & 198 [Employee Position]" for all possible values.

organization.legalEvents.otherLegalEvents.filings.rolePlayers.reasons

[array (object)]
Records various underlying factors involving this Role Player, that contributed to the Legal Event.

organization.legalEvents.otherLegalEvents.filings.rolePlayers.reasons.description

[string] e.g.: Goodwill
Text describing an underlying factor involving this Role player that contributed to the Legal Event; e.g., fraud, racism, strategy, anti-trust violation.

organization.legalEvents.otherLegalEvents.filings.rolePlayers.

[integer] e.g.: 15629

reasons.dnbCode	A unique code assigned by Dun & Bradstreet describing an underlying factor involving this Role player that contributed to the Legal Event; e.g., fraud, racism, strategy, anti-trust violation. Refer to Reference code table "299 [Event Reason]" for all possible values.
organization.legalEvents.otherLegalEvents.filings.rolePlayers.registrationNumbers	[array (object)] The details of the numbers assigned by an external body or by Dun & Bradstreet that either uniquely identifies or helps to identify an entity.
organization.legalEvents.otherLegalEvents.filings.rolePlayers.registrationNumbers.registrationNumber	[string] e.g.: 12-3456789 The number or alphanumeric value assigned by a recognized external authority that either uniquely identifies or helps to identify the organization.
organization.legalEvents.otherLegalEvents.filings.rolePlayers.registrationNumbers.typeDescription	[string] e.g.: Federal Taxpayer Identification Number (US) The official name of the organization identifier assigned by a recognized external authority (e.g.. Australian Company Number, Federal Taxpayer Identification Number, Value Added Tax Number).
organization.legalEvents.otherLegalEvents.filings.rolePlayers.registrationNumbers.typeDnBCode	[integer] e.g.: 6863 A unique code assigned by Dun & Bradstreet to identify the type of organization registration number. For example, 2541 stands for company number issued by the UK Companies House. Refer to Reference code table "7 [Registration Number Type]" for all possible values.
organization.legalEvents.otherLegalEvents.filings.rolePlayers.remedyFiled	[array (object)] Records details on several different kinds of relief for damages along with the associated amount filed for this legal event; e.g., for U.S. suits - the remedies sought by the plaintiff(s), for U.S. judgments - the remedies deemed by the court.
organization.legalEvents.otherLegalEvents.filings.rolePlayers.remedyFiled.remedyType	[object] text that describes the specific kind of relief for the damage sought or deemed by this legal event; e.g., Actual, Punitive, Injunction, Compensatory.
organization.legalEvents.otherLegalEvents.filings.rolePlayers.remedyFiled.remedyType.description	[string] e.g.: Damages A unique code assigned by Dun & Bradstreet that describes the specific kind of relief for the damage sought or deemed by this legal event; e.g., Actual, Punitive, Injunction, Compensatory.
organization.legalEvents.otherLegalEvents.filings.rolePlayers.remedyFiled.remedyType.dnbCode	[integer] e.g.: 14701 A unique code assigned by Dun & Bradstreet that describes the specific kind of relief for the damage sought or deemed by this legal event; e.g., Actual, Punitive, Injunction, Compensatory. Refer to Reference code table "430 [Legal Event Remedy Type]" for all possible values.
organization.legalEvents.otherLegalEvents.filings.rolePlayers.rolePlayerType	[object] The details of the role player's function in the event.
organization.legalEvents.otherLegalEvents.filings.rolePlayers.rolePlayerType.description	[string] e.g.: Shareholder The function played by this party in the event (e.g., debtor, creditor, liquidator, shareholder, court, plaintiff, defendant).

organization.legalEvents.otherLegalEvents.filings.rolePlayers.rolePlayerType.dnbCode	[integer] e.g.: 302 A unique code assigned by Dun & Bradstreet to identify the function played by this party in the event. Refer to Reference code table "10 [Role Player Type]" for all possible values.
organization.legalEvents.otherLegalEvents.filings.rolePlayers.standardRating	[object] The most current Standard Dun & Bradstreet Standard Rating assigned to this entity.
organization.legalEvents.otherLegalEvents.filings.rolePlayers.standardRating.financialStrength	[string] e.g.: 3A The overall size of the entity from a financial perspective. It may be based on the net worth or issued capital of the entity; the higher the amount, the larger the entity is considered to be.
organization.legalEvents.otherLegalEvents.filings.rolePlayers.standardRating.riskSegment	[string] e.g.: 4 Creditworthiness of the entity in terms of its overall financial condition or risk to creditors.
organization.legalEvents.otherLegalEvents.filings.rolePlayers.standardRating.scoreDate	[string] e.g.: 2010-03-14 The date when the score was assigned or last changed. Scores are continuously monitored and recalculated as any input variables changes. In the event that the score could not be assigned on the entity, this is the date when the reason was recorded explaining why the score was not assigned. Format: YYYY-MM-DD or YYYY-MM. Note: In some markets, the date is not changed unless there is a score change in order to avoid unnecessary notifications. But in others, the score date changes even though the score does not change after the market recalculates the score.
organization.legalEvents.otherLegalEvents.filings.rolePlayers.startDate	[string] e.g.: 2017-10-30 The date when the role player originally started its business activities.
organization.legalEvents.otherLegalEvents.filings.rolePlayers.telephone	[array (object)] The details of the Telephone contact information used for voice communication with the organization.
organization.legalEvents.otherLegalEvents.filings.rolePlayers.telephone.isdCode	[string] e.g.: 1 A series of numbers that must be prefixed before dialing a telephone number in another Country, it is comprised of an International Dialing Prefix followed by the Country Code. These are also referred to as Country Calling Code or Country Dial-In Code.
organization.legalEvents.otherLegalEvents.filings.rolePlayers.telephone.isUnreachable	[boolean] e.g.: false Indicates whether the telephone number can be connected to successfully. - If true, connection to the telephone number is unsuccessful. - If false, connection to the telephone number is successful.
organization.legalEvents.otherLegalEvents.filings.rolePlayers.telephone.telephoneNumber	[string] e.g.: 6505550000 The primary voice telephone number for the business, when dialing domestically. The National Telephone Number is created by combining the Domestic Area Code and the Local Number.

A Domestic Area Code is a series of numbers that must be prefixed before dialing a telephone number in another local area. National telecommunication authorities use various formats and dialing rules for area codes. Also known as City Code.

A Local Number is a series of numbers that represents a specific telephone line.

organization.legalEvents.otherLegalEvents.filings.rolePlayers.textEntry [array (object)]
The details of data elements regarding the legal event filing which cannot be recorded in the other fields.

organization.legalEvents.otherLegalEvents.filings.rolePlayers.textEntry.priority [integer] e.g.: 1
A number that may be used to define the order in which this text entry should be presented relative to other occurrences of text entries where the lower the number the earlier the data is presented.

organization.legalEvents.otherLegalEvents.filings.rolePlayers.textEntry.text [string] e.g.: Some text obtained from contact
Text that has been recorded.

organization.legalEvents.otherLegalEvents.filings.rolePlayers.textEntry.typeDescription [string] e.g.: Legal event
Text entry type to qualify the information recorded in the text entries.

organization.legalEvents.otherLegalEvents.filings.rolePlayers.textEntry.typeDnBCode [integer] e.g.: 1170
A unique code assigned by Dun & Bradstreet to identify the text entry type.
Refer to Reference code table "27 [Information Description]" for all possible values.

organization.legalEvents.otherLegalEvents.filings.status [object]
The details of the most recent situation for the legal event.

organization.legalEvents.otherLegalEvents.filings.status.description [string] e.g.: Open
The most recent situation for the legal event (e.g., pending, unsatisfied).

organization.legalEvents.otherLegalEvents.filings.status.dnbCode [integer] e.g.: 11477
A unique code assigned by Dun & Bradstreet to identify the most recent situation for the legal event.
Refer to Reference code table "82 [Event Status]" for all possible values.

organization.legalEvents.otherLegalEvents.filings.statusDate [string] e.g.: 2017-12-15
The date when the situation changed.

organization.legalEvents.otherLegalEvents.filings.textEntry [array (object)]
The details of data elements regarding the legal event filing which cannot be recorded in the other fields.

organization.legalEvents.otherLegalEvents.filings.textEntry.priority [integer] e.g.: 1
A number that may be used to define the order in which this text entry should be presented relative to other occurrences of text entries where the lower the number the earlier the data is presented.

organization.legalEvents.otherLegalEvents.filings.textEntry.text [string] e.g.: Some text obtained from contact
Text that has been recorded.

organization.legalEvents.otherLegalEvents.filings.textEntry.typeDescription	[string] e.g.: Legal event Text entry type to qualify the information recorded in the text entries.
organization.legalEvents.otherLegalEvents.filings.textEntry.typeDnbCode	[integer] e.g.: 1170 A unique code assigned by Dun & Bradstreet to identify the text entry type. Refer to Reference code table "27 [Information Description]" for all possible values.
organization.legalEvents.otherLegalEvents.filings.textEntry.language	[object] Records the language in which this information is presented.
organization.legalEvents.otherLegalEvents.filings.textEntry.language.description	[string] e.g.: English Textual value denoting the language in which this information is recorded.
organization.legalEvents.otherLegalEvents.filings.textEntry.language.dnbCode	[integer] e.g.: 39 A unique code assigned by Dun & Bradstreet that denotes the language in which this information is recorded. Refer to Reference code table "3 [Language]" for all possible values.
organization.legalEvents.otherLegalEvents.filings.verifiedDate	[string] e.g.: 2017-10-30 The date Dun & Bradstreet reviewed the reported content of the Legal Event to ensure accuracy.
organization.legalEvents.textEntry	[array (object)] The details of data elements regarding the legal event filing which cannot be recorded in the other fields.
organization.legalEvents.textEntry.priority	[integer] e.g.: 1 A number that may be used to define the order in which this text entry should be presented relative to other occurrences of text entries where the lower the number the earlier the data is presented.
organization.legalEvents.textEntry.text	[string] e.g.: Some text obtained from contact Text that has been recorded.
organization.legalEvents.textEntry.typeDescription	[string] e.g.: Legal event Text entry type to qualify the information recorded in the text entries.
organization.legalEvents.textEntry.typeDnbCode	[integer] e.g.: 1170 A unique code assigned by Dun & Bradstreet to identify the text entry type. Refer to Reference code table "27 [Information Description]" for all possible values.
organization.commercialCollectionClaims	[object] The details of claims made by a creditor against the entity, as debtor, for accounts that have not been paid and where those claims have been passed to another agency to handle the collection of outstanding amounts.
organization.commercialCollectionClaims.filings	[array (object)] The details of claims made by a creditor against the entity, as debtor, for accounts that have not been paid

and where those claims have been passed to another agency to handle the collection of outstanding amounts.

organization.commercialCollectionClaims.filings.activities	[array (object)] Records the various dates regarding the activities that have taken place in pursuit of the claim.
organization.commercialCollectionClaims.filings.activities.activityDate	[string] e.g.: 2018-07-30 The date of an activity that has taken place in pursuit of the claim.
organization.commercialCollectionClaims.filings.activities.activityType	[object] Records the type of activity to which the date refers. E.g. claim submitted into legal action , claim passed to external collection agency , claim entered onto system
organization.commercialCollectionClaims.filings.activities.activityType.typeDescription	[string] e.g.: Claim passed to external collection agency Text that describes the type of activity to which the date refers. E.g. claim submitted into legal action , claim passed to external collection agency , claim entered onto system
organization.commercialCollectionClaims.filings.activities.activityType.typeDnBCode	[integer] e.g.: 11732 A unique code assigned by Dun & Bradstreet that describes the type of activity to which the date refers. E.g. claim submitted into legal action , claim passed to external collection agency , claim entered onto system Refer to Reference code table "289 [Commercial Collection Activity Type]" for all possible values.
organization.commercialCollectionClaims.filings.claimDuration	[string] e.g.: 25 The number of days that have elapsed since the claim was placed with the collection agency by the creditor.
organization.commercialCollectionClaims.filings.collaterals	[array (object)] The details of the different types of assets used by the entity as security for this event.
organization.commercialCollectionClaims.filings.collaterals.collateralType	[object] The details of a type of asset used as collateral.
organization.commercialCollectionClaims.filings.collaterals.collateralType.description	[string] e.g.: Forest land The type of asset used as collateral at a detailed level (e.g., Cars, Office Block, Ships).
organization.commercialCollectionClaims.filings.collaterals.collateralType.dnbCode	[integer] e.g.: 30061 A unique code assigned by Dun & Bradstreet to identify the type of asset. Refer to Reference code table "68 [Asset Type]" for all possible values.
organization.commercialCollectionClaims.filings.contactEvents	[array (object)] The details on communications Dun & Bradstreet had with persons to get information on this event.
organization.commercialCollectionClaims.filings.contactEvents.contactDate	[string] e.g.: 2017-11-25 The date when the communication took place.

organization.commercialCollectionClaims.filings.contactEvent s.name	[string] e.g.: John Smith The name of the contact which may be either an individual or an entity.
organization.commercialCollectionClaims.filings.contactEvent s.positions	[array (object)] The details on the job position the principal or manager holds or has held in the entity.
organization.commercialCollectionClaims.filings.contactEvent s.positions.description	[string] e.g.: Chairman Executive Committee The job position the principal or manager holds or has held in the entity (e.g., Financial Director, Managing Director, Sales Director, Operations Manager).
organization.commercialCollectionClaims.filings.contactEvent s.positions.dnbCode	[integer] e.g.: 95 A unique code assigned by Dun & Bradstreet to identify the job position the principal or manager holds or has held in the entity. Refer to Reference code table "5 [Position] & 198 [Employee Position]" for all possible values.
organization.commercialCollectionClaims.filings.contactEvent s.positions.priority	[string] e.g.: 1 A number that may be used to define the order in which the Position should be presented relative to any other occurrences of Position where lower the number the earlier the data is presented.
organization.commercialCollectionClaims.filings.contactEvent s.rolePlayers	[array (object)] The details of role players involved in a Legal Event as recorded in court papers and identifies the part each one plays.
organization.commercialCollectionClaims.filings.contactEvent s.rolePlayers.rolePlayerType	[object] The details of the role player's function in the event.
organization.commercialCollectionClaims.filings.contactEvent s.rolePlayers.rolePlayerType.description	[string] e.g.: Shareholder The function played by this party in the event (e.g., debtor, creditor, liquidator, shareholder, court, plaintiff, defendant).
organization.commercialCollectionClaims.filings.contactEvent s.rolePlayers.rolePlayerType.dnbCode	[integer] e.g.: 302 A unique code assigned by Dun & Bradstreet to identify the function played by this party in the event. Refer to Reference code table "10 [Role Player Type]" for all possible values.
organization.commercialCollectionClaims.filings.contactEvent s.textEntry	[array (object)] The details of data elements regarding the legal event filing which cannot be recorded in the other fields.
organization.commercialCollectionClaims.filings.contactEvent s.textEntry.priority	[integer] e.g.: 1 A number that may be used to define the order in which this text entry should be presented relative to other occurrences of text entries where the lower the number the earlier the data is presented.
organization.commercialCollectionClaims.filings.contactEvent s.textEntry.text	[string] e.g.: Some text obtained from contact Text that has been recorded.
organization.commercialCollectionClaims.filings.contactEvent	[string] e.g.: Legal event

s.textEntry.typeDescription	Text entry type to qualify the information recorded in the text entries.
organization.commercialCollectionClaims.filings.contactEvent s.textEntry.typeDnBCode	[integer] e.g.: 1170 A unique code assigned by Dun & Bradstreet to identify the text entry type. Refer to Reference code table "27 [Information Description]" for all possible values.
organization.commercialCollectionClaims.filings.endDate	[string] e.g.: 2017-10-31 The date indicates that the Legal Event procedure ended.
organization.commercialCollectionClaims.filings.filingAmount	[object] The details of the amount of relief sought by all of the plaintiffs in the suit.
organization.commercialCollectionClaims.filings.filingAmount. currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.commercialCollectionClaims.filings.filingAmount. value	[number] e.g.: 1000000 The total amount of relief sought by all of the plaintiffs in the suit.
organization.commercialCollectionClaims.filings.filingDate	[string] e.g.: 2017-10-30 The date on which this event took place.
organization.commercialCollectionClaims.filings.filingMedium	[string] e.g.: Docket The medium in which the filing is recorded.
organization.commercialCollectionClaims.filings.filingReference	[string] e.g.: D5QZ52TC The identifier given by a registry body to the official filed document that contains this legal event information.
organization.commercialCollectionClaims.filings.filingResults	[array (object)] The details of the outcomes this Legal Event had or is having on the entity.
organization.commercialCollectionClaims.filings.filingResults. description	[string] e.g.: Settled The outcome this event had or is having on the party involved in the event (e.g., Petition Dismissed, Liquidator Appointed, Counter claim filed by the defendant in a lawsuit).
organization.commercialCollectionClaims.filings.filingResults. dnbCode	[integer] e.g.: 11466 A unique code assigned by Dun & Bradstreet that describes the outcome this event had or is having. Refer to Reference code table "86 [Event Result]" for all possible values.
organization.commercialCollectionClaims.filings.filingType	[object] The details of the type of event that has been registered or recorded against the entity.
organization.commercialCollectionClaims.filings.filingType.des	[string] e.g.: County Court Judgement

cription	The type of event that has been registered or recorded against the entity.
organization.commercialCollectionClaims.filings.filingType.dnbCode	[integer] e.g.: 2515 A unique code assigned by Dun & Bradstreet to identify the type of event that has been registered or recorded against the entity. Refer to Reference code table "24 [Legal Event Type]" for all possible values.
organization.commercialCollectionClaims.filings.hasLegalAction	[boolean] e.g.: true When "true", it denotes that pursuing the claim by the collection agency has failed to resolve it and therefore legal processes are invoked to pursue the claim through the courts.
organization.commercialCollectionClaims.filings.isClaimDisputed	[boolean] e.g.: true When "true", it indicates that the claim has been contested by the debtor.
organization.commercialCollectionClaims.filings.isForeign	[boolean] e.g.: true When "true", indicates that the claim has originated from a creditor located in a different country to that of the subject. When "false", this indicates that the creditor is in the same country as that of the subject; however as this is the assumed condition there is no requirement to create this tag to represent this fact.
organization.commercialCollectionClaims.filings.originalFilingDate	[string] e.g.: 2017-10-30 The date of the initial filing of the event.
organization.commercialCollectionClaims.filings.publishedDate	[string] e.g.: 2011-02-14 The date to support the recording of the Publication Date for an official document registered with an Official Body.
organization.commercialCollectionClaims.filings.reasons	[array (object)] The details of the underlying factor that contributed to the Legal Event.
organization.commercialCollectionClaims.filings.reasons.description	[string] e.g.: Voluntary Petition for Bankruptcy The underlying factor that contributed to the Legal Event (e.g., natural disaster, fraud, strategy, economic conditions, loss to creditors).
organization.commercialCollectionClaims.filings.reasons.dnbCode	[integer] e.g.: 12281 A unique code assigned by Dun & Bradstreet to identify the underlying factor that contributed to the Legal Event. Refer to Reference code table "299 [Event Reason]" for all possible values.
organization.commercialCollectionClaims.filings.receivedAmount	[object] Records the amount that has been received to date as a partial payment or in settlement of a claim. This may or may not be the full amount claimed; for example the subject and the creditor may have agreed on a lesser payment in settlement of the claim.

organization.commercialCollectionClaims.filings.receivedAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.commercialCollectionClaims.filings.receivedAmount.value	[number] e.g.: 601 The monetary value that has been received to date as a partial payment or in settlement of a claim. This may or may not be the full amount claimed; for example the subject and the creditor may have agreed on a lesser payment in settlement of the claim.
organization.commercialCollectionClaims.filings.receivedDate	[string] e.g.: 2017-10-30 The date when Dun & Bradstreet or one of its strategic partners received this legal event.
organization.commercialCollectionClaims.filings.referenceNumbers	[array (object)] Records various reference numbers related to the claim.
organization.commercialCollectionClaims.filings.referenceNumbers.referenceNumber	[string] e.g.: CLAIM123 The identifier related to the claim. E.g. creditor's reference, controlling office number
organization.commercialCollectionClaims.filings.referenceNumbers.referenceType	[object] Records the type of reference number. E.g. creditor's reference, controlling office number
organization.commercialCollectionClaims.filings.referenceNumbers.referenceType.typeDescription	[string] e.g.: Control Office Number Text that describes the type of reference number. E.g. creditor's reference, controlling office number
organization.commercialCollectionClaims.filings.referenceNumbers.referenceType.typeDnBCode	[integer] e.g.: 11736 A unique code assigned by Dun & Bradstreet that describes the type of reference number. E.g. creditor's reference, controlling office number Refer to Reference code table "290 [Commercial Collection Reference Number Type]" for all possible values.
organization.commercialCollectionClaims.filings.rolePlayers	[array (object)] The details of role players involved in a Legal Event as recorded in court papers and identifies the part each one plays.
organization.commercialCollectionClaims.filings.rolePlayers.address	[object] The details of the Primary Address at which the organization is located or conducts operations.
organization.commercialCollectionClaims.filings.rolePlayers.address.addressCountry	[object] The details of the country or region for this address of the organization.
organization.commercialCollectionClaims.filings.rolePlayers.address.addressCountry.name	[string] e.g.: United States The country or region for this address of the organization.
organization.commercialCollectionClaims.filings.rolePlayers.address.addressCountry.name	[object]

ddress.addressLocality	The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.
organization.commercialCollectionClaims.filings.rolePlayers.a ddress.addressLocality.name	[string] e.g.: SAN FRANCISCO The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.
organization.commercialCollectionClaims.filings.rolePlayers.a ddress.addressRegion	[object] The name of the geographical area for this address of the organization. For Example New Jersey.
organization.commercialCollectionClaims.filings.rolePlayers.a ddress.addressRegion.abbreviatedName	[string] e.g.: NJ The shortened name of the geographical area for this address of the organization. For example NJ for the US State New Jersey within Country United States.
organization.commercialCollectionClaims.filings.rolePlayers.a ddress.addressRegion.name	[string] e.g.: California The name of the geographical area for this address of the organization. For Example New Jersey.
organization.commercialCollectionClaims.filings.rolePlayers.a ddress.continentalRegion	[object] The details of the continent for this address of the organization.
organization.commercialCollectionClaims.filings.rolePlayers.a ddress.continentalRegion.name	[string] e.g.: North America The name of the continent for this address of the organization. Possible values Africa Asia Pacific Europe Latin America Middle East North America
organization.commercialCollectionClaims.filings.rolePlayers.a ddress.postalCode	[string] e.g.: 941109999 The postal code for this address of the organization. Also known locally in various English-speaking countries throughout the world as a postcode, post code, Eircode, PIN or ZIP Code) is a series of letters or digits or both, sometimes including spaces or punctuation, included in a postal address for the purpose of sorting mail. The code is used by the country's postal authority to identify the address where the organization is located or conducts operations .
organization.commercialCollectionClaims.filings.rolePlayers.a ddress.streetAddress	[object] The details of the street address for this address of the organization.
organization.commercialCollectionClaims.filings.rolePlayers.a ddress.streetAddress.line1	[string] e.g.: 492 KOLLER ST The first line of the address where the entity is located. The first line of this address of the organization. For example The Point in the address

The Point
37 North Wharf Road
London
W2 1AF

organization.commercialCollectionClaims.filings.rolePlayers.address.streetAddress.line2

[string] e.g.: Suite 100
The second line of this address of the organization.
For example 37 North Wharf Road in the address
The Point
37 North Wharf Road
London
W2 1AF

organization.commercialCollectionClaims.filings.rolePlayers.duns

[string] e.g.: 804735132
The D-U-N-S® Number, a proprietary organizational identifier owned and managed by Dun & Bradstreet Inc, provides unique identification of a subject organization, in accordance with the Data Universal Numbering System (D-U-N-S®).

organization.commercialCollectionClaims.filings.rolePlayers.filingAmount

[object]
The details of the monetary value associated with a court action for this party involved in the event.

organization.commercialCollectionClaims.filings.rolePlayers.filingAmount.currency

[string] e.g.: USD
The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).

organization.commercialCollectionClaims.filings.rolePlayers.filingAmount.value

[number] e.g.: 100000
The monetary value associated with a court action for this party involved in the event.

organization.commercialCollectionClaims.filings.rolePlayers.name

[string] e.g.: Some Vendor
The name of the party involved in this event as it was filed.

organization.commercialCollectionClaims.filings.rolePlayers.operatingStatus

[object]
The details of the high level categorization of the organization's functional state or trading status.

organization.commercialCollectionClaims.filings.rolePlayers.operatingStatus.description

[string] e.g.: Active
Textual description of the organization's functional state or trading status.
Possible values:
[9074] Active
[403] Out of Business

organization.commercialCollectionClaims.filings.rolePlayers.operatingStatus.dnbCode

[integer] e.g.: 9074
A unique code assigned by Dun & Bradstreet to identify the organization's functional state or trading status.

	<p>Possible values: 9074 [Active] 403 [Out of Business] Refer to Reference code table "166 [Operating Status]" for all possible values.</p>
organization.commercialCollectionClaims.filings.rolePlayers.registrationNumbers	<p>[array (object)] The details of the numbers assigned by an external body or by Dun & Bradstreet that either uniquely identifies or helps to identify an entity.</p>
organization.commercialCollectionClaims.filings.rolePlayers.registrationNumbers.registrationNumber	<p>[string] e.g.: 12-3456789 The number or alphanumeric value assigned by a recognized external authority that either uniquely identifies or helps to identify the organization.</p>
organization.commercialCollectionClaims.filings.rolePlayers.rolePlayerType	<p>[object] The details of the role player's function in the event.</p>
organization.commercialCollectionClaims.filings.rolePlayers.rolePlayerType.description	<p>[string] e.g.: Shareholder The function played by this party in the event (e.g., debtor, creditor, liquidator, shareholder, court, plaintiff, defendant).</p>
organization.commercialCollectionClaims.filings.rolePlayers.rolePlayerType.dnbCode	<p>[integer] e.g.: 302 A unique code assigned by Dun & Bradstreet to identify the function played by this party in the event. Refer to Reference code table "10 [Role Player Type]" for all possible values.</p>
organization.commercialCollectionClaims.filings.startDate	<p>[string] e.g.: 2016-09-30 The date on or before which the event took place.</p>
organization.commercialCollectionClaims.filings.status	<p>[object] The details of the most recent situation for the legal event.</p>
organization.commercialCollectionClaims.filings.status.description	<p>[string] e.g.: Open The most recent situation for the legal event (e.g., pending, unsatisfied).</p>
organization.commercialCollectionClaims.filings.status.dnbCode	<p>[integer] e.g.: 11477 A unique code assigned by Dun & Bradstreet to identify the most recent situation for the legal event. Refer to Reference code table "82 [Event Status]" for all possible values.</p>
organization.commercialCollectionClaims.filings.statusDate	<p>[string] e.g.: 2017-12-15 The date when the situation changed.</p>
organization.commercialCollectionClaims.filings.verifiedDate	<p>[string] e.g.: 2017-10-30 The date Dun & Bradstreet reviewed the reported content of the Legal Event to ensure accuracy.</p>
organization.commercialCollectionClaims.periodSummary	<p>[object] Records the summarized information about claims made by a creditor against the entity, as debtor, for</p>

	accounts that have not been paid and where those claims have been passed to another agency to handle the collection of outstanding amounts.
organization.commercialCollectionClaims.periodSummary.12Months	[object] Records summarized information on claims that involved this subject as recorded on the D&B database in last 12 months.
organization.commercialCollectionClaims.periodSummary.12Months.totalCount	[integer] e.g.: 13 The number of claims recorded on this subject in the last 12 months.
organization.commercialCollectionClaims.periodSummary.12Months.totalAmount	[object] Records details on the monetary value of claims recorded on this subject in the last 12 months.
organization.commercialCollectionClaims.periodSummary.12Months.totalAmount.value	[number] e.g.: 45000 The monetary value of claims recorded on this subject in the last 12 months.
organization.commercialCollectionClaims.periodSummary.12Months.totalAmount.currency	[string] e.g.: USD The currency of the monetary value of claims recorded on this subject in the last 12 months, expressed in ISO Alpha3 code format.
organization.financingEvents	[object] The details about the events that have occurred and directly affect the entity's finances (e.g., the means by which money is obtained by the entity, financial securities that have been filed that affect the entity). Note: Only latest 100 events included
organization.financingEvents.hasFinancingEvents	[boolean] e.g.: false Indicates that an organization has at least one unsatisfied funding instrument such as a charge or mortgage recorded against it.
organization.financingEvents.hasOpenFinancingEvents	[boolean] e.g.: true Indicates whether the entity is associated with any open financing events. - If true, entity is associated with at least one open financing event. - If false, entity is not associated with an open financing event. - null; when Dun & Bradstreet is not aware of this fact.
organization.financingEvents.hasSecuredFilings	[boolean] e.g.: false Indicates that an organization has offered assets as collateral in order to obtain additional funding or financial aid such as charges/mortgages or equivalent.
organization.financingEvents.hasOpenSecuredFilings	[boolean] e.g.: true Indicates whether the entity is associated with any open secured filings such as secured charges/mortgages pledging's.

	<ul style="list-style-type: none"> - If true, the entity is associated with at least one open secured filing. - If false the entity is not associated with any open secured filing. - null; when Dun & Bradstreet is not aware of this fact.
organization.financingEvents.hasLetterOfLiability	<p>[boolean] e.g.: false</p> <p>Indicates if this entity is associated with a letter of liability event where the entity is an issuer or subscriber.</p> <ul style="list-style-type: none"> - If true, the entity is an issuer or subscriber of a letter of liability. - If false, the entity is not an issuer or subscriber of a letter of liability. - null; when Dun & Bradstreet is not aware of this fact.
organization.financingEvents.hasOpenLetterOfLiability	<p>[boolean] e.g.: true</p> <p>Indicates whether this entity is associated with an open letter of liability event where the subject is an issuer or subscriber.</p> <ul style="list-style-type: none"> - If true, this entity is associated with an open letter of liability. - If false, this entity is not associated with an open letter of liability. - null; when Dun & Bradstreet is not aware of this fact.
organization.financingEvents.hasRemovedLetterOfLiability	<p>[boolean] e.g.: true</p> <p>Indicates whether the entity has a removed a Letter of Agreement.</p> <ul style="list-style-type: none"> - If true, a removed letter exists. - if false, a removed letter does not exist. - null; when Dun & Bradstreet is not aware of this fact.
organization.financingEvents.hasLetterOfAgreement	<p>[boolean] e.g.: true</p> <p>Indicates whether the entity has a Letter of Agreement.</p> <ul style="list-style-type: none"> - If true, a letter exists. - if false, a letter does not exist. - null; when Dun & Bradstreet is not aware of this fact.
organization.financingEvents.financingStatementFilings	<p>[object]</p> <p>The details about financing agreements that have been filed under the Personal Property Security Act.</p>
organization.financingEvents.financingStatementFilings.totalCount	<p>[integer] e.g.: 2</p> <p>The total number of events of the type covered by this summary</p>
organization.financingEvents.financingStatementFilings.mostRecentFilingDate	<p>[string] e.g.: 2020-10-09</p> <p>The date of the most recent event of this event type.</p>
organization.financingEvents.financingStatementFilings.periodSummary	<p>[object]</p> <p>Records the summarized information about financing agreement which has been filed under the US</p>

	Uniform Commercial Code (UCC) Act and Personal Property Security Act in Canada; consolidates all transactions involving granting of personal property security, e.g., chattel mortgage, assignment book debts.
organization.financingEvents.financingStatementFilings.periodSummary.12Months	[object] Records summarized information on several decisions made by a court that involved this subject as recorded on the D&B database in last 12 months.
organization.financingEvents.financingStatementFilings.periodSummary.12Months.totalCount	[integer] e.g.: 0 The number of liens recorded on this subject in the last 12 months.
organization.financingEvents.financingStatementFilings.periodSummary.12Months.totalAmount	[object] Records details on the monetary value of liens recorded on this subject in the last 12 months.
organization.financingEvents.financingStatementFilings.periodSummary.12Months.totalAmount.value	[number] e.g.: 601 The monetary value of liens recorded on this subject in the last 12 months.
organization.financingEvents.financingStatementFilings.periodSummary.12Months.totalAmount.currency	[string] e.g.: USD The currency of the monetary value of liens recorded on this subject in the last 12 months, expressed in ISO Alpha3 code format.
organization.financingEvents.financingStatementFilings.filings	[array (object)] The details about a financing agreement that has been filed under the Personal Property Security Act; consolidates all transactions involving granting of personal property security (e.g., chattel mortgage, assignment book debts).
organization.financingEvents.financingStatementFilings.filings.collaterals	[array (object)] The details of the different types of assets used by the entity as security for this event.
organization.financingEvents.financingStatementFilings.filings.collaterals.collateralClass	[object] The details of the class of asset.
organization.financingEvents.financingStatementFilings.filings.collaterals.collateralClass.description	[string] e.g.: land The class of asset (e.g., Land, Buildings, Personal Assets, Cash Reserves).
organization.financingEvents.financingStatementFilings.filings.collaterals.collateralClass.dnbCode	[integer] e.g.: 3316 A unique code assigned by Dun & Bradstreet to identify the class of asset. Refer to Reference code table "66 [Asset Class]" for all possible values.
organization.financingEvents.financingStatementFilings.filings.collaterals.collateralDetails	[array (object)] Records information about an individual item/asset that the subject has used as security for this Financing Event.
organization.financingEvents.financingStatementFilings.filings.collaterals.collateralDetails.isUsed	[boolean] e.g.: true When set to "true", this identifies that the collateral asset owned by the Subject is no longer considered a

	brand new item. When set to "false", this identifies that the collateral asset owned by the Subject is considered a brand new item.
organization.financingEvents.financingStatementFilings.filings.collaterals.collateralDetails.manufacturedYear	[string] e.g.: 2001 The year in which the construction of the item; e.g., a ship, was completed.
organization.financingEvents.financingStatementFilings.filings.collaterals.collateralDetails.manufactureName	[string] e.g.: Ford Motors The name of the business that built the item being held as collateral in a business transaction.
organization.financingEvents.financingStatementFilings.filings.collaterals.collateralDetails.modelName	[string] e.g.: Mustang An alphanumeric name assigned by the manufacturer to the asset; e.g., Mustang, RX8, Pavilion, T60, 747.
organization.financingEvents.financingStatementFilings.filings.collaterals.collateralDetails.modelYear	[string] e.g.: 2002 The year that the manufacturer assigned to the model based on the expected release of the model to the public.
organization.financingEvents.financingStatementFilings.filings.collaterals.collateralDetails.serialNumber	[string] e.g.: VX1234 A reference number or text assigned by the manufacturer for uniquely identifying the manufactured item.
organization.financingEvents.financingStatementFilings.filings.collaterals.collateralDetails.textEntry	[array (object)] Records multiple textual descriptions, language and nature of textual Collateral Details data for this Financing Event that cannot be recorded in the defined fields.
organization.financingEvents.financingStatementFilings.filings.collaterals.collateralDetails.textEntry.priority	[integer] e.g.: 1 A number which may be used to identify multiple occurrences of Text Entry as belonging together as part of the same block of text. Within a group the Display Sequence may then be used to ensure that the Text Entry occurrences within the group are presented in the correct order.
organization.financingEvents.financingStatementFilings.filings.collaterals.collateralDetails.textEntry.text	[string] e.g.: Company vehicle A textual description of a collateral associated with the Financing Event which cannot be recorded in any of the defined elements.
organization.financingEvents.financingStatementFilings.filings.collaterals.collateralDetails.textEntry.typeDescription	[string] e.g.: Financial Statement Additional Note Text Text which describes the type of Text; e.g., the title of the party associated with the Financing Event.
organization.financingEvents.financingStatementFilings.filings.collaterals.collateralDetails.textEntry.typeDnBCode	[integer] e.g.: 23916 A unique code assigned by Dun & Bradstreet which describes the type of Text; e.g., the title of the party associated with the Financing Event. Refer to Reference code table "27 [Information Description]" for all possible values.
organization.financingEvents.financingStatementFilings.filings.collaterals.collateralSupplementalItems	[array (object)] Records kinds of supplemental items, (e.g., Products, Proceeds), that are included as security along with the identified collateral for the given Collateral Type.

organization.financingEvents.financingStatementFilings.filings.collaterals.collateralSupplementalItems.description	[string] e.g.: Proceeds Text that specifies the kind of supplemental items, (e.g., Products, Proceeds), that are included as security along with the identified collateral item for the given Collateral Type. The items in this example are produced as output of the asset (e.g., manufacturing plant) that the subject is using for collateral.
organization.financingEvents.financingStatementFilings.filings.collaterals.collateralSupplementalItems.dnbCode	[integer] e.g.: 11290 A unique code assigned by Dun & Bradstreet that specifies the kind of supplemental items, (e.g., Products, Proceeds), that are included as security along with the identified collateral item for the given Collateral Type. The items in this example are produced as output of the asset (e.g., manufacturing plant) that the subject is using for collateral. Refer to Reference code table "268 [Collateral Supplemental Item Type]" for all possible values.
organization.financingEvents.financingStatementFilings.filings.collaterals.collateralType	[object] The details of a type of asset used as collateral.
organization.financingEvents.financingStatementFilings.filings.collaterals.collateralType.description	[string] e.g.: Forest land The type of asset used as collateral at a detailed level (e.g., Cars, Office Block, Ships).
organization.financingEvents.financingStatementFilings.filings.collaterals.collateralType.dnbCode	[integer] e.g.: 30061 A unique code assigned by Dun & Bradstreet to identify the type of asset. Refer to Reference code table "68 [Asset Type]" for all possible values.
organization.financingEvents.financingStatementFilings.filings.collaterals.itemQuantity	[integer] e.g.: 25 The number of assets that the subject is using as collateral for the particular Collateral Type.
organization.financingEvents.financingStatementFilings.filings.collaterals.quantity	[integer] e.g.: 15 The number of assets that the subject is using as collateral for the particular collateral type.
organization.financingEvents.financingStatementFilings.filings.collaterals.scope	[object] Records the scope of the assets used by a debtor as security as recorded in the Financing Event; e.g., All items for the Collateral Type are included, only the items that are leased for the Collateral Type are included
organization.financingEvents.financingStatementFilings.filings.collaterals.scope.description	[string] e.g.: Leased Text that indicates the scope of the assets used by a debtor as security as recorded in the Financing Event; e.g., All items for the Collateral Type are included, only the items that are leased for the Collateral Type are included
organization.financingEvents.financingStatementFilings.filings.collaterals.scope.dnbCode	[integer] e.g.: 11288 A unique code assigned by Dun & Bradstreet which indicates the scope of the assets used by a debtor as security as recorded in the Financing Event; e.g., All items for the Collateral Type are included, only the items that are leased for the Collateral Type are included Refer to Reference code table "267 [Collateral Scope]" for all possible values.
organization.financingEvents.financingStatementFilings.filings.	[array (object)]

collaterals.supplementalItems	Records the kinds of supplemental items, (e.g., Products, Proceeds), that are included as security along with the identified collateral for the given collateral type.
organization.financingEvents.financingStatementFilings.filings.collaterals.supplementalItems.description	[string] e.g.: Products Text which describes the kinds of supplemental items, (e.g., Products, Proceeds), that are included as security along with the identified collateral for the given collateral type.
organization.financingEvents.financingStatementFilings.filings.collaterals.supplementalItems.dnbCode	[integer] e.g.: 11289 A unique code assigned by Dun & Bradstreet which describes the kinds of supplemental items, (e.g., Products, Proceeds), that are included as security along with the identified collateral for the given collateral type. Refer to Reference code table "268 [Collateral Supplemental Item Type]" for all possible values.
organization.financingEvents.financingStatementFilings.filings.collaterals.textEntry	[array (object)] Records the textual description, language and nature of collateral type information.
organization.financingEvents.financingStatementFilings.filings.collaterals.textEntry.text	[string] e.g.: Vehicles Free form textual description, language and nature of collateral type information.
organization.financingEvents.financingStatementFilings.filings.collaterals.textEntry.typeDescription	[string] e.g.: Financial Statement Additional Note Text Text that describes the type of textual description, language and nature of collateral type information.
organization.financingEvents.financingStatementFilings.filings.collaterals.textEntry.typeDnBCode	[integer] e.g.: 23916 A unique code assigned by Dun & Bradstreet describing the type of textual description, language and nature of collateral type information. Refer to Reference code table "27 [Information Description]" for all possible values.
organization.financingEvents.financingStatementFilings.filings.collateralScopeType	[object] Records the scope of the assets used by a debtor as security as recorded in the Financing Event; e.g., All items for the Collateral Type are included, only the items that are leased for the Collateral Type are included
organization.financingEvents.financingStatementFilings.filings.collateralScopeType.description	[string] e.g.: Leased Text which indicates the scope of the assets used by a debtor as security as recorded in the Financing Event; e.g., All items for the Collateral Type are included, only the items that are leased for the Collateral Type are included
organization.financingEvents.financingStatementFilings.filings.collateralScopeType.dnbCode	[integer] e.g.: 11288 A unique code assigned by Dun & Bradstreet which indicates the scope of the assets used by a debtor as security as recorded in the Financing Event; e.g., All items for the Collateral Type are included, only the items that are leased for the Collateral Type are included Refer to Reference code table "267 [Collateral Scope]" for all possible values.
organization.financingEvents.financingStatementFilings.filings.contactEvents	[array (object)] The details on communications Dun & Bradstreet had with persons to get information on this event.

organization.financingEvents.financingStatementFilings.filings. contactEvents.businessName	[string] e.g.: ABD Corp. The name of the organization that employs the person with whom D&B had contact to get information on this Financing Event.
organization.financingEvents.financingStatementFilings.filings. contactEvents.comment	[object] Records notes from the contact providing further information regarding the subject's event.
organization.financingEvents.financingStatementFilings.filings. contactEvents.comment.description	[string] e.g.: Financing Statement was assigned Text that expresses a note collected from this contact providing further information about this event.
organization.financingEvents.financingStatementFilings.filings. contactEvents.comment.dnbCode	[integer] e.g.: 14767 A unique code assigned by Dun & Bradstreet that expresses a note collected from this contact providing further information about this event. Refer to Reference code table "429 [Event Comment]" for all possible values.
organization.financingEvents.financingStatementFilings.filings. contactEvents.contactDate	[string] e.g.: 2017-11-25 The date when the communication took place.
organization.financingEvents.financingStatementFilings.filings. contactEvents.name	[string] e.g.: John Smith The name of the contact which may be either an individual or an entity.
organization.financingEvents.financingStatementFilings.filings. contactEvents.organizationName	[string] e.g.: ABC Corp The name of the contact, when this is a company.
organization.financingEvents.financingStatementFilings.filings. contactEvents.positions	[array (object)] The details on the job position the principal or manager holds or has held in the entity.
organization.financingEvents.financingStatementFilings.filings. contactEvents.positions.description	[string] e.g.: Chairman Executive Committee The job position the principal or manager holds or has held in the entity (e.g., Financial Director, Managing Director, Sales Director, Operations Manager).
organization.financingEvents.financingStatementFilings.filings. contactEvents.positions.dnbCode	[integer] e.g.: 95 A unique code assigned by Dun & Bradstreet to identify the job position the principal or manager holds or has held in the entity. Refer to Reference code table "5 [Position] & 198 [Employee Position]" for all possible values.
organization.financingEvents.financingStatementFilings.filings. contactEvents.positions.jobTitles	[array (object)] Records several different Vanity Titles for the person with whom D&B had contact to get information on this event.
organization.financingEvents.financingStatementFilings.filings. contactEvents.positions.jobTitles.name	[string] e.g.: Senior Director of Finance A textual presentation of the position as preferred by the person with whom D&B had contact to get information on this event, e.g., Position Code might equate to Financial Director, however, the Vanity Title might be 'Senior Director of Finance'.

organization.financingEvents.financingStatementFilings.filings. contactEvents.positions.priority	[integer] e.g.: 1 A number that may be used to define the order in which the Position should be presented relative to any other occurrences of Position where lower the number the earlier the data is presented.
organization.financingEvents.financingStatementFilings.filings. contactEvents.rolePlayers	[array (object)] The details of role players involved in a Legal Event as recorded in court papers and identifies the part each one plays.
organization.financingEvents.financingStatementFilings.filings. contactEvents.rolePlayers.rolePlayerType	[object] The details of the role player's function in the event.
organization.financingEvents.financingStatementFilings.filings. contactEvents.rolePlayers.rolePlayerType.description	[string] e.g.: Shareholder The function played by this party in the event (e.g., debtor, creditor, liquidator, shareholder, court, plaintiff, defendant).
organization.financingEvents.financingStatementFilings.filings. contactEvents.rolePlayers.rolePlayerType.dnbCode	[integer] e.g.: 302 A unique code assigned by Dun & Bradstreet to identify the function played by this party in the event. Refer to Reference code table "10 [Role Player Type]" for all possible values.
organization.financingEvents.financingStatementFilings.filings. contactEvents.textEntry	[array (object)] The details of data elements regarding the legal event filing which cannot be recorded in the other fields.
organization.financingEvents.financingStatementFilings.filings. contactEvents.textEntry.priority	[integer] e.g.: 1 A number that may be used to define the order in which this text entry should be presented relative to other occurrences of text entries where the lower the number the earlier the data is presented.
organization.financingEvents.financingStatementFilings.filings. contactEvents.textEntry.text	[string] e.g.: Some text obtained from contact Text that has been recorded.
organization.financingEvents.financingStatementFilings.filings. contactEvents.textEntry.typeDescription	[string] e.g.: Legal event Text entry type to qualify the information recorded in the text entries.
organization.financingEvents.financingStatementFilings.filings. contactEvents.textEntry.typeDnBCode	[integer] e.g.: 1170 A unique code assigned by Dun & Bradstreet to identify the text entry type. Refer to Reference code table "27 [Information Description]" for all possible values.
organization.financingEvents.financingStatementFilings.filings. contractType	[object] Records the broad category of a written agreement made between the subject and one or more role players participating in a financing event; e.g., lease, sale, rental, refinancing.
organization.financingEvents.financingStatementFilings.filings. contractType.description	[string] e.g.: Rental Text that describes the broad category of a written agreement made between the subject and one or more role players participating in a financing event; e.g., lease, sale, rental, refinancing.
organization.financingEvents.financingStatementFilings.filings.	[integer] e.g.: 14812

contractType.dnbCode	A code that describes the broad category of a written agreement made between the subject and one or more role players participating in a financing event; e.g., lease, sale, rental, refinancing. Refer to Reference code table "432 [Financing Event Contract Type]" for all possible values.
organization.financingEvents.financingStatementFilings.filings.documentType	[object] Describes the type of financing statement document which is on file; e.g., Original, Amendment, Partial Release)
organization.financingEvents.financingStatementFilings.filings.documentType.description	[string] e.g.: Annual Return Text which describes the type of financing statement document which is on file; e.g., Original, Amendment, Partial Release)
organization.financingEvents.financingStatementFilings.filings.documentType.dnbCode	[integer] e.g.: 10248 A code which describes the type of financing statement document which is on file; e.g., Original, Amendment, Partial Release) Refer to Reference code table "186 [Document Type]" for all possible values.
organization.financingEvents.financingStatementFilings.filings.endDate	[string] e.g.: 2019-09-01 This date indicates that the Financing Event has been satisfied and this is the date that this occurred. E.g. The date that a loan was repaid.
organization.financingEvents.financingStatementFilings.filings.endIndicator	[boolean] e.g.: true When set to "true", this indicates that the Financing Event has been satisfied, i.e., this is historical information. When set to "false", this indicates that the Financing Event is still outstanding, i.e., this is current information; however as this is the assumed condition there is no requirement to create this tag to represent this fact.
organization.financingEvents.financingStatementFilings.filings.eventId	[integer] e.g.: 1557896 An identifier generated by D&B in order to uniquely identify a financing event.
organization.financingEvents.financingStatementFilings.filings.expirationDate	[string] e.g.: 2019-09-01 The date upon which a financial instrument will cease to be effective. e.g., a Letter of Liability may be filed with an Event Date of 2005-11-15 to become effective from 2006-01-01 until 2006-12-31.
organization.financingEvents.financingStatementFilings.filings.filingAmount	[object] The details of the amount of relief sought by all of the plaintiffs in the suit.
organization.financingEvents.financingStatementFilings.filings.filingAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.financingEvents.financingStatementFilings.filings.	[number] e.g.: 1000000

filingAmount.value	The total amount of relief sought by all of the plaintiffs in the suit.
organization.financingEvents.financingStatementFilings.filings.filingDate	[string] e.g.: 2017-10-30 The date on which this event took place.
organization.financingEvents.financingStatementFilings.filings.filingMedium	[string] e.g.: Docket The medium in which the filing is recorded.
organization.financingEvents.financingStatementFilings.filings.filingReference	[string] e.g.: D5QZ52TC The identifier given by a registry body to the official filed document that contains this legal event information.
organization.financingEvents.financingStatementFilings.filings.filingReferenceDate	[array (object)] Records several different dates relating to a document, e.g., Date Filed, Date Published. Note: This array of dates should only be used when the user needs to know any additional dates other than the discrete date elements defined.
organization.financingEvents.financingStatementFilings.filings.filingReferenceDate.referenceDate	[string] e.g.: 2012-05-12 A date relating to a document that has been registered with an official body, e.g., Date Filed, Date Published
organization.financingEvents.financingStatementFilings.filings.filingReferenceDate.referenceType	[object] Records the relevance of the date recorded in 'Filing Reference Date', e.g., Date Filed, Date Published
organization.financingEvents.financingStatementFilings.filings.filingReferenceDate.referenceType.description	[string] e.g.: Date Filed Text which defines the relevance of the date recorded in 'Filing Reference Date', e.g., Date Filed, Date Published
organization.financingEvents.financingStatementFilings.filings.filingReferenceDate.referenceType.dnbCode	[integer] e.g.: 26889 A unique code assigned by Dun & Bradstreet which defines the relevance of the date recorded in 'Filing Reference Date', e.g., Date Filed, Date Published Refer to Reference code table "322 [Filing Reference Date Type]" for all possible values.
organization.financingEvents.financingStatementFilings.filings.filingResults	[array (object)] Records the outcomes of this event.
organization.financingEvents.financingStatementFilings.filings.filingResults.result	[object] The details of the outcome this event had or is having on the party involved in the event.
organization.financingEvents.financingStatementFilings.filings.filingResults.result.description	[string] e.g.: Settled The outcome this event had or is having on the party involved in the event (e.g., Petition Dismissed, Liquidator Appointed, Counter claim filed by the defendant in a lawsuit).
organization.financingEvents.financingStatementFilings.filings.filingResults.result.dnbCode	[integer] e.g.: 11466 A unique code assigned by Dun & Bradstreet that describes the outcome this event had or is having.

Refer to Reference code table "86 [Event Result]" for all possible values.

organization.financingEvents.financingStatementFilings.filings.filingResults.resultDate	[string] e.g.: 2017-10-30 The date the outcome of the event occurred.
organization.financingEvents.financingStatementFilings.filings.filingType	[object] The details of the type of event that has been registered or recorded against the entity.
organization.financingEvents.financingStatementFilings.filings.filingType.description	[string] e.g.: County Court Judgement The type of event that has been registered or recorded against the entity.
organization.financingEvents.financingStatementFilings.filings.filingType.dnbCode	[integer] e.g.: 2515 A unique code assigned by Dun & Bradstreet to identify the type of event that has been registered or recorded against the entity. Refer to Reference code table "24 [Legal Event Type]" for all possible values.
organization.financingEvents.financingStatementFilings.filings.hasWholeBusinessSecured	[boolean] e.g.: true Indicates whether the charge is secured against all of the entity's tangible and intangible assets. The intangible assets would have value if the entity was sold as a going concern; the intangible assets would have no value if the entity liquidated. - If true, the whole business is used to secure the charge. - If false, the whole business is not used to secure the charge.
organization.financingEvents.financingStatementFilings.filings.isSecuredOnAllAssets	[boolean] e.g.: true Indicates whether all of the entity's assets have been used to secure this financing event. - If true, all the entity's assets have been used to secure this financing event. - If false, not all the entity's assets have been used to secure this financing event.
organization.financingEvents.financingStatementFilings.filings.isStopD	[boolean] e.g.: true When set to "true", this indicates that D&B should not fabricate or supply this Financing Event in products and services. Note: One exception to this business rule is the U.S. Public Records report which would disregard this indicator setting. When set to "false", this indicates that D&B can fabricate or supply this Financing Event in products and services; however as this is the assumed condition there is no requirement to create this tag to represent this fact.
organization.financingEvents.financingStatementFilings.filings.originalFilingDate	[string] e.g.: 2017-10-30 The date of the initial filing of the event.
organization.financingEvents.financingStatementFilings.filings.originalFilingReference	[string] e.g.: CaseNumber123 An identifier assigned by a registry or similar body to identify a specific Financing Event e.g.; the filing reference of a secured charge.

organization.financingEvents.financingStatementFilings.filings. pageQuantity	[integer] e.g.: 120 A number that identifies the total number of leaves within an official document within which the Financing Event information was recorded.
organization.financingEvents.financingStatementFilings.filings. publishedDate	[string] e.g.: 2011-02-14 The date to support the recording of the Publication Date for an official document registered with an Official Body.
organization.financingEvents.financingStatementFilings.filings. reasons	[array (object)] The details of the underlying factor that contributed to the Legal Event.
organization.financingEvents.financingStatementFilings.filings. reasons.description	[string] e.g.: Voluntary Petition for Bankruptcy The underlying factor that contributed to the Legal Event (e.g., natural disaster, fraud, strategy, economic conditions, loss to creditors).
organization.financingEvents.financingStatementFilings.filings. reasons.dnbCode	[integer] e.g.: 12281 A unique code assigned by Dun & Bradstreet to identify the underlying factor that contributed to the Legal Event. Refer to Reference code table "299 [Event Reason]" for all possible values.
organization.financingEvents.financingStatementFilings.filings. receivedDate	[string] e.g.: 2017-10-30 The date when Dun & Bradstreet or one of its strategic partners received this legal event.
organization.financingEvents.financingStatementFilings.filings. rolePlayers	[array (object)] The details of role players involved in a Legal Event as recorded in court papers and identifies the part each one plays.
organization.financingEvents.financingStatementFilings.filings. rolePlayers.address	[object] The details of the Primary Address at which the organization is located or conducts operations.
organization.financingEvents.financingStatementFilings.filings. rolePlayers.address.addressCountry	[object] The details of the country or region for this address of the organization.
organization.financingEvents.financingStatementFilings.filings. rolePlayers.address.addressCountry.isoAlpha2Code	[string] e.g.: US The 2 letter alpha country code assigned by the International Organization for Standardization (ISO) identifying the Country/Region for this address of the organization. Note: Please refer to Country Code Substitutions Table [/html/resources/CountryCodes.html#country-substitute] for the country code substitutions.
organization.financingEvents.financingStatementFilings.filings. rolePlayers.address.addressCountry.name	[string] e.g.: United States The country or region for this address of the organization.
organization.financingEvents.financingStatementFilings.filings. rolePlayers.address.addressLocality	[object] The name of the locality for this address of the organization. Locality defined as a district population

	cluster. City, town, township, village, borough etc.
organization.financingEvents.financingStatementFilings.filings. rolePlayers.address.addressLocality.name	[string] e.g.: SAN FRANCISCO The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.
organization.financingEvents.financingStatementFilings.filings. rolePlayers.address.addressRegion	[object] The name of the geographical area for this address of the organization. For Example New Jersey.
organization.financingEvents.financingStatementFilings.filings. rolePlayers.address.addressRegion.abbreviatedName	[string] e.g.: NJ The shortened name of the geographical area for this address of the organization. For example NJ for the US State New Jersey within Country United States.
organization.financingEvents.financingStatementFilings.filings. rolePlayers.address.addressRegion.name	[string] e.g.: California The name of the geographical area for this address of the organization. For Example New Jersey.
organization.financingEvents.financingStatementFilings.filings. rolePlayers.address.continentalRegion	[object] The details of the continent for this address of the organization.
organization.financingEvents.financingStatementFilings.filings. rolePlayers.address.continentalRegion.name	[string] e.g.: North America The name of the continent for this address of the organization. Possible values Africa Asia Pacific Europe Latin America Middle East North America
organization.financingEvents.financingStatementFilings.filings. rolePlayers.address.addressCounty	[object] The details of the geographical area of a Country or Region for this address of the organization. Countries divide their geography into smaller sub divisions. County is an example of a commonly used subdivision. Often found in UK.
organization.financingEvents.financingStatementFilings.filings. rolePlayers.address.addressCounty.name	[string] e.g.: SAN MATEO The name of the geographical area of a Country or Region for this address of the organization. Countries subdivide their geography into smaller sub divisions. County is an example of a commonly used subdivision, often found in the UK.
organization.financingEvents.financingStatementFilings.filings. rolePlayers.address.postalCode	[string] e.g.: 941109999 The postal code for this address of the organization. Also known locally in various English-speaking countries throughout the world as a postcode, post code,

Eircode, PIN or ZIP Code) is a series of letters or digits or both, sometimes including spaces or punctuation, included in a postal address for the purpose of sorting mail. The code is used by the country's postal authority to identify the address where the organization is located or conducts operations .

organization.financingEvents.financingStatementFilings.filings.
rolePlayers.address.streetAddress

[object]
The details of the street address for this address of the organization.

organization.financingEvents.financingStatementFilings.filings.
rolePlayers.address.streetAddress.line1

[string] e.g.: 492 KOLLER ST
The first line of the address where the entity is located.

The first line of this address of the organization. For example The Point in the address

The Point
37 North Wharf Road
London
W2 1AF

organization.financingEvents.financingStatementFilings.filings.
rolePlayers.address.streetAddress.line2

[string] e.g.: Suite 100
The second line of this address of the organization.
For example 37 North Wharf Road in the address
The Point
37 North Wharf Road
London
W2 1AF

organization.financingEvents.financingStatementFilings.filings.
rolePlayers.duns

[string] e.g.: 804735132
The D-U-N-S® Number, a proprietary organizational identifier owned and managed by Dun & Bradstreet Inc, provides unique identification of a subject organization, in accordance with the Data Universal Numbering System (D-U-N-S®).

organization.financingEvents.financingStatementFilings.filings.
rolePlayers.employerName

[string] e.g.: Sample Co.
The textual name of the organization employing a party who is involved in a Financing Event; e.g., the name of the firm for which the receiver or Liquidator works.

organization.financingEvents.financingStatementFilings.filings.
rolePlayers.endDate

[string] e.g.: 2011-09-24
The date when the role player ceased to be associated with the financing event.

organization.financingEvents.financingStatementFilings.filings.
rolePlayers.filingAmount

[object]
The details of the monetary value associated with a court action for this party involved in the event.

organization.financingEvents.financingStatementFilings.filings.
rolePlayers.filingAmount.currency

[string] e.g.: USD
The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).

organization.financingEvents.financingStatementFilings.filings. rolePlayers.filingAmount.value	[number] e.g.: 100000 The monetary value associated with a court action for this party involved in the event.
organization.financingEvents.financingStatementFilings.filings. rolePlayers.filingResults	[array (object)] Records the outcomes of this role players association with this event.
organization.financingEvents.financingStatementFilings.filings. rolePlayers.filingResults.result	[object] The details of the outcome this event had or is having on the party involved in the event.
organization.financingEvents.financingStatementFilings.filings. rolePlayers.filingResults.result.description	[string] e.g.: Settled The outcome this event had or is having on the party involved in the event (e.g., Petition Dismissed, Liquidator Appointed, Counter claim filed by the defendant in a lawsuit).
organization.financingEvents.financingStatementFilings.filings. rolePlayers.filingResults.result.dnbCode	[integer] e.g.: 11466 A unique code assigned by Dun & Bradstreet that describes the outcome this event had or is having. Refer to Reference code table "86 [Event Result]" for all possible values.
organization.financingEvents.financingStatementFilings.filings. rolePlayers.filingResults.resultDate	[string] e.g.: 2017-10-30 The date the outcome of the event occurred.
organization.financingEvents.financingStatementFilings.filings. rolePlayers.hasEnded	[boolean] e.g.: true When set to "true", it indicates that the role player ceased to be associated with the financing event. When set to "false", it indicates that the role player is still associated with the financing event.
organization.financingEvents.financingStatementFilings.filings. rolePlayers.name	[string] e.g.: Some Vendor The name of the party involved in this event as it was filed.
organization.financingEvents.financingStatementFilings.filings. rolePlayers.operatingStatus	[object] The details of the high level categorization of the organization's functional state or trading status.
organization.financingEvents.financingStatementFilings.filings. rolePlayers.operatingStatus.description	[string] e.g.: Active Textual description of the organization's functional state or trading status. Possible values: [9074] Active [403] Out of Business
organization.financingEvents.financingStatementFilings.filings. rolePlayers.operatingStatus.dnbCode	[integer] e.g.: 9074 A unique code assigned by Dun & Bradstreet to identify the organization's functional state or trading status. Possible values: 9074 [Active] 403 [Out of Business] Refer to Reference code table "166 [Operating Status]" for all possible values.

organization.financingEvents.financingStatementFilings.filings. rolePlayers.positions	[array (object)] Records information of several different positions the party involved in this Financing Event holds within the organization. Describes the official roles played by the individual in a business in a standardized coded format. E.g. Financial Director, Finance Director and Director of Finance would all map to the same code. Specific textual titles for this party can also be stored as additional Vanity Titles.
organization.financingEvents.financingStatementFilings.filings. rolePlayers.positions.description	[string] e.g.: Senior Consultant Text defining the position that this role player holds within the organization; e.g., Financial Director, Managing Director, Sales Director, Operations Manager.
organization.financingEvents.financingStatementFilings.filings. rolePlayers.positions.dnbCode	[integer] e.g.: 28137 A unique code assigned by Dun & Bradstreet defining the position that this role player holds within the organization; e.g., Financial Director, Managing Director, Sales Director, Operations Manager. Refer to Reference code table "5 [Position] & 198 [Employee Position]" for all possible values.
organization.financingEvents.financingStatementFilings.filings. rolePlayers.positions.jobTitles	[array (object)] An entry loop which can repeat multiple times to allow the recording of several different Vanity Titles for the role player.
organization.financingEvents.financingStatementFilings.filings. rolePlayers.positions.jobTitles.name	[string] e.g.: Senior Director of Finance A textual presentation of the Position Code as preferred by the role player; e.g., Position Code might equate to Financial Director but the Vanity Title might be 'Senior Director of Finance'.
organization.financingEvents.financingStatementFilings.filings. rolePlayers.registrationNumbers	[array (object)] The details of the numbers assigned by an external body or by Dun & Bradstreet that either uniquely identifies or helps to identify an entity.
organization.financingEvents.financingStatementFilings.filings. rolePlayers.registrationNumbers.registrationNumber	[string] e.g.: 12-3456789 The number or alphanumeric value assigned by a recognized external authority that either uniquely identifies or helps to identify the organization.
organization.financingEvents.financingStatementFilings.filings. rolePlayers.rolePlayerType	[object] Records the function played by a party in a Financing Event, e.g. Letter of Liability Issuer, Letter of Liability Subscriber.
organization.financingEvents.financingStatementFilings.filings. rolePlayers.rolePlayerType.description	[string] e.g.: Government Agency Text which describes the function played by a party in a Financing Event, e.g. Letter of Liability Issuer, Letter of Liability Subscriber.
organization.financingEvents.financingStatementFilings.filings. rolePlayers.rolePlayerType.dnbCode	[integer] e.g.: 34375 A unique code assigned by Dun & Bradstreet which describes the function played by a party in a Financing Event, e.g. Letter of Liability Issuer, Letter of Liability Subscriber. Refer to Reference code table "10 [Role Player Type]" for all possible values.
organization.financingEvents.financingStatementFilings.filings.	[array (object)]

rolePlayers.textEntry	Records textual descriptions of data elements which cannot be recorded in the defined fields.
organization.financingEvents.financingStatementFilings.filings.rolePlayers.textEntry.text	[string] e.g.: Meeting of role players A textual description of a role player associated with this event, which cannot be recorded in any of the defined elements.
organization.financingEvents.financingStatementFilings.filings.rolePlayers.textEntry.typeDescription	[string] e.g.: Owing to fiscal office Text which describes the type of Text; e.g., detailed description of the impact of the event.
organization.financingEvents.financingStatementFilings.filings.rolePlayers.textEntry.typeDnbCode	[integer] e.g.: 1292 A unique code assigned by Dun & Bradstreet which describes the type of Text; e.g., detailed description of the impact of the event. Refer to Reference code table "27 [Information Description]" for all possible values.
organization.financingEvents.financingStatementFilings.filings.status	[object] The details of the most recent situation for the legal event.
organization.financingEvents.financingStatementFilings.filings.status.description	[string] e.g.: Open The most recent situation for the legal event (e.g., pending, unsatisfied).
organization.financingEvents.financingStatementFilings.filings.status.dnbCode	[integer] e.g.: 11477 A unique code assigned by Dun & Bradstreet to identify the most recent situation for the legal event. Refer to Reference code table "82 [Event Status]" for all possible values.
organization.financingEvents.financingStatementFilings.filings.statusDate	[string] e.g.: 2017-12-15 The date when the situation changed.
organization.financingEvents.financingStatementFilings.filings.verifiedDate	[string] e.g.: 2019-09-01 The date on which D&B reviewed the reported content of the Financing Event to ensure accuracy.
organization.financingEvents.financingStatementFilings.filings.disclaimers	[array (object)] Records formal statements that the information provider is not legally responsible for the public filing information provided, or that the provider has no direct involvement in the public filings.
organization.financingEvents.financingStatementFilings.filings.disclaimers.message	[string] e.g.: This data is for informational purposes only, certification can only be obtained through the Sacramento Office of the California Secretary of State. A formal statement that the information provider is not legally responsible for the public filing information provided, or that the provider has no direct involvement in the public filings.
organization.financingEvents.financingStatementFilings.filings.disclaimers.priority	[integer] e.g.: 1 The order in which the messages have to be perceived.
organization.financingEvents.mortgagesAndCharges	[object] The details about events that are adjudged a conveyance of legal interest in property as security or borrowing secured against both the fixed and floating assets of the entity. Holders of a general charge

have call on assets behind only debenture holders in the event of company liquidation.
(Available for UK and Ireland only.)

organization.financingEvents.mortgagesAndCharges.openCount	[integer] e.g.: 3 The total number of events of this type that have a status of Open.
organization.financingEvents.mortgagesAndCharges.closedCount	[integer] e.g.: 5 The total number of events of this type that have a status of closed or satisfied.
organization.financingEvents.mortgagesAndCharges.mostRecentFilingDate	[string] e.g.: 2017-10-31 The date of the most recent mortgage or charge. Format: YYYY-MM-DD or YYYY-MM
organization.financingEvents.mortgagesAndCharges.mostRecentClosedFilingDate	[string] e.g.: 2017-10-32 The date of the most recent event with closed status.
organization.financingEvents.mortgagesAndCharges.mostRecentFilingType	[object] The details of the most recent mortgage or charge.
organization.financingEvents.mortgagesAndCharges.mostRecentFilingType.description	[string] e.g.: Bill of Sale The type of the most recent mortgage or charge.
organization.financingEvents.mortgagesAndCharges.mostRecentFilingType.dnbCode	[integer] e.g.: 2838 A unique code assigned by Dun & Bradstreet to identify the type of the most recent mortgage or charge. Refer to Reference code table "80 [Financing Event]" for all possible values.
organization.financingEvents.mortgagesAndCharges.periodSummary	[object] Summarized information on mortgages or charges that involved this entity as recorded in the Dun & Bradstreet database in different time periods.
organization.financingEvents.mortgagesAndCharges.periodSummary.120Months	[object] Summarized information on mortgages or charges that involved this entity as recorded in the Dun & Bradstreet database in last 120 months.
organization.financingEvents.mortgagesAndCharges.periodSummary.120Months.totalCount	[integer] e.g.: 8 The number of mortgages or charges that involved this entity as recorded in the Dun & Bradstreet database in last 120 months.
organization.financingEvents.mortgagesAndCharges.filings	[array (object)] The details about conveyance of legal interest in property as security or borrowing secured against both the fixed and floating assets of the entity.
organization.financingEvents.mortgagesAndCharges.filings.closedDate	[string] e.g.: 2016-01-25 This date indicates that the financing event has been satisfied and this is the date that this occurred. E.g.

The date that a loan was repaid.

organization.financingEvents.mortgagesAndCharges.filings.collaterals	[array (object)] The details of the different types of assets used by the entity as security for this event.
organization.financingEvents.mortgagesAndCharges.filings.collaterals.collateralClass	[object] The details of the class of asset.
organization.financingEvents.mortgagesAndCharges.filings.collaterals.collateralClass.description	[string] e.g.: land The class of asset (e.g., Land, Buildings, Personal Assets, Cash Reserves).
organization.financingEvents.mortgagesAndCharges.filings.collaterals.collateralClass.dnbCode	[integer] e.g.: 3316 A unique code assigned by Dun & Bradstreet to identify the class of asset. Refer to Reference code table "66 [Asset Class]" for all possible values.
organization.financingEvents.mortgagesAndCharges.filings.collaterals.collateralType	[object] The details of a type of asset used as collateral.
organization.financingEvents.mortgagesAndCharges.filings.collaterals.collateralType.description	[string] e.g.: Forest land The type of asset used as collateral at a detailed level (e.g., Cars, Office Block, Ships).
organization.financingEvents.mortgagesAndCharges.filings.collaterals.collateralType.dnbCode	[integer] e.g.: 30061 A unique code assigned by Dun & Bradstreet to identify the type of asset. Refer to Reference code table "68 [Asset Type]" for all possible values.
organization.financingEvents.mortgagesAndCharges.filings.collaterals.textEntry	[array (object)] Records the textual description, language and nature of collateral type information.
organization.financingEvents.mortgagesAndCharges.filings.collaterals.textEntry.text	[string] e.g.: Vehicles Free form textual description, language and nature of collateral type information.
organization.financingEvents.mortgagesAndCharges.filings.collaterals.textEntry.typeDescription	[string] e.g.: Financial Statement Additional Note Text Text that describes the type of textual description, language and nature of collateral type information.
organization.financingEvents.mortgagesAndCharges.filings.collaterals.textEntry.typeDnBCode	[integer] e.g.: 23916 A unique code assigned by Dun & Bradstreet describing the type of textual description, language and nature of collateral type information. Refer to Reference code table "27 [Information Description]" for all possible values.
organization.financingEvents.mortgagesAndCharges.filings.contactEvents	[array (object)] The details on communications Dun & Bradstreet had with persons to get information on this event.
organization.financingEvents.mortgagesAndCharges.filings.contactEvents.contactDate	[string] e.g.: 2017-11-25 The date when the communication took place.

organization.financingEvents.mortgagesAndCharges.filings.contactEvents.name	[string] e.g.: John Smith The name of the contact which may be either an individual or an entity.
organization.financingEvents.mortgagesAndCharges.filings.contactEvents.positions	[array (object)] The details on the job position the principal or manager holds or has held in the entity.
organization.financingEvents.mortgagesAndCharges.filings.contactEvents.positions.description	[string] e.g.: Chairman Executive Committee The job position the principal or manager holds or has held in the entity (e.g., Financial Director, Managing Director, Sales Director, Operations Manager).
organization.financingEvents.mortgagesAndCharges.filings.contactEvents.positions.dnbCode	[integer] e.g.: 95 A unique code assigned by Dun & Bradstreet to identify the job position the principal or manager holds or has held in the entity. Refer to Reference code table "5 [Position] & 198 [Employee Position]" for all possible values.
organization.financingEvents.mortgagesAndCharges.filings.contactEvents.positions.priority	[integer] e.g.: 1 A number that may be used to define the order in which the Position should be presented relative to any other occurrences of Position where lower the number the earlier the data is presented.
organization.financingEvents.mortgagesAndCharges.filings.contactEvents.rolePlayers	[array (object)] The details of role players involved in a Legal Event as recorded in court papers and identifies the part each one plays.
organization.financingEvents.mortgagesAndCharges.filings.contactEvents.rolePlayers.rolePlayerType	[object] The details of the role player's function in the event.
organization.financingEvents.mortgagesAndCharges.filings.contactEvents.rolePlayers.rolePlayerType.description	[string] e.g.: Shareholder The function played by this party in the event (e.g., debtor, creditor, liquidator, shareholder, court, plaintiff, defendant).
organization.financingEvents.mortgagesAndCharges.filings.contactEvents.rolePlayers.rolePlayerType.dnbCode	[integer] e.g.: 302 A unique code assigned by Dun & Bradstreet to identify the function played by this party in the event. Refer to Reference code table "10 [Role Player Type]" for all possible values.
organization.financingEvents.mortgagesAndCharges.filings.contactEvents.textEntry	[array (object)] The details of data elements regarding the legal event filing which cannot be recorded in the other fields.
organization.financingEvents.mortgagesAndCharges.filings.contactEvents.textEntry.priority	[integer] e.g.: 1 A number that may be used to define the order in which this text entry should be presented relative to other occurrences of text entries where the lower the number the earlier the data is presented.
organization.financingEvents.mortgagesAndCharges.filings.contactEvents.textEntry.text	[string] e.g.: Some text obtained from contact Text that has been recorded.
organization.financingEvents.mortgagesAndCharges.filings.contactEvents	[string] e.g.: Legal event

ntactEvents.textEntry.typeDescription	Text entry type to qualify the information recorded in the text entries.
organization.financingEvents.mortgagesAndCharges.filings.contactEvents.textEntry.typeDnBCode	[integer] e.g.: 1170 A unique code assigned by Dun & Bradstreet to identify the text entry type. Refer to Reference code table "27 [Information Description]" for all possible values.
organization.financingEvents.mortgagesAndCharges.filings.eventIndicator	[boolean] e.g.: true When "true", this indicates that the Financing Event has been satisfied, i.e., this is historical information. When "false", this indicates that the Financing Event is still outstanding, i.e., this is current information; however as this is the assumed condition there is no requirement to create this tag to represent this fact.
organization.financingEvents.mortgagesAndCharges.filings.filingAmount	[object] The details of the amount of relief sought by all of the plaintiffs in the suit.
organization.financingEvents.mortgagesAndCharges.filings.filingAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.financingEvents.mortgagesAndCharges.filings.filingAmount.value	[number] e.g.: 1000000 The total amount of relief sought by all of the plaintiffs in the suit.
organization.financingEvents.mortgagesAndCharges.filings.filingDate	[string] e.g.: 2017-10-30 The date on which this event took place.
organization.financingEvents.mortgagesAndCharges.filings.filingMedium	[string] e.g.: Docket The medium in which the filing is recorded.
organization.financingEvents.mortgagesAndCharges.filings.filingReference	[string] e.g.: D5QZ52TC The identifier given by a registry body to the official filed document that contains this legal event information.
organization.financingEvents.mortgagesAndCharges.filings.filingReferenceDate	[array (object)] The details of the dates related to the filing of a document. Note: This array of dates should only be used when the user needs to know any additional dates other than the discrete date elements defined.
organization.financingEvents.mortgagesAndCharges.filings.filingReferenceDate.referenceDate	[string] e.g.: Date Published A date indicating that the document has been registered with an official body.
organization.financingEvents.mortgagesAndCharges.filings.filingReferenceDate.referenceType	[object] The details of the recorded date.
organization.financingEvents.mortgagesAndCharges.filings.filingDate	[string] e.g.: Date Filed

ngReferenceDate.referenceType.description	The description of the recorded date (e.g., Date Filed, Date Published).
organization.financingEvents.mortgagesAndCharges.filings.filingReferenceDate.referenceType.dnbCode	[integer] e.g.: 26889 A unique code assigned by Dun & Bradstreet to identify the relevance of the date recorded. Refer to Reference code table "322 [Filing Reference Date Type]" for all possible values.
organization.financingEvents.mortgagesAndCharges.filings.filingResults	[array (object)] The details of the outcomes this Legal Event had or is having on the entity.
organization.financingEvents.mortgagesAndCharges.filings.filingResults.description	[string] e.g.: Settled The outcome this event had or is having on the party involved in the event (e.g., Petition Dismissed, Liquidator Appointed, Counter claim filed by the defendant in a lawsuit).
organization.financingEvents.mortgagesAndCharges.filings.filingResults.dnbCode	[integer] e.g.: 11466 A unique code assigned by Dun & Bradstreet that describes the outcome this event had or is having. Refer to Reference code table "86 [Event Result]" for all possible values.
organization.financingEvents.mortgagesAndCharges.filings.filingType	[object] The details of the type of event that has been registered or recorded against the entity.
organization.financingEvents.mortgagesAndCharges.filings.filingType.description	[string] e.g.: County Court Judgement The type of event that has been registered or recorded against the entity.
organization.financingEvents.mortgagesAndCharges.filings.filingType.dnbCode	[integer] e.g.: 2515 A unique code assigned by Dun & Bradstreet to identify the type of event that has been registered or recorded against the entity. Refer to Reference code table "24 [Legal Event Type]" for all possible values.
organization.financingEvents.mortgagesAndCharges.filings.hasWholeBusinessSecured	[boolean] e.g.: true Indicates whether the charge is secured against all of the entity's tangible and intangible assets. The intangible assets would have value if the entity was sold as a going concern; the intangible assets would have no value if the entity liquidated. - If true, the whole business is used to secure the charge. - If false, the whole business is not used to secure the charge.
organization.financingEvents.mortgagesAndCharges.filings.isSecuredOnAllAssets	[boolean] e.g.: true Indicates whether all of the entity's assets have been used to secure this financing event. - If true, all the entity's assets have been used to secure this financing event. - If false, not all the entity's assets have been used to secure this financing event.
organization.financingEvents.mortgagesAndCharges.filings.originalFilingDate	[string] e.g.: 2017-10-30 The date of the initial filing of the event.

organization.financingEvents.mortgagesAndCharges.filings.publishedDate	[string] e.g.: 2011-02-14 The date to support the recording of the Publication Date for an official document registered with an Official Body.
organization.financingEvents.mortgagesAndCharges.filings.reasons	[array (object)] The details of the underlying factor that contributed to the Legal Event.
organization.financingEvents.mortgagesAndCharges.filings.reasons.description	[string] e.g.: Voluntary Petition for Bankruptcy The underlying factor that contributed to the Legal Event (e.g., natural disaster, fraud, strategy, economic conditions, loss to creditors).
organization.financingEvents.mortgagesAndCharges.filings.reasons.dnbCode	[integer] e.g.: 12281 A unique code assigned by Dun & Bradstreet to identify the underlying factor that contributed to the Legal Event. Refer to Reference code table "299 [Event Reason]" for all possible values.
organization.financingEvents.mortgagesAndCharges.filings.receivedDate	[string] e.g.: 2017-10-30 The date when Dun & Bradstreet or one of its strategic partners received this legal event.
organization.financingEvents.mortgagesAndCharges.filings.rolePlayers	[array (object)] The details of role players involved in a Legal Event as recorded in court papers and identifies the part each one plays.
organization.financingEvents.mortgagesAndCharges.filings.rolePlayers.address	[object] The details of the Primary Address at which the organization is located or conducts operations.
organization.financingEvents.mortgagesAndCharges.filings.rolePlayers.address.addressCountry	[object] The details of the country or region for this address of the organization.
organization.financingEvents.mortgagesAndCharges.filings.rolePlayers.address.addressCountry.name	[string] e.g.: United States The country or region for this address of the organization.
organization.financingEvents.mortgagesAndCharges.filings.rolePlayers.address.addressLocality	[object] The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.
organization.financingEvents.mortgagesAndCharges.filings.rolePlayers.address.addressLocality.name	[string] e.g.: SAN FRANCISCO The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.
organization.financingEvents.mortgagesAndCharges.filings.rolePlayers.address.addressRegion	[object] The name of the geographical area for this address of the organization. For Example New Jersey.
organization.financingEvents.mortgagesAndCharges.filings.rolePlayers.address.addressRegion.abbreviatedName	[string] e.g.: NJ The shortened name of the geographical area for this address of the organization. For example NJ for the

	US State New Jersey within Country United States.
organization.financingEvents.mortgagesAndCharges.filings.rolePlayers.address.addressRegion.name	[string] e.g.: California The name of the geographical area for this address of the organization. For Example New Jersey.
organization.financingEvents.mortgagesAndCharges.filings.rolePlayers.address.continentalRegion	[object] The details of the continent for this address of the organization.
organization.financingEvents.mortgagesAndCharges.filings.rolePlayers.address.continentalRegion.name	[string] e.g.: North America The name of the continent for this address of the organization. Possible values Africa Asia Pacific Europe Latin America Middle East North America
organization.financingEvents.mortgagesAndCharges.filings.rolePlayers.address.postalCode	[string] e.g.: 941109999 The postal code for this address of the organization. Also known locally in various English-speaking countries throughout the world as a postcode, post code, Eircode, PIN or ZIP Code) is a series of letters or digits or both, sometimes including spaces or punctuation, included in a postal address for the purpose of sorting mail. The code is used by the country's postal authority to identify the address where the organization is located or conducts operations .
organization.financingEvents.mortgagesAndCharges.filings.rolePlayers.address.streetAddress	[object] The details of the street address for this address of the organization.
organization.financingEvents.mortgagesAndCharges.filings.rolePlayers.address.streetAddress.line1	[string] e.g.: 492 KOLLER ST The first line of the address where the entity is located. The first line of this address of the organization. For example The Point in the address The Point 37 North Wharf Road London W2 1AF
organization.financingEvents.mortgagesAndCharges.filings.rolePlayers.address.streetAddress.line2	[string] e.g.: Suite 100 The second line of this address of the organization. For example 37 North Wharf Road in the address The Point 37 North Wharf Road

London
W2 1AF

organization.financingEvents.mortgagesAndCharges.filings.rolePlayers.duns	[string] e.g.: 804735132 The D-U-N-S® Number, a proprietary organizational identifier owned and managed by Dun & Bradstreet Inc, provides unique identification of a subject organization, in accordance with the Data Universal Numbering System (D-U-N-S®).
organization.financingEvents.mortgagesAndCharges.filings.rolePlayers.employerName	[string] e.g.: Dun & Bradstreet The name of the subject that employs the party involved in this event.
organization.financingEvents.mortgagesAndCharges.filings.rolePlayers.endDate	[string] e.g.: 2011-09-24 The date when the role player ceased to be associated with the financing event.
organization.financingEvents.mortgagesAndCharges.filings.rolePlayers.filingAmount	[object] The details of the monetary value associated with a court action for this party involved in the event.
organization.financingEvents.mortgagesAndCharges.filings.rolePlayers.filingAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.financingEvents.mortgagesAndCharges.filings.rolePlayers.filingAmount.value	[number] e.g.: 100000 The monetary value associated with a court action for this party involved in the event.
organization.financingEvents.mortgagesAndCharges.filings.rolePlayers.filingResults	[array (object)] The details of the outcomes this Legal Event had or is having on the entity.
organization.financingEvents.mortgagesAndCharges.filings.rolePlayers.filingResults.description	[string] e.g.: Settled The outcome this event had or is having on the party involved in the event (e.g., Petition Dismissed, Liquidator Appointed, Counter claim filed by the defendant in a lawsuit).
organization.financingEvents.mortgagesAndCharges.filings.rolePlayers.filingResults.dnbCode	[integer] e.g.: 11466 A unique code assigned by Dun & Bradstreet that describes the outcome this event had or is having. Refer to Reference code table "86 [Event Result]" for all possible values.
organization.financingEvents.mortgagesAndCharges.filings.rolePlayers.hasEnded	[boolean] e.g.: true When "true", this indicates that the Financing Event has been satisfied, i.e., this is historical information. When "false", this indicates that the Financing Event is still outstanding, i.e., this is current information; however as this is the assumed condition there is no requirement to create this tag to represent this fact.
organization.financingEvents.mortgagesAndCharges.filings.rolePlayers.name	[string] e.g.: Some Vendor The name of the party involved in this event as it was filed.

organization.financingEvents.mortgagesAndCharges.filings.rolePlayers.operatingStatus	[object] The details of the high level categorization of the organization's functional state or trading status.
organization.financingEvents.mortgagesAndCharges.filings.rolePlayers.operatingStatus.description	[string] e.g.: Active Textual description of the organization's functional state or trading status. Possible values: [9074] Active [403] Out of Business
organization.financingEvents.mortgagesAndCharges.filings.rolePlayers.operatingStatus.dnbCode	[integer] e.g.: 9074 A unique code assigned by Dun & Bradstreet to identify the organization's functional state or trading status. Possible values: 9074 [Active] 403 [Out of Business] Refer to Reference code table "166 [Operating Status]" for all possible values.
organization.financingEvents.mortgagesAndCharges.filings.rolePlayers.positions	[array (object)] The details of the job positions the role player holds or has held in the entity.
organization.financingEvents.mortgagesAndCharges.filings.rolePlayers.positions.description	[string] e.g.: Sales consultant The job position the role player holds or has held in the organization (e.g., Financial Director, Sales Director, Operations Manager).
organization.financingEvents.mortgagesAndCharges.filings.rolePlayers.positions.dnbCode	[integer] e.g.: 28802 A unique code assigned by Dun & Bradstreet that denotes the job position the role player holds or has held in the entity. Refer to Reference code table "5 [Position] & 198 [Employee Position]" for all possible values.
organization.financingEvents.mortgagesAndCharges.filings.rolePlayers.registrationNumbers	[array (object)] The details of the numbers assigned by an external body or by Dun & Bradstreet that either uniquely identifies or helps to identify an entity.
organization.financingEvents.mortgagesAndCharges.filings.rolePlayers.registrationNumbers.registrationNumber	[string] e.g.: 12-3456789 The number or alphanumeric value assigned by a recognized external authority that either uniquely identifies or helps to identify the organization.
organization.financingEvents.mortgagesAndCharges.filings.rolePlayers.rolePlayerType	[object] The details of the role player's function in the event.
organization.financingEvents.mortgagesAndCharges.filings.rolePlayers.rolePlayerType.description	[string] e.g.: Shareholder The function played by this party in the event (e.g., debtor, creditor, liquidator, shareholder, court, plaintiff, defendant).
organization.financingEvents.mortgagesAndCharges.filings.rolePlayers.rolePlayerType.dnbCode	[integer] e.g.: 302

ePlayers.rolePlayerType.dnbCode	A unique code assigned by Dun & Bradstreet to identify the function played by this party in the event. Refer to Reference code table "10 [Role Player Type]" for all possible values.
organization.financingEvents.mortgagesAndCharges.filings.satisfactionDetails	[array (object)] The details of the fulfillment of a financing event.
organization.financingEvents.mortgagesAndCharges.filings.satisfactionDetails.propertyReleaseDetails	[array (object)] The details of the release of the asset involved in the financing event.
organization.financingEvents.mortgagesAndCharges.filings.satisfactionDetails.propertyReleaseDetails.description	[string] e.g.: Warehouse on pier 42 The description of the property released for a charge against the entity.
organization.financingEvents.mortgagesAndCharges.filings.satisfactionDetails.propertyReleaseDetails.dnbCode	[integer] e.g.: 2512 A unique code assigned by Dun & Bradstreet that describes the property released for a charge against the entity.
organization.financingEvents.mortgagesAndCharges.filings.satisfactionDetails.propertyReleaseDetails.reference	[string] e.g.: Some text for reference purposes Reference text assigned by a registry or similar body to identify a property released.
organization.financingEvents.mortgagesAndCharges.filings.satisfactionDetails.reference	[string] e.g.: Some text for reference purposes Reference text assigned by the registry or similar body regarding the satisfaction of the financing event.
organization.financingEvents.mortgagesAndCharges.filings.satisfactionDetails.satisfactionDate	[string] e.g.: 2017-06-15 The date the satisfaction was registered.
organization.financingEvents.mortgagesAndCharges.filings.satisfactionDetails.statusType	[object] The details of the type of satisfaction of a financing event.
organization.financingEvents.mortgagesAndCharges.filings.satisfactionDetails.statusType.description	[string] e.g.: Open The type of satisfaction for this financing event.
organization.financingEvents.mortgagesAndCharges.filings.satisfactionDetails.statusType.dnbCode	[integer] e.g.: 11477 A unique code assigned by Dun & Bradstreet to identify the type of satisfaction for this financing event. Refer to Reference code table "82 [Event Status]" for all possible values.
organization.financingEvents.mortgagesAndCharges.filings.status	[object] The details of the most recent situation for the legal event.
organization.financingEvents.mortgagesAndCharges.filings.status.description	[string] e.g.: Open The most recent situation for the legal event (e.g., pending, unsatisfied).
organization.financingEvents.mortgagesAndCharges.filings.status.dnbCode	[integer] e.g.: 11477 A unique code assigned by Dun & Bradstreet to identify the most recent situation for the legal event. Refer to Reference code table "82 [Event Status]" for all possible values.

organization.financingEvents.mortgagesAndCharges.filings.statusDate	[string] e.g.: 2017-12-15 The date when the situation changed.
organization.financingEvents.mortgagesAndCharges.filings.textEntry	[array (object)] The details of data elements regarding the legal event filing which cannot be recorded in the other fields.
organization.financingEvents.mortgagesAndCharges.filings.textEntry.text	[string] e.g.: Some text obtained from contact Text that has been recorded.
organization.financingEvents.mortgagesAndCharges.filings.textEntry.typeDescription	[string] e.g.: Legal event Text entry type to qualify the information recorded in the text entries.
organization.financingEvents.mortgagesAndCharges.filings.textEntry.typeDnBCode	[integer] e.g.: 1170 A unique code assigned by Dun & Bradstreet to identify the text entry type. Refer to Reference code table "27 [Information Description]" for all possible values.
organization.financingEvents.mortgagesAndCharges.filings.verifiedDate	[string] e.g.: 2017-10-30 The date Dun & Bradstreet reviewed the reported content of the Legal Event to ensure accuracy.
organization.financingEvents.letterOfLiability	[object] The details about the Letter of Liability subscribers who have taken responsibility for the liability of the subject entity and on the entities for which the subject entity has taken responsibility for their liabilities.
organization.financingEvents.letterOfLiability.issuedLetterOfLiability	[object] The details about the events where the entity has issued a formal declaration to enable other entities to take over its liabilities.
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings	[array (object)] The details on each of the events where the entity has issued a formal declaration to enable other entities to take over its liabilities.
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.effectiveDate	[string] e.g.: 2017-11-30 The date upon which a financial instrument will come into effect (e.g., a Letter of Liability may be filed with an Event Date of 2005-11-15 to come into effect from 2006-01-01 until 2006-12-31)
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.filingDate	[string] e.g.: 2017-10-15 The date on which the subscriber entity submitted a letter to take over the liabilities of the subject entity.
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.lastRenewalDate	[string] e.g.: 2018-06-30 The date when the financial instrument was last renewed or confirmed (e.g., the date when the Letter of Liability Subscriber received an acceptance letter from the Letter of Liability Issuer). For example, in the Netherlands it is required by law that the Letter of Liability Issuer must confirm yearly in writing that the liability is maintained; hence, the Letter of Liability Issuer is not required to publish its individual balance sheet.

organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers	[array (object)] The details about the Letter of Liability issuer.
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.address	[object] The details of the Primary Address at which the organization is located or conducts operations.
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.address.addressCountry	[object] The details of the country or region for this address of the organization.
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.address.addressCountry.isoAlpha2Code	[string] e.g.: US The 2 letter alpha country code assigned by the International Organization for Standardization (ISO) identifying the Country/Region for this address of the organization. Note: Please refer to Country Code Substitutions Table [/html/resources/CountryCodes.html#country-substitute] for the country code substitutions.
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.address.addressCountry.name	[string] e.g.: United States The country or region for this address of the organization.
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.address.addressLocality	[object] The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.address.addressLocality.name	[string] e.g.: SAN FRANCISCO The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.address.addressRegion	[object] The name of the geographical area for this address of the organization. For Example New Jersey.
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.address.addressRegion.abbreviatedName	[string] e.g.: NJ The shortened name of the geographical area for this address of the organization. For example NJ for the US State New Jersey within Country United States.
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.address.addressRegion.name	[string] e.g.: California The name of the geographical area for this address of the organization. For Example New Jersey.
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.address.continentalRegion	[object] The details of the region as defined by Dun & Bradstreet for this address.
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.address.continentalRegion.name	[string] e.g.: North America The name of the region as defined by Dun & Bradstreet for this address (e.g., Africa, Europe, Middle East).
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.address.postalCode	[string] e.g.: 941109999 The postal code for this address of the organization.

Also known locally in various English-speaking countries throughout the world as a postcode, post code, Eircode, PIN or ZIP Code) is a series of letters or digits or both, sometimes including spaces or punctuation, included in a postal address for the purpose of sorting mail. The code is used by the country's postal authority to identify the address where the organization is located or conducts operations .

organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.address.streetAddress

[object]
The details of the street address for this address of the organization.

organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.address.streetAddress.line1

[string] e.g.: 492 KOLLER ST
The first line of the address where the entity is located.

The first line of this address of the organization. For example The Point in the address

The Point
37 North Wharf Road
London
W2 1AF

organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.associatedIssuers

[array (object)]
Records details of other financing events in which the Role Player subject is involved with businesses other than the focus subject. E.g. a Letter of Liability issuer may have issued other instruments to other companies. This aggregate contains information on those other companies (as Role Players), as well as the details of the event.

organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.associatedIssuers.address

[object]
The details of the entity's address.

organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.associatedIssuers.address.addressCountry

[object]
The details of the country or region for this address of the organization.

organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.associatedIssuers.address.addressCountry.isoAlpha2Code

[string] e.g.: US
The 2 letter alpha country code assigned by the International Organization for Standardization (ISO) identifying the Country/Region for this address of the organization.

Note: Please refer to Country Code Substitutions Table
[</html/resources/CountryCodes.html#country-substitute>] for the country code substitutions.

organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.associatedIssuers.address.addressCountry.name

[string] e.g.: United States
The country or region for this address of the organization.

organization.financingEvents.letterOfLiability.issuedLetterOfLi

[object]

ability.filings.rolePlayers.associatedIssuers.address.addressLocality	The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.associatedIssuers.address.addressLocality.name	[string] e.g.: SAN FRANCISCO The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.associatedIssuers.address.addressRegion	[object] The name of the geographical area for this address of the organization. For Example New Jersey.
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.associatedIssuers.address.addressRegion.name	[string] e.g.: California The name of the geographical area for this address of the organization. For Example New Jersey.
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.associatedIssuers.address.continentalRegion	[object] The details of the continent for this address of the organization.
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.associatedIssuers.address.continentalRegion.name	[string] e.g.: North America The name of the continent for this address of the organization. Possible values Africa Asia Pacific Europe Latin America Middle East North America
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.associatedIssuers.address.postalCode	[string] e.g.: 941109999 The postal code for this address of the organization. Also known locally in various English-speaking countries throughout the world as a postcode, post code, Eircode, PIN or ZIP Code) is a series of letters or digits or both, sometimes including spaces or punctuation, included in a postal address for the purpose of sorting mail. The code is used by the country's postal authority to identify the address where the organization is located or conducts operations .
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.associatedIssuers.address.streetAddress	[object] The details of the street address for this address of the organization.
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.associatedIssuers.address.streetAddress.line1	[string] e.g.: 492 KOLLER ST The first line of the address where the entity is located.

The first line of this address of the organization. For example The Point in the address

The Point
37 North Wharf Road
London
W2 1AF

organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.associatedIssuers.duns	[string] e.g.: 804735132 The D-U-N-S® Number, a proprietary organizational identifier owned and managed by Dun & Bradstreet Inc, provides unique identification of a subject organization, in accordance with the Data Universal Numbering System (D-U-N-S®).
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.associatedIssuers.effectiveDate	[string] e.g.: 2017-11-30 The date upon which a financial instrument will come into effect (e.g., a Letter of Liability may be filed with an Event Date of 2005-11-15 to come into effect from 2006-01-01 until 2006-12-31)
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.associatedIssuers.filingDate	[string] e.g.: 2017-10-15 The date on which the subscriber entity submitted a letter to take over the liabilities of the subject entity.
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.associatedIssuers.name	[string] e.g.: Some Vendor The name of the party involved in this event as it was filed.
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.associatedIssuers.withdrawnDate	[string] e.g.: 2018-09-30 The date on which the subscriber entity decided to nullify the letter to take over the liabilities of the subject entity.
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.duns	[string] e.g.: 804735132 The D-U-N-S® Number, a proprietary organizational identifier owned and managed by Dun & Bradstreet Inc, provides unique identification of a subject organization, in accordance with the Data Universal Numbering System (D-U-N-S®).
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.employerName	[string] e.g.: Dun & Bradstreet The name of the subject that employs the party involved in this event.
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.filingAmount	[object] The details of the monetary value associated with a court action for this party involved in the event.
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.filingAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.filingAmount.value	[number] e.g.: 100000 The monetary value associated with a court action for this party involved in the event.

organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.filingResults	[array (object)] Describes all outcomes involving this Role Player from this Legal Event; e.g., Counter claim filed by the defendant in a lawsuit.
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.filingResults.description	[string] e.g.: Closed Text that describes an outcome involving this Role Player from this Legal Event; e.g., Counter claim filed by the defendant in a lawsuit.
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.filingResults.dnbCode	[integer] e.g.: 11468 A unique code assigned by Dun & Bradstreet that describes an outcome involving this Role Player from this Legal Event; e.g., Counter claim filed by the defendant in a lawsuit. Refer to Reference code table "86 [Event Result]" for all possible values.
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.name	[string] e.g.: Some Vendor The name of the party involved in this event as it was filed.
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.operatingStatus	[object] The details of the high level categorization of the organization's functional state or trading status.
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.operatingStatus.description	[string] e.g.: Active Textual description of the organization's functional state or trading status. Possible values: [9074] Active [403] Out of Business
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.operatingStatus.dnbCode	[integer] e.g.: 9074 A unique code assigned by Dun & Bradstreet to identify the organization's functional state or trading status. Possible values: 9074 [Active] 403 [Out of Business] Refer to Reference code table "166 [Operating Status]" for all possible values.
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.positions	[array (object)] The details of the job positions the role player holds or has held in the entity.
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.positions.description	[string] e.g.: Sales consultant The job position the role player holds or has held in the organization (e.g., Financial Director, Sales Director, Operations Manager).
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.positions.dnbCode	[integer] e.g.: 28802 A unique code assigned by Dun & Bradstreet that denotes the job position the role player holds or has held in the entity. Refer to Reference code table "5 [Position] & 198 [Employee Position]" for all possible values.

organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.registrationNumber	[string] e.g.: 12-3456789 The number or alphanumeric value assigned by a recognized external authority that either uniquely identifies or helps to identify the organization.
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.rolePlayerType	[object] The details of the role player's function in the event.
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.rolePlayerType.description	[string] e.g.: Shareholder The function played by this party in the event (e.g., debtor, creditor, liquidator, shareholder, court, plaintiff, defendant).
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.rolePlayerType.dnbCode	[integer] e.g.: 302 A unique code assigned by Dun & Bradstreet to identify the function played by this party in the event. Refer to Reference code table "10 [Role Player Type]" for all possible values.
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.standardRating	[object] The most current Standard Dun & Bradstreet Rating assigned to this entity.
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.standardRating.financialStrength	[string] e.g.: 3A The overall size of the entity from a financial perspective. It may be based on the net worth or issued capital of the entity; the higher the amount, the larger the entity is considered to be.
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.standardRating.riskSegment	[string] e.g.: 4 Creditworthiness of the entity in terms of its overall financial condition or risk to creditors.
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.standardRating.scoreDate	[string] e.g.: 2010-03-14 The date when the score was assigned or last changed. Scores are continuously monitored and recalculated as any input variables changes. In the event that the score could not be assigned on the entity, this is the date when the reason was recorded explaining why the score was not assigned. Format: YYYY-MM-DD or YYYY-MM. Note: In some markets, the date is not changed unless there is a score change in order to avoid unnecessary notifications. But in others, the score date changes even though the score does not change after the market recalculates the score.
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.startDate	[string] e.g.: 2017-10-15 The date on which the subscriber entity submitted a letter to take over the liabilities of the subject entity.
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.telephone	[object] The details of the Telephone contact information used for voice communication with the organization.
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.telephone.isdCode	[string] e.g.: 1 A series of numbers that must be prefixed before dialing a telephone number in another Country, it is comprised of an International Dialing Prefix followed by the Country Code. These are also referred to as Country Calling Code or Country Dial-In Code.

organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.telephone.telephoneNumber	<p>[string] e.g.: 6505550000</p> <p>The primary voice telephone number for the business, when dialing domestically. The National Telephone Number is created by combining the Domestic Area Code and the Local Number.</p> <p>A Domestic Area Code is a series of numbers that must be prefixed before dialing a telephone number in another local area. National telecommunication authorities use various formats and dialing rules for area codes. Also known as City Code.</p> <p>A Local Number is a series of numbers that represents a specific telephone line.</p>
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.textEntry	<p>[array (object)]</p> <p>The details of data elements regarding the legal event filing which cannot be recorded in the other fields.</p>
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.textEntry.text	<p>[string] e.g.: Some text obtained from contact</p> <p>Text that has been recorded.</p>
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.textEntry.typeDescription	<p>[string] e.g.: Legal event</p> <p>Text entry type to qualify the information recorded in the text entries.</p>
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.textEntry.typeDnBCode	<p>[integer] e.g.: 1170</p> <p>A unique code assigned by Dun & Bradstreet to identify the text entry type. Refer to Reference code table "27 [Information Description]" for all possible values.</p>
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayers.withdrawnDate	<p>[string] e.g.: 2018-09-30</p> <p>The date on which the subscriber entity decided to nullify the letter to take over the liabilities of the subject entity.</p>
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayerType	<p>[object]</p> <p>The details of the role player's function in the event.</p>
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayerType.description	<p>[string] e.g.: Shareholder</p> <p>The function played by this party in the event (e.g., debtor, creditor, liquidator, shareholder, court, plaintiff, defendant).</p>
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.rolePlayerType.dnbCode	<p>[integer] e.g.: 302</p> <p>A unique code assigned by Dun & Bradstreet to identify the function played by this party in the event. Refer to Reference code table "10 [Role Player Type]" for all possible values.</p>
organization.financingEvents.letterOfLiability.issuedLetterOfLiability.filings.withdrawnDate	<p>[string] e.g.: 2018-09-30</p> <p>The date on which the subscriber entity decided to nullify the letter to take over the liabilities of the subject entity.</p>
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability	<p>[object]</p> <p>The details about the events where the entity has issued a formal declaration to enable other entities to take over its liabilities.</p>

organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings	[array (object)] The details on each of the events where the entity has issued a formal declaration to enable other entities to take over its liabilities.
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.effectiveDate	[string] e.g.: 2017-11-30 The date upon which a financial instrument will come into effect (e.g., a Letter of Liability may be filed with an Event Date of 2005-11-15 to come into effect from 2006-01-01 until 2006-12-31)
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.filingDate	[string] e.g.: 2017-10-15 The date on which the subscriber entity submitted a letter to take over the liabilities of the subject entity.
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.lastRenewalDate	[string] e.g.: 2018-06-30 The date when the financial instrument was last renewed or confirmed (e.g., the date when the Letter of Liability Subscriber received an acceptance letter from the Letter of Liability Issuer). For example, in the Netherlands it is required by law that the Letter of Liability Issuer must confirm yearly in writing that the liability is maintained; hence, the Letter of Liability Issuer is not required to publish its individual balance sheet.
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers	[array (object)] The details of role players involved in a Legal Event as recorded in court papers and identifies the part each one plays.
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers.address	[object] The details of the Primary Address at which the organization is located or conducts operations.
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers.address.addressCountry	[object] The details of the country in which the role player is located.
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers.address.addressCountry.isoAlpha2Code	[string] e.g.: US The two-letter country code, defined by the International Organization for Standardization (ISO) ISO 3166-1 scheme identifying the country of the role player. Note: Please refer to Country Code Substitutions Table [/html/resources/CountryCodes.html#country-substitute] for the country code substitutions.
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers.address.addressCountry.name	[string] e.g.: Unites States The name of the country in which the role player is located.
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers.address.addressCounty	[object] The details of the county where the business is located.
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers.address.addressCounty.name	[string] e.g.: Unites States The name of the county where the business is located.

organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers.address.addressLocality	[object] The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers.address.addressLocality.name	[string] e.g.: SAN FRANCISCO The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers.address.addressRegion	[object] The name of the geographical area for this address of the organization. For Example New Jersey.
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers.address.addressRegion.abbreviatedName	[string] e.g.: NJ The shortened name of the geographical area for this address of the organization. For example NJ for the US State New Jersey within Country United States.
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers.address.addressRegion.name	[string] e.g.: California The name of the geographical area for this address of the organization. For Example New Jersey.
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers.address.continentalRegion	[object] The details of the region as defined by Dun & Bradstreet for this address.
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers.address.continentalRegion.name	[string] e.g.: North America The name of the region as defined by Dun & Bradstreet for this address (e.g., Africa, Europe, Middle East).
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers.address.postalCode	[string] e.g.: 941109999 The postal code for this address of the organization. Also known locally in various English-speaking countries throughout the world as a postcode, post code, Eircode, PIN or ZIP Code) is a series of letters or digits or both, sometimes including spaces or punctuation, included in a postal address for the purpose of sorting mail. The code is used by the country's postal authority to identify the address where the organization is located or conducts operations .
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers.address.streetAddress	[object] The details of the street address for this address of the organization.
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers.address.streetAddress.line1	[string] e.g.: 492 KOLLER ST The first line of the address where the entity is located. The first line of this address of the organization. For example The Point in the address The Point 37 North Wharf Road London W2 1AF

organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers.address.streetAddress.line2	[string] e.g.: Suite 100 The second line of this address of the organization. For example 37 North Wharf Road in the address The Point 37 North Wharf Road London W2 1AF
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers.duns	[string] e.g.: 804735132 The D-U-N-S® Number, a proprietary organizational identifier owned and managed by Dun & Bradstreet Inc, provides unique identification of a subject organization, in accordance with the Data Universal Numbering System (D-U-N-S®).
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers.employerName	[string] e.g.: Dun & Bradstreet The name of the subject that employs the party involved in this event.
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers.filingAmount	[object] The details of the monetary value associated with a court action for this party involved in the event.
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers.filingAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers.filingAmount.value	[number] e.g.: 100000 The monetary value associated with a court action for this party involved in the event.
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers.filingResults	[array (object)] The details of the outcomes this Legal Event had or is having on the entity.
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers.filingResults.result	[object] The details of the outcome this event had or is having on the party involved in the event.
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers.filingResults.result.description	[string] e.g.: Settled The outcome this event had or is having on the party involved in the event (e.g., Petition Dismissed, Liquidator Appointed, Counter claim filed by the defendant in a lawsuit).
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers.filingResults.result.dnbCode	[integer] e.g.: 11466 A unique code assigned by Dun & Bradstreet that describes the outcome this event had or is having. Refer to Reference code table "86 [Event Result]" for all possible values.
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers.filingResults.resultDate	[string] e.g.: 2017-10-30 The date the outcome of the event occurred.
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers.filingResults.resultParty	[string] e.g.: Some Vendor

erOfLiability.filings.rolePlayers.name	The name of the party involved in this event as it was filed.
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers.operatingStatus	[object] The details of the high level categorization of the organization's functional state or trading status.
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers.operatingStatus.description	[string] e.g.: Active Textual description of the organization's functional state or trading status. Possible values: [9074] Active [403] Out of Business
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers.operatingStatus.dnbCode	[integer] e.g.: 9074 A unique code assigned by Dun & Bradstreet to identify the organization's functional state or trading status. Possible values: 9074 [Active] 403 [Out of Business] Refer to Reference code table "166 [Operating Status]" for all possible values.
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers.positions	[array (object)] The details of the job positions the role player holds or has held in the entity.
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers.positions.description	[string] e.g.: Sales consultant The job position the role player holds or has held in the organization (e.g., Financial Director, Sales Director, Operations Manager).
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers.positions.dnbCode	[integer] e.g.: 28802 A unique code assigned by Dun & Bradstreet that denotes the job position the role player holds or has held in the entity. Refer to Reference code table "5 [Position] & 198 [Employee Position]" for all possible values.
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers.registrationNumber	[string] e.g.: 12-3456789 The number or alphanumeric value assigned by a recognized external authority that either uniquely identifies or helps to identify the organization.
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers.registrationNumbers	[array (object)] The details of the numbers assigned by an external body or by Dun & Bradstreet that either uniquely identifies or helps to identify an entity.
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers.registrationNumbers.registrationNumber	[string] e.g.: 12-3456789 The number or alphanumeric value assigned by a recognized external authority that either uniquely identifies or helps to identify the organization.
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers.rolePlayerType	[object] The details of the role player's function in the event.

organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers.rolePlayerType.description	[string] e.g.: Shareholder The function played by this party in the event (e.g., debtor, creditor, liquidator, shareholder, court, plaintiff, defendant).
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers.rolePlayerType.dnbCode	[integer] e.g.: 302 A unique code assigned by Dun & Bradstreet to identify the function played by this party in the event. Refer to Reference code table "10 [Role Player Type]" for all possible values.
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers.standardRating	[object] The most current Standard Dun & Bradstreet Rating assigned to this entity.
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers.standardRating.financialStrength	[string] e.g.: 3A The overall size of the entity from a financial perspective. It may be based on the net worth or issued capital of the entity; the higher the amount, the larger the entity is considered to be.
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers.standardRating.riskSegment	[string] e.g.: 4 Creditworthiness of the entity in terms of its overall financial condition or risk to creditors.
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers.standardRating.scoreDate	[string] e.g.: 2010-03-14 The date when the score was assigned or last changed. Scores are continuously monitored and recalculated as any input variables changes. In the event that the score could not be assigned on the entity, this is the date when the reason was recorded explaining why the score was not assigned. Format: YYYY-MM-DD or YYYY-MM. Note: In some markets, the date is not changed unless there is a score change in order to avoid unnecessary notifications. But in others, the score date changes even though the score does not change after the market recalculates the score.
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers.startDate	[string] e.g.: 2017-10-30 The date when the role player originally started its business activities.
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers.telephone	[array (object)] The details of the Telephone contact information used for voice communication with the organization.
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers.telephone.isdCode	[string] e.g.: 1 A series of numbers that must be prefixed before dialing a telephone number in another Country, it is comprised of an International Dialing Prefix followed by the Country Code. These are also referred to as Country Calling Code or Country Dial-In Code.
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers.telephone.telephoneNumber	[string] e.g.: 6505550000 The primary voice telephone number for the business, when dialing domestically. The National Telephone Number is created by combining the Domestic Area Code and the Local Number. A Domestic Area Code is a series of numbers that must be prefixed before dialing a telephone number in another local area. National telecommunication authorities use various formats and dialing rules for area

	codes. Also known as City Code.
	A Local Number is a series of numbers that represents a specific telephone line.
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers.textEntry	[array (object)] The details of data elements regarding the legal event filing which cannot be recorded in the other fields.
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers.textEntry.priority	[integer] e.g.: 1 A number that may be used to define the order in which this text entry should be presented relative to other occurrences of text entries where the lower the number the earlier the data is presented.
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers.textEntry.text	[string] e.g.: Some text obtained from contact Text that has been recorded.
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers.textEntry.typeDescription	[string] e.g.: Legal event Text entry type to qualify the information recorded in the text entries.
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.rolePlayers.textEntry.typeDnBCode	[integer] e.g.: 1170 A unique code assigned by Dun & Bradstreet to identify the text entry type. Refer to Reference code table "27 [Information Description]" for all possible values.
organization.financingEvents.letterOfLiability.subscribedToLetterOfLiability.filings.withdrawnDate	[string] e.g.: 2018-09-30 The date on which the subscriber entity decided to nullify the letter to take over the liabilities of the subject entity.
organization.financingEvents.letterOfLiability.letterOfAgreement	[array (object)] The details about when the Letter of Liability Subscriber received an acceptance letter from the Letter of Liability Issuer.
organization.financingEvents.letterOfLiability.letterOfAgreement.agreementDate	[string] e.g.: 2017 The financial year during which the letter of agreement was submitted.
organization.financingEvents.letterOfLiability.letterOfAgreement.filingDate	[string] e.g.: 2017-11-30 The date when the Letter of Liability Subscriber received an acceptance letter from the Letter of Liability Issuer.
organization.financingEvents.otherFinancingEvents	[array (object)] The details of events that have occurred and directly affect the entity's finances. For example the means by which moneys are obtained by the entity or financial securities that have been filed and affect the entity.
organization.financingEvents.otherFinancingEvents.filings	[object] The details of each decision made by a court that involved this entity.
organization.financingEvents.otherFinancingEvents.filings.collaterals	[array (object)] The details of the different types of assets used by the entity as security for this event.

organization.financingEvents.otherFinancingEvents.filings.collaterals.collateralClass	[object] The details of the class of asset.
organization.financingEvents.otherFinancingEvents.filings.collaterals.collateralClass.description	[string] e.g.: land The class of asset (e.g., Land, Buildings, Personal Assets, Cash Reserves).
organization.financingEvents.otherFinancingEvents.filings.collaterals.collateralClass.dnbCode	[integer] e.g.: 3316 A unique code assigned by Dun & Bradstreet to identify the class of asset. Refer to Reference code table "66 [Asset Class]" for all possible values.
organization.financingEvents.otherFinancingEvents.filings.collaterals.collateralType	[object] The details of a type of asset used as collateral.
organization.financingEvents.otherFinancingEvents.filings.collaterals.collateralType.description	[string] e.g.: Forest land The type of asset used as collateral at a detailed level (e.g., Cars, Office Block, Ships).
organization.financingEvents.otherFinancingEvents.filings.collaterals.collateralType.dnbCode	[integer] e.g.: 30061 A unique code assigned by Dun & Bradstreet to identify the type of asset. Refer to Reference code table "68 [Asset Type]" for all possible values.
organization.financingEvents.otherFinancingEvents.filings.collaterals.textEntry	[array (object)] Records the textual description, language and nature of collateral type information.
organization.financingEvents.otherFinancingEvents.filings.collaterals.textEntry.text	[string] e.g.: Vehicles Free form textual description, language and nature of collateral type information.
organization.financingEvents.otherFinancingEvents.filings.collaterals.textEntry.typeDescription	[string] e.g.: Financial Statement Additional Note Text Text that describes the type of textual description, language and nature of collateral type information.
organization.financingEvents.otherFinancingEvents.filings.collaterals.textEntry.typeDnBCode	[integer] e.g.: 23916 A unique code assigned by Dun & Bradstreet describing the type of textual description, language and nature of collateral type information. Refer to Reference code table "27 [Information Description]" for all possible values.
organization.financingEvents.otherFinancingEvents.filings.contactEvents	[array (object)] The details on communications Dun & Bradstreet had with persons to get information on this event.
organization.financingEvents.otherFinancingEvents.filings.contactEvents.contactDate	[string] e.g.: 2017-11-25 The date when the communication took place.
organization.financingEvents.otherFinancingEvents.filings.contactEvents.name	[string] e.g.: John Smith The name of the contact which may be either an individual or an entity.
organization.financingEvents.otherFinancingEvents.filings.contactEvents.positions	[array (object)] The details on the job position the principal or manager holds or has held in the entity.

organization.financingEvents.otherFinancingEvents.filings.contactEvents.positions.description	[string] e.g.: Chairman Executive Committee The job position the principal or manager holds or has held in the entity (e.g., Financial Director, Managing Director, Sales Director, Operations Manager).
organization.financingEvents.otherFinancingEvents.filings.contactEvents.positions.dnbCode	[integer] e.g.: 95 A unique code assigned by Dun & Bradstreet to identify the job position the principal or manager holds or has held in the entity. Refer to Reference code table "5 [Position] & 198 [Employee Position]" for all possible values.
organization.financingEvents.otherFinancingEvents.filings.contactEvents.positions.priority	[integer] e.g.: 1 A number that may be used to define the order in which the Position should be presented relative to any other occurrences of Position where lower the number the earlier the data is presented.
organization.financingEvents.otherFinancingEvents.filings.contactEvents.rolePlayers	[array (object)] The details of role players involved in a Legal Event as recorded in court papers and identifies the part each one plays.
organization.financingEvents.otherFinancingEvents.filings.contactEvents.rolePlayers.rolePlayerType	[object] The details of the role player's function in the event.
organization.financingEvents.otherFinancingEvents.filings.contactEvents.rolePlayers.rolePlayerType.description	[string] e.g.: Shareholder The function played by this party in the event (e.g., debtor, creditor, liquidator, shareholder, court, plaintiff, defendant).
organization.financingEvents.otherFinancingEvents.filings.contactEvents.rolePlayers.rolePlayerType.dnbCode	[integer] e.g.: 302 A unique code assigned by Dun & Bradstreet to identify the function played by this party in the event. Refer to Reference code table "10 [Role Player Type]" for all possible values.
organization.financingEvents.otherFinancingEvents.filings.contactEvents.textEntry	[array (object)] The details of data elements regarding the legal event filing which cannot be recorded in the other fields.
organization.financingEvents.otherFinancingEvents.filings.contactEvents.textEntry.priority	[integer] e.g.: 1 A number that may be used to define the order in which this text entry should be presented relative to other occurrences of text entries where the lower the number the earlier the data is presented.
organization.financingEvents.otherFinancingEvents.filings.contactEvents.textEntry.text	[string] e.g.: Some text obtained from contact Text that has been recorded.
organization.financingEvents.otherFinancingEvents.filings.contactEvents.textEntry.typeDescription	[string] e.g.: Legal event Text entry type to qualify the information recorded in the text entries.
organization.financingEvents.otherFinancingEvents.filings.contactEvents.textEntry.typeDnBCode	[integer] e.g.: 1170 A unique code assigned by Dun & Bradstreet to identify the text entry type. Refer to Reference code table "27 [Information Description]" for all possible values.

organization.financingEvents.otherFinancingEvents.filings.documentType	[object] Describes the type of financing statement document which is on file; e.g., Original, Amendment, Partial Release)
organization.financingEvents.otherFinancingEvents.filings.documentType.description	[string] e.g.: Annual Return Text which describes the type of financing statement document which is on file; e.g., Original, Amendment, Partial Release)
organization.financingEvents.otherFinancingEvents.filings.documentType.dnbCode	[integer] e.g.: 10248 A code which describes the type of financing statement document which is on file; e.g., Original, Amendment, Partial Release) Refer to Reference code table "186 [Document Type]" for all possible values.
organization.financingEvents.otherFinancingEvents.filings.filingAmount	[object] The details of the amount of relief sought by all of the plaintiffs in the suit.
organization.financingEvents.otherFinancingEvents.filings.filingAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.financingEvents.otherFinancingEvents.filings.filingAmount.value	[number] e.g.: 1000000 The total amount of relief sought by all of the plaintiffs in the suit.
organization.financingEvents.otherFinancingEvents.filings.filingDate	[string] e.g.: 2017-10-30 The date on which this event took place.
organization.financingEvents.otherFinancingEvents.filings.filingMedium	[string] e.g.: Docket The medium in which the filing is recorded.
organization.financingEvents.otherFinancingEvents.filings.filingReference	[string] e.g.: D5QZ52TC The identifier given by a registry body to the official filed document that contains this legal event information.
organization.financingEvents.otherFinancingEvents.filings.filingReferenceDate	[array (object)] Records several different dates relating to a document, e.g., Date Filed, Date Published. Note: This array of dates should only be used when the user needs to know any additional dates other than the discrete date elements defined.
organization.financingEvents.otherFinancingEvents.filings.filingReferenceDate.referenceDate	[string] e.g.: 2012-05-12 A date relating to a document that has been registered with an official body, e.g., Date Filed, Date Published
organization.financingEvents.otherFinancingEvents.filings.filingReferenceDate.referenceType	[object] Records the relevance of the date recorded in 'Filing Reference Date', e.g., Date Filed, Date Published

organization.financingEvents.otherFinancingEvents.filings.filingReferenceDate.referenceType.description	[string] e.g.: Date Filed Text which defines the relevance of the date recorded in 'Filing Reference Date', e.g., Date Filed, Date Published
organization.financingEvents.otherFinancingEvents.filings.filingReferenceDate.referenceType.dnbCode	[integer] e.g.: 26889 A unique code assigned by Dun & Bradstreet which defines the relevance of the date recorded in 'Filing Reference Date', e.g., Date Filed, Date Published Refer to Reference code table "322 [Filing Reference Date Type]" for all possible values.
organization.financingEvents.otherFinancingEvents.filings.filingResults	[array (object)] Records the outcomes of this event.
organization.financingEvents.otherFinancingEvents.filings.filingResults.result	[object] The details of the outcome this event had or is having on the party involved in the event.
organization.financingEvents.otherFinancingEvents.filings.filingResults.result.description	[string] e.g.: Settled The outcome this event had or is having on the party involved in the event (e.g., Petition Dismissed, Liquidator Appointed, Counter claim filed by the defendant in a lawsuit).
organization.financingEvents.otherFinancingEvents.filings.filingResults.result.dnbCode	[integer] e.g.: 11466 A unique code assigned by Dun & Bradstreet that describes the outcome this event had or is having. Refer to Reference code table "86 [Event Result]" for all possible values.
organization.financingEvents.otherFinancingEvents.filings.filingResults.resultDate	[string] e.g.: 2017-10-30 The date the outcome of the event occurred.
organization.financingEvents.otherFinancingEvents.filings.filingType	[object] The details of the type of event that has been registered or recorded against the entity.
organization.financingEvents.otherFinancingEvents.filings.filingType.description	[string] e.g.: County Court Judgement The type of event that has been registered or recorded against the entity.
organization.financingEvents.otherFinancingEvents.filings.filingType.dnbCode	[integer] e.g.: 2515 A unique code assigned by Dun & Bradstreet to identify the type of event that has been registered or recorded against the entity. Refer to Reference code table "24 [Legal Event Type]" for all possible values.
organization.financingEvents.otherFinancingEvents.filings.hasWholeBusinessSecured	[boolean] e.g.: true Indicates whether the charge is secured against all of the entity's tangible and intangible assets. The intangible assets would have value if the entity was sold as a going concern; the intangible assets would have no value if the entity liquidated. - If true, the whole business is used to secure the charge. - If false, the whole business is not used to secure the charge.

organization.financingEvents.otherFinancingEvents.filings.isSecuredOnAllAssets	[boolean] e.g.: true Indicates whether all of the entity's assets have been used to secure this financing event. - If true, all the entity's assets have been used to secure this financing event. - If false, not all the entity's assets have been used to secure this financing event.
organization.financingEvents.otherFinancingEvents.filings.initialFilingDate	[string] e.g.: 2017-10-30 The date of the initial filing of the event.
organization.financingEvents.otherFinancingEvents.filings.initialFilingReference	[string] e.g.: CaseNumber123 An identifier assigned by a registry or similar body to identify a specific Financing Event e.g.; the filing reference of a secured charge.
organization.financingEvents.otherFinancingEvents.filings.publishedDate	[string] e.g.: 2011-02-14 The date to support the recording of the Publication Date for an official document registered with an Official Body.
organization.financingEvents.otherFinancingEvents.filings.reasons	[array (object)] The details of the underlying factor that contributed to the Legal Event.
organization.financingEvents.otherFinancingEvents.filings.reasons.description	[string] e.g.: Voluntary Petition for Bankruptcy The underlying factor that contributed to the Legal Event (e.g., natural disaster, fraud, strategy, economic conditions, loss to creditors).
organization.financingEvents.otherFinancingEvents.filings.reasons.dnbCode	[integer] e.g.: 12281 A unique code assigned by Dun & Bradstreet to identify the underlying factor that contributed to the Legal Event. Refer to Reference code table "299 [Event Reason]" for all possible values.
organization.financingEvents.otherFinancingEvents.filings.receivedDate	[string] e.g.: 2017-10-30 The date when Dun & Bradstreet or one of its strategic partners received this legal event.
organization.financingEvents.otherFinancingEvents.filings.rolePlayers	[array (object)] The details of role players involved in a Legal Event as recorded in court papers and identifies the part each one plays.
organization.financingEvents.otherFinancingEvents.filings.rolePlayers.address	[object] The details of the Primary Address at which the organization is located or conducts operations.
organization.financingEvents.otherFinancingEvents.filings.rolePlayers.address.addressCountry	[object] The details of the country or region for this address of the organization.
organization.financingEvents.otherFinancingEvents.filings.rolePlayers.address.addressCountry.name	[string] e.g.: United States The country or region for this address of the organization.

organization.financingEvents.otherFinancingEvents.filings.role Players.address.addressLocality	[object] The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.
organization.financingEvents.otherFinancingEvents.filings.role Players.address.addressLocality.name	[string] e.g.: SAN FRANCISCO The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.
organization.financingEvents.otherFinancingEvents.filings.role Players.address.addressRegion	[object] The name of the geographical area for this address of the organization. For Example New Jersey.
organization.financingEvents.otherFinancingEvents.filings.role Players.address.addressRegion.abbreviatedName	[string] e.g.: NJ The shortened name of the geographical area for this address of the organization. For example NJ for the US State New Jersey within Country United States.
organization.financingEvents.otherFinancingEvents.filings.role Players.address.addressRegion.name	[string] e.g.: California The name of the geographical area for this address of the organization. For Example New Jersey.
organization.financingEvents.otherFinancingEvents.filings.role Players.address.continentalRegion	[object] The details of the continent for this address of the organization.
organization.financingEvents.otherFinancingEvents.filings.role Players.address.continentalRegion.name	[string] e.g.: North America The name of the continent for this address of the organization. Possible values Africa Asia Pacific Europe Latin America Middle East North America
organization.financingEvents.otherFinancingEvents.filings.role Players.address.postalCode	[string] e.g.: 941109999 The postal code for this address of the organization. Also known locally in various English-speaking countries throughout the world as a postcode, post code, Eircode, PIN or ZIP Code) is a series of letters or digits or both, sometimes including spaces or punctuation, included in a postal address for the purpose of sorting mail. The code is used by the country's postal authority to identify the address where the organization is located or conducts operations .
organization.financingEvents.otherFinancingEvents.filings.role Players.address.streetAddress	[object] The details of the street address for this address of the organization.
organization.financingEvents.otherFinancingEvents.filings.role Players.address.streetAddress.line1	[string] e.g.: 492 KOLLER ST The first line of the address where the entity is located.

The first line of this address of the organization. For example The Point in the address

The Point
37 North Wharf Road
London
W2 1AF

organization.financingEvents.otherFinancingEvents.filings.role
Players.address.streetAddress.line2

[string] e.g.: Suite 100
The second line of this address of the organization.
For example 37 North Wharf Road in the address
The Point
37 North Wharf Road
London
W2 1AF

organization.financingEvents.otherFinancingEvents.filings.role
Players.duns

[string] e.g.: 804735132
The D-U-N-S® Number, a proprietary organizational identifier owned and managed by Dun & Bradstreet Inc, provides unique identification of a subject organization, in accordance with the Data Universal Numbering System (D-U-N-S®).

organization.financingEvents.otherFinancingEvents.filings.role
Players.employerName

[string] e.g.: Dun & Bradstreet
The name of the subject that employs the party involved in this event.

organization.financingEvents.otherFinancingEvents.filings.role
Players.endDate

[string] e.g.: 2011-09-24
The date when the role player ceased to be associated with the financing event.

organization.financingEvents.otherFinancingEvents.filings.role
Players.filingAmount

[object]
The details of the monetary value associated with a court action for this party involved in the event.

organization.financingEvents.otherFinancingEvents.filings.role
Players.filingAmount.currency

[string] e.g.: USD
The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).

organization.financingEvents.otherFinancingEvents.filings.role
Players.filingAmount.value

[number] e.g.: 100000
The monetary value associated with a court action for this party involved in the event.

organization.financingEvents.otherFinancingEvents.filings.role
Players.filingResults

[array (object)]
The details of the outcomes this Legal Event had or is having on the entity.

organization.financingEvents.otherFinancingEvents.filings.role
Players.filingResults.description

[string] e.g.: Settled
The outcome this event had or is having on the party involved in the event (e.g., Petition Dismissed, Liquidator Appointed, Counter claim filed by the defendant in a lawsuit).

organization.financingEvents.otherFinancingEvents.filings.role

[integer] e.g.: 11466

Players.filingResults.dnbCode	A unique code assigned by Dun & Bradstreet that describes the outcome this event had or is having. Refer to Reference code table "86 [Event Result]" for all possible values.
organization.financingEvents.otherFinancingEvents.filings.role Players.hasEnded	[boolean] e.g.: true When set to "true", it indicates that the role player ceased to be associated with the financing event. When set to "false", it indicates that the role player is still associated with the financing event.
organization.financingEvents.otherFinancingEvents.filings.role Players.name	[string] e.g.: Some Vendor The name of the party involved in this event as it was filed.
organization.financingEvents.otherFinancingEvents.filings.role Players.operatingStatus	[object] The details of the high level categorization of the organization's functional state or trading status.
organization.financingEvents.otherFinancingEvents.filings.role Players.operatingStatus.description	[string] e.g.: Active Textual description of the organization's functional state or trading status. Possible values: [9074] Active [403] Out of Business
organization.financingEvents.otherFinancingEvents.filings.role Players.operatingStatus.dnbCode	[integer] e.g.: 9074 A unique code assigned by Dun & Bradstreet to identify the organization's functional state or trading status. Possible values: 9074 [Active] 403 [Out of Business] Refer to Reference code table "166 [Operating Status]" for all possible values.
organization.financingEvents.otherFinancingEvents.filings.role Players.positions	[array (object)] The details of the job positions the role player holds or has held in the entity.
organization.financingEvents.otherFinancingEvents.filings.role Players.positions.description	[string] e.g.: Sales consultant The job position the role player holds or has held in the organization (e.g., Financial Director, Sales Director, Operations Manager).
organization.financingEvents.otherFinancingEvents.filings.role Players.positions.dnbCode	[integer] e.g.: 28802 A unique code assigned by Dun & Bradstreet that denotes the job position the role player holds or has held in the entity. Refer to Reference code table "5 [Position] & 198 [Employee Position]" for all possible values.
organization.financingEvents.otherFinancingEvents.filings.role Players.registrationNumbers	[array (object)] The details of the numbers assigned by an external body or by Dun & Bradstreet that either uniquely identifies or helps to identify an entity.
organization.financingEvents.otherFinancingEvents.filings.role	[string] e.g.: 12-3456789

Players.registrationNumbers.registrationNumber	The number or alphanumeric value assigned by a recognized external authority that either uniquely identifies or helps to identify the organization.
organization.financingEvents.otherFinancingEvents.filings.rolePlayers.rolePlayerType	[object] The details of the role player's function in the event.
organization.financingEvents.otherFinancingEvents.filings.rolePlayers.rolePlayerType.description	[string] e.g.: Shareholder The function played by this party in the event (e.g., debtor, creditor, liquidator, shareholder, court, plaintiff, defendant).
organization.financingEvents.otherFinancingEvents.filings.rolePlayers.rolePlayerType.dnbCode	[integer] e.g.: 302 A unique code assigned by Dun & Bradstreet to identify the function played by this party in the event. Refer to Reference code table "10 [Role Player Type]" for all possible values.
organization.financingEvents.otherFinancingEvents.filings.rolePlayers.textEntry	[array (object)] The details of data elements regarding the legal event filing which cannot be recorded in the other fields.
organization.financingEvents.otherFinancingEvents.filings.rolePlayers.textEntry.priority	[integer] e.g.: 1 A number that may be used to define the order in which this text entry should be presented relative to other occurrences of text entries where the lower the number the earlier the data is presented.
organization.financingEvents.otherFinancingEvents.filings.rolePlayers.textEntry.text	[string] e.g.: Some text obtained from contact Text that has been recorded.
organization.financingEvents.otherFinancingEvents.filings.rolePlayers.textEntry.typeDescription	[string] e.g.: Legal event Text entry type to qualify the information recorded in the text entries.
organization.financingEvents.otherFinancingEvents.filings.rolePlayers.textEntry.typeDnBCode	[integer] e.g.: 1170 A unique code assigned by Dun & Bradstreet to identify the text entry type. Refer to Reference code table "27 [Information Description]" for all possible values.
organization.financingEvents.otherFinancingEvents.filings.status	[object] The details of the most recent situation for the legal event.
organization.financingEvents.otherFinancingEvents.filings.status.description	[string] e.g.: Open The most recent situation for the legal event (e.g., pending, unsatisfied).
organization.financingEvents.otherFinancingEvents.filings.status.dnbCode	[integer] e.g.: 11477 A unique code assigned by Dun & Bradstreet to identify the most recent situation for the legal event. Refer to Reference code table "82 [Event Status]" for all possible values.
organization.financingEvents.otherFinancingEvents.filings.statusDate	[string] e.g.: 2017-12-15 The date when the situation changed.
organization.financingEvents.otherFinancingEvents.filings.text	[array (object)]

Entry	The details of data elements regarding the legal event filing which cannot be recorded in the other fields.
organization.financingEvents.otherFinancingEvents.filings.textEntry.text	[string] e.g.: Some text obtained from contact Text that has been recorded.
organization.financingEvents.otherFinancingEvents.filings.textEntry.typeDescription	[string] e.g.: Legal event Text entry type to qualify the information recorded in the text entries.
organization.financingEvents.otherFinancingEvents.filings.textEntry.typeDnBCode	[integer] e.g.: 1170 A unique code assigned by Dun & Bradstreet to identify the text entry type. Refer to Reference code table "27 [Information Description]" for all possible values.
organization.financingEvents.otherFinancingEvents.filings.verifiedDate	[string] e.g.: 2019-09-01 The date on which D&B reviewed the reported content of the Financing Event to ensure accuracy.
organization.defaultEvents	[object] Records the details of the events related to the subject's failure to fulfil an obligation, i.e., failure to repay a loan.
organization.defaultEvents.hasDefaultEvents	[boolean] e.g.: true Indicates that there are events related to the subject's failure to fulfil an obligation, i.e., failure to repay a loan.
organization.defaultEvents.hasOpenDefaultEvents	[boolean] e.g.: true Indicates that there are open events related to the subject's failure to fulfil an obligation, i.e., failure to repay a loan.
organization.defaultEvents.totalCount	[integer] e.g.: 12 The total number of events related to the subject's failure to fulfil an obligation, i.e., failure to repay a loan.
organization.defaultEvents.periodSummary	[object] Records a summary of events related to the subject's failure to fulfil an obligation, i.e., failure to repay a loan recorded within a particular time period.
organization.defaultEvents.periodSummary.12Months	[object] Records a summary of events related to the subject's failure to fulfil an obligation, i.e., failure to repay a loan recorded within the last 12 months.
organization.defaultEvents.periodSummary.12Months.totalCount	[integer] e.g.: 7 The total number of events recorded in the last 12 months, related to the subject's failure to fulfil an obligation, i.e., failure to repay a loan.
organization.defaultEvents.periodSummary.12Months.totalAmount	[object] Records the total monetary value involved in the events recorded in the last 12 months, related to the subject's failure to fulfil an obligation, i.e., failure to repay a loan.

organization.defaultEvents.periodSummary.12Months.totalAmount.value	[number] e.g.: 12500 The total monetary value involved in the events recorded in the last 12 months, related to the subject's failure to fulfil an obligation, i.e., failure to repay a loan.
organization.defaultEvents.periodSummary.12Months.totalAmount.currency	[string] e.g.: USD The ISO 3 Alpha currency code which denotes the currency in which the amount value is represented.
organization.defaultEvents.mostRecentFilingDate	[string] e.g.: 2024-12-07 The date when the last default event involving the subject company was recorded.
organization.defaultEvents.filings	[array (object)] Records the details of different default events against the subject summarized by the key data relating to the event such as the type of event, amount of the event, date or the event etc.
organization.defaultEvents.filings.defaultEventType	[object] Records the type of the default event registered or recorded against the subject, e.g., Credit Default.
organization.defaultEvents.filings.defaultEventType.dnbCode	[integer] e.g.: 43559 A unique code assigned by Dun & Bradstreet that denotes the type of the default event. Refer to Reference code table "868 [Default Event Type]" for all possible values.
organization.defaultEvents.filings.defaultEventType.description	[string] e.g.: Credit Default Text that denotes the type of the default event.
organization.defaultEvents.filings.localDefaultEvent	[array (object)] Records the details of the local information related to the default event.
organization.defaultEvents.filings.localDefaultEvent.eventType	[object] Records the type of the default event in the local market.
organization.defaultEvents.filings.localDefaultEvent.eventType.dnbCode	[integer] e.g.: 202 A unique code assigned by Dun & Bradstreet that denotes the type of the default event in the local market. Refer to Reference code table "21 [Capital Type]" for all possible values.
organization.defaultEvents.filings.localDefaultEvent.eventType.description	[string] e.g.: Nominal Text that denotes the type of the default event in the local market.
organization.defaultEvents.filings.localDefaultEvent.textEntry	[array (object)] Records the textual description, language and nature of textual local default event type which cannot be recorded in the defined fields.
organization.defaultEvents.filings.localDefaultEvent.textEntry.text	[string] e.g.: Company has credit guarantee payments A textual description of a local default event type which cannot be encoded in any of the defined elements.
organization.defaultEvents.filings.localDefaultEvent.textEntry.id	[object]

language	Records the language in which this text was presented.
organization.defaultEvents.filings.localDefaultEvent.textEntry.language.dnbCode	[integer] e.g.: 39 A unique code assigned by Dun & Bradstreet to denote the language in which this text is stored. Refer to Reference code table "3 [Language]" for all possible values.
organization.defaultEvents.filings.localDefaultEvent.textEntry.language.description	[string] e.g.: English Text that denotes the language in which this text is stored.
organization.defaultEvents.filings.localDefaultEvent.textEntry.priority	[integer] e.g.: 1 A number which may be used to define the order in which the Local Default Event Text Entry should be presented relative to any other occurrences of Text Entry where the lower the number the earlier the data is presented.
organization.defaultEvents.filings.eventDate	[string] e.g.: 2024-07-11 The date on which the event took place.
organization.defaultEvents.filings.endDate	[string] e.g.: 2024-11-23 The date on which the Default Event procedure was ended.
organization.defaultEvents.filings.eventAmounts	[array (object)] Records the different monetary values associated with the default event.
organization.defaultEvents.filings.eventAmounts.amount	[number] e.g.: 422656 The monetary value associated with a default event.
organization.defaultEvents.filings.eventAmounts.amountType	[object] Records the type of the monetary value associated with the default event.
organization.defaultEvents.filings.eventAmounts.amountType.dnbCode	[integer] e.g.: 43475 A unique code assigned by Dun & Bradstreet to denote the type of the monetary value associated with the default event. Refer to Reference code table "612 [Event Amount Type]" for all possible values.
organization.defaultEvents.filings.eventAmounts.amountType.description	[string] e.g.: Issued Amount Text that denotes the type of the monetary value associated with the default event.
organization.defaultEvents.filings.eventAmounts.currency	[string] e.g.: KRW The 3 letter ISO code that uniquely identifies a currency.
organization.defaultEvents.filings.textEntry	[array (object)] Records the free form text , language and nature of textual data relating to the Default Event
organization.defaultEvents.filings.textEntry.text	[string] e.g.: Others A textual description related to the Default Event which cannot be recorded in any of the defined elements.

organization.defaultEvents.filings.textEntry.dnbCode	[integer] e.g.: 15642 A unique code assigned by Dun & Bradstreet to denote the type of the Default Event Text.
organization.defaultEvents.filings.textEntry.description	[string] e.g.: Reporting Source Details Text that denotes the type of the Default Event Text.
organization.defaultEvents.filings.textEntry.language	[object] Records the language in which this text was presented.
organization.defaultEvents.filings.textEntry.language.dnbCode	[integer] e.g.: 39 A unique code assigned by Dun & Bradstreet to denote the language in which this text is stored. Refer to Reference code table "3 [Language]" for all possible values.
organization.defaultEvents.filings.textEntry.language.description	[string] e.g.: English Text that denotes the language in which this text is stored.
organization.defaultEvents.filings.textEntry.priorityGroup	[integer] e.g.: 1 A number which may be used to identify multiple occurrences of Text Entry as belonging together as part of the same block of text. Within a group the Display Sequence may then be used to ensure that the Text Entry occurrences within the group are presented in the correct order.
organization.defaultEvents.filings.textEntry.priority	[integer] e.g.: 1 A number which may be used to define the order in which the Default Event Text Entry should be presented relative to any other occurrences of Text Entry where the lower the number the earlier the data is presented.
organization.defaultEvents.filings.priority	[string] e.g.: 1 A number which may be used to define the order in which the Default Event Entry should be presented relative to any other occurrences of Default Event Entries where the lower the number the earlier the data is presented.
organization.defaultEvents.filings.dataProvider	[object] Records the source from which the Default Event data was originally obtained by D&B.
organization.defaultEvents.filings.dataProvider.dnbCode	[integer] e.g.: 43557 A unique code assigned by Dun & Bradstreet identifying the source from which the Default Event data was originally obtained by D&B. Refer to Reference code table "29 [Information Sources]" for all possible values.
organization.defaultEvents.filings.dataProvider.description	[string] e.g.: Korea Credit Information Services Text identifying the source from which the Default Event data was originally obtained by D&B.
organization.defaultEvents.filings.informationScope	[object] Records the source from which the Default Event data was extracted for inclusion in this record. This may identify the D&B or partner company supplying the data, however a country may decide to develop

different feeds from different databases and therefore different source codes may prove necessary.

organization.defaultEvents.filings.informationScope.dnbCode	<p>[integer] e.g.: 43558</p> <p>A unique code assigned by Dun & Bradstreet identifying the source from which the Default Event data was extracted for inclusion in this record. This may identify the D&B or partner company supplying the data, however a country may decide to develop different feeds from different databases and therefore different source codes may prove necessary.</p> <p>Refer to Reference code table "29 [Information Sources]" for all possible values.</p>
organization.defaultEvents.filings.informationScope.description	<p>[string] e.g.: National Information & Credit Evaluation</p> <p>Text identifying the source from which the Default Event data was extracted for inclusion in this record. This may identify the D&B or partner company supplying the data, however a country may decide to develop different feeds from different databases and therefore different source codes may prove necessary.</p>
organization.significantEvents	<p>[object]</p> <p>The details about key events that may affect the entity. This may include such things as natural disasters (e.g., floods, hurricane), accidents (e.g., chemical spillage), major events at the business (e.g., change of control, business interruption, awarded contract), societal events (e.g., war, civil disturbance).</p>
organization.significantEvents.hasSignificantEvents	<p>[boolean] e.g.: false</p> <p>Indicates an event likely to impact the organization including but not limited to strategy, operations, finances or reputation.</p>
organization.significantEvents.hasOperationalEvents	<p>[boolean] e.g.: false</p> <p>Indicates that an organization is changing how it operates or is structured. This may include, but is not limited to, name changes, change in management, change of control and address changes.</p>
organization.significantEvents.hasDisastrousEvents	<p>[boolean] e.g.: false</p> <p>Indicates if special events regarded as disasters (e.g., fire, hurricane) exist in the Dun & Bradstreet database for this subject.</p> <ul style="list-style-type: none">- If true, there are events for this entity.- If false, there are no such events for this entity.- null; when Dun & Bradstreet is not aware of this fact.
organization.significantEvents.hasBurglaryOccurred	<p>[boolean] e.g.: false</p> <p>Indicates if special events related to burglary or theft exist in the Dun & Bradstreet database for this subject.</p> <ul style="list-style-type: none">- If true, there are events for this entity.- If false, there are no such events for this entity.- null; when Dun & Bradstreet is not aware of this fact.

organization.significantEvents.hasFireOccurred	<p>[boolean] e.g.: false Indicates if special events related to fire exist in the Dun & Bradstreet database for this subject.</p> <ul style="list-style-type: none"> - If true, there are events for this entity. - If false, there are no such events for this entity. - null; when Dun & Bradstreet is not aware of this fact.
organization.significantEvents.hasBusinessDiscontinued	<p>[boolean] e.g.: false DO NOT USE. This element is in the process of being deprecated. To determine operating status, check organization.dunsControlStatus.operatingStatus</p>
organization.significantEvents.hasNameChange	<p>[boolean] e.g.: false Indicates if special events related to company name changes exist in the Dun & Bradstreet database for this subject.</p> <ul style="list-style-type: none"> - If true, there are events for this entity. - If false, there are no such events for this entity. - null; when Dun & Bradstreet is not aware of this fact.
organization.significantEvents.hasPartnerChange	<p>[boolean] e.g.: false Indicates if special events related to partner change exist in the Dun & Bradstreet database for this subject.</p> <ul style="list-style-type: none"> - If true, there are events for this entity. - If false, there are no such events for this entity. - null; when Dun & Bradstreet is not aware of this fact.
organization.significantEvents.hasCEOChange	<p>[boolean] e.g.: false Indicates if special events related to senior executive changes exist in the Dun & Bradstreet database for this subject.</p> <ul style="list-style-type: none"> - If true, there are events for this entity. - If false, there are no such events for this entity. - null; when Dun & Bradstreet is not aware of this fact.
organization.significantEvents.hasControlChange	<p>[boolean] e.g.: false Indicates if special events related to change of management control exist in the Dun & Bradstreet database for this subject.</p> <ul style="list-style-type: none"> - If true, there are events for this entity. - If false, there are no such events for this entity. - null; when Dun & Bradstreet is not aware of this fact.
organization.significantEvents.events	<p>[array (object)]</p>

The details about key events that may affect the entity. It covers such things as natural disasters (e.g., floods, hurricane), accidents (e.g., chemical spillage), major events at the business (e.g., change of control, business interruption, awarded contract), and societal events (e.g., war, civil disturbance).

organization.significantEvents.events.address

[object]
The details of the entity's address.

organization.significantEvents.events.address.addressCountry

[object]
The details of the country or region for this address of the organization.

organization.significantEvents.events.address.addressCountry.name

[string] e.g.: United States
The country or region for this address of the organization.

organization.significantEvents.events.address.addressLocality

[object]
The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.

organization.significantEvents.events.address.addressLocality.name

[string] e.g.: SAN FRANCISCO
The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.

organization.significantEvents.events.address.continentalRegion

[object]
The details of the continent for this address of the organization.

organization.significantEvents.events.address.continentalRegion.name

[string] e.g.: North America
The name of the continent for this address of the organization.
Possible values
Africa
Asia Pacific
Europe
Latin America
Middle East
North America

organization.significantEvents.events.address.postalCode

[string] e.g.: 941109999
The postal code for this address of the organization.

Also known locally in various English-speaking countries throughout the world as a postcode, post code, Eircode, PIN or ZIP Code) is a series of letters or digits or both, sometimes including spaces or punctuation, included in a postal address for the purpose of sorting mail. The code is used by the country's postal authority to identify the address where the organization is located or conducts operations .

organization.significantEvents.events.address.streetAddress

[object]
The details of the street address for this address of the organization.

organization.significantEvents.events.address.streetAddress.line1	<p>[string] e.g.: 492 KOLLER ST The first line of the address where the entity is located.</p> <p>The first line of this address of the organization. For example The Point in the address</p> <p>The Point 37 North Wharf Road London W2 1AF</p>
organization.significantEvents.events.address.streetAddress.line2	<p>[string] e.g.: Suite 100 The second line of this address of the organization. For example 37 North Wharf Road in the address</p> <p>The Point 37 North Wharf Road London W2 1AF</p>
organization.significantEvents.events.contactEvents	<p>[array (object)] The details on communications Dun & Bradstreet had with persons to get information on this event.</p>
organization.significantEvents.events.contactEvents.address	<p>[object] The details of the entity's address.</p>
organization.significantEvents.events.contactEvents.address.addressCountry	<p>[object] The details of the country or region for this address of the organization.</p>
organization.significantEvents.events.contactEvents.address.addressCountry.name	<p>[string] e.g.: United States The country or region for this address of the organization.</p>
organization.significantEvents.events.contactEvents.contactDate	<p>[string] e.g.: 2017-11-25 The date when the communication took place.</p>
organization.significantEvents.events.contactEvents.name	<p>[string] e.g.: John Smith The name of the contact which may be either an individual or an entity.</p>
organization.significantEvents.events.contactEvents.nonSpecificSource	<p>[object] The details, in general terms, about the supplier of the Financial Statement.</p>
organization.significantEvents.events.contactEvents.nonSpecificSource.description	<p>[string] e.g.: Trustee Describes the supplier of the Financial Statement (e.g., Official Registry, Accountant, the Subject).</p>
organization.significantEvents.events.contactEvents.nonSpecificSource.dnbCode	<p>[integer] e.g.: 15735 A unique code assigned by Dun & Bradstreet to identify, in general terms, the supplier from which this data was originally obtained by Dun & Bradstreet.</p>

Refer to Reference code table "35 [Role Player Type Non-Specific]" for all possible values.

organization.significantEvents.events.contactEvents.positions	[array (object)] The details on the job position the principal or manager holds or has held in the entity.
organization.significantEvents.events.contactEvents.positions.description	[string] e.g.: Chairman Executive Committee The job position the principal or manager holds or has held in the entity (e.g., Financial Director, Managing Director, Sales Director, Operations Manager).
organization.significantEvents.events.contactEvents.positions.dnbCode	[integer] e.g.: 95 A unique code assigned by Dun & Bradstreet to identify the job position the principal or manager holds or has held in the entity. Refer to Reference code table "5 [Position] & 198 [Employee Position]" for all possible values.
organization.significantEvents.events.contactEvents.positions.positionClass	[object] The details that define the class of the position.
organization.significantEvents.events.contactEvents.positions.positionClass.description	[string] e.g.: Chairman Executive Committee The job position the principal or manager holds or has held in the entity (e.g., Financial Director, Managing Director, Sales Director, Operations Manager).
organization.significantEvents.events.contactEvents.positions.positionClass.dnbCode	[integer] e.g.: 95 A unique code assigned by Dun & Bradstreet to identify the job position the principal or manager holds or has held in the entity. Refer to Reference code table "5 [Position] & 198 [Employee Position]" for all possible values.
organization.significantEvents.events.contactEvents.positions.priority	[integer] e.g.: 1 A number that may be used to define the order in which the Position should be presented relative to any other occurrences of Position where lower the number the earlier the data is presented.
organization.significantEvents.events.contactEvents.positions.startDate	[string] e.g.: 2017-08-23 The date when the principal or manager was appointed to this position. This is not necessarily the date when the principal or manager was first employed by the subject; it is the date when they moved to this position.
organization.significantEvents.events.contactEvents.positionStanding	[object] Details of the capacity or standing in which the individual holds this specific position.
organization.significantEvents.events.contactEvents.positionStanding.description	[string] e.g.: Acting The capacity or standing in which the individual holds this specific position.
organization.significantEvents.events.contactEvents.positionStanding.dnbCode	[integer] e.g.: 336 A unique code assigned by Dun & Bradstreet to identify the capacity in which the position is held. Refer to Reference code table "195 [Position Standing]" for all possible values.

organization.significantEvents.events.contactEvents.results	[array (object)] The details of the outcomes this Legal Event had or is having on the entity.
organization.significantEvents.events.contactEvents.results.result	[object] The details of the outcome this event had or is having on the party involved in the event.
organization.significantEvents.events.contactEvents.results.result.description	[string] e.g.: Settled The outcome this event had or is having on the party involved in the event (e.g., Petition Dismissed, Liquidator Appointed, Counter claim filed by the defendant in a lawsuit).
organization.significantEvents.events.contactEvents.results.result.dnbCode	[integer] e.g.: 11466 A unique code assigned by Dun & Bradstreet that describes the outcome this event had or is having. Refer to Reference code table "86 [Event Result]" for all possible values.
organization.significantEvents.events.contactEvents.results.resultDate	[string] e.g.: 2017-10-30 The date the outcome of the event occurred.
organization.significantEvents.events.contactEvents.rolePlayers	[array (object)] The details of role players involved in a Legal Event as recorded in court papers and identifies the part each one plays.
organization.significantEvents.events.contactEvents.rolePlayers.rolePlayerType	[object] The details of the role player's function in the event.
organization.significantEvents.events.contactEvents.rolePlayers.rolePlayerType.description	[string] e.g.: Shareholder The function played by this party in the event (e.g., debtor, creditor, liquidator, shareholder, court, plaintiff, defendant).
organization.significantEvents.events.contactEvents.rolePlayers.rolePlayerType.dnbCode	[integer] e.g.: 302 A unique code assigned by Dun & Bradstreet to identify the function played by this party in the event. Refer to Reference code table "10 [Role Player Type]" for all possible values.
organization.significantEvents.events.contactEvents.textEntry	[array (object)] The details of data elements regarding the legal event filing which cannot be recorded in the other fields.
organization.significantEvents.events.contactEvents.textEntry.priority	[integer] e.g.: 1 A number that may be used to define the order in which this text entry should be presented relative to other occurrences of text entries where the lower the number the earlier the data is presented.
organization.significantEvents.events.contactEvents.textEntry.text	[string] e.g.: Some text obtained from contact Text that has been recorded.
organization.significantEvents.events.contactEvents.textEntry.typeDescription	[string] e.g.: Legal event Text entry type to qualify the information recorded in the text entries.

organization.significantEvents.events.contactEvents.textEntry.typeDnBCode	[integer] e.g.: 1170 A unique code assigned by Dun & Bradstreet to identify the text entry type. Refer to Reference code table "27 [Information Description]" for all possible values.
organization.significantEvents.events.damagedAssetsClass	[object] The broad class into which the Significant Event is categorized. E.g. natural disaster, societal events, Change in Capital, Change in Principals/Management.
organization.significantEvents.events.damagedAssetsClass.description	[string] e.g.: Change in Control Text that describes the broad class into which the Significant Event is categorized. E.g. natural disaster, societal events, Change in Capital, Change in Principals/Management.
organization.significantEvents.events.damagedAssetsClass.dnbCode	[integer] e.g.: 16974 A unique code assigned by Dun & Bradstreet that describes the broad class into which the Significant Event is categorized. E.g. natural disaster, societal events, Change in Capital, Change in Principals/Management. Refer to Reference code table "389 [Event Class]" for all possible values.
organization.significantEvents.events.dataProvider	[object] The details of the source from which this data was originally obtained by Dun & Bradstreet.
organization.significantEvents.events.dataProvider.description	[string] e.g.: US Internal Revenue Service Text identifying the source from which the Latest Financials data was originally obtained.
organization.significantEvents.events.dataProvider.dnbCode	[integer] e.g.: 32474 A unique code assigned by Dun & Bradstreet to identify the source of the data. Refer to Reference code table "29 [Data Provider]" for all possible values.
organization.significantEvents.events.eventClass	[object] The details of the broad class into which the Significant Event is categorized.
organization.significantEvents.events.eventClass.description	[string] e.g.: Natural disaster The broad class into which the Significant Event is categorized (e.g. natural disaster, societal events, Change in Capital).
organization.significantEvents.events.eventClass.dnbCode	[integer] e.g.: 15375 A unique code assigned by Dun & Bradstreet that describes the broad class into which the Significant Event is categorized. Refer to Reference code table "389 [Event Class]" for all possible values.
organization.significantEvents.events.eventDate	[string] e.g.: 2015-10-25 The date when the event took place.
organization.significantEvents.events.eventType	[object] The details of the type of event.

organization.significantEvents.events.eventType.description	[string] e.g.: flood The type of significant event (e.g., fire, flood, industrial action, failure of major customer).
organization.significantEvents.events.eventType.dnbCode	[integer] e.g.: 4074 A unique code assigned by Dun & Bradstreet to identify the type of significant event. Refer to Reference code table "118 [Event Type]" for all possible values.
organization.significantEvents.events.impactAmount	[object] The details of the monetary value of the effect of the event.
organization.significantEvents.events.impactAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.significantEvents.events.impactAmount.value	[number] e.g.: 545623 The monetary value of the effect of the event.
organization.significantEvents.events.impactDetails	[array (object)] The details of the impacts caused by the Significant Event.
organization.significantEvents.events.impactDetails.impactCessationDate	[string] e.g.: 2019-07-15 The date when the effect described by Impact Code is expected to end. For example, if the impact is "ceased trading" and there is a date recorded, this would imply that the subject is expecting to commence trading on this date.
organization.significantEvents.events.impactDetails.impactScope	[object] The details of the extent the impact on the entity For example, if the Impact Code denotes "property destroyed" and the Impact Scope indicates "partial", this means that there was partial destruction to the property of the entity.
organization.significantEvents.events.impactDetails.impactScope.description	[string] e.g.: Partial The extent of the impact on the entity.
organization.significantEvents.events.impactDetails.impactScope.dnbCode	[integer] e.g.: 3765 A unique code assigned by Dun & Bradstreet to identify the impact scope. Refer to Reference code table "116 [Event Impact Scope]" for all possible values.
organization.significantEvents.events.impactDetails.impactType	[object] The details of an effect the event has had on the entity (e.g. production lost, temporarily ceased trading).
organization.significantEvents.events.impactDetails.impactType.description	[string] e.g.: destroyed inventory The effect the event has had on the entity (e.g. production lost, temporarily ceased trading).
organization.significantEvents.events.impactDetails.impactType.dnbCode	[integer] e.g.: 10212

e.dnbCode	A unique code assigned by Dun & Bradstreet to identify the effect the event has had on the entity. Refer to Reference code table "94 [Event Impact Type]" for all possible values.
organization.significantEvents.events.impactChildren	[array (object)] The details of any child locations impacted by the event.
organization.significantEvents.events.impactChildren.address	[object] The details of the Primary Address at which the organization is located or conducts operations.
organization.significantEvents.events.impactChildren.address.addressCountry	[object] The details of the country or region for this address of the organization.
organization.significantEvents.events.impactChildren.address.addressCountry.isoAlpha2Code	[string] e.g.: US The 2 letter alpha country code assigned by the International Organization for Standardization (ISO) identifying the Country/Region for this address of the organization. Note: Please refer to Country Code Substitutions Table [/html/resources/CountryCodes.html#country-substitute] for the country code substitutions.
organization.significantEvents.events.impactChildren.address.addressCountry.name	[string] e.g.: United States The country or region for this address of the organization.
organization.significantEvents.events.impactChildren.address.addressLocality	[object] The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.
organization.significantEvents.events.impactChildren.address.addressLocality.name	[string] e.g.: SAN FRANCISCO The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.
organization.significantEvents.events.impactChildren.address.continentalRegion	[object] The details of the continent for this address of the organization.
organization.significantEvents.events.impactChildren.address.continentalRegion.name	[string] e.g.: North America The name of the continent for this address of the organization. Possible values Africa Asia Pacific Europe Latin America Middle East North America
organization.significantEvents.events.impactChildren.address.postalCode	[string] e.g.: 941109999 The postal code for this address of the organization.

Also known locally in various English-speaking countries throughout the world as a postcode, post code, Eircode, PIN or ZIP Code) is a series of letters or digits or both, sometimes including spaces or punctuation, included in a postal address for the purpose of sorting mail. The code is used by the country's postal authority to identify the address where the organization is located or conducts operations .

organization.significantEvents.events.impactChildren.address.streetAddress

[object]
The details of the street address for this address of the organization.

organization.significantEvents.events.impactChildren.address.streetAddress.line1

[string] e.g.: 492 KOLLER ST
The first line of the address where the entity is located.

The first line of this address of the organization. For example The Point in the address

The Point
37 North Wharf Road
London
W2 1AF

organization.significantEvents.events.impactChildren.address.streetAddress.line2

[string] e.g.: Suite 100
The second line of this address of the organization.
For example 37 North Wharf Road in the address
The Point
37 North Wharf Road
London
W2 1AF

organization.significantEvents.events.impactChildren.familyTreeRolesPlayed

[array (object)]
The details of the roles the entity plays as a member of an ownership structured family tree.

organization.significantEvents.events.impactChildren.familyTreeRolesPlayed.description

[string] e.g.: Parent/Headquarters
The role the entity plays as a member of an ownership structured family tree (e.g., a branch, division, a parent, headquarters, subsidiary, global ultimate, domestic ultimate).

organization.significantEvents.events.impactChildren.familyTreeRolesPlayed.dnbCode

[integer] e.g.: 9141
A unique code assigned by Dun & Bradstreet to identify describing family tree role.
Refer to Reference code table "202 [Family Tree Role]" for all possible values.

organization.significantEvents.events.impactChildren.name

[string] e.g.: Gorman Manufacturing Co.
The primary name of the company.

organization.significantEvents.events.impactPremisesType

[array (object)]
The details of the type of facilities affected by this event.

organization.significantEvents.events.impactPremisesType.

[string] e.g.: Individual

description	The type of facility affected by this event.
organization.significantEvents.events.impactedPremisesType.dnbCode	[integer] e.g.: 119 A unique code assigned by Dun & Bradstreet to identify the type of facility affected by the event. Refer to Reference code table "44 [Premises Type]" for all possible values.
organization.significantEvents.events.insuranceClaimSettlementAmount	[object] The details of the amount compensated to the entity by the insurance company for loss or damage in the event.
organization.significantEvents.events.insuranceClaimSettlementAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.significantEvents.events.insuranceClaimSettlementAmount.value	[number] e.g.: 345765 The amount compensated to the entity by the insurance company for loss or damage of property in the event.
organization.significantEvents.events.publishedDate	[string] e.g.: 2011-02-14 The date to support the recording of the Publication Date for an official document registered with an Official Body.
organization.significantEvents.events.rolePlayers	[array (object)] The details of role players involved in a Legal Event as recorded in court papers and identifies the part each one plays.
organization.significantEvents.events.rolePlayers.address	[object] The details of the entity's address.
organization.significantEvents.events.rolePlayers.address.addressCountry	[object] The details of the country or region for this address of the organization.
organization.significantEvents.events.rolePlayers.address.addressCountry.name	[string] e.g.: United States The country or region for this address of the organization.
organization.significantEvents.events.rolePlayers.employerName	[string] e.g.: Dun & Bradstreet The name of the subject that employs the party involved in this event.
organization.significantEvents.events.rolePlayers.filingAmount	[object] The details of the monetary value associated with a court action for this party involved in the event.
organization.significantEvents.events.rolePlayers.filingAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed

(e.g., USD, CAD, GBP, EUR).

organization.significantEvents.events.rolePlayers.filingAmount.value	[number] e.g.: 100000 The monetary value associated with a court action for this party involved in the event.
organization.significantEvents.events.rolePlayers.filingResults	[array (object)] The details of the outcomes this Legal Event had or is having on the entity.
organization.significantEvents.events.rolePlayers.filingResults.description	[string] e.g.: Settled The outcome this event had or is having on the party involved in the event (e.g., Petition Dismissed, Liquidator Appointed, Counter claim filed by the defendant in a lawsuit).
organization.significantEvents.events.rolePlayers.filingResults.dnbCode	[integer] e.g.: 11466 A unique code assigned by Dun & Bradstreet that describes the outcome this event had or is having. Refer to Reference code table "86 [Event Result]" for all possible values.
organization.significantEvents.events.rolePlayers.name	[string] e.g.: Some Vendor The name of the party involved in this event as it was filed.
organization.significantEvents.events.rolePlayers.positions	[array (object)] The details of the job positions the role player holds or has held in the entity.
organization.significantEvents.events.rolePlayers.positions.position	[object] The details of the job positions the role player holds or has held in the entity.
organization.significantEvents.events.rolePlayers.positions.position.description	[string] e.g.: Sales consultant The job position the role player holds or has held in the organization (e.g., Financial Director, Sales Director, Operations Manager).
organization.significantEvents.events.rolePlayers.positions.position.dnbCode	[integer] e.g.: 28802 A unique code assigned by Dun & Bradstreet that denotes the job position the role player holds or has held in the entity. Refer to Reference code table "5 [Position] & 198 [Employee Position]" for all possible values.
organization.significantEvents.events.rolePlayers.positions.positionStanding	[object] Details of the capacity or standing in which the individual holds this specific position.
organization.significantEvents.events.rolePlayers.positions.positionStanding.description	[string] e.g.: Acting The capacity or standing in which the individual holds this specific position.
organization.significantEvents.events.rolePlayers.positions.positionStanding.dnbCode	[integer] e.g.: 336 A unique code assigned by Dun & Bradstreet to identify the capacity in which the position is held. Refer to Reference code table "195 [Position Standing]" for all possible values.
organization.significantEvents.events.rolePlayers.positions.sta	[string] e.g.: 2017-08-23

rtDate	The date when the principal or manager was appointed to this position. This is not necessarily the date when the principal or manager was first employed by the subject; it is the date when they moved to this position.
organization.significantEvents.events.rolePlayers.rolePlayerType	[object] The details of the role player's function in the event.
organization.significantEvents.events.rolePlayers.rolePlayerType.description	[string] e.g.: Shareholder The function played by this party in the event (e.g., debtor, creditor, liquidator, shareholder, court, plaintiff, defendant).
organization.significantEvents.events.rolePlayers.rolePlayerType.dnbCode	[integer] e.g.: 302 A unique code assigned by Dun & Bradstreet to identify the function played by this party in the event. Refer to Reference code table "10 [Role Player Type]" for all possible values.
organization.significantEvents.events.startDate	[string] e.g.: 2019-07-15 A date on or before which the event took place.
organization.significantEvents.events.textEntry	[array (object)] The details of data elements regarding the legal event filing which cannot be recorded in the other fields.
organization.significantEvents.events.textEntry.priority	[integer] e.g.: 1 A number that may be used to define the order in which this text entry should be presented relative to other occurrences of text entries where the lower the number the earlier the data is presented.
organization.significantEvents.events.textEntry.text	[string] e.g.: Some text obtained from contact Text that has been recorded.
organization.significantEvents.events.textEntry.typeDescription	[string] e.g.: Legal event Text entry type to qualify the information recorded in the text entries.
organization.significantEvents.events.textEntry.typeDnbCode	[integer] e.g.: 1170 A unique code assigned by Dun & Bradstreet to identify the text entry type. Refer to Reference code table "27 [Information Description]" for all possible values.
organization.awards	[object] Records information about the data on government contracts, contract vehicles, grants, loans, and other types of awards issued by the federal government.
organization.awards.hasContracts	[boolean] e.g.: true Indicates if there are any contracts awarded to the subject, as per the information received by Dun & Bradstreet. - if true; contracts have been awarded

- if false; contracts are not available.

organization.awards.hasLoans

[boolean] e.g.: true

Indicates if there are any loans awarded to the subject, as per the information received by Dun & Bradstreet.

- if true; loans have been awarded
- if false; loans are not available.

organization.awards.hasDebts

[boolean] e.g.: true

Indicates if there are any debts associated with the subject, as per the information received by Dun & Bradstreet.

- if true; debts are recorded
- if false; debts are not recorded

organization.awards.hasGrants

[boolean] e.g.: true

Indicates if there are any grants awarded to the subject, as per the information received by Dun & Bradstreet.

- if true; grants have been awarded
- if false; grants are not available.

organization.awards.hasOpenContracts

[boolean] e.g.: true

Indicates if there are any open contracts awarded to the subject, as per the information received by Dun & Bradstreet.

- if true; open contracts have been awarded
- if false; open contracts are not available.

organization.awards.hasOpenLoans

[boolean] e.g.: true

Indicates if there are any open loans awarded to the subject, as per the information received by Dun & Bradstreet.

- if true; open loans have been awarded
- if false; open loans are not available.

organization.awards.hasOpenDebts

[boolean] e.g.: true

Indicates if there are any open debts associated with the subject, as per the information received by Dun & Bradstreet.

- if true; open debts are recorded
- if false; open debts are not recorded

organization.awards.hasOpenGrants	<p>[boolean] e.g.: true Indicates if there are any open grants awarded to the subject, as per the information received by Dun & Bradstreet.</p> <p>- if true; open grants have been awarded - if false; open grants are not available.</p>
organization.awards.obligatedContractsAmount	<p>[object] Records the sum of monetary amounts contained in a contract that this party agreed to when they signed and are now legally obligated to pay.</p>
organization.awards.obligatedContractsAmount.value	<p>[number] e.g.: 250000 The sum of monetary amounts contained in a contract that this party agreed to when they signed and are now legally obligated to pay.</p>
organization.awards.currentContractsAmount	<p>[object] Records the sum of monetary figures about the changes (from this transaction only) to the current contract value (i.e., the base contract and any options that have been exercised).</p>
organization.awards.currentContractsAmount.value	<p>[number] e.g.: 250000 The sum of monetary figures about the changes (from this transaction only) to the current contract value (i.e., the base contract and any options that have been exercised).</p>
organization.awards.totalOpenContractsCount	<p>[integer] e.g.: 12 The number of open contracts awarded to the subject.</p>
organization.awards.totalOpenContractsAmount	<p>[object] Records the monetary amount of open contracts awarded to the subject.</p>
organization.awards.totalOpenContractsAmount.value	<p>[number] e.g.: 250500.5 The monetary value of the open contracts.</p>
organization.awards.totalContractsAmount	<p>[object] Records the sum of changes (from this transaction only) to the potential contract value (i.e., the base contract and any exercised or unexercised options).</p>
organization.awards.totalContractsAmount.value	<p>[number] e.g.: 250000 The monetary sum of changes (from this transaction only) to the potential contract value (i.e., the base contract and any exercised or unexercised options).</p>
organization.awards.totalOpenLoansCount	<p>[integer] e.g.: 12 The number of open loans awarded to the subject.</p>
organization.awards.totalOpenLoansAmount	<p>[object] Records the monetary amount of open loans awarded to the subject.</p>

organization.awards.totalOpenLoansAmount.value	[number] e.g.: 250500.5 The monetary value of the open loans.
organization.awards.totalOriginalSubsidyLoansAmount	[object] Records the sum of estimated long-term total costs to the Government of a direct loan or loan guarantee, or modification thereof, calculated on a net present value basis, excluding administrative costs.
organization.awards.totalOriginalSubsidyLoansAmount.value	[number] e.g.: 250000 The monetary sum of estimated long-term total costs to the Government of a direct loan or loan guarantee, or modification thereof, calculated on a net present value basis, excluding administrative costs.
organization.awards.totalFaceValueLoansAmount	[object] Records the sum of monetary figures specifying the total face value of the direct loan or loan guarantee.
organization.awards.totalFaceValueLoansAmount.value	[number] e.g.: 250000 The sum of monetary figures specifying the total face value of the direct loan or loan guarantee.
organization.awards.totalOpenDebtsCount	[integer] e.g.: 12 The number of open debts associated with the subject.
organization.awards.totalOpenDebtsAmount	[object] Records the monetary amount of open debts associated with the subject.
organization.awards.totalOpenDebtsAmount.value	[number] e.g.: 250500.5 The monetary value of the open debts associated with the subject.
organization.awards.totalOpenGrantsCount	[integer] e.g.: 12 The number of open grants awarded to the subject.
organization.awards.totalOpenGrantsAmount	[object] Records the monetary amount of open grants awarded to the subject.
organization.awards.totalOpenGrantsAmount.value	[number] e.g.: 250500.5 The monetary value of the open grants.
organization.awards.nonFederalFundingGrantsAmount	[object] Records the sum total amount of the awards funded by non-Federal source(s), in dollars. Program Income (as defined in 2 CFR § 200.80) is not included until such time that Program Income is generated and credited to the agreement.
organization.awards.nonFederalFundingGrantsAmount.value	[number] e.g.: 250000 The monetary sum total amount of the awards funded by non-Federal source(s), in dollars. Program Income (as defined in 2 CFR § 200.80) is not included until such time that Program Income is generated and credited to the agreement.

organization.awards.totalFundingGrantsAmount	[object] Records the sum of monetary figures specifying the Federal government's and non-Federal source(s) obligation, deobligation, or liability for an award transaction.
organization.awards.totalFundingGrantsAmount.value	[number] e.g.: 250000 The sum of monetary figures specifying the Federal government's and non-Federal source(s) obligation, deobligation, or liability for an award transaction.
organization.awards.obligatedGrantsAmount	[object] Records the sum of monetary figures specifying the Federal government's obligation, deobligation, or liability for an award transaction.
organization.awards.obligatedGrantsAmount.value	[number] e.g.: 250000 The sum of monetary figures specifying the Federal government's obligation, deobligation, or liability for an award transaction.
organization.awards.mostRecentContractDate	[string] e.g.: 2019-08-23 The date when the latest contract was recorded.
organization.awards.mostRecentLoanDate	[string] e.g.: 2019-08-23 The date when the latest loan was recorded.
organization.awards.mostRecentDebtDate	[string] e.g.: 2019-08-23 The date when the latest debt was recorded.
organization.awards.mostRecentGrantDate	[string] e.g.: 2019-08-23 The date when the latest grant was recorded.
organization.awards.contracts	[array (object)] Records information about the written agreements made between the Federal government and one or more role players participating in a financing event; e.g., lease, sale, rental, refinancing. It is the amount of money that the U.S. federal government owes to its creditors.
organization.awards.contracts.awardID	[string] e.g.: asst_non_w912 The unique key for the award.
organization.awards.contracts.assistanceType	[object] Records the kind of assistance provided by the award.
organization.awards.contracts.assistanceType.code	[string] e.g.: 08 A code which specifies the type of assistance provided by the award, e.g., DIRECT LOAN (E), PROJECT GRANT (B), DIRECT PAYMENT FOR SPECIFIED USE, AS A SUBSIDY OR OTHER NON-REIMBURSABLE DIRECT FINANCIAL AID (C).
organization.awards.contracts.assistanceType.description	[string] e.g.: GUARANTEED/INSURED LOAN (F)

The text specifying the description of the kind of assistance provided by the award.

organization.awards.contracts.awardingAgency	[object] Records the name associated with a department or establishment of the Government as used in the Treasury Account Fund Symbol (TAFS).
organization.awards.contracts.awardingAgency.code	[string] e.g.: 086 A code of the department or establishment of the Government as used in the Treasury Account Fund Symbol (TAFS).
organization.awards.contracts.awardingAgency.description	[string] e.g.: department of housing and urban development (hud) The text specifying the name associated with a department or establishment of the Government as used in the Treasury Account Fund Symbol (TAFS).
organization.awards.contracts.awardingSubAgency	[object] Records the name of the name of the level 2 organization that provided the preponderance of the funds obligated.
organization.awards.contracts.awardingSubAgency.code	[string] e.g.: 4732 Identifier of the level 2 organization that provided the preponderance of the funds obligated by this transaction.
organization.awards.contracts.awardingSubAgency.description	[string] e.g.: FEDERAL ACQUISITION SERVICE The text specifying the name of the name of the level 2 organization that provided the preponderance of the funds obligated.
organization.awards.contracts.awardingOffice	[object] Records the name of the level and organization that provided the preponderance of the funds obligated.
organization.awards.contracts.awardingOffice.code	[string] e.g.: 47QSEA Identifier of the level and organization that provided the preponderance of the funds obligated.
organization.awards.contracts.awardingOffice.description	[string] e.g.: GSA/FAS ADMIN SVCS ACQUISITION BR(2) The text specifying the name of the level and organization that provided the preponderance of the funds obligated.
organization.awards.contracts.fundingAgency	[object] Records the name of the department or establishment of the Government that provided the preponderance of the funds for an award and/or individual transactions related to an award.
organization.awards.contracts.fundingAgency.code	[string] e.g.: 047 The 3-digit CGAC agency code of the department or establishment of the Government that provided the preponderance of the funds for an award and/or individual transactions related to an award.
organization.awards.contracts.fundingAgency.description	[string] e.g.: GENEGENERAL SERVICES ADMINISTRATION (GSA)

	The text specifying the name of the department or establishment of the Government that provided the preponderance of the funds for an award and/or individual transactions related to an award.
organization.awards.contracts.fundingSubAgency	[object] Records the name of the name of the level 2 organization that provided the preponderance of the funds obligated.
organization.awards.contracts.fundingSubAgency.code	[string] e.g.: 4732 Identifier of the level 2 organization that provided the preponderance of the funds obligated by this transaction.
organization.awards.contracts.fundingSubAgency.description	[string] e.g.: FEDERAL ACQUISITION SERVICE The text specifying the name of the name of the level 2 organization that provided the preponderance of the funds obligated.
organization.awards.contracts.fundingOffice	[object] Records the name of the level and organization that provided the preponderance of the funds obligated.
organization.awards.contracts.fundingOffice.code	[string] e.g.: 47QSEA Identifier of the level and organization that provided the preponderance of the funds obligated.
organization.awards.contracts.fundingOffice.description	[string] e.g.: GSA/FAS ADMIN SVCS ACQUISITION BR(2) The text specifying the name of the level and organization that provided the preponderance of the funds obligated.
organization.awards.contracts.businessFunding	[object] Records the award's applicability to the recovery act. The text specifying the description tag (by way of the DATA Act Broker) that explains the meaning of the code provided in the business fund code.
organization.awards.contracts.businessFunding.code	[string] e.g.: NON A code describes the award's applicability to the recovery act.
organization.awards.contracts.businessFunding.description	[string] e.g.: NOT RECOVERY ACT The Text describes the award's applicability to the recovery act. The text specifying the description tag (by way of the DATA Act Broker) that explains the meaning of the code provided in the business fund code.
organization.awards.contracts.businessType	[object] Records the business area.
organization.awards.contracts.businessType.code	[string] e.g.: q A code which specifies the business areas. e.g., PRIVATE INSTITUTION OF HIGHER EDUCATION, FOR-PROFIT ORGANIZATION (OTHER THAN SMALL BUSINESS), INDEPENDENT SCHOOL DISTRICT, COUNTY GOVERNMENT etc.
organization.awards.contracts.businessType.description	[string] e.g.: FOR-PROFIT ORGANIZATION (OTHER THAN SMALL BUSINESS)

	The text specifying the business area.
organization.awards.contracts.cfdaNumber	[number] e.g.: 93.361 The number assigned to a federal area of work in the Catalog of Federal Domestic Assistance (CFDA).
organization.awards.contracts.cfdaTitle	[string] e.g.: mortgage insurance homes The Text describes the title of the area of work under which the federal award was funded in the Catalog of Federal Domestic Assistance (CFDA).
organization.awards.contracts.fainID	[string] e.g.: fain123XAB The Text describes the Federal Award Identification Number (FAIN). Represents the unique id within the federal agency for each (nonaggregate) financial assistance award.
organization.awards.contracts.awardModificationNumber	[string] e.g.: P00005 The identifier of an action being reported that indicates the specific subsequent change to the initial award.
organization.awards.contracts.stateApplicationID	[string] e.g.: SAI EXEMPT A number assigned by state (as opposed to federal) review agencies to the award during the grant application process. This is also referred as SAI Number.
organization.awards.contracts.totalNonFederalFundingAmount	[object] Records the total amount of the award funded by non-Federal source(s), in dollars. Program Income (as defined in 2 CFR § 200.80) is not included until such time that Program Income is generated and credited to the agreement.
organization.awards.contracts.totalNonFederalFundingAmount.value	[number] e.g.: 2500000 The total amount of the award funded by non-Federal source(s), in dollars. Program Income (as defined in 2 CFR § 200.80) is not included until such time that Program Income is generated and credited to the agreement.
organization.awards.contracts.totalNonFederalFundingAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.awards.contracts.totalFundingAmount	[object] Records the sum of the Federal Funding Amount and the Non-Federal Funding Amount.
organization.awards.contracts.totalFundingAmount.value	[number] e.g.: 2500000 The sum of the Federal Funding Amount and the Non-Federal Funding Amount.
organization.awards.contracts.totalFundingAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).

organization.awards.contracts.totalFaceValueLoanAmount	[object] Records the monetary figure specifying the total face value of the direct loan or loan guarantee.
organization.awards.contracts.totalFaceValueLoanAmount.value	[number] e.g.: 2500000 The monetary figure in US Dollars, specifying the total face value of the direct loan or loan guarantee.
organization.awards.contracts.totalFaceValueLoanAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.awards.contracts.totalOriginalLoanSubsidyAmount	[object] Records the estimated long-term total cost to the Government of a direct loan or loan guarantee, or modification thereof, calculated on a net present value basis, excluding administrative costs.
organization.awards.contracts.totalOriginalLoanSubsidyAmount.value	[number] e.g.: 2500000 The estimated long-term total cost to the Government of a direct loan or loan guarantee, or modification thereof, calculated on a net present value basis, excluding administrative costs.
organization.awards.contracts.totalOriginalLoanSubsidyAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.awards.contracts.fundingTreasuryAccountNumber	[string] e.g.: 047-X-4534-001 The account number of the treasury funding this award.
organization.awards.contracts.fundingFederalAccountNumber	[string] e.g.: 047-4534 The account number of the federal funding this award.
organization.awards.contracts.awardDescription	[string] e.g.: BATTERIES,ALKALINE,AAA,12/PK A brief description of the purpose of the award.
organization.awards.contracts.usaSpendingURL	[string] e.g.: https://www.usaspending.gov/#/award/CONT_AWD_47QSCC20F1Y47_4732_GS23FGA026_4732/ A Web Page Address is a telecommunication address used by a USA Spending for this award. This can be the address of a computer or a document on the Internet that consists of the identifier of a computer, using a host name or Internet Protocol (IP) address (as www.dnb.com), and optionally an explicit file location. The communications protocol followed by a colon and two slashes (http://) is not included in the Web Page address.
organization.awards.contracts.usaSpendingURLModificationDate	[string] e.g.: 2020-09-18 The date when this award information was last updated in the USA Spending web page.
organization.awards.contracts.transactions	[array (object)]

	Award Transaction entity records information about the data on each financial assistance transaction record and facilitate record lookup, correction, and deletion.
organization.awards.contracts.transactions.uniqueKey	[string] e.g.: 3600_-NONE-_36C24919D0057_P00002_-NONE-_NONE- System-generated database key used to uniquely identify each financial assistance transaction record and facilitate record lookup, correction, and deletion. A concatenation of AwardModificationAmendmentNumber, AwardingSubTierAgencyCode, FAIN, and URI with a single underscore ('_') character inserted in between each. If a field is blank, it is recorded as "- none-".
organization.awards.contracts.recipients	[array (object)] Award Recipient entity records information regarding the legal entity which receives the award/assistance from the government.
organization.awards.contracts.recipients.name	[string] e.g.: BUSINESS COUNCIL FOR INTERNATIONAL UNDERSTANDING, INC., THE The name of the awardee or recipient that relates to the unique identifier. For U.S. based companies, this name is what the business ordinarily files in formation documents with individual states (when required).
organization.awards.contracts.recipients.tradeStyleName	[string] e.g.: CBRE HEERY The name of the awardee or recipient that relates to the unique identifier. For U.S. based companies, this name is what the business ordinarily files in formation documents with individual states (when required).
organization.awards.contracts.recipients.duns	[string] e.g.: 804735132 The D-U-N-S® Number, a proprietary organizational identifier owned and managed by Dun & Bradstreet Inc, provides unique identification of a subject organization, in accordance with the Data Universal Numbering System (D-U-N-S®).
organization.awards.contracts.recipients.cageCode	[string] e.g.: CAGE123 A Code describes Commercial And Government Entity Code of the contractor. Used as a key to SAM. Maps to the DUNS.
organization.awards.contracts.recipients.telephone	[array (object)] The details of the Telephone contact information used for voice communication with the organization.
organization.awards.contracts.recipients.telephone.telephone Number	[string] e.g.: 65055550000 The primary voice telephone number for the business, when dialing domestically. The National Telephone Number is created by combining the Domestic Area Code and the Local Number. A Domestic Area Code is a series of numbers that must be prefixed before dialing a telephone number in another local area. National telecommunication authorities use various formats and dialing rules for area codes. Also known as City Code. A Local Number is a series of numbers that represents a specific telephone line.
organization.awards.contracts.recipients.fax	[array (object)] The details of the facsimile information used for data communication with the entity.

organization.awards.contracts.recipients.fax.faxNumber	[string] e.g.: 6505550001 A sequence of digits used for facsimile communication with the entity. This sequence of digits includes the area code or city code and domestic dialing code.
organization.awards.contracts.recipients.address	[object] The details of the Primary Address at which the organization is located or conducts operations.
organization.awards.contracts.recipients.address.addressCountry	[object] The details of the country or region for this address of the organization.
organization.awards.contracts.recipients.address.addressCountry.name	[string] e.g.: United States The country or region for this address of the organization.
organization.awards.contracts.recipients.address.addressCountry.isoAlpha3Code	[string] e.g.: USA Code for the country in which the awardee or recipient is located, using the International Standard for country codes (ISO) 3166-1 Alpha-3 GENC Profile, minus the codes listed for those territories and possessions of the United States already identified as “states.”
organization.awards.contracts.recipients.address.continentalRegion	[object] The details of the continent for this address of the organization.
organization.awards.contracts.recipients.address.continentalRegion.name	[string] e.g.: North America The name of the continent for this address of the organization. Possible values Africa Asia Pacific Europe Latin America Middle East North America
organization.awards.contracts.recipients.address.addressCounty	[object] The details of the geographical area of a Country or Region for this address of the organization. Countries divide their geography into smaller sub divisions. County is an example of a commonly used subdivision. Often found in UK.
organization.awards.contracts.recipients.address.addressCounty.name	[string] e.g.: SAN MATEO The name of the geographical area of a Country or Region for this address of the organization. Countries subdivide their geography into smaller sub divisions. County is an example of a commonly used subdivision, often found in the UK.
organization.awards.contracts.recipients.address.addressCounty.code	[integer] e.g.: 3 Three-position numeric code for county from International Committee for Information Technology

Standards (ANSI INCITS) county codes.

organization.awards.contracts.recipients.address.addressLocality	<p>[object]</p> <p>The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.</p>
organization.awards.contracts.recipients.address.addressLocality.name	<p>[string] e.g.: SAN FRANCISCO</p> <p>The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.</p>
organization.awards.contracts.recipients.address.addressRegion	<p>[object]</p> <p>The name of the geographical area for this address of the organization. For Example New Jersey.</p>
organization.awards.contracts.recipients.address.addressRegion.name	<p>[string] e.g.: California</p> <p>The name of the geographical area for this address of the organization. For Example New Jersey.</p>
organization.awards.contracts.recipients.address.addressRegion.abbreviatedName	<p>[string] e.g.: NJ</p> <p>The shortened name of the geographical area for this address of the organization. For example NJ for the US State New Jersey within Country United States.</p>
organization.awards.contracts.recipients.address.postalCode	<p>[string] e.g.: 941109999</p> <p>The postal code for this address of the organization.</p> <p>Also known locally in various English-speaking countries throughout the world as a postcode, post code, Eircode, PIN or ZIP Code) is a series of letters or digits or both, sometimes including spaces or punctuation, included in a postal address for the purpose of sorting mail. The code is used by the country's postal authority to identify the address where the organization is located or conducts operations .</p>
organization.awards.contracts.recipients.address.postalCodeExtension	<p>[string] e.g.: 9999</p> <p>An extension to the postal code that identifies a street or building within the geographic area covered by the Postal Code.</p>
organization.awards.contracts.recipients.address.streetAddress	<p>[object]</p> <p>The details of the street address for this address of the organization.</p>
organization.awards.contracts.recipients.address.streetAddress.line1	<p>[string] e.g.: 492 KOLLER ST</p> <p>The first line of the address where the entity is located.</p> <p>The first line of this address of the organization. For example The Point in the address</p> <p>The Point 37 North Wharf Road London W2 1AF</p>

organization.awards.contracts.recipients.address.streetAddress.line2	[string] e.g.: Suite 100 The second line of this address of the organization. For example 37 North Wharf Road in the address The Point 37 North Wharf Road London W2 1AF
organization.awards.contracts.recipients.address.congressionalDistrict	[string] e.g.: 02 The territorial subdivision for holding a separate election for one or more seats in a legislative body to which this address belongs.
organization.awards.contracts.recipients.businessEntityTypeDescription	[string] e.g.: 19PCRD18KK924 Text that describes the structure of the entity as defined by the IRS.
organization.awards.contracts.recipients.smallBusinessType	[object] Records the contracting officer's determination of whether the selected contractor meets the small business size standard for award to a small business for the NAICS code that is applicable to the contract.
organization.awards.contracts.recipients.smallBusinessType.code	[string] e.g.: O A code describes the contracting officer's determination of whether the selected contractor meets the small business size standard for award to a small business for the NAICS code that is applicable to the contract.
organization.awards.contracts.recipients.smallBusinessType.description	[string] e.g.: OTHER THAN SMALL BUSINESS Text describes the contracting officer's determination of whether the selected contractor meets the small business size standard for award to a small business for the NAICS code that is applicable to the contract.
organization.awards.contracts.recipients.parent	[object] The details of the organization that owns more than 50% of the subject organization.
organization.awards.contracts.recipients.parent.name	[string] e.g.: ABC Corp. The name of the ultimate parent of the awardee or recipient. Currently the name is from the global parent DUNS® number.
organization.awards.contracts.recipients.parent.duns	[string] e.g.: 804735132 The D-U-N-S® number of the organization that owns more than 50% of the subject organization.
organization.awards.contracts.recipients.highlyCompensatedOfficers	[array (object)] Records information about the details of individuals identified as one of the five most highly compensated "Executives." "Executive" means officers, managing partners, or any other employees in the sub-awardee's management positions.
organization.awards.contracts.recipients.highlyCompensatedOfficers.name	[string] e.g.: NANCY KIPPER The name of an individual identified as one of the five most highly compensated "Executives." "Executive" means officers, managing partners, or any other employees in the sub-awardee's management positions.

organization.awards.contracts.recipients.highlyCompensatedOfficers.totalCompensationAmount	[object] Records the cash and noncash dollar value earned by the one of the five most highly compensated “Executives” during the sub-awardee’s preceding fiscal year and includes the following (for more information see 17 CFR 229.402c2): salary and bonuses, awards of stock, stock options, and stock appreciation rights, earnings for services under non-equity incentive plans, change in pension value, above market earnings on deferred compensation which is not tax qualified, and other compensation.
organization.awards.contracts.recipients.highlyCompensatedOfficers.totalCompensationAmount.value	[number] e.g.: 250000 The cash and noncash US dollar value earned by the one of the five most highly compensated “Executives” during the sub-awardee’s preceding fiscal year and includes the following (for more information see 17 CFR 229.402c2): salary and bonuses, awards of stock, stock options, and stock appreciation rights, earnings for services under non-equity incentive plans, change in pension value, above market earnings on deferred compensation which is not tax qualified, and other compensation.
organization.awards.contracts.recipients.highlyCompensatedOfficers.sequence	[integer] e.g.: 1 The number which specifies the Highly Compensated Officer,e.g., 1, 2 3 etc.
organization.awards.contracts.performanceLocations	[array (object)] Records information about the principal place of performance for the activity supported by the award.
organization.awards.contracts.performanceLocations.location	[object] Records where the predominant performance of the award will be accomplished.
organization.awards.contracts.performanceLocations.location.code	[string] e.g.: 003 A code indicating where the predominant performance of the award will be accomplished.
organization.awards.contracts.performanceLocations.location.description	[string] e.g.: Location1 For foreign places of performance: identify where the predominant performance of the award will be accomplished, describing it as specifically, as possible.
organization.awards.contracts.performanceLocations.address	[object] The details of the Primary Address at which the organization is located or conducts operations.
organization.awards.contracts.performanceLocations.address.addressCountry	[object] The details of the country or region for this address of the organization.
organization.awards.contracts.performanceLocations.address.addressCountry.name	[string] e.g.: United States The country or region for this address of the organization.
organization.awards.contracts.performanceLocations.address.addressCountry.isoAlpha3Code	[string] e.g.: USA Code for the country in which the awardee or recipient is located, using the International Standard for country codes (ISO) 3166-1 Alpha-3 GENC Profile, minus the codes listed for those territories and possessions of the United States already identified as “states.”
organization.awards.contracts.performanceLocations.address.	[object]

continentalRegion	The details of the continent for this address of the organization.
organization.awards.contracts.performanceLocations.address.continentalRegion.name	<p>[string] e.g.: North America The name of the continent for this address of the organization. Possible values Africa Asia Pacific Europe Latin America Middle East North America</p>
organization.awards.contracts.performanceLocations.address.addressCounty	<p>[object] The details of the geographical area of a Country or Region for this address of the organization. Countries divide their geography into smaller sub divisions. County is an example of a commonly used subdivision. Often found in UK.</p>
organization.awards.contracts.performanceLocations.address.addressCounty.name	<p>[string] e.g.: SAN MATEO The name of the geographical area of a Country or Region for this address of the organization. Countries subdivide their geography into smaller sub divisions. County is an example of a commonly used subdivision, often found in the UK.</p>
organization.awards.contracts.performanceLocations.address.addressCounty.code	<p>[integer] e.g.: 3 Three-position numeric code for county from International Committee for Information Technology Standards (ANSI INCITS) county codes.</p>
organization.awards.contracts.performanceLocations.address.addressLocality	<p>[object] The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.</p>
organization.awards.contracts.performanceLocations.address.addressLocality.name	<p>[string] e.g.: SAN FRANCISCO The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.</p>
organization.awards.contracts.performanceLocations.address.addressRegion	<p>[object] The name of the geographical area for this address of the organization. For Example New Jersey.</p>
organization.awards.contracts.performanceLocations.address.addressRegion.name	<p>[string] e.g.: California The name of the geographical area for this address of the organization. For Example New Jersey.</p>
organization.awards.contracts.performanceLocations.address.addressRegion.abbreviatedName	<p>[string] e.g.: NJ The shortened name of the geographical area for this address of the organization. For example NJ for the US State New Jersey within Country United States.</p>

organization.awards.contracts.performanceLocations.address.postalCode	<p>[string] e.g.: 941109999 The postal code for this address of the organization.</p> <p>Also known locally in various English-speaking countries throughout the world as a postcode, post code, Eircode, PIN or ZIP Code) is a series of letters or digits or both, sometimes including spaces or punctuation, included in a postal address for the purpose of sorting mail. The code is used by the country's postal authority to identify the address where the organization is located or conducts operations .</p>
organization.awards.contracts.performanceLocations.address.postalCodeExtension	<p>[string] e.g.: 9999 An extension to the postal code that identifies a street or building within the geographic area covered by the Postal Code.</p>
organization.awards.contracts.performanceLocations.address.streetAddress	<p>[object] The details of the street address for this address of the organization.</p>
organization.awards.contracts.performanceLocations.address.streetAddress.line1	<p>[string] e.g.: 492 KOLLER ST The first line of the address where the entity is located.</p> <p>The first line of this address of the organization. For example The Point in the address</p> <p>The Point 37 North Wharf Road London W2 1AF</p>
organization.awards.contracts.performanceLocations.address.streetAddress.line2	<p>[string] e.g.: Suite 100 The second line of this address of the organization. For example 37 North Wharf Road in the address The Point 37 North Wharf Road London W2 1AF</p>
organization.awards.contracts.performanceLocations.address.congressionalDistrict	<p>[string] e.g.: 02 The territorial subdivision for holding a separate election for one or more seats in a legislative body to which this address belongs.</p>
organization.awards.contracts.actions	<p>[array (object)] Records information about the action taken under the award; the amount of money granted or de-obligated, relevant dates and the type of action.</p>
organization.awards.contracts.actions.actionType	<p>[object] Records the changes made to the Federal prime award.</p>

organization.awards.contracts.actions.actionType.code	[string] e.g.: A1 A code which specifies the changes made to the Federal prime award. e.g., . C for Revision, A for New.
organization.awards.contracts.actions.actionType.description	[string] e.g.: CHANGE ORDER The text specifying the business area.
organization.awards.contracts.actions.recordType	[object] Describes the record type.
organization.awards.contracts.actions.recordType.code	[string] e.g.: R1 A code which specifies the record type, e.g., aggregate, non-aggregate.
organization.awards.contracts.actions.recordType.description	[string] e.g.: Record1 The text specifying the record type.
organization.awards.contracts.actions.processingType	[object] Describes how the record should be processed.
organization.awards.contracts.actions.processingType.code	[string] e.g.: P1 A code to indicate how the record should be processed: correction to an existing record; deletion of a record; new record.
organization.awards.contracts.actions.processingType.description	[string] e.g.: Process1 The text specifying how the record should be processed.
organization.awards.contracts.actions.actionDate	[string] e.g.: 2019-08-31 The date the action being reported was issued / signed by the Government or a binding agreement was reached.
organization.awards.contracts.actions.actionFiscalYear	[string] e.g.: 2019 The fiscal year of the action being reported was issued / signed by the Government or a binding agreement was reached.
organization.awards.contracts.actions.federalFundingAmount	[object] Records the monetary figure specifying the Federal government's obligation, deobligation, or liability for an award transaction.
organization.awards.contracts.actions.federalFundingAmount.value	[number] e.g.: 250000 The monetary figure specifying the Federal government's obligation, deobligation, or liability for an award transaction.
organization.awards.contracts.actions.federalFundingAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).

organization.awards.contracts.actions.nonFederalFundingAmount	[object] Records the amount of the award funded by non-Federal source(s), in dollars. Program Income (as defined in 2 CFR § 200.80) is not included until such time that Program Income is generated and credited to the agreement.
organization.awards.contracts.actions.nonFederalFundingAmount.value	[number] e.g.: 250000 The amount of the award funded by non-Federal source(s), in dollars. Program Income (as defined in 2 CFR § 200.80) is not included until such time that Program Income is generated and credited to the agreement.
organization.awards.contracts.actions.nonFederalFundingAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.awards.contracts.actions.faceValueLoanAmount	[object] Records the monetary figure specifying the face value of the direct loan or loan guarantee.
organization.awards.contracts.actions.faceValueLoanAmount.value	[number] e.g.: 250000 The monetary figure specifying the face value of the direct loan or loan guarantee.
organization.awards.contracts.actions.faceValueLoanAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.awards.contracts.actions.originalLoanSubsidyAmount	[object] Records the estimated long-term cost to the Government of a direct loan or loan guarantee, or modification thereof, calculated on a net present value basis, excluding administrative costs.
organization.awards.contracts.actions.originalLoanSubsidyAmount.value	[number] e.g.: 250000 The estimated long-term cost to the Government of a direct loan or loan guarantee, or modification thereof, calculated on a net present value basis, excluding administrative costs.
organization.awards.contracts.actions.originalLoanSubsidyAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.awards.contracts.actions.effectiveDate	[string] e.g.: 2019-07-22 The date on which, for the award referred to by the action being reported, awardee effort begins or the award is otherwise effective.
organization.awards.contracts.actions.expirationDate	[string] e.g.: 2021-07-22 The current date on which, for the award referred to by the action being reported, awardee effort

	<p>completes or the award is otherwise ended. Administrative actions related to this award may continue to occur after this date. This date does not apply to procurement indefinite delivery vehicles under which definitive orders may be awarded.</p>
organization.awards.contracts.actions.potentialExpirationDate	<p>[string] e.g.: 2021-07-22</p> <p>A date describes that for procurement, the date on which, for the award referred to by the action being reported if all potential pre-determined or prenegotiated options were exercised, awardee effort is completed or the award is otherwise ended. Administrative actions related to this award may continue to occur after this date. This date does not apply to procurement indefinite delivery vehicles under which definitive orders may be awarded.</p>
organization.awards.contracts.actions.deliveryVehicleOrderExpirationDate	<p>[string] e.g.: 2021-07-22</p> <p>A Date describes that for procurement, the date on which, for the award referred to by the action being reported, no additional orders referring to it may be placed. This date applies only to procurement indefinite delivery vehicles (such as indefinite delivery contracts or blanket purchase agreements). Administrative actions related to this award may continue to occur after this date. The period of performance end dates for procurement orders issued under the indefinite delivery vehicle may extend beyond this date.</p>
organization.awards.contracts.actions.actionsCount	<p>[integer] e.g.: 150</p> <p>A number input by the agency that identifies number of actions that are reported in one modification.</p>
organization.awards.contracts.actions.actionLatestDate	<p>[string] e.g.: 2022-10-19</p> <p>The latest date the for the award action.</p>
organization.awards.contracts.actions.actionLatestFiscalYear	<p>[string] e.g.: 2022</p> <p>The fiscal year of the latest action action date. Note that the Federal fiscal year begins on October 1 and ends on September 30, thus October 1, 2018 is the first day of the 2019 fiscal year.</p>
organization.awards.contracts.subAwards	<p>[array (object)]</p> <p>Records information about the subdivision of the main account which received the government contracts, contract vehicles, grants, loans, and other types of awards issued by the federal government.</p>
organization.awards.contracts.subAwards.awardType	<p>[object]</p> <p>Records the type of sub award. e.g., sub-grant, sub-contract.</p>
organization.awards.contracts.subAwards.awardType.dnbCode	<p>[integer] e.g.: 35293</p> <p>A unique code assigned by Dun & Bradstreet specifying the type of sub award. e.g., sub-grant, sub-contract.</p> <p>DO NOT USE: Will always be NULL</p> <p>Refer to Reference code table "811 [Award Type]" for all possible values.</p>
organization.awards.contracts.subAwards.awardType.description	<p>[string] e.g.: Sub Award 1</p> <p>Text specifying the type of sub award. e.g., sub-grant, sub-contract.</p>
organization.awards.contracts.subAwards.businessType	<p>[object]</p>

	Records the business areas. e.g., PRIVATE INSTITUTION OF HIGHER EDUCATION, FOR-PROFIT ORGANIZATION (OTHER THAN SMALL BUSINESS), INDEPENDENT SCHOOL DISTRICT, COUNTY GOVERNMENT etc.
organization.awards.contracts.subAwards.businessType.code	[string] e.g.: B1 A code which specifies the business areas. e.g., PRIVATE INSTITUTION OF HIGHER EDUCATION, FOR-PROFIT ORGANIZATION (OTHER THAN SMALL BUSINESS), INDEPENDENT SCHOOL DISTRICT, COUNTY GOVERNMENT etc.
organization.awards.contracts.subAwards.businessType.description	[string] e.g.: Business 1 The text specifying the business area.
organization.awards.contracts.subAwards.awardAmount	[object] Records the total amount being awarded to the sub award recipient.
organization.awards.contracts.subAwards.awardAmount.value	[number] e.g.: 250000 The total amount being awarded to the sub award recipient.
organization.awards.contracts.subAwards.awardAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.awards.contracts.subAwards.awardID	[string] e.g.: CONT_AWD_HC102110P2005_9700_-NONE-_NONE- A number which uniquely identifies this sub award.
organization.awards.contracts.subAwards.actionDate	[string] e.g.: 2121716 The date the action being reported was issued / signed by the Government or a binding agreement was reached.
organization.awards.contracts.subAwards.actionFiscalYear	[string] e.g.: 2016 The fiscal year of the action being reported was issued / signed by the Government or a binding agreement was reached.
organization.awards.contracts.subAwards.awardDescription	[string] e.g.: Description A brief description of the purpose of the award.
organization.awards.contracts.subAwards.ffataReportID	[string] e.g.: d992b63e20fcb9481dd41d2b673b6eae The FFATA Subaward Reporting System (FSRS) Report Identifier for the subaward.
organization.awards.contracts.subAwards.ffataReportMonth	[integer] e.g.: 9 The FFATA Subaward Reporting System (FSRS) Report Period Month for the subaward.
organization.awards.contracts.subAwards.ffataReportYear	[string] e.g.: 2020-01-01 The FFATA Subaward Reporting System (FSRS) Report Period Year for the subaward.

organization.awards.contracts.subAwards.usaSpendingURL	[string] e.g.: https://www.usaspending.gov/#/award/ASST_NON_NU50CK000536_7523/ A Web Page Address is a telecommunication address used by a USA Spending for this award.
organization.awards.contracts.subAwards.usaSpendingURLModificationDate	[string] e.g.: 2020-10-07 The date when this award information was last updated in the USA Spending web page.
organization.awards.contracts.subAwards.recipients	[array (object)] Award Recipient entity records information regarding the legal entity which receives the award/assistance from the government.
organization.awards.contracts.subAwards.recipients.name	[string] e.g.: BUSINESS COUNCIL FOR INTERNATIONAL UNDERSTANDING, INC., THE The name of the awardee or recipient that relates to the unique identifier. For U.S. based companies, this name is what the business ordinarily files in formation documents with individual states (when required).
organization.awards.contracts.subAwards.recipients.tradeStyleName	[string] e.g.: CBRE HEERY The name of the awardee or recipient that relates to the unique identifier. For U.S. based companies, this name is what the business ordinarily files in formation documents with individual states (when required).
organization.awards.contracts.subAwards.recipients.duns	[string] e.g.: 804735132 The D-U-N-S® Number, a proprietary organizational identifier owned and managed by Dun & Bradstreet Inc, provides unique identification of a subject organization, in accordance with the Data Universal Numbering System (D-U-N-S®).
organization.awards.contracts.subAwards.recipients.cageCode	[string] e.g.: CAGE123 A Code describes Commercial And Government Entity Code of the contractor. Used as a key to SAM. Maps to the DUNS.
organization.awards.contracts.subAwards.recipients.telephone	[array (object)] The details of the Telephone contact information used for voice communication with the organization.
organization.awards.contracts.subAwards.recipients.telephone.telephoneNumber	[string] e.g.: 6505550000 The primary voice telephone number for the business, when dialing domestically. The National Telephone Number is created by combining the Domestic Area Code and the Local Number. A Domestic Area Code is a series of numbers that must be prefixed before dialing a telephone number in another local area. National telecommunication authorities use various formats and dialing rules for area codes. Also known as City Code. A Local Number is a series of numbers that represents a specific telephone line.
organization.awards.contracts.subAwards.recipients.fax	[array (object)] The details of the facsimile information used for data communication with the entity.
organization.awards.contracts.subAwards.recipients.fax.faxNumber	[string] e.g.: 6505550001 A sequence of digits used for facsimile communication with the entity.

This sequence of digits includes the area code or city code and domestic dialing code.

organization.awards.contracts.subAwards.recipients.address	[object] The details of the Primary Address at which the organization is located or conducts operations.
organization.awards.contracts.subAwards.recipients.address.addressCountry	[object] The details of the country or region for this address of the organization.
organization.awards.contracts.subAwards.recipients.address.addressCountry.name	[string] e.g.: United States The country or region for this address of the organization.
organization.awards.contracts.subAwards.recipients.address.addressCountry.isoAlpha3Code	[string] e.g.: USA Code for the country in which the awardee or recipient is located, using the International Standard for country codes (ISO) 3166-1 Alpha-3 GENC Profile, minus the codes listed for those territories and possessions of the United States already identified as “states.”
organization.awards.contracts.subAwards.recipients.address.continentalRegion	[object] The details of the continent for this address of the organization.
organization.awards.contracts.subAwards.recipients.address.continentalRegion.name	[string] e.g.: North America The name of the continent for this address of the organization. Possible values Africa Asia Pacific Europe Latin America Middle East North America
organization.awards.contracts.subAwards.recipients.address.addressCounty	[object] The details of the geographical area of a Country or Region for this address of the organization. Countries divide their geography into smaller sub divisions. County is an example of a commonly used subdivision. Often found in UK.
organization.awards.contracts.subAwards.recipients.address.addressCounty.name	[string] e.g.: SAN MATEO The name of the geographical area of a Country or Region for this address of the organization. Countries subdivide their geography into smaller sub divisions. County is an example of a commonly used subdivision, often found in the UK.
organization.awards.contracts.subAwards.recipients.address.addressCounty.code	[integer] e.g.: 3 Three-position numeric code for county from International Committee for Information Technology Standards (ANSI INCITS) county codes.

organization.awards.contracts.subAwards.recipients.address.addressLocality	[object] The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.
organization.awards.contracts.subAwards.recipients.address.addressLocality.name	[string] e.g.: SAN FRANCISCO The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.
organization.awards.contracts.subAwards.recipients.address.addressRegion	[object] The name of the geographical area for this address of the organization. For Example New Jersey.
organization.awards.contracts.subAwards.recipients.address.addressRegion.name	[string] e.g.: California The name of the geographical area for this address of the organization. For Example New Jersey.
organization.awards.contracts.subAwards.recipients.address.addressRegion.abbreviatedName	[string] e.g.: NJ The shortened name of the geographical area for this address of the organization. For example NJ for the US State New Jersey within Country United States.
organization.awards.contracts.subAwards.recipients.address.postalCode	[string] e.g.: 941109999 The postal code for this address of the organization. Also known locally in various English-speaking countries throughout the world as a postcode, post code, Eircode, PIN or ZIP Code) is a series of letters or digits or both, sometimes including spaces or punctuation, included in a postal address for the purpose of sorting mail. The code is used by the country's postal authority to identify the address where the organization is located or conducts operations .
organization.awards.contracts.subAwards.recipients.address.postalCodeExtension	[string] e.g.: 9999 An extension to the postal code that identifies a street or building within the geographic area covered by the Postal Code.
organization.awards.contracts.subAwards.recipients.address.streetAddress	[object] The details of the street address for this address of the organization.
organization.awards.contracts.subAwards.recipients.address.streetAddress.line1	[string] e.g.: 492 KOLLER ST The first line of the address where the entity is located. The first line of this address of the organization. For example The Point in the address The Point 37 North Wharf Road London W2 1AF
organization.awards.contracts.subAwards.recipients.address.streetAddress.line2	[string] e.g.: Suite 100 The second line of this address of the organization.

	For example 37 North Wharf Road in the address The Point 37 North Wharf Road London W2 1AF
organization.awards.contracts.subAwards.recipients.address.congressionalDistrict	[string] e.g.: 02 The territorial subdivision for holding a separate election for one or more seats in a legislative body to which this address belongs.
organization.awards.contracts.subAwards.recipients.businessEntityTypeDescription	[string] e.g.: 19PCRD18KK924 Text that describes the structure of the entity as defined by the IRS.
organization.awards.contracts.subAwards.recipients.smallBusinessType	[object] Records the contracting officer's determination of whether the selected contractor meets the small business size standard for award to a small business for the NAICS code that is applicable to the contract.
organization.awards.contracts.subAwards.recipients.smallBusinessType.code	[string] e.g.: O A code describes the contracting officer's determination of whether the selected contractor meets the small business size standard for award to a small business for the NAICS code that is applicable to the contract.
organization.awards.contracts.subAwards.recipients.smallBusinessType.description	[string] e.g.: OTHER THAN SMALL BUSINESS Text describes the contracting officer's determination of whether the selected contractor meets the small business size standard for award to a small business for the NAICS code that is applicable to the contract.
organization.awards.contracts.subAwards.recipients.parent	[object] The details of the organization that owns more than 50% of the subject organization.
organization.awards.contracts.subAwards.recipients.parent.name	[string] e.g.: ABC Corp. The name of the ultimate parent of the awardee or recipient. Currently the name is from the global parent DUNS® number.
organization.awards.contracts.subAwards.recipients.parent.duns	[string] e.g.: 804735132 The D-U-N-S® number of the organization that owns more than 50% of the subject organization.
organization.awards.contracts.subAwards.recipients.highlyCompensatedOfficers	[array (object)] Records information about the details of individuals identified as one of the five most highly compensated "Executives." "Executive" means officers, managing partners, or any other employees in the sub-awardee's management positions.
organization.awards.contracts.subAwards.recipients.highlyCompensatedOfficers.name	[string] e.g.: NANCY KIPPER The name of an individual identified as one of the five most highly compensated "Executives." "Executive" means officers, managing partners, or any other employees in the sub awardee's management positions.
organization.awards.contracts.subAwards.recipients.highlyCompensatedOfficers.address	[object]

mpensatedOfficers.totalCompensationAmount	Records the cash and noncash dollar value earned by the one of the five most highly compensated “Executives” during the sub-awardee’s preceding fiscal year and includes the following (for more information see 17 CFR 229.402c2): salary and bonuses, awards of stock, stock options, and stock appreciation rights, earnings for services under non-equity incentive plans, change in pension value, above market earnings on deferred compensation which is not tax qualified, and other compensation.
organization.awards.contracts.subAwards.recipients.highlyCompensatedOfficers.totalCompensationAmount.value	[number] e.g.: 250000 The cash and noncash US dollar value earned by the one of the five most highly compensated “Executives” during the sub-awardee’s preceding fiscal year and includes the following (for more information see 17 CFR 229.402c2): salary and bonuses, awards of stock, stock options, and stock appreciation rights, earnings for services under non-equity incentive plans, change in pension value, above market earnings on deferred compensation which is not tax qualified, and other compensation.
organization.awards.contracts.subAwards.recipients.highlyCompensatedOfficers.sequence	[integer] e.g.: 1 The number which specifies the Highly Compensated Officer,e.g., 1, 2 3 etc.
organization.awards.contracts.subAwards.performanceLocations	[array (object)] Records information about the principal place of performance for the activity supported by the award.
organization.awards.contracts.subAwards.performanceLocations.location	[object] Records where the predominant performance of the award will be accomplished.
organization.awards.contracts.subAwards.performanceLocations.location.code	[string] e.g.: 003 A code indicating where the predominant performance of the award will be accomplished.
organization.awards.contracts.subAwards.performanceLocations.location.description	[string] e.g.: Location1 For foreign places of performance: identify where the predominant performance of the award will be accomplished, describing it as specifically, as possible.
organization.awards.contracts.subAwards.performanceLocations.address	[object] The details of the Primary Address at which the organization is located or conducts operations.
organization.awards.contracts.subAwards.performanceLocations.address.addressCountry	[object] The details of the country or region for this address of the organization.
organization.awards.contracts.subAwards.performanceLocations.address.addressCountry.name	[string] e.g.: United States The country or region for this address of the organization.
organization.awards.contracts.subAwards.performanceLocations.address.addressCountry.isoAlpha3Code	[string] e.g.: USA Code for the country in which the awardee or recipient is located, using the International Standard for country codes (ISO) 3166-1 Alpha-3 GENC Profile, minus the codes listed for those territories and possessions of the United States already identified as “states.”
organization.awards.contracts.subAwards.performanceLocations.address.continentalRegion	[object] The details of the continent for this address of the organization.

organization.awards.contracts.subAwards.performanceLocationns.address.continentalRegion.name	[string] e.g.: North America The name of the continent for this address of the organization. Possible values Africa Asia Pacific Europe Latin America Middle East North America
organization.awards.contracts.subAwards.performanceLocationns.address.addressCounty	[object] The details of the geographical area of a Country or Region for this address of the organization. Countries divide their geography into smaller sub divisions. County is an example of a commonly used subdivision. Often found in UK.
organization.awards.contracts.subAwards.performanceLocationns.address.addressCounty.name	[string] e.g.: SAN MATEO The name of the geographical area of a Country or Region for this address of the organization. Countries subdivide their geography into smaller sub divisions. County is an example of a commonly used subdivision, often found in the UK.
organization.awards.contracts.subAwards.performanceLocationns.address.addressCounty.code	[integer] e.g.: 3 Three-position numeric code for county from International Committee for Information Technology Standards (ANSI INCITS) county codes.
organization.awards.contracts.subAwards.performanceLocationns.address.addressLocality	[object] The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.
organization.awards.contracts.subAwards.performanceLocationns.address.addressLocality.name	[string] e.g.: SAN FRANCISCO The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.
organization.awards.contracts.subAwards.performanceLocationns.address.addressRegion	[object] The name of the geographical area for this address of the organization. For Example New Jersey.
organization.awards.contracts.subAwards.performanceLocationns.address.addressRegion.name	[string] e.g.: California The name of the geographical area for this address of the organization. For Example New Jersey.
organization.awards.contracts.subAwards.performanceLocationns.address.addressRegion.abbreviatedName	[string] e.g.: NJ The shortened name of the geographical area for this address of the organization. For example NJ for the US State New Jersey within Country United States.
organization.awards.contracts.subAwards.performanceLocationns.address.addressRegion.zipCode	[string] e.g.: 941109999

ns.address.postalCode	<p>The postal code for this address of the organization.</p> <p>Also known locally in various English-speaking countries throughout the world as a postcode, post code, Eircode, PIN or ZIP Code) is a series of letters or digits or both, sometimes including spaces or punctuation, included in a postal address for the purpose of sorting mail. The code is used by the country's postal authority to identify the address where the organization is located or conducts operations .</p>
organization.awards.contracts.subAwards.performanceLocation.address.postalCodeExtension	<p>[string] e.g.: 9999</p> <p>An extension to the postal code that identifies a street or building within the geographic area covered by the Postal Code.</p>
organization.awards.contracts.subAwards.performanceLocation.address.streetAddress	<p>[object]</p> <p>The details of the street address for this address of the organization.</p>
organization.awards.contracts.subAwards.performanceLocation.address.streetAddress.line1	<p>[string] e.g.: 492 KOLLER ST</p> <p>The first line of the address where the entity is located.</p> <p>The first line of this address of the organization. For example The Point in the address</p> <p>The Point 37 North Wharf Road London W2 1AF</p>
organization.awards.contracts.subAwards.performanceLocation.address.streetAddress.line2	<p>[string] e.g.: Suite 100</p> <p>The second line of this address of the organization. For example 37 North Wharf Road in the address</p> <p>The Point 37 North Wharf Road London W2 1AF</p>
organization.awards.contracts.subAwards.performanceLocation.address.congressionalDistrict	<p>[string] e.g.: 02</p> <p>The territorial subdivision for holding a separate election for one or more seats in a legislative body to which this address belongs.</p>
organization.awards.contracts.subAwards.subAwardPrimeAwardDetail	<p>[array (object)]</p> <p>Records the details of the award that is the originating source of funding or other consideration from the prime sponsor, a part of which may be awarded to a subrecipient via a subaward.</p>
organization.awards.contracts.subAwards.subAwardPrimeAwardDetail.awardingAgency	<p>[object]</p> <p>Records the name associated with a department or establishment of the Government as used in the Treasury Account Fund Symbol (TAFS).</p>

organization.awards.contracts.subAwards.subAwardPrimeAwardDetail.awardingAgency.code	[string] e.g.: 086 A code of the department or establishment of the Government as used in the Treasury Account Fund Symbol (TAFS).
organization.awards.contracts.subAwards.subAwardPrimeAwardDetail.awardingAgency.description	[string] e.g.: department of housing and urban development (hud) The text specifying the name associated with a department or establishment of the Government as used in the Treasury Account Fund Symbol (TAFS).
organization.awards.contracts.subAwards.subAwardPrimeAwardDetail.awardingSubAgency	[object] Records the name of the name of the level 2 organization that provided the preponderance of the funds obligated.
organization.awards.contracts.subAwards.subAwardPrimeAwardDetail.awardingSubAgency.code	[string] e.g.: 4732 Identifier of the level 2 organization that provided the preponderance of the funds obligated by this transaction.
organization.awards.contracts.subAwards.subAwardPrimeAwardDetail.awardingSubAgency.description	[string] e.g.: FEDERAL ACQUISITION SERVICE The text specifying the name of the name of the level 2 organization that provided the preponderance of the funds obligated.
organization.awards.contracts.subAwards.subAwardPrimeAwardDetail.awardingOffice	[object] Records the name of the level and organization that provided the preponderance of the funds obligated.
organization.awards.contracts.subAwards.subAwardPrimeAwardDetail.awardingOffice.code	[string] e.g.: 47QSEA Identifier of the level and organization that provided the preponderance of the funds obligated.
organization.awards.contracts.subAwards.subAwardPrimeAwardDetail.awardingOffice.description	[string] e.g.: GSA/FAS ADMIN SVCS ACQUISITION BR(2) The text specifying the name of the level and organization that provided the preponderance of the funds obligated.
organization.awards.contracts.subAwards.subAwardPrimeAwardDetail.fundingAgency	[object] Records the name of the department or establishment of the Government that provided the preponderance of the funds for an award and/or individual transactions related to an award.
organization.awards.contracts.subAwards.subAwardPrimeAwardDetail.fundingAgency.code	[string] e.g.: 047 The 3-digit CGAC agency code of the department or establishment of the Government that provided the preponderance of the funds for an award and/or individual transactions related to an award.
organization.awards.contracts.subAwards.subAwardPrimeAwardDetail.fundingAgency.description	[string] e.g.: GENEGENERAL SERVICES ADMINISTRATION (GSA) The text specifying the name of the department or establishment of the Government that provided the preponderance of the funds for an award and/or individual transactions related to an award.
organization.awards.contracts.subAwards.subAwardPrimeAwardDetail.fundingSubAgency	[object] Records the name of the name of the level 2 organization that provided the preponderance of the funds obligated.

organization.awards.contracts.subAwards.subAwardPrimeAwardDetail.fundingSubAgency.code	[string] e.g.: 4732 Identifier of the level 2 organization that provided the preponderance of the funds obligated by this transaction.
organization.awards.contracts.subAwards.subAwardPrimeAwardDetail.fundingSubAgency.description	[string] e.g.: FEDERAL ACQUISITION SERVICE The text specifying the name of the name of the level 2 organization that provided the preponderance of the funds obligated.
organization.awards.contracts.subAwards.subAwardPrimeAwardDetail.fundingOffice	[object] Records the name of the level and organization that provided the preponderance of the funds obligated.
organization.awards.contracts.subAwards.subAwardPrimeAwardDetail.fundingOffice.code	[string] e.g.: 47QSEA Identifier of the level and organization that provided the preponderance of the funds obligated.
organization.awards.contracts.subAwards.subAwardPrimeAwardDetail.fundingOffice.description	[string] e.g.: GSA/FAS ADMIN SVCS ACQUISITION BR(2) The text specifying the name of the level and organization that provided the preponderance of the funds obligated.
organization.awards.contracts.subAwards.subAwardPrimeAwardDetail.businessType	[object] Records the business area.
organization.awards.contracts.subAwards.subAwardPrimeAwardDetail.businessType.description	[string] e.g.: FOR-PROFIT ORGANIZATION (OTHER THAN SMALL BUSINESS) The text specifying the business area.
organization.awards.contracts.subAwards.subAwardPrimeAwardDetail.cfdaNumber	[string] e.g.: 93.361 The number assigned to a federal area of work in the Catalog of Federal Domestic Assistance (CFDA).
organization.awards.contracts.subAwards.subAwardPrimeAwardDetail.cfdaTitle	[string] e.g.: mortgage insurance homes The Text describes the title of the area of work under which the federal award was funded in the Catalog of Federal Domestic Assistance (CFDA).
organization.awards.contracts.subAwards.subAwardPrimeAwardDetail.fainID	[string] e.g.: fain123XAB The Text describes the Federal Award Identification Number (FAIN). Represents the unique id within the federal agency for each (nonaggregate) financial assistance award.
organization.awards.contracts.subAwards.subAwardPrimeAwardDetail.awardAmount	[object] Records the total amount being awarded to the sub award recipient.
organization.awards.contracts.subAwards.subAwardPrimeAwardDetail.awardAmount.value	[number] e.g.: 250000 The total amount being awarded to the sub award recipient.
organization.awards.contracts.subAwards.subAwardPrimeAwardDetail.fundingTreasuryAccountNumber	[string] e.g.: 047-X-4534-001 The account number of the treasury funding this award.
organization.awards.contracts.subAwards.subAwardPrimeAwardDetail.fundingTreasuryAccountNumber	[string] e.g.: 047-4534

ardDetail.fundingFederalAccountNumber	The account number of the federal funding this award.
organization.awards.contracts.subAwards.subAwardPrimeAwardDetail.awardDescription	[string] e.g.: BATTERIES,ALKALINE,AAA,12/PK A brief description of the purpose of the award.
organization.awards.contracts.subAwards.subAwardPrimeAwardDetail.contractID	[string] e.g.: Contr123 The unique identifier for each contract, agreement or order.
organization.awards.contracts.subAwards.subAwardPrimeAwardDetail.parentContractID	[string] e.g.: GS00P10BQD0004 A identifier of the procurement award under which the specific award is issued (such as a Federal Supply Schedule).
organization.awards.contracts.subAwards.subAwardPrimeAwardDetail.contractProjectTitle	[string] e.g.: Title1 The title of the contract.
organization.awards.contracts.subAwards.subAwardPrimeAwardDetail.cfdaNumberAndTitle	[string] e.g.: mortgage insurance homes The Text describes the title of the area of work under which the federal award was funded in the Catalog of Federal Domestic Assistance (CFDA).
organization.awards.contracts.subAwards.subAwardPrimeAwardDetail.awardFundingObjectClasses	[string] e.g.: 20 The text that specifies the object class for this award. Object classes are categories in a classification system that presents obligations by the items or services purchased by the Federal Government. Each specific object class is defined in OMB Circular A-11 § 83.6.
organization.awards.contracts.subAwards.subAwardPrimeAwardDetail.awardFundingProgramActivities	[string] e.g.: 0001 The text that specifies the program funding this award. A program activity is a category within an appropriation account and are unique to each account. A program activity is a specific activity or project, as listed in the program and financing schedules of the annual budget of the U.S. government.
organization.awards.contracts.subAwards.subAwardPrimeAwardDetail.disasterEmergencyFundDescription	[string] e.g.: None Text that describes the type of disaster related funding and is represented as a Letter.
organization.awards.contracts.subAwards.subAwardPrimeAwardDetail.disasterOutlaidFundAmount	[object] Records the total dollars paid in this award that is related to COVID 19 remediation.
organization.awards.contracts.subAwards.subAwardPrimeAwardDetail.disasterOutlaidFundAmount.value	[number] e.g.: 250000 A monetary figure in US Dollars that describes the total dollars paid in this award that is related to COVID 19 remediation.
organization.awards.contracts.subAwards.subAwardPrimeAwardDetail.disasterObligatedFundAmount	[object] Records the total dollars budgeted in this award that is related to COVID 19 remediation.
organization.awards.contracts.subAwards.subAwardPrimeAwardDetail.disasterObligatedFundAmount.value	[number] e.g.: 250000 A monetary figure in US Dollars that describes the total dollars budgeted in this award that is related to COVID 19 remediation.

organization.awards.contracts.subAwards.subAwardPrimeAwardDetail.nationalInterestAction	[object] Records the national interest for which the contract is created.
organization.awards.contracts.subAwards.subAwardPrimeAwardDetail.nationalInterestAction.code	[string] e.g.: NONE A code that represents the national interest for which the contract is created.
organization.awards.contracts.subAwards.subAwardPrimeAwardDetail.nationalInterestAction.description	[string] e.g.: NONE Text that represents the national interest for which the contract is created.
organization.awards.contracts.contractID	[string] e.g.: Contr123 The unique identifier for each contract, agreement or order.
organization.awards.contracts.parentAgency	[object] Records the text used to link agency in FPDS-NG to referenced IDV information.
organization.awards.contracts.parentAgency.code	[string] e.g.: 1443 A code used to link agency in FPDSNG to referenced IDV information.
organization.awards.contracts.parentAgency.description	[string] e.g.: NATIONAL PARK SERVICE A text used to link agency in FPDS-NG to referenced IDV information.
organization.awards.contracts.foreignFundingType	[object] Records information that specifies a foreign government, international organization, or foreign military organization bears some of the cost of the acquisition.
organization.awards.contracts.foreignFundingType.code	[string] e.g.: X A code describes the foreign government, international organization, or foreign military organization bears some of the cost of the acquisition.
organization.awards.contracts.foreignFundingType.description	[string] e.g.: NOT APPLICABLE Text indicates that a foreign government, international organization, or foreign military organization bears some of the cost of the acquisition.
organization.awards.contracts.systemAwardManagementException	[object] Records the reason a vendor/contractor not registered in the mandated SAM system may be used in a purchase.
organization.awards.contracts.systemAwardManagementException.code	[string] e.g.: E1 A code that describes the reason a vendor/contractor not registered in the mandated SAM system may be used in a purchase.
organization.awards.contracts.systemAwardManagementException.description	[string] e.g.: Exception1 Text that describes the reason a vendor/contractor not registered in the mandated SAM system may be used in a purchase.

organization.awards.contracts.contractType	[object] Records the type of award being entered by this transaction. Types of awards include Purchase Orders (PO), Delivery Orders (DO), Blanket Purchase Agreements (BPA) Calls and Definitive Contracts.
organization.awards.contracts.contractType.code	[string] e.g.: B A code describes that the type of award being entered by this transaction. Types of awards include Purchase Orders (PO), Delivery Orders (DO), Blanket Purchase Agreements (BPA) Calls and Definitive Contracts.
organization.awards.contracts.contractType.description	[string] e.g.: PURCHASE ORDER Text describes that the type of award being entered by this transaction. Types of awards include Purchase Orders (PO), Delivery Orders (DO), Blanket Purchase Agreements (BPA) Calls and Definitive Contracts.
organization.awards.contracts.idvType	[object] Records the type of Indefinite Delivery Vehicle being (IDV) loaded by this transaction. IDV Types include Government-Wide Acquisition Contract (GWAC), Multi-Agency Contract, Other Indefinite Delivery Contract (IDC), Federal Supply Schedule (FSS), Basic Ordering Agreement (BOA), and Blanket Purchase Agreements (BPA).
organization.awards.contracts.idvType.code	[string] e.g.: E A code that describes that the type of Indefinite Delivery Vehicle being (IDV) loaded by this transaction. IDV Types include Government-Wide Acquisition Contract (GWAC), Multi-Agency Contract, Other Indefinite Delivery Contract (IDC), Federal Supply Schedule (FSS), Basic Ordering Agreement (BOA), and Blanket Purchase Agreements (BPA).
organization.awards.contracts.idvType.description	[string] e.g.: BPA Text that describes that the type of Indefinite Delivery Vehicle being (IDV) loaded by this transaction. IDV Types include Government-Wide Acquisition Contract (GWAC), Multi-Agency Contract, Other Indefinite Delivery Contract (IDC), Federal Supply Schedule (FSS), Basic Ordering Agreement (BOA), and Blanket Purchase Agreements (BPA).
organization.awards.contracts.idvContractType	[object] Records whether the IDC or Multi-Agency Contract is Indefinite Delivery/Requirements, Indefinite Delivery/Indefinite Quantity, or Indefinite Delivery/Definite Quantity.
organization.awards.contracts.idvContractType.code	[string] e.g.: A A code describes that identifies whether the IDC or Multi-Agency Contract is Indefinite Delivery/Requirements, Indefinite Delivery/Indefinite Quantity, or Indefinite Delivery/Definite Quantity.
organization.awards.contracts.idvContractType.description	[string] e.g.: INDEFINITE DELIVERY / REQUIREMENTS Text describes that identifies whether the IDC or Multi-Agency Contract is Indefinite Delivery/Requirements, Indefinite Delivery/Indefinite Quantity, or Indefinite Delivery/Definite Quantity.
organization.awards.contracts.contractPriceType	[object] Records the type of award being entered by this transaction. Types of awards include Purchase Orders

	(PO), Delivery Orders (DO), Blanket Purchase Agreements (BPA) Calls and Definitive Contracts.
organization.awards.contracts.contractPriceType.code	[string] e.g.: J A code describes that the type of award being entered by this transaction. Types of awards include Purchase Orders (PO), Delivery Orders (DO), Blanket Purchase Agreements (BPA) Calls and Definitive Contracts.
organization.awards.contracts.contractPriceType.description	[string] e.g.: FIRM FIXED PRICE Text describes that the type of award being entered by this transaction. Types of awards include Purchase Orders (PO), Delivery Orders (DO), Blanket Purchase Agreements (BPA) Calls and Definitive Contracts.
organization.awards.contracts.inherentlyGovernmentalFunction	[object] Records the type of the "Inherently Governmental Function" used on the action.
organization.awards.contracts.inherentlyGovernmentalFunction.code	[string] e.g.: OT A code describes the type of the "Inherently Governmental Function" used on the action.
organization.awards.contracts.inherentlyGovernmentalFunction.description	[string] e.g.: OTHER FUNCTIONS Text describes the type of the "Inherently Governmental Function" used on the action.
organization.awards.contracts.subContractingPlan	[object] Records sub-contracting plan requirement. (See FAR Part 19.702).
organization.awards.contracts.subContractingPlan.code	[string] e.g.: B A code describes sub-contracting plan requirement. (See FAR Part 19.702).
organization.awards.contracts.subContractingPlan.description	[string] e.g.: PLAN NOT REQUIRED Text describes sub-contracting plan requirement. (See FAR Part 19.702).
organization.awards.contracts.parentContractType	[object] Records the type of Indefinite Delivery Vehicle (IDV) being loaded by the IDV referenced in this transaction.
organization.awards.contracts.parentContractType.code	[string] e.g.: A A code describes that the type of Indefinite Delivery Vehicle (IDV) being loaded by the IDV referenced in this transaction. Referenced IDV Types include Government-Wide Acquisition Contract (GWAC), Multi-Agency Contract, Other Indefinite Delivery Contract (IDC), Federal Supply Schedule (FSS), Basic Ordering Agreement (BOA), and Blanket Purchase Agreements (BPA).
organization.awards.contracts.parentContractType.description	[string] e.g.: GWAC Text describes that the type of Indefinite Delivery Vehicle (IDV) being loaded by the IDV referenced in this transaction. Referenced IDV Types include Government-Wide Acquisition Contract (GWAC), Multi-Agency Contract, Other Indefinite Delivery Contract (IDC), Federal Supply Schedule (FSS), Basic Ordering Agreement (BOA), and Blanket Purchase Agreements (BPA).

organization.awards.contracts.nationalInterestAction	[object] Records the national interest for which the contract is created.
organization.awards.contracts.nationalInterestAction.code	[string] e.g.: NONE A code that represents the national interest for which the contract is created.
organization.awards.contracts.nationalInterestAction.description	[string] e.g.: NONE Text that represents the national interest for which the contract is created.
organization.awards.contracts.costAcquisition	[object] Records if cost or pricing was obtained, not obtained or waived.
organization.awards.contracts.costAcquisition.code	[string] e.g.: N A code that indicates if cost or pricing was obtained, not obtained or waived.
organization.awards.contracts.costAcquisition.description	[string] e.g.: NO Text that indicates if cost or pricing was obtained, not obtained or waived.
organization.awards.contracts.costAccountingStandardsClause	[object] Records whether the contract includes a Cost Accounting Standards clause.
organization.awards.contracts.costAccountingStandardsClause.code	[string] e.g.: N A code describes whether the contract includes a Cost Accounting Standards clause.
organization.awards.contracts.costAccountingStandardsClause.description	[string] e.g.: NO - CAS WAIVER APPROVED Text describes whether the contract includes a Cost Accounting Standards clause.
organization.awards.contracts.undefinitizedAction	[object] Records whether the contact action is an Undefinitized Action.
organization.awards.contracts.undefinitizedAction.code	[string] e.g.: X A code designates whether the contact action is an Undefinitized Action.
organization.awards.contracts.undefinitizedAction.description	[string] e.g.: NO Text designates whether the contact action is an Undefinitized Action.
organization.awards.contracts.contractFinanceType	[object] Records the type of financing used to effect payment (progress payments, advance payments, etc.)
organization.awards.contracts.contractFinanceType.code	[string] e.g.: Z A code describes that the type of financing used to effect payment (progress payments, advance payments, etc.)
organization.awards.contracts.contractFinanceType.description	[string] e.g.: NOT APPLICABLE Text describes that the type of financing used to effect payment (progress payments, advance payments,

	etc.)
organization.awards.contracts.contingencyOperation	[object] Records the designator of contract actions that support a declared contingency operation, a declared humanitarian operation or a declared peacekeeping operation.
organization.awards.contracts.contingencyOperation.code	[string] e.g.: X A code describes that the designator of contract actions that support a declared contingency operation, a declared humanitarian operation or a declared peacekeeping operation.
organization.awards.contracts.contingencyOperation.description	[string] e.g.: NOT APPLICABLE Text describes that the designator of contract actions that support a declared contingency operation, a declared humanitarian operation or a declared peacekeeping operation.
organization.awards.contracts.federalBusinessOpportunity	[object] Records whether the synopsis requirements of FAR Subpart 5.2. have been observed.
organization.awards.contracts.federalBusinessOpportunity.code	[string] e.g.: X A code describes whether the synopsis requirements of FAR Subpart 5.2. have been observed.
organization.awards.contracts.federalBusinessOpportunity.description	[string] e.g.: NOT APPLICABLE Text describes whether the synopsis requirements of FAR Subpart 5.2. have been observed.
organization.awards.contracts.localAreaSpecialReservation	[object] Records when awarding emergency response contracts during the term of a major disaster or emergency declaration by the President of the United States under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U. S.C. 5121, et seq.), preference shall be given, to the extent feasible and practicable, to local firms.
organization.awards.contracts.localAreaSpecialReservation.code	[string] e.g.: N A code describes when awarding emergency response contracts during the term of a major disaster or emergency declaration by the President of the United States under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U. S.C. 5121, et seq.), preference shall be given, to the extent feasible and practicable, to local firms.
organization.awards.contracts.localAreaSpecialReservation.description	[string] e.g.: NO Text describes when awarding emergency response contracts during the term of a major disaster or emergency declaration by the President of the United States under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U. S.C. 5121, et seq.), preference shall be given, to the extent feasible and practicable, to local firms.
organization.awards.contracts.performanceBasedServiceAcquisition	[object] Records whether the contract action is a PBA of services as defined by FAR 37.601. A PBSA.
organization.awards.contracts.performanceBasedServiceAcqu	[string] e.g.: Y

isition.code	A code describes whether the contract action is a PBA of services as defined by FAR 37.601. A PBSA: a. Describes the requirements in terms of results required rather than the methods of performance of the work b. Uses measurable performance standards (i. e. terms of quality, timelines, quantity etc.) and quality assurance surveillance plans (refer to 46.103(a) and 46.401(a)) c. Specifies procedures for reductions of fee or for reductions to the price of a fixed-price contract when services are not performed or do not meet contract requirements (refer to 46.407) d. Includes performance incentives where applicable.
organization.awards.contracts.performanceBasedServiceAcquisition.description	[string] e.g.: YES - SERVICE WHERE PBA IS USED. Text describes whether the contract action is a PBA of services as defined by FAR 37.601. A PBSA: a. Describes the requirements in terms of results required rather than the methods of performance of the work b. Uses measurable performance standards (i. e. terms of quality, timelines, quantity etc.) and quality assurance surveillance plans (refer to 46.103(a) and 46.401(a)) c. Specifies procedures for reductions of fee or for reductions to the price of a fixed-price contract when services are not performed or do not meet contract requirements (refer to 46.407) d. Includes performance incentives where applicable.
organization.awards.contracts.purchaseCardPaymentMethod	[object] Records the method of payment is the purchase card.
organization.awards.contracts.purchaseCardPaymentMethod.code	[string] e.g.: N A code describes whether the method of payment is the purchase card. Agencies may issue formal contract documents and make payment using the purchase card. It is also permitted that agencies may report purchase card purchases.
organization.awards.contracts.purchaseCardPaymentMethod.description	[string] e.g.: NO Text describes whether the method of payment is the purchase card. Agencies may issue formal contract documents and make payment using the purchase card. It is also permitted that agencies may report purchase card purchases.
organization.awards.contracts.multiYearContract	[object] Records the contract for the purchase of supplies or services for more than 1, but not more than 5, program years.
organization.awards.contracts.multiYearContract.code	[string] e.g.: Y A code describes the contract for the purchase of supplies or services for more than 1, but not more than 5, program years. Such contracts are issued under specific congressional authority for specific programs.
organization.awards.contracts.multiYearContract.description	[string] e.g.: YES Text describes the contract for the purchase of supplies or services for more than 1, but not more than 5, program years. Such contracts are issued under specific congressional authority for specific programs. A multiyear contract may provide that performance under the contract during the second and subsequent years of the contract is contingent upon the appropriation of funds, and (if it does so provide) may provide for a cancellation payment to be made to the contractor if appropriations are not made.
organization.awards.contracts.transactionNumber	[integer] e.g.: 0

A Number is the "Tie" Breaker for legal, unique transactions that would otherwise have the same key.

organization.awards.contracts.parentContractID	[string] e.g.: GS00P10BQD0004 A identifier of the procurement award under which the specific award is issued (such as a Federal Supply Schedule).
organization.awards.contracts.parentContractModificationNumber	[string] e.g.: Mod123 A Number describes when reporting orders under Indefinite Delivery Vehicles (IDV) such as a GWAC, IDC, FSS, BOA, or BPA, report the Modification Number along with Procurement Instrument Identifier (Contract Number or Agreement Number) of the IDV. For the initial load of a BPA under a FSS, this is the FSS contract number. Note: BOAs and BPAs are with industry and not with other Federal Agencies.
organization.awards.contracts.baseExerciseOptionAmount	[object] Records monetary figures about the change (from this transaction only) to the current contract value (i.e., the base contract and any options that have been exercised).
organization.awards.contracts.baseExerciseOptionAmount.value	[string] e.g.: 250000.00 A monetary figure in US Dollars that represents the change (from this transaction only) to the current contract value (i.e., the base contract and any options that have been exercised).
organization.awards.contracts.currentTotalAmount	[object] Records total amount obligated to date on an award. For a contract, this amount includes the base and exercised options.
organization.awards.contracts.currentTotalAmount.value	[string] e.g.: 250000.00 A monetary figure in US Dollars that represents the total amount obligated to date on an award. For a contract, this amount includes the base and exercised options.
organization.awards.contracts.baseAndAllOptionsAmount	[object] Records the change (from this transaction only) to the potential contract value (i.e., the base contract and any exercised or unexercised options).
organization.awards.contracts.baseAndAllOptionsAmount.value	[string] e.g.: 250000.00 A monetary figure in US Dollars that represents the change (from this transaction only) to the potential contract value (i.e., the base contract and any exercised or unexercised options).
organization.awards.contracts.potentialTotalContractAmount	[object] Records total amount that could be obligated on a contract, if the base and all options are exercised.
organization.awards.contracts.potentialTotalContractAmount.value	[string] e.g.: 250000.00 A monetary figure in US Dollars that represents the total amount that could be obligated on a contract, if the base and all options are exercised.
organization.awards.contracts.solicitationID	[string] e.g.: W912HN09R0060 A Identifier used to link transactions in FPDS-NG to solicitation information.

organization.awards.contracts.solicitationDate	[string] e.g.: 2020-06-08 The date that specifies when the solicitation was issued.
organization.awards.contracts.isIDVRecord	[boolean] e.g.: false An Indicator describes whether the record was pulled from the award Atom feed or the IDV (Indefinite Delivery Vehicle) Atom Feed provided by FPDS. When "true", it means that the Contract is Indefinite Delivery Vehicle. When "false" it means that the Contract is not an Indefinite Delivery Vehicle.
organization.awards.contracts.isMultipleIDV	[boolean] e.g.: true An Indicator Indicates whether the contract is one of many that resulted from a single solicitation, all of the contracts are for the same or similar items, and contracting officers are required to compare their requirements with the offerings under more than one contract or are required to acquire the requirement competitively among the awardees. BPA ""Multiple or Single Award IDV"" value does not pull the ""Multiple or Single Award IDV"" value of the referenced FSS to the BPA. The ""Multiple or Single Award IDV"" value shall be required and selected by the user for all BPA bases created. When "true", it means that the Multiple Indefinite Delivery Vehicle Indicator is multiple. When "false", it means that the Multiple Indefinite Delivery Vehicle Indicator is single.
organization.awards.contracts.priceDifferencePercentage	[number] e.g.: 12.5 A Number describes that percent difference between the award price and the lowest priced offer from a responsive, responsible non-HUBZone or non-SDB.
organization.awards.contracts.programShortName	[string] e.g.: Prog1 Text describes the short name or title used for a GWAC or other contracting program. Examples include COMMITS, ITOPS, SEWP.
organization.awards.contracts.majorProgramDescription	[string] e.g.: JANSAN FEDERAL STRATEGIC SOURCING INITIATIVE Text describes the agency determined code for a major program within the agency. For an Indefinite Delivery Vehicle, this may be the name of a GWAC (e.g., ITOPS or COMMITS).
organization.awards.contracts.isParentMultipleIDV	[boolean] e.g.: true An Indicator indicates whether the contract of the referenced IDV is one of many that resulted from a single solicitation, all of the contracts are for the same or similar items, and contracting officers are required to compare their requirements with the offerings under more than one contract or are required to acquire the requirement competitively among the awardees. BPA "Multiple or Single Award IDV" value does not pull the "Multiple or Single Award IDV" value of the referenced FSS to the BPA. The "Multiple or Single Award IDV" value shall be required and selected by the user for all BPA bases created. When "true", it means that the multiple parent contract. When "false", it means that the Contract is not a multiple parent contract .
organization.awards.contracts.contractProjectTitle	[string] e.g.: Title1 The title of the contract.
organization.awards.contracts.disasterEmergencyFundDescri	[string] e.g.: None

ption	Text that describes the type of disaster related funding and is represented as a Letter.
organization.awards.contracts.disasterOutLayedFundAmount	[object] Records the total dollars paid in this award that is related to COVID 19 remediation.
organization.awards.contracts.disasterOutLayedFundAmount.value	[number] e.g.: 250000 A monetary figure in US Dollars that describes the total dollars paid in this award that is related to COVID 19 remediation.
organization.awards.contracts.disasterObligatedFundAmount	[object] Records the total dollars budgeted in this award that is related to COVID 19 remediation.
organization.awards.contracts.disasterObligatedFundAmount.value	[number] e.g.: 250000 A monetary figure in US Dollars that describes the total dollars budgeted in this award that is related to COVID 19 remediation.
organization.awards.contracts.socioEconomicClassification	[object] Records information about categorizing an organization into a type of business grouping based upon that organization's ability to meet the specific rules/guidelines established by the entities responsible for monitoring the individual programs in which the organization participates; e.g., Disabled Veteran Business Enterprise, Small Disadvantaged Business, Woman Business Enterprise. For example, a business that is both Disabled Owned and Veteran Owned could have a classification of Service Disabled Veteran.
organization.awards.contracts.socioEconomicClassification.dnbCode	[integer] e.g.: 9099 A D&B code that provides a method for categorizing an organization into a type of business grouping based upon that organization's ability to meet the specific rules/guidelines established by the entities responsible for monitoring the individual programs in which the organization participates; e.g., Disabled Veteran Business Enterprise, Small Disadvantaged Business, Woman Business Enterprise. For example, a business that is both Disabled Owned and Veteran Owned could have a classification of Service Disabled Veteran. Refer to Reference code table "272 [Socio Economic Classification] & 181 [Socio Economic Type] & 838 [Contract Socio Economic Classification Type]" for all possible values.
organization.awards.contracts.socioEconomicClassification.description	[string] e.g.: Female owned Text that provides a method for categorizing an organization into a type of business grouping based upon that organization's ability to meet the specific rules/guidelines established by the entities responsible for monitoring the individual programs in which the organization participates; e.g., Disabled Veteran Business Enterprise, Small Disadvantaged Business, Woman Business Enterprise. For example, a business that is both Disabled Owned and Veteran Owned could have a classification of Service Disabled Veteran.
organization.awards.contracts.characteristics	[array (object)] Records information about the kind of organization; e.g., us_federal_government, federal agency, us_state_government, us_local_government,city_local_government,county_local_government, inter_municipal_local_government, local_government_owned etc.

organization.awards.contracts.characteristics.dnbCode	<p>[integer] e.g.: 35321</p> <p>A D&B code that provides a method for categorizing an organization into a type of business grouping based upon that organization's ability to meet the specific rules/guidelines established by the entities responsible for monitoring the individual programs in which the organization participates; e.g., Disabled Veteran Business Enterprise, Small Disadvantaged Business, Woman Business Enterprise. For example, a business that is both Disabled Owned and Veteran Owned could have a classification of Service Disabled Veteran.</p> <p>Refer to Reference code table "813 [Contract Organization Characteristic Type]" for all possible values.</p>
organization.awards.contracts.characteristics.description	<p>[string] e.g.: Receives Contracts and Financial Assistance</p> <p>D&B text that provides a method for categorizing an organization into a type of business grouping based upon that organization's ability to meet the specific rules/guidelines established by the entities responsible for monitoring the individual programs in which the organization participates; e.g., Disabled Veteran Business Enterprise, Small Disadvantaged Business, Woman Business Enterprise. For example, a business that is both Disabled Owned and Veteran Owned could have a classification of Service Disabled Veteran.</p>
organization.awards.contracts.requisitions	<p>[array (object)]</p> <p>Records information about the product or service procured. Codes are defined in the Product and Service Codes Manual.</p>
organization.awards.contracts.requisitions.requisitionType	<p>[object]</p> <p>Records information that best identifies the product or service procured. Codes are defined in the Product and Service Codes Manual.</p>
organization.awards.contracts.requisitions.requisitionType.code	<p>[string] e.g.: 5120</p> <p>A code that best identifies the product or service procured. Codes are defined in the Product and Service Codes Manual.</p>
organization.awards.contracts.requisitions.requisitionType.description	<p>[string] e.g.: HAND TOOLS, NONEDGED, NONPOWERED</p> <p>A Text that best identifies the product or service procured. Codes are defined in the Product and Service Codes Manual.</p>
organization.awards.contracts.requisitions.dodClaimantProgram	<p>[object]</p> <p>Records a grouping of supplies, construction, or other services.</p>
organization.awards.contracts.requisitions.dodClaimantProgram.code	<p>[string] e.g.: C9B</p> <p>A Code designates a grouping of supplies, construction, or other services.</p>
organization.awards.contracts.requisitions.dodClaimantProgram.description	<p>[string] e.g.: MEDICAL AND DENTAL SUPPLIES AND EQUIPMENT</p> <p>A Text designates a grouping of supplies, construction, or other services.</p>
organization.awards.contracts.requisitions.naicsCode	<p>[string] e.g.: 444130</p> <p>A Code that represents the North American Industrial Classification System (NAICS) Code assigned to the solicitation and resulting award identifying the industry in which the contract requirements are normally</p>

performed.

organization.awards.contracts.requisitions.naicsDescription	[string] e.g.: HARDWARE STORES A Text that represents the North American Industrial Classification System (NAICS) Code assigned to the solicitation and resulting award identifying the industry in which the contract requirements are normally performed.
organization.awards.contracts.requisitions.dodAcquisitionProgram	[object] Records two codes that together identify the program and weapons system or equipment purchased by a DoD agency. The first character is a number 1-4 that identifies the DoD component. The last 3 characters identify that component's program, system, or equipment.
organization.awards.contracts.requisitions.dodAcquisitionProgram.code	[string] e.g.: 000 A Code describes that two codes that together identify the program and weapons system or equipment purchased by a DoD agency. The first character is a number 1-4 that identifies the DoD component. The last 3 characters identify that component's program, system, or equipment.
organization.awards.contracts.requisitions.dodAcquisitionProgram.description	[string] e.g.: NONE A Text describes that two codes that together identify the program and weapons system or equipment purchased by a DoD agency. The first character is a number 1-4 that identifies the DoD component. The last 3 characters identify that component's program, system, or equipment.
organization.awards.contracts.requisitions.itCommercialItemcategory	[object] Records the commercial availability of an information technology product or service.
organization.awards.contracts.requisitions.itCommercialItemcategory.code	[string] e.g.: Z A Code that designates the commercial availability of an information technology product or service.
organization.awards.contracts.requisitions.itCommercialItemcategory.description	[string] e.g.: NOT IT PRODUCTS OR SERVICES A Text that designates the commercial availability of an information technology product or service.
organization.awards.contracts.requisitions.recoveredMaterialSustainability	[object] Records whether Recovered Material Certification and/or Estimate of Percentage of Recovered Material Content for EPA-Designated Products clauses were included in the contract.
organization.awards.contracts.requisitions.recoveredMaterialSustainability.code	[string] e.g.: C A Code designates whether Recovered Material Certification and/or Estimate of Percentage of Recovered Material Content for EPA-Designated Products clauses were included in the contract.
organization.awards.contracts.requisitions.recoveredMaterialSustainability.description	[string] e.g.: NO CLAUSES INCLUDED AND NO SUSTAINABILITY INCLUDED A Text designates whether Recovered Material Certification and/or Estimate of Percentage of Recovered Material Content for EPA-Designated Products clauses were included in the contract.
organization.awards.contracts.requisitions.contractBundlingType	[object] Records information on "Bundling" or "bundled contract".

organization.awards.contracts.requisitions.contractBundlingType.code	<p>[string] e.g.: H</p> <p>A Code describes "Bundling" or "bundled contract" (1) Means the consolidating or combining of two or more requirements for supplies or services, previously provided or performed under separate smaller contracts, into a solicitation for a single contract, a multiple-award contract, a task order or delivery order that is likely to be unsuitable for award to a small business concern (but may be suitable for award to a small business with a Small Business Teaming Arrangement) due to- (i) The diversity, size, or specialized nature of the elements of the performance specified; (ii) The aggregate dollar value of the anticipated award; (iii) The geographical dispersion of the contract performance sites; or (iv) Any combination of the factors described in paragraphs (1)(i), (ii), and (iii) of this definition. (2) "Separate smaller contract" as used in this definition, means a contract that has been performed by one or more small business concerns or that was suitable for award to one or more small business concerns.</p>
organization.awards.contracts.requisitions.contractBundlingType.description	<p>[string] e.g.: NOT BUNDLED</p> <p>A Text describes "Bundling" or "bundled contract".</p>
organization.awards.contracts.requisitions.epaDesignatedProduct	<p>[object]</p> <p>Records information that the Resource Conservation and Recovery Act (RCRA), Section 6002, and Executive Order 13101 require the purchase of Environmental Protection Agency (EPA) -designated products with a required minimum recovered material content as described in an agency's Affirmative Procurement Program (APP).</p>
organization.awards.contracts.requisitions.epaDesignatedProduct.code	<p>[string] e.g.: E</p> <p>A Code describes that the Resource Conservation and Recovery Act (RCRA), Section 6002, and Executive Order 13101 require the purchase of Environmental Protection Agency (EPA) -designated products with a required minimum recovered material content as described in an agency's Affirmative Procurement Program (APP). This list of EPA-designated products is available at http://www.epa.gov/cpg. This requirement applies to all contracts that require EPA-designated products.</p>
organization.awards.contracts.requisitions.epaDesignatedProduct.description	<p>[string] e.g.: NOT REQUIRED</p> <p>A Text describes that the Resource Conservation and Recovery Act (RCRA), Section 6002, and Executive Order 13101 require the purchase of Environmental Protection Agency (EPA) -designated products with a required minimum recovered material content as described in an agency's Affirmative Procurement Program (APP).</p>
organization.awards.contracts.requisitions.consolidatedContract	<p>[object]</p> <p>Records information that the Consolidation, "consolidation of contract requirements," "consolidated contract," or "consolidated requirement".</p>
organization.awards.contracts.requisitions.consolidatedContract.code	<p>[string] e.g.: D</p> <p>A Code describes that the Consolidation, "consolidation of contract requirements," "consolidated contract," or "consolidated requirement"- (1) Means a solicitation for a single contract, a multiple award contract, a task order, or a delivery order to satisfy- (i) Two or more requirements of the Federal agency for supplies or services that have been provided to or performed for the Federal agency under two or more separate contracts, each of which was lower in cost than the total cost of the contract for which offers are solicited;</p>

or (ii) Requirements of the Federal agency for construction projects to be performed at two or more discrete sites. (2) "Separate contract" as used in this definition, means a contract that has been performed by any business, including small and other than small business concerns.

organization.awards.contracts.requisitions.consolidatedContract.description	[string] e.g.: NOT CONSOLIDATED A Text describes that the Consolidation, "consolidation of contract requirements," "consolidated contract," or "consolidated requirement".
organization.awards.contracts.requisitions.manufactureLocation	[object] Records information on the end products procured by the contract are manufactured inside or outside the U.S. in accordance with the Buy American Act (see FAR 25.1) and any exceptions or reasons for waivers employed.
organization.awards.contracts.requisitions.manufactureLocation.code	[string] e.g.: D A Code represents whether the end products procured by the contract are manufactured inside or outside the U.S. in accordance with the Buy American Act (see FAR 25.1) and any exceptions or reasons for waivers employed.
organization.awards.contracts.requisitions.manufactureLocation.description	[string] e.g.: MFG IN U.S. A Text represents whether the end products procured by the contract are manufactured inside or outside the U.S. in accordance with the Buy American Act (see FAR 25.1) and any exceptions or reasons for waivers employed.
organization.awards.contracts.requisitions.contractRequisitionCountry	[object] Records the country of product or service origin.
organization.awards.contracts.requisitions.contractRequisitionCountry.isoAlpha3Code	[string] e.g.: USA The 3 digit code that identifies the country of product or service origin.
organization.awards.contracts.requisitions.contractRequisitionCountry.name	[string] e.g.: United States A Text that identifies the country of product or service origin.
organization.awards.contracts.requisitions.govtFurnishedProperty	[object] Records information on the contract uses equipment or property furnished by the government, pursuant to FAR 45.
organization.awards.contracts.requisitions.govtFurnishedProperty.code	[string] e.g.: N A code describes the contract uses equipment or property furnished by the government, pursuant to FAR 45.
organization.awards.contracts.requisitions.govtFurnishedProperty.description	[string] e.g.: TRANSACTION DOES NOT USE GFE/GFP Text describes the contract uses equipment or property furnished by the government, pursuant to FAR 45.
organization.awards.contracts.requisitions.seaTransportation	[object] Records whether the contractor anticipates some of the supplies may be transported by sea.

organization.awards.contracts.requisitions.seaTransportation.code	[string] e.g.: U A code describes whether the contractor anticipates some of the supplies may be transported by sea.
organization.awards.contracts.requisitions.seaTransportation.description	[string] e.g.: UNKNOWN Text describes whether the contractor anticipates some of the supplies may be transported by sea.
organization.awards.contracts.competitions	[array (object)] Records information on how an contract was procured.
organization.awards.contracts.competitions.natureType	[object] Records the competitive nature of the contract.
organization.awards.contracts.competitions.natureType.code	[string] e.g.: A A Code that represents the competitive nature of the contract.
organization.awards.contracts.competitions.natureType.description	[string] e.g.: FULL AND OPEN COMPETITION A Text that represents the competitive nature of the contract.
organization.awards.contracts.competitions.fairOpportunityException	[object] Records the type of statutory exception to Fair Opportunity.
organization.awards.contracts.competitions.fairOpportunityException.code	[string] e.g.: URG A Code describes that the type of statutory exception to Fair Opportunity.
organization.awards.contracts.competitions.fairOpportunityException.description	[string] e.g.: URGENCY A Text describes that the type of statutory exception to Fair Opportunity.
organization.awards.contracts.competitions.competitionExemptionReason	[object] Records designation for solicitation procedures other than full and open competition pursuant to FAR 6.3.
organization.awards.contracts.competitions.competitionExemptionReason.code	[string] e.g.: BND A Code designates for solicitation procedures other than full and open competition pursuant to FAR 6.3.
organization.awards.contracts.competitions.competitionExemptionReason.description	[string] e.g.: BRAND NAME DESCRIPTION (FAR 6.302-1(C)) A Text designates for solicitation procedures other than full and open competition pursuant to FAR 6.3.
organization.awards.contracts.competitions.commercialItemAcquisitionProcedure	[object] Records whether the solicitation used the special requirements for the acquisition of commercial items (or other supplies or services authorized to use commercial item procedures) intended to more closely resemble those customarily used in the commercial marketplace as defined by FAR Part 12.
organization.awards.contracts.competitions.commercialItemAcquisitionProcedure.code	[string] e.g.: A A Code designates whether the solicitation used the special requirements for the acquisition of commercial items (or other supplies or services authorized to use commercial item procedures) intended to more closely resemble those customarily used in the commercial marketplace as defined by FAR Part 12.

organization.awards.contracts.competitions.commercialItemAcquisitionProcedure.description	[string] e.g.: COMMERCIAL ITEM A Text designates whether the solicitation used the special requirements for the acquisition of commercial items (or other supplies or services authorized to use commercial item procedures) intended to more closely resemble those customarily used in the commercial marketplace as defined by FAR Part 12.
organization.awards.contracts.competitions.specialReservation	[object] Records type of set aside determined for the contract action.
organization.awards.contracts.competitions.specialReservation.code	[string] e.g.: NONE A Code designates for type of set aside determined for the contract action.
organization.awards.contracts.competitions.specialReservation.description	[string] e.g.: NO SET ASIDE USED. A Text designates for type of set aside determined for the contract action.
organization.awards.contracts.competitions.evaluatedPreference	[object] Records type of preference determined for the contract action.
organization.awards.contracts.competitions.evaluatedPreference.code	[string] e.g.: NONE A Code designates for type of preference determined for the contract action.
organization.awards.contracts.competitions.evaluatedPreference.description	[string] e.g.: NO PREFERENCE USED A Text designates for type of preference determined for the contract action.
organization.awards.contracts.legislativeMandates	[array (object)] Records information about various legislative mandates apply to the contract.
organization.awards.contracts.legislativeMandates.interagencyContractingAuthority	[object] Records whether the transaction is an Economy Act or Statutory Authority.
organization.awards.contracts.legislativeMandates.interagencyContractingAuthority.code	[string] e.g.: A The Code describes whether the transaction is an Economy Act or Statutory Authority.
organization.awards.contracts.legislativeMandates.interagencyContractingAuthority.description	[string] e.g.: ECONOMY ACT A Text describes whether the transaction is an Economy Act or Statutory Authority.
organization.awards.contracts.legislativeMandates.statutoryAuthorityDescription	[string] e.g.: 40 U.S.C. SECTION 501 A Text describes whether the transaction is subject to other statutory authority. If "Interagency Contracting Authority" is "Other Statutory Authority" then an entry is required in this data element.
organization.awards.contracts.legislativeMandates.legislativeActs	[array (object)] Records information about governmental Acts for the legislative mandates that apply to the contract.
organization.awards.contracts.legislativeMandates.legislativeActs.actType	[object] Records the contract legislative acts, e.g., Clinger Cohen Planning Act, Walsh Healey Public Contracts Act (PCA), Labor Standard Act (also called Service Contract Act), Construction Wage Rate Requirement Act

	(also called Davis-Bacon Act)
organization.awards.contracts.legislativeMandates.legislativeActs.actType.code	[integer] e.g.: 35369 A D&B code that specifies the contract legislative acts, e.g., Clinger Cohen Planning Act, Walsh Healey Public Contracts Act (PCA), Labor Standard Act (also called Service Contract Act), Construction Wage Rate Requirement Act (also called Davis-Bacon Act)
organization.awards.contracts.legislativeMandates.legislativeActs.actType.description	[string] e.g.: Walsh Healey Public Contracts Act Text that specifies the contract legislative acts, e.g., Clinger Cohen Planning Act, Walsh Healey Public Contracts Act (PCA), Labor Standard Act (also called Service Contract Act), Construction Wage Rate Requirement Act (also called Davis-Bacon Act)
organization.awards.contracts.awardFundingObjectClasses	[string] e.g.: 20 The text that specifies the object class for this award. Object classes are categories in a classification system that presents obligations by the items or services purchased by the Federal Government. Each specific object class is defined in OMB Circular A-11 § 83.6.
organization.awards.contracts.awardFundingProgramActivities	[string] e.g.: 0001 The text that specifies the program funding this award. A program activity is a category within an appropriation account and are unique to each account. A program activity is a specific activity or project, as listed in the program and financing schedules of the annual budget of the U.S. government.
organization.awards.grants	[array (object)] Records information about the written agreements made between the Federal government and one or more role players participating in a financing event; e.g., lease, sale, rental, refinancing. It is the amount of money that the U.S. federal government owes to its creditors.
organization.awards.grants.awardID	[string] e.g.: asst_non_w912 The unique key for the award.
organization.awards.grants.assistanceType	[object] Records the kind of assistance provided by the award.
organization.awards.grants.assistanceType.code	[string] e.g.: 08 A code which specifies the type of assistance provided by the award, e.g., DIRECT LOAN (E), PROJECT GRANT (B), DIRECT PAYMENT FOR SPECIFIED USE, AS A SUBSIDY OR OTHER NON-REIMBURSABLE DIRECT FINANCIAL AID (C).
organization.awards.grants.assistanceType.description	[string] e.g.: GUARANTEED/INSURED LOAN (F) The text specifying the description of the kind of assistance provided by the award.
organization.awards.grants.awardingAgency	[object] Records the name associated with a department or establishment of the Government as used in the Treasury Account Fund Symbol (TAFS).

organization.awards.grants.awardingAgency.code	[string] e.g.: 086 A code of the department or establishment of the Government as used in the Treasury Account Fund Symbol (TAFS).
organization.awards.grants.awardingAgency.description	[string] e.g.: department of housing and urban development (hud) The text specifying the name associated with a department or establishment of the Government as used in the Treasury Account Fund Symbol (TAFS).
organization.awards.grants.awardingSubAgency	[object] Records the name of the name of the level 2 organization that provided the preponderance of the funds obligated.
organization.awards.grants.awardingSubAgency.code	[string] e.g.: 4732 Identifier of the level 2 organization that provided the preponderance of the funds obligated by this transaction.
organization.awards.grants.awardingSubAgency.description	[string] e.g.: FEDERAL ACQUISITION SERVICE The text specifying the name of the name of the level 2 organization that provided the preponderance of the funds obligated.
organization.awards.grants.awardingOffice	[object] Records the name of the level and organization that provided the preponderance of the funds obligated.
organization.awards.grants.awardingOffice.code	[string] e.g.: 47QSEA Identifier of the level and organization that provided the preponderance of the funds obligated.
organization.awards.grants.awardingOffice.description	[string] e.g.: GSA/FAS ADMIN SVCS ACQUISITION BR(2) The text specifying the name of the level and organization that provided the preponderance of the funds obligated.
organization.awards.grants.fundingAgency	[object] Records the name of the department or establishment of the Government that provided the preponderance of the funds for an award and/or individual transactions related to an award.
organization.awards.grants.fundingAgency.code	[string] e.g.: 047 The 3-digit CGAC agency code of the department or establishment of the Government that provided the preponderance of the funds for an award and/or individual transactions related to an award.
organization.awards.grants.fundingAgency.description	[string] e.g.: GENEGENERAL SERVICES ADMINISTRATION (GSA) The text specifying the name of the department or establishment of the Government that provided the preponderance of the funds for an award and/or individual transactions related to an award.
organization.awards.grants.fundingSubAgency	[object] Records the name of the name of the level 2 organization that provided the preponderance of the funds obligated.

organization.awards.grants.fundingSubAgency.code	[string] e.g.: 4732 Identifier of the level 2 organization that provided the preponderance of the funds obligated by this transaction.
organization.awards.grants.fundingSubAgency.description	[string] e.g.: FEDERAL ACQUISITION SERVICE The text specifying the name of the name of the level 2 organization that provided the preponderance of the funds obligated.
organization.awards.grants.fundingOffice	[object] Records the name of the level and organization that provided the preponderance of the funds obligated.
organization.awards.grants.fundingOffice.code	[string] e.g.: 47QSEA Identifier of the level and organization that provided the preponderance of the funds obligated.
organization.awards.grants.fundingOffice.description	[string] e.g.: GSA/FAS ADMIN SVCS ACQUISITION BR(2 The text specifying the name of the level and organization that provided the preponderance of the funds obligated.
organization.awards.grants.businessFunding	[object] Records the award's applicability to the recovery act. The text specifying the description tag (by way of the DATA Act Broker) that explains the meaning of the code provided in the business fund code.
organization.awards.grants.businessFunding.code	[string] e.g.: NON A code describes the award's applicability to the recovery act.
organization.awards.grants.businessFunding.description	[string] e.g.: NOT RECOVERY ACT The Text describes the award's applicability to the recovery act. The text specifying the description tag (by way of the DATA Act Broker) that explains the meaning of the code provided in the business fund code.
organization.awards.grants.businessType	[object] Records the business area.
organization.awards.grants.businessType.code	[string] e.g.: q A code which specifies the business areas. e.g., PRIVATE INSTITUTION OF HIGHER EDUCATION, FOR-PROFIT ORGANIZATION (OTHER THAN SMALL BUSINESS), INDEPENDENT SCHOOL DISTRICT, COUNTY GOVERNMENT etc.
organization.awards.grants.businessType.description	[string] e.g.: FOR-PROFIT ORGANIZATION (OTHER THAN SMALL BUSINESS) The text specifying the business area.
organization.awards.grants.cfdaNumber	[number] e.g.: 93.361 The number assigned to a federal area of work in the Catalog of Federal Domestic Assistance (CFDA).
organization.awards.grants.cfdaTitle	[string] e.g.: mortgage insurance homes The Text describes the title of the area of work under which the federal award was funded in the Catalog of

Federal Domestic Assistance (CFDA).

organization.awards.grants.fainID	[string] e.g.: fain123XAB The Text describes the Federal Award Identification Number (FAIN). Represents the unique id within the federal agency for each (nonaggregate) financial assistance award.
organization.awards.grants.awardModificationNumber	[string] e.g.: P00005 The identifier of an action being reported that indicates the specific subsequent change to the initial award.
organization.awards.grants.stateApplicationID	[string] e.g.: SAI EXEMPT A number assigned by state (as opposed to federal) review agencies to the award during the grant application process. This is also referred as SAI Number.
organization.awards.grants.totalNonFederalFundingAmount	[object] Records the total amount of the award funded by non-Federal source(s), in dollars. Program Income (as defined in 2 CFR § 200.80) is not included until such time that Program Income is generated and credited to the agreement.
organization.awards.grants.totalNonFederalFundingAmount.value	[number] e.g.: 2500000 The total amount of the award funded by non-Federal source(s), in dollars. Program Income (as defined in 2 CFR § 200.80) is not included until such time that Program Income is generated and credited to the agreement.
organization.awards.grants.totalNonFederalFundingAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.awards.grants.totalFundingAmount	[object] Records the sum of the Federal Funding Amount and the Non-Federal Funding Amount.
organization.awards.grants.totalFundingAmount.value	[number] e.g.: 2500000 The sum of the Federal Funding Amount and the Non-Federal Funding Amount.
organization.awards.grants.totalFundingAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.awards.grants.totalFaceValueLoanAmount	[object] Records the monetary figure specifying the total face value of the direct loan or loan guarantee.
organization.awards.grants.totalFaceValueLoanAmount.value	[number] e.g.: 2500000 The monetary figure specifying the total face value of the direct loan or loan guarantee.

organization.awards.grants.totalFaceValueLoanAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.awards.grants.totalOriginalLoanSubsidyAmount	[object] Records the estimated long-term total cost to the Government of a direct loan or loan guarantee, or modification thereof, calculated on a net present value basis, excluding administrative costs.
organization.awards.grants.totalOriginalLoanSubsidyAmount.value	[number] e.g.: 2500000 The estimated long-term total cost to the Government of a direct loan or loan guarantee, or modification thereof, calculated on a net present value basis, excluding administrative costs.
organization.awards.grants.totalOriginalLoanSubsidyAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.awards.grants.fundingTreasuryAccountNumber	[string] e.g.: 047-X-4534-001 The account number of the treasury funding this award.
organization.awards.grants.fundingFederalAccountNumber	[string] e.g.: 047-4534 The account number of the federal funding this award.
organization.awards.grants.awardDescription	[string] e.g.: BATTERIES,ALKALINE,AAA,12/PK A brief description of the purpose of the award.
organization.awards.grants.usaSpendingURL	[string] e.g.: https://www.usaspending.gov/#/award/CONT_AWD_47QSCC20F1Y47_4732_GS23FGA026_4732/ A Web Page Address is a telecommunication address used by a USA Spending for this award. This can be the address of a computer or a document on the Internet that consists of the identifier of a computer, using a host name or Internet Protocol (IP) address (as www.dnb.com), and optionally an explicit file location. The communications protocol followed by a colon and two slashes (http://) is not included in the Web Page address.
organization.awards.grants.usaSpendingURLModificationDate	[string] e.g.: 2020-09-18 The date when this award information was last updated in the USA Spending web page.
organization.awards.grants.transactions	[array (object)] Award Transaction entity records information about the data on each financial assistance transaction record and facilitate record lookup, correction, and deletion.
organization.awards.grants.transactions.uniqueKey	[string] e.g.: 3600_-NONE-_36C24919D0057_P00002_-NONE_-NONE- System-generated database key used to uniquely identify each financial assistance transaction record and facilitate record lookup, correction, and deletion. A concatenation of

AwardModificationAmendmentNumber, AwardingSubTierAgencyCode, FAIN, and URI with a single underscore ('_') character inserted in between each. If a field is blank, it is recorded as "- none-".

organization.awards.grants.recipients	[array (object)] Award Recipient entity records information regarding the legal entity which receives the award/assistance from the government.
organization.awards.grants.recipients.name	[string] e.g.: BUSINESS COUNCIL FOR INTERNATIONAL UNDERSTANDING, INC., THE The name of the awardee or recipient that relates to the unique identifier. For U.S. based companies, this name is what the business ordinarily files in formation documents with individual states (when required).
organization.awards.grants.recipients.tradeStyleName	[string] e.g.: CBRE HEERY The name of the awardee or recipient that relates to the unique identifier. For U.S. based companies, this name is what the business ordinarily files in formation documents with individual states (when required).
organization.awards.grants.recipients.duns	[string] e.g.: 804735132 The D-U-N-S® Number, a proprietary organizational identifier owned and managed by Dun & Bradstreet Inc, provides unique identification of a subject organization, in accordance with the Data Universal Numbering System (D-U-N-S®).
organization.awards.grants.recipients.cageCode	[string] e.g.: CAGE123 A Code describes Commercial And Government Entity Code of the contractor. Used as a key to SAM. Maps to the DUNS.
organization.awards.grants.recipients.telephone	[array (object)] The details of the Telephone contact information used for voice communication with the organization.
organization.awards.grants.recipients.telephone.telephoneNumber	[string] e.g.: 6505550000 The primary voice telephone number for the business, when dialing domestically. The National Telephone Number is created by combining the Domestic Area Code and the Local Number. A Domestic Area Code is a series of numbers that must be prefixed before dialing a telephone number in another local area. National telecommunication authorities use various formats and dialing rules for area codes. Also known as City Code. A Local Number is a series of numbers that represents a specific telephone line.
organization.awards.grants.recipients.fax	[array (object)] The details of the facsimile information used for data communication with the entity.
organization.awards.grants.recipients.fax.faxNumber	[string] e.g.: 6505550001 A sequence of digits used for facsimile communication with the entity. This sequence of digits includes the area code or city code and domestic dialing code.
organization.awards.grants.recipients.address	[object]

The details of the Primary Address at which the organization is located or conducts operations.

organization.awards.grants.recipients.address.addressCountry

[object]
The details of the country or region for this address of the organization.

organization.awards.grants.recipients.address.addressCountry.name

[string] e.g.: United States
The country or region for this address of the organization.

organization.awards.grants.recipients.address.addressCountry.isoAlpha3Code

[string] e.g.: USA
Code for the country in which the awardee or recipient is located, using the International Standard for country codes (ISO) 3166-1 Alpha-3 GENC Profile, minus the codes listed for those territories and possessions of the United States already identified as “states.”

organization.awards.grants.recipients.address.continentalRegion

[object]
The details of the continent for this address of the organization.

organization.awards.grants.recipients.address.continentalRegion.name

[string] e.g.: North America
The name of the continent for this address of the organization.
Possible values
Africa
Asia Pacific
Europe
Latin America
Middle East
North America

organization.awards.grants.recipients.address.addressCounty

[object]
The details of the geographical area of a Country or Region for this address of the organization. Countries divide their geography into smaller sub divisions.

County is an example of a commonly used subdivision. Often found in UK.

organization.awards.grants.recipients.address.addressCounty.name

[string] e.g.: SAN MATEO
The name of the geographical area of a Country or Region for this address of the organization.

Countries subdivide their geography into smaller sub divisions. County is an example of a commonly used subdivision, often found in the UK.

organization.awards.grants.recipients.address.addressCounty.code

[integer] e.g.: 3
Three-position numeric code for county from International Committee for Information Technology Standards (ANSI INCITS) county codes.

organization.awards.grants.recipients.address.addressLocality

[object]
The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.

organization.awards.grants.recipients.address.addressLocality.name	[string] e.g.: SAN FRANCISCO The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.
organization.awards.grants.recipients.address.addressRegion	[object] The name of the geographical area for this address of the organization. For Example New Jersey.
organization.awards.grants.recipients.address.addressRegion.name	[string] e.g.: California The name of the geographical area for this address of the organization. For Example New Jersey.
organization.awards.grants.recipients.address.addressRegion.abbreviatedName	[string] e.g.: NJ The shortened name of the geographical area for this address of the organization. For example NJ for the US State New Jersey within Country United States.
organization.awards.grants.recipients.address.postalCode	[string] e.g.: 941109999 The postal code for this address of the organization. Also known locally in various English-speaking countries throughout the world as a postcode, post code, Eircode, PIN or ZIP Code) is a series of letters or digits or both, sometimes including spaces or punctuation, included in a postal address for the purpose of sorting mail. The code is used by the country's postal authority to identify the address where the organization is located or conducts operations .
organization.awards.grants.recipients.address.postalCodeExtension	[string] e.g.: 9999 An extension to the postal code that identifies a street or building within the geographic area covered by the Postal Code.
organization.awards.grants.recipients.address.streetAddress	[object] The details of the street address for this address of the organization.
organization.awards.grants.recipients.address.streetAddress.line1	[string] e.g.: 492 KOLLER ST The first line of the address where the entity is located. The first line of this address of the organization. For example The Point in the address The Point 37 North Wharf Road London W2 1AF
organization.awards.grants.recipients.address.streetAddress.line2	[string] e.g.: Suite 100 The second line of this address of the organization. For example 37 North Wharf Road in the address The Point 37 North Wharf Road

London
W2 1AF

organization.awards.grants.recipients.address.congressionalDistrict	[string] e.g.: 02 The territorial subdivision for holding a separate election for one or more seats in a legislative body to which this address belongs.
organization.awards.grants.recipients.businessEntityTypeDescription	[string] e.g.: 19PCRD18KK924 Text that describes the structure of the entity as defined by the IRS.
organization.awards.grants.recipients.smallBusinessType	[object] Records the contracting officer's determination of whether the selected contractor meets the small business size standard for award to a small business for the NAICS code that is applicable to the contract.
organization.awards.grants.recipients.smallBusinessType.code	[string] e.g.: O A code describes the contracting officer's determination of whether the selected contractor meets the small business size standard for award to a small business for the NAICS code that is applicable to the contract.
organization.awards.grants.recipients.smallBusinessType.description	[string] e.g.: OTHER THAN SMALL BUSINESS Text describes the contracting officer's determination of whether the selected contractor meets the small business size standard for award to a small business for the NAICS code that is applicable to the contract.
organization.awards.grants.recipients.parent	[object] The details of the organization that owns more than 50% of the subject organization.
organization.awards.grants.recipients.parent.name	[string] e.g.: ABC Corp. The name of the ultimate parent of the awardee or recipient. Currently the name is from the global parent DUNS® number.
organization.awards.grants.recipients.parent.duns	[string] e.g.: 804735132 The D-U-N-S® number of the organization that owns more than 50% of the subject organization.
organization.awards.grants.recipients.highlyCompensatedOfficers	[array (object)] Records information about the details of individuals identified as one of the five most highly compensated "Executives." "Executive" means officers, managing partners, or any other employees in the sub-awardee's management positions.
organization.awards.grants.recipients.highlyCompensatedOfficers.name	[string] e.g.: NANCY KIPPER The name of an individual identified as one of the five most highly compensated "Executives." "Executive" means officers, managing partners, or any other employees in the sub-awardee's management positions.
organization.awards.grants.recipients.highlyCompensatedOfficers.totalCompensationAmount	[object] Records the cash and noncash dollar value earned by the one of the five most highly compensated "Executives" during the sub-awardee's preceding fiscal year and includes the following (for more information see 17 CFR 229.402c2): salary and bonuses, awards of stock, stock options, and stock

	appreciation rights, earnings for services under non-equity incentive plans, change in pension value, above market earnings on deferred compensation which is not tax qualified, and other compensation.
organization.awards.grants.recipients.highlyCompensatedOfficers.totalCompensationAmount.value	[number] e.g.: 250000 The cash and noncash dollar value earned by the one of the five most highly compensated “Executives” during the sub-awardee's preceding fiscal year and includes the following (for more information see 17 CFR 229.402c2): salary and bonuses, awards of stock, stock options, and stock appreciation rights, earnings for services under non-equity incentive plans, change in pension value, above market earnings on deferred compensation which is not tax qualified, and other compensation.
organization.awards.grants.recipients.highlyCompensatedOfficers.sequence	[integer] e.g.: 1 The number which specifies the Highly Compensated Officer., 1, 2 3 etc.
organization.awards.grants.performanceLocations	[array (object)] Records information about the principal place of performance for the activity supported by the award.
organization.awards.grants.performanceLocations.location	[object] Records where the predominant performance of the award will be accomplished.
organization.awards.grants.performanceLocations.location.code	[string] e.g.: 003 A code indicating where the predominant performance of the award will be accomplished.
organization.awards.grants.performanceLocations.location.description	[string] e.g.: Location1 For foreign places of performance: identify where the predominant performance of the award will be accomplished, describing it as specifically, as possible.
organization.awards.grants.performanceLocations.address	[object] The details of the Primary Address at which the organization is located or conducts operations.
organization.awards.grants.performanceLocations.address.addressCountry	[object] The details of the country or region for this address of the organization.
organization.awards.grants.performanceLocations.address.addressCountry.name	[string] e.g.: United States The country or region for this address of the organization.
organization.awards.grants.performanceLocations.address.addressCountry.isoAlpha3Code	[string] e.g.: USA Code for the country in which the awardee or recipient is located, using the International Standard for country codes (ISO) 3166-1 Alpha-3 GENC Profile, minus the codes listed for those territories and possessions of the United States already identified as “states.”
organization.awards.grants.performanceLocations.address.continentalRegion	[object] The details of the continent for this address of the organization.
organization.awards.grants.performanceLocations.address.continentalRegion.name	[string] e.g.: North America The name of the continent for this address of the organization.

	<p>Possible values</p> <p>Africa</p> <p>Asia Pacific</p> <p>Europe</p> <p>Latin America</p> <p>Middle East</p> <p>North America</p>
organization.awards.grants.performanceLocations.address.addressCounty	<p>[object]</p> <p>The details of the geographical area of a Country or Region for this address of the organization. Countries divide their geography into smaller sub divisions.</p> <p>County is an example of a commonly used subdivision. Often found in UK.</p>
organization.awards.grants.performanceLocations.address.addressCounty.name	<p>[string] e.g.: SAN MATEO</p> <p>The name of the geographical area of a Country or Region for this address of the organization.</p> <p>Countries subdivide their geography into smaller sub divisions. County is an example of a commonly used subdivision, often found in the UK.</p>
organization.awards.grants.performanceLocations.address.addressCounty.code	<p>[integer] e.g.: 3</p> <p>Three-position numeric code for county from International Committee for Information Technology Standards (ANSI INCITS) county codes.</p>
organization.awards.grants.performanceLocations.address.addressLocality	<p>[object]</p> <p>The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.</p>
organization.awards.grants.performanceLocations.address.addressLocality.name	<p>[string] e.g.: SAN FRANCISCO</p> <p>The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.</p>
organization.awards.grants.performanceLocations.address.addressRegion	<p>[object]</p> <p>The name of the geographical area for this address of the organization. For Example New Jersey.</p>
organization.awards.grants.performanceLocations.address.addressRegion.name	<p>[string] e.g.: California</p> <p>The name of the geographical area for this address of the organization. For Example New Jersey.</p>
organization.awards.grants.performanceLocations.address.addressRegion.abbreviatedName	<p>[string] e.g.: NJ</p> <p>The shortened name of the geographical area for this address of the organization. For example NJ for the US State New Jersey within Country United States.</p>
organization.awards.grants.performanceLocations.address.postalCode	<p>[string] e.g.: 941109999</p> <p>The postal code for this address of the organization.</p>

Also known locally in various English-speaking countries throughout the world as a postcode, post code, Eircode, PIN or ZIP Code) is a series of letters or digits or both, sometimes including spaces or punctuation, included in a postal address for the purpose of sorting mail. The code is used by the country's postal authority to identify the address where the organization is located or conducts operations .

organization.awards.grants.performanceLocations.address.postalCodeExtension	[string] e.g.: 9999 An extension to the postal code that identifies a street or building within the geographic area covered by the Postal Code.
organization.awards.grants.performanceLocations.address.streetAddress	[object] The details of the street address for this address of the organization.
organization.awards.grants.performanceLocations.address.streetAddress.line1	[string] e.g.: 492 KOLLER ST The first line of the address where the entity is located. The first line of this address of the organization. For example The Point in the address The Point 37 North Wharf Road London W2 1AF
organization.awards.grants.performanceLocations.address.streetAddress.line2	[string] e.g.: Suite 100 The second line of this address of the organization. For example 37 North Wharf Road in the address The Point 37 North Wharf Road London W2 1AF
organization.awards.grants.performanceLocations.address.congressionalDistrict	[string] e.g.: 02 The territorial subdivision for holding a separate election for one or more seats in a legislative body to which this address belongs.
organization.awards.grants.actions	[array (object)] Records information about the action taken under the award; the amount of money granted or de-obligated, relevant dates and the type of action.
organization.awards.grants.actions.actionType	[object] Records the changes made to the Federal prime award.
organization.awards.grants.actions.actionType.code	[string] e.g.: A1 A code which specifies the changes made to the Federal prime award. e.g., . C for Revision, A for New.
organization.awards.grants.actions.actionType.description	[string] e.g.: CHANGE ORDER

	The text specifying the business area.
organization.awards.grants.actions.recordType	[object] Describes the record type.
organization.awards.grants.actions.recordType.code	[string] e.g.: R1 A code which specifies the record type, e.g., aggregate, non-aggregate.
organization.awards.grants.actions.recordType.description	[string] e.g.: Record1 The text specifying the record type.
organization.awards.grants.actions.processingType	[object] Describes how the record should be processed.
organization.awards.grants.actions.processingType.code	[string] e.g.: P1 A code to indicate how the record should be processed: correction to an existing record; deletion of a record; new record.
organization.awards.grants.actions.processingType.description	[string] e.g.: Process1 The text specifying how the record should be processed.
organization.awards.grants.actions.actionDate	[string] e.g.: 2019-08-31 The date the action being reported was issued / signed by the Government or a binding agreement was reached.
organization.awards.grants.actions.actionFiscalYear	[string] e.g.: 2019 The fiscal year of the action being reported was issued / signed by the Government or a binding agreement was reached.
organization.awards.grants.actions.federalFundingAmount	[object] Records the monetary figure specifying the Federal government's obligation, deobligation, or liability for an award transaction.
organization.awards.grants.actions.federalFundingAmount.value	[number] e.g.: 250000 The monetary figure specifying the Federal government's obligation, deobligation, or liability for an award transaction.
organization.awards.grants.actions.federalFundingAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.awards.grants.actions.nonFederalFundingAmount	[object] Records the amount of the award funded by non-Federal source(s), in dollars. Program Income (as defined in 2 CFR § 200.80) is not included until such time that Program Income is generated and credited

	to the agreement.
organization.awards.grants.actions.nonFederalFundingAmount.value	[number] e.g.: 250000 The amount of the award funded by non-Federal source(s), in dollars. Program Income (as defined in 2 CFR § 200.80) is not included until such time that Program Income is generated and credited to the agreement.
organization.awards.grants.actions.nonFederalFundingAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.awards.grants.actions.faceValueLoanAmount	[object] Records the monetary figure specifying the face value of the direct loan or loan guarantee.
organization.awards.grants.actions.faceValueLoanAmount.value	[number] e.g.: 250000 The monetary figure specifying the face value of the direct loan or loan guarantee.
organization.awards.grants.actions.faceValueLoanAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.awards.grants.actions.originalLoanSubsidyAmount	[object] Records the estimated long-term cost to the Government of a direct loan or loan guarantee, or modification thereof, calculated on a net present value basis, excluding administrative costs.
organization.awards.grants.actions.originalLoanSubsidyAmount.value	[number] e.g.: 250000 The estimated long-term cost to the Government of a direct loan or loan guarantee, or modification thereof, calculated on a net present value basis, excluding administrative costs.
organization.awards.grants.actions.originalLoanSubsidyAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.awards.grants.actions.effectiveDate	[string] e.g.: 2019-07-22 The date on which, for the award referred to by the action being reported, awardee effort begins or the award is otherwise effective.
organization.awards.grants.actions.expirationDate	[string] e.g.: 2021-07-22 The current date on which, for the award referred to by the action being reported, awardee effort completes or the award is otherwise ended. Administrative actions related to this award may continue to occur after this date. This date does not apply to procurement indefinite delivery vehicles under which definitive orders may be awarded.

organization.awards.grants.actions.potentialExpirationDate	<p>[string] e.g.: 2021-07-22</p> <p>A date describes that for procurement, the date on which, for the award referred to by the action being reported if all potential pre-determined or prenegotiated options were exercised, awardee effort is completed or the award is otherwise ended. Administrative actions related to this award may continue to occur after this date. This date does not apply to procurement indefinite delivery vehicles under which definitive orders may be awarded.</p>
organization.awards.grants.actions.deliveryVehicleOrderExpirationDate	<p>[string] e.g.: 2021-07-22</p> <p>A Date describes that for procurement, the date on which, for the award referred to by the action being reported, no additional orders referring to it may be placed. This date applies only to procurement indefinite delivery vehicles (such as indefinite delivery contracts or blanket purchase agreements). Administrative actions related to this award may continue to occur after this date. The period of performance end dates for procurement orders issued under the indefinite delivery vehicle may extend beyond this date.</p>
organization.awards.grants.actions.actionsCount	<p>[integer] e.g.: 150</p> <p>A number input by the agency that identifies number of actions that are reported in one modification.</p>
organization.awards.grants.actions.actionLatestDate	<p>[string] e.g.: 2022-10-19</p> <p>The latest date the for the award action.</p>
organization.awards.grants.actions.actionLatestFiscalYear	<p>[string] e.g.: 2022</p> <p>The fiscal year of the latest action action date. Note that the Federal fiscal year begins on October 1 and ends on September 30, thus October 1, 2018 is the first day of the 2019 fiscal year.</p>
organization.awards.grants.subAwards	<p>[array (object)]</p> <p>Records information about the subdivision of the main account which received the government contracts, contract vehicles, grants, loans, and other types of awards issued by the federal government.</p>
organization.awards.grants.subAwards.awardType	<p>[object]</p> <p>Records the type of sub award, e.g., sub-grant, sub-contract.</p>
organization.awards.grants.subAwards.awardType.dnbCode	<p>[integer] e.g.: 35293</p> <p>A unique code assigned by Dun & Bradstreet specifying the type of sub award, e.g., sub-grant, sub-contract.</p> <p>DO NOT USE: Will always be NULL</p> <p>Refer to Reference code table "811 [Award Type]" for all possible values.</p>
organization.awards.grants.subAwards.awardType.description	<p>[string] e.g.: Sub Award 1</p> <p>Text specifying the type of sub award, e.g., sub-grant, sub-contract.</p>
organization.awards.grants.subAwards.businessType	<p>[object]</p> <p>Records the business areas. e.g., PRIVATE INSTITUTION OF HIGHER EDUCATION, FOR-PROFIT ORGANIZATION (OTHER THAN SMALL BUSINESS), INDEPENDENT SCHOOL DISTRICT, COUNTY GOVERNMENT etc.</p>

organization.awards.grants.subAwards.businessType.code	[string] e.g.: B1 A code which specifies the business areas. e.g., PRIVATE INSTITUTION OF HIGHER EDUCATION, FOR-PROFIT ORGANIZATION (OTHER THAN SMALL BUSINESS), INDEPENDENT SCHOOL DISTRICT, COUNTY GOVERNMENT etc.
organization.awards.grants.subAwards.businessType.description	[string] e.g.: Business 1 The text specifying the business area.
organization.awards.grants.subAwards.awardAmount	[object] Records the total amount being awarded to the sub award recipient.
organization.awards.grants.subAwards.awardAmount.value	[number] e.g.: 250000 The total amount being awarded to the sub award recipient.
organization.awards.grants.subAwards.awardAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.awards.grants.subAwards.awardID	[string] e.g.: CONT_AWD_HC102110P2005_9700_-NONE-_-NONE- A number which uniquely identifies this sub award.
organization.awards.grants.subAwards.actionDate	[string] e.g.: 2121716 The date the action being reported was issued / signed by the Government or a binding agreement was reached.
organization.awards.grants.subAwards.actionFiscalYear	[string] e.g.: 2016 The fiscal year of the action being reported was issued / signed by the Government or a binding agreement was reached.
organization.awards.grants.subAwards.awardDescription	[string] e.g.: Description A brief description of the purpose of the award.
organization.awards.grants.subAwards.ffataReportID	[string] e.g.: d992b63e20fcb9481dd41d2b673b6eae The FFATA Subaward Reporting System (FSRS) Report Identifier for the subaward.
organization.awards.grants.subAwards.ffataReportMonth	[integer] e.g.: 9 The FFATA Subaward Reporting System (FSRS) Report Period Month for the subaward.
organization.awards.grants.subAwards.ffataReportYear	[string] e.g.: 2020-01-01 The FFATA Subaward Reporting System (FSRS) Report Period Year for the subaward.
organization.awards.grants.subAwards.usaSpendingURL	[string] e.g.: https://www.usaspending.gov/#/award/ASST_NON_NU50CK000536_7523/ A Web Page Address is a telecommunication address used by a USA Spending for this award.

organization.awards.grants.subAwards.usaSpendingURLModificationDate	[string] e.g.: 2020-10-07 The date when this award information was last updated int the USA Spending web page.
organization.awards.grants.subAwards.recipients	[array (object)] Award Recipient entity records information regarding the legal entity which receives the award/assistance from the government.
organization.awards.grants.subAwards.recipients.name	[string] e.g.: BUSINESS COUNCIL FOR INTERNATIONAL UNDERSTANDING, INC., THE The name of the awardee or recipient that relates to the unique identifier. For U.S. based companies, this name is what the business ordinarily files in formation documents with individual states (when required).
organization.awards.grants.subAwards.recipients.tradeStyleName	[string] e.g.: CBRE HEERY The name of the awardee or recipient that relates to the unique identifier. For U.S. based companies, this name is what the business ordinarily files in formation documents with individual states (when required).
organization.awards.grants.subAwards.recipients.duns	[string] e.g.: 804735132 The D-U-N-S® Number, a proprietary organizational identifier owned and managed by Dun & Bradstreet Inc, provides unique identification of a subject organization, in accordance with the Data Universal Numbering System (D-U-N-S®).
organization.awards.grants.subAwards.recipients.cageCode	[string] e.g.: CAGE123 A Code describes Commercial And Government Entity Code of the contractor. Used as a key to SAM. Maps to the DUNS.
organization.awards.grants.subAwards.recipients.telephone	[array (object)] The details of the Telephone contact information used for voice communication with the organization.
organization.awards.grants.subAwards.recipients.telephone.telephoneNumber	[string] e.g.: 6505550000 The primary voice telephone number for the business, when dialing domestically. The National Telephone Number is created by combining the Domestic Area Code and the Local Number. A Domestic Area Code is a series of numbers that must be prefixed before dialing a telephone number in another local area. National telecommunication authorities use various formats and dialing rules for area codes. Also known as City Code. A Local Number is a series of numbers that represents a specific telephone line.
organization.awards.grants.subAwards.recipients.fax	[array (object)] The details of the facsimile information used for data communication with the entity.
organization.awards.grants.subAwards.recipients.fax.faxNumber	[string] e.g.: 6505550001 A sequence of digits used for facsimile communication with the entity. This sequence of digits includes the area code or city code and domestic dialing code.
organization.awards.grants.subAwards.recipients.address	[object]

	The details of the Primary Address at which the organization is located or conducts operations.
organization.awards.grants.subAwards.recipients.address.addressCountry	[object] The details of the country or region for this address of the organization.
organization.awards.grants.subAwards.recipients.address.addressCountry.name	[string] e.g.: United States The country or region for this address of the organization.
organization.awards.grants.subAwards.recipients.address.addressCountry.isoAlpha3Code	[string] e.g.: USA Code for the country in which the awardee or recipient is located, using the International Standard for country codes (ISO) 3166-1 Alpha-3 GENC Profile, minus the codes listed for those territories and possessions of the United States already identified as “states.”
organization.awards.grants.subAwards.recipients.address.continentalRegion	[object] The details of the continent for this address of the organization.
organization.awards.grants.subAwards.recipients.address.continentalRegion.name	[string] e.g.: North America The name of the continent for this address of the organization. Possible values Africa Asia Pacific Europe Latin America Middle East North America
organization.awards.grants.subAwards.recipients.address.addressCounty	[object] The details of the geographical area of a Country or Region for this address of the organization. Countries divide their geography into smaller sub divisions. County is an example of a commonly used subdivision. Often found in UK.
organization.awards.grants.subAwards.recipients.address.addressCounty.name	[string] e.g.: SAN MATEO The name of the geographical area of a Country or Region for this address of the organization. Countries subdivide their geography into smaller sub divisions. County is an example of a commonly used subdivision, often found in the UK.
organization.awards.grants.subAwards.recipients.address.addressCounty.code	[integer] e.g.: 3 Three-position numeric code for county from International Committee for Information Technology Standards (ANSI INCITS) county codes.
organization.awards.grants.subAwards.recipients.address.addressLocality	[object] The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.

organization.awards.grants.subAwards.recipients.address.addressLocality.name	[string] e.g.: SAN FRANCISCO The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.
organization.awards.grants.subAwards.recipients.address.addressRegion	[object] The name of the geographical area for this address of the organization. For Example New Jersey.
organization.awards.grants.subAwards.recipients.address.addressRegion.name	[string] e.g.: California The name of the geographical area for this address of the organization. For Example New Jersey.
organization.awards.grants.subAwards.recipients.address.addressRegion.abbreviatedName	[string] e.g.: NJ The shortened name of the geographical area for this address of the organization. For example NJ for the US State New Jersey within Country United States.
organization.awards.grants.subAwards.recipients.address.postalCode	[string] e.g.: 941109999 The postal code for this address of the organization. Also known locally in various English-speaking countries throughout the world as a postcode, post code, Eircode, PIN or ZIP Code) is a series of letters or digits or both, sometimes including spaces or punctuation, included in a postal address for the purpose of sorting mail. The code is used by the country's postal authority to identify the address where the organization is located or conducts operations .
organization.awards.grants.subAwards.recipients.address.postalCodeExtension	[string] e.g.: 9999 An extension to the postal code that identifies a street or building within the geographic area covered by the Postal Code.
organization.awards.grants.subAwards.recipients.address.streetAddress	[object] The details of the street address for this address of the organization.
organization.awards.grants.subAwards.recipients.address.streetAddress.line1	[string] e.g.: 492 KOLLER ST The first line of the address where the entity is located. The first line of this address of the organization. For example The Point in the address The Point 37 North Wharf Road London W2 1AF
organization.awards.grants.subAwards.recipients.address.streetAddress.line2	[string] e.g.: Suite 100 The second line of this address of the organization. For example 37 North Wharf Road in the address The Point 37 North Wharf Road

	London W2 1AF
organization.awards.grants.subAwards.recipients.address.congressionalDistrict	[string] e.g.: 02 The territorial subdivision for holding a separate election for one or more seats in a legislative body to which this address belongs.
organization.awards.grants.subAwards.recipients.businessEntityTypeDescription	[string] e.g.: 19PCRD18KK924 Text that describes the structure of the entity as defined by the IRS.
organization.awards.grants.subAwards.recipients.smallBusinessType	[object] Records the contracting officer's determination of whether the selected contractor meets the small business size standard for award to a small business for the NAICS code that is applicable to the contract.
organization.awards.grants.subAwards.recipients.smallBusinessType.code	[string] e.g.: O A code describes the contracting officer's determination of whether the selected contractor meets the small business size standard for award to a small business for the NAICS code that is applicable to the contract.
organization.awards.grants.subAwards.recipients.smallBusinessType.description	[string] e.g.: OTHER THAN SMALL BUSINESS Text describes the contracting officer's determination of whether the selected contractor meets the small business size standard for award to a small business for the NAICS code that is applicable to the contract.
organization.awards.grants.subAwards.recipients.parent	[object] The details of the organization that owns more than 50% of the subject organization.
organization.awards.grants.subAwards.recipients.parent.name	[string] e.g.: ABC Corp. The name of the ultimate parent of the awardee or recipient. Currently the name is from the global parent DUNS® number.
organization.awards.grants.subAwards.recipients.parent.duns	[string] e.g.: 804735132 The D-U-N-S® number of the organization that owns more than 50% of the subject organization.
organization.awards.grants.subAwards.recipients.highlyCompensatedOfficers	[array (object)] Records information about the details of individuals identified as one of the five most highly compensated "Executives." "Executive" means officers, managing partners, or any other employees in the sub-awardee's management positions.
organization.awards.grants.subAwards.recipients.highlyCompensatedOfficers.name	[string] e.g.: NANCY KIPPER The name of an individual identified as one of the five most highly compensated "Executives." "Executive" means officers, managing partners, or any other employees in the sub awardee's management positions.
organization.awards.grants.subAwards.recipients.highlyCompensatedOfficers.totalCompensationAmount	[object] Records the cash and noncash dollar value earned by the one of the five most highly compensated "Executives" during the sub-awardee's preceding fiscal year and includes the following (for more information see 17 CFR 229.402c2): salary and bonuses, awards of stock, stock options, and stock

appreciation rights, earnings for services under non-equity incentive plans, change in pension value, above market earnings on deferred compensation which is not tax qualified, and other compensation.

organization.awards.grants.subAwards.recipients.highlyCompensatedOfficers.totalCompensationAmount.value	[number] e.g.: 250000 The cash and noncash US dollar value earned by the one of the five most highly compensated “Executives” during the sub-awardee’s preceding fiscal year and includes the following (for more information see 17 CFR 229.402c2): salary and bonuses, awards of stock, stock options, and stock appreciation rights, earnings for services under non-equity incentive plans, change in pension value, above market earnings on deferred compensation which is not tax qualified, and other compensation.
organization.awards.grants.subAwards.recipients.highlyCompensatedOfficers.sequence	[integer] e.g.: 1 The number which specifies the Highly Compensated Officer,e.g., 1, 2 3 etc.
organization.awards.grants.subAwards.performanceLocations	[array (object)] Records information about the principal place of performance for the activity supported by the award.
organization.awards.grants.subAwards.performanceLocations.location	[object] Records where the predominant performance of the award will be accomplished.
organization.awards.grants.subAwards.performanceLocations.location.code	[string] e.g.: 003 A code indicating where the predominant performance of the award will be accomplished.
organization.awards.grants.subAwards.performanceLocations.location.description	[string] e.g.: Location1 For foreign places of performance: identify where the predominant performance of the award will be accomplished, describing it as specifically, as possible.
organization.awards.grants.subAwards.performanceLocations.address	[object] The details of the Primary Address at which the organization is located or conducts operations.
organization.awards.grants.subAwards.performanceLocations.address.addressCountry	[object] The details of the country or region for this address of the organization.
organization.awards.grants.subAwards.performanceLocations.address.addressCountry.name	[string] e.g.: United States The country or region for this address of the organization.
organization.awards.grants.subAwards.performanceLocations.address.addressCountry.isoAlpha3Code	[string] e.g.: USA Code for the country in which the awardee or recipient is located, using the International Standard for country codes (ISO) 3166-1 Alpha-3 GENC Profile, minus the codes listed for those territories and possessions of the United States already identified as “states.”
organization.awards.grants.subAwards.performanceLocations.address.continentalRegion	[object] The details of the continent for this address of the organization.
organization.awards.grants.subAwards.performanceLocations.address.continentalRegion.name	[string] e.g.: North America The name of the continent for this address of the organization.

Possible values
Africa
Asia Pacific
Europe
Latin America
Middle East
North America

organization.awards.grants.subAwards.performanceLocations .address.addressCounty	[object] The details of the geographical area of a Country or Region for this address of the organization. Countries divide their geography into smaller sub divisions. County is an example of a commonly used subdivision. Often found in UK.
organization.awards.grants.subAwards.performanceLocations .address.addressCounty.name	[string] e.g.: SAN MATEO The name of the geographical area of a Country or Region for this address of the organization. Countries subdivide their geography into smaller sub divisions. County is an example of a commonly used subdivision, often found in the UK.
organization.awards.grants.subAwards.performanceLocations .address.addressCounty.code	[integer] e.g.: 3 Three-position numeric code for county from International Committee for Information Technology Standards (ANSI INCITS) county codes.
organization.awards.grants.subAwards.performanceLocations .address.addressLocality	[object] The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.
organization.awards.grants.subAwards.performanceLocations .address.addressLocality.name	[string] e.g.: SAN FRANCISCO The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.
organization.awards.grants.subAwards.performanceLocations .address.addressRegion	[object] The name of the geographical area for this address of the organization. For Example New Jersey.
organization.awards.grants.subAwards.performanceLocations .address.addressRegion.name	[string] e.g.: California The name of the geographical area for this address of the organization. For Example New Jersey.
organization.awards.grants.subAwards.performanceLocations .address.addressRegion.abbreviatedName	[string] e.g.: NJ The shortened name of the geographical area for this address of the organization. For example NJ for the US State New Jersey within Country United States.
organization.awards.grants.subAwards.performanceLocations .address.postalCode	[string] e.g.: 941109999 The postal code for this address of the organization.

	Also known locally in various English-speaking countries throughout the world as a postcode, post code, Eircode, PIN or ZIP Code) is a series of letters or digits or both, sometimes including spaces or punctuation, included in a postal address for the purpose of sorting mail. The code is used by the country's postal authority to identify the address where the organization is located or conducts operations .
organization.awards.grants.subAwards.performanceLocations .address.postalCodeExtension	[string] e.g.: 9999 An extension to the postal code that identifies a street or building within the geographic area covered by the Postal Code.
organization.awards.grants.subAwards.performanceLocations .address.streetAddress	[object] The details of the street address for this address of the organization.
organization.awards.grants.subAwards.performanceLocations .address.streetAddress.line1	[string] e.g.: 492 KOLLER ST The first line of the address where the entity is located. The first line of this address of the organization. For example The Point in the address The Point 37 North Wharf Road London W2 1AF
organization.awards.grants.subAwards.performanceLocations .address.streetAddress.line2	[string] e.g.: Suite 100 The second line of this address of the organization. For example 37 North Wharf Road in the address The Point 37 North Wharf Road London W2 1AF
organization.awards.grants.subAwards.performanceLocations .address.congressionalDistrict	[string] e.g.: 02 The territorial subdivision for holding a separate election for one or more seats in a legislative body to which this address belongs.
organization.awards.grants.subAwards.subAwardPrimeAward Detail	[array (object)] Records the details of the award that is the originating source of funding or other consideration from the prime sponsor, a part of which may be awarded to a subrecipient via a subaward.
organization.awards.grants.subAwards.subAwardPrimeAward Detail.awardingAgency	[object] Records the name associated with a department or establishment of the Government as used in the Treasury Account Fund Symbol (TAFS).
organization.awards.grants.subAwards.subAwardPrimeAward Detail.awardingAgency.code	[string] e.g.: 086 A code of the department or establishment of the Government as used in the Treasury Account Fund

	Symbol (TAFS).
organization.awards.grants.subAwards.subAwardPrimeAwardDetail.awardingAgency.description	[string] e.g.: department of housing and urban development (hud) The text specifying the name associated with a department or establishment of the Government as used in the Treasury Account Fund Symbol (TAFS).
organization.awards.grants.subAwards.subAwardPrimeAwardDetail.awardingSubAgency	[object] Records the name of the name of the level 2 organization that provided the preponderance of the funds obligated.
organization.awards.grants.subAwards.subAwardPrimeAwardDetail.awardingSubAgency.code	[string] e.g.: 4732 Identifier of the level 2 organization that provided the preponderance of the funds obligated by this transaction.
organization.awards.grants.subAwards.subAwardPrimeAwardDetail.awardingSubAgency.description	[string] e.g.: FEDERAL ACQUISITION SERVICE The text specifying the name of the name of the level 2 organization that provided the preponderance of the funds obligated.
organization.awards.grants.subAwards.subAwardPrimeAwardDetail.awardingOffice	[object] Records the name of the level and organization that provided the preponderance of the funds obligated.
organization.awards.grants.subAwards.subAwardPrimeAwardDetail.awardingOffice.code	[string] e.g.: 47QSEA Identifier of the level and organization that provided the preponderance of the funds obligated.
organization.awards.grants.subAwards.subAwardPrimeAwardDetail.awardingOffice.description	[string] e.g.: GSA/FAS ADMIN SVCS ACQUISITION BR(2) The text specifying the name of the level and organization that provided the preponderance of the funds obligated.
organization.awards.grants.subAwards.subAwardPrimeAwardDetail.fundingAgency	[object] Records the name of the department or establishment of the Government that provided the preponderance of the funds for an award and/or individual transactions related to an award.
organization.awards.grants.subAwards.subAwardPrimeAwardDetail.fundingAgency.code	[string] e.g.: 047 The 3-digit CGAC agency code of the department or establishment of the Government that provided the preponderance of the funds for an award and/or individual transactions related to an award.
organization.awards.grants.subAwards.subAwardPrimeAwardDetail.fundingAgency.description	[string] e.g.: GENEGENERAL SERVICES ADMINISTRATION (GSA) The text specifying the name of the department or establishment of the Government that provided the preponderance of the funds for an award and/or individual transactions related to an award.
organization.awards.grants.subAwards.subAwardPrimeAwardDetail.fundingSubAgency	[object] Records the name of the name of the level 2 organization that provided the preponderance of the funds obligated.
organization.awards.grants.subAwards.subAwardPrimeAward	[string] e.g.: 4732

Detail.fundingSubAgency.code	Identifier of the level 2 organization that provided the preponderance of the funds obligated by this transaction.
organization.awards.grants.subAwards.subAwardPrimeAward Detail.fundingSubAgency.description	[string] e.g.: FEDERAL ACQUISITION SERVICE The text specifying the name of the name of the level 2 organization that provided the preponderance of the funds obligated.
organization.awards.grants.subAwards.subAwardPrimeAward Detail.fundingOffice	[object] Records the name of the level and organization that provided the preponderance of the funds obligated.
organization.awards.grants.subAwards.subAwardPrimeAward Detail.fundingOffice.code	[string] e.g.: 47QSEA Identifier of the level and organization that provided the preponderance of the funds obligated.
organization.awards.grants.subAwards.subAwardPrimeAward Detail.fundingOffice.description	[string] e.g.: GSA/FAS ADMIN SVCS ACQUISITION BR(2) The text specifying the name of the level and organization that provided the preponderance of the funds obligated.
organization.awards.grants.subAwards.subAwardPrimeAward Detail.businessType	[object] Records the business area.
organization.awards.grants.subAwards.subAwardPrimeAward Detail.businessType.description	[string] e.g.: FOR-PROFIT ORGANIZATION (OTHER THAN SMALL BUSINESS) The text specifying the business area.
organization.awards.grants.subAwards.subAwardPrimeAward Detail.cfdaNumber	[string] e.g.: 93.361 The number assigned to a federal area of work in the Catalog of Federal Domestic Assistance (CFDA).
organization.awards.grants.subAwards.subAwardPrimeAward Detail.cfdaTitle	[string] e.g.: mortgage insurance homes The Text describes the title of the area of work under which the federal award was funded in the Catalog of Federal Domestic Assistance (CFDA).
organization.awards.grants.subAwards.subAwardPrimeAward Detail.fainID	[string] e.g.: fain123XAB The Text describes the Federal Award Identification Number (FAIN). Represents the unique id within the federal agency for each (nonaggregate) financial assistance award.
organization.awards.grants.subAwards.subAwardPrimeAward Detail.awardAmount	[object] Records the total amount being awarded to the sub award recipient.
organization.awards.grants.subAwards.subAwardPrimeAward Detail.awardAmount.value	[number] e.g.: 250000 The total amount being awarded to the sub award recipient.
organization.awards.grants.subAwards.subAwardPrimeAward Detail.fundingTreasuryAccountNumber	[string] e.g.: 047-X-4534-001 The account number of the treasury funding this award.
organization.awards.grants.subAwards.subAwardPrimeAward Detail.fundingFederalAccountNumber	[string] e.g.: 047-4534 The account number of the federal funding this award.

organization.awards.grants.subAwards.subAwardPrimeAwardDetail.awardDescription	[string] e.g.: BATTERIES,ALKALINE,AAA,12/PK A brief description of the purpose of the award.
organization.awards.grants.subAwards.subAwardPrimeAwardDetail.contractID	[string] e.g.: Contr123 The unique identifier for each contract, agreement or order.
organization.awards.grants.subAwards.subAwardPrimeAwardDetail.parentContractID	[string] e.g.: GS00P10BQD0004 A identifier of the procurement award under which the specific award is issued (such as a Federal Supply Schedule).
organization.awards.grants.subAwards.subAwardPrimeAwardDetail.contractProjectTitle	[string] e.g.: Title1 The title of the contract.
organization.awards.grants.subAwards.subAwardPrimeAwardDetail.cfdaNumberAndTitle	[string] e.g.: mortgage insurance homes The Text describes the title of the area of work under which the federal award was funded in the Catalog of Federal Domestic Assistance (CFDA).
organization.awards.grants.subAwards.subAwardPrimeAwardDetail.awardFundingObjectClasses	[string] e.g.: 20 The text that specifies the object class for this award. Object classes are categories in a classification system that presents obligations by the items or services purchased by the Federal Government. Each specific object class is defined in OMB Circular A-11 § 83.6.
organization.awards.grants.subAwards.subAwardPrimeAwardDetail.awardFundingProgramActivities	[string] e.g.: 0001 The text that specifies the program funding this award. A program activity is a category within an appropriation account and are unique to each account. A program activity is a specific activity or project, as listed in the program and financing schedules of the annual budget of the U.S. government.
organization.awards.grants.subAwards.subAwardPrimeAwardDetail.disasterEmergencyFundDescription	[string] e.g.: None Text that describes the type of disaster related funding and is represented as a Letter.
organization.awards.grants.subAwards.subAwardPrimeAwardDetail.disasterOutlaidFundAmount	[object] Records the total dollars paid in this award that is related to COVID 19 remediation.
organization.awards.grants.subAwards.subAwardPrimeAwardDetail.disasterOutlaidFundAmount.value	[number] e.g.: 250000 A monetary figure in US Dollars that describes the total dollars paid in this award that is related to COVID 19 remediation.
organization.awards.grants.subAwards.subAwardPrimeAwardDetail.disasterObligatedFundAmount	[object] Records the total dollars budgeted in this award that is related to COVID 19 remediation.
organization.awards.grants.subAwards.subAwardPrimeAwardDetail.disasterObligatedFundAmount.value	[number] e.g.: 250000 A monetary figure in US Dollars that describes the total dollars budgeted in this award that is related to COVID 19 remediation.
organization.awards.grants.subAwards.subAwardPrimeAward	[object]

Detail.nationalInterestAction	Records the national interest for which the contract is created.
organization.awards.grants.subAwards.subAwardPrimeAward Detail.nationalInterestAction.code	[string] e.g.: NONE A code that represents the national interest for which the contract is created.
organization.awards.grants.subAwards.subAwardPrimeAward Detail.nationalInterestAction.description	[string] e.g.: NONE Text that represents the national interest for which the contract is created.
organization.awards.grants.awardFundingObjectClasses	[string] e.g.: 20 The text that specifies the object class for this award. Object classes are categories in a classification system that presents obligations by the items or services purchased by the Federal Government. Each specific object class is defined in OMB Circular A-11 § 83.6.
organization.awards.grants.awardFundingProgramActivities	[string] e.g.: 0001 The text that specifies the program funding this award. A program activity is a category within an appropriation account and are unique to each account. A program activity is a specific activity or project, as listed in the program and financing schedules of the annual budget of the U.S. government.
organization.awards.loans	[array (object)] Records information about the written agreements made between the Federal government and one or more role players participating in a financing event; e.g., lease, sale, rental, refinancing. It is the amount of money that the U.S. federal government owes to its creditors.
organization.awards.loans.awardID	[string] e.g.: asst_non_w912 The unique key for the award.
organization.awards.loans.assistanceType	[object] Records the kind of assistance provided by the award.
organization.awards.loans.assistanceType.code	[string] e.g.: 08 A code which specifies the type of assistance provided by the award, e.g., DIRECT LOAN (E), PROJECT GRANT (B), DIRECT PAYMENT FOR SPECIFIED USE, AS A SUBSIDY OR OTHER NON-REIMBURSABLE DIRECT FINANCIAL AID (C).
organization.awards.loans.assistanceType.description	[string] e.g.: GUARANTEED/INSURED LOAN (F) The text specifying the description of the kind of assistance provided by the award.
organization.awards.loans.awardingAgency	[object] Records the name associated with a department or establishment of the Government as used in the Treasury Account Fund Symbol (TAFS).
organization.awards.loans.awardingAgency.code	[string] e.g.: 086 A code of the department or establishment of the Government as used in the Treasury Account Fund Symbol (TAFS).

organization.awards.loans.awardingAgency.description	[string] e.g.: department of housing and urban development (hud) The text specifying the name associated with a department or establishment of the Government as used in the Treasury Account Fund Symbol (TAFS).
organization.awards.loans.awardingSubAgency	[object] Records the name of the name of the level 2 organization that provided the preponderance of the funds obligated.
organization.awards.loans.awardingSubAgency.code	[string] e.g.: 4732 Identifier of the level 2 organization that provided the preponderance of the funds obligated by this transaction.
organization.awards.loans.awardingSubAgency.description	[string] e.g.: FEDERAL ACQUISITION SERVICE The text specifying the name of the name of the level 2 organization that provided the preponderance of the funds obligated.
organization.awards.loans.awardingOffice	[object] Records the name of the level and organization that provided the preponderance of the funds obligated.
organization.awards.loans.awardingOffice.code	[string] e.g.: 47QSEA Identifier of the level and organization that provided the preponderance of the funds obligated.
organization.awards.loans.awardingOffice.description	[string] e.g.: GSA/FAS ADMIN SVCS ACQUISITION BR(2) The text specifying the name of the level and organization that provided the preponderance of the funds obligated.
organization.awards.loans.fundingAgency	[object] Records the name of the department or establishment of the Government that provided the preponderance of the funds for an award and/or individual transactions related to an award.
organization.awards.loans.fundingAgency.code	[string] e.g.: 047 The 3-digit CGAC agency code of the department or establishment of the Government that provided the preponderance of the funds for an award and/or individual transactions related to an award.
organization.awards.loans.fundingAgency.description	[string] e.g.: GENEGENERAL SERVICES ADMINISTRATION (GSA) The text specifying the name of the department or establishment of the Government that provided the preponderance of the funds for an award and/or individual transactions related to an award.
organization.awards.loans.fundingSubAgency	[object] Records the name of the name of the level 2 organization that provided the preponderance of the funds obligated.
organization.awards.loans.fundingSubAgency.code	[string] e.g.: 4732 Identifier of the level 2 organization that provided the preponderance of the funds obligated by this transaction.

organization.awards.loans.fundingSubAgency.description	[string] e.g.: FEDERAL ACQUISITION SERVICE The text specifying the name of the name of the level 2 organization that provided the preponderance of the funds obligated.
organization.awards.loans.fundingOffice	[object] Records the name of the level and organization that provided the preponderance of the funds obligated.
organization.awards.loans.fundingOffice.code	[string] e.g.: 47QSEA Identifier of the level and organization that provided the preponderance of the funds obligated.
organization.awards.loans.fundingOffice.description	[string] e.g.: GSA/FAS ADMIN SVCS ACQUISITION BR(2) The text specifying the name of the level and organization that provided the preponderance of the funds obligated.
organization.awards.loans.businessFunding	[object] Records the award's applicability to the recovery act. The text specifying the description tag (by way of the DATA Act Broker) that explains the meaning of the code provided in the business fund code.
organization.awards.loans.businessFunding.code	[string] e.g.: NON A code describes the award's applicability to the recovery act.
organization.awards.loans.businessFunding.description	[string] e.g.: NOT RECOVERY ACT The Text describes the award's applicability to the recovery act. The text specifying the description tag (by way of the DATA Act Broker) that explains the meaning of the code provided in the business fund code.
organization.awards.loans.businessType	[object] Records the business area.
organization.awards.loans.businessType.code	[string] e.g.: q A code which specifies the business areas. e.g., PRIVATE INSTITUTION OF HIGHER EDUCATION, FOR-PROFIT ORGANIZATION (OTHER THAN SMALL BUSINESS), INDEPENDENT SCHOOL DISTRICT, COUNTY GOVERNMENT etc.
organization.awards.loans.businessType.description	[string] e.g.: FOR-PROFIT ORGANIZATION (OTHER THAN SMALL BUSINESS) The text specifying the business area.
organization.awards.loans.cfdaNumber	[number] e.g.: 93.361 The number assigned to a federal area of work in the Catalog of Federal Domestic Assistance (CFDA).
organization.awards.loans.cfdaTitle	[string] e.g.: mortgage insurance homes The Text describes the title of the area of work under which the federal award was funded in the Catalog of Federal Domestic Assistance (CFDA).
organization.awards.loans.fainID	[string] e.g.: fain123XAB The Text describes the Federal Award Identification Number (FAIN). Represents the unique id within the

	federal agency for each (nonaggregate) financial assistance award.
organization.awards.loans.awardModificationNumber	[string] e.g.: P00005 The identifier of an action being reported that indicates the specific subsequent change to the initial award.
organization.awards.loans.stateApplicationID	[string] e.g.: SAI EXEMPT A number assigned by state (as opposed to federal) review agencies to the award during the grant application process. This is also referred as SAI Number.
organization.awards.loans.totalNonFederalFundingAmount	[object] Records the total amount of the award funded by non-Federal source(s), in dollars. Program Income (as defined in 2 CFR § 200.80) is not included until such time that Program Income is generated and credited to the agreement.
organization.awards.loans.totalNonFederalFundingAmount.value	[number] e.g.: 2500000 The total amount of the award funded by non-Federal source(s), in dollars. Program Income (as defined in 2 CFR § 200.80) is not included until such time that Program Income is generated and credited to the agreement.
organization.awards.loans.totalNonFederalFundingAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.awards.loans.totalFundingAmount	[object] Records the sum of the Federal Funding Amount and the Non-Federal Funding Amount.
organization.awards.loans.totalFundingAmount.value	[number] e.g.: 2500000 The sum of the Federal Funding Amount and the Non-Federal Funding Amount.
organization.awards.loans.totalFundingAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.awards.loans.totalFaceValueLoanAmount	[object] Records the monetary figure specifying the total face value of the direct loan or loan guarantee.
organization.awards.loans.totalFaceValueLoanAmount.value	[number] e.g.: 2500000 The monetary figure specifying the total face value of the direct loan or loan guarantee.
organization.awards.loans.totalFaceValueLoanAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).

organization.awards.loans.totalOriginalLoanSubsidyAmount	[object] Records the estimated long-term total cost to the Government of a direct loan or loan guarantee, or modification thereof, calculated on a net present value basis, excluding administrative costs.
organization.awards.loans.totalOriginalLoanSubsidyAmount.value	[number] e.g.: 2500000 The estimated long-term total cost to the Government of a direct loan or loan guarantee, or modification thereof, calculated on a net present value basis, excluding administrative costs.
organization.awards.loans.totalOriginalLoanSubsidyAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.awards.loans.fundingTreasuryAccountNumber	[string] e.g.: 047-X-4534-001 The account number of the treasury funding this award.
organization.awards.loans.fundingFederalAccountNumber	[string] e.g.: 047-4534 The account number of the federal funding this award.
organization.awards.loans.awardDescription	[string] e.g.: BATTERIES,ALKALINE,AAA,12/PK A brief description of the purpose of the award.
organization.awards.loans.usaSpendingURL	[string] e.g.: https://www.usaspending.gov/#/award/CONT_AWD_47QSCC20F1Y47_4732_GS23FGA026_4732/ A Web Page Address is a telecommunication address used by a USA Spending for this award. This can be the address of a computer or a document on the Internet that consists of the identifier of a computer, using a host name or Internet Protocol (IP) address (as www.dnb.com), and optionally an explicit file location. The communications protocol followed by a colon and two slashes (http://) is not included in the Web Page address.
organization.awards.loans.usaSpendingURLModificationDate	[string] e.g.: 2020-09-18 The date when this award information was last updated into the USA Spending web page.
organization.awards.loans.transactions	[array (object)] Award Transaction entity records information about the data on each financial assistance transaction record and facilitate record lookup, correction, and deletion.
organization.awards.loans.transactions.uniqueKey	[string] e.g.: 3600_-NONE-_36C24919D0057_P00002_-NONE-_NONE- System-generated database key used to uniquely identify each financial assistance transaction record and facilitate record lookup, correction, and deletion. A concatenation of AwardModificationAmendmentNumber, AwardingSubTierAgencyCode, FAIN, and URI with a single underscore ('_') character inserted in between each. If a field is blank, it is recorded as "- none-".
organization.awards.loans.recipients	[array (object)] Award Recipient entity records information regarding the legal entity which receives the award/assistance

	from the government.
organization.awards.loans.recipients.name	[string] e.g.: BUSINESS COUNCIL FOR INTERNATIONAL UNDERSTANDING, INC., THE The name of the awardee or recipient that relates to the unique identifier. For U.S. based companies, this name is what the business ordinarily files in formation documents with individual states (when required).
organization.awards.loans.recipients.tradeStyleName	[string] e.g.: CBRE HEERY The name of the awardee or recipient that relates to the unique identifier. For U.S. based companies, this name is what the business ordinarily files in formation documents with individual states (when required).
organization.awards.loans.recipients.duns	[string] e.g.: 804735132 The D-U-N-S® Number, a proprietary organizational identifier owned and managed by Dun & Bradstreet Inc, provides unique identification of a subject organization, in accordance with the Data Universal Numbering System (D-U-N-S®).
organization.awards.loans.recipients.cageCode	[string] e.g.: CAGE123 A Code describes Commercial And Government Entity Code of the contractor. Used as a key to SAM. Maps to the DUNS.
organization.awards.loans.recipients.telephone	[array (object)] The details of the Telephone contact information used for voice communication with the organization.
organization.awards.loans.recipients.telephone.telephoneNumber	[string] e.g.: 6505550000 The primary voice telephone number for the business, when dialing domestically. The National Telephone Number is created by combining the Domestic Area Code and the Local Number. A Domestic Area Code is a series of numbers that must be prefixed before dialing a telephone number in another local area. National telecommunication authorities use various formats and dialing rules for area codes. Also known as City Code. A Local Number is a series of numbers that represents a specific telephone line.
organization.awards.loans.recipients.fax	[array (object)] The details of the facsimile information used for data communication with the entity.
organization.awards.loans.recipients.fax.faxNumber	[string] e.g.: 6505550001 A sequence of digits used for facsimile communication with the entity. This sequence of digits includes the area code or city code and domestic dialing code.
organization.awards.loans.recipients.address	[object] The details of the Primary Address at which the organization is located or conducts operations.
organization.awards.loans.recipients.address.addressCountry	[object] The details of the country or region for this address of the organization.

organization.awards.loans.recipients.address.addressCountry.name	[string] e.g.: United States The country or region for this address of the organization.
organization.awards.loans.recipients.address.addressCountry.isoAlpha3Code	[string] e.g.: USA Code for the country in which the awardee or recipient is located, using the International Standard for country codes (ISO) 3166-1 Alpha-3 GENC Profile, minus the codes listed for those territories and possessions of the United States already identified as “states.”
organization.awards.loans.recipients.address.continentalRegion	[object] The details of the continent for this address of the organization.
organization.awards.loans.recipients.address.continentalRegion.name	[string] e.g.: North America The name of the continent for this address of the organization. Possible values Africa Asia Pacific Europe Latin America Middle East North America
organization.awards.loans.recipients.address.addressCounty	[object] The details of the geographical area of a Country or Region for this address of the organization. Countries divide their geography into smaller sub divisions. County is an example of a commonly used subdivision. Often found in UK.
organization.awards.loans.recipients.address.addressCounty.name	[string] e.g.: SAN MATEO The name of the geographical area of a Country or Region for this address of the organization. Countries subdivide their geography into smaller sub divisions. County is an example of a commonly used subdivision, often found in the UK.
organization.awards.loans.recipients.address.addressCounty.code	[integer] e.g.: 3 Three-position numeric code for county from International Committee for Information Technology Standards (ANSI INCITS) county codes.
organization.awards.loans.recipients.address.addressLocality	[object] The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.
organization.awards.loans.recipients.address.addressLocality.name	[string] e.g.: SAN FRANCISCO The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.

organization.awards.loans.recipients.address.addressRegion	[object] The name of the geographical area for this address of the organization. For Example New Jersey.
organization.awards.loans.recipients.address.addressRegion.name	[string] e.g.: California The name of the geographical area for this address of the organization. For Example New Jersey.
organization.awards.loans.recipients.address.addressRegion.abbreviatedName	[string] e.g.: NJ The shortened name of the geographical area for this address of the organization. For example NJ for the US State New Jersey within Country United States.
organization.awards.loans.recipients.address.postalCode	[string] e.g.: 941109999 The postal code for this address of the organization. Also known locally in various English-speaking countries throughout the world as a postcode, post code, Eircode, PIN or ZIP Code) is a series of letters or digits or both, sometimes including spaces or punctuation, included in a postal address for the purpose of sorting mail. The code is used by the country's postal authority to identify the address where the organization is located or conducts operations .
organization.awards.loans.recipients.address.postalCodeExtension	[string] e.g.: 9999 An extension to the postal code that identifies a street or building within the geographic area covered by the Postal Code.
organization.awards.loans.recipients.address.streetAddress	[object] The details of the street address for this address of the organization.
organization.awards.loans.recipients.address.streetAddress.line1	[string] e.g.: 492 KOLLER ST The first line of the address where the entity is located. The first line of this address of the organization. For example The Point in the address The Point 37 North Wharf Road London W2 1AF
organization.awards.loans.recipients.address.streetAddress.line2	[string] e.g.: Suite 100 The second line of this address of the organization. For example 37 North Wharf Road in the address The Point 37 North Wharf Road London W2 1AF
organization.awards.loans.recipients.address.congressionalDistrict	[string] e.g.: 02

strict	The territorial subdivision for holding a separate election for one or more seats in a legislative body to which this address belongs.
organization.awards.loans.recipients.businessEntityTypeDescription	[string] e.g.: 19PCRD18KK924 Text that describes the structure of the entity as defined by the IRS.
organization.awards.loans.recipients.smallBusinessType	[object] Records the contracting officer's determination of whether the selected contractor meets the small business size standard for award to a small business for the NAICS code that is applicable to the contract.
organization.awards.loans.recipients.smallBusinessType.code	[string] e.g.: O A code describes the contracting officer's determination of whether the selected contractor meets the small business size standard for award to a small business for the NAICS code that is applicable to the contract.
organization.awards.loans.recipients.smallBusinessType.description	[string] e.g.: OTHER THAN SMALL BUSINESS Text describes the contracting officer's determination of whether the selected contractor meets the small business size standard for award to a small business for the NAICS code that is applicable to the contract.
organization.awards.loans.recipients.parent	[object] The details of the organization that owns more than 50% of the subject organization.
organization.awards.loans.recipients.parent.name	[string] e.g.: ABC Corp. The name of the ultimate parent of the awardee or recipient. Currently the name is from the global parent DUNS® number.
organization.awards.loans.recipients.parent.duns	[string] e.g.: 804735132 The D-U-N-S® number of the organization that owns more than 50% of the subject organization.
organization.awards.loans.recipients.highlyCompensatedOfficers	[array (object)] Records information about the details of individuals identified as one of the five most highly compensated "Executives." "Executive" means officers, managing partners, or any other employees in the sub-awardee's management positions.
organization.awards.loans.recipients.highlyCompensatedOfficers.name	[string] e.g.: NANCY KIPPER The name of an individual identified as one of the five most highly compensated "Executives." "Executive" means officers, managing partners, or any other employees in the sub awardee's management positions.
organization.awards.loans.recipients.highlyCompensatedOfficers.totalCompensationAmount	[object] Records the cash and noncash dollar value earned by the one of the five most highly compensated "Executives" during the sub-awardee's preceding fiscal year and includes the following (for more information see 17 CFR 229.402c2): salary and bonuses, awards of stock, stock options, and stock appreciation rights, earnings for services under non-equity incentive plans, change in pension value, above market earnings on deferred compensation which is not tax qualified, and other compensation.
organization.awards.loans.recipients.highlyCompensatedOfficers	[number] e.g.: 250000

ers.totalCompensationAmount.value	The cash and noncash dollar value earned by the one of the five most highly compensated “Executives” during the sub-awardee's preceding fiscal year and includes the following (for more information see 17 CFR 229.402c2): salary and bonuses, awards of stock, stock options, and stock appreciation rights, earnings for services under non-equity incentive plans, change in pension value, above market earnings on deferred compensation which is not tax qualified, and other compensation.
organization.awards.loans.recipients.highlyCompensatedOfficers.sequence	[integer] e.g.: 1 The number which specifies the Highly Compensated Officer., 1, 2 3 etc.
organization.awards.loans.performanceLocations	[array (object)] Records information about the principal place of performance for the activity supported by the award.
organization.awards.loans.performanceLocations.location	[object] Records where the predominant performance of the award will be accomplished.
organization.awards.loans.performanceLocations.location.code	[string] e.g.: 003 A code indicating where the predominant performance of the award will be accomplished.
organization.awards.loans.performanceLocations.location.description	[string] e.g.: Location1 For foreign places of performance: identify where the predominant performance of the award will be accomplished, describing it as specifically, as possible.
organization.awards.loans.performanceLocations.address	[object] The details of the Primary Address at which the organization is located or conducts operations.
organization.awards.loans.performanceLocations.address.addressCountry	[object] The details of the country or region for this address of the organization.
organization.awards.loans.performanceLocations.address.addressCountry.name	[string] e.g.: United States The country or region for this address of the organization.
organization.awards.loans.performanceLocations.address.addressCountry.isoAlpha3Code	[string] e.g.: USA Code for the country in which the awardee or recipient is located, using the International Standard for country codes (ISO) 3166-1 Alpha-3 GENC Profile, minus the codes listed for those territories and possessions of the United States already identified as “states.”
organization.awards.loans.performanceLocations.address.continentalRegion	[object] The details of the continent for this address of the organization.
organization.awards.loans.performanceLocations.address.continentalRegion.name	[string] e.g.: North America The name of the continent for this address of the organization. Possible values Africa Asia Pacific Europe

	<p>Latin America</p> <p>Middle East</p> <p>North America</p>
organization.awards.loans.performanceLocations.address.addressCounty	<p>[object]</p> <p>The details of the geographical area of a Country or Region for this address of the organization. Countries divide their geography into smaller sub divisions.</p> <p>County is an example of a commonly used subdivision. Often found in UK.</p>
organization.awards.loans.performanceLocations.address.addressCounty.name	<p>[string] e.g.: SAN MATEO</p> <p>The name of the geographical area of a Country or Region for this address of the organization.</p> <p>Countries subdivide their geography into smaller sub divisions. County is an example of a commonly used subdivision, often found in the UK.</p>
organization.awards.loans.performanceLocations.address.addressCounty.code	<p>[integer] e.g.: 3</p> <p>Three-position numeric code for county from International Committee for Information Technology Standards (ANSI INCITS) county codes.</p>
organization.awards.loans.performanceLocations.address.addressLocality	<p>[object]</p> <p>The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.</p>
organization.awards.loans.performanceLocations.address.addressLocality.name	<p>[string] e.g.: SAN FRANCISCO</p> <p>The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.</p>
organization.awards.loans.performanceLocations.address.addressRegion	<p>[object]</p> <p>The name of the geographical area for this address of the organization. For Example New Jersey.</p>
organization.awards.loans.performanceLocations.address.addressRegion.name	<p>[string] e.g.: California</p> <p>The name of the geographical area for this address of the organization. For Example New Jersey.</p>
organization.awards.loans.performanceLocations.address.addressRegion.abbreviatedName	<p>[string] e.g.: NJ</p> <p>The shortened name of the geographical area for this address of the organization. For example NJ for the US State New Jersey within Country United States.</p>
organization.awards.loans.performanceLocations.address.postalCode	<p>[string] e.g.: 941109999</p> <p>The postal code for this address of the organization.</p> <p>Also known locally in various English-speaking countries throughout the world as a postcode, post code, Eircode, PIN or ZIP Code) is a series of letters or digits or both, sometimes including spaces or punctuation, included in a postal address for the purpose of sorting mail. The code is used by the country's postal authority to identify the address where the organization is located or conducts operations .</p>

organization.awards.loans.performanceLocations.address.postalCodeExtension	[string] e.g.: 9999 An extension to the postal code that identifies a street or building within the geographic area covered by the Postal Code.
organization.awards.loans.performanceLocations.address.streetAddress	[object] The details of the street address for this address of the organization.
organization.awards.loans.performanceLocations.address.streetAddress.line1	[string] e.g.: 492 KOLLER ST The first line of the address where the entity is located. The first line of this address of the organization. For example The Point in the address The Point 37 North Wharf Road London W2 1AF
organization.awards.loans.performanceLocations.address.streetAddress.line2	[string] e.g.: Suite 100 The second line of this address of the organization. For example 37 North Wharf Road in the address The Point 37 North Wharf Road London W2 1AF
organization.awards.loans.performanceLocations.address.congressionalDistrict	[string] e.g.: 02 The territorial subdivision for holding a separate election for one or more seats in a legislative body to which this address belongs.
organization.awards.loans.actions	[array (object)] Records information about the action taken under the award; the amount of money granted or de-obligated, relevant dates and the type of action.
organization.awards.loans.actions.actionType	[object] Records the changes made to the Federal prime award.
organization.awards.loans.actions.actionType.code	[string] e.g.: A1 A code which specifies the changes made to the Federal prime awardee's., . C for Revision, A for New.
organization.awards.loans.actions.actionType.description	[string] e.g.: CHANGE ORDER The text specifying the business area.
organization.awards.loans.actions.recordType	[object] Describes the record type.

organization.awards.loans.actions.recordType.code	[string] e.g.: R1 A code which specifies the record type, e.g., aggregate, non-aggregate.
organization.awards.loans.actions.recordType.description	[string] e.g.: Record1 The text specifying the record type.
organization.awards.loans.actions.processingType	[object] Describes how the record should be processed.
organization.awards.loans.actions.processingType.code	[string] e.g.: P1 A code to indicate how the record should be processed: correction to an existing record; deletion of a record; new record.
organization.awards.loans.actions.processingType.description	[string] e.g.: Process1 The text specifying how the record should be processed.
organization.awards.loans.actions.actionDate	[string] e.g.: 2019-08-31 The date the action being reported was issued / signed by the Government or a binding agreement was reached.
organization.awards.loans.actions.actionFiscalYear	[string] e.g.: 2019 The fiscal year of the action being reported was issued / signed by the Government or a binding agreement was reached.
organization.awards.loans.actions.federalFundingAmount	[object] Records the monetary figure specifying the Federal government's obligation, deobligation, or liability for an award transaction.
organization.awards.loans.actions.federalFundingAmount.value	[number] e.g.: 250000 The monetary figure specifying the Federal government's obligation, deobligation, or liability for an award transaction.
organization.awards.loans.actions.federalFundingAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.awards.loans.actions.nonFederalFundingAmount	[object] Records the amount of the award funded by non-Federal source(s), in dollars. Program Income (as defined in 2 CFR § 200.80) is not included until such time that Program Income is generated and credited to the agreement.
organization.awards.loans.actions.nonFederalFundingAmount.value	[number] e.g.: 250000 The amount of the award funded by non-Federal source(s), in dollars. Program Income (as defined in 2 CFR § 200.80) is not included until such time that Program Income is generated and credited to the

agreement.

organization.awards.loans.actions.nonFederalFundingAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.awards.loans.actions.faceValueLoanAmount	[object] Records the monetary figure specifying the face value of the direct loan or loan guarantee.
organization.awards.loans.actions.faceValueLoanAmount.value	[number] e.g.: 250000 The monetary figure specifying the face value of the direct loan or loan guarantee.
organization.awards.loans.actions.faceValueLoanAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.awards.loans.actions.originalLoanSubsidyAmount	[object] Records the estimated long-term cost to the Government of a direct loan or loan guarantee, or modification thereof, calculated on a net present value basis, excluding administrative costs.
organization.awards.loans.actions.originalLoanSubsidyAmount.value	[number] e.g.: 250000 The estimated long-term cost to the Government of a direct loan or loan guarantee, or modification thereof, calculated on a net present value basis, excluding administrative costs.
organization.awards.loans.actions.originalLoanSubsidyAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.awards.loans.actions.effectiveDate	[string] e.g.: 2019-07-22 The date on which, for the award referred to by the action being reported, awardee effort begins or the award is otherwise effective.
organization.awards.loans.actions.expirationDate	[string] e.g.: 2021-07-22 The current date on which, for the award referred to by the action being reported, awardee effort completes or the award is otherwise ended. Administrative actions related to this award may continue to occur after this date. This date does not apply to procurement indefinite delivery vehicles under which definitive orders may be awarded.
organization.awards.loans.actions.potentialExpirationDate	[string] e.g.: 2021-07-22 A date describes that for procurement, the date on which, for the award referred to by the action being reported if all potential pre-determined or prenegotiated options were exercised, awardee effort is completed or the award is otherwise ended. Administrative actions related to this award may continue to

occur after this date. This date does not apply to procurement indefinite delivery vehicles under which definitive orders may be awarded.

organization.awards.loans.actions.deliveryVehicleOrderExpirationDate	<p>[string] e.g.: 2021-07-22</p> <p>A Date describes that for procurement, the date on which, for the award referred to by the action being reported, no additional orders referring to it may be placed. This date applies only to procurement indefinite delivery vehicles (such as indefinite delivery contracts or blanket purchase agreements). Administrative actions related to this award may continue to occur after this date. The period of performance end dates for procurement orders issued under the indefinite delivery vehicle may extend beyond this date.</p>
organization.awards.loans.actions.actionsCount	<p>[integer] e.g.: 150</p> <p>A number input by the agency that identifies number of actions that are reported in one modification.</p>
organization.awards.loans.actions.actionLatestDate	<p>[string] e.g.: 2022-10-19</p> <p>The latest date the for the award action.</p>
organization.awards.loans.actions.actionLatestFiscalYear	<p>[string] e.g.: 2022</p> <p>The fiscal year of the latest action action date. Note that the Federal fiscal year begins on October 1 and ends on September 30, thus October 1, 2018 is the first day of the 2019 fiscal year.</p>
organization.awards.loans.subAwards	<p>[array (object)]</p> <p>Records information about the subdivision of the main account which received the government contracts, contract vehicles, grants, loans, and other types of awards issued by the federal government.</p>
organization.awards.loans.subAwards.awardType	<p>[object]</p> <p>Records the type of sub award, e.g., sub-grant, sub-contract.</p>
organization.awards.loans.subAwards.awardType.dnbCode	<p>[integer] e.g.: 35293</p> <p>A unique code assigned by Dun & Bradstreet specifying the type of sub award, e.g., sub-grant, sub-contract.</p> <p>DO NOT USE: Will always be NULL</p> <p>Refer to Reference code table "811 [Award Type]" for all possible values.</p>
organization.awards.loans.subAwards.awardType.description	<p>[string] e.g.: Sub Award 1</p> <p>Text specifying the type of sub award, e.g., sub-grant, sub-contract.</p>
organization.awards.loans.subAwards.businessType	<p>[object]</p> <p>Records the business areas. e.g., PRIVATE INSTITUTION OF HIGHER EDUCATION, FOR-PROFIT ORGANIZATION (OTHER THAN SMALL BUSINESS), INDEPENDENT SCHOOL DISTRICT, COUNTY GOVERNMENT etc.</p>
organization.awards.loans.subAwards.businessType.code	<p>[string] e.g.: B1</p> <p>A code which specifies the business areas. e.g., PRIVATE INSTITUTION OF HIGHER EDUCATION, FOR-PROFIT ORGANIZATION (OTHER THAN SMALL BUSINESS), INDEPENDENT SCHOOL DISTRICT, COUNTY GOVERNMENT etc.</p>

organization.awards.loans.subAwards.businessType.description	[string] e.g.: Business 1 The text specifying the business area.
organization.awards.loans.subAwards.awardAmount	[object] Records the total amount being awarded to the sub award recipient.
organization.awards.loans.subAwards.awardAmount.value	[number] e.g.: 250000 The total amount being awarded to the sub award recipient.
organization.awards.loans.subAwards.awardAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.awards.loans.subAwards.awardID	[string] e.g.: CONT_AWD_HC102110P2005_9700_-NONE_-NONE- A number which uniquely identifies this sub award.
organization.awards.loans.subAwards.actionDate	[string] e.g.: 2121716 The date the action being reported was issued / signed by the Government or a binding agreement was reached.
organization.awards.loans.subAwards.actionFiscalYear	[string] e.g.: 2016 The fiscal year of the action being reported was issued / signed by the Government or a binding agreement was reached.
organization.awards.loans.subAwards.awardDescription	[string] e.g.: Description A brief description of the purpose of the award.
organization.awards.loans.subAwards.ffataReportID	[string] e.g.: d992b63e20fcb9481dd41d2b673b6eae The FFATA Subaward Reporting System (FSRS) Report Identifier for the subaward.
organization.awards.loans.subAwards.ffataReportMonth	[integer] e.g.: 9 The FFATA Subaward Reporting System (FSRS) Report Period Month for the subaward.
organization.awards.loans.subAwards.ffataReportYear	[string] e.g.: 2020-01-01 The FFATA Subaward Reporting System (FSRS) Report Period Year for the subaward.
organization.awards.loans.subAwards.usaSpendingURL	[string] e.g.: https://www.usaspending.gov/#/award/ASST_NON_NU50CK000536_7523/ A Web Page Address is a telecommunication address used by a USA Spending for this award.
organization.awards.loans.subAwards.usaSpendingURLModificationDate	[string] e.g.: 2020-10-07 The date when this award information was last updated int the USA Spending web page.
organization.awards.loans.subAwards.recipients	[array (object)] Award Recipient entity records information regarding the legal entity which receives the award/assistance

from the government.

organization.awards.loans.subAwards.recipients.name	[string] e.g.: BUSINESS COUNCIL FOR INTERNATIONAL UNDERSTANDING, INC., THE The name of the awardee or recipient that relates to the unique identifier. For U.S. based companies, this name is what the business ordinarily files in formation documents with individual states (when required).
organization.awards.loans.subAwards.recipients.tradeStyleName	[string] e.g.: CBRE HEERY The name of the awardee or recipient that relates to the unique identifier. For U.S. based companies, this name is what the business ordinarily files in formation documents with individual states (when required).
organization.awards.loans.subAwards.recipients.duns	[string] e.g.: 804735132 The D-U-N-S® Number, a proprietary organizational identifier owned and managed by Dun & Bradstreet Inc, provides unique identification of a subject organization, in accordance with the Data Universal Numbering System (D-U-N-S®).
organization.awards.loans.subAwards.recipients.cageCode	[string] e.g.: CAGE123 A Code describes Commercial And Government Entity Code of the contractor. Used as a key to SAM. Maps to the DUNS.
organization.awards.loans.subAwards.recipients.telephone	[array (object)] The details of the Telephone contact information used for voice communication with the organization.
organization.awards.loans.subAwards.recipients.telephone.telephoneNumber	[string] e.g.: 6505550000 The primary voice telephone number for the business, when dialing domestically. The National Telephone Number is created by combining the Domestic Area Code and the Local Number. A Domestic Area Code is a series of numbers that must be prefixed before dialing a telephone number in another local area. National telecommunication authorities use various formats and dialing rules for area codes. Also known as City Code. A Local Number is a series of numbers that represents a specific telephone line.
organization.awards.loans.subAwards.recipients.fax	[array (object)] The details of the facsimile information used for data communication with the entity.
organization.awards.loans.subAwards.recipients.fax.faxNumber	[string] e.g.: 6505550001 A sequence of digits used for facsimile communication with the entity. This sequence of digits includes the area code or city code and domestic dialing code.
organization.awards.loans.subAwards.recipients.address	[object] The details of the Primary Address at which the organization is located or conducts operations.
organization.awards.loans.subAwards.recipients.address.addressCountry	[object] The details of the country or region for this address of the organization.

organization.awards.loans.subAwards.recipients.address.addressCountry.name	[string] e.g.: United States The country or region for this address of the organization.
organization.awards.loans.subAwards.recipients.address.addressCountry.isoAlpha3Code	[string] e.g.: USA Code for the country in which the awardee or recipient is located, using the International Standard for country codes (ISO) 3166-1 Alpha-3 GENC Profile, minus the codes listed for those territories and possessions of the United States already identified as “states.”
organization.awards.loans.subAwards.recipients.address.continentalRegion	[object] The details of the continent for this address of the organization.
organization.awards.loans.subAwards.recipients.address.continentalRegion.name	[string] e.g.: North America The name of the continent for this address of the organization. Possible values Africa Asia Pacific Europe Latin America Middle East North America
organization.awards.loans.subAwards.recipients.address.addressCountry	[object] The details of the geographical area of a Country or Region for this address of the organization. Countries divide their geography into smaller sub divisions. County is an example of a commonly used subdivision. Often found in UK.
organization.awards.loans.subAwards.recipients.address.addressCountry.name	[string] e.g.: SAN MATEO The name of the geographical area of a Country or Region for this address of the organization. Countries subdivide their geography into smaller sub divisions. County is an example of a commonly used subdivision, often found in the UK.
organization.awards.loans.subAwards.recipients.address.addressCountry.code	[integer] e.g.: 3 Three-position numeric code for county from International Committee for Information Technology Standards (ANSI INCITS) county codes.
organization.awards.loans.subAwards.recipients.address.addressLocality	[object] The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.
organization.awards.loans.subAwards.recipients.address.addressLocality.name	[string] e.g.: SAN FRANCISCO The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.

organization.awards.loans.subAwards.recipients.address.addressRegion	[object] The name of the geographical area for this address of the organization. For Example New Jersey.
organization.awards.loans.subAwards.recipients.address.addressRegion.name	[string] e.g.: California The name of the geographical area for this address of the organization. For Example New Jersey.
organization.awards.loans.subAwards.recipients.address.addressRegion.abbreviatedName	[string] e.g.: NJ The shortened name of the geographical area for this address of the organization. For example NJ for the US State New Jersey within Country United States.
organization.awards.loans.subAwards.recipients.address.postalCode	[string] e.g.: 941109999 The postal code for this address of the organization. Also known locally in various English-speaking countries throughout the world as a postcode, post code, Eircode, PIN or ZIP Code) is a series of letters or digits or both, sometimes including spaces or punctuation, included in a postal address for the purpose of sorting mail. The code is used by the country's postal authority to identify the address where the organization is located or conducts operations .
organization.awards.loans.subAwards.recipients.address.postalCodeExtension	[string] e.g.: 9999 An extension to the postal code that identifies a street or building within the geographic area covered by the Postal Code.
organization.awards.loans.subAwards.recipients.address.streetAddress	[object] The details of the street address for this address of the organization.
organization.awards.loans.subAwards.recipients.address.streetAddress.line1	[string] e.g.: 492 KOLLER ST The first line of the address where the entity is located. The first line of this address of the organization. For example The Point in the address The Point 37 North Wharf Road London W2 1AF
organization.awards.loans.subAwards.recipients.address.streetAddress.line2	[string] e.g.: Suite 100 The second line of this address of the organization. For example 37 North Wharf Road in the address The Point 37 North Wharf Road London W2 1AF
organization.awards.loans.subAwards.recipients.address.con	[string] e.g.: 02

gressionalDistrict	The territorial subdivision for holding a separate election for one or more seats in a legislative body to which this address belongs.
organization.awards.loans.subAwards.recipients.businessEntityTypeDescription	[string] e.g.: 19PCRD18KK924 Text that describes the structure of the entity as defined by the IRS.
organization.awards.loans.subAwards.recipients.smallBusinessType	[object] Records the contracting officer's determination of whether the selected contractor meets the small business size standard for award to a small business for the NAICS code that is applicable to the contract.
organization.awards.loans.subAwards.recipients.smallBusinessType.code	[string] e.g.: O A code describes the contracting officer's determination of whether the selected contractor meets the small business size standard for award to a small business for the NAICS code that is applicable to the contract.
organization.awards.loans.subAwards.recipients.smallBusinessType.description	[string] e.g.: OTHER THAN SMALL BUSINESS Text describes the contracting officer's determination of whether the selected contractor meets the small business size standard for award to a small business for the NAICS code that is applicable to the contract.
organization.awards.loans.subAwards.recipients.parent	[object] The details of the organization that owns more than 50% of the subject organization.
organization.awards.loans.subAwards.recipients.parent.name	[string] e.g.: ABC Corp. The name of the ultimate parent of the awardee or recipient. Currently the name is from the global parent DUNS® number.
organization.awards.loans.subAwards.recipients.parent.duns	[string] e.g.: 804735132 The D-U-N-S® number of the organization that owns more than 50% of the subject organization.
organization.awards.loans.subAwards.recipients.highlyCompensatedOfficers	[array (object)] Records information about the details of individuals identified as one of the five most highly compensated "Executives." "Executive" means officers, managing partners, or any other employees in the sub-awardee's management positions.
organization.awards.loans.subAwards.recipients.highlyCompensatedOfficers.name	[string] e.g.: NANCY KIPPER The name of an individual identified as one of the five most highly compensated "Executives." "Executive" means officers, managing partners, or any other employees in the sub awardee's management positions.
organization.awards.loans.subAwards.recipients.highlyCompensatedOfficers.totalCompensationAmount	[object] Records the cash and noncash dollar value earned by the one of the five most highly compensated "Executives" during the sub-awardee's preceding fiscal year and includes the following (for more information see 17 CFR 229.402c2): salary and bonuses, awards of stock, stock options, and stock appreciation rights, earnings for services under non-equity incentive plans, change in pension value, above market earnings on deferred compensation which is not tax qualified, and other compensation.
organization.awards.loans.subAwards.recipients.highlyCompensatedOfficers.salary	[number] e.g.: 250000

nsatedOfficers.totalCompensationAmount.value	The cash and noncash US dollar value earned by the one of the five most highly compensated “Executives” during the sub-awardee’s preceding fiscal year and includes the following (for more information see 17 CFR 229.402c2): salary and bonuses, awards of stock, stock options, and stock appreciation rights, earnings for services under non-equity incentive plans, change in pension value, above market earnings on deferred compensation which is not tax qualified, and other compensation.
organization.awards.loans.subAwards.recipients.highlyCompensatedOfficers.sequence	[integer] e.g.: 1 The number which specifies the Highly Compensated Officer,e.g., 1, 2 3 etc.
organization.awards.loans.subAwards.performanceLocations	[array (object)] Records information about the principal place of performance for the activity supported by the award.
organization.awards.loans.subAwards.performanceLocations.location	[object] Records where the predominant performance of the award will be accomplished.
organization.awards.loans.subAwards.performanceLocations.location.code	[string] e.g.: 003 A code indicating where the predominant performance of the award will be accomplished.
organization.awards.loans.subAwards.performanceLocations.location.description	[string] e.g.: Location1 For foreign places of performance: identify where the predominant performance of the award will be accomplished, describing it as specifically, as possible.
organization.awards.loans.subAwards.performanceLocations.address	[object] The details of the Primary Address at which the organization is located or conducts operations.
organization.awards.loans.subAwards.performanceLocations.address.addressCountry	[object] The details of the country or region for this address of the organization.
organization.awards.loans.subAwards.performanceLocations.address.addressCountry.name	[string] e.g.: United States The country or region for this address of the organization.
organization.awards.loans.subAwards.performanceLocations.address.addressCountry.isoAlpha3Code	[string] e.g.: USA Code for the country in which the awardee or recipient is located, using the International Standard for country codes (ISO) 3166-1 Alpha-3 GENC Profile, minus the codes listed for those territories and possessions of the United States already identified as “states.”
organization.awards.loans.subAwards.performanceLocations.address.continentalRegion	[object] The details of the continent for this address of the organization.
organization.awards.loans.subAwards.performanceLocations.address.continentalRegion.name	[string] e.g.: North America The name of the continent for this address of the organization. Possible values Africa Asia Pacific Europe

Latin America
Middle East
North America

organization.awards.loans.subAwards.performanceLocations. address.addressCounty	<p>[object] The details of the geographical area of a Country or Region for this address of the organization. Countries divide their geography into smaller sub divisions.</p> <p>County is an example of a commonly used subdivision. Often found in UK.</p>
organization.awards.loans.subAwards.performanceLocations. address.addressCounty.name	<p>[string] e.g.: SAN MATEO The name of the geographical area of a Country or Region for this address of the organization.</p> <p>Countries subdivide their geography into smaller sub divisions. County is an example of a commonly used subdivision, often found in the UK.</p>
organization.awards.loans.subAwards.performanceLocations. address.addressCounty.code	<p>[integer] e.g.: 3 Three-position numeric code for county from International Committee for Information Technology Standards (ANSI INCITS) county codes.</p>
organization.awards.loans.subAwards.performanceLocations. address.addressLocality	<p>[object] The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.</p>
organization.awards.loans.subAwards.performanceLocations. address.addressLocality.name	<p>[string] e.g.: SAN FRANCISCO The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.</p>
organization.awards.loans.subAwards.performanceLocations. address.addressRegion	<p>[object] The name of the geographical area for this address of the organization. For Example New Jersey.</p>
organization.awards.loans.subAwards.performanceLocations. address.addressRegion.name	<p>[string] e.g.: California The name of the geographical area for this address of the organization. For Example New Jersey.</p>
organization.awards.loans.subAwards.performanceLocations. address.addressRegion.abbreviatedName	<p>[string] e.g.: NJ The shortened name of the geographical area for this address of the organization. For example NJ for the US State New Jersey within Country United States.</p>
organization.awards.loans.subAwards.performanceLocations. address.postalCode	<p>[string] e.g.: 941109999 The postal code for this address of the organization.</p> <p>Also known locally in various English-speaking countries throughout the world as a postcode, post code, Eircode, PIN or ZIP Code) is a series of letters or digits or both, sometimes including spaces or punctuation, included in a postal address for the purpose of sorting mail. The code is used by the country's postal authority to identify the address where the organization is located or conducts operations .</p>

organization.awards.loans.subAwards.performanceLocations.address.postalCodeExtension	[string] e.g.: 9999 An extension to the postal code that identifies a street or building within the geographic area covered by the Postal Code.
organization.awards.loans.subAwards.performanceLocations.address.streetAddress	[object] The details of the street address for this address of the organization.
organization.awards.loans.subAwards.performanceLocations.address.streetAddress.line1	[string] e.g.: 492 KOLLER ST The first line of the address where the entity is located. The first line of this address of the organization. For example The Point in the address The Point 37 North Wharf Road London W2 1AF
organization.awards.loans.subAwards.performanceLocations.address.streetAddress.line2	[string] e.g.: Suite 100 The second line of this address of the organization. For example 37 North Wharf Road in the address The Point 37 North Wharf Road London W2 1AF
organization.awards.loans.subAwards.performanceLocations.address.congressionalDistrict	[string] e.g.: 02 The territorial subdivision for holding a separate election for one or more seats in a legislative body to which this address belongs.
organization.awards.loans.subAwards.subAwardPrimeAwardDetail	[array (object)] Records the details of the award that is the originating source of funding or other consideration from the prime sponsor, a part of which may be awarded to a subrecipient via a subaward.
organization.awards.loans.subAwards.subAwardPrimeAwardDetail.awardingAgency	[object] Records the name associated with a department or establishment of the Government as used in the Treasury Account Fund Symbol (TAFS).
organization.awards.loans.subAwards.subAwardPrimeAwardDetail.awardingAgency.code	[string] e.g.: 086 A code of the department or establishment of the Government as used in the Treasury Account Fund Symbol (TAFS).
organization.awards.loans.subAwards.subAwardPrimeAwardDetail.awardingAgency.description	[string] e.g.: department of housing and urban development (hud) The text specifying the name associated with a department or establishment of the Government as used in the Treasury Account Fund Symbol (TAFS).

organization.awards.loans.subAwards.subAwardPrimeAwardDetail.awardingSubAgency	[object] Records the name of the name of the level 2 organization that provided the preponderance of the funds obligated.
organization.awards.loans.subAwards.subAwardPrimeAwardDetail.awardingSubAgency.code	[string] e.g.: 4732 Identifier of the level 2 organization that provided the preponderance of the funds obligated by this transaction.
organization.awards.loans.subAwards.subAwardPrimeAwardDetail.awardingSubAgency.description	[string] e.g.: FEDERAL ACQUISITION SERVICE The text specifying the name of the name of the level 2 organization that provided the preponderance of the funds obligated.
organization.awards.loans.subAwards.subAwardPrimeAwardDetail.awardingOffice	[object] Records the name of the level and organization that provided the preponderance of the funds obligated.
organization.awards.loans.subAwards.subAwardPrimeAwardDetail.awardingOffice.code	[string] e.g.: 47QSEA Identifier of the level and organization that provided the preponderance of the funds obligated.
organization.awards.loans.subAwards.subAwardPrimeAwardDetail.awardingOffice.description	[string] e.g.: GSA/FAS ADMIN SVCS ACQUISITION BR(2 The text specifying the name of the level and organization that provided the preponderance of the funds obligated.
organization.awards.loans.subAwards.subAwardPrimeAwardDetail.fundingAgency	[object] Records the name of the department or establishment of the Government that provided the preponderance of the funds for an award and/or individual transactions related to an award.
organization.awards.loans.subAwards.subAwardPrimeAwardDetail.fundingAgency.code	[string] e.g.: 047 The 3-digit CGAC agency code of the department or establishment of the Government that provided the preponderance of the funds for an award and/or individual transactions related to an award.
organization.awards.loans.subAwards.subAwardPrimeAwardDetail.fundingAgency.description	[string] e.g.: GENEGENERAL SERVICES ADMINISTRATION (GSA) The text specifying the name of the department or establishment of the Government that provided the preponderance of the funds for an award and/or individual transactions related to an award.
organization.awards.loans.subAwards.subAwardPrimeAwardDetail.fundingSubAgency	[object] Records the name of the name of the level 2 organization that provided the preponderance of the funds obligated.
organization.awards.loans.subAwards.subAwardPrimeAwardDetail.fundingSubAgency.code	[string] e.g.: 4732 Identifier of the level 2 organization that provided the preponderance of the funds obligated by this transaction.
organization.awards.loans.subAwards.subAwardPrimeAwardDetail.fundingSubAgency.description	[string] e.g.: FEDERAL ACQUISITION SERVICE The text specifying the name of the name of the level 2 organization that provided the preponderance of the funds obligated.

organization.awards.loans.subAwards.subAwardPrimeAwardDetail.fundingOffice	[object] Records the name of the level and organization that provided the preponderance of the funds obligated.
organization.awards.loans.subAwards.subAwardPrimeAwardDetail.fundingOffice.code	[string] e.g.: 47QSEA Identifier of the level and organization that provided the preponderance of the funds obligated.
organization.awards.loans.subAwards.subAwardPrimeAwardDetail.fundingOffice.description	[string] e.g.: GSA/FAS ADMIN SVCS ACQUISITION BR(2) The text specifying the name of the level and organization that provided the preponderance of the funds obligated.
organization.awards.loans.subAwards.subAwardPrimeAwardDetail.businessType	[object] Records the business area.
organization.awards.loans.subAwards.subAwardPrimeAwardDetail.businessType.description	[string] e.g.: FOR-PROFIT ORGANIZATION (OTHER THAN SMALL BUSINESS) The text specifying the business area.
organization.awards.loans.subAwards.subAwardPrimeAwardDetail.cfdaNumber	[string] e.g.: 93.361 The number assigned to a federal area of work in the Catalog of Federal Domestic Assistance (CFDA).
organization.awards.loans.subAwards.subAwardPrimeAwardDetail.cfdaTitle	[string] e.g.: mortgage insurance homes The Text describes the title of the area of work under which the federal award was funded in the Catalog of Federal Domestic Assistance (CFDA).
organization.awards.loans.subAwards.subAwardPrimeAwardDetail.fainID	[string] e.g.: fain123XAB The Text describes the Federal Award Identification Number (FAIN). Represents the unique id within the federal agency for each (nonaggregate) financial assistance award.
organization.awards.loans.subAwards.subAwardPrimeAwardDetail.awardAmount	[object] Records the total amount being awarded to the sub award recipient.
organization.awards.loans.subAwards.subAwardPrimeAwardDetail.awardAmount.value	[number] e.g.: 250000 The total amount being awarded to the sub award recipient.
organization.awards.loans.subAwards.subAwardPrimeAwardDetail.fundingTreasuryAccountNumber	[string] e.g.: 047-X-4534-001 The account number of the treasury funding this award.
organization.awards.loans.subAwards.subAwardPrimeAwardDetail.fundingFederalAccountNumber	[string] e.g.: 047-4534 The account number of the federal funding this award.
organization.awards.loans.subAwards.subAwardPrimeAwardDetail.awardDescription	[string] e.g.: BATTERIES,ALKALINE,AAA,12/PK A brief description of the purpose of the award.
organization.awards.loans.subAwards.subAwardPrimeAwardDetail.contractID	[string] e.g.: Contr123 The unique identifier for each contract, agreement or order.

organization.awards.loans.subAwards.subAwardPrimeAwardDetail.parentContractID	[string] e.g.: GS00P10BQD0004 A identifier of the procurement award under which the specific award is issued (such as a Federal Supply Schedule).
organization.awards.loans.subAwards.subAwardPrimeAwardDetail.contractProjectTitle	[string] e.g.: Title1 The title of the contract.
organization.awards.loans.subAwards.subAwardPrimeAwardDetail.cfdaNumberAndTitle	[string] e.g.: mortgage insurance homes The Text describes the title of the area of work under which the federal award was funded in the Catalog of Federal Domestic Assistance (CFDA).
organization.awards.loans.subAwards.subAwardPrimeAwardDetail.awardFundingObjectClasses	[string] e.g.: 20 The text that specifies the object class for this award. Object classes are categories in a classification system that presents obligations by the items or services purchased by the Federal Government. Each specific object class is defined in OMB Circular A-11 § 83.6.
organization.awards.loans.subAwards.subAwardPrimeAwardDetail.awardFundingProgramActivities	[string] e.g.: 0001 The text that specifies the program funding this award. A program activity is a category within an appropriation account and are unique to each account. A program activity is a specific activity or project, as listed in the program and financing schedules of the annual budget of the U.S. government.
organization.awards.loans.subAwards.subAwardPrimeAwardDetail.disasterEmergencyFundDescription	[string] e.g.: None Text that describes the type of disaster related funding and is represented as a Letter.
organization.awards.loans.subAwards.subAwardPrimeAwardDetail.disasterOutlaidFundAmount	[object] Records the total dollars paid in this award that is related to COVID 19 remediation.
organization.awards.loans.subAwards.subAwardPrimeAwardDetail.disasterOutlaidFundAmount.value	[number] e.g.: 250000 A monetary figure in US Dollars that describes the total dollars paid in this award that is related to COVID 19 remediation.
organization.awards.loans.subAwards.subAwardPrimeAwardDetail.disasterObligatedFundAmount	[object] Records the total dollars budgeted in this award that is related to COVID 19 remediation.
organization.awards.loans.subAwards.subAwardPrimeAwardDetail.disasterObligatedFundAmount.value	[number] e.g.: 250000 A monetary figure in US Dollars that describes the total dollars budgeted in this award that is related to COVID 19 remediation.
organization.awards.loans.subAwards.subAwardPrimeAwardDetail.nationalInterestAction	[object] Records the national interest for which the contract is created.
organization.awards.loans.subAwards.subAwardPrimeAwardDetail.nationalInterestAction.code	[string] e.g.: NONE A code that represents the national interest for which the contract is created.
organization.awards.loans.subAwards.subAwardPrimeAward	[string] e.g.: NONE

Detail.nationalInterestAction.description	Text that represents the national interest for which the contract is created.
organization.awards.loans.awardFundingObjectClasses	[string] e.g.: 20 The text that specifies the object class for this award. Object classes are categories in a classification system that presents obligations by the items or services purchased by the Federal Government. Each specific object class is defined in OMB Circular A-11 § 83.6.
organization.awards.loans.awardFundingProgramActivities	[string] e.g.: 0001 The text that specifies the program funding this award. A program activity is a category within an appropriation account and are unique to each account. A program activity is a specific activity or project, as listed in the program and financing schedules of the annual budget of the U.S. government.
organization.awards.debts	[array (object)] Records information about the written agreements made between the Federal government and one or more role players participating in a financing event; e.g., lease, sale, rental, refinancing. It is the amount of money that the U.S. federal government owes to its creditors.
organization.awards.debts.awardID	[string] e.g.: asst_non_w912 The unique key for the award.
organization.awards.debts.assistanceType	[object] Records the kind of assistance provided by the award.
organization.awards.debts.assistanceType.code	[string] e.g.: 08 A code which specifies the type of assistance provided by the award, e.g., DIRECT LOAN (E), PROJECT GRANT (B), DIRECT PAYMENT FOR SPECIFIED USE, AS A SUBSIDY OR OTHER NON-REIMBURSABLE DIRECT FINANCIAL AID (C).
organization.awards.debts.assistanceType.description	[string] e.g.: GUARANTEED/INSURED LOAN (F) The text specifying the description of the kind of assistance provided by the award.
organization.awards.debts.awardingAgency	[object] Records the name associated with a department or establishment of the Government as used in the Treasury Account Fund Symbol (TAFS).
organization.awards.debts.awardingAgency.code	[string] e.g.: 086 A code of the department or establishment of the Government as used in the Treasury Account Fund Symbol (TAFS).
organization.awards.debts.awardingAgency.description	[string] e.g.: department of housing and urban development (hud) The text specifying the name associated with a department or establishment of the Government as used in the Treasury Account Fund Symbol (TAFS).
organization.awards.debts.awardingSubAgency	[object] Records the name of the name of the level 2 organization that provided the preponderance of the funds

obligated.

organization.awards.debts.awardingSubAgency.code	[string] e.g.: 4732 Identifier of the level 2 organization that provided the preponderance of the funds obligated by this transaction.
organization.awards.debts.awardingSubAgency.description	[string] e.g.: FEDERAL ACQUISITION SERVICE The text specifying the name of the name of the level 2 organization that provided the preponderance of the funds obligated.
organization.awards.debts.awardingOffice	[object] Records the name of the level and organization that provided the preponderance of the funds obligated.
organization.awards.debts.awardingOffice.code	[string] e.g.: 47QSEA Identifier of the level and organization that provided the preponderance of the funds obligated.
organization.awards.debts.awardingOffice.description	[string] e.g.: GSA/FAS ADMIN SVCS ACQUISITION BR(2 The text specifying the name of the level and organization that provided the preponderance of the funds obligated.
organization.awards.debts.fundingAgency	[object] Records the name of the department or establishment of the Government that provided the preponderance of the funds for an award and/or individual transactions related to an award.
organization.awards.debts.fundingAgency.code	[string] e.g.: 047 The 3-digit CGAC agency code of the department or establishment of the Government that provided the preponderance of the funds for an award and/or individual transactions related to an award.
organization.awards.debts.fundingAgency.description	[string] e.g.: GENEGENERAL SERVICES ADMINISTRATION (GSA) The text specifying the name of the department or establishment of the Government that provided the preponderance of the funds for an award and/or individual transactions related to an award.
organization.awards.debts.fundingSubAgency	[object] Records the name of the name of the level 2 organization that provided the preponderance of the funds obligated.
organization.awards.debts.fundingSubAgency.code	[string] e.g.: 4732 Identifier of the level 2 organization that provided the preponderance of the funds obligated by this transaction.
organization.awards.debts.fundingSubAgency.description	[string] e.g.: FEDERAL ACQUISITION SERVICE The text specifying the name of the name of the level 2 organization that provided the preponderance of the funds obligated.
organization.awards.debts.fundingOffice	[object]

	Records the name of the level and organization that provided the preponderance of the funds obligated.
organization.awards.debts.fundingOffice.code	[string] e.g.: 47QSEA Identifier of the level and organization that provided the preponderance of the funds obligated.
organization.awards.debts.fundingOffice.description	[string] e.g.: GSA/FAS ADMIN SVCS ACQUISITION BR(2) The text specifying the name of the level and organization that provided the preponderance of the funds obligated.
organization.awards.debts.businessFunding	[object] Records the award's applicability to the recovery act. The text specifying the description tag (by way of the DATA Act Broker) that explains the meaning of the code provided in the business fund code.
organization.awards.debts.businessFunding.code	[string] e.g.: NON A code describes the award's applicability to the recovery act.
organization.awards.debts.businessFunding.description	[string] e.g.: NOT RECOVERY ACT The Text describes the award's applicability to the recovery act. The text specifying the description tag (by way of the DATA Act Broker) that explains the meaning of the code provided in the business fund code.
organization.awards.debts.businessType	[object] Records the business area.
organization.awards.debts.businessType.code	[string] e.g.: q A code which specifies the business areas. e.g., PRIVATE INSTITUTION OF HIGHER EDUCATION, FOR-PROFIT ORGANIZATION (OTHER THAN SMALL BUSINESS), INDEPENDENT SCHOOL DISTRICT, COUNTY GOVERNMENT etc.
organization.awards.debts.businessType.description	[string] e.g.: FOR-PROFIT ORGANIZATION (OTHER THAN SMALL BUSINESS) The text specifying the business area.
organization.awards.debts.cfdaNumber	[number] e.g.: 93.361 The number assigned to a federal area of work in the Catalog of Federal Domestic Assistance (CFDA).
organization.awards.debts.cfdaTitle	[string] e.g.: mortgage insurance homes The Text describes the title of the area of work under which the federal award was funded in the Catalog of Federal Domestic Assistance (CFDA).
organization.awards.debts.fainID	[string] e.g.: fain123XAB The Text describes the Federal Award Identification Number (FAIN). Represents the unique id within the federal agency for each (nonaggregate) financial assistance award.
organization.awards.debts.awardModificationNumber	[string] e.g.: P00005 The identifier of an action being reported that indicates the specific subsequent change to the initial award.

organization.awards.debts.stateApplicationID	[string] e.g.: SAI EXEMPT A number assigned by state (as opposed to federal) review agencies to the award during the grant application process. This is also referred as SAI Number.
organization.awards.debts.totalNonFederalFundingAmount	[object] Records the total amount of the award funded by non-Federal source(s), in dollars. Program Income (as defined in 2 CFR § 200.80) is not included until such time that Program Income is generated and credited to the agreement.
organization.awards.debts.totalNonFederalFundingAmount.value	[number] e.g.: 2500000 The total amount of the award funded by non-Federal source(s), in dollars. Program Income (as defined in 2 CFR § 200.80) is not included until such time that Program Income is generated and credited to the agreement.
organization.awards.debts.totalNonFederalFundingAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.awards.debts.totalFundingAmount	[object] Records the sum of the Federal Funding Amount and the Non-Federal Funding Amount.
organization.awards.debts.totalFundingAmount.value	[number] e.g.: 2500000 The sum of the Federal Funding Amount and the Non-Federal Funding Amount.
organization.awards.debts.totalFundingAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.awards.debts.totalFaceValueLoanAmount	[object] Records the monetary figure specifying the total face value of the direct loan or loan guarantee.
organization.awards.debts.totalFaceValueLoanAmount.value	[number] e.g.: 2500000 The monetary figure specifying the total face value of the direct loan or loan guarantee.
organization.awards.debts.totalFaceValueLoanAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.awards.debts.totalOriginalLoanSubsidyAmount	[object] Records the estimated long-term total cost to the Government of a direct loan or loan guarantee, or modification thereof, calculated on a net present value basis, excluding administrative costs.

organization.awards.debts.totalOriginalLoanSubsidyAmount.value	[number] e.g.: 2500000 The estimated long-term total cost to the Government of a direct loan or loan guarantee, or modification thereof, calculated on a net present value basis, excluding administrative costs.
organization.awards.debts.totalOriginalLoanSubsidyAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.awards.debts.fundingTreasuryAccountNumber	[string] e.g.: 047-X-4534-001 The account number of the treasury funding this award.
organization.awards.debts.fundingFederalAccountNumber	[string] e.g.: 047-4534 The account number of the federal funding this award.
organization.awards.debts.awardDescription	[string] e.g.: BATTERIES,ALKALINE,AAA,12/PK A brief description of the purpose of the award.
organization.awards.debts.usaSpendingURL	[string] e.g.: https://www.usaspending.gov/#/award/CONT_AWD_47QSCC20F1Y47_4732_GS23FGA026_4732/ A Web Page Address is a telecommunication address used by a USA Spending for this award. This can be the address of a computer or a document on the Internet that consists of the identifier of a computer, using a host name or Internet Protocol (IP) address (as www.dnb.com), and optionally an explicit file location. The communications protocol followed by a colon and two slashes (http://) is not included in the Web Page address.
organization.awards.debts.usaSpendingURLModificationDate	[string] e.g.: 2020-09-18 The date when this award information was last updated into the USA Spending web page.
organization.awards.debts.transactions	[array (object)] Award Transaction entity records information about the data on each financial assistance transaction record and facilitate record lookup, correction, and deletion.
organization.awards.debts.transactions.uniqueKey	[string] e.g.: 3600_-NONE-_36C24919D0057_P00002_-NONE-_NONE- System-generated database key used to uniquely identify each financial assistance transaction record and facilitate record lookup, correction, and deletion. A concatenation of AwardModificationAmendmentNumber, AwardingSubTierAgencyCode, FAIN, and URI with a single underscore ('_') character inserted in between each. If a field is blank, it is recorded as "- none-".
organization.awards.debts.recipients	[array (object)] Award Recipient entity records information regarding the legal entity which receives the award/assistance from the government.
organization.awards.debts.recipients.name	[string] e.g.: BUSINESS COUNCIL FOR INTERNATIONAL UNDERSTANDING, INC., THE The name of the awardee or recipient that relates to the unique identifier. For U.S. based companies, this

name is what the business ordinarily files in formation documents with individual states (when required).

organization.awards.debts.recipients.tradeStyleName	[string] e.g.: CBRE HEERY The name of the awardee or recipient that relates to the unique identifier. For U.S. based companies, this name is what the business ordinarily files in formation documents with individual states (when required).
organization.awards.debts.recipients.duns	[string] e.g.: 804735132 The D-U-N-S® Number, a proprietary organizational identifier owned and managed by Dun & Bradstreet Inc, provides unique identification of a subject organization, in accordance with the Data Universal Numbering System (D-U-N-S®).
organization.awards.debts.recipients.cageCode	[string] e.g.: CAGE123 A Code describes Commercial And Government Entity Code of the contractor. Used as a key to SAM. Maps to the DUNS.
organization.awards.debts.recipients.telephone	[array (object)] The details of the Telephone contact information used for voice communication with the organization.
organization.awards.debts.recipients.telephone.telephoneNumber	[string] e.g.: 6505550000 The primary voice telephone number for the business, when dialing domestically. The National Telephone Number is created by combining the Domestic Area Code and the Local Number. A Domestic Area Code is a series of numbers that must be prefixed before dialing a telephone number in another local area. National telecommunication authorities use various formats and dialing rules for area codes. Also known as City Code. A Local Number is a series of numbers that represents a specific telephone line.
organization.awards.debts.recipients.fax	[array (object)] The details of the facsimile information used for data communication with the entity.
organization.awards.debts.recipients.fax.faxNumber	[string] e.g.: 6505550001 A sequence of digits used for facsimile communication with the entity. This sequence of digits includes the area code or city code and domestic dialing code.
organization.awards.debts.recipients.address	[object] The details of the Primary Address at which the organization is located or conducts operations.
organization.awards.debts.recipients.address.addressCountry	[object] The details of the country or region for this address of the organization.
organization.awards.debts.recipients.address.addressCountry.name	[string] e.g.: United States The country or region for this address of the organization.
organization.awards.debts.recipients.address.addressCountry.	[string] e.g.: USA

isoAlpha3Code	Code for the country in which the awardee or recipient is located, using the International Standard for country codes (ISO) 3166-1 Alpha-3 GENC Profile, minus the codes listed for those territories and possessions of the United States already identified as “states.”
organization.awards.debts.recipients.address.continentalRegion	[object] The details of the continent for this address of the organization.
organization.awards.debts.recipients.address.continentalRegion.name	[string] e.g.: North America The name of the continent for this address of the organization. Possible values Africa Asia Pacific Europe Latin America Middle East North America
organization.awards.debts.recipients.address.addressCounty	[object] The details of the geographical area of a Country or Region for this address of the organization. Countries divide their geography into smaller sub divisions. County is an example of a commonly used subdivision. Often found in UK.
organization.awards.debts.recipients.address.addressCounty.name	[string] e.g.: SAN MATEO The name of the geographical area of a Country or Region for this address of the organization. Countries subdivide their geography into smaller sub divisions. County is an example of a commonly used subdivision, often found in the UK.
organization.awards.debts.recipients.address.addressCounty.code	[integer] e.g.: 3 Three-position numeric code for county from International Committee for Information Technology Standards (ANSI INCITS) county codes.
organization.awards.debts.recipients.address.addressLocality	[object] The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.
organization.awards.debts.recipients.address.addressLocality.name	[string] e.g.: SAN FRANCISCO The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.
organization.awards.debts.recipients.address.addressRegion	[object] The name of the geographical area for this address of the organization. For Example New Jersey.
organization.awards.debts.recipients.address.addressRegion.name	[string] e.g.: California

name	The name of the geographical area for this address of the organization. For Example New Jersey.
organization.awards.debts.recipients.address.addressRegion.abbreviatedName	[string] e.g.: NJ The shortened name of the geographical area for this address of the organization. For example NJ for the US State New Jersey within Country United States.
organization.awards.debts.recipients.address.postalCode	[string] e.g.: 941109999 The postal code for this address of the organization. Also known locally in various English-speaking countries throughout the world as a postcode, post code, Eircode, PIN or ZIP Code) is a series of letters or digits or both, sometimes including spaces or punctuation, included in a postal address for the purpose of sorting mail. The code is used by the country's postal authority to identify the address where the organization is located or conducts operations .
organization.awards.debts.recipients.address.postalCodeExtension	[string] e.g.: 9999 An extension to the postal code that identifies a street or building within the geographic area covered by the Postal Code.
organization.awards.debts.recipients.address.streetAddress	[object] The details of the street address for this address of the organization.
organization.awards.debts.recipients.address.streetAddress.line1	[string] e.g.: 492 KOLLER ST The first line of the address where the entity is located. The first line of this address of the organization. For example The Point in the address The Point 37 North Wharf Road London W2 1AF
organization.awards.debts.recipients.address.streetAddress.line2	[string] e.g.: Suite 100 The second line of this address of the organization. For example 37 North Wharf Road in the address The Point 37 North Wharf Road London W2 1AF
organization.awards.debts.recipients.address.congressionalDistrict	[string] e.g.: 02 The territorial subdivision for holding a separate election for one or more seats in a legislative body to which this address belongs.
organization.awards.debts.recipients.businessEntityTypeDesc	[string] e.g.: 19PCRD18KK924

ription	Text that describes the structure of the entity as defined by the IRS.
organization.awards.debts.recipients.smallBusinessType	[object] Records the contracting officer's determination of whether the selected contractor meets the small business size standard for award to a small business for the NAICS code that is applicable to the contract.
organization.awards.debts.recipients.smallBusinessType.code	[string] e.g.: O A code describes the contracting officer's determination of whether the selected contractor meets the small business size standard for award to a small business for the NAICS code that is applicable to the contract.
organization.awards.debts.recipients.smallBusinessType.description	[string] e.g.: OTHER THAN SMALL BUSINESS Text describes the contracting officer's determination of whether the selected contractor meets the small business size standard for award to a small business for the NAICS code that is applicable to the contract.
organization.awards.debts.recipients.parent	[object] The details of the organization that owns more than 50% of the subject organization.
organization.awards.debts.recipients.parent.name	[string] e.g.: ABC Corp. The name of the ultimate parent of the awardee or recipient. Currently the name is from the global parent DUNS® number.
organization.awards.debts.recipients.parent.duns	[string] e.g.: 804735132 The D-U-N-S® number of the organization that owns more than 50% of the subject organization.
organization.awards.debts.recipients.highlyCompensatedOfficers	[array (object)] Records information about the details of individuals identified as one of the five most highly compensated "Executives." "Executive" means officers, managing partners, or any other employees in the sub-awardee's management positions.
organization.awards.debts.recipients.highlyCompensatedOfficers.name	[string] e.g.: NANCY KIPPER The name of an individual identified as one of the five most highly compensated "Executives." "Executive" means officers, managing partners, or any other employees in the sub awardee's management positions.
organization.awards.debts.recipients.highlyCompensatedOfficers.totalCompensationAmount	[object] Records the cash and noncash dollar value earned by the one of the five most highly compensated "Executives" during the sub-awardee's preceding fiscal year and includes the following (for more information see 17 CFR 229.402c2): salary and bonuses, awards of stock, stock options, and stock appreciation rights, earnings for services under non-equity incentive plans, change in pension value, above market earnings on deferred compensation which is not tax qualified, and other compensation.
organization.awards.debts.recipients.highlyCompensatedOfficers.totalCompensationAmount.value	[number] e.g.: 250000 The cash and noncash dollar value earned by the one of the five most highly compensated "Executives" during the sub-awardee's preceding fiscal year and includes the following (for more information see 17 CFR 229.402c2): salary and bonuses, awards of stock, stock options, and stock appreciation rights, earnings for services under non-equity incentive plans, change in pension value, above market earnings

on deferred compensation which is not tax qualified, and other compensation.

organization.awards.debts.recipients.highlyCompensatedOfficers.sequence	[integer] e.g.: 1 The number which specifies the Highly Compensated Officer., 1, 2 3 etc.
organization.awards.debts.performanceLocations	[array (object)] Records information about the principal place of performance for the activity supported by the award.
organization.awards.debts.performanceLocations.location	[object] Records where the predominant performance of the award will be accomplished.
organization.awards.debts.performanceLocations.location.code	[string] e.g.: 003 A code indicating where the predominant performance of the award will be accomplished.
organization.awards.debts.performanceLocations.location.description	[string] e.g.: Location1 For foreign places of performance: identify where the predominant performance of the award will be accomplished, describing it as specifically, as possible.
organization.awards.debts.performanceLocations.address	[object] The details of the Primary Address at which the organization is located or conducts operations.
organization.awards.debts.performanceLocations.address.addressCountry	[object] The details of the country or region for this address of the organization.
organization.awards.debts.performanceLocations.address.addressCountry.name	[string] e.g.: United States The country or region for this address of the organization.
organization.awards.debts.performanceLocations.address.addressCountry.isoAlpha3Code	[string] e.g.: USA Code for the country in which the awardee or recipient is located, using the International Standard for country codes (ISO) 3166-1 Alpha-3 GENC Profile, minus the codes listed for those territories and possessions of the United States already identified as “states.”
organization.awards.debts.performanceLocations.address.continentalRegion	[object] The details of the continent for this address of the organization.
organization.awards.debts.performanceLocations.address.continentalRegion.name	[string] e.g.: North America The name of the continent for this address of the organization. Possible values Africa Asia Pacific Europe Latin America Middle East North America

organization.awards.debts.performanceLocations.address.addressCounty	<p>[object] The details of the geographical area of a Country or Region for this address of the organization. Countries divide their geography into smaller sub divisions.</p> <p>County is an example of a commonly used subdivision. Often found in UK.</p>
organization.awards.debts.performanceLocations.address.addressCounty.name	<p>[string] e.g.: SAN MATEO The name of the geographical area of a Country or Region for this address of the organization.</p> <p>Countries subdivide their geography into smaller sub divisions. County is an example of a commonly used subdivision, often found in the UK.</p>
organization.awards.debts.performanceLocations.address.addressCounty.code	<p>[integer] e.g.: 3 Three-position numeric code for county from International Committee for Information Technology Standards (ANSI INCITS) county codes.</p>
organization.awards.debts.performanceLocations.address.addressLocality	<p>[object] The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.</p>
organization.awards.debts.performanceLocations.address.addressLocality.name	<p>[string] e.g.: SAN FRANCISCO The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.</p>
organization.awards.debts.performanceLocations.address.addressRegion	<p>[object] The name of the geographical area for this address of the organization. For Example New Jersey.</p>
organization.awards.debts.performanceLocations.address.addressRegion.name	<p>[string] e.g.: California The name of the geographical area for this address of the organization. For Example New Jersey.</p>
organization.awards.debts.performanceLocations.address.addressRegion.abbreviatedName	<p>[string] e.g.: NJ The shortened name of the geographical area for this address of the organization. For example NJ for the US State New Jersey within Country United States.</p>
organization.awards.debts.performanceLocations.address.postalCode	<p>[string] e.g.: 941109999 The postal code for this address of the organization.</p> <p>Also known locally in various English-speaking countries throughout the world as a postcode, post code, Eircode, PIN or ZIP Code) is a series of letters or digits or both, sometimes including spaces or punctuation, included in a postal address for the purpose of sorting mail. The code is used by the country's postal authority to identify the address where the organization is located or conducts operations .</p>
organization.awards.debts.performanceLocations.address.postalCodeExtension	<p>[string] e.g.: 9999 An extension to the postal code that identifies a street or building within the geographic area covered by the Postal Code.</p>

organization.awards.debts.performanceLocations.address.streetAddress	[object] The details of the street address for this address of the organization.
organization.awards.debts.performanceLocations.address.streetAddress.line1	[string] e.g.: 492 KOLLER ST The first line of the address where the entity is located. The first line of this address of the organization. For example The Point in the address The Point 37 North Wharf Road London W2 1AF
organization.awards.debts.performanceLocations.address.streetAddress.line2	[string] e.g.: Suite 100 The second line of this address of the organization. For example 37 North Wharf Road in the address The Point 37 North Wharf Road London W2 1AF
organization.awards.debts.performanceLocations.address.congressionalDistrict	[string] e.g.: 02 The territorial subdivision for holding a separate election for one or more seats in a legislative body to which this address belongs.
organization.awards.debts.actions	[array (object)] Records information about the action taken under the award; the amount of money granted or de-obligated, relevant dates and the type of action.
organization.awards.debts.actions.actionType	[object] Records the changes made to the Federal prime award.
organization.awards.debts.actions.actionType.code	[string] e.g.: A1 A code which specifies the changes made to the Federal prime award. e.g., . C for Revision, A for New.
organization.awards.debts.actions.actionType.description	[string] e.g.: CHANGE ORDER The text specifying the business area.
organization.awards.debts.actions.recordType	[object] Describes the record type.
organization.awards.debts.actions.recordType.code	[string] e.g.: R1 A code which specifies the record type, e.g., aggregate, non-aggregate.
organization.awards.debts.actions.recordType.description	[string] e.g.: Record1

	The text specifying the record type.
organization.awards.debts.actions.processingType	[object] Describes how the record should be processed.
organization.awards.debts.actions.processingType.code	[string] e.g.: P1 A code to indicate how the record should be processed: correction to an existing record; deletion of a record; new record.
organization.awards.debts.actions.processingType.description	[string] e.g.: Process1 The text specifying how the record should be processed.
organization.awards.debts.actions.actionDate	[string] e.g.: 2019-08-31 The date the action being reported was issued / signed by the Government or a binding agreement was reached.
organization.awards.debts.actions.actionFiscalYear	[string] e.g.: 2019 The fiscal year of the action being reported was issued / signed by the Government or a binding agreement was reached.
organization.awards.debts.actions.federalFundingAmount	[object] Records the monetary figure specifying the Federal government's obligation, deobligation, or liability for an award transaction.
organization.awards.debts.actions.federalFundingAmount.value	[number] e.g.: 250000 The monetary figure specifying the Federal government's obligation, deobligation, or liability for an award transaction.
organization.awards.debts.actions.federalFundingAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.awards.debts.actions.nonFederalFundingAmount	[object] Records the amount of the award funded by non-Federal source(s), in dollars. Program Income (as defined in 2 CFR § 200.80) is not included until such time that Program Income is generated and credited to the agreement.
organization.awards.debts.actions.nonFederalFundingAmount.value	[number] e.g.: 250000 The amount of the award funded by non-Federal source(s), in dollars. Program Income (as defined in 2 CFR § 200.80) is not included until such time that Program Income is generated and credited to the agreement.
organization.awards.debts.actions.nonFederalFundingAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International

	Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.awards.debts.actions.faceValueLoanAmount	[object] Records the monetary figure specifying the face value of the direct loan or loan guarantee.
organization.awards.debts.actions.faceValueLoanAmount.value	[number] e.g.: 250000 The monetary figure specifying the face value of the direct loan or loan guarantee.
organization.awards.debts.actions.faceValueLoanAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.awards.debts.actions.originalLoanSubsidyAmount	[object] Records the estimated long-term cost to the Government of a direct loan or loan guarantee, or modification thereof, calculated on a net present value basis, excluding administrative costs.
organization.awards.debts.actions.originalLoanSubsidyAmount.value	[number] e.g.: 250000 The estimated long-term cost to the Government of a direct loan or loan guarantee, or modification thereof, calculated on a net present value basis, excluding administrative costs.
organization.awards.debts.actions.originalLoanSubsidyAmount.currency	[string] e.g.: USD The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.awards.debts.actions.effectiveDate	[string] e.g.: 2019-07-22 The date on which, for the award referred to by the action being reported, awardee effort begins or the award is otherwise effective.
organization.awards.debts.actions.expirationDate	[string] e.g.: 2021-07-22 The current date on which, for the award referred to by the action being reported, awardee effort completes or the award is otherwise ended. Administrative actions related to this award may continue to occur after this date. This date does not apply to procurement indefinite delivery vehicles under which definitive orders may be awarded.
organization.awards.debts.actions.potentialExpirationDate	[string] e.g.: 2021-07-22 A date describes that for procurement, the date on which, for the award referred to by the action being reported if all potential pre-determined or prenegotiated options were exercised, awardee effort is completed or the award is otherwise ended. Administrative actions related to this award may continue to occur after this date. This date does not apply to procurement indefinite delivery vehicles under which definitive orders may be awarded.
organization.awards.debts.actions.deliveryVehicleOrderExpira	[string] e.g.: 2021-07-22

tionDate	A Date describes that for procurement, the date on which, for the award referred to by the action being reported, no additional orders referring to it may be placed. This date applies only to procurement indefinite delivery vehicles (such as indefinite delivery contracts or blanket purchase agreements). Administrative actions related to this award may continue to occur after this date. The period of performance end dates for procurement orders issued under the indefinite delivery vehicle may extend beyond this date.
organization.awards.debts.actions.actionsCount	[integer] e.g.: 150 A number input by the agency that identifies number of actions that are reported in one modification.
organization.awards.debts.subAwards	[array (object)] Records information about the subdivision of the main account which received the government contracts, contract vehicles, grants, loans, and other types of awards issued by the federal government.
organization.awards.debts.subAwards.awardType	[object] Records the type of sub award, e.g., sub-grant, sub-contract.
organization.awards.debts.subAwards.awardType.dnbCode	[integer] e.g.: 35293 A unique code assigned by Dun & Bradstreet specifying the type of sub award, e.g., sub-grant, sub-contract. DO NOT USE: Will always be NULL Refer to Reference code table "811 [Award Type]" for all possible values.
organization.awards.debts.subAwards.awardType.description	[string] e.g.: Sub Award 1 Text specifying the type of sub award, e.g., sub-grant, sub-contract.
organization.awards.debts.subAwards.businessType	[object] Records the business areas. e.g., PRIVATE INSTITUTION OF HIGHER EDUCATION, FOR-PROFIT ORGANIZATION (OTHER THAN SMALL BUSINESS), INDEPENDENT SCHOOL DISTRICT, COUNTY GOVERNMENT etc.
organization.awards.debts.subAwards.businessType.code	[string] e.g.: B1 A code which specifies the business areas. e.g., PRIVATE INSTITUTION OF HIGHER EDUCATION, FOR-PROFIT ORGANIZATION (OTHER THAN SMALL BUSINESS), INDEPENDENT SCHOOL DISTRICT, COUNTY GOVERNMENT etc.
organization.awards.debts.subAwards.businessType.description	[string] e.g.: Business 1 The text specifying the business area.
organization.awards.debts.subAwards.awardAmount	[object] Records the total amount being awarded to the sub award recipient.
organization.awards.debts.subAwards.awardAmount.value	[number] e.g.: 250000 The total amount being awarded to the sub award recipient.
organization.awards.debts.subAwards.awardAmount.currency	[string] e.g.: USD

	The three-letter currency code, defined in the ISO 4217 scheme published by the International Organization for Standardization (ISO) identifying the type of money in which this amount is expressed (e.g., USD, CAD, GBP, EUR).
organization.awards.debts.subAwards.awardID	[string] e.g.: CONT_AWD_HC102110P2005_9700_-NONE-_-NONE- A number which uniquely identifies this sub award.
organization.awards.debts.subAwards.actionDate	[string] e.g.: 2121716 The date the action being reported was issued / signed by the Government or a binding agreement was reached.
organization.awards.debts.subAwards.actionFiscalYear	[string] e.g.: 2016 The fiscal year of the action being reported was issued / signed by the Government or a binding agreement was reached.
organization.awards.debts.subAwards.awardDescription	[string] e.g.: Description A brief description of the purpose of the award.
organization.awards.debts.subAwards.ffataReportID	[string] e.g.: d992b63e20fcb9481dd41d2b673b6eae The FFATA Subaward Reporting System (FSRS) Report Identifier for the subaward.
organization.awards.debts.subAwards.ffataReportMonth	[integer] e.g.: 9 The FFATA Subaward Reporting System (FSRS) Report Period Month for the subaward.
organization.awards.debts.subAwards.ffataReportYear	[string] e.g.: 2020-01-01 The FFATA Subaward Reporting System (FSRS) Report Period Year for the subaward.
organization.awards.debts.subAwards.usaSpendingURL	[string] e.g.: https://www.usaspending.gov/#/award/ASST_NON_NU50CK000536_7523/ A Web Page Address is a telecommunication address used by a USA Spending for this award.
organization.awards.debts.subAwards.usaSpendingURLModificationDate	[string] e.g.: 2020-10-07 The date when this award information was last updated int the USA Spending web page.
organization.awards.debts.subAwards.recipients	[array (object)] Award Recipient entity records information regarding the legal entity which receives the award/assistance from the government.
organization.awards.debts.subAwards.recipients.name	[string] e.g.: BUSINESS COUNCIL FOR INTERNATIONAL UNDERSTANDING, INC., THE The name of the awardee or recipient that relates to the unique identifier. For U.S. based companies, this name is what the business ordinarily files in formation documents with individual states (when required).
organization.awards.debts.subAwards.recipients.tradeStyleName	[string] e.g.: CBRE HEERY The name of the awardee or recipient that relates to the unique identifier. For U.S. based companies, this name is what the business ordinarily files in formation documents with individual states (when required).

organization.awards.debts.subAwards.recipients.duns	[string] e.g.: 804735132 The D-U-N-S® Number, a proprietary organizational identifier owned and managed by Dun & Bradstreet Inc, provides unique identification of a subject organization, in accordance with the Data Universal Numbering System (D-U-N-S®).
organization.awards.debts.subAwards.recipients.cageCode	[string] e.g.: CAGE123 A Code describes Commercial And Government Entity Code of the contractor. Used as a key to SAM. Maps to the DUNS.
organization.awards.debts.subAwards.recipients.telephone	[array (object)] The details of the Telephone contact information used for voice communication with the organization.
organization.awards.debts.subAwards.recipients.telephone.telephoneNumber	[string] e.g.: 6505550000 The primary voice telephone number for the business, when dialing domestically. The National Telephone Number is created by combining the Domestic Area Code and the Local Number. A Domestic Area Code is a series of numbers that must be prefixed before dialing a telephone number in another local area. National telecommunication authorities use various formats and dialing rules for area codes. Also known as City Code. A Local Number is a series of numbers that represents a specific telephone line.
organization.awards.debts.subAwards.recipients.fax	[array (object)] The details of the facsimile information used for data communication with the entity.
organization.awards.debts.subAwards.recipients.fax.faxNumber	[string] e.g.: 6505550001 A sequence of digits used for facsimile communication with the entity. This sequence of digits includes the area code or city code and domestic dialing code.
organization.awards.debts.subAwards.recipients.address	[object] The details of the Primary Address at which the organization is located or conducts operations.
organization.awards.debts.subAwards.recipients.address.addressCountry	[object] The details of the country or region for this address of the organization.
organization.awards.debts.subAwards.recipients.address.addressCountry.name	[string] e.g.: United States The country or region for this address of the organization.
organization.awards.debts.subAwards.recipients.address.addressCountry.isoAlpha3Code	[string] e.g.: USA Code for the country in which the awardee or recipient is located, using the International Standard for country codes (ISO) 3166-1 Alpha-3 GENC Profile, minus the codes listed for those territories and possessions of the United States already identified as “states.”
organization.awards.debts.subAwards.recipients.address.continentalRegion	[object] The details of the continent for this address of the organization.

organization.awards.debts.subAwards.recipients.address.continentalRegion.name	<p>[string] e.g.: North America</p> <p>The name of the continent for this address of the organization.</p> <p>Possible values</p> <p>Africa</p> <p>Asia Pacific</p> <p>Europe</p> <p>Latin America</p> <p>Middle East</p> <p>North America</p>
organization.awards.debts.subAwards.recipients.address.addressCounty	<p>[object]</p> <p>The details of the geographical area of a Country or Region for this address of the organization. Countries divide their geography into smaller sub divisions.</p> <p>County is an example of a commonly used subdivision. Often found in UK.</p>
organization.awards.debts.subAwards.recipients.address.addressCounty.name	<p>[string] e.g.: SAN MATEO</p> <p>The name of the geographical area of a Country or Region for this address of the organization.</p> <p>Countries subdivide their geography into smaller sub divisions. County is an example of a commonly used subdivision, often found in the UK.</p>
organization.awards.debts.subAwards.recipients.address.addressCounty.code	<p>[integer] e.g.: 3</p> <p>Three-position numeric code for county from International Committee for Information Technology Standards (ANSI INCITS) county codes.</p>
organization.awards.debts.subAwards.recipients.address.addressLocality	<p>[object]</p> <p>The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.</p>
organization.awards.debts.subAwards.recipients.address.addressLocality.name	<p>[string] e.g.: SAN FRANCISCO</p> <p>The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.</p>
organization.awards.debts.subAwards.recipients.address.addressRegion	<p>[object]</p> <p>The name of the geographical area for this address of the organization. For Example New Jersey.</p>
organization.awards.debts.subAwards.recipients.address.addressRegion.name	<p>[string] e.g.: California</p> <p>The name of the geographical area for this address of the organization. For Example New Jersey.</p>
organization.awards.debts.subAwards.recipients.address.addressRegion.abbreviatedName	<p>[string] e.g.: NJ</p> <p>The shortened name of the geographical area for this address of the organization. For example NJ for the US State New Jersey within Country United States.</p>
organization.awards.debts.subAwards.recipients.address.post	<p>[string] e.g.: 941109999</p>

alCode	<p>The postal code for this address of the organization.</p> <p>Also known locally in various English-speaking countries throughout the world as a postcode, post code, Eircode, PIN or ZIP Code) is a series of letters or digits or both, sometimes including spaces or punctuation, included in a postal address for the purpose of sorting mail. The code is used by the country's postal authority to identify the address where the organization is located or conducts operations .</p>
organization.awards.debts.subAwards.recipients.address.postalCodeExtension	<p>[string] e.g.: 9999</p> <p>An extension to the postal code that identifies a street or building within the geographic area covered by the Postal Code.</p>
organization.awards.debts.subAwards.recipients.address.streetAddress	<p>[object]</p> <p>The details of the street address for this address of the organization.</p>
organization.awards.debts.subAwards.recipients.address.streetAddress.line1	<p>[string] e.g.: 492 KOLLER ST</p> <p>The first line of the address where the entity is located.</p> <p>The first line of this address of the organization. For example The Point in the address</p> <p>The Point 37 North Wharf Road London W2 1AF</p>
organization.awards.debts.subAwards.recipients.address.streetAddress.line2	<p>[string] e.g.: Suite 100</p> <p>The second line of this address of the organization. For example 37 North Wharf Road in the address</p> <p>The Point 37 North Wharf Road London W2 1AF</p>
organization.awards.debts.subAwards.recipients.address.congressionalDistrict	<p>[string] e.g.: 02</p> <p>The territorial subdivision for holding a separate election for one or more seats in a legislative body to which this address belongs.</p>
organization.awards.debts.subAwards.recipients.businessEntityTypeDescription	<p>[string] e.g.: 19PCRD18KK924</p> <p>Text that describes the structure of the entity as defined by the IRS.</p>
organization.awards.debts.subAwards.recipients.smallBusinessType	<p>[object]</p> <p>Records the contracting officer's determination of whether the selected contractor meets the small business size standard for award to a small business for the NAICS code that is applicable to the contract.</p>
organization.awards.debts.subAwards.recipients.smallBusiness	<p>[string] e.g.: O</p>

sType.code	A code describes the contracting officer's determination of whether the selected contractor meets the small business size standard for award to a small business for the NAICS code that is applicable to the contract.
organization.awards.debts.subAwards.recipients.smallBusinessType.description	[string] e.g.: OTHER THAN SMALL BUSINESS Text describes the contracting officer's determination of whether the selected contractor meets the small business size standard for award to a small business for the NAICS code that is applicable to the contract.
organization.awards.debts.subAwards.recipients.parent	[object] The details of the organization that owns more than 50% of the subject organization.
organization.awards.debts.subAwards.recipients.parent.name	[string] e.g.: ABC Corp. The name of the ultimate parent of the awardee or recipient. Currently the name is from the global parent DUNS® number.
organization.awards.debts.subAwards.recipients.parent.duns	[string] e.g.: 804735132 The D-U-N-S® number of the organization that owns more than 50% of the subject organization.
organization.awards.debts.subAwards.recipients.highlyCompensatedOfficers	[array (object)] Records information about the details of individuals identified as one of the five most highly compensated "Executives." "Executive" means officers, managing partners, or any other employees in the sub-awardee's management positions.
organization.awards.debts.subAwards.recipients.highlyCompensatedOfficers.name	[string] e.g.: NANCY KIPPER The name of an individual identified as one of the five most highly compensated "Executives." "Executive" means officers, managing partners, or any other employees in the sub awardee's management positions.
organization.awards.debts.subAwards.recipients.highlyCompensatedOfficers.totalCompensationAmount	[object] Records the cash and noncash dollar value earned by the one of the five most highly compensated "Executives" during the sub-awardee's preceding fiscal year and includes the following (for more information see 17 CFR 229.402c2): salary and bonuses, awards of stock, stock options, and stock appreciation rights, earnings for services under non-equity incentive plans, change in pension value, above market earnings on deferred compensation which is not tax qualified, and other compensation.
organization.awards.debts.subAwards.recipients.highlyCompensatedOfficers.totalCompensationAmount.value	[number] e.g.: 250000 The cash and noncash US dollar value earned by the one of the five most highly compensated "Executives" during the sub-awardee's preceding fiscal year and includes the following (for more information see 17 CFR 229.402c2): salary and bonuses, awards of stock, stock options, and stock appreciation rights, earnings for services under non-equity incentive plans, change in pension value, above market earnings on deferred compensation which is not tax qualified, and other compensation.
organization.awards.debts.subAwards.recipients.highlyCompensatedOfficers.sequence	[integer] e.g.: 1 The number which specifies the Highly Compensated Officer,e.g., 1, 2 3 etc.
organization.awards.debts.subAwards.performanceLocations	[array (object)] Records information about the principal place of performance for the activity supported by the award.

organization.awards.debts.subAwards.performanceLocations.location	[object] Records where the predominant performance of the award will be accomplished.
organization.awards.debts.subAwards.performanceLocations.location.code	[string] e.g.: 003 A code indicating where the predominant performance of the award will be accomplished.
organization.awards.debts.subAwards.performanceLocations.location.description	[string] e.g.: Location1 For foreign places of performance: identify where the predominant performance of the award will be accomplished, describing it as specifically, as possible.
organization.awards.debts.subAwards.performanceLocations.address	[object] The details of the Primary Address at which the organization is located or conducts operations.
organization.awards.debts.subAwards.performanceLocations.address.addressCountry	[object] The details of the country or region for this address of the organization.
organization.awards.debts.subAwards.performanceLocations.address.addressCountry.name	[string] e.g.: United States The country or region for this address of the organization.
organization.awards.debts.subAwards.performanceLocations.address.addressCountry.isoAlpha3Code	[string] e.g.: USA Code for the country in which the awardee or recipient is located, using the International Standard for country codes (ISO) 3166-1 Alpha-3 GENC Profile, minus the codes listed for those territories and possessions of the United States already identified as "states."
organization.awards.debts.subAwards.performanceLocations.address.continentalRegion	[object] The details of the continent for this address of the organization.
organization.awards.debts.subAwards.performanceLocations.address.continentalRegion.name	[string] e.g.: North America The name of the continent for this address of the organization. Possible values Africa Asia Pacific Europe Latin America Middle East North America
organization.awards.debts.subAwards.performanceLocations.address.addressCounty	[object] The details of the geographical area of a Country or Region for this address of the organization. Countries divide their geography into smaller sub divisions. County is an example of a commonly used subdivision. Often found in UK.
organization.awards.debts.subAwards.performanceLocations.address.addressCounty.name	[string] e.g.: SAN MATEO The name of the geographical area of a Country or Region for this address of the organization.

Countries subdivide their geography into smaller sub divisions. County is an example of a commonly used subdivision, often found in the UK.

organization.awards.debts.subAwards.performanceLocations.
address.addressCounty.code

[integer] e.g.: 3
Three-position numeric code for county from International Committee for Information Technology Standards (ANSI INCITS) county codes.

organization.awards.debts.subAwards.performanceLocations.
address.addressLocality

[object]
The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.

organization.awards.debts.subAwards.performanceLocations.
address.addressLocality.name

[string] e.g.: SAN FRANCISCO
The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.

organization.awards.debts.subAwards.performanceLocations.
address.addressRegion

[object]
The name of the geographical area for this address of the organization. For Example New Jersey.

organization.awards.debts.subAwards.performanceLocations.
address.addressRegion.name

[string] e.g.: California
The name of the geographical area for this address of the organization. For Example New Jersey.

organization.awards.debts.subAwards.performanceLocations.
address.addressRegion.abbreviatedName

[string] e.g.: NJ
The shortened name of the geographical area for this address of the organization. For example NJ for the US State New Jersey within Country United States.

organization.awards.debts.subAwards.performanceLocations.
address.postalCode

[string] e.g.: 941109999
The postal code for this address of the organization.

Also known locally in various English-speaking countries throughout the world as a postcode, post code, Eircode, PIN or ZIP Code) is a series of letters or digits or both, sometimes including spaces or punctuation, included in a postal address for the purpose of sorting mail. The code is used by the country's postal authority to identify the address where the organization is located or conducts operations .

organization.awards.debts.subAwards.performanceLocations.
address.postalCodeExtension

[string] e.g.: 9999
An extension to the postal code that identifies a street or building within the geographic area covered by the Postal Code.

organization.awards.debts.subAwards.performanceLocations.
address.streetAddress

[object]
The details of the street address for this address of the organization.

organization.awards.debts.subAwards.performanceLocations.
address.streetAddress.line1

[string] e.g.: 492 KOLLER ST
The first line of the address where the entity is located.

The first line of this address of the organization. For example The Point in the address

The Point
37 North Wharf Road
London
W2 1AF

organization.awards.debts.subAwards.performanceLocations.
address.streetAddress.line2

[string] e.g.: Suite 100
The second line of this address of the organization.
For example 37 North Wharf Road in the address
The Point
37 North Wharf Road
London
W2 1AF

organization.awards.debts.subAwards.performanceLocations.
address.congressionalDistrict

[string] e.g.: 02
The territorial subdivision for holding a separate election for one or more seats in a legislative body to which this address belongs.

organization.exclusions

[object]
Exclusions, formerly known as debarments, identify instances when an organization, person, or vessel has been barred from doing business with the federal government for any number of reasons including outstanding debts, criminal activity, and foreign associations among other issues.

organization.exclusions.hasActiveExclusions

[boolean] e.g.: true
Indicates if the exclusion is active as of the date collected.
If true; it denotes that the exclusion is active.

organization.exclusions.hasInactiveExclusions

[boolean] e.g.: true
Indicates if the exclusion was not active as of the date collected.
If true; it denotes that the exclusion was not active.

organization.exclusions.activeExclusionsCount

[integer] e.g.: 12
The number of exclusions that were active on date collected.

organization.exclusions.inactiveExclusionsCount

[integer] e.g.: 7
The number of exclusions that were not active on date collected.

organization.exclusions.mostRecentActiveExclusionDate

[string] e.g.: 2018-09-12
The date of the last exclusion that was active.

organization.exclusions.mostRecentInactiveExclusionDate

[string] e.g.: 2019-12-02
The date of the last exclusion that was inactive.

organization.exclusions.activeExclusions

[array (object)]
Records details about the active exclusions.

organization.exclusions.activeExclusions.samRecordNumber	[string] e.g.: S4MR3MNRY The internal number used by System for Award Management (SAM) to identify exclusion.
organization.exclusions.activeExclusions.cageCode	[string] e.g.: 3V6L6 The Commercial and Government Entity(CAGE) code associated with the excluded entity. Clarification Note: 1. Mostly found on Firm exclusion records, but could be in other types if the Individual, Special Entity, or Vessel has a CAGE Code. 2. CAGE code is required for any business, organization, or agency that is eligible to, or plans to, receive payments from the federal government. A fully accurate and compliant SAM(System for Award Management) registration is required in order to obtain a CAGE code and qualify for federal contracts or grants. More importantly, if you have already completed a government contract or have been awarded a grant, an up-to-date SAM registration and a current CAGE code are required in order for you to receive payment.
organization.exclusions.activeExclusions.classificationType	[object] Records the categorization of the exclusion, e.g., firm, individual, special entity designation, vessel.
organization.exclusions.activeExclusions.classificationType.description	[string] e.g.: Firm Text that specifies the categorization of the exclusion, e.g., firm, individual, special entity designation, vessel.
organization.exclusions.activeExclusions.classificationType.dnbCode	[integer] e.g.: 35562 A unique code assigned by Dun&Bradstreet that specifies the categorization of the exclusion, e.g., firm, individual, special entity designation, vessel. Refer to Reference code table "815 [Exclusion Classification Type]" for all possible values.
organization.exclusions.activeExclusions.programType	[object] Records the exclusion program, e.g., Reciprocal, Nonreciprocal or Procurement.
organization.exclusions.activeExclusions.programType.description	[string] e.g.: Reciprocal Text that specifies the exclusion program, e.g., Reciprocal, Nonreciprocal or Procurement.
organization.exclusions.activeExclusions.programType.dnbCode	[integer] e.g.: 35568 A unique code assigned by Dun&Bradstreet that specifies the exclusion program, e.g., Reciprocal, Nonreciprocal or Procurement. Refer to Reference code table "816 [Exclusion Program Type]" for all possible values.
organization.exclusions.activeExclusions.reason	[object] Records the reason for which the entity is being excluded.
organization.exclusions.activeExclusions.reason.description	[string] e.g.: Prohibition/Restriction Text that specifies the reason for which the entity is being excluded.

organization.exclusions.activeExclusions.reason.dnbCode	[integer] e.g.: 35569 A unique code assigned by Dun&Bradstreet that specifies the reason for which the entity is being excluded. Refer to Reference code table "814 [Exclusion Reason Code]" for all possible values.
organization.exclusions.activeExclusions.legacyCTCode	[string] e.g.: Z1 The code which identifies the legacy Excluded Parties List System (EPLS) Cause & Treatment (CT) Code associated with the exclusion.
organization.exclusions.activeExclusions.agencyName	[string] e.g.: EPA Text specifying the name of the Agency which created this exclusion.
organization.exclusions.activeExclusions.effectiveDate	[string] e.g.: 2012-05-21 The date that the exclusion went active.
organization.exclusions.activeExclusions.expirationDate	[string] e.g.: 2024-09-12 The date when the exclusion is expected to cease.
organization.exclusions.activeExclusions.samRecordUpdatedDate	[string] e.g.: 2014-07-30 The date the exclusion was created in System for Award Management (SAM) system.
organization.exclusions.activeExclusions.agencyComments	[string] e.g.: Convicted of Clean Air or Clean Water Act violation--ineligible for awards to be performed at this Facility Only: (Violating Facility) California Shellfish Company d.b.a. Point Adams Packing Company, 482 Fleet Street, Hammond, OR 97121 The text that specifies additional information as necessary by the Agency creating the exclusion.
organization.exclusions.activeExclusions.nationalProviderID	[string] e.g.: 1992878136 The National Provider Identifier (NPI) associated with the exclusion. Clarification Note: Healthcare providers acquire their unique 10-digit NPIs from the Centers for Medicare & Medicaid Services (CMS) at the Department of Health & Human Services (HHS) to identify themselves in a standard way throughout their industry.
organization.exclusions.activeExclusions.organizationName	[string] e.g.: GORMAN MANUFACTURING COMPANY, INC. Single name by which the organization is primarily known or identified.
organization.exclusions.activeExclusions.referenceNames	[string] e.g.: (also JOINT STOCK COMPANY FOREIGN ECONOMIC ASSOCIATION TEKHNOPROMEXPORT, JOINT STOCK COMPANY FOREIGN ECONOMIC ASSOCIATION TEKHNOPROMEXPORT, VO TEKHNOPROMEKSPORT, OAO, OJSC TECHNOPROMEXPORT, JSC TEKHNOPROMEXPORT, OPEN JOINT STOCK COMPANY FOREIGN ECONOMIC ASSOCIATION TEKHNOPROMEXPORT, JSC VO TEKHNOPROMEXPORT) The other names used to refer to this company.

organization.exclusions.activeExclusions.address	[object] The details of the Primary Address at which the organization is located or conducts operations.
organization.exclusions.activeExclusions.address.addressCountry	[object] The details of the country or region for this address of the organization.
organization.exclusions.activeExclusions.address.addressCountry.isoAlpha3Code	[string] e.g.: USA The 3 letter country code assigned by ISO.
organization.exclusions.activeExclusions.address.addressLocality	[object] The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.
organization.exclusions.activeExclusions.address.addressLocality.name	[string] e.g.: SAN FRANCISCO The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.
organization.exclusions.activeExclusions.address.addressRegion	[object] The name of the geographical area for this address of the organization. For Example New Jersey.
organization.exclusions.activeExclusions.address.addressRegion.abbreviatedName	[string] e.g.: NJ The shortened name of the geographical area for this address of the organization. For example NJ for the US State New Jersey within Country United States.
organization.exclusions.activeExclusions.address.postalCode	[string] e.g.: 941109999 The postal code for this address of the organization. Also known locally in various English-speaking countries throughout the world as a postcode, post code, Eircode, PIN or ZIP Code) is a series of letters or digits or both, sometimes including spaces or punctuation, included in a postal address for the purpose of sorting mail. The code is used by the country's postal authority to identify the address where the organization is located or conducts operations .
organization.exclusions.activeExclusions.address.streetAddress	[object] The details of the street address for this address of the organization.
organization.exclusions.activeExclusions.address.streetAddress.line1	[string] e.g.: 492 KOLLER ST The first line of the address where the entity is located. The first line of this address of the organization. For example The Point in the address The Point 37 North Wharf Road London W2 1AF

organization.exclusions.activeExclusions.address.streetAddress.line2	[string] e.g.: Suite 100 The second line of this address of the organization. For example 37 North Wharf Road in the address The Point 37 North Wharf Road London W2 1AF
organization.exclusions.activeExclusions.address.streetAddress.line3	[string] e.g.: Suite 100 The second line of this address of the organization. For example 37 North Wharf Road in the address The Point 37 North Wharf Road London W2 1AF
organization.exclusions.activeExclusions.address.streetAddress.line4	[string] e.g.: Suite 100 The second line of this address of the organization. For example 37 North Wharf Road in the address The Point 37 North Wharf Road London W2 1AF
organization.exclusions.inactiveExclusions	[array (object)] Records details about the Inactive exclusions.
organization.exclusions.inactiveExclusions.samRecordNumber	[string] e.g.: S4MR3MNRY The internal number used by System for Award Management (SAM) to identify exclusion.
organization.exclusions.inactiveExclusions.cageCode	[string] e.g.: 3V6L6 The Commercial and Government Entity(CAGE) code associated with the excluded entity. Clarification Note: 1. Mostly found on Firm exclusion records, but could be in other types if the Individual, Special Entity, or Vessel has a CAGE Code. 2. CAGE code is required for any business, organization, or agency that is eligible to, or plans to, receive payments from the federal government. A fully accurate and compliant SAM (System for Award Management) registration is required in order to obtain a CAGE code and qualify for federal contracts or grants. More importantly, if you have already completed a government contract or have been awarded a grant, an up-to-date SAM registration and a current CAGE code are required in order for you to receive payment.

organization.exclusions.inactiveExclusions.classificationType	[object] Records the categorization of the exclusion, e.g., firm, individual, special entity designation, vessel.
organization.exclusions.inactiveExclusions.classificationType.description	[string] e.g.: Firm Text that specifies the categorization of the exclusion, e.g., firm, individual, special entity designation, vessel.
organization.exclusions.inactiveExclusions.classificationType.dnbCode	[integer] e.g.: 35562 A unique code assigned by Dun&Bradstreet that specifies the categorization of the exclusion, e.g., firm, individual, special entity designation, vessel. Refer to Reference code table "815 [Exclusion Classification Type]" for all possible values.
organization.exclusions.inactiveExclusions.programType	[object] Records the exclusion program, e.g., Reciprocal, Nonreciprocal or Procurement.
organization.exclusions.inactiveExclusions.programType.description	[string] e.g.: Reciprocal Text that specifies the exclusion program, e.g., Reciprocal, Nonreciprocal or Procurement.
organization.exclusions.inactiveExclusions.programType.dnbCode	[integer] e.g.: 35568 A unique code assigned by Dun&Bradstreet that specifies the exclusion program, e.g., Reciprocal, Nonreciprocal or Procurement. Refer to Reference code table "816 [Exclusion Program Type]" for all possible values.
organization.exclusions.inactiveExclusions.reason	[object] Records the reason for which the entity is being excluded.
organization.exclusions.inactiveExclusions.reason.description	[string] e.g.: Prohibition/Restriction Text that specifies the reason for which the entity is being excluded.
organization.exclusions.inactiveExclusions.reason.dnbCode	[integer] e.g.: 35569 A unique code assigned by Dun&Bradstreet that specifies the reason for which the entity is being excluded. Refer to Reference code table "814 [Exclusion Reason Code]" for all possible values.
organization.exclusions.inactiveExclusions.legacyCTCode	[string] e.g.: Z1 The code which identifies the legacy Excluded Parties List System (EPLS) Cause & Treatment (CT) Code associated with the exclusion.
organization.exclusions.inactiveExclusions.agencyName	[string] e.g.: EPA Text specifying the name of the Agency which created this exclusion.
organization.exclusions.inactiveExclusions.effectiveDate	[string] e.g.: 2012-05-21 The date that the exclusion went Inactive.
organization.exclusions.inactiveExclusions.expirationDate	[string] e.g.: 2024-09-12

	The date when the exclusion is expected to cease.
organization.exclusions.inactiveExclusions.samRecordUpdateDate	[string] e.g.: 2014-07-30 The date the exclusion was created in System for Award Management (SAM) system.
organization.exclusions.inactiveExclusions.agencyComments	[string] e.g.: Convicted of Clean Air or Clean Water Act violation--ineligible for awards to be performed at this Facility Only: (Violating Facility) California Shellfish Company d.b.a. Point Adams Packing Company, 482 Fleet Street, Hammond, OR 97121 The text that specifies additional information as necessary by the Agency creating the exclusion.
organization.exclusions.inactiveExclusions.nationalProviderID	[string] e.g.: 1992878136 The National Provider Identifier (NPI) associated with the exclusion. Clarification Note: Healthcare providers acquire their unique 10-digit NPIs from the Centers for Medicare & Medicaid Services (CMS) at the Department of Health & Human Services (HHS) to identify themselves in a standard way throughout their industry.
organization.exclusions.inactiveExclusions.organizationName	[string] e.g.: GORMAN MANUFACTURING COMPANY, INC. Single name by which the organization is primarily known or identified.
organization.exclusions.inactiveExclusions.referenceNames	[string] e.g.: (also JOINT STOCK COMPANY FOREIGN ECONOMIC ASSOCIATION TEKHNOPROMEXPORT, JOINT STOCK COMPANY FOREIGN ECONOMIC ASSOCIATION TEKHNOPROMEXPORT, VO TEKHNOPROMEKSPORT, OAO, OJSC TEKHNOPROMEXPORT, JSC TEKHNOPROMEXPORT, OPEN JOINT STOCK COMPANY FOREIGN ECONOMIC ASSOCIATION TEKHNOPROMEXPORT, JSC VO TEKHNOPROMEXPORT) The other names used to refer to this company.
organization.exclusions.inactiveExclusions.address	[object] The details of the Primary Address at which the organization is located or conducts operations.
organization.exclusions.inactiveExclusions.address.addressCountry	[object] The details of the country or region for this address of the organization.
organization.exclusions.inactiveExclusions.address.addressCountry.isoAlpha3Code	[string] e.g.: USA The 3 letter country code assigned by ISO.
organization.exclusions.inactiveExclusions.address.addressLocality	[object] The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.
organization.exclusions.inactiveExclusions.address.addressLocality.name	[string] e.g.: SAN FRANCISCO The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.

organization.exclusions.inactiveExclusions.address.addressRegion	<p>[object]</p> <p>The name of the geographical area for this address of the organization. For Example New Jersey.</p>
organization.exclusions.inactiveExclusions.address.addressRegion.abbreviatedName	<p>[string] e.g.: NJ</p> <p>The shortened name of the geographical area for this address of the organization. For example NJ for the US State New Jersey within Country United States.</p>
organization.exclusions.inactiveExclusions.address.postalCode	<p>[string] e.g.: 941109999</p> <p>The postal code for this address of the organization.</p> <p>Also known locally in various English-speaking countries throughout the world as a postcode, post code, Eircode, PIN or ZIP Code) is a series of letters or digits or both, sometimes including spaces or punctuation, included in a postal address for the purpose of sorting mail. The code is used by the country's postal authority to identify the address where the organization is located or conducts operations .</p>
organization.exclusions.inactiveExclusions.address.streetAddress	<p>[object]</p> <p>The details of the street address for this address of the organization.</p>
organization.exclusions.inactiveExclusions.address.streetAddress.line1	<p>[string] e.g.: 492 KOLLER ST</p> <p>The first line of the address where the entity is located.</p> <p>The first line of this address of the organization. For example The Point in the address</p> <p>The Point 37 North Wharf Road London W2 1AF</p>
organization.exclusions.inactiveExclusions.address.streetAddress.line2	<p>[string] e.g.: Suite 100</p> <p>The second line of this address of the organization. For example 37 North Wharf Road in the address The Point 37 North Wharf Road London W2 1AF</p>
organization.exclusions.inactiveExclusions.address.streetAddress.line3	<p>[string] e.g.: Suite 100</p> <p>The second line of this address of the organization. For example 37 North Wharf Road in the address The Point 37 North Wharf Road London W2 1AF</p>

organization.exclusions.inactiveExclusions.address.streetAddress.line4	[string] e.g.: Suite 100 The second line of this address of the organization. For example 37 North Wharf Road in the address The Point 37 North Wharf Road London W2 1AF
organization.violations	[object] Records details of proceedings against subject business for failure to comply with the standards of the different government agencies.
organization.violations.hasEPAViolations	[boolean] e.g.: true When set to "true"; it indicates that there were violations recorded on the company by the Environmental Protection Agency (EPA). When set to "false"; it indicates that there were no violations recorded on the company by the Environmental Protection Agency (EPA).
organization.violations.hasOSHAViolations	[boolean] e.g.: true When set to "true"; it indicates that there were violations recorded on the company by the Occupational Safety and Health Administration (OSHA). When set to "false"; it indicates that there were no violations recorded on the company by the Occupational Safety and Health Administration (OSHA).
organization.violations.hasGCLCitations	[boolean] e.g.: true When set to "true"; it indicates that there were citations of the company in the Government Control List (GCL). When set to "false"; it indicates that there were no citations of the company in the Government Control List (GCL).
organization.violations.hasCAEnvironmentalViolations	[boolean] e.g.: true When set to "true"; it indicates that there were violations recorded on the company by the Canadian Environmental Protection Agency. When set to "false"; it indicates that there were no violations recorded on the company by the Canadian Environmental Protection Agency.
organization.violations.hasDOLWagesHoursViolations	[boolean] e.g.: true When set to "true"; it indicates that there were violations of the wage and hour violation act recorded on the company by the Department Of Labor (DOL). When set to "false"; it indicates that there were no violations of the wage and hour violation act recorded on the company by the Department Of Labor (DOL).
organization.violations.hasMedicareNursingHomeViolations	[boolean] e.g.: true When set to "true"; it indicates that there were citations issued from the inspections carried on the nursing

home for not meeting specific federal standards.
When set to "false"; it indicates that there were no citations issued from the inspections carried on the nursing home for not meeting specific federal standards.

organization.violations.totalEPAViolationsCount	[integer] e.g.: 3 The total number of violations recorded by the Environmental Protection Agency (EPA) on the subject company.
organization.violations.mostRecentEPAViolationDate	[string] e.g.: 2018-09-12 The date when the last violation was recorded by the Environmental Protection Agency (EPA) on the subject company.
organization.violations.totalEPAViolationsAmount	[object] Records the total amount involved in the violations recorded on the company.
organization.violations.totalEPAViolationsAmount.value	[number] e.g.: 125000.5 The total amount involved in the violations recorded on the company.
organization.violations.totalOSHAViolationsCount	[integer] e.g.: 3 The total number of violations recorded by the Occupational Safety and Health Administration (OSHA) on the subject company.
organization.violations.mostRecentOSHAViolationDate	[string] e.g.: 2018-09-12 The date when the last violation was recorded by the Occupational Safety and Health Administration (OSHA) on the subject company.
organization.violations.totalOSHAViolationsAmount	[object] Records the total amount involved in the violations recorded by the Occupational Safety and Health Administration (OSHA) on the company.
organization.violations.totalOSHAViolationsAmount.value	[number] e.g.: 125000.5 The total amount involved in the violations recorded on the company.
organization.violations.totalGCLCitationsCount	[integer] e.g.: 3 The total number of citations recorded by the Environmental Protection Agency (EPA) on the subject company.
organization.violations.mostRecentGCLCitationDate	[string] e.g.: 2018-09-12 The date when the last violation was recorded by the Environmental Protection Agency (EPA) on the subject company.
organization.violations.totalGCLCitationsAmount	[object] Records the total amount involved in the violations recorded on the company.
organization.violations.totalGCLCitationsAmount.value	[number] e.g.: 125000.5

	The total amount involved in the violations recorded on the company.
organization.violations.totalCAEnvironmentalViolationsCount	[integer] e.g.: 3 The total number of violations recorded by the Environmental Protection Agency (EPA) on the subject company.
organization.violations.mostRecentCAEnvironmentalViolationDate	[string] e.g.: 2018-09-12 The date when the last violation was recorded by the Environmental Protection Agency (EPA) on the subject company.
organization.violations.totalCAEnvironmentalViolationsAmount	[object] Records the total amount involved in the violations recorded on the company.
organization.violations.totalCAEnvironmentalViolationsAmount.value	[number] e.g.: 125000.5 The total amount involved in the violations recorded on the company.
organization.violations.totalDOLWagesHoursViolationsCount	[integer] e.g.: 12 The total number of violations of the wage and hour violation act recorded on the company by the Department Of Labor (DOL).
organization.violations.mostRecentDOLWagesHoursViolationDate	[string] e.g.: 2021-12-13 The date when the most recent violation of the wage and hour violation act recorded on the company by the Department Of Labor (DOL).
organization.violations.totalDOLWagesHoursViolationsAmount	[object] Records the monetary figure recorded on all violations of the wage and hour violation act recorded on the company by the Department Of Labor (DOL).
organization.violations.totalDOLWagesHoursViolationsAmount.value	[number] e.g.: 25000.5 The monetary figure recorded on all violations of the wage and hour violation act recorded on the company by the Department Of Labor (DOL).
organization.violations.totalMedicareNursingHomeViolationsCount	[integer] e.g.: 12 The total number of citations issued from the inspections carried on the nursing home for not meeting specific federal standards.
organization.violations.mostRecentMedicareNursingHomeViolationDate	[string] e.g.: 2021-12-13 The date when the most recent citation was issued from the inspections carried on the nursing home for not meeting specific federal standards.
organization.violations.totalMedicareNursingHomeViolationsAmount	[object] Records the monetary figure recorded on all citations issued from the inspections carried on the nursing home for not meeting specific federal standards.
organization.violations.totalMedicareNursingHomeViolationsAmount.value	[number] e.g.: 25000.5

mount.value	The monetary figure recorded on all citations issued from the inspections carried on the nursing home for not meeting specific federal standards.
organization.violations.epaViolations	[array (object)] Records details of the violations recorded on the company by the Environmental Protection Agency (EPA).
organization.violations.epaViolations.hasAirFacility	[boolean] e.g.: true When set to "true" it indicates that the facility has an air facility system. When set to "false" it indicates that the facility doesn't have air facility system.
organization.violations.epaViolations.hasCleanWaterPermit	[boolean] e.g.: true When set to "true" it indicates that the facility has National Pollutant Discharge Elimination System's clean water permit as per Clean Water Act. When set to "false" it indicates that the facility doesn't have National Pollutant Discharge Elimination System's clean water permit as per Clean Water Act.
organization.violations.epaViolations.hasSDWISPermit	[boolean] e.g.: true When set to "true" it indicates that the facility has Safe Drinking Water Information System permit as per Environmental Protection Agency(EPA). When set to "false" it indicates that the facility doesn't have Safe Drinking Water Information System permit as per Environmental Protection Agency(EPA).
organization.violations.epaViolations.hasRCRAPermit	[boolean] e.g.: true When set to "true" it indicates that the facility has Resource Conservation and Recovery Act Information System permit. When set to "false" it indicates that the facility doesn't have Resource Conservation and Recovery Act Information System permit.
organization.violations.epaViolations.hasTRIPermit	[boolean] e.g.: true When set to "true" it indicates that the facility has Toxic Release Inventory permit. When set to "false" it indicates that the facility doesn't have Toxic Release Inventory permit.
organization.violations.epaViolations.hasGreenHouseGasPermit	[boolean] e.g.: true When set to "true" it indicates that the facility has Green House Gas permit. When set to "false" it indicates that the facility doesn't have Green House Gas permit.
organization.violations.epaViolations.reportURL	[string] e.g.: http://echo.epa.gov/detailed-facility-report?fid=110001341441 Text that provides the Web page address having detailed compliance history report about the facility.
organization.violations.epaViolations.registryServiceID	[number] e.g.: 110001340000 A number that uniquely identifies the program regulated by the facility registry service. Note: Facilities may be regulated under more than one environmental statute depending on the size and nature of the operations of the facility.
organization.violations.epaViolations.facilityName	[string] e.g.: SUPERIOR MFG GROUP

The name of the company or permit holder as maintained by Facility registry service.

organization.violations.epaViolations.facilityAddress	[object] Records the address details of the facility or the permit holder.
organization.violations.epaViolations.facilityAddress.streetAddress	[object] Records any of the address details that cannot be provided in a more granular format; e.g., building, street, estate of the facility or permit holder.
organization.violations.epaViolations.facilityAddress.streetAddress.line1	[string] e.g.: 1, King street Text that describes any of the address details that cannot be provided in a more granular format; e.g., building, street, estate of the facility or permit holder.
organization.violations.epaViolations.facilityAddress.addressLocality	[object] Records the town or city recognized by the Postal Authority for delivering mail to the facility or permit holder.
organization.violations.epaViolations.facilityAddress.addressLocality.name	[string] e.g.: Townsend The name of the town or city recognized by the Postal Authority for delivering mail to the facility or permit holder.
organization.violations.epaViolations.facilityAddress.addressRegion	[object] Records the state or territory of the facility or permit holder.
organization.violations.epaViolations.facilityAddress.addressRegion.name	[string] e.g.: California The name of the state or territory of the facility or permit holder.
organization.violations.epaViolations.facilityAddress.postalCode	[string] e.g.: true An identifier used by the local country Postal Authority to identify a particular geographic location.
organization.violations.epaViolations.facilityAddress.addressCounty	[object] Records the administrative division within a Territory or Country for this Role Player involved in this Commercial Credit Claim. As a guiding principle this is a geographic area which would be classified as a Province (except Canada) or a County. In the U.S. this would be a county within a State. In the UK this would be a county in one of the Home Nations. In Republic Of Ireland, this would be a county and there would be no State.
organization.violations.epaViolations.facilityAddress.addressCounty.name	[string] e.g.: Morris A primary administrative division within a Territory or Country for this Role Player involved in this Commercial Credit Claim. As a guiding principle this is a geographic area which would be classified as a Province (except Canada) or a County. In the U.S. this would be a county within a State. In the UK this would be a county in one of the Home Nations. In Republic Of Ireland, this would be a county and there would be no State.
organization.violations.epaViolations.facilityAddress.addressCountry	[string] e.g.: 6120

ounty.fipsCode	The 2 digit state federal information processing system code concatenated with the 3 digit County federal information processing system code.
organization.violations.epaViolations.epaAdmimistrativeRegionCode	[string] e.g.: 05 A code value that identifies the geographic Active permit administrative region of the environmental protection agency.
organization.violations.epaViolations.isFederalFacility	[boolean] e.g.: true When set to "true" it indicates that the facility is provided for leasing to the federal government. When set to "false" it indicates that the facility is not provided for leasing to the federal government.
organization.violations.epaViolations.isMajor	[boolean] e.g.: true When set to "true" it indicates that the facility is a major facility based on the environmental protection agency and state standards. When set to "false" it indicates that the facility is not a major facility based on the environmental protection agency and state standards.
organization.violations.epaViolations.isPermitActive	[boolean] e.g.: true When set to "true" it indicates that the permit of the facility is active. When set to "false" it indicates that the permit of the facility is not active. Note: A flag indicating any of the associated ICIS-Air, ICIS-NPDES, RCRA or SDWA permits are active.
organization.violations.epaViolations.sicV4Codes	[string] e.g.: 5244 A numeric and/or alpha value which may be used to identify a business activity performed by the facility. Note: The 4-digit Standard Industrial Classification (SIC) code that represents the economic activity of a company. The NAICS classification system replaced the SIC classification system in 1997. These codes are no longer collected by some EPA programs.
organization.violations.epaViolations.naicsCodes	[string] e.g.: 339999 326199 326192 A numeric and/or alpha value which may be used to identify a business activity performed by the facility. Note: The 6-digit North American Industry Classification System (NAICS) code that represents a subdivision of an industry that accommodates user needs in the United States.
organization.violations.epaViolations.federalAgencyName	[string] e.g.: Postal Service The name of the federal agency that represents the facility. Note: If the facility is part of a Federal Agency, the federal agency's name is displayed, as classified in Facility registry service.
organization.violations.epaViolations.impairedWaterCategoryCode	[integer] e.g.: 1 A code value (i.e. single digit) that identifies the facility is discharging into water as impaired (category 4 or category 5) in the Watershed Assessment, Tracking & Environmental ResultS (WATERS) database.
organization.violations.epaViolations.demoraphicProfile	[object] Records the location of the facity or permit holder based on the geo-spatial data gathered from the longitude and lattitude coordinates

and other proximity information.

organization.violations.epaViolations.demoraphicProfile.isWith inTribalBoundary	[boolean] e.g.: true When set to "true" it indicates that the facility is located within a Native American tribal boundary. When set to "false" it indicates that the facility is not located within a Native American tribal boundary.
organization.violations.epaViolations.demoraphicProfile.myRT KCode	[string] e.g.: NNN A code value that denotes the 3 digit combination of Y/N flags indicating if the facility is considered as myRTK.
organization.violations.epaViolations.demoraphicProfile.isEJS creeningLocation	[boolean] e.g.: true When set to "true" it indicates that the facility in the geographical areas warrants further screening under environmental justice (EJ) indexes of EJSCREEN. When set to "false" it indicates that the facility in the geographical areas does not warrants further screening under environmental justice (EJ) indexes of EJSCREEN.
organization.violations.epaViolations.demoraphicProfile.isUS MexicoBorderLocation	[boolean] e.g.: true When set to "true" it indicates that the facility is located within 100KM of the US-Mexico Border. When set to "false" it indicates that the facility is located not within 100KM of the US-Mexico Border.
organization.violations.epaViolations.demoraphicProfile.isChe sapeakeBayLocation	[boolean] e.g.: true When set to "true" it indicates that the facility is located within the Chesapeake Bay watershed area. When set to "false" it indicates that the facility is not located within the Chesapeake Bay watershed area.
organization.violations.epaViolations.demoraphicProfile.isNon AttainmentLocation	[boolean] e.g.: true When set to "true" it indicates that the facility is located within an Air Non Attainment area. When set to "false" it indicates that the facility is not located within an Air Non Attainment area.
organization.violations.epaViolations.demoraphicProfile.lati tude	[number] e.g.: 13.526789 The latitude of the facility in decimal degrees expressed using the NAD83 horizontal datum. The coordinate comes from the FRS EPA Locational Reference Tables (LRT) file which represents the most accurate value for the facility based on the available spatial metadata.
organization.violations.epaViolations.demoraphicProfile.longi tude	[number] e.g.: -81.321548 The longitude of the facility in decimal degrees expressed using the NAD83 horizontal datum. The coordinate comes from the FRS EPA Locational Reference Tables (LRT) file which represents the most accurate value for the facility based on the available spatial metadata.
organization.violations.epaViolations.demoraphicProfile.mapIc onFileName	[string] e.g.: CWA-IA-MN-N.png The name that describes the default map icon image file calculated for the facility by the ECHO program.
organization.violations.epaViolations.demoraphicProfile.coor dinateCollectionMethod	[string] e.g.: ADDRESS MATCHING-HOUSE NUMBER Text that describes the method used to determine the latitude and longitude coordinates for the provided facility coordinate.

organization.violations.epaViolations.demoraphicProfile.coordinatesReferenceLocation	[string] e.g.: CENTER OF A FACILITY OR STATION Text that describes the location of the provided facility coordinate.
organization.violations.epaViolations.demoraphicProfile.coordinatesEstimatedAccuracyCode	[string] e.g.: 100000 A number that denotes the estimate of accuracy based on provided spatial metadata and quality assurance routines for the provided facility coordinate.
organization.violations.epaViolations.demoraphicProfile.nativeTribesDescription	[string] e.g.: Cheyenne and Arapaho Tribes, Oklahoma - 0 mile(s), Comanche Nation, Oklahoma - 24.9 mile(s), Fort Sill Apache Tribe of Oklahoma - 24.9 mile(s), Kiowa Indian Tribe of Oklahoma - 24.9 mile(s), Apache Tribe of Oklahoma - 24.9 mile(s) Text that describes the list of Native American tribes and Native Alaskan Villages that were determined to be within 25 miles of the facility coordinate and the distance in miles from the tribal or village boundary.
organization.violations.epaViolations.demoraphicProfile.hydrologicUnitCode	[string] e.g.: 11130302 A code value that denotes the Watershed Hydrologic Unit Code (HUC) derived from the facility coordinate.
organization.violations.epaViolations.demoraphicProfile.watershedBoundaryDatasetCode	[string] e.g.: 111303020201 A code value that denotes the Watershed Boundary Dataset code derived from the facility coordinate.
organization.violations.epaViolations.demoraphicProfile.coordinatesAddress	[object] Records the location details derived from geo coordinates of the facility.
organization.violations.epaViolations.demoraphicProfile.coordinatesAddress.addressCounty	[object] Records the county details derived from geo coordinates of the facility.
organization.violations.epaViolations.demoraphicProfile.coordinatesAddress.addressCounty.fipsCode	[string] e.g.: 62340 A code value that denotes the State federal information processing system code concatenated with the 3 digit County federal information processing system code derived from the facility coordinate.
organization.violations.epaViolations.demoraphicProfile.coordinatesAddress.postalCode	[string] e.g.: 562134536 A code value used by the local country Postal Authority to identify a particular geographic location derived from the facility coordinate. Note: This is different from Address postal code.
organization.violations.epaViolations.demoraphicProfile.coordinatesAddress.congressionalDistrict	[string] e.g.: 27 A code value that denotes the 113th Congressional District derived from the facility coordinate.
organization.violations.epaViolations.demoraphicProfile.censusBlockCode	[string] e.g.: 400399610001551 A code value that denotes the 2010 Census Block derived from the facility coordinate.
organization.violations.epaViolations.demoraphicProfile.minorityPopulationPercentage	[number] e.g.: 12.5 The percentage of the minority population within a 3-mile radius is i.e. the number of non-white people (and not of Hispanic origin) from the total people.
organization.violations.epaViolations.demoraphicProfile.population	[number] e.g.: 10

ationDensity	The number of people per square mile within a 3-mile radius i.e. the ratio of total people to total land area.
organization.violations.epaViolations.complianceScreening	[object] Records the details regarding the inspection that took place in the facility by other enforcement agency. This count only includes inspection types that are counted as inspections in official counts.
organization.violations.epaViolations.complianceScreening.inspectionsCount	[integer] e.g.: 10 The total number of inspections/ compliance evaluations that have occurred at the facility under the CAA, CWA, and RCRA in the last five years.
organization.violations.epaViolations.complianceScreening.mostRecentFullInspectionDate	[string] e.g.: 2018-09-12 The date when the last inspection of the facility took place. For the Clean Air Act, the date on which a Full Compliance Evaluation (FCE) was completed. This date may or may not correspond to an actual site visit. A series of partial onor off-site inspections may have been conducted during the fiscal year as part of this FCE.
organization.violations.epaViolations.complianceScreening.sinceLastInspectionDaysCount	[integer] e.g.: 10 This is the count in days since the date on which the most recent inspection of the facility took place based on ICISAir, ICIS-NPDES, or RCRAInfo.
organization.violations.epaViolations.complianceScreening.mostRecentEPAInspectionDate	[string] e.g.: 2018-09-12 The date when the last inspection was performed by Environmental Protection Agency at the facility .
organization.violations.epaViolations.complianceScreening.mostRecentStateEnvironmentalAgencyInspectionDate	[string] e.g.: 2018-09-12 The date when the last/most recent inspection was performed by the state environmental agency of the facility.
organization.violations.epaViolations.complianceScreening.informalEnforcementActionsCount	[integer] e.g.: 10 The total number of informal enforcement actions/NOVs that have been taken against the facility within the twenty most recently completed quarters (5 years). Note : Notices of Violation are activities taken by EPA or the state that often precede a formal administrative or civil/ judicial enforcement action. Not all notices of violation are escalated to formal enforcement action for a variety of reasons, including the following: the facility quickly corrects the problem(s) indicated in the notice, the violation is determined to be less severe than originally thought, or consultation between the facility and EPA or the state indicates that a violation has not occurred. Based on data recorded in ICIS-Air, ICIS-NPDES, SDWIS, and RCRAInfo.
organization.violations.epaViolations.complianceScreening.formalEnforcementActionsCount	[integer] e.g.: 10 The number denotes the count of all of the formal enforcement actions that addressed the facility from the following systems: ICIS-Air, ICIS-NPDES,

SDWIS and RCRAInfo	
organization.violations.epaViolations.complianceScreening.mostRecentInformalEnforcementActionDate	[string] e.g.: 2018-09-12 The date when the latest informal action or NOV was recorded in ICISAir, ICIS-NPDES, RCRAInfo or SDWIS.
organization.violations.epaViolations.complianceScreening.mostRecentFormalEnforcementActionDate	[string] e.g.: 2018-09-12 The date upon which the most recent enforcement action has/will come to effect in the last five years.
organization.violations.epaViolations.complianceScreening.mostRecentEPAFormalEnforcementActionDate	[string] e.g.: 2018-09-12 The date upon which the most recent formal enforcement action taken against the facility by environmental protection agency has/will come to effect in the last five years.
organization.violations.epaViolations.complianceScreening.mostRecentStateAgencyFormalEnforcementActionDate	[string] e.g.: 2018-09-12 The date upon which most recent formal enforcement action taken against the facility by state environmental agency has/will come to effect in the last five years.
organization.violations.epaViolations.complianceScreening.mostRecentEPAInformalEnforcementActionDate	[string] e.g.: 2018-09-12 The date upon which the most recent informal enforcement action taken against the facility by environmental protection agency has/will come to effect in the last five years.
organization.violations.epaViolations.complianceScreening.mostRecentStateAgencyInformalEnforcementActionDate	[string] e.g.: 2018-09-12 The date upon which most recent informal enforcement action taken against the facility by state environmental agency has/will come to effect in the last five years.
organization.violations.epaViolations.complianceScreening.totalPenaltyCount	[integer] e.g.: 10 The total number of all penalties assessed in the last 5 years against the facility taken from the systems ICIS, ICIS-Air, ICIS-NPDES, and RCRAInfo.
organization.violations.epaViolations.complianceScreening.totalPenaltyAmount	[object] Records the total dollar amount of either assessed (or final) penalties.
organization.violations.epaViolations.complianceScreening.totalPenaltyAmount.value	[number] e.g.: 125000.5 The monetary value of the total dollar amount of either assessed (or final) penalties. Note : This only includes penalties that have been entered in the program databases and does not include proposed penalties in RCRAInfo or the cost of Supplemental Environmental Projects (SEPs).
organization.violations.epaViolations.complianceScreening.mostRecentPenaltyDate	[string] e.g.: 2018-09-12 The date on which last ECHO Refresh date of the last assessed Penalty given to the Facility.
organization.violations.epaViolations.complianceScreening.mostRecentPenaltyAmount	[object] Records the total dollar amount of the most recent assessed (or final) penalty given to a facility in the last five years.
organization.violations.epaViolations.complianceScreening.m	[number] e.g.: 125000.5

ostRecentPenaltyAmount.value	<p>The monetary value of the total dollar amount of the most recent assessed (or final) penalty given to a facility in the last five years.</p> <p>Note : This only includes penalties that have been entered in the program databases and does not include proposed penalties in RCRAInfo or the cost of Supplemental Environmental Projects (SEPs).</p>
organization.violations.epaViolations.complianceScreening.nonCompliantQuartersCount	<p>[integer] e.g.: 10</p> <p>A Count of the number of quarters, out of the last twelve quarters, in which the permit or site is considered either in Noncompliance (NC), Significant Noncompliance (SNC) or High Priority violation (HPV) status. A quarter is any of the following 3-month calendar periods: January-March, April-June, July-September, or October-December.</p>
organization.violations.epaViolations.complianceScreening.hasSignificantNonCompliance	<p>[boolean] e.g.: true</p> <p>The Indicator denotes Whether the facility is a High Priority Violator (HPV) for CAA, in Significant Noncompliance (SNC) for CWA or RCRA, or a Serious Violator for SDWA currently for CAA and RCRA, or during the most current quarter in CWA and SDWA, as of the time the data were extracted from the program data systems.</p>
organization.violations.epaViolations.complianceScreening.significantNonCompliantProgramsCount	<p>[integer] e.g.: 10</p> <p>A count of the number of programs (CAA, CWA, SDWA, RCRA) related to the facility that have a serious violation.</p>
organization.violations.epaViolations.complianceScreening.complianceStatusDescription	<p>[string] e.g.: No Violation Identified</p> <p>A text that describes the Current compliance status of the facility or permit holder.for more details on compliance status http://echo.epa.gov/dfr_data_dictionary#compsum</p> <p>Current Values: SNC/Serious Viol, In Violation, No Violation, Unknown, NULL.</p> <p>Order equals priority if multiple programs/permits exist.</p> <p>A NULL value indicates that there are no CAA, CWA, SDWA, or RCRA permits associated with the FRS Facility.</p>
organization.violations.epaViolations.regulatoryStatutes	<p>[array (object)]</p> <p>Records facility related violation information that are reported by the source systems associated with the specific legislative statute.</p>
organization.violations.epaViolations.regulatoryStatutes.statuteType	<p>[object]</p> <p>Records the type of regulatory statute that is associated with the facility registry service information.</p>
organization.violations.epaViolations.regulatoryStatutes.statuteDnbCode	<p>[integer] e.g.: 35668</p> <p>A code value that denotes the type of regulatory statute that is associated with the facility registry service information.</p> <p>Refer to Reference code table "818 [Environmental Protection Agency Regulatory Statute Type]" for all possible values.</p>
organization.violations.epaViolations.regulatoryStatutes.statuteName	<p>[string] e.g.: Clean Air Act (CAA)</p>

eType.description	A text that describes the type of regulatory statute that is associated with the facility registry service information.
organization.violations.epaViolations.regulatoryStatutes.hasSignificantNonCompliance	[boolean] e.g.: true The indicator that describes the current Significant Noncompliance (SNC) or High Priority Violator (HPV) status for the facility during the most current quarter reflects the time the records were extracted from the program data systems. SNC is used for RCRA and CWA, and HPV is used for CAA programs. Each program has its own specific criteria for making this determination. The value of "Yes" indicates the facility is in SNC or HPV for the permit or site in question and may pose a more severe level of environmental threat. The value of "No" indicates the permit or site is not considered in SNC or HPV.
organization.violations.epaViolations.regulatoryStatutes.isHighPriorityViolator	[boolean] e.g.: true The indicator that describes the current Significant Noncompliance (SNC) or High Priority Violator (HPV) status for the facility during the most current quarter reflects the time the records were extracted from the program data systems. SNC is used for RCRA and CWA, and HPV is used for CAA programs. Each program has its own specific criteria for making this determination. The value of "Yes" indicates the facility is in SNC or HPV for the permit or site in question and may pose a more severe level of environmental threat. The value of "No" indicates the permit or site is not considered in SNC or HPV.
organization.violations.epaViolations.regulatoryStatutes.permitType	[string] e.g.: Minor Text that describes the identifier(s) associated with the facility reported by a regulatory statute.
organization.violations.epaViolations.regulatoryStatutes.sicV4Codes	[string] e.g.: 3069 3996 Text that describes the Permit Types associated with the Facility reported by FRS. Values include: Major, Federally Reportable Minor, Other Minor, Synthetic Minor, Major and Minor and NULL. TSDf = Treatment, Storage and Disposal facility LQG = Large Quantity Generator SQG = Small Quantity Generator CESQG = Conditionally-Exempt Small Quantity Generator Operating TSDf Transporters
organization.violations.epaViolations.regulatoryStatutes.naicsCodes	[string] e.g.: 339999 326199 326192 The text that describes the North American Industry Classification System (NAICS) has replaced the U.S. Standard Industrial Classification (SIC) system. All available NAICS codes are shown.
organization.violations.epaViolations.regulatoryStatutes.inspectionsCount	[integer] e.g.: 10 The text that describes the Standard Industrial Classification (SIC) codes, as maintained by each data system. SIC codes were established by the Census Bureau to identify processes, products and services. Each data system has different criteria for incorporating this information (e.g., for EPCRA 313, the SIC codes are self-reported by the facility each year). All available SIC codes are shown.
organization.violations.epaViolations.regulatoryStatutes.sinceLastInspectionDaysCount	[integer] e.g.: 10 The number of inspections/compliance evaluations that have occurred at the facility, under the corresponding statute, within the last five years. The last 5 years will include data from the 20 most

recently completed quarters, plus data from the current quarter up until the refresh date. This count only includes inspection types that are counted as inspections in official counts.

organization.violations.epaViolations.regulatoryStatutes.informalEnforcementActionsCount

[integer] e.g.: 10
"The date on which most recent inspection of the facility took place.
Clarification Note : For the Clean Air Act, the date on which a Full Compliance Evaluation (FCE) was completed. This date may or may not correspond to an actual site visit. A series of partial onor off-site inspections may have been conducted during the fiscal year as part of this FCE."

organization.violations.epaViolations.regulatoryStatutes.formalEnforcementActionsCount

[integer] e.g.: 10
The number of informal enforcement actions/NOVs that have been taken against the facility in the last five years.
Note : Notices of Violation are activities taken by environmental protection agency or the state that often precede a formal administrative or civil/judicial enforcement action. Not all notices of violation are escalated to formal enforcement action for a variety of reasons, including the following: the facility quickly corrects the problem(s) indicated in the notice, the violation is determined to be less severe than originally thought, or consultation between the facility and EPA or the state indicates that a violation has not occurred.

organization.violations.epaViolations.regulatoryStatutes.mostRecentFormalEnforcementactionDate

[string] e.g.: 2018-09-12
The number of formal enforcement actions that have been taken against the facility under the corresponding statute within the last five years.

organization.violations.epaViolations.regulatoryStatutes.totalPenaltyCount

[integer] e.g.: 10
The Date indicates the effective date of the most recent listed enforcement action. Enforcement actions listed within the last five years are included.

organization.violations.epaViolations.regulatoryStatutes.totalPenaltyAmount

[object]
Records the total dollar amount of either assessed (or final) penalties.

organization.violations.epaViolations.regulatoryStatutes.totalPenaltyAmount.value

[number] e.g.: 125000.5
The total dollar amount of either assessed (or final) penalties.
Clarification Note: This count only includes penalties that have been entered in the program databases: ICIS-Air, ICIS-NPDES, and RCRAInfo.
Federal CAA, CWA-NPDES, and RCRA penalties that have been entered into ICIS are not included in this section to avoid duplicative counting. This count does not include proposed penalties in RCRAInfo or the cost of Supplemental Environmental Projects (SEPs).

organization.violations.epaViolations.regulatoryStatutes.mostRecentPenaltyDate

[string] e.g.: 2018-09-12
The date of the most recent assessed (or final) penalty that has been taken against the facility. Penalties listed within the last five years are included. This measure only includes penalties that have been entered in the program databases: ICIS-Air, ICIS-NPDES, and RCRAInfo. Federal CAA, CWA-NPDES, and RCRA penalties that have been entered into ICIS are not included. This count does not include proposed penalties in RCRAInfo or the cost of Supplemental Environmental Projects (SEPs).

organization.violations.epaViolations.regulatoryStatutes.mostRecentPenaltyAmount	[object] Records the total dollar amount of the most recent assessed (or final) penalty given to a facility. Penalties listed within the last five years are included.
organization.violations.epaViolations.regulatoryStatutes.mostRecentPenaltyAmount.value	[number] e.g.: 125000.5 The total dollar amount of the most recent assessed (or final) penalty given to a facility. Penalties listed within the last five years are included. This count only includes penalties that have been entered in the program databases: ICIS-Air, ICIS-NPDES, and RCRAInfo. Federal CAA, CWANPDES, and RCRA penalties that have been entered into ICIS are not included to avoid duplicative counting. This count does not include proposed penalties in RCRAInfo or the cost of Supplemental Environmental Projects (SEPs).
organization.violations.epaViolations.regulatoryStatutes.nonCompliantQuartersCount	[integer] e.g.: 10 The number denotes the count of the number of quarters, out of last twelve quarters, in which the permit or site is considered either in Noncompliance (NC), Significant Noncompliance (SNC) or High Priority violation (HPV) status. A quarter is any of the following 3month calendar periods: JanuaryMarch, April-June, July-September, or October-December.
organization.violations.epaViolations.regulatoryStatutes.complianceStatusDescription	[string] e.g.: No Violation Identified Text that describes the Current compliance status of the facility asociated with this regulatory statute.
organization.violations.epaViolations.regulatoryStatutes.threeYearsQuarterlyComplianceAssessment	[string] e.g.: VSSSSVVVVVV "The text that describes the history of 3 year compliance status by quarter. For more details on compliance status http://echo.epa.gov/help/reports/dfrdata-dictionary#AirComp http://echo.epa.gov/help/reports/dfrdata-dictionary#RCRAComp
organization.violations.epaViolations.regulatoryStatutes.complianceStatus	[string] e.g.: On The Compliance Tracking classifications can assist you in interpreting the compliance status, particular for non-major standard permittees. In ICIS-NPDES, the database must be set to make a facility-level compliance determination. There are several components of compliance tracking, including Discharge Monitoring Report (DMR) non-receipt tracking and facilitylevel compliance status tracking. Regarding the ECHO menu choices, "On" generally means data are being entered, and all system compliance tracking is on. "Partial" generally means data are being entered, effluent exceedances and most facility-level status types are being identified, but DMR non-receipt is not being tracked. "Off" generally means data are not being entered and/or all compliance tracking is off (system won't determine facility-level compliance status).
organization.violations.epaViolations.regulatoryStatutes.thirteenQuartersComplianceAssessment	[string] e.g.: VVSSSSVVVVVV The text that describes the 13 quarters (3 years plus 3 months) compliance status by quarter, which is derived from the QNCR Code. For more detail, see http://echo.epa.gov/help/reports/dfrdata-dictionary#CWAComp
organization.violations.epaViolations.regulatoryStatutes.thirteenQuartersComplianceAssessment	[integer] e.g.: 10

nQuartersEffluentExceedanceCount	The number the denotes the number of Effluent Exceedance violations at a facility in the past three years plus 3 months (13 quarters).
organization.violations.epaViolations.regulatoryStatutes.sdwisType	[string] e.g.: sdwis1 The text that describes the facility safe drinking water system type.
organization.violations.epaViolations.additionalRegulatoryInformation	[object] Records the release,enforcement and compliance information reported by the facility or permit holder through different reporting programs. The reporting programs include: Toxics Release Inventory,Green House Gas and Federal Enforcement And Compliance reporting programs.
organization.violations.epaViolations.additionalRegulatoryInformation.triID	[string] e.g.: ID123 A number that uniquely identifies all the toxic inventory release cases reported by the facility or permit holder.
organization.violations.epaViolations.additionalRegulatoryInformation.triReleaseTransferQuantity	[integer] e.g.: 2680844 A number that identifies the total pounds per year released for Air Emissions, Surface Water Discharges, Underground Injections, Releases to Land and Off-Site Transfers.
organization.violations.epaViolations.additionalRegulatoryInformation.triOnsiteReleaseQuantity	[integer] e.g.: 33 A number that identifies the total pounds per year released for Air Emissions, Surface Water Discharges, Underground Injections and Releases to Land.
organization.violations.epaViolations.additionalRegulatoryInformation.triOffsiteTransferQuantity	[integer] e.g.: 2680811 A number that identifies the total pounds per year transferred off-site that is reported as part of toxic inventory release.
organization.violations.epaViolations.additionalRegulatoryInformation.hasPreviousYearToxicRelease	[boolean] e.g.: true When set to "true" it indicates that the facility has reported releases to toxics inventory release from the prior reporting year. When set to "false" it indicates that the facility hasn't reported releases to toxics inventory release from the prior reporting year.
organization.violations.epaViolations.additionalRegulatoryInformation.hasCurrentYearToxicRelease	[boolean] e.g.: true When set to "true" it indicates that the facility has reported releases to toxics inventory release in the most recent reporting year. When set to "false" it indicates that the facility hasn't reported releases to toxics inventory release in the most recent reporting year.
organization.violations.epaViolations.additionalRegulatoryInformation.greenHouseGasID	[string] e.g.: 1011239 A number that uniquely identifies all Greenhouse Gas Identifiers related to this facility in the E-GGRT system.
organization.violations.epaViolations.additionalRegulatoryInformation	[integer] e.g.: 2300

mation.lastTotalCarbonDioxideReleaseQuantity	A number that identifies the total number of Facility Emissions in metric tons CO2e (excluding Biogenic CO2) from the most recent reporting year.
organization.violations.epaViolations.additionalRegulatoryInformation.federalEnforcementComplianceCaseID	[string] e.g.: 05-1986-0213 A number that uniquely identifies All Case Numbers of Federal Enforcement Cases relating to the Facility from the ICIS System.
organization.violations.epaViolations.additionalRegulatoryInformation.federalEnforcementComplianceTotalCaseCount	[integer] e.g.: 10 The total number of Federal Enforcement Cases in the last 5 years related to this Facility in the ICIS system.
organization.violations.epaViolations.additionalRegulatoryInformation.federalEnforcementComplianceLastCaseDate	[string] e.g.: 2018-09-12 The date on which the latest Federal Enforcement Case is reported in the last 5 years related to this Facility in the ICIS system.
organization.violations.epaViolations.additionalRegulatoryInformation.federalEnforcementComplianceTotalPenaltyAmount	[number] e.g.: 125000.5 The monetary value of the Federal Enforcement Case penalties assessed against this facility in the last 5 years.
organization.violations.epaViolations.violationID	[string] e.g.: OFACBP42280 This is a derived, unique key to represent each individual entity on this source.
organization.violations.epaViolations.issuedAgency	[object] Records information that identifies the government agent that issued the violation information.
organization.violations.epaViolations.issuedAgency.description	[string] e.g.: OFAC Specially Designated Nationals (SDNs) Text that identifies the government agent that issued the violation information.
organization.violations.epaViolations.issuedAgency.dnbCode	[integer] e.g.: 35887 A unique code assigned by Dun&Bradstreet that identifies the government agent that issued the violation information. Refer to Reference code table "821 [Violation Issued Government Agency]" for all possible values.
organization.violations.epaViolations.dataProvider	[object] Records information that identifies the data provider that contributed this violation information.
organization.violations.epaViolations.dataProvider.description	[string] e.g.: Global Control List Text that identifies the data provider that contributed this violation information.
organization.violations.epaViolations.dataProvider.dnbCode	[integer] e.g.: 35905 A unique code assigned by Dun&Bradstreet that identifies the data provider that contributed this violation information. Refer to Reference code table "29 [Data Provider]" for all possible values.
organization.violations.epaViolations.effectiveDate	[string] e.g.: 2019-09-12

	The date on which this violation became effective.
organization.violations.governmentControlLists	[array (object)] Records details about the citations of the company in the Government Control List (GCL).
organization.violations.governmentControlLists.entityNumber	[string] e.g.: BISDPL89289 A number that uniquely identifies the business entity or an individual.
organization.violations.governmentControlLists.filingDate	[string] e.g.: 2018-09-12 The date on which this record is processed.
organization.violations.governmentControlLists.fullName	[string] e.g.: John Smith The full name of an individual or an organization.
organization.violations.governmentControlLists.familyName	[string] e.g.: John The family name of an individual, in western cultures this is usually presented last.
organization.violations.governmentControlLists.givenName	[string] e.g.: Smith The first name of an individual. If this is not known then an initial may be supplied. The first name may contain more than one word (E.g.: Anne Marie, Jean Charles).
organization.violations.governmentControlLists.middleName	[string] e.g.: Jay A middle name of an individual. If this is not known then an initial may be supplied.
organization.violations.governmentControlLists.nameSuffix	[string] e.g.: Jr A code identifying either a familial suffix to the spouse's name (E.g. Senior, Junior, III.) or a professional/qualification suffix to the spouse's name (E.g. MD, FRICS, PhD etc.) or some other suffix to the spouse's name (E.g. Baronet, Retired.).
organization.violations.governmentControlLists.gender	[string] e.g.: Male A code identifying the gender of an individual i.e. Male, Female, Unknown.
organization.violations.governmentControlLists.birthDate	[string] e.g.: 2018-09-12 Text that represents the list of date of birth as reported by the entity. Note: Month and day may be zero padded and multiple date of birth can be appended.
organization.violations.governmentControlLists.birthLocation	[string] e.g.: San Diego Text that denotes the town or city or location in which an individual was born.
organization.violations.governmentControlLists.spokenLanguage	[string] e.g.: English Text that describes the list of languages (seperated in comma) spoken by an individual.
organization.violations.governmentControlLists.nationality	[string] e.g.: Canadian Text that describes the of nationality of an individual.

organization.violations.governmentControlLists.citizenship	[string] e.g.: Canadian Text that lists the countries (seperated in comma) which an individual has citizenship.
organization.violations.governmentControlLists.ethnicity	[string] e.g.: WHITE Text that describes the racial classification of an individual.
organization.violations.governmentControlLists.hairColour	[string] e.g.: BLACK Text that describes the eye color of an individual. E.g. Black, Dark, etc
organization.violations.governmentControlLists.eyeColour	[string] e.g.: BLUE Text that describes the hair color of an individual. E.g. Bald, Blond, etc
organization.violations.governmentControlLists.height	[string] e.g.: 6'1 Text that describes the height of an individual in feet and inches. E.g. 508"
organization.violations.governmentControlLists.weight	[string] e.g.: 63 Text that describes the weight of the individual in pounds or kilograms. E.g. 160 LBS, 55 KB
organization.violations.governmentControlLists.physicalBuild	[string] e.g.: TALL, THIN Text that describes the physical build type of an individual.
organization.violations.governmentControlLists.scarIdentification	[string] e.g.: MOSTAFA IS LEFT-HANDED AND HAS A DISTINCTIVE SCAR ON HIS RIGHT HAND HE WEARS A FULL BEARD AND GLASSES Text that describes the identification scars or physical markings on body of an individual.
organization.violations.governmentControlLists.offense	[string] e.g.: NIL Text that describes the type offense committed by a business entity or an individual.
organization.violations.governmentControlLists.entityType	[string] e.g.: INDIVIDUAL Text that describes the type of the subject. For instance, Business entity, Individual Organization.
organization.violations.governmentControlLists.title	[string] e.g.: FORMER SO-CALLED AHEALTH MINISTERA OF THE SO-CALLED ALUGANSK PEOPLE'S REPUBLICA. STOOD AS A CANDIDATE Text that describes the list of titles held by the individual or business entity (seperated in comma).
organization.violations.governmentControlLists.programCode	[string] e.g.: SDGT A code that identifies the Program that genreated the entity as a candidate for the global control list.
organization.violations.governmentControlLists.programName	[string] e.g.: SDGT Process The name of the program that genreated the entity as a candidate for the global control list.
organization.violations.governmentControlLists.offenseRemark	[string] e.g.: FOR ALL ITEMS SUBJECT TO THE EAR; LICENSE REVIEW POLICY - CASE-BY-CASE FOR ALL ITEMS LISTED ON THE CCL. PRESUMPTION OF APPROVAL FOR EAR99 ITEMS Text that describes the offense remarks reported based on the entity,individual or the offense etc.,.

organization.violations.governmentControlLists.gclEffectiveDate	[string] e.g.: 2018-09-12 The date on which an entity or an individual was placed on the global control list.
organization.violations.governmentControlLists.gclExpirationDate	[string] e.g.: 2020-09-12 The date on which the entity was terminated or removed from the global control list.
organization.violations.governmentControlLists.reward	[string] e.g.: As appropriate Text that describes the reward offered for information of an entity or an individual.
organization.violations.governmentControlLists.warrantJurisdiction	[string] e.g.: Chisel county Text that describes the jurisdiction that issued the warrant for an entity or an individual.
organization.violations.governmentControlLists.affiliatedOrganizationName	[string] e.g.: ABC Corp Text that describes the list of organizations with which an entity or an individual is affiliated.
organization.violations.governmentControlLists.additionalInformation	[string] e.g.: No additional information Text that describes the additional information regarding an entity or an individual.
organization.violations.governmentControlLists.sourceInformation	[string] e.g.: INFORMATION RESOURCE MANAGEMENT Text that describes the information received from the source for this entity or individual record.
organization.violations.governmentControlLists.aliases	[array (object)] Records the alias names of the subject that is reported under the Office Of Foreign Asset Control list
organization.violations.governmentControlLists.aliases.idNumber	[string] e.g.: WMDNPL306224 A number that uniquely identifies the business entity or an individual.
organization.violations.governmentControlLists.aliases.nameID	[string] e.g.: 190768.1 A number value that uniquely identifies the Alias names associated with the business entity or an individual.
organization.violations.governmentControlLists.aliases.currentAliasName	[string] e.g.: SHERKAT-E IRA Text that describes the type of alias name for an entity. E.g. AKA, FORMERLY KNOWN AS, ASLSO KNOWN AS, DBA, CROSS REFERENCE etc.,.
organization.violations.governmentControlLists.aliases.aliasType	[string] e.g.: DBA Text that describes the current alias name of an entity or individual.
organization.violations.governmentControlLists.aliases.remark	[string] e.g.: Remarks1 Text that provides descriptive information regarding an alias name.
organization.violations.governmentControlLists.address	[object] Records the address associated with an entity or individual.
organization.violations.governmentControlLists.address.idNumber	[string] e.g.: WMDNPL306224

mber	A number that uniquely identifies the address associated with an entity or an individual.
organization.violations.governmentControlLists.address.streetAddress	[object] Records the street or mailing address associated with an entity or individual.
organization.violations.governmentControlLists.address.streetAddress.line1	[string] e.g.: 1, King street Text that describes the street or mailing address associated with an entity or individual.
organization.violations.governmentControlLists.address.addressLocality	[object] Records the town or city recognized by the Postal Authority for delivering mail to an entity or an individual.
organization.violations.governmentControlLists.address.addressLocality.name	[string] e.g.: California The name of the town or city recognized by the Postal Authority for delivering mail to an entity or an individual.
organization.violations.governmentControlLists.address.addressRegion	[object] Records the locally governed area which forms part of a centrally governed nation.
organization.violations.governmentControlLists.address.addressRegion.name	[string] e.g.: North America A name of a locally governed area which forms part of a centrally governed nation.
organization.violations.governmentControlLists.address.postalCode	[string] e.g.: 678982219 An identifier used by the local country Postal Authority to identify a particular geographic location.
organization.violations.governmentControlLists.address.addressCountry	[object] Records the country for this address.
organization.violations.governmentControlLists.address.addressCountry.name	[string] e.g.: United States The name of the country for this address.
organization.violations.governmentControlLists.address.remark	[string] e.g.: Remark2 Text that describes information regarding the Address.
organization.violations.governmentControlLists.shippingVessel	[object] Records details of the shipping vessel that is reported under the Office Of Foreign Asset Control list
organization.violations.governmentControlLists.shippingVessel.callSignIdentificationNumber	[string] e.g.: 9H5319 A number that uniquely identifies the ships and boats associated with an individual/entity.
organization.violations.governmentControlLists.shippingVessel.vesselType	[string] e.g.: FISHING VESSEL Text that indicates the type of vessel associated with an entity/individual. E.g. Bulk Carrier, Tug, etc
organization.violations.governmentControlLists.shippingVessel	[string] e.g.: 319,988

l.tonnageCapacity	A numeric value that specifies the maximum potential number of an Cargo-carrying vessel.
organization.violations.governmentControlLists.shippingVessel.grossRegisteredCapacity	[string] e.g.: 164,241 A numeric value that specifies the maximum potential number of the total tonnage of the vessel.Total weight of vessel with cargo, etc. with tonnage being the cargo carrying capacity of the vessel
organization.violations.governmentControlLists.shippingVessel.registeredJurisdiction	[string] e.g.: PANAMA Text that describes the jurisdiction under whose laws the vessel is registered or licensed.
organization.violations.governmentControlLists.shippingVessel.ownerName	[string] e.g.: NITC The name of the owner of the vessel associated with an entity.
organization.violations.governmentControlLists.violationID	[string] e.g.: OFACBP42280 This is a derived, unique key to represent each individual entity on this source.
organization.violations.governmentControlLists.issuedAgency	[object] Records information that identifies the government agent that issued the violation information.
organization.violations.governmentControlLists.issuedAgency.description	[string] e.g.: OFAC Specially Designated Nationals (SDNs) Text that identifies the government agent that issued the violation information.
organization.violations.governmentControlLists.issuedAgency.dnbCode	[integer] e.g.: 35887 A unique code assigned by Dun&Bradstreet that identifies the government agent that issued the violation information. Refer to Reference code table "821 [Violation Issued Government Agency]" for all possible values.
organization.violations.governmentControlLists.issuedAgency.CountryName	[string] e.g.: United Kingdom The country of the government agent that issued the violation information.
organization.violations.governmentControlLists.dataProvider	[object] Records information that identifies the data provider that contributed this violation information.
organization.violations.governmentControlLists.dataProvider.description	[string] e.g.: Global Control List Text that identifies the data provider that contributed this violation information.
organization.violations.governmentControlLists.dataProvider.dnbCode	[integer] e.g.: 35905 A unique code assigned by Dun&Bradstreet that identifies the data provider that contributed this violation information. Refer to Reference code table "29 [Data Provider]" for all possible values.
organization.violations.governmentControlLists.effectiveDate	[string] e.g.: 2019-09-12 The date on which this violation became effective.
organization.violations.canadianEnvironmentalViolations	[array (object)] Records details of the violations recorded on the company by the Canadian Environmental Protection

Agency.

organization.violations.canadianEnvironmentalViolations.uniqueKey	[string] e.g.: Key123 This is a derived, unique key to represent each individual entity on this source.
organization.violations.canadianEnvironmentalViolations.organizationName	[string] e.g.: City of Moose Jaw The name by which the organization is known and distinguishes it from most, if not all, other subjects.
organization.violations.canadianEnvironmentalViolations.conviction	[string] e.g.: Not available Text that describes the counts of conviction charges identified under the specific legislative act governing the violation.
organization.violations.canadianEnvironmentalViolations.convictionDate	[string] e.g.: 2017-09-12 The date when the conviction was recorded as per the violation.
organization.violations.canadianEnvironmentalViolations.address	[object] Records the address where the organization is located.
organization.violations.canadianEnvironmentalViolations.address.streetAddress	[object] Records the street address where organization is located.
organization.violations.canadianEnvironmentalViolations.address.streetAddress.line1	[string] e.g.: 1, Kings street A text that describes the street address where organization is located.
organization.violations.canadianEnvironmentalViolations.address.addressLocality	[object] Records the town or city recognized by the postal authority for delivering mail to the organization.
organization.violations.canadianEnvironmentalViolations.address.addressLocality.name	[string] e.g.: Townsend The name of the town or city recognized by the postal authority for delivering mail to the organization.
organization.violations.canadianEnvironmentalViolations.address.addressRegion	[object] Records the locally governed area which forms part of a centrally governed nation.
organization.violations.canadianEnvironmentalViolations.address.addressRegion.name	[string] e.g.: California A name of a locally governed area which forms part of a centrally governed nation.
organization.violations.canadianEnvironmentalViolations.address.postalCode	[string] e.g.: 950142083 An identifier used by the local country postal authority to identify a particular geographic location.
organization.violations.canadianEnvironmentalViolations.citationAddress	[object] Records the address where the organization is located as per the conviction.
organization.violations.canadianEnvironmentalViolations.citationAddress.streetAddress	[object] Records the street address where the organization is located as per the conviction.

organization.violations.canadianEnvironmentalViolations.citationAddress.streetAddress.line1	[string] e.g.: 1, Kings street A text that describes the street address where the organization is located as per the conviction.
organization.violations.canadianEnvironmentalViolations.citationAddress.addressLocality	[object] Records the town or city recognized by the postal authority for delivering mail to the organization as per the conviction
organization.violations.canadianEnvironmentalViolations.citationAddress.addressLocality.name	[string] e.g.: Townsend The name of the town or city recognized by the postal authority for delivering mail to the organization as per the conviction
organization.violations.canadianEnvironmentalViolations.citationAddress.addressRegion	[object] Records the locally governed area which forms part of a centrally governed nation as per the conviction
organization.violations.canadianEnvironmentalViolations.citationAddress.addressRegion.name	[string] e.g.: California A text that describes the locally governed area which forms part of a centrally governed nation as per the conviction
organization.violations.canadianEnvironmentalViolations.industryDescription	[string] e.g.: 417 - Machinery, equipment and supplies merchant wholesalers A text that identifies a particular industry code and description in a particular coding scheme; it is not itself an actual industry code. An alphanumeric value identifying a business activity based on the scheme specified by the Industry Code Type Code. For instance, 1611 represents the highway and street construction industry in the U.S. SIC (Standard Industrial Classification) system. A code identifying the industry coding scheme of the Industry Code, e.g., U.S. Standard Industrial Classification (SIC) 1987, Standard Industry Code 8 digit, North American Industry Classification System (NAICS), Nomenclature Generale des Activites Economiques dans L'Union Europeenne (NACE).
organization.violations.canadianEnvironmentalViolations.caseSummary	[string] e.g.: Environment Canada Officers completed inspections pursuant to the Regulations between January 13, 2014, and November 27, 2014. Text that describes the summary of violation as per the reported conviction
organization.violations.canadianEnvironmentalViolations.enforcementNotification	[string] e.g.: Velocity Inc. and its President Fined \$37,200 for Violating the Canadian Environmental Protection Act, 1999 Text that describes the enforcement notifications about the violation tied to the organization and the specific offense.
organization.violations.canadianEnvironmentalViolations.enforcementNotificationURL	[string] e.g.: http://www.ec.gc.ca/default.asp?lang=En&n=714D9AAE-1&news=BA9388BD-7CD6-4D17-94AC-C6C06EA8B67A Text that provides the Web Page Address i.e. Unified resource locator address used to store the enforcement notice related information. This can be the address of a computer or a document on the Internet that consists of the identifier of a computer, using a host name or Internet Protocol (IP) address (as www.dnb.com), and optionally an explicit file location.
organization.violations.canadianEnvironmentalViolations.violation	[string] e.g.: Guilty Plea

ionResult	Text that describes the decision arrived by the Legal entity on the reported violation. Example: Guilty or Guilty Plea etc.
organization.violations.canadianEnvironmentalViolations.courtLevel	[string] e.g.: Provincial and Territorial Court A text denotes the level of legalText that denotes the level of legal entity that tried this violation conviction.entity that tried this violation conviction
organization.violations.canadianEnvironmentalViolations.natureOfOffense	[string] e.g.: Import of non-compliant products Text that describes the nature of offense recorded during the conviction clarification.
organization.violations.canadianEnvironmentalViolations.additionalNatureOfOffense	[string] e.g.: Import of non-compliant products Text that provides additional information regarding the nature of offense recorded during the conviction.
organization.violations.canadianEnvironmentalViolations legislativeActs	[string] e.g.: Canadian Environmental Protection Act, 1999 (CEPA) / Ozone-depleting Substances Regulations, 1998 / 272(1)(b) Text that records the various regulatory act and legislative subdivisions applied on this conviction.
organization.violations.canadianEnvironmentalViolations.courtSentenceDate	[string] e.g.: 2019-09-12 The date when the legal entity is sentenced with environmental violation.
organization.violations.canadianEnvironmentalViolations.courtSentenceLocation	[string] e.g.: Montreal, Quebec Text that denotes the location of the legal entity that is sentenced with environmental Violation.
organization.violations.canadianEnvironmentalViolations.verdictType	[string] e.g.: Fine Text that describes the final verdict based on the sentence as per the conviction.
organization.violations.canadianEnvironmentalViolations.courtSentenceSummary	[string] e.g.: On October 29, 2012, Velocity Inc., in Valleyfield, Quebec, and Stéphane Poirier, its President, were fined \$37,200 after pleadi.. Text that describes the summary of the violation, the applicable regulations and the fine amount levied as per the judicial enforcement.
organization.violations.canadianEnvironmentalViolations.fineAmount	[object] Records the fine amount that is payable as part of the violation.
organization.violations.canadianEnvironmentalViolations.fineAmount.value	[number] e.g.: 3720.5 A monetary value of the fine amount that is payable as part of the violation.
organization.violations.oshaInspections	[array (object)] Records details of the inspections recorded on the company by the Occupational Safety and Health Administration (OSHA).
organization.violations.oshaInspections.reportingOrganizationID	[string] e.g.: ID123 An identifier for the OSHA office or organizational unit that has reported the inspection in this organization
organization.violations.oshaInspections.establishmentName	[string] e.g.: Name

	The name of the company or site which is subjected to inspection.
organization.violations.oshaInspections.inspectionType	<p>[string] e.g.: A</p> <p>The textual code that indicates the impetus for actually performing the inspection; e.g., may be part of a planned schedule, accident, complaint, etc.</p> <p>The expected values are: A=Accident. B=Complaint. C=Referral. D=Monitoring. E=Variance. F=FollowUp. G=Unprog Rel. H=Planned. I=Prog Related. J=Unprog Other. K=Prog Other. L=Other-L</p>
organization.violations.oshaInspections.inspectionScope	<p>[string] e.g.: B</p> <p>A textual code that indicates the scope of the inspection.</p> <p>The expected values are: A=Complete. B=Partial. C=Records. D=NoInspection</p>
organization.violations.oshaInspections.startDate	<p>[string] e.g.: 2018-09-12</p> <p>The date on which the inspection started.</p>
organization.violations.oshaInspections.loadCompleteDate	<p>[string] e.g.: 2018-09-12</p> <p>The date on which the inspection detail is loaded to the Occupational Safety And Health Administration system.</p>
organization.violations.oshaInspections.usSICV4	<p>[string] e.g.: 3721</p> <p>A code that describes the Standard Industrial Classification (SIC) codes assigned to this establishment. SIC codes were established by the Census Bureau to identify processes, products and services. Each data system has different criteria for incorporating this information (e.g., for EPCRA 313, the SIC codes are self-reported by the facility each year). All available SIC codes are shown.</p>
organization.violations.oshaInspections.naicsCode	<p>[string] e.g.: 637321</p> <p>A code that describes the North American Industry Classification System (NAICS) assigned to this establishment.</p>
organization.violations.oshaInspections.ownerType	<p>[string] e.g.: A</p> <p>A code that describes the type of ownership the site that is subjected to inspection has.</p>
organization.violations.oshaInspections.ownerCode	<p>[string] e.g.: 1245A</p> <p>A numeric code that further that describes the owner for owner type 'D'</p>
organization.violations.oshaInspections.hasAdvancedNotice	<p>[boolean] e.g.: true</p> <p>When set to "true", it indicates that advance notice was given for the pending inspection.</p> <p>When set to "false" indicates that there was no advance notice given for the pending inspection.</p>
organization.violations.oshaInspections.noInspectionReason	<p>[string] e.g.: A</p> <p>A textual code that indicates the reason for unavailability of inspection information.</p> <p>Expected values are :</p> <p>A=No Insp/Not Found. B=No Insp/Out of Business. C=No Insp/Process Inactive.</p>

	D=No Insp/10 or Fewer Empe. E=No Insp/Denied Entry. F=No Insp/SIC not on PG. G=No Insp/Exempt Voluntary. H=No Insp/NonExempt Consult. I=No Insp/Other. J=No Insp/Employer Exempted By Appropriation Act
organization.violations.oshaInspections.unionAffiliationStatus	[string] e.g.: B Indicates whether employees covered by inspection were affiliated with a union. Indicates union representation during inspection (Yes=Y/U/A. No=N/B/blank)
organization.violations.oshaInspections.hasMigrantLabor	[boolean] e.g.: true This boolean value Indicates whether the inspection focussed on migrant labor
organization.violations.oshaInspections.numberOfWorkingEmployees	[integer] e.g.: 120 The number of employees in the establishment which is subjected to inspection
organization.violations.oshaInspections.caseModificationDate	[string] e.g.: 2018-09-12 Date the inspection or associated violations were last affected by updating (yyyymmdd). Note: this field was only recently added to the database to facilitate the transfer process. Therefore. case not affected by updating in April. 2004 or later will have zero in this field.
organization.violations.oshaInspections.closingOnsiteConferenceDate	[string] e.g.: 2018-09-12 The date indicates the ending date of the onsite portion of the inspection.
organization.violations.oshaInspections.caseCloseDate	[string] e.g.: 2018-09-12 The date on which all activity associated with the inspection was ceased.
organization.violations.oshaInspections.isTerritory	[boolean] e.g.: true When set to "true", it indicates a state. When set to "false", it does not indicate a state.
organization.violations.oshaInspections.hostEstablishmentKey	[string] e.g.: Key123 Text that identifies the internal establishment key.
organization.violations.oshaInspections.violations	[array (object)] Records details of the violations recorded on the company by the Occupational Safety and Health Administration (OSHA).
organization.violations.oshaInspections.violations.citationID	[string] e.g.: ID123 A Alphanumeric text that identifies the citation number. item number. and item group of the issued citation.
organization.violations.oshaInspections.violations.instanceCount	[integer] e.g.: 120 The total number instances the violation that has occurred.
organization.violations.oshaInspections.violations.violatedStandard	[string] e.g.: Standard1 Records the OSHA standard that was violated.

organization.violations.oshaInspections.violations.violationType	[string] e.g.: A A code that denotes the type of violation reported as per the inspection.
organization.violations.oshaInspections.violations.citationIssuanceDate	[string] e.g.: 2018-09-12 The date on which the citation was issued for this violation.
organization.violations.oshaInspections.violations.violationAbateDate	[string] e.g.: 2018-09-12 The date by which the violation must be abated (yyyymmdd).
organization.violations.oshaInspections.violations.loadCompletionDate	[string] e.g.: 2018-09-12 The date on which the violation detail is loaded to the Occupational Safety And Health Administration system.
organization.violations.oshaInspections.violations.abatementCompletionType	[string] e.g.: X A code that indicates the status of the abatement completion.
organization.violations.oshaInspections.violations.currentPenaltyAssessedAmount	[object] Records the current penalty amount assessed for the violation. This is the total amount payable based on the violation
organization.violations.oshaInspections.violations.currentPenaltyAssessedAmount.value	[string] e.g.: 1275.50 A monetary value that denotes the current penalty amount assessed for the violation. This is the total amount payable based on the violation
organization.violations.oshaInspections.violations.initialPenaltyAssessedAmount	[object] Records the initial penalty amount assessed for the violation. This is the initial amount payable based on the violation.
organization.violations.oshaInspections.violations.initialPenaltyAssessedAmount.value	[string] e.g.: 1275.50 A monetary value that denotes the initial penalty amount assessed for the violation. This is the initial amount payable based on the violation.
organization.violations.oshaInspections.violations.isViolationDeleted	[boolean] e.g.: true The Indicator denotes that the violation is deleted.
organization.violations.oshaInspections.violations.exposedEmployeeCount	[integer] e.g.: 120 The number of employees who got exposed due to this violation.
organization.violations.oshaInspections.violations.contestDate	[string] e.g.: 2018-09-12 The date on which the violation was contested.
organization.violations.oshaInspections.violations.finalOrderDate	[string] e.g.: 2018-09-12 The date on which the final order based on the violation was issued.
organization.violations.oshaInspections.violations.recordType	[string] e.g.: B

	A code that records the violation record type. e.g.,A=Accident.C=Complaint.I= Imminent Danger.R=Referral.V= Variance
organization.violations.oshaInspections.violations.seriousViolationGravitylevel	[string] e.g.: XX A code that records the severity of the violation that has occurred.This is the level of gravity for serious violation and is recorded in a range 01-10.
organization.violations.oshaInspections.violations.hasEmphasis	[boolean] e.g.: true When set to "true", it indicates the violation emphasis. When set to "false",it does not indicates the violation emphasis
organization.violations.oshaInspections.violations.industryStandardHazardCategory	[string] e.g.: Category1 Text that describes the general industry standard hazard category.
organization.violations.oshaInspections.violations.failureToAbateInspectionNumber	[string] e.g.: 12345 A number that denotes the failure to abate inspection number
organization.violations.oshaInspections.violations.failureToAbateIssuanceDate	[string] e.g.: 2018-09-12 The date indicates the failure to abate issuance date of the inspection.
organization.violations.oshaInspections.violations.failureToAbateCurrentPenaltyAmount	[object] Records the amount that denotes the failure to abate penalty amount.
organization.violations.oshaInspections.violations.failureToAbateCurrentPenaltyAmount.value	[number] e.g.: 1275.5 The Monetary value that denotes the failure to abate penalty amount.
organization.violations.oshaInspections.violations.failureToAbateContestDate	[string] e.g.: 2018-09-12 The date indicates the failure to abate contest date of the inspection.
organization.violations.oshaInspections.violations.failureToAbateFinalOrderDate	[string] e.g.: 2018-09-12 The date indicates the failure to abate final order date of the inspection.
organization.violations.oshaInspections.violations.events	[array (object)] Records details of the events during the inspections recorded on the company by the Occupational Safety and Health Administration (OSHA).
organization.violations.oshaInspections.violations.events.citationID	[string] e.g.: Event123 An alphanumeric text that identifies the citation number,item number and item group of the issued citation.
organization.violations.oshaInspections.violations.events.failureToAbatePenaltyType	[string] e.g.: X A code the denotes the penalty abatement type. The valid values are "P" for penalty and "F" for failure to abate
organization.violations.oshaInspections.violations.events.historyEventType	[string] e.g.: B A code that indicates the type of violation event generated based on the violation event reported.

Valid values are : Z=Issued.
P=Petition to Mod Abatement. I=Informal Settlement.
A=Amendment. W=Empr Withdrew. D=Govt Dismissed. L=State Settlement. Y=State Decision. F=Formal Settlement. J=ALJ Decision.
R=Review Commission. 1=State Lower Court.
2=Appeals Court. 3=Supreme Court

organization.violations.oshaInspections.violations.events.historyEventDate	[string] e.g.: 2018-09-12 The date on which this historical violation event occurred
organization.violations.oshaInspections.violations.events.loadCompletedDate	[string] e.g.: 2018-09-12 The date on which the violation event detail is loaded to the Occupational Safety And Health Administration system.
organization.violations.oshaInspections.violations.events.historyPenaltyAmount	[object] Records the amount that denotes the penalty amount that was assessed based on this historical violation event
organization.violations.oshaInspections.violations.events.historyPenaltyAmount.value	[string] e.g.: 1275.60 A monetary value that denotes the penalty amount that was assessed based on this historical violation event
organization.violations.oshaInspections.violations.events.historyAbateDate	[string] e.g.: 2018-09-12 The date on which this historical violation event was abated . Design Note: Format is (yyyymmdd). This value is populated when when failure to abate penalty type code is "P"
organization.violations.oshaInspections.violations.events.historyViolationType	[string] e.g.: TYPE123 A code that indicates the historical violation event type. Design Note: This value is populated when Violation type failure to abate penalty type code is "P"
organization.violations.oshaInspections.violations.events.historyFailureToAbateInspectionNumber	[string] e.g.: 123456 A numeric value that denotes the historical inspection number for this violation event. Design Note: This value is populated when Violation type when failure to abate penalty type code is "F"
organization.violations.oshaInspections.violations.hazardousSubstances	[array (object)] Records details of the hazardous substances recorded during the inspection.
organization.violations.oshaInspections.violations.hazardousSubstances.sequence	[integer] e.g.: 2 A number which is used to define the order in which the Hazardous substance code should be presented relative to any other occurrences of Hazardous substance code, where the lower the number the earlier the data is presented, e.g., 1,2,3 etc.
organization.violations.oshaInspections.violations.hazardousSubstances.substanceCode	[string] e.g.: SUBS1 A code that identifies the hazardous substance reported based on the violation.

organization.violations.oshaInspections.addresses	[array (object)] Records the address of the organization recorded during the inspection.
organization.violations.oshaInspections.addresses.streetAddress	[object] Records the street address where the establishment is located. This address lines are the ones that cannot be broken down further.
organization.violations.oshaInspections.addresses.streetAddress.line1	[string] e.g.: 1, Kings street Text that identifies the street address where the establishment is located. This address lines are the ones that cannot be broken down further.
organization.violations.oshaInspections.addresses.addressRegion	[object] Records the locally governed area which forms part of a centrally governed nation.
organization.violations.oshaInspections.addresses.addressRegion.name	[string] e.g.: California A name of a locally governed area which forms part of a centrally governed nation.
organization.violations.oshaInspections.addresses.postalCode	[string] e.g.: 76521 An identifier used by the local country Postal Authority to identify a particular geographic location of the site that is subjected to inspection
organization.violations.oshaInspections.addresses.addressLocality	[object] Records the town or city recognized by the Postal Authority for delivering mail to the site that is subjected to inspection
organization.violations.oshaInspections.addresses.addressLocality.name	[string] e.g.: Townsend The name of the town or city recognized by the Postal Authority for delivering mail to the site that is subjected to inspection
organization.violations.oshaInspections.planningGuides	[array (object)] Records the details of the planning guide.
organization.violations.oshaInspections.planningGuides.safetyHealthIssueCode	[string] e.g.: 123A A code that indicates whether the focus of the inspection is safety or health related issue.
organization.violations.oshaInspections.planningGuides.isManufacturing	[boolean] e.g.: true When set to "true", it indicates a planning guide manufacturing. When set to "false", it does not indicates a planning guide manufacturing.
organization.violations.oshaInspections.planningGuides.isConstruction	[boolean] e.g.: true When set to "true", it indicates a planning guide Construction When set to "false", it does not indicates a planning guide construction
organization.violations.oshaInspections.planningGuides.isMaritime	[boolean] e.g.: true When set to "true", it indicates a planning guide maritime.

	When set to "false", it does not indicate a planning guide maritime
organization.violations.oshaInspections.violationID	[string] e.g.: OFACBP42280 This is a derived, unique key to represent each individual entity on this source.
organization.violations.oshaInspections.issuedAgency	[object] Records information that identifies the government agent that issued the violation information.
organization.violations.oshaInspections.issuedAgency.description	[string] e.g.: OFAC Specially Designated Nationals (SDNs) Text that identifies the government agent that issued the violation information.
organization.violations.oshaInspections.issuedAgency.dnbCode	[integer] e.g.: 35887 A unique code assigned by Dun&Bradstreet that identifies the government agent that issued the violation information. Refer to Reference code table "821 [Violation Issued Government Agency]" for all possible values.
organization.violations.oshaInspections.dataProvider	[object] Records information that identifies the data provider that contributed this violation information.
organization.violations.oshaInspections.dataProvider.description	[string] e.g.: Global Control List Text that identifies the data provider that contributed this violation information.
organization.violations.oshaInspections.dataProvider.dnbCode	[integer] e.g.: 35905 A unique code assigned by Dun&Bradstreet that identifies the data provider that contributed this violation information. Refer to Reference code table "29 [Data Provider]" for all possible values.
organization.violations.oshaInspections.effectiveDate	[string] e.g.: 2019-09-12 The date on which this violation became effective.
organization.violations.dolWagesHoursViolations	[array (object)] Records details of all violations of the wage and hour violation act recorded on the company by the Department Of Labor (DOL).
organization.violations.dolWagesHoursViolations.violationID	[string] e.g.: 1576466 A numeric value that uniquely identifies a wage and hour violation that is reported.
organization.violations.dolWagesHoursViolations.tradeStyleName	[string] e.g.: Andre Auto Salvage, Inc. A name that the organization uses to perform business. For instance, the alternate or unregistered name of the organization.
organization.violations.dolWagesHoursViolations.registeredName	[string] e.g.: Andre Auto Salvage A name by which this organization is known and distinguishes it from most, if not all, other subjects.
organization.violations.dolWagesHoursViolations.address	[object]

	Records the address recorded in the violation.
organization.violations.dolWagesHoursViolations.address.streetAddress	[object] Records the street address of the organization.
organization.violations.dolWagesHoursViolations.address.streetAddress.line1	[string] e.g.: 13150 Montana Ave. A text that describes the street address of the organization.
organization.violations.dolWagesHoursViolations.address.addressLocality	[object] Records the name of the town or city recognized by the Postal Authority for delivering mail to the Organization.
organization.violations.dolWagesHoursViolations.address.addressLocality.name	[string] e.g.: El Paso The name of the town or city recognized by the Postal Authority for delivering mail to the Organization.
organization.violations.dolWagesHoursViolations.address.addressRegion	[object] Records the name of a locally governed area which forms part of a centrally governed nation.
organization.violations.dolWagesHoursViolations.address.addressRegion.abbreviatedName	[string] e.g.: TX A name of a locally governed area which forms part of a centrally governed nation.
organization.violations.dolWagesHoursViolations.address.postalCode	[string] e.g.: 79938 An identifier used by the local country Postal Authority to identify a particular geographic location.
organization.violations.dolWagesHoursViolations.naicsCode	[string] e.g.: 42314 A code that describes the North American Industry Classification System (NAICS) assigned to this establishment.
organization.violations.dolWagesHoursViolations.naicsDescription	[string] e.g.: Motor Vehicle Parts (Used) Merchant Wholesalers A text that describes the particular North American Industry Classification System (NAICS) code in a particular coding scheme; it is not itself an actual industry code.
organization.violations.dolWagesHoursViolations.totalCaseViolationsCount	[integer] e.g.: 12 A count that denotes the total number of wage and hour violation that is reported under this case.
organization.violations.dolWagesHoursViolations.totalCivilMonetaryPenaltyAssessmentsCount	[number] e.g.: 0 A count that denotes the total number of Civil Monetary Penalty assessment reported.
organization.violations.dolWagesHoursViolations.totalEmploymentEligibilityViolationsCount	[integer] e.g.: 9 A count that denotes the Total number of employment eligibility Violation that is reported in the case.
organization.violations.dolWagesHoursViolations.totalBackwardWageAgreedToPayAmount	[object] Records the monetary value that denotes the total backward wages agreed by the organization to be paid to the employee.

organization.violations.dolWagesHoursViolations.totalBackwardWageAgreedToPayAmount.value	[number] e.g.: 12596.96 A monetary value that denotes the total backward wages agreed by the organization to be paid to the employee.
organization.violations.dolWagesHoursViolations.totalBackwardWageAgreedToPayAmount.currency	[string] e.g.: USD ISO Alpha 3 currency code in which this amount is recorded.
organization.violations.dolWagesHoursViolations.totalEmploymentEligibilityAgreedToPayCount	[integer] e.g.: 11 A count that denotes the total number of employment eligibility relation violation agreed to be paid by the organization.
organization.violations.dolWagesHoursViolations.violationFindingStartDate	[string] e.g.: 2008-07-19 The date where WHD determined that findings first occurred. Findings are defined as either a Violation or No Violation found. NOTE: Findings Start Date is not equal to Case Open Date which is not included in the dataset.
organization.violations.dolWagesHoursViolations.violationFindingEndDate	[string] e.g.: 2010-11-13 The date where WHD determined that findings last occurred. Findings are defined as either a Violation or No Violation found. NOTE: Findings End Date is not equal to Case Close Date which is not included in the dataset.
organization.violations.dolWagesHoursViolations.loadDate	[string] e.g.: 2015-02-20 A timestamp that denotes the load date of the the wage and hour violation.
organization.violations.dolWagesHoursViolations.violationActs	[array (object)] Records the details of department of labor wage and hour act violation.
organization.violations.dolWagesHoursViolations.violationActs.wageAndHourLegislativeActType	[object] Records the government act that is applicable to this wages and hours legislation e.g., Fair Labor Standard Act, H1B Work Visa Speciality Occupation.
organization.violations.dolWagesHoursViolations.violationActs.wageAndHourLegislativeActType.dnbCode	[integer] e.g.: 35841 A D&B code value identifying the government act that is applicable to this wages and hours legislation e.g., Fair Labor Standard Act, H1B Work Visa Speciality Occupation. Refer to Reference code table "820 [Wages and Hours Legislative Act Type]" for all possible values.
organization.violations.dolWagesHoursViolations.violationActs.wageAndHourLegislativeActType.description	[string] e.g.: Fair Labor Standard Act A textual value identifying the government act that is applicable to this wages and hours legislation e.g., Fair Labor Standard Act, H1B Work Visa Speciality Occupation.
organization.violations.dolWagesHoursViolations.violationActs.violationsCount	[integer] e.g.: 12 A numeric value that denotes the number of violations identified based on this legislative mandate act.

organization.violations.dolWagesHoursViolations.violationActs.repeatViolatorTypeCode	[string] e.g.: R A textual column that classifies the recurring nature of the violator under fair Labor Standard act. The column indicates if the violator is a repeat and/or a willful violator. For Example, R=Repeat; W=Willful; RW=Repeat and Willful.
organization.violations.dolWagesHoursViolations.violationActs.backwardWageAgreedToPayAmount	[object] Records the monetary value that denotes the backward wage amount agreed to pay based on the legislative act as per this violation.
organization.violations.dolWagesHoursViolations.violationActs.backwardWageAgreedToPayAmount.value	[number] e.g.: 12596.96 A monetary value that denotes the backward wage amount agreed to pay based on the legislative act as per this violation.
organization.violations.dolWagesHoursViolations.violationActs.backwardWageAgreedToPayAmount.currency	[string] e.g.: USD ISO Alpha 3 currency code in which this amount is recorded.
organization.violations.dolWagesHoursViolations.violationActs.employmentEligibilityAgreedToPayCount	[integer] e.g.: 9 A numeric value that denotes the total number of employee agreed to pay as per the Legislative act for the violation.
organization.violations.dolWagesHoursViolations.violationActs.civilMonetaryPenaltyAssessedAmount	[object] Records the monetary value that denotes the civil monetary penalty assessment amount based on the legislative act type as per this violation.
organization.violations.dolWagesHoursViolations.violationActs.civilMonetaryPenaltyAssessedAmount.value	[number] e.g.: 12596.96 A monetary value that denotes the civil monetary penalty assessment amount based on the legislative act type as per this violation.
organization.violations.dolWagesHoursViolations.violationActs.civilMonetaryPenaltyAssessedAmount.currency	[string] e.g.: USD ISO Alpha 3 currency code in which this amount is recorded.
organization.violations.dolWagesHoursViolations.violationActs.minimumWageBackwardWageAgreedToPayAmount	[object] Records the monetary value that denotes the minimum wage backward wage amount agreed to pay based on the legislative act as per this violation.
organization.violations.dolWagesHoursViolations.violationActs.minimumWageBackwardWageAgreedToPayAmount.value	[number] e.g.: 12596.96 A monetary value that denotes the minimum wage backward wage amount agreed to pay based on the legislative act as per this violation.
organization.violations.dolWagesHoursViolations.violationActs.minimumWageBackwardWageAgreedToPayAmount.currency	[string] e.g.: USD ISO Alpha 3 currency code in which this amount is recorded.
organization.violations.dolWagesHoursViolations.violationActs	[object]

<code>.overtimeBackwardWageAgreedToPayAmount</code>	Records the monetary value that denotes the overtime backward wage amount agreed to pay based on the legislative act as per this violation.
<code>organization.violations.dolWagesHoursViolations.violationActs.overtimeBackwardWageAgreedToPayAmount.value</code>	[number] e.g.: 12596.96 A monetary value that denotes the overtime backward wage amount agreed to pay based on the legislative act as per this violation.
<code>organization.violations.dolWagesHoursViolations.violationActs.overtimeBackwardWageAgreedToPayAmount.currency</code>	[string] e.g.: USD ISO Alpha 3 currency code in which this amount is recorded.
<code>organization.violations.dolWagesHoursViolations.violationActs.fifteenAThreeBackwardWageAgreedToPayAmount</code>	[object] Records the monetary value that denotes the backward wage amount agreed to pay based on the legislative act as per this violation under section 15a(3).
<code>organization.violations.dolWagesHoursViolations.violationActs.fifteenAThreeBackwardWageAgreedToPayAmount.value</code>	[number] e.g.: 12596.96 A monetary value that denotes the backward wage amount agreed to pay based on the legislative act as per this violation under section 15a(3).
<code>organization.violations.dolWagesHoursViolations.violationActs.fifteenAThreeBackwardWageAgreedToPayAmount.currency</code>	[string] e.g.: USD ISO Alpha 3 currency code in which this amount is recorded.
<code>organization.violations.dolWagesHoursViolations.violationActs.childLaborCount</code>	[integer] e.g.: 0 A numeric value that denotes the total number of minor employees employed in the organization that violates the legislative act based on this violation
<code>organization.violations.medicareNursingHomeViolations</code>	[array (object)] Records details of all citations issued from the inspections carried on the nursing home for not meeting specific federal standards.
<code>organization.violations.medicareNursingHomeViolations.federalProviderNumber</code>	[string] e.g.: 175440 A number that uniquely identifies the Federal provider number.
<code>organization.violations.medicareNursingHomeViolations.providerName</code>	[string] e.g.: MEDICALODGES GIRARD Name of the Federal provider.
<code>organization.violations.medicareNursingHomeViolations.providerAddress</code>	[object] Records the address recorded in the violation.
<code>organization.violations.medicareNursingHomeViolations.providerAddress.streetAddress</code>	[object] Records the street address of the organization.
<code>organization.violations.medicareNursingHomeViolations.providerAddress.streetAddress.line1</code>	[string] e.g.: 511 N WESTERN AVENUE A text that describes the street address of the organization.
<code>organization.violations.medicareNursingHomeViolations.provider</code>	[object]

derAddress.addressLocality	Records the name of the town or city recognized by the Postal Authority for delivering mail to the Organization.
organization.violations.medicareNursingHomeViolations.providerAddress.addressLocality.name	[string] e.g.: GIRARD The name of the town or city recognized by the Postal Authority for delivering mail to the Organization.
organization.violations.medicareNursingHomeViolations.providerAddress.addressRegion	[object] Records the name of a locally governed area which forms part of a centrally governed nation.
organization.violations.medicareNursingHomeViolations.providerAddress.addressRegion.abbreviatedName	[string] e.g.: KS A name of a locally governed area which forms part of a centrally governed nation.
organization.violations.medicareNursingHomeViolations.providerAddress.addressCounty	[object] The details of the geographical area of a Country or Region where the organization's Primary Address is located or conducts operations. Countries divide their geography into smaller sub divisions. County is an example of a commonly used subdivision. Often found in UK.
organization.violations.medicareNursingHomeViolations.providerAddress.addressCounty.name	[string] e.g.: SAN MATEO The name of the geographical area of a Country or Region where the organization's address is located or conducts operations. Countries subdivide their geography into smaller sub divisions. County is an example of a commonly used subdivision, often found in the UK.
organization.violations.medicareNursingHomeViolations.providerAddress.postalCode	[string] e.g.: 66743 An identifier used by the local country Postal Authority to identify a particular geographic location.
organization.violations.medicareNursingHomeViolations.providerAddress.fullAddress	[string] e.g.: 511 N WESTERN AVENUE,GIRARD,KS,66743 Text that describes the location address associated with a provider.
organization.violations.medicareNursingHomeViolations.providerAddress.ssaCountyCode	[string] e.g.: 180 A code specifies the Social Security Administration (SSA) code for the county of identified through the provider mailing address of the provider.
organization.violations.medicareNursingHomeViolations.telephone	[object] Records the telephone number of the provider.
organization.violations.medicareNursingHomeViolations.telephone.telephoneNumber	[string] e.g.: 6207248288 An identifier used by the ten-digit telephone number of the provider. The format is (xxx) yyy-zzzz.
organization.violations.medicareNursingHomeViolations.ownershipType	[string] e.g.: For profit - Corporation Text that describes the nature of organization that operates a provider of services . E.g. "Non profit - "; "Government - "; "For profit - ".

organization.violations.medicareNursingHomeViolations.certifiedBedsCount	[integer] e.g.: 40 The number of federally Certified Beds in Nursing home.
organization.violations.medicareNursingHomeViolations.infectionControlInspectionsCount	[integer] e.g.: 0 The number of citations from inspection control inspections.
organization.violations.medicareNursingHomeViolations.averageResidentsPerDayCount	[number] e.g.: 10 The average number of residents per day based on MDS daily census .
organization.violations.medicareNursingHomeViolations.averageResidentsPerDayFootnoteCount	[integer] e.g.: 5 The average number of residents per day Footnote.
organization.violations.medicareNursingHomeViolations.providerType	[string] e.g.: Medicare and Medicaid Text that describes category which is most indicative of provider. E.g.Medicare , Medicaid,Medicare and Medicaid .
organization.violations.medicareNursingHomeViolations.isResidentProvider	[boolean] e.g.: true When set to true; it indicates that the provider resides in hospital. When set to false; it indicates that the provider doesn't resides in hospital.
organization.violations.medicareNursingHomeViolations.legalBusinessName	[string] e.g.: MEDICALODGES INC Text that describes the legal business name of the provider.
organization.violations.medicareNursingHomeViolations.serviceApprovedDate	[string] e.g.: 2001-02-01 The date when the provider got first approval to provide to Medicare/Medicaid Services.
organization.violations.medicareNursingHomeViolations.hasContinuingCareRetirementCommunity	[boolean] e.g.: true When set to true; it indicates that the continuing care retirement community access in nursing home. When set to false; it indicates that the the continuing care retirement community doesn't access in nursing home.
organization.violations.medicareNursingHomeViolations.specialFocusStatus	[string] e.g.: SFF Candidate Text that describes the Special Focus Facilities (SFFs) and SFF Candidates are nursing homes that have a history of serious quality issues or are included in the Centers for Medicare & Medicaid Services (CMS) program to stimulate improvements in their quality of care.
organization.violations.medicareNursingHomeViolations.hasAbuseCited	[boolean] e.g.: true When set to true; it indicates that the Cited for abuse or neglect at harm level or above on survey cycle 1 or cited for abuse or neglect at potential harm level on both survey cycles 1 and 2. When set to false; it indicates that the Cited for abuse or neglect at harm level or above on survey cycle 1 or cited for abuse or neglect at potential harm level doesn't on both survey cycles 1 and 2.
organization.violations.medicareNursingHomeViolations.hasRecentHealthInspectionExceededTwoYears	[boolean] e.g.: true When set to true; it indicates that the provider changed ownership in last 12 months. When set to false; it indicates that the provider not changed ownership in Last 12 Months.

organization.violations.medicareNursingHomeViolations.hasRecentOwnershipChanged	[boolean] e.g.: true When set to true; it indicates that the provider changed ownership in last 12 months. When set to false; it indicates that the provider not changed ownership in Last 12 Months.
organization.violations.medicareNursingHomeViolations.facilityType	[string] e.g.: Resident Text that describes the different type of facilities in nursing home . E.g.Resident, Family, Both, None
organization.violations.medicareNursingHomeViolations.automaticSprinklerSystemAvailability	[string] e.g.: Yes Text that describes the automatic sprinkler systems in all required areas in nursing home.
organization.violations.medicareNursingHomeViolations.overallRatingLevel	[integer] e.g.: 1 The overall rating on the star ratings for the health inspection domain, the staffing domain and the MDS quality measure domain.
organization.violations.medicareNursingHomeViolations.overallRatingFootnoteCode	[integer] e.g.: 18 The overall rating footnote on the star ratings for the health inspection domain, the staffing domain and the MDS quality measure domain.
organization.violations.medicareNursingHomeViolations.reportedNurseStaffingHoursPerResidentPerDay	[number] e.g.: 2.87508 The total Nurse Staffing Hours per Resident per Day (Aide+RN+LPN) for each facility
organization.violations.medicareNursingHomeViolations.caseMixNurseStaffingHoursPerResidentPerDay	[number] e.g.: 1.8258 The Case Mix Total Nurse Staffing Hours per Resident per Day (Aide+LPN+RN) for each facility .
organization.violations.medicareNursingHomeViolations.adjustedNurseStaffingHoursPerResidentPerDay	[number] e.g.: 1.76444 The Adjusted Total Nurse Staffing Hours per Resident per Day (Aide+LPN+RN) for each facility .
organization.violations.medicareNursingHomeViolations.totalWeightedHealthInspectionsCount	[number] e.g.: 200.167 The Total Weighted Health Survey Score for three cycles - See CMS 5-Star Technical Users' Guide for detailed explanation.
organization.violations.medicareNursingHomeViolations.facilityIncidentsReportedCount	[integer] e.g.: 35 Facility reported incidents is a self reported number from the facility survey.
organization.violations.medicareNursingHomeViolations.substantiatedComplaintsCount	[integer] e.g.: 14 The number of complaints that have been substantiated by an investigation of the facility.
organization.violations.medicareNursingHomeViolations.totalFinesCount	[integer] e.g.: 4 The number of fines represents the total number of fines issued over the last 3 years the facility was investigated.
organization.violations.medicareNursingHomeViolations.totalFinesAmount	[object] Records the total Fine Amount in dollars.

organization.violations.medicareNursingHomeViolations.totalFinesAmount.value	[number] e.g.: 81630 The total Fine Amount in dollars.
organization.violations.medicareNursingHomeViolations.totalFinesAmount.currency	[string] e.g.: USD ISO Alpha 3 currency code in which this amount is recorded.
organization.violations.medicareNursingHomeViolations.totalPaymentDenialsCount	[integer] e.g.: 0 The number of payments denials from provider.
organization.violations.medicareNursingHomeViolations.totalPenaltiesCount	[integer] e.g.: 7 The total number of penalties to the provider.
organization.violations.medicareNursingHomeViolations.reportDate	[string] e.g.: 2022-04-01 The date that describes when data were retrieved.
organization.violations.medicareNursingHomeViolations.staffingHourDetails	[array (object)] Records details of nursing home staffing hour record.
organization.violations.medicareNursingHomeViolations.staffingHourDetails.description	[string] e.g.: Nurse Aide Staffing The Staffing information . E.g. Nurse Adie, LPN,RN , Licensed.
organization.violations.medicareNursingHomeViolations.staffingHourDetails.reportedStaffingHoursPerResidentPerDay	[number] e.g.: 2.12576 The reported Nurse Aide Staffing Hours per Resident per day for each facility . The reported licensed practical nurse (LPN) Staffing hours per resident per day for each facility . The reported registered nurse (RN) Staffing hours per resident per day for each facility . The reported Licensed Staffing Hours per Resident per Day (RN+LPN) for each facility . The reported physical therapy Staffing hours per resident per day for each facility .
organization.violations.medicareNursingHomeViolations.staffingHourDetails.caseMixStaffingHoursPerResidentPerDay	[number] e.g.: 0.73897 The Case Mix Nurse Aide Staffing hours per resident per day for each facility . The Case Mix licensed practical nurse (LPN) Staffing hours per resident per day for each facility . The Case Mix registered nurse (RN) Staffing hours per resident per day for each facility .
organization.violations.medicareNursingHomeViolations.staffingHourDetails.adjustedStaffingHoursPerResidentPerDay	[number] e.g.: 0.60099 The Adjusted Nurse Aide Staffing hours per resident per day for each facility . The Adjusted licensed practical nurse (LPN) Staffing hours per resident per day for each facility . The Adjusted registered nurse (RN) Staffing hours per resident per day for each facility .
organization.violations.medicareNursingHomeViolations.healthInspections	[array (object)] Records details on the health inspections carried on the nursing home.
organization.violations.medicareNursingHomeViolations.healthInspections.ratingCycleNumber	[integer] e.g.: 1 Set to 1 for Cycle 1 elements Set to 2 for Cycle 2 elements Set to 3 for Cycle 3 elements

organization.violations.medicareNursingHomeViolations.healthInspections.standardHealthSurveyDate	[string] e.g.: 2021-03-31 The date that describes the rating cycle 1,2,3 Standard Health Survey Date , which is the most recent health inspection.
organization.violations.medicareNursingHomeViolations.healthInspections.totalHealthDeficienciesCount	[integer] e.g.: 1 The total number of Health Deficiencies in Rating cycle 1 , 2 ,3.
organization.violations.medicareNursingHomeViolations.healthInspections.standardHealthDeficienciesCount	[integer] e.g.: 1 The Number of Health Deficiencies from the Standard Survey During Rating cycle 1 ,2 , 3.
organization.violations.medicareNursingHomeViolations.healthInspections.complaintHealthDeficienciesCount	[integer] e.g.: 0 The Number of Health Deficiencies from Complaint Surveys during Rating cycle 1,2,3 for complaints.
organization.violations.medicareNursingHomeViolations.healthInspections.healthDeficiencyScore	[integer] e.g.: 235 The Rating cycle 1,2,3- Health Deficiency Score.
organization.violations.medicareNursingHomeViolations.healthInspections.healthRevisitsCount	[integer] e.g.: 1 The Number of Health Survey Repeat-Revisits for Rating cycle 1 , 2, 3.
organization.violations.medicareNursingHomeViolations.healthInspections.healthRevisitScore	[integer] e.g.: 0 The Points Associated with Health Survey Repeat Revisits for Rating cycle 1 , 2 , 3 .
organization.violations.medicareNursingHomeViolations.healthInspections.totalHealthScore	[integer] e.g.: 148 The total health inspection Score in Rating cycle 1 , 2 , 3 .
organization.violations.medicareNursingHomeViolations.penaltyDetails	[array (object)] Records the details of the penalties levied on the nursing home provider.
organization.violations.medicareNursingHomeViolations.penaltyDetails.issuedDate	[string] e.g.: 2021-02-04 The date when the inspection that triggered the penalty occurred.
organization.violations.medicareNursingHomeViolations.penaltyDetails.penaltyType	[string] e.g.: Payment Denial Text that describes the penalty type .e.g. Fine or Payment Denial.
organization.violations.medicareNursingHomeViolations.penaltyDetails.fineAmount	[object] Records the total fine amount in dollars.
organization.violations.medicareNursingHomeViolations.penaltyDetails.fineAmount.value	[number] e.g.: 13000 The total fine amount in dollars.
organization.violations.medicareNursingHomeViolations.penaltyDetails.fineAmount.currency	[string] e.g.: USD ISO Alpha 3 currency code in which this amount is recorded.
organization.violations.medicareNursingHomeViolations.penaltyDetails.paymentDenialsStartDate	[string] e.g.: 2022-01-05 The date on which Medicare/Medicaid payment for new admissions was suspended.

organization.violations.medicareNursingHomeViolations.penaltyDetails.paymentDenialDaysCount	[integer] e.g.: 53 The number of days for which Medicare/Medicaid payment was suspended.
organization.violations.medicareNursingHomeViolations.penaltyDetails.reportDate	[string] e.g.: 2021-06-10 The date that describes that data were retrieved.
organization.violations.medicareNursingHomeViolations.homeRatingAndFootnotes	[array (object)] Records details of the footnotes attached to the nursing home rating.
organization.violations.medicareNursingHomeViolations.homeRatingAndFootnotes.description	[string] e.g.: Health Inspection A text describes the rating and footnote of facilities in nursing home . E.g .Health Inspection,QM,Long-stay QM, Short-Stay QM ,Staffing,RN,etc.
organization.violations.medicareNursingHomeViolations.homeRatingAndFootnotes.ratingLevel	[integer] e.g.: 1 The rating of health inspection provided in nursing homes. The Rating of Quality measure(QM) of care provided in nursing homes. The rating of Long Stay Quality measure(QM) provided in nursing home. The rating of Short Stay Quality measure(QM) provided in nursing home. The rating of Staffing as provided in nursing home. The rating of Registered Nurse (RN) Staffing as provided in nursing home.
organization.violations.medicareNursingHomeViolations.homeRatingAndFootnotes.footnoteCode	[integer] e.g.: 18 The rating footnote of health inspection provided in nursing homes. The rating footnote of Quality measure (QM) provided in nursing homes. The rating footnote of Long-Stay Quality measure(QM) provided in nursing homes. The rating footnote of Short-Stay Quality measure(QM) provided in nursing homes. The rating footnote of Staffing as provided in nursing home. The rating footnote of Registered Nurse (RN) Staffing as provided in nursing home. The rating footnote of Reported Staffing as provided in nursing home. The rating footnote of Physical Therapy Staffing as provided in nursing home.
