

Data Blocks

(companyfinancials_L4_v3)

GET https://plus.dnb.com/v1/data/duns/{dunsNumber}

The Data Block API is intended to vend Data Blocks to customers transactionally based on a request for a single DUNS.

Monitoring : Available. Please refer guide for details.

Request Parameters

Query Parameters

Name	Details
blockIDs	<p>[string] Required e.g.: blockID The block ID provided by Dun & Bradstreet that identifies the data block to be returned. Multiple values can be included, separated by commas.</p>
tradeUp	<p>[string] e.g.: hq Indicates if the Headquarters D-U-N-S Number should be returned if a Branch is requested. Valid values: * hq: If the provided D-U-N-S Number is a Branch, the Headquarter D-U-N-S Number is returned. * domhq: If the provided D-U-N-S Number is a Branch, the Domestic Headquarter D-U-N-S Number is returned. If the requested D-U-N-S Number is not a Branch, that D-U-N-S Number will be returned regardless of the value of this parameter. If the parameter is omitted, the requested D-U-N-S Number is returned even if it is a Branch.</p>
customerReference	<p>[string] e.g.: customer reference text Up to 240 characters for a reference string to be linked to the request in order to support subsequent order reconciliation.</p>

Header Parameters

Name	Details
------	---------

Authorization	[string] Required e.g.: Bearer alphanumerictoken The access token provided by authentication.
---------------	--

Path Parameters

Name	Details
dunsNumber	[string] Required e.g.: 804735132 A 9-character numeric string identifying the entity by its Dun & Bradstreet D-U-N-S number.

Response(s)

Response for HTTP Status Code : 200

Name	Details
transactionDetail	[object] Required The information used to process this request.
transactionDetail.transactionID	[string] Required e.g.: rlh-hi9puyojjk-jop8u-kd-d-1 A value assigned by the Dun & Bradstreet application to uniquely identify this request.
transactionDetail.transactionTimestamp	[string] Required e.g.: 2017-02-21T17:46:19.839Z The date and time, in ISO 8601 UTC Z standard, when this response was created.
transactionDetail.inLanguage	[string] Required e.g.: en-US An IETF BCP 47 code value that defines the language in which this product was rendered.
inquiryDetail	[object] The criteria used to process this request.
inquiryDetail.duns	[string] e.g.: 804735132 The D-U-N-S number provided in the request.
inquiryDetail.blockIDs	[array (string)] e.g.: blockID The blockIDs provided in the request.
inquiryDetail.tradeUp	[string] e.g.: hq The value of the tradeUp parameter provided in the request.

inquiryDetail.customerReference	[string] e.g.: Some text to describe the request. A reference string provided by the customer for this particular transaction.
blockStatus	[array (object)] Records the status of the data blocks requested by the customer.
blockStatus.blockID	[string] Required e.g.: blockID The unique identifier for the data block.
blockStatus.status	[string] Required e.g.: OK The current status of the data block fulfilled in this response. Possible values: * OK * Unavailable * Insufficient data
blockStatus.reason	[string] e.g.: Data is not available Any specific reason why the data block is not delivered in this response. Possible values: * Data is partially available or not available. * Data is not available for the branch. * Data is not available on the requested country code.
organization	[object] The details of the entity.
organization.duns	[string] e.g.: 804735132 The D-U-N-S® Number, a proprietary organizational identifier owned and managed by Dun & Bradstreet Inc, provides unique identification of a subject organization, in accordance with the Data Universal Numbering System (D-U-N-S®).
organization.countryISOAlpha2Code	[string] e.g.: US The two-letter country code, defined by the International Organization for Standardization (ISO) ISO 3166-1 scheme, identifying the country in which the entity is located. Note: Please refer to Country Code Substitutions Table [/html/resources/CountryCodes.html#country-substitute] for the country code substitutions.
organization.primaryName	[string] e.g.: GORMAN MANUFACTURING COMPANY, INC. Single name by which the organization is primarily known or identified.
organization.latestFiscalFinancials	[object] The details of the organization's most recent fiscal financial statement.

Note: For latest non-fiscal statements please refer to "otherFinancials" section.

organization.latestFiscalFinancials.accountantName	[string] e.g.: Johnson, Jordan & Jones CPAs The name of either an individual or an accounting firm.
organization.latestFiscalFinancials.accountantOpinions	[array (object)] The details of remarks made by accountant.
organization.latestFiscalFinancials.accountantOpinions.description	[string] e.g.: The accounts give a true and fair view of the company's affairs Remark made by the accountant regarding the financial figures in the statement.
organization.latestFiscalFinancials.accountantOpinions.dnbCode	[integer] e.g.: 872 A unique code assigned by Dun & Bradstreet to identify the remarks made by the accountant. Refer to Reference code table "215 [Financial Statement Opinion] & 27 [Information Description]" for all possible values.
organization.latestFiscalFinancials.approvalDate	[string] e.g.: 2018-01-31 The date on which the statement was formally accepted by the entity (e.g., the date of the Annual General Meeting at which the shareholders voted to approve the accounts).
organization.latestFiscalFinancials.comments	[array (object)] The notes detailing the basis under which the Financial Statement has been prepared or providing further information regarding the entity's finances.
organization.latestFiscalFinancials.comments.description	[string] e.g.: Assets have been valued according to the Current Cost convention A note providing further information about the financial statement. For example this might clarify the basis under which the Financial Statement has been prepared (e.g., The Fixed Assets figure is shown net less undisclosed accumulated depreciation) or provide additional information, obtained from the accounts, concerning the entity's finances (e.g., The subject's parent company has guaranteed all of its debts).
organization.latestFiscalFinancials.comments.dnbCode	[integer] e.g.: 4046 A unique code assigned by Dun & Bradstreet to identify the text recorded in the comment text. Refer to Reference code table "105 [Financial Statement Comment]" for all possible values.
organization.latestFiscalFinancials.currency	[string] e.g.: USD The currency in which the figures in the Latest Financials' financial statement are stated.
organization.latestFiscalFinancials.dataProvider	[object] The details of the source from which the Latest Financials data was originally obtained by Dun & Bradstreet.
organization.latestFiscalFinancials.dataProvider.description	[string] e.g.: US Internal Revenue Service Text identifying the source from which the Latest Financials data was originally obtained.
organization.latestFiscalFinancials.dataProvider.dnbCode	[integer] e.g.: 19561

		A unique code assigned by Dun & Bradstreet to identify the source of the Latest Financials data. Refer to Reference code table "29 [Data Provider]" for all possible values.
organization.latestFiscalFinancials.deliveryMethod	[object]	The details about how Dun & Bradstreet or one of its strategic partners received the financial statement.
organization.latestFiscalFinancials.deliveryMethod.description	[string] e.g.: Mail	Description of how Dun & Bradstreet or one of its strategic partners received the financial statement (e.g., mail, on-line).
organization.latestFiscalFinancials.deliveryMethod.dnbCode	[integer] e.g.: 6318	A unique code assigned by Dun & Bradstreet to identify how Dun & Bradstreet or one of its strategic partners received the financial statement Refer to Reference code table "148 [Delivery Method]" for all possible values.
organization.latestFiscalFinancials.explanations	[array (object)]	Explanations of aspects of the Financial Statement (e.g., the method used to value inventory, the items that have been reported as marketable securities). This does not include general or broad explanations that pertain to the whole statement, only explanations that relate to specific items within the statement.
organization.latestFiscalFinancials.explanations.description	[string] e.g.: General explanation	Explanation relating to an aspect of the Financial Statement in multiple languages and/or writing scripts.
organization.latestFiscalFinancials.explanations.dnbCode	[integer] e.g.: 11641	A unique code assigned by Dun & Bradstreet to identify the explanations provided in the text element. Refer to Reference code table "281 [Financial Statement Explanation]" for all possible values.
organization.latestFiscalFinancials.explanations.typeDescription	[string] e.g.: Financial statement item explanation	Explanation of an aspect of the Financial Statement (e.g., the method used to value inventory, the items that have been reported as marketable securities).
organization.latestFiscalFinancials.explanations.typeDnBCode	[integer] e.g.: 6747	A unique code assigned by Dun & Bradstreet to identify the type of explanation provided in the text element. Refer to Reference code table "27 [Information Description]" for all possible values.
organization.latestFiscalFinancials.filingDate	[string] e.g.: 2018-02-01	The date when the company filed its Latest Financials' financial statement with an official registry.
organization.latestFiscalFinancials.financialStatementDuration	[string] e.g.: P12M	The period of the financial statement expressed as a time interval. Values are in the formats PM; where = the number of months the statement covers PY; where = the number of years the statement covers

organization.latestFiscalFinancials.financialStatementFromDate	[string] e.g.: 2010-03-14 The date on which the accounting period of the Latest Financials' financial statement commenced.
organization.latestFiscalFinancials.financialStatementToDate	[string] e.g.: 2011-03-14 The date when the accounting period of the Latest Financials' financial statement ended.
organization.latestFiscalFinancials.informationScope	[object] The details of the organizational scope of the Latest Financials' financial statement.
organization.latestFiscalFinancials.informationScope.description	[string] e.g.: Consolidated Text providing a description of the organizational scope of the Latest Financials' financial statement. E.g. Individual, Consolidated.
organization.latestFiscalFinancials.informationScope.dnbCode	[integer] e.g.: 9067 A unique code assigned by Dun & Bradstreet to identify the organizational scope of the Latest Financials' financial statement.
organization.latestFiscalFinancials.informationSourceIndividual	[array (object)] The details of the person who was the source of the information for the Financial Statement.
organization.latestFiscalFinancials.informationSourceIndividual.fullName	[string] e.g.: John Smith The name of the person who was the information source for the Financial Statement.
organization.latestFiscalFinancials.informationSourceIndividual.title	[string] e.g.: CFO The title of the person who was the information source for the Financial Statement.
organization.latestFiscalFinancials.isAudited	[boolean] e.g.: true Indicates if the Latest Financials' accounts have been reviewed by a qualified accountant independent of the organization and the accountant has signed the financial statement certifying it is accurate and complete.
organization.latestFiscalFinancials.isAuditUnknown	[boolean] e.g.: false Indicates that there is no information to make the determination whether the Latest Financials' financial statement has been reviewed by a qualified accountant.
organization.latestFiscalFinancials.isFinal	[boolean] e.g.: true Indicates whether the financial figures are for the entity's closing statement. - If true, the financial figures are for the entity's closing statement. - If false, the financial figures are not for the entity's closing statement.
organization.latestFiscalFinancials.isFiscal	[boolean] e.g.: true Indicates whether the Latest Financials' financial figures cover a full year accounting period.
organization.latestFiscalFinancials.isInterim	[boolean] e.g.: true

	Indicates that the Latest Financials' financial statement covers an interim instead of a fiscal period (e.g., quarterly, half-year).
organization.latestFiscalFinancials.isOpening	<p>[boolean] e.g.: true</p> <p>Indicates whether the financial figures declare the financial state of the business on its very first day of trading.</p> <ul style="list-style-type: none"> - If true, the financial figures declare the financial state of the business on its very first day of trading. - If false, the financial figures do not declare the financial state of the business on its very first day of trading.
organization.latestFiscalFinancials.isProforma	<p>[boolean] e.g.: true</p> <p>Indicates whether the financial statement is a presentation of a hypothetical balance sheet and income statement based on a set of assumptions.</p> <ul style="list-style-type: none"> - If true, the financial statement is a presentation of a hypothetical balance sheet and income statement based on a set of assumptions. - If false the financial statement is not a presentation of a hypothetical balance sheet and income statement based on a set of assumptions.
organization.latestFiscalFinancials.isQualified	<p>[boolean] e.g.: true</p> <p>Indicates whether the report of the auditors that accompanied the financial statement had remarks regarding the figures. Auditor remarks may, for example, refer to the fairness and accuracy of the figures or state that the financial well-being of the company is based on assumptions, such as the continued financial support by the parent company.</p> <ul style="list-style-type: none"> - If true, the auditors' report has remarks. - If false, the auditors' report does not have remarks.
organization.latestFiscalFinancials.isRestated	<p>[boolean] e.g.: true</p> <p>Indicates whether the Latest Financials' financial figures have been revised and re-presented by the organization.</p>
organization.latestFiscalFinancials.isSigned	<p>[boolean] e.g.: true</p> <p>Indicates whether the Financial Statement information contains the signature(s) of the principal(s) of this entity signifying that it is approved.</p> <ul style="list-style-type: none"> - If true, the Financial Statement information contains the signature(s) of the principal(s) of this entity signifying that it is approved. - If false, the Financial Statement information does not contain the signature(s) of the principal(s) of this entity signifying that it is approved.
organization.latestFiscalFinancials.isTrialBalance	<p>[boolean] e.g.: true</p> <p>Indicates whether the financial statement is a Trial Balance.</p>

	<ul style="list-style-type: none"> - If true, the financial statement is a Trial Balance. - If false, the financial statement is not a Trial Balance.
organization.latestFiscalFinancials.isUnbalanced	<p>[boolean] e.g.: true</p> <p>Indicates whether the balance sheet for the Latest Financials is unbalanced. The indicator should be set when the balance sheet does not balance.</p>
organization.latestFiscalFinancials.nonSpecificSource	<p>[object]</p> <p>The details, in general terms, about the supplier of the Financial Statement.</p>
organization.latestFiscalFinancials.nonSpecificSource.description	<p>[string] e.g.: Trustee</p> <p>Describes the supplier of the Financial Statement (e.g., Official Registry, Accountant, the Subject).</p>
organization.latestFiscalFinancials.nonSpecificSource.dnbCode	<p>[integer] e.g.: 15735</p> <p>A unique code assigned by Dun & Bradstreet to identify, in general terms, the supplier from which this data was originally obtained by Dun & Bradstreet.</p> <p>Refer to Reference code table "35 [Role Player Type Non-Specific]" for all possible values.</p>
organization.latestFiscalFinancials.notAuditedReason	<p>[object]</p> <p>The details identifying why the financial statement is not an official examination of the accounts.</p>
organization.latestFiscalFinancials.notAuditedReason.description	<p>[string] e.g.: Internally prepared book figures</p> <p>Describes why the financial statement is not an official examination of the accounts (e.g., accounts from internal ledger with no external review, accountant limited review with no signature).</p>
organization.latestFiscalFinancials.notAuditedReason.dnbCode	<p>[integer] e.g.: 15657</p> <p>A unique code assigned by Dun & Bradstreet to identify the reason why the accounts have not been audited.</p> <p>Refer to Reference code table "400 [Financial Statement Not Audited Reasons]" for all possible values.</p>
organization.latestFiscalFinancials.receivedTimestamp	<p>[string] e.g.: 2018-04-06T16:33:21.443Z</p> <p>The date and time, in ISO 8601 UTC Z standard, when Dun & Bradstreet or one of Dun & Bradstreet's strategic partners received this financial statement.</p>
organization.latestFiscalFinancials.reliability	<p>[object]</p> <p>The details of the integrity of the figures in the Latest Financials' financial statement.</p>
organization.latestFiscalFinancials.reliability.description	<p>[string] e.g.: Actual</p> <p>Text providing a description of the integrity of the figures in the Latest Financials' financial statement.</p>
organization.latestFiscalFinancials.reliability.dnbCode	<p>[integer] e.g.: 9092</p> <p>A unique code assigned by Dun & Bradstreet to identify the precision of the figures in the Latest Financials' financial statement.</p> <p>Refer to Reference code table "171 [Reliability]" for all possible values.</p>

organization.latestFiscalFinancials.statementTemplate	[object] The details of the structure and the order of financial line items of the Latest Financials' Financial Statement.
organization.latestFiscalFinancials.statementTemplate.description	[string] e.g.: Global - Standard Text identifying the Latest Financials' Financial Statement Template.
organization.latestFiscalFinancials.statementTemplate.dnbCode	[integer] e.g.: 9050 A unique code assigned by Dun & Bradstreet to identify the Latest Financials' Financial Statement Template. Refer to Reference code table "78 [Financial Statement Template]" for all possible values.
organization.latestFiscalFinancials.units	[string] e.g.: SingleUnits The unit size (e.g., units, thousands, millions) in which the figures in the Latest Financials' financial statement are stated.
organization.latestFiscalFinancials.overview	[object] The details for a select number of line items from the Latest Financials' financial statement.
organization.latestFiscalFinancials.overview.accountsPayable	[number] e.g.: 512345 The money owed to individuals or organizations in the Latest Financials because they have supplied goods, services or raw materials for which they have not yet been paid. Also known as Trade Creditors.
organization.latestFiscalFinancials.overview.accountsReceivable	[number] e.g.: 2567890 The money owed by individuals or organizations in the Latest Financials because they have bought goods, services or raw materials for which they have not yet paid. Also known as Trade Debtors. Shown net of any allowance for bad debt
organization.latestFiscalFinancials.overview.capitalStock	[number] e.g.: 0.26 The total par (face) value of all shares issued.
organization.latestFiscalFinancials.overview.cashAndLiquidAssets	[number] e.g.: 512345 The total value of cash for the Latest Financials held either on hand (e.g., in a bank) or in assets that can be quickly converted into cash and that have not been recorded elsewhere.
organization.latestFiscalFinancials.overview.costOfSales	[number] e.g.: 512345 The Latest Financials' costs (e.g., materials, labor, overheads) related to the creations of goods or services which have been sold.
organization.latestFiscalFinancials.overview.currentLiabilitiesOverNetWorth	[number] e.g.: 45.12 A ratio for the Latest Financials that measures the relationship between short-term creditors and liabilities of the organization and the internal equity investment. Calculated as Total Current Liabilities divided by Net Worth.
organization.latestFiscalFinancials.overview.currentRatio	[number] e.g.: 1.463

	A ratio for the Latest Financials that measures whether the organization has enough resources to cover its short-term obligations. Calculated as Total Current Assets divided by Total Current Liabilities.

	bad debt
organization.latestFiscalFinancials.overview.profitBeforeTaxes	[number] e.g.: 512345 The Latest Financials' disclosed profit before tax, which will reflect deductions for all operating and non-operating costs.
organization.latestFiscalFinancials.overview.quickRatio	[number] e.g.: 1.1872 A ratio for the Latest Financials that measures the extent to which the organization can cover its current liabilities with those current assets that are readily convertible to cash. Calculated by subtracting Inventory from Total Current Assets and dividing by Total Current Liabilities.
organization.latestFiscalFinancials.overview.retainedEarnings	[number] e.g.: 512345 The value of the accumulated net income of the organization for the Latest Financials which has been retained for use in the business.
organization.latestFiscalFinancials.overview.salesRevenue	[number] e.g.: 512345 The income generated from the sale of goods and services for the Latest Financials. This is dependent upon the volume of a product sold and the price of the product shown net of returns, allowances and discounts. Also known as Turnover.
organization.latestFiscalFinancials.overview.tangibleNetWorth	[number] e.g.: 512345 Net Worth less Intangible Assets for the Latest Financials.
organization.latestFiscalFinancials.overview.totalAssets	[number] e.g.: 512345 The combined value of Current Assets and Total Long Term Assets for the Latest Financials. This therefore includes all of the assets used by an organization no matter how they are financed.
organization.latestFiscalFinancials.overview.totalCurrentAssets	[number] e.g.: 512345 The sum of all Latest Financials' short-term assets i.e., expected to be realized in less than 12 months.
organization.latestFiscalFinancials.overview.totalCurrentLiabilities	[number] e.g.: 512345 The sum of all Latest Financials' short-term liabilities i.e., expected to be realized in less than 12 months
organization.latestFiscalFinancials.overview.totalIndebtedness	[number] e.g.: 0.34 A financial ratio that measures the extent of the entity's leverage. The debt ratio is defined as the ratio of total, long-term and short-term, debt to total assets, expressed as a decimal. It can be interpreted as the proportion of an entity's assets that are financed by debt.
organization.latestFiscalFinancials.overview.totalLiabilities	[number] e.g.: 512345 The combined value of Total Long Term Liabilities and Total Current Liabilities for the Latest Financials. This is therefore the total value of all claims on the financial resources of the organization and obligations of payment.
organization.latestFiscalFinancials.overview.totalLiabilitiesEquity	[number] e.g.: 512345 The sum of Total Liabilities and Net Worth for the Latest Financials.

organization.latestFiscalFinancials.overview.totalLiabilitiesOverNetWorth	[number] e.g.: 45	A ratio for the Latest Financials that measures the relationship between all external creditors and liabilities of the organization and the internal equity investment. Calculated as Total Liabilities divided by Net Worth.
organization.latestFiscalFinancials.overview.totalLongTermAssets	[number] e.g.: 512345	The sum of all Latest Financials' long-term assets i.e., expected to be realized in more than 12 months.
organization.latestFiscalFinancials.overview.totalLongTermLiabilities	[number] e.g.: 512345	The total value of long- term claims on the financial resources of the organization for the Latest Financials.
organization.latestFiscalFinancials.overview.workingCapital	[number] e.g.: 512345	The operating liquidity available to an entity (i.e., the funds available to finance current business operations).
organization.latestFiscalFinancials.overview.marketableSecurities	[number] e.g.: 1500	Marketable securities are financial assets that can be easily bought and sold on a public market, such as stocks, bonds, and mutual funds. These securities are listed as assets on a company's balance sheet because they can be easily converted into cash.
organization.latestFiscalFinancials.overview.dueFromGroupShortTerm	[number] e.g.: 1500	Funds due from a related company or principal within the next fiscal year.
organization.latestFiscalFinancials.overview.totalReceivables	[number] e.g.: 1500	Total Receivables means the total amount of all trade receivables of the Group on a consolidated basis under any agreement in respect of the supply of assets or services.
organization.latestFiscalFinancials.overview.prepaidDeferredShortTerm	[number] e.g.: 1500	Deferred expenses, similar to prepaid expenses, refer to expenses that have been paid but not yet incurred by the business. Common prepaid expenses may include monthly rent or insurance payments that have been paid in advance.
organization.latestFiscalFinancials.overview.tangibleFixedAssets	[number] e.g.: 1500	The value of the assets that are long-lived property fully owned by the organisation and is used by the organisation in the production of its income but not expected to be converted to cash in the current or upcoming fiscal year, e.g., real estate, furniture, manufacturing equipment.
organization.latestFiscalFinancials.overview.dueFromGroupLongTerm	[number] e.g.: 1500	Funds due from a related company or principal due beyond the next fiscal year.
organization.latestFiscalFinancials.overview.investmentsLongTerm	[number] e.g.: 1500	Investments that mature in a long period of time, typically beyond the next fiscal year.
organization.latestFiscalFinancials.overview.otherLongTermAssets	[number] e.g.: 1500	The value of other assets which are held for the long term benefit of the business but which cannot be classed as Fixed (tangible) or Intangible. E.g. Investments

organization.latestFiscalFinancials.overview.otherUnclassifiedAssets	[number] e.g.: 1500 Any asset not categorized as current or long term.
organization.latestFiscalFinancials.overview.accrualsOtherPayables	[number] e.g.: 1500 Accrued liabilities are liabilities which are incurred, but for which payment is not yet made, during a given accounting period.
organization.latestFiscalFinancials.overview.shortTermDebt	[number] e.g.: 1500 The money employed in a firm that has been borrowed from external sources for short periods of time by the issue of fixed-interest financial securities.
organization.latestFiscalFinancials.overview.dueToGroupShortTerm	[number] e.g.: 1500 Due to a related company or principal within the next fiscal year.
organization.latestFiscalFinancials.overview.taxesShortTerm	[number] e.g.: 1500 All tax & social obligations.
organization.latestFiscalFinancials.overview.dueToGroupLongTerm	[number] e.g.: 1500 Due to a related company or principal extended beyond the next fiscal year.
organization.latestFiscalFinancials.overview.deferredCreditIncome	[number] e.g.: 1500 Revenue received by a firm but not yet reported as income.
organization.latestFiscalFinancials.overview.deferredTaxesLongTerm	[number] e.g.: 1500 Refers to all deferred taxes, tax payable at a later date
organization.latestFiscalFinancials.overview.provisions	[number] e.g.: 1500 The total value of provisions i.e., liabilities of uncertain timing or amount.
organization.latestFiscalFinancials.overview.otherUnclassifiedLiabilities	[number] e.g.: 1500 Any liability not categorized as current, long term or as a Mezzanine liability.
organization.latestFiscalFinancials.overview.capitalSurplus	[number] e.g.: 1500 The proceeds from issuing stocks or shares at a price higher than their par (face) value. Also known as share premium.
organization.latestFiscalFinancials.overview.capitalReserves	[number] e.g.: 1500 Excess capital set aside for future needs.
organization.latestFiscalFinancials.overview.otherUnrestrictedReserves	[number] e.g.: 1500 Funds set aside for any future needs.
organization.latestFiscalFinancials.overview.restrictedEquity	[number] e.g.: 1500 A portion of an entity's retained earnings or holdings that are not legally available for dividend payment or other non-discretionary use.

organization.latestFiscalFinancials.overview.otherEquity	[number] e.g.: 1500 Unclassified capital (equity) or re-statement of equity (adjustments).
organization.latestFiscalFinancials.overview.minorityInterest	[number] e.g.: 1500 The proportion of outside ownership in subject's subsidiaries.
organization.latestFiscalFinancials.overview.profitAfterTax	[number] e.g.: 1500 The net profit attributable to the shareholders/stockholders of a firm after all costs and taxes have been deducted.
organization.latestFiscalFinancials.overview.netCurrentAssets	[number] e.g.: 1500 Net current assets is the aggregate amount of all current assets, minus the aggregate amount of all liabilities. A positive amount of net current assets implies that there are sufficient current assets to pay for all obligations.
organization.latestFiscalFinancials.overview.capitalEmployed	[number] e.g.: 1500 Capital employed is the total amount of capital used for the acquisition of profits by the organization. It also refers to the value of all the assets used by the organization to generate earnings.
organization.latestFiscalFinancials.overview.depreciation	[number] e.g.: 1500 The total charges for depreciation and amortization expenses for the period. Depreciation expense is the portion of a tangible fixed asset that has been considered consumed in the current period. Amortization expense is the write-off of an intangible asset over its expected period of use, which reflects the consumption of the asset.
organization.latestFiscalFinancials.overview.ebitda	[number] e.g.: 1500 EBITDA, short for earnings before interest, taxes, depreciation, and amortization, is an alternate measure of profitability to net income. It's used to assess a company's profitability and financial performance.
organization.latestFiscalFinancials.overview.operatingExpenses	[number] e.g.: 12500.5 The costs incurred by a business through its normal operations. These expenses include rent, equipment, inventory costs, marketing, payroll, insurance, and funds allocated for research and development. Operating expenses are essential for analyzing a company's efficiency and can significantly impact profitability.
organization.latestFiscalFinancials.overview.nonOperatingIncome	[number] e.g.: 12500.5 The portion of an organization's income that is derived from activities not related to its core business operations.
organization.latestFiscalFinancials.overview.taxCharge	[number] e.g.: 12500.5 Tax Charge means any sales tax or other Tax owing by an Obligor that is included on any invoice for any Receivable. Tax Charge shall include all real property and personal property taxes.
organization.latestFiscalFinancials.overview.minorityInterestAllocation	[number] e.g.: 12500.5 Minority interest allocation refers to the ownership stake in a company where the parent company does not

	hold more than 50% of the voting shares.
organization.latestFiscalFinancials.overview.extraordinaryItems	[number] e.g.: 12500.5 The events or transactions that are abnormal, not related to the ordinary activities of a company, and unlikely to recur in the foreseeable future. Examples include significant losses from natural disasters, such as earthquakes or floods, that are not typical for the company's operations.
organization.latestFiscalFinancials.overview.netIncome	[number] e.g.: 12500.5 Net income, also known as net profit or the bottom line, is the amount of money a company has left after subtracting all expenses, interest, and taxes from total revenues.
organization.latestFiscalFinancials.overview.interestExpense	[number] e.g.: 12500.5 Interest expense represents the cost of borrowed funds and is incurred when a company takes out loans, issues bonds, or utilizes lines of credit. It reflects the fee paid to lenders for the use of their capital over a specified period.
organization.latestFiscalFinancials.overview.netCashFromOperatingActivities	[number] e.g.: 12500.5 Net cash from operating activities, also known as operating cash flow (OCF) or net cash from operating activities, is a key financial metric that indicates the amount of cash generated by a company's core business operations. It is calculated by taking a company's net income, adjusting for non-cash items, and accounting for changes in working capital.
organization.latestFiscalFinancials.balanceSheet	[object] The details of the Latest Financials' balance sheet statement which summarizes the organization's assets, liabilities, and shareholder's equity at a specific point in time.
organization.latestFiscalFinancials.balanceSheet.assets	[object] The details of the assets on the balance sheet.
organization.latestFiscalFinancials.balanceSheet.assets.currentAssets	[object] Assets that are held for short term; raw materials that are bought, made up, sold as finished goods and eventually paid for.
organization.latestFiscalFinancials.balanceSheet.assets.currentAssets.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.latestFiscalFinancials.balanceSheet.assets.currentAssets.statementItems.itemGroupLevel	[integer] e.g.: 6 Contains the code indicating the item's position in the financial statement hierarchy, e.g. it indicates if the item is a total, sub-total or item. The value of this element may be used to set offset positions (indents) by the product fabrication process.
organization.latestFiscalFinancials.balanceSheet.assets.currentAssets.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.latestFiscalFinancials.balanceSheet.assets.currentAssets.statementItems.itemLabel	[string] e.g.: Equity Interests In Associated Companies

ntAssets.statementItems.itemKey.description	Description of the account for the monetary amount recorded in Item Amount.
organization.latestFiscalFinancials.balanceSheet.assets.currentAssets.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.latestFiscalFinancials.balanceSheet.assets.currentAssets.statementItems.priority	[integer] e.g.: 23 Contains the order number in which items should be presented within the Financial Statement Schedule where the lower the number the earlier the data is presented. i.e. a display sequence number is a unique number within the schedule.
organization.latestFiscalFinancials.balanceSheet.assets.currentAssets.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.latestFiscalFinancials.balanceSheet.assets.longTermAssets	[object] The details of the long-term asset items within the Latest Financials Balance Sheet i.e., items expected to be realized in more than 12 months.
organization.latestFiscalFinancials.balanceSheet.assets.longTermAssets.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.latestFiscalFinancials.balanceSheet.assets.longTermAssets.statementItems.itemGroupLevel	[integer] e.g.: 6 Contains the code indicating the item's position in the financial statement hierarchy, e.g. it indicates if the item is a total, sub-total or item. The value of this element may be used to set offset positions (indents) by the product fabrication process.
organization.latestFiscalFinancials.balanceSheet.assets.longTermAssets.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.latestFiscalFinancials.balanceSheet.assets.longTermAssets.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.latestFiscalFinancials.balanceSheet.assets.longTermAssets.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.latestFiscalFinancials.balanceSheet.assets.longTermAssets.statementItems.priority	[integer] e.g.: 23 Contains the order number in which items should be presented within the Financial Statement Schedule where the lower the number the earlier the data is presented. i.e. a display sequence number is a unique number within the schedule.
organization.latestFiscalFinancials.balanceSheet.assets.longTermAssets.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.

organization.latestFiscalFinancials.balanceSheet.assets.state mentItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.latestFiscalFinancials.balanceSheet.assets.state mentItems.itemGroupLevel	[integer] e.g.: 6 Contains the code indicating the item's position in the financial statement hierarchy, e.g. it indicates if the item is a total, sub-total or item. The value of this element may be used to set offset positions (indents) by the product fabrication process.
organization.latestFiscalFinancials.balanceSheet.assets.state mentItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.latestFiscalFinancials.balanceSheet.assets.state mentItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.latestFiscalFinancials.balanceSheet.assets.state mentItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.latestFiscalFinancials.balanceSheet.assets.state mentItems.priority	[integer] e.g.: 23 Contains the order number in which items should be presented within the Financial Statement Schedule where the lower the number the earlier the data is presented. i.e. a display sequence number is a unique number within the schedule.
organization.latestFiscalFinancials.balanceSheet.assets.state mentItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.latestFiscalFinancials.balanceSheet.liabilities	[object] The legal debts or obligations of a company that arise during the course of business operations. Liabilities are settled over time through the transfer of economic benefits including money, goods, or services.
organization.latestFiscalFinancials.balanceSheet.liabilities.cur rentLiabilities	[object] The details of the entity's total value of all obligations to pay out cash at some date in the near future.
organization.latestFiscalFinancials.balanceSheet.liabilities.cur rentLiabilities.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.latestFiscalFinancials.balanceSheet.liabilities.cur rentLiabilities.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.latestFiscalFinancials.balanceSheet.liabilities.cur rentLiabilities.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.latestFiscalFinancials.balanceSheet.liabilities.cur rentLiabilities.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in

		Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.latestFiscalFinancials.balanceSheet.liabilities.currentLiabilities.statementItems.value	[number] e.g.: 10584	Monetary value of a Financial Statement Item.
organization.latestFiscalFinancials.balanceSheet.liabilities.currentLiabilities.statementItems.itemGroupLevel	[integer] e.g.: 6	Contains the code indicating the item's position in the financial statement hierarchy, e.g. it indicates if the item is a total, sub-total or item. The value of this element may be used to set offset positions (indents) by the product fabrication process.
organization.latestFiscalFinancials.balanceSheet.liabilities.currentLiabilities.statementItems.priority	[integer] e.g.: 23	Contains the order number in which items should be presented within the Financial Statement Schedule where the lower the number the earlier the data is presented. i.e. a display sequence number is a unique number within the schedule.
organization.latestFiscalFinancials.balanceSheet.liabilities.longTermLiabilities	[object]	The details of the entity's total value of all obligations to pay out cash at some date in the future but not within one year.
organization.latestFiscalFinancials.balanceSheet.liabilities.longTermLiabilities.statementItems	[array (object)]	Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.latestFiscalFinancials.balanceSheet.liabilities.longTermLiabilities.statementItems.itemKey	[object]	Details of the account for the monetary amount recorded in Item Amount.
organization.latestFiscalFinancials.balanceSheet.liabilities.longTermLiabilities.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies	Description of the account for the monetary amount recorded in Item Amount.
organization.latestFiscalFinancials.balanceSheet.liabilities.longTermLiabilities.statementItems.itemKey.dnbCode	[integer] e.g.: 584	A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.latestFiscalFinancials.balanceSheet.liabilities.longTermLiabilities.statementItems.value	[number] e.g.: 10584	Monetary value of a Financial Statement Item.
organization.latestFiscalFinancials.balanceSheet.liabilities.longTermLiabilities.statementItems.itemGroupLevel	[integer] e.g.: 6	Contains the code indicating the item's position in the financial statement hierarchy, e.g. it indicates if the item is a total, sub-total or item. The value of this element may be used to set offset positions (indents) by the product fabrication process.
organization.latestFiscalFinancials.balanceSheet.liabilities.longTermLiabilities.statementItems.priority	[integer] e.g.: 23	Contains the order number in which items should be presented within the Financial Statement Schedule where the lower the number the earlier the data is presented. i.e. a display sequence number is a unique

number within the schedule.

organization.latestFiscalFinancials.balanceSheet.liabilities.equity	[object] The details of the share capital/stock originally invested by shareholders/stockholders plus any reserves that have arisen, such as retained profits, that were ploughed back into the firm. Also known as Net Worth.
organization.latestFiscalFinancials.balanceSheet.liabilities.equity.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.latestFiscalFinancials.balanceSheet.liabilities.equity.statementItems.itemGroupLevel	[integer] e.g.: 6 Contains the code indicating the item's position in the financial statement hierarchy, e.g. it indicates if the item is a total, sub-total or item. The value of this element may be used to set offset positions (indents) by the product fabrication process.
organization.latestFiscalFinancials.balanceSheet.liabilities.equity.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.latestFiscalFinancials.balanceSheet.liabilities.equity.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.latestFiscalFinancials.balanceSheet.liabilities.equity.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.latestFiscalFinancials.balanceSheet.liabilities.equity.statementItems.priority	[integer] e.g.: 23 Contains the order number in which items should be presented within the Financial Statement Schedule where the lower the number the earlier the data is presented. i.e. a display sequence number is a unique number within the schedule.
organization.latestFiscalFinancials.balanceSheet.liabilities.equity.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.latestFiscalFinancials.balanceSheet.liabilities.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.latestFiscalFinancials.balanceSheet.liabilities.statementItems.itemGroupLevel	[integer] e.g.: 6 Contains the code indicating the item's position in the financial statement hierarchy, e.g. it indicates if the item is a total, sub-total or item. The value of this element may be used to set offset positions (indents) by the product fabrication process.
organization.latestFiscalFinancials.balanceSheet.liabilities.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.latestFiscalFinancials.balanceSheet.liabilities.statementItems.value	[string] e.g.: Equity Interests In Associated Companies

ementItems.itemKey.description	Description of the account for the monetary amount recorded in Item Amount.
organization.latestFiscalFinancials.balanceSheet.liabilities.stat ementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.latestFiscalFinancials.balanceSheet.liabilities.stat ementItems.priority	[integer] e.g.: 23 Contains the order number in which items should be presented within the Financial Statement Schedule where the lower the number the earlier the data is presented. i.e. a display sequence number is a unique number within the schedule.
organization.latestFiscalFinancials.balanceSheet.liabilities.stat ementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.latestFiscalFinancials.balanceSheet.statementItms	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.latestFiscalFinancials.balanceSheet.statementItms.itemGroupLevel	[integer] e.g.: 6 Contains the code indicating the item's position in the financial statement hierarchy, e.g. it indicates if the item is a total, sub-total or item. The value of this element may be used to set offset positions (indents) by the product fabrication process.
organization.latestFiscalFinancials.balanceSheet.statementItms.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.

Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.latestFiscalFinancials.notesToAccounts.statemen tItems.priority	[integer] e.g.: 23 Contains the order number in which items should be presented within the Financial Statement Schedule where the lower the number the earlier the data is presented. i.e. a display sequence number is a unique number within the schedule.
organization.latestFiscalFinancials.notesToAccounts.statemen tItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.latestFiscalFinancials.socialBalanceSheet	[object] The details of the balance sheet. The Social balance sheet reports the details about employees. This is applicable for all Belgian financial templates except for Bank and Insurance assets on the balance sheet.
organization.latestFiscalFinancials.socialBalanceSheet.statem entItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.latestFiscalFinancials.socialBalanceSheet.statem entItems.itemGroupLevel	[integer] e.g.: 6 Contains the code indicating the item's position in the financial statement hierarchy, e.g. it indicates if the item is a total, sub-total or item. The value of this element may be used to set offset positions (indents) by the product fabrication process.
organization.latestFiscalFinancials.socialBalanceSheet.statem entItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.

organization.latestFiscalFinancials.socialBalanceSheet.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.latestFiscalFinancials.socialBalanceSheet.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.latestFiscalFinancials.socialBalanceSheet.statementItems.priority	[integer] e.g.: 23 Contains the order number in which items should be presented within the Financial Statement Schedule where the lower the number the earlier the data is presented. i.e. a display sequence number is a unique number within the schedule.
organization.latestFiscalFinancials.socialBalanceSheet.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.latestFiscalFinancials.financialRatios	[object] The entity's financial figure(s) in terms of another of the entity's financial figures. These ratios are indicators used to evaluate an entity's financial condition and potential risk. They are especially meaningful in comparisons (e.g., an entity's ratio in comparison to that of its industry, an entity's ratio over time (trend)). These ratios may give insight into profitability, liquidity, activity (operations), or leverage.
organization.latestFiscalFinancials.financialRatios.statements.items	[array (object)] The details of financial ratios relating to the stated financial period.
organization.latestFiscalFinancials.financialRatios.statements.items.itemGroupLevel	[integer] e.g.: 6 Contains the code indicating the item's position in the financial statement hierarchy, e.g. it indicates if the item is a total, sub-total or item. The value of this element may be used to set offset positions (indents) by the product fabrication process.
organization.latestFiscalFinancials.financialRatios.statements.items.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.latestFiscalFinancials.financialRatios.statements.items.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.latestFiscalFinancials.financialRatios.statements.items.itemKey.dnbCode	[integer] e.g.: 3043 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "145 [Statistical Norm Types]" for all possible values.
organization.latestFiscalFinancials.financialRatios.statements.items.priority	[integer] e.g.: 23 Contains the order number in which items should be presented within the Financial Statement Schedule where the lower the number the earlier the data is presented. i.e. a display sequence number is a unique number within the schedule.

organization.latestFiscalFinancials.financialRatios.statementItms.relativeIndustryRank	[string] e.g.: 4 The quartile into which the entity falls with respect to entities in the same industry for this Derived Financial Item Code. <ul style="list-style-type: none"> - If the financial ratio is greater than or equal to the industry upper quartile, entity is assigned 4. - If the financial ratio is greater than or equal to the industry median, but less than the industry upper quartile, entity is assigned 3. - If the financial ratio is greater than the industry lower quartile, but less than the industry median, the entity is assigned 2. - If the financial ratio is less than or equal to the industry lower quartile, the entity is assigned 1.
organization.latestFiscalFinancials.financialRatios.statementItms.value	[number] e.g.: 75 The proportion of one or more of the entity's financial figures in relation to one or more of the entity's other financial figures. This figure is an indicator used to evaluate the entity's financial condition or potential risk. For example, a Quick Ratio, which is the sum of an entity's cash and accounts receivable amounts divided by its current liabilities, is a predictor of how likely the business is to pay its bills on time.
organization.latestFiscalFinancials.rolePlayers	[array (object)] The details of the parties that played by a party in the preparation of the Financial Statement.
organization.latestFiscalFinancials.rolePlayers.address	[object] The address of the party who is involved in the preparation of the Financial Statement.
organization.latestFiscalFinancials.rolePlayers.address.addressCountry	[object] The details of the country or region for this address of the organization.
organization.latestFiscalFinancials.rolePlayers.address.addressCountry.isoAlpha2Code	[string] e.g.: US The 2 letter alpha country code assigned by the International Organization for Standardization (ISO) identifying the Country/Region for this address of the organization. <p>Note: Please refer to Country Code Substitutions Table [/html/resources/CountryCodes.html#country-substitute] for the country code substitutions.</p>
organization.latestFiscalFinancials.rolePlayers.address.addressCountry.name	[string] e.g.: United States The country or region for this address of the organization.
organization.latestFiscalFinancials.rolePlayers.address.addressCountry	[object] The details of the geographical area of a Country or Region for this address of the organization. Countries divide their geography into smaller sub divisions. <p>County is an example of a commonly used subdivision. Often found in UK.</p>
organization.latestFiscalFinancials.rolePlayers.address.addressCountry.name	[string] e.g.: SAN MATEO The name of the geographical area of a Country or Region for this address of the organization.

		Countries subdivide their geography into smaller sub divisions. County is an example of a commonly used subdivision, often found in the UK.
organization.latestFiscalFinancials.rolePlayers.address.addre ssLocality	[object]	The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.
organization.latestFiscalFinancials.rolePlayers.address.addre ssLocality.name	[string] e.g.: SAN FRANCISCO	The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.
organization.latestFiscalFinancials.rolePlayers.address.addre ssRegion	[object]	The name of the geographical area for this address of the organization. For Example New Jersey.
organization.latestFiscalFinancials.rolePlayers.address.addre ssRegion.name	[string] e.g.: California	The name of the geographical area for this address of the organization. For Example New Jersey.
organization.latestFiscalFinancials.rolePlayers.address.langu age	[object]	The details of the language in which this address was recorded.
organization.latestFiscalFinancials.rolePlayers.address.langu age.description	[string] e.g.: English	The name of the language in which this address was recorded.
organization.latestFiscalFinancials.rolePlayers.address.langu age.dnbCode	[integer] e.g.: 39	A unique code assigned by Dun & Bradstreet to identify the language in which this address was recorded. Refer to Reference code table "3 [Language]" for all possible values.
organization.latestFiscalFinancials.rolePlayers.address.minor TownName	[string] e.g.: Booker	The name of the village, town or suburb for this address of the organization. For example Booker in Booker, High Wycombe.
organization.latestFiscalFinancials.rolePlayers.address.postal Code	[string] e.g.: 941109999	The postal code for this address of the organization. Also known locally in various English-speaking countries throughout the world as a postcode, post code, Eircode, PIN or ZIP Code) is a series of letters or digits or both, sometimes including spaces or punctuation, included in a postal address for the purpose of sorting mail. The code is used by the country's postal authority to identify the address where the organization is located or conducts operations .
organization.latestFiscalFinancials.rolePlayers.address.street Address	[object]	The details of the street address for this address of the organization.
organization.latestFiscalFinancials.rolePlayers.address.street Address.line1	[string] e.g.: 492 KOLLER ST	The first line of the address where the entity is located.

		The first line of this address of the organization. For example The Point in the address
	The Point 37 North Wharf Road London W2 1AF	
organization.latestFiscalFinancials.rolePlayers.address.street Address.line2	[string] e.g.: Suite 100 The second line of this address of the organization. For example 37 North Wharf Road in the address	The Point 37 North Wharf Road London W2 1AF
organization.latestFiscalFinancials.rolePlayers.address.street Name	[string] e.g.: KOLLER ST The name of the street for this address of the organization. For example North Wharf Road in the address	The Point 37 North Wharf London W2 1AF
organization.latestFiscalFinancials.rolePlayers.address.street Number	[string] e.g.: 492 The numerical part of the street address for this address of the organization. This may be a single number, a number with an appendix, or a range of street numbers. For example 37 in the address	The Point 37 North Wharf Road London W2 1AF
organization.latestFiscalFinancials.rolePlayers.duns	[string] e.g.: 804735132 The D-U-N-S® Number, a proprietary organizational identifier owned and managed by Dun & Bradstreet Inc, provides unique identification of a subject organization, in accordance with the Data Universal Numbering System (D-U-N-S®).	
organization.latestFiscalFinancials.rolePlayers.fullName	[string] e.g.: John Smith The complete name of the most senior principal.	
organization.latestFiscalFinancials.rolePlayers.opinions	[array (object)] The details of comments made by the party involved in the preparation of the Financial Statement.	
organization.latestFiscalFinancials.rolePlayers.opinions.text	[string] e.g.: Some remark role player made	

	The remark made by the role player regarding the financial figures in the statement.
organization.latestFiscalFinancials.rolePlayers.role	[object] The details of the function played by a party in the preparation of the Financial Statement.
organization.latestFiscalFinancials.rolePlayers.role.description	[string] e.g.: Auditor Describes the function played by a party in the preparation of the Financial Statement (e.g., Auditor, Solicitor).
organization.latestFiscalFinancials.rolePlayers.role.dnbCode	[integer] e.g.: 11987 A unique code assigned by Dun & Bradstreet to identify the function played by the party involved in the preparation of the Financial Statement. Refer to Reference code table "286 [Role Player Type Financials]" for all possible values.
organization.otherFinancials	[array (object)] The details of the organization's most recent fiscal financial statement. Note: For latest non-fiscal statements please refer to "otherFinancials" section.
organization.otherFinancials.financialStatementToDate	[string] e.g.: 2011-03-14 The date when the accounting period of the Latest Financials' financial statement ended.
organization.otherFinancials.financialStatementFromDate	[string] e.g.: 2010-03-14 The date on which the accounting period of the Latest Financials' financial statement commenced.
organization.otherFinancials.financialStatementDuration	[string] e.g.: P12M The period of the financial statement expressed as a time interval. Values are in the formats PM; where = the number of months the statement covers PY; where = the number of years the statement covers
organization.otherFinancials.filingDate	[string] e.g.: 2018-02-01 The date when the company filed its Latest Financials' financial statement with an official registry.
organization.otherFinancials.receivedTimestamp	[string] e.g.: 2018-04-06T16:33:21.443Z The date and time, in ISO 8601 UTC Z standard, when Dun & Bradstreet or one of Dun & Bradstreet's strategic partners received this financial statement.
organization.otherFinancials.approvalDate	[string] e.g.: 2018-01-31 The date on which the statement was formally accepted by the entity (e.g., the date of the Annual General Meeting at which the shareholders voted to approve the accounts).
organization.otherFinancials.currency	[string] e.g.: USD The currency in which the figures in the Latest Financials' financial statement are stated.

organization.otherFinancials.units	[string] e.g.: SingleUnits The unit size (e.g., units, thousands, millions) in which the figures in the Latest Financials' financial statement are stated.
organization.otherFinancials.dataProvider	[object] The details of the source from which the Latest Financials data was originally obtained by Dun & Bradstreet.
organization.otherFinancials.dataProvider.description	[string] e.g.: US Internal Revenue Service Text identifying the source from which the Latest Financials data was originally obtained.
organization.otherFinancials.dataProvider.dnbCode	[integer] e.g.: 19561 A unique code assigned by Dun & Bradstreet to identify the source of the Latest Financials data. Refer to Reference code table "29 [Data Provider]" for all possible values.
organization.otherFinancials.nonSpecificSource	[object] The details, in general terms, about the supplier of the Financial Statement.
organization.otherFinancials.nonSpecificSource.description	[string] e.g.: Trustee Describes the supplier of the Financial Statement (e.g., Official Registry, Accountant, the Subject).
organization.otherFinancials.nonSpecificSource.dnbCode	[integer] e.g.: 15735 A unique code assigned by Dun & Bradstreet to identify, in general terms, the supplier from which this data was originally obtained by Dun & Bradstreet. Refer to Reference code table "35 [Role Player Type Non-Specific]" for all possible values.
organization.otherFinancials.informationSourceIndividual	[array (object)] The details of the person who was the source of the information for the Financial Statement.
organization.otherFinancials.informationSourceIndividual.fullName	[string] e.g.: John Smith The name of the person who was the information source for the Financial Statement.
organization.otherFinancials.informationSourceIndividual.title	[string] e.g.: CFO The title of the person who was the information source for the Financial Statement.
organization.otherFinancials.statementTemplate	[object] The details of the structure and the order of financial line items of the Latest Financials' Financial Statement.
organization.otherFinancials.statementTemplate.description	[string] e.g.: Global - Standard Text identifying the Latest Financials' Financial Statement Template.
organization.otherFinancials.statementTemplate.dnbCode	[integer] e.g.: 9050 A unique code assigned by Dun & Bradstreet to identify the Latest Financials' Financial Statement Template.

	Refer to Reference code table "78 [Financial Statement Template]" for all possible values.
organization.otherFinancials.deliveryMethod	[object] The details about how Dun & Bradstreet or one of its strategic partners received the financial statement.
organization.otherFinancials.deliveryMethod.description	[string] e.g.: Mail Description of how Dun & Bradstreet or one of its strategic partners received the financial statement (e.g., mail, on-line).
organization.otherFinancials.deliveryMethod.dnbCode	[integer] e.g.: 6318 A unique code assigned by Dun & Bradstreet to identify how Dun & Bradstreet or one of its strategic partners received the financial statement Refer to Reference code table "148 [Delivery Method]" for all possible values.
organization.otherFinancials.informationScope	[object] The details of the organizational scope of the Latest Financials' financial statement.
organization.otherFinancials.informationScope.description	[string] e.g.: Consolidated Text providing a description of the organizational scope of the Latest Financials' financial statement. E.g. Individual, Consolidated.
organization.otherFinancials.informationScope.dnbCode	[integer] e.g.: 9067 A unique code assigned by Dun & Bradstreet to identify the organizational scope of the Latest Financials' financial statement.
organization.otherFinancials.reliability	[object] The details of the integrity of the figures in the Latest Financials' financial statement.
organization.otherFinancials.reliability.description	[string] e.g.: Actual Text providing a description of the integrity of the figures in the Latest Financials' financial statement.
organization.otherFinancials.reliability.dnbCode	[integer] e.g.: 9092 A unique code assigned by Dun & Bradstreet to identify the precision of the figures in the Latest Financials' financial statement. Refer to Reference code table "171 [Reliability]" for all possible values.
organization.otherFinancials.isFiscal	[boolean] e.g.: true Indicates whether the Latest Financials' financial figures cover a full year accounting period.
organization.otherFinancials.isInterim	[boolean] e.g.: true Indicates that the Latest Financials' financial statement covers an interim instead of a fiscal period (e.g., quarterly, half-year).
organization.otherFinancials.isAudited	[boolean] e.g.: true Indicates if the Latest Financials' accounts have been reviewed by a qualified accountant independent of

	<p>the organization and the accountant has signed the financial statement certifying it is accurate and complete.</p>
organization.otherFinancials.isAuditUnknown	<p>[boolean] e.g.: false</p> <p>Indicates that there is no information to make the determination whether the Latest Financials' financial statement has been reviewed by a qualified accountant.</p>
organization.otherFinancials.isFinal	<p>[boolean] e.g.: true</p> <p>Indicates whether the financial figures are for the entity's closing statement.</p> <ul style="list-style-type: none"> - If true, the financial figures are for the entity's closing statement. - If false, the financial figures are not for the entity's closing statement.
organization.otherFinancials.isOpening	<p>[boolean] e.g.: true</p> <p>Indicates whether the financial figures declare the financial state of the business on its very first day of trading.</p> <ul style="list-style-type: none"> - If true, the financial figures declare the financial state of the business on its very first day of trading. - If false, the financial figures do not declare the financial state of the business on its very first day of trading.
organization.otherFinancials.isProforma	<p>[boolean] e.g.: true</p> <p>Indicates whether the financial statement is a presentation of a hypothetical balance sheet and income statement based on a set of assumptions.</p> <ul style="list-style-type: none"> - If true, the financial statement is a presentation of a hypothetical balance sheet and income statement based on a set of assumptions. - If false the financial statement is not a presentation of a hypothetical balance sheet and income statement based on a set of assumptions.
organization.otherFinancials.isSigned	<p>[boolean] e.g.: true</p> <p>Indicates whether the Financial Statement information contains the signature(s) of the principal(s) of this entity signifying that it is approved.</p> <ul style="list-style-type: none"> - If true, the Financial Statement information contains the signature(s) of the principal(s) of this entity signifying that it is approved. - If false, the Financial Statement information does not contain the signature(s) of the principal(s) of this entity signifying that it is approved.

organization.otherFinancials.overview.nonOperatingIncome	[number] e.g.: 12500.5 The portion of an organization's income that is derived from activities not related to its core business operations.
organization.otherFinancials.overview.taxCharge	[number] e.g.: 12500.5 Tax Charge means any sales tax or other Tax owing by an Obligor that is included on any invoice for any Receivable. Tax Charge shall include all real property and personal property taxes.
organization.otherFinancials.overview.minorityInterestAllocation	[number] e.g.: 12500.5 Minority interest allocation refers to the ownership stake in a company where the parent company does not hold more than 50% of the voting shares.
organization.otherFinancials.overview.extraordinaryItems	[number] e.g.: 12500.5 The events or transactions that are abnormal, not related to the ordinary activities of a company, and unlikely to recur in the foreseeable future. Examples include significant losses from natural disasters, such as earthquakes or floods, that are not typical for the company's operations.
organization.otherFinancials.overview.netIncome	[number] e.g.: 12500.5 Net income, also known as net profit or the bottom line, is the amount of money a company has left after subtracting all expenses, interest, and taxes from total revenues.
organization.otherFinancials.overview.interestExpense	[number] e.g.: 12500.5 Interest expense represents the cost of borrowed funds and is incurred when a company takes out loans, issues bonds, or utilizes lines of credit. It reflects the fee paid to lenders for the use of their capital over a specified period.
organization.otherFinancials.overview.netCashFromOperatingActivities	[number] e.g.: 12500.5 Net cash from operating activities, also known as operating cash flow (OCF) or net cash from operating activities, is a key financial metric that indicates the amount of cash generated by a company's core business operations. It is calculated by taking a company's net income, adjusting for non-cash items, and accounting for changes in working capital.
organization.otherFinancials.balanceSheet	[object] The details of the Latest Financials' balance sheet statement which summarizes the organization's assets, liabilities, and shareholder's equity at a specific point in time.

organization.otherFinancials.balanceSheet.assets	[object] The details of the assets on the balance sheet.
organization.otherFinancials.balanceSheet.assets.currentAssets	[object] Assets that are held for short term; raw materials that are bought, made up, sold as finished goods and eventually paid for.
organization.otherFinancials.balanceSheet.assets.currentAssets.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.otherFinancials.balanceSheet.assets.currentAssets.statementItems.itemGroupLevel	[integer] e.g.: 6 Contains the code indicating the item's position in the financial statement hierarchy, e.g. it indicates if the item is a total, sub-total or item. The value of this element may be used to set offset positions (indents) by the product fabrication process.
organization.otherFinancials.balanceSheet.assets.currentAssets.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.otherFinancials.balanceSheet.assets.currentAssets.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.otherFinancials.balanceSheet.assets.currentAssets.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.otherFinancials.balanceSheet.assets.currentAssets.statementItems.priority	[integer] e.g.: 23 Contains the order number in which items should be presented within the Financial Statement Schedule where the lower the number the earlier the data is presented. i.e. a display sequence number is a unique number within the schedule.
organization.otherFinancials.balanceSheet.assets.currentAssets.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.otherFinancials.balanceSheet.assets.longTermAssets	[object] The details of the long-term asset items within the Latest Financials Balance Sheet i.e., items expected to be realized in more than 12 months.
organization.otherFinancials.balanceSheet.assets.longTermAssets.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.otherFinancials.balanceSheet.assets.longTermAssets.statementItems.itemGroupLevel	[integer] e.g.: 6 Contains the code indicating the item's position in the financial statement hierarchy, e.g. it indicates if the item is a total, sub-total or item. The value of this element may be used to set offset positions (indents) by the product fabrication process.

organization.otherFinancials.balanceSheet.assets.longTermAssets.statementItems.itemKey	[object]	Details of the account for the monetary amount recorded in Item Amount.
organization.otherFinancials.balanceSheet.assets.longTermAssets.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies	Description of the account for the monetary amount recorded in Item Amount.
organization.otherFinancials.balanceSheet.assets.longTermAssets.statementItems.itemKey.dnbCode	[integer] e.g.: 584	A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.otherFinancials.balanceSheet.assets.longTermAssets.statementItems.priority	[integer] e.g.: 23	Contains the order number in which items should be presented within the Financial Statement Schedule where the lower the number the earlier the data is presented. i.e. a display sequence number is a unique number within the schedule.
organization.otherFinancials.balanceSheet.assets.longTermAssets.statementItems.value	[number] e.g.: 10584	Monetary value of a Financial Statement Item.
organization.otherFinancials.balanceSheet.assets.statements.items	[array (object)]	Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.otherFinancials.balanceSheet.assets.statements.items.itemGroupLevel	[integer] e.g.: 6	Contains the code indicating the item's position in the financial statement hierarchy, e.g. it indicates if the item is a total, sub-total or item. The value of this element may be used to set offset positions (indents) by the product fabrication process.
organization.otherFinancials.balanceSheet.assets.statements.items.itemKey	[object]	Details of the account for the monetary amount recorded in Item Amount.
organization.otherFinancials.balanceSheet.assets.statements.items.itemKey.description	[string] e.g.: Equity Interests In Associated Companies	Description of the account for the monetary amount recorded in Item Amount.
organization.otherFinancials.balanceSheet.assets.statements.items.itemKey.dnbCode	[integer] e.g.: 584	A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.otherFinancials.balanceSheet.assets.statements.items.priority	[integer] e.g.: 23	Contains the order number in which items should be presented within the Financial Statement Schedule where the lower the number the earlier the data is presented. i.e. a display sequence number is a unique number within the schedule.
organization.otherFinancials.balanceSheet.assets.statements.items.value	[number] e.g.: 10584	Monetary value of a Financial Statement Item.

organization.otherFinancials.balanceSheet.liabilities	[object] The legal debts or obligations of a company that arise during the course of business operations. Liabilities are settled over time through the transfer of economic benefits including money, goods, or services.
organization.otherFinancials.balanceSheet.liabilities.currentLiabilities	[object] The details of the entity's total value of all obligations to pay out cash at some date in the near future.
organization.otherFinancials.balanceSheet.liabilities.currentLiabilities.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.otherFinancials.balanceSheet.liabilities.currentLiabilities.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.otherFinancials.balanceSheet.liabilities.currentLiabilities.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.otherFinancials.balanceSheet.liabilities.currentLiabilities.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.otherFinancials.balanceSheet.liabilities.currentLiabilities.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.otherFinancials.balanceSheet.liabilities.currentLiabilities.statementItems.itemGroupLevel	[integer] e.g.: 6 Contains the code indicating the item's position in the financial statement hierarchy, e.g. it indicates if the item is a total, sub-total or item. The value of this element may be used to set offset positions (indents) by the product fabrication process.
organization.otherFinancials.balanceSheet.liabilities.currentLiabilities.statementItems.priority	[integer] e.g.: 23 Contains the order number in which items should be presented within the Financial Statement Schedule where the lower the number the earlier the data is presented. i.e. a display sequence number is a unique number within the schedule.
organization.otherFinancials.balanceSheet.liabilities.longTermLiabilities	[object] The details of the entity's total value of all obligations to pay out cash at some date in the future but not within one year.
organization.otherFinancials.balanceSheet.liabilities.longTermLiabilities.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.otherFinancials.balanceSheet.liabilities.longTermLiabilities.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.otherFinancials.balanceSheet.liabilities.longTerm	[string] e.g.: Equity Interests In Associated Companies

Liabilities.statementItems.itemKey.description	Description of the account for the monetary amount recorded in Item Amount.
organization.otherFinancials.balanceSheet.liabilities.longTerm Liabilities.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.otherFinancials.balanceSheet.liabilities.longTerm Liabilities.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.otherFinancials.balanceSheet.liabilities.longTerm Liabilities.statementItems.itemGroupLevel	[integer] e.g.: 6 Contains the code indicating the item's position in the financial statement hierarchy, e.g. it indicates if the item is a total, sub-total or item. The value of this element may be used to set offset positions (indents) by the product fabrication process.
organization.otherFinancials.balanceSheet.liabilities.longTerm Liabilities.statementItems.priority	[integer] e.g.: 23 Contains the order number in which items should be presented within the Financial Statement Schedule where the lower the number the earlier the data is presented. i.e. a display sequence number is a unique number within the schedule.
organization.otherFinancials.balanceSheet.liabilities.equity	[object] The details of the share capital/stock originally invested by shareholders/stockholders plus any reserves that have arisen, such as retained profits, that were ploughed back into the firm. Also known as Net Worth.
organization.otherFinancials.balanceSheet.liabilities.equity.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.otherFinancials.balanceSheet.liabilities.equity.statementItems.itemGroupLevel	[integer] e.g.: 6 Contains the code indicating the item's position in the financial statement hierarchy, e.g. it indicates if the item is a total, sub-total or item. The value of this element may be used to set offset positions (indents) by the product fabrication process.
organization.otherFinancials.balanceSheet.liabilities.equity.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.otherFinancials.balanceSheet.liabilities.equity.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.otherFinancials.balanceSheet.liabilities.equity.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.otherFinancials.balanceSheet.liabilities.equity.statementItems.priority	[integer] e.g.: 23 Contains the order number in which items should be presented within the Financial Statement Schedule

		where the lower the number the earlier the data is presented. i.e. a display sequence number is a unique number within the schedule.
organization.otherFinancials.balanceSheet.liabilities.equity.statementItems.value	[number] e.g.: 10584	Monetary value of a Financial Statement Item.
organization.otherFinancials.balanceSheet.liabilities.statementItems	[array (object)]	Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.otherFinancials.balanceSheet.liabilities.statementItems.itemGroupLevel	[integer] e.g.: 6	Contains the code indicating the item's position in the financial statement hierarchy, e.g. it indicates if the item is a total, sub-total or item. The value of this element may be used to set offset positions (indents) by the product fabrication process.
organization.otherFinancials.balanceSheet.liabilities.statementItems.itemKey	[object]	Details of the account for the monetary amount recorded in Item Amount.
organization.otherFinancials.balanceSheet.liabilities.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies	Description of the account for the monetary amount recorded in Item Amount.
organization.otherFinancials.balanceSheet.liabilities.statementItems.itemKey.dnbCode	[integer] e.g.: 584	A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.otherFinancials.balanceSheet.liabilities.statementItems.priority	[integer] e.g.: 23	Contains the order number in which items should be presented within the Financial Statement Schedule where the lower the number the earlier the data is presented. i.e. a display sequence number is a unique number within the schedule.
organization.otherFinancials.balanceSheet.liabilities.statementItems.value	[number] e.g.: 10584	Monetary value of a Financial Statement Item.
organization.otherFinancials.balanceSheet.statementItems	[array (object)]	Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.otherFinancials.balanceSheet.statementItems.itemGroupLevel	[integer] e.g.: 6	Contains the code indicating the item's position in the financial statement hierarchy, e.g. it indicates if the item is a total, sub-total or item. The value of this element may be used to set offset positions (indents) by the product fabrication process.
organization.otherFinancials.balanceSheet.statementItems.itemKey	[object]	Details of the account for the monetary amount recorded in Item Amount.
organization.otherFinancials.balanceSheet.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies	Description of the account for the monetary amount recorded in Item Amount.

mKey.description	Description of the account for the monetary amount recorded in Item Amount.
organization.otherFinancials.balanceSheet.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.otherFinancials.balanceSheet.statementItems.priority	[integer] e.g.: 23 Contains the order number in which items should be presented within the Financial Statement Schedule where the lower the number the earlier the data is presented. i.e. a display sequence number is a unique number within the schedule.
organization.otherFinancials.balanceSheet.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.otherFinancials.profitAndLossStatement	[object] The details of the Latest Financials' profit and loss (P&L) statement which summarizes the revenues, costs and expenses incurred during a specified accounting period. The P&L statement is synonymous with the income statement.
organization.otherFinancials.profitAndLossStatement.statements.items	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.otherFinancials.profitAndLossStatement.statements.items.itemGroupLevel	[integer] e.g.: 6 Contains the code indicating the item's position in the financial statement hierarchy, e.g. it indicates if the item is a total, sub-total or item. The value of this element may be used to set offset positions (indents) by the product fabrication process.
organization.otherFinancials.profitAndLossStatement.statements.items.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.otherFinancials.profitAndLossStatement.statements.items.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.otherFinancials.profitAndLossStatement.statements.items.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.otherFinancials.profitAndLossStatement.statements.items.priority	[integer] e.g.: 23 Contains the order number in which items should be presented within the Financial Statement Schedule where the lower the number the earlier the data is presented. i.e. a display sequence number is a unique number within the schedule.
organization.otherFinancials.profitAndLossStatement.statements.value	[number] e.g.: 10584

ntlItems.value	Monetary value of a Financial Statement Item.
organization.otherFinancials.networthReconciliation	[object] The comparison of previous to current net worth, using income and extraordinary items to identify the reason for an increase or decrease of equity.
organization.otherFinancials.networthReconciliation.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.otherFinancials.networthReconciliation.statementItems.itemGroupLevel	[integer] e.g.: 6 Contains the code indicating the item's position in the financial statement hierarchy, e.g. it indicates if the item is a total, sub-total or item. The value of this element may be used to set offset positions (indents) by the product fabrication process.
organization.otherFinancials.networthReconciliation.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.otherFinancials.networthReconciliation.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.otherFinancials.networthReconciliation.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.otherFinancials.networthReconciliation.statementItems.priority	[integer] e.g.: 23 Contains the order number in which items should be presented within the Financial Statement Schedule where the lower the number the earlier the data is presented. i.e. a display sequence number is a unique number within the schedule.
organization.otherFinancials.networthReconciliation.statementItems.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.otherFinancials.cashFlowStatement	[object] The details of the Latest Financials' cash flow statement which records cash transactions through cash flows from operations, cash flow from investment and cash flows from financing.
organization.otherFinancials.cashFlowStatement.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.otherFinancials.cashFlowStatement.statementItems.itemGroupLevel	[integer] e.g.: 6 Contains the code indicating the item's position in the financial statement hierarchy, e.g. it indicates if the item is a total, sub-total or item. The value of this element may be used to set offset positions (indents) by the product fabrication process.

organization.otherFinancials.cashFlowStatement.statementItem.ms.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.otherFinancials.cashFlowStatement.statementItem.ms.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.otherFinancials.cashFlowStatement.statementItem.ms.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.otherFinancials.cashFlowStatement.statementItem.ms.priority	[integer] e.g.: 23 Contains the order number in which items should be presented within the Financial Statement Schedule where the lower the number the earlier the data is presented. i.e. a display sequence number is a unique number within the schedule.
organization.otherFinancials.cashFlowStatement.statementItem.ms.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.
organization.otherFinancials.notesToAccounts	[object] The details of the total value of cash held on hand, in a bank, or other location plus the value of other assets that can be quickly converted into cash and that have not been recorded elsewhere.
organization.otherFinancials.notesToAccounts.statementItems	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.
organization.otherFinancials.notesToAccounts.statementItems.itemGroupLevel	[integer] e.g.: 6 Contains the code indicating the item's position in the financial statement hierarchy, e.g. it indicates if the item is a total, sub-total or item. The value of this element may be used to set offset positions (indents) by the product fabrication process.
organization.otherFinancials.notesToAccounts.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.otherFinancials.notesToAccounts.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.otherFinancials.notesToAccounts.statementItems.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.
organization.otherFinancials.notesToAccounts.statementItems.priority	[integer] e.g.: 23 Contains the order number in which items should be presented within the Financial Statement Schedule where the lower the number the earlier the data is presented. i.e. a display sequence number is a unique

		number within the schedule.
organization.otherFinancials.notesToAccounts.statementItems .value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.	
organization.otherFinancials.socialBalanceSheet	[object] The details of the balance sheet. The Social balance sheet reports the details about employees. This is applicable for all Belgian financial templates except for Bank and Insurance assets on the balance sheet.	
organization.otherFinancials.socialBalanceSheet.statementItms	[array (object)] Financial details for a specific schedule within the Financial Statement in terms of monetary amounts.	
organization.otherFinancials.socialBalanceSheet.statementItms.itemGroupLevel	[integer] e.g.: 6 Contains the code indicating the item's position in the financial statement hierarchy, e.g. it indicates if the item is a total, sub-total or item. The value of this element may be used to set offset positions (indents) by the product fabrication process.	
organization.otherFinancials.socialBalanceSheet.statementItms.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.	
organization.otherFinancials.socialBalanceSheet.statementItms.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.	
organization.otherFinancials.socialBalanceSheet.statementItms.itemKey.dnbCode	[integer] e.g.: 584 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "33 [Financial Statement Item]" for all possible values.	
organization.otherFinancials.socialBalanceSheet.statementItms.priority	[integer] e.g.: 23 Contains the order number in which items should be presented within the Financial Statement Schedule where the lower the number the earlier the data is presented. i.e. a display sequence number is a unique number within the schedule.	
organization.otherFinancials.socialBalanceSheet.statementItms.value	[number] e.g.: 10584 Monetary value of a Financial Statement Item.	
organization.otherFinancials.financialRatios	[object] The entity's financial figure(s) in terms of another of the entity's financial figures. These ratios are indicators used to evaluate an entity's financial condition and potential risk. They are especially meaningful in comparisons (e.g., an entity's ratio in comparison to that of its industry, an entity's ratio over time (trend)). These ratios may give insight into profitability, liquidity, activity (operations), or leverage.	
organization.otherFinancials.financialRatios.statementItems	[array (object)] The details of financial ratios relating to the stated financial period.	

organization.otherFinancials.financialRatios.statementItems.itemGroupLevel	[integer] e.g.: 6 Contains the code indicating the item's position in the financial statement hierarchy, e.g. it indicates if the item is a total, sub-total or item. The value of this element may be used to set offset positions (indents) by the product fabrication process.
organization.otherFinancials.financialRatios.statementItems.itemKey	[object] Details of the account for the monetary amount recorded in Item Amount.
organization.otherFinancials.financialRatios.statementItems.itemKey.description	[string] e.g.: Equity Interests In Associated Companies Description of the account for the monetary amount recorded in Item Amount.
organization.otherFinancials.financialRatios.statementItems.itemKey.dnbCode	[integer] e.g.: 3043 A unique code assigned by Dun & Bradstreet to identify the account for the monetary amount recorded in Item Amount. Refer to Reference code table "145 [Statistical Norm Types]" for all possible values.
organization.otherFinancials.financialRatios.statementItems.priority	[integer] e.g.: 23 Contains the order number in which items should be presented within the Financial Statement Schedule where the lower the number the earlier the data is presented. i.e. a display sequence number is a unique number within the schedule.
organization.otherFinancials.financialRatios.statementItems.relativeIndustryRank	[string] e.g.: 4 The quartile into which the entity falls with respect to entities in the same industry for this Derived Financial Item Code. <ul style="list-style-type: none"> - If the financial ratio is greater than or equal to the industry upper quartile, entity is assigned 4. - If the financial ratio is greater than or equal to the industry median, but less than the industry upper quartile, entity is assigned 3. - If the financial ratio is greater than the industry lower quartile, but less than the industry median, the entity is assigned 2. - If the financial ratio is less than or equal to the industry lower quartile, the entity is assigned 1.
organization.otherFinancials.financialRatios.statementItems.value	[number] e.g.: 75 The proportion of one or more of the entity's financial figures in relation to one or more of the entity's other financial figures. This figure is an indicator used to evaluate the entity's financial condition or potential risk. For example, a Quick Ratio, which is the sum of an entity's cash and accounts receivable amounts divided by its current liabilities, is a predictor of how likely the business is to pay its bills on time.
organization.otherFinancials.rolePlayers	[array (object)] The details of the parties that played by a party in the preparation of the Financial Statement.
organization.otherFinancials.rolePlayers.address	[object] The address of the party who is involved in the preparation of the Financial Statement.
organization.otherFinancials.rolePlayers.address.addressCountry	[object]

ntry	The details of the country or region for this address of the organization.
organization.otherFinancials.rolePlayers.address.addressCountry.isoAlpha2Code	<p>[string] e.g.: US The 2 letter alpha country code assigned by the International Organization for Standardization (ISO) identifying the Country/Region for this address of the organization.</p> <p>Note: Please refer to Country Code Substitutions Table [/html/resources/CountryCodes.html#country-substitute] for the country code substitutions.</p>
organization.otherFinancials.rolePlayers.address.addressCountry.name	<p>[string] e.g.: United States The country or region for this address of the organization.</p>
organization.otherFinancials.rolePlayers.address.addressCountry	<p>[object] The details of the geographical area of a Country or Region for this address of the organization. Countries divide their geography into smaller sub divisions.</p> <p>County is an example of a commonly used subdivision. Often found in UK.</p>
organization.otherFinancials.rolePlayers.address.addressCountry.name	<p>[string] e.g.: SAN MATEO The name of the geographical area of a Country or Region for this address of the organization.</p> <p>Countries subdivide their geography into smaller sub divisions. County is an example of a commonly used subdivision, often found in the UK.</p>
organization.otherFinancials.rolePlayers.address.addressLocality	<p>[object] The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.</p>
organization.otherFinancials.rolePlayers.address.addressLocality.name	<p>[string] e.g.: SAN FRANCISCO The name of the locality for this address of the organization. Locality defined as a district population cluster. City, town, township, village, borough etc.</p>
organization.otherFinancials.rolePlayers.address.addressRegion	<p>[object] The name of the geographical area for this address of the organization. For Example New Jersey.</p>
organization.otherFinancials.rolePlayers.address.addressRegion.name	<p>[string] e.g.: California The name of the geographical area for this address of the organization. For Example New Jersey.</p>
organization.otherFinancials.rolePlayers.address.language	<p>[object] The details of the language in which this address was recorded.</p>
organization.otherFinancials.rolePlayers.address.language.description	<p>[string] e.g.: English The name of the language in which this address was recorded.</p>
organization.otherFinancials.rolePlayers.address.language.dn	<p>[integer] e.g.: 39</p>

bCode	A unique code assigned by Dun & Bradstreet to identify the language in which this address was recorded. Refer to Reference code table "3 [Language]" for all possible values.
organization.otherFinancials.rolePlayers.address.minorTownName	[string] e.g.: Booker The name of the village, town or suburb for this address of the organization. For example Booker in Booker, High Wycombe.
organization.otherFinancials.rolePlayers.address.postalCode	[string] e.g.: 941109999 The postal code for this address of the organization. Also known locally in various English-speaking countries throughout the world as a postcode, post code, Eircode, PIN or ZIP Code) is a series of letters or digits or both, sometimes including spaces or punctuation, included in a postal address for the purpose of sorting mail. The code is used by the country's postal authority to identify the address where the organization is located or conducts operations .
organization.otherFinancials.rolePlayers.address.streetAddresses	[object] The details of the street address for this address of the organization.
organization.otherFinancials.rolePlayers.address.streetAddresses.line1	[string] e.g.: 492 KOLLER ST The first line of the address where the entity is located. The first line of this address of the organization. For example The Point in the address The Point 37 North Wharf Road London W2 1AF
organization.otherFinancials.rolePlayers.address.streetAddresses.line2	[string] e.g.: Suite 100 The second line of this address of the organization. For example 37 North Wharf Road in the address The Point 37 North Wharf Road London W2 1AF
organization.otherFinancials.rolePlayers.address.streetName	[string] e.g.: KOLLER ST The name of the street for this address of the organization. For example North Wharf Road in the address The Point 37 North Wharf London W2 1AF
